		Commission inspection trip discussed. No action.
20437		Commission meeting date set for September 22 and 23, 1952.
		Union County. Old Oregon Trail. Ladd Canyon Project. Dedication set for October 5, 1952.
		Bond Money Program discussed. Action deferred.
		West Portland-Hubbard Hwy. Willamette River Bridge. Bids to be received in 1952 for steel trusses.
		Transfer of funds from four projects approved.
20438		West Portland-Hubbard Hwy. Barbur Boulevard-White School Section. Bids to be called in September.
		Secretary's report of papers he has signed accepted.
		Contracts. Public announcement made of awards.
20440		Deschutes County. Bend. Construction of Shop, Storage and new Division Hdqtrs. bldgs. approved.
		Construction Program. Five-year list of projects considered. Action deferred.
		Douglas County. Elkton-Sutherlin Secdy. Hwy. Elkton to Pacific Hwy. Improvement discussed. Action deferred.
20441		Meeting adjourned at 4:00 p.m.

Page	Date 1952	Subject
20441	Aug.19	Bids for construction projects received.
20444		Wheeler County. John Day. Hwy. Butte Creek Summit. Delegation requests improvement. Action deferred.
		Umatilla County. Hermiston. Delegation requests several improvements.
		Portland. Northwest Thurman Street. Delegation requests improvement as state highway.
20446		Clatsop County. Columbia River Hwy. Big Creek Section. Settlement with Booth for damage to well approved.
		Columbia River Hwy. Log hauling permit for Mr. Vale and all other applications to be denied.
20447		Meeting recessed at 12:00 noon.
		Jefferson County. Culver. Delegation request for secdy. hwy. easterly from Culver denied.
20448		Clackamas County. Milwaukie-Estacada Hwy. Earl R. Marsh presents claim for damages to land. Action deferred.
		Deschutes County. The Dalles-California Hwy. Terrebonne-Crooked River Bridge. Delegation's request for improvement approved conditionally.
		Gilliam County. Wasco-Heppner Secdy. Hwy. Cottonwood Canyon Section. Delegation requests oiling.
20450		Contracts. Public announcement made re award.
20451		Portland. Swift Secdy.-US99W hwys. Kernan appears re settlement of r/w dispute. Project abandoned.
20452		Hood River County. City of Hood River. Delegation requests development of Koberg Beach.
		Mt. Hood Hwy. Improvement at Fikes Corner requested. Action deferred.
		Lane County. Eugene-Springfield area. Delegation presents outline of improvements needed.
		City of Springfield. Status of South "A" Street project discussed.
20453		Allocation of funds to counties. Formula approved for two years.
20454		Wasco County. Columbia River Bridge at The Dalles. Delegation requests new hwy. connection to bridge. Project to be studied.
20455		Condemnations. Authority granted to institute proceedings. See EXHIBITS "N-1" through "N-4".
		Clackamas County. Mt. Hood Hwy. Rhododendron. Sale of house confirmed.
20456		Coos County. Oregon Coast Hwy. Construction of cattle passes to be investigated.
		Curry County. Oregon Coast Hwy. Rocky Point-Euchre Creek. Location survey authorized.
		Curry County. Oregon Coast Hwy. Gold Beach. Extension of hwy. improvement requested. Action deferred.
		Coos County. Coos River Secdy. Hwy. Enegren Ferry to Coos River. Bids for paving to be received in November.
		Striping of hwys. discussed.
		Construction program. Projects selected.
20460		Agreements and other papers signed.
20462		Meeting adjourned at 5:00 p.m.

Portland, Oregon
July 10, 1952

The State Highway Commission convened in regular session at 9:00 a.m. Pacific Standard Time, in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistand State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Bids as follows for highway construction and the making of an aerial survey for a proposed relocation of the Oregon Coast Highway in Curry County were opened and read aloud by the Secretary in conformity with previously published notices, at the conclusion of which it was announced that the awards of contracts would be made at 4:00 p.m. Pacific Standard Time, in the same room:

COLUMBIA RIVER HIGHWAY IN CLATSOP COUNTY
ASTORIA (28TH STREET - 32D STREET) SECTION

C. H. Grimstad and T. Vanderveldt, Astoria	$ 34,027.00

CLATSOP COUNTY
AVENUE "G" BRIDGE IN SEASIDE

George E. Berry, Beaverton	$ 44,687.50
Orlando C. Bennard, Portland*	48,170.00

* Bidder will accept award of only one project

CROOK COUNTY
TERREBONNE-O'NEIL AND LONE PINE SCHOOL COUNTY ROADS

Babler Bros., Inc., Portland	$ 91,327.00
F. L. Somers, Klamath Falls	97,770.00
Peter Kiewit Sons' Co., Longview, Washington	99,962.50
C. J. Eldon, Portland	109,055.00

CURRY COUNTY
EUCHRE CREEK-BROOKINGS AERIAL MAPPING PROJECT

Delano Aerial Surveys, Portland *	$ 19,990.00

* No unit prices bid on Items 1 and 3

PACIFIC HIGHWAY IN DOUGLAS COUNTY
GRADING AND SURFACING ANLAUF-ELKHEAD ROAD UNIT

Babler Bros., Inc., Portland	$988,629.00
Guy F. Atkinson Co., Portland	1,040,004.00
McNutt Bros., Eugene	1,107.023.00
Fred H. Slate Co. Oreg. Ltd. and E. C. Hall Co., Portland	1,109,345.00
Kuckenberg Construction Co., Inc., Portland	1,182,904.00
Peter Kiewit Sons' Company, Longview, Washington	1,315.362.00

ELKTON-SUTHERLIN HIGHWAY IN DOUGLAS COUNTY
CALAPOOYA CREEK BRIDGE

Tom Lillebo, Reedsport	$ 71,362.00
Teller Construction Co., Portland	72,035.00
Todd Building Co., Roseburg	73,240.00
VaDare Construction Co., Portland	75,350.00
Hamilton & Thoms, Eugene	77,484.00
Orlando C. Bennard, Portland *	83,750.00
Valley Construction Co., Portland	87,180.00

* Bidder will accept award of only one project

UMPQUA HIGHWAY IN DOUGLAS COUNTY
REEDSPORT-DEAN CREEK SECTION, MIDDLE UNIT

Fred H. Slate Co. Oreg. Ltd., Portland	$311,220.00
E. C. Hall Co., Portland	338,495.00
C. J. Eldon, Portland	368,221.50
Umpqua River Navigation Co., Reedsport	399,311.00

KLAMATH AND LANE COUNTIES
McCREDIE SPRINGS-WILLAMETTE JUNCTION ROCK PRODUCTION

Rogers Construction Co., Portland	$ 69,355.00
Peter Kiewit Sons' Company, Longview, Washington	69,760.00

TERRITORIAL SECONDARY HIGHWAY IN LANE COUNTY
BENTON COUNTY LINE-CHESHIRE SECTION

Porter W. Yett, Portland	$173,531.50
Central Heating Co. Oreg. Ltd., Eugene	191,015.00
Babler Bros., Inc., and Rogers Const. Co., Portland	198,981.00
Acme Construction Co., Eugene	200,312.90
Parker-Schram Co., Portland	212,354.50
Pacific Asphalt Paving Co., Portland	219,054.00
Durbin Bros., Eugene	229,680.00
E. C. Hall Co., and J. C. Compton Co., Portland	235,216.00

SIUSLAW HIGHWAY IN LANE COUNTY
LOW PASS SECTION

Natt McDougall Company, Portland	$753,510.00
Funderburk Construction Co., Sutherlin	767,096.50
Kuckenberg Construction Co., Portland	821,772.00
Fred H. Slate Co. Oreg. Ltd. and E. C. Hall Co., Portland	848,206.00
Lucich Company, Seattle, Washington	849,220.00
Roy L. Houck and Son, Salem	925,436.50
Parker-Schram Co., Portland	973,467.50
McNutt Bros., Eugene	987,740.50
Peter Kiewit Sons' Company, Longview, Wash.	1,076,826.00

MULTNOMAH COUNTY
OREGON SLOUGH BRIDGE EXPANSION PLATES

West Coast Steel Works, Portland	$ 15,940.00
James & Yost, Inc., Portland	15,958.00

DALLAS-COAST HIGHWAY IN POLK COUNTY
WEST APPROACHES TO SALEM BRIDGES

E. L. Kennard, Enumclaw, Washington	$ 57,816.00
F. O. Laws, Myrtle Point	70,410.00
F. C. Scott Construction Co., Portland	75,377.00
Stevenson Construction Co. and J. R. Taggart, Salem	81,222.00
C. T. Malcom and Co., Portland	82,183.50
Roy L. Houck and Son, Salem	82,364.50
Salem Sand and Gravel Co., Salem	86,599.00
John A. Logan, Portland	87,942.50
R. A. Heintz Construction Co., Portland	94,906.00
Durbin Bros., Eugene	104,980.00

WASCO COUNTY
THE DALLES TRAFFIC SIGNALS

Trowbridge and Flynn Electric Co., Medford	$ 19,520.00

July 10, 1952

The Dalles Traffic Signals, cont.

Carl Anderson, Walla Walla, Washington	$ 20,321.02
Snider Electric, The Dalles	22,517.00
W. R. Grasle, Portland	22,960.00
Mid Columbia Electric Co., The Dalles	23,013.11
Mill Electric Co., Salem	23,558.00

COLUMBIA RIVER HIGHWAY IN WASCO COUNTY
GRADING AND PAVING SHOGREN-ROWENA UNIT

Parker-Schram Co., Portland	$1,223,561.50
Peter Kiewit Sons' Company, Longview, Washington	1,253,016.00
Kuckenberg Construction Co., Portland	1,353,213.00
Rogers Construction Co., Portland	1,418,785.00

J. A. Terteling and Sons, Boise, Idaho	2,014,040.98

UNDERCROSSING STRUCTURES IN WASHINGTON COUNTY
NYBERG, SAGERT, NORWOOD, AND STAFFORD ROAD VIADUCTS

Birkemeier and Saremal, Portland	$153,925.00
Teller Construction Co., Portland	166,994.00
C. J. Eldon, Portland	177,143.20
Valley Construction Co., Portland	177,355.00
Lindstrom Bros., Portland	179,766.00
Donald M. Drake Co., Portland	181,829.00
Natt McDougall Company, Portland	191,712.00

The Commission unanimously approved the minutes of its meeting held on May 26 and 27, 1952.

The State Parks Superintendent reported on State park matters as follows.

1. Consider extension of agreement with Mr. and Mrs. Jack Flaucher covering a concession at the Vista House on the Columbia River Highway. The Parks Superintendent advised that the present agreement with Mr. and Mrs Flaucher will expire on March 31, 1953 but they would like to know whether or not it will be extended so they can govern their actions accordingly. He advised that the Highway Department received more than $6,000 last year from this concession, and he recommended approval of a one-year extension from April 1, 1953 to March 31, 1954 with the understanding that the Vista House may be closed to the public during the months of

January and February when business is slack. The Commission approved the recommendation.

2. Request of Kenneth R. and Nellie Fromm for an extension of the Fromm lease covering sheep grazing in Humbug Mountain State Park: The Parks Superintendent advised that Mr. Fromm, Senior, who had this lease for a number of years, passed away some time ago, and his widow and son now wish to continue the lease for another year. He recommended approval of the request subject to the same conditions and terms of the former arrangement. The Commission approved the recommendation.

3. Request of James H. Smith, Grand Ronde, for permission to dig a well on State Highway property near Rogue River on the south side of the Salmon River Highway $2\frac{1}{2}$ miles west of Grand Ronde: The Parks Superintendent advised that Mr. Smith owns a small tract of land adjoining the State's property, but it is not conveniently located with respect to the river so he has asked the privilege of taking water from the State's land. The State's property, he said, is not developed in any way and is a portion of an area that is being held for protection of wayside growth. He also said that the well and pipe line will not materially effect the State's property nor detract from its use. He accordingly recommended approval of the request. The Commission approved the recommendation. The matter is to be covered by written agreement which is to contain provisions to protect the State's interests.

4. Consider purchase of tax lots 13 and 14 in Section 28, Township 1 North, Range 5 East, W. M., Multnomah County: The Parks Superintendent advised that the two lots which are owned by the County, are located adjacent to the Upper Columbia River Highway near Shepherds Dell; that the property consists of 8.67 acres containing a considerable stand of timber; and that it can be purchased from the County for the sum of $100. He recommended purchase of the property at such figure. The Commission approved the recommendation.

5. Erection of a plaque in Cape Lookout State Park commemorating the late Louis W. Hill: The Parks Superintendent advised that in its donation of 175 acres of land at the south end of Netarts Bay, one of the conditions imposed by the Hill family was that a plaque be placed in the area in memory of Mr. Hill. The Hill family, he said, have now determined upon a wording for that plaque, which reads as follows:

"LOUIS W. HILL STATE PARK

This plaque is located on a tract of land given to the people of the State of Oregon for park purposes as a memorial to Louis W. Hill of Saint Paul, Minnesota (1872-1948), President and Chairman of the Board of the Great Northern Railway Company, Developer of Glacier National Park, and a Lifetime Champion of the Pacific Northwest and its great resources. Presented by the Hill Foundation in accordance with the wishes of his Children."

He recommended approval of the wording. The Commission approved the recommendation

6. Request of Isaac Walton League of America for development of three state park areas along the Oregon Coast Highway in Lincoln County: The Parks Superintendent advised that the areas lie between the highway and the ocean, north of Beaver Creek and south of Patterson State Park. One of the areas, he said, is at Lost Creek, about 1.7 miles north of Beaver Creek, and the other two are within one mile northerly thereof. The Lost Creek area, he said, lends itself very well for development because it is near the elevation of the beach and is somewhat sheltered. He recommended development of this tract in 1953 at an approximate cost of $1,000, but that nothing be done with the others. The Commission approved the recommendation.

7. Request of Pilot Rock Lumber Company for a road crossing of a State Park area adjacent to the Pendleton-John Day Highway south of Ukiah, Umatilla County. The Parks Superintendent pointed out that this park or wayside was acquired from the Pilot Rock Lumber Company and that the deed of conveyance contained provision for the Company to have a road connection were it necessary in their logging operations. The construction of the roadway as planned, he said, will do no particular damage to the area, and he accordingly recommended approval of the request. The Commission approved the recommendation.

8. Request of Mr. A. B. Lambert, Portland, for permission to place brochures, advertising "Lambert Gardens", at the Vista House on the Columbia River Highway: The Parks Superintendent questioned the advisability of letting Mr. Lambert distribute his folders at this place, particularly in containers on the outside of the building because, in his estimation, many people, after looking at the folders, would throw them away, and the premises would soon take on an unsightly appearance. There is also a question of whether or not the concessionnaire at the Vista House would be required to pick them up. The matter was discussed at considerable length, and as a result thereof, the Commission unanimously approved the distribution of Mr. Lambert's brochures at the Vista House on the condition that they are placed in containers within the building and provided there are no objections from the concessionnaire. Under no circumstances are the brochures to be distributed outside of the building. (The action taken was conveyed to Mr. Lambert who appeared before the Commission on the following day regarding this and affiliated matters. See additional paragraph ahead.)

9. Request of Chambers of Commerce of Delake and Oceanlake for establishment and development of a state park on US 101 at Oceanlake: The Parks Superintendent advised that he has been approached by representatives of these two Chambers of Commerce regarding the State acquiring 14 acres of land lying between the highway and the ocean in the north part of the town of Oceanlake, for the convenience and accomodation of people who wish to picnic at the beach and do not care to stay overnight. He gave as his feeling that the development of a park at this location might be quite heavily patronized, but he pointed out that it is contrary to the Commission's policy to provide parks within incorporated cities and towns and within built-up unincorporated

communities. The purchase price of the property, he said, is $10,000. He gave as his opinion that the development of a park at this location is a city project, and he recommended that the property be not acquired by the State. The Commission concurred in the viewpoint of the Parks Superintendent regarding this particular feature; however, because of the fact that the Oceanlake district is the first place where people from the interior have a glimpse of the ocean, it was the feeling of the Commission that wayside areas should be provided if possible for the convenience of people who desire to stop for picnic lunches, etc. Accordingly, the Commission ordered an investigation of such possibilities along this highway between Otis Junction and Nelscott and that findings be reported to the Commission. (See additional paragraph ahead covering a delegation which appeared before the Commission on the following day concerning this subject.)

10. Report on proposal for the establishment of a state park at Wilhoit Springs in Clackamas County: The Parks Superintendent presented a comprehensive written report on this subject prepared as a result of a careful study and investigation pursuant to instructions from the Commission at the previous meeting. In his report the Parks Superintendent points out that the area contains $22\frac{1}{2}$ acres of land which are owned by a Mr. Albert Schoenborn, et ux and $7\frac{1}{2}$ acres of timber land which the Schoenborns lease from the Bureau of Land Management, U. S. Department of the Interior, at $50 per year on a five-year basis. He recalled that the owner wants $35,000 for the property, whereas appraisal reveals a value of only $26,670. He gave as his feeling that the property would make a fine addition to the state parks system, but he suggested that its purchase be deferred until the owners are willing to sell at a less cost. He expressed the feeling that if the property can be acquired for $26,000, the State should buy it at once. Commissioner McIver expressed his feeling that if the property is needed for State Park purposes, it should be purchased now and that the owner should be tendered an offer in an amount that the Commission is willing to pay for the property. As a result of general discussion of the subject, the Commission decided to table the entire matter for the time being. (For details see copy of Parks Superintendent's written report in the General Files.)

11. Preservation of the scenic beauties of the Columbia Gorge: In the discussion of this subject it was recalled that a delegation representing the "Save the Gorge" Committee of the Portland Women's Forum appeared before the Highway Commission at its meeting on March 14, 1952 and urged the Commission to acquire areas in the Gorge so as to preserve for all times the natural beauties of this area. This group was headed by Mrs. Gertrude Jensen, Chairman of this Committee. It was also recalled that a group headed by Mr. Marshall Dana of Portland and including members of the Gorge Committee of the Portland Women's Forum appeared before the Commission at its meeting on May 27, 1952 and renewed its request for State acquisition of properties in this area, at which meeting Mr. Dana read aloud and presented a prepared statement containing seven proposals for the preservation of the esthetic features of the Gorge, and urged the Commission to adopt a clearly defined policy with respect to salvaging the scenic and

recreational values of the Gorge in the interest of tourist travel and Oregon citizens generally.

It was further recalled that the Commission at such meeting adopted unanimously a motion by Commissioner McIver that the State Parks Superintendent be authorized and instructed to make a thorough investigation of the lands in the Columbia Gorge as a basis for adoption by the Commission of a long range program for development of state parks in that area, and that the State Parks Superintendent was so instructed.

The State Parks Superintendent advised that pursuant to those instructions, he has made a careful study of the properties in the Columbia Gorge and has ascertained that a great portion of the land along the Highway in Hood River and Multnomah Counties, between Mist Falls and a place known as Mitchell Point about five miles west of the City of Hood River, is Federally and State owned, although there are a number of privately owned tracts consisting of home sites and a few business establishments. He presented a written report on the subject, dated July 7, 1952, together with a map showing the property ownership along the highway between Troutdale and The Dalles, and he explained details with respect to the various ownerships. The Parks Superintendent mentioned that in his investigation he had ascertained that the United States Bureau of Land Management, which controls the Federal lands in this area, is willing to exchange other lands that it controls throughout the State for the privately owned areas along the highway in the Gorge provided some agency other than the Federal Government will administer them. The administration of the lands, he explained, would consist of seeing that they are used in the manner and for the purpose for which they have been acquired and, if they are to be used by the public, to see that they are kept in a clean condition and that no encroachments occur. Title to the property, he said, would remain in the Federal Government. He gave as his opinion that a large portion of the area near the highway in the Gorge could be added to the State Parks System where it would remain untouched and would be preserved for future generations for its scenic value only. He also gave as his opinion that by effecting exchanges with the Bureau of Land Management, very little if any State funds will be needed although it will probably take a considerable length of time to complete the exchange because of the many individual ownerships. The Parks Superintendent advised that the matter has been given considerable thought by Governor Douglas McKay who is considering the appointment of a committee to study the problem, such committee to be composed of representatives of several Federal and State agencies, including the State Forester and the Administrator of the State Game Commission, as well as someone representing the State Highway Department. It was his feeling that the appointment and functioning of such committee would be advantageous to the State Highway Department in that it would relieve the Commission from full responsibility with respect to the project, although in his estimation the administration of the area should be under the jurisdiction of the State Highway Commission. He gave as his thought as a result of consultation with the Governor, that he will be appointed a member of that committee and he asked the Commission to authorize him to accept the appointment if it is tendered to him. This matter was discussed by the Commission at some length during which each member of the Commission expressed his approval of the proposed arrangement for

handling the matter which the Commission understands is the setting up of an organization to acquire additional areas in the Columbia Gorge for preservation of the scenic aspects of that area without expense to the State. The Commission thereupon authorized the State Parks Superintendent to accept appointment on the committee if and when such appointment is tendered to him by the Governor. (For further details see entry in the minutes of the meeting held on March 14, 1952, two entries in the minutes of the meeting held on May 27, 1952, and copy of the Parks Superintendent's report in the General Files.)

12. Report on damage recently occurred to the tunnel in Lava Caves State Park: The Parks Superintendent advised that on Saturday, June 14, a cave-in occurred in the tunnel at a point at about 560 feet from the portal, but no one was injured. The Cave entrance, he said, was immediately barracaded, and a thorough investigation was made by an experienced tunnel man, who specified certain things to be done to insure safety for people who wish to inspect the caves. The prescribed remedy he said, is now under way, and he gave as his feeling that it will be no more hazardous for the public to use the tunnel up to the point of the cave-in than in the past, but the public should not be allowed to go beyond that point. In this connection, the Parks Superintendent advised that pursuant to instructions given to him by the Commission about a year ago, steps with hand railings have been constructed at steep places in the cave and a guide line has been strung throughout the tunnel to assist visitors in their inspection. He gave as his feeling that with these precautions, it no longer is necessary to provide the public with guide service, and he recommended that such service be discontinued. The Commission approved the report and the recommendation unanimously.

13. A proposal from the City of Gold Hill for establishment of a state park in Gold Hill: This matter was reported by the Right of Way Engineer inasmuch as it involves acquisition of right of way for the proposed improvement of the Pacific Highway through Gold Hill. The Right of Way Engineer explained that it was necessary to acquire from the City two small parcels of land lying between a county road and the Rogue River as right of way for the proposed highway improvement , one of the tracts being a part of a city park, and that an option has been obtained from the City to purchase the tracts at a nominal consideration. However, the City wants the State to acquire additional area at the opposite end of the park as an enlargement to the park, moreover it also wants the State to assume jurisdiction over the entire park area as a state park. The additional area referred to by the City, he said, contains about four acres of land, a portion of which is needed as right of way for the highway improvement. The land is owned by a Mr. Martin Heitkamp who is unwilling to sell a right of way only, but who will dispose of the entire tract for the sum of $4,000 and has given the State an option to purchase the tract at that price. He gave as his feeling that the price is exorbitant and requested instructions. The Commission deferred a decision in the matter pending investigation of the area by the State Parks Superintendent from the standpoint of creating a state park at this place.

A delegation consisting of the County Court of Clackamas County--W. R. Telford, County Judge, R. B. Jones, County Commissioner, S. Skoko, County Commissioner, and Walter Nutting, representing the Kendall Community Club, appeared before the Commission regarding installation of a traffic signal on S. E. 82d Avenue, Portland (Cascade Secondary Highway) at Johnson Creek Boulevard, as a protection to children who attend the Battin School, and regarding improvement of this highway between Portland and Oregon City. Mr. Nutting headed the group. Mr. Nutting spoke briefly in behalf of the traffic signal installation at the Battin School but he stressed the need for improvement of 82d Avenue because of the tremendous amount of traffic that this road carries, particularly during the morning hours and in the afternoons. He stated that they would rather have 82d Avenue improved than the signal installation. County Commissioner Jones urged improvement of 82d Avenue by widening and elimination of curves. Commissioner Skoko endorsed the remarks of Messrs. Nutting and Jones but he particularly urged installation of the traffic signal at Battin School concerning which he advised that residents of the Community will contribute toward the expense involved. He also spoke in behalf of the improvement of 82d Avenue. Judge Telford stated that their most important project is improvement of 82d Avenue and construction of a wider bridge across the Clackamas River at Park Place. The presentation was concluded by Mr. Nutting who urged favorable consideration of their project because their district is developing rapidly as is reflected by the large increase in the number of school children necessitating enlargement of school facilities, and because of increased traffic on the highway. The Commission deferred any action in the matter pending conference with the delegation which is scheduled to be present the following day. (See ahead for additional paragraph.)

Following departure of the group the Assistant Highway Engineer, Mr. W. C. Williams, advised that the request for traffic signal at Battin School has been before the Highway Commission on several occasions in the past and that each time the request has been denied because existing conditions did not meet the nationally accepted warrant for signalization. He pointed out that the Commission at one time granted the local people authority to operate a portable signal at the point where the school children cross the highway, but the people did not see fit to utilize the privilege. He also pointed out that signal installations have been requested in other similar locations and have been denied by the Commission, and in those instances the people installed signals at their own cost and expense. As to improvement of 82d Avenue, he said that because of developments that have taken place south of Portland, the present four lane highway will have to be extended about two miles from its present terminus in the not distant future. He suggested consideration of the project in the 1953 program, and gave as his opinion that investigation should be made now. The Commission unanimously authorized such investigation.

The meeting recessed for luncheon at 12:00 Noon, Pacific Standard Time, and reconvened at 2:00 p.m. Pacific Standard Time, with the same persons present and participating.

The Right of Way Engineer presented for the Commission's considera-

tion options obtained for real property needed as right of way or for other highway purposes: As a result of careful consideration, the Commission approved the options and authorized the Right of Way Engineer to close them at the prices mentioned therein. The attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission unanimously.

The following footnotes refer to items appearing in EXHIBIT "A" mentioned in the above paragraph:

FOOTNOTE 1: Re File No. 19231, R & L Lumber Company regarding acquisition of right of way, Low Pass Section of the Siuslaw Highway in Lane County: The Right of Way Engineer advised that 33½ acres of land will be required from the R & L Lumber Company for this highway improvement and that the problem is complicated because of the fact that the Company has a logging roadway which leads south from the existing highway, and the new highway at that point is in a cut more than 100 feet deep, so it would not be possible to connect it directly with the logging road. In order to provide the owners with an adequate road to serve their purposes, he said, it will be necessary to construct a somewhat lengthy alternate roadway which is estimated to cost from $10,000 to $15,000. The Company, he said, has offered to settle on the following bases: that the State pay the Company $2,000 for right of way, and to sell to the Company the merchantable timber standing on that portion of the old right of way lying northerly from the existing center line, there being about 400,000 board feet of timber involved, for which the Company is willing to pay the sum of $20 per thousand based on a state cruise, or approximately $8,500. In return, the Company will relieve the State from any obligation with respect to its roadway. He recommended approval of the settlement on such basis. The Commission approved the recommendation.

FOOTNOTE 2: Re File No. 18805, acquisition of right of way from J. K. Howard on the Hauser-Coos Bay Section of the Oregon Coast Highway in Coos County: The Right of Way Engineer explained this transaction in considerable detail, advising that 7.78 acres of land are required as right of way and an easement is required for a channel change over an additional three acres of land. The consideration involved, he said, is a cash payment of $21,332 and the State assumes certain other obligations as follows:

(1) The State is to construct a new channel for North Slough upon the three acres over which the channel easement is being acquired, so as to provide a log dump for the Howards.

(2) The Howards are to be permitted by the State to place "deadmen" on the highway right of way in connection with their use of the proposed log dump, but the "deadmen" are to be installed so as not to create a hazard or do damage to the highway.

(3) The State is to construct an all-weather road to serve the log dump and is to maintain that portion of the road which is located upon the highway right of way.

(4) The State is to construct a roadway on top of the dike which is to be constructed as a part of the channel change.

(5) The State is to construct two gates on the right of way boundary, one at each entrance to the log dump road.

(6) The State is to permit the Howards to have exclusive use for a period of five years from the date of the warranty deed conveying the property to the State, of a certain parcel of land lying immediately south of the Hauser-Depot Road and easterly of a line 100 feet from and parallel to the center line of the highway, such use to be terminated at any time within the five-year period that the land is necessary and required for highway use.

(7) The State is to install a conduit through the highway fill in which the Howards are to be permitted to maintain water pipes crossing the highway.

(8) The State is to reconstruct and replace any ditches, gates, or other water control structures that may be destroyed or rendered ineffective by the highway construction.

(9) The State is to make every effort to schedule and prosecute construction of the highway so as to maintain the least possible interruption of the Howards use of the log dump either in its present or proposed location.

(10) The State is to construct a frontage road from highway engineer's station 8+60 to highway engineer's station 12+50 and is to construct an approach to the Highway, twenty-five feet wide, at station 25+00 on the west side of the highway and two additional approaches, each thirty feet wide, on the west side of the highway at highway engineer's stations 28+05 and 31+27.

The Right of Way Engineer also explained that the proposed conveyance does not include a certain shed located on the property being acquired, but the Howards are to have the right to remove this shed from the property at any time prior to January 1, 1953 or sooner, if necessary, because of highway construction. The Commission approved the settlement.

FOOTNOTE 3: Re File No. 18971 for acquisition of right of way for the Oakland Junction-Deady Unit of the Pacific Highway across the lands of Leo S. and Margaret C. Wilson. The Right of Way Engineer explained that the proposed settlement, which involves the taking of the entire farm of the Wilsons, is in lieu of construction of an underpass which is estimated to cost $15,000, payment of $9,000 for the right of way actually to be acquired, and construction of a frontage road, all of which would cost the State at least $5,000 more than

the amount of the option that was taken for acquisition of the entire farm. He gave as his feeling that the excess acreage can be sold to the owner of the abutting land. He recommended approval of the settlement. The Commission approved the recommendation.

The Right of Way Engineer requested authority to negotiate acquisition of right of way for the following highway improvements, and for which no specific authority heretofore has been granted:

County and Section	Highway
BAKER	
Baker-Huntington (Stockpile site)	Old Oregon Trail
CLACKAMAS	
Quarry Site	Cascade & Woodburn-Estacada
CLATSOP	
Seaside Maint. Headquarters Site	Oregon Coast
Seaside-Hug Point	Oregon Coast
COOS	
Coquille-Curry Co. Line (scale site)	Oregon Coast
DOUGLAS	
Reedsport-Dean Creek	Umpqua
HOOD RIVER	
Whiskey Creek	Mt. Hood
JACKSON	
County Farm-Ashland	Pacific
LANE	
Benton Co. Line-Cheshire	Territorial
LINCOLN	
Fogarty Creek-Miner Creek (Siletz Bay-Newport)	Oregon Coast
MARION	
Jct. 1E--West Portland-Hubbard	Pacific & W. Portland-Hubbard
MORROW	
Boardman Oasis-Irrigon (Park)	Columbia River

POLK	
West Salem-Brunks Corner	Salem-Dallas
Burns Corner-Fern Corner	King Valley #191
WALLOWA	
Rock Creek (Stockpile site)	Wallowa Lake

The Commission approved the request unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission unanimously confirmed sales of miscellaneous properties which were reported by the Right of Way Engineer. (For a list of the properties sold see copy of the report prepared by C. W. Parker, Property Manager, dated July 10 and 11, 1952, on file in the Secretary's office under the heading "Miscellaneous Sales".)

The Commission discussed and unanimously approved payment of $1,735.95 to the Federal Government, representing the value of timber removed from O & C land in connection with improvement of the Hayes Hill Section of the Redwood Highway in Josephine County.

The Commission also discussed payment of $2,500 to the Forrest Veneer Company for construction of a timber bridge in connection with the improvement of the Comstock-Anlauf Section of US 99. The Right of Way Engineer explained that according to the original arrangement the State was to build an underpass on a roadway leading to the Company's sawmill located near the highway, but the underpass was eliminated by an arrangement whereby it was agreed that the State would build for the Company a roadway and a small bridge located thereon. This bridge, he said, was estimated to cost $3,000 however, as a result of further negotiations, the Company agreed to build its own bridge if the State would pay the Company the sum of $2,500. The Commission approved the settlement unanimously.

The Right of Way Engineer brought up for discussion a settlement with a man by the name of Almquist involving right of way for the Hayes Hill Section of the Redwood Highway. It appears that in acquiring right of way from the adjacent owner by the name of Reilly, it was agreed to construct an approach road to the Almquist property and to clear a small tract 100 feet square on his property; however, it later developed that construction of the approach road was not feasible, at least it would be quite a costly proposition, so as a result of negotiations, Mr. Almquist agreed to accept as settlement in full of his claim a small parcel of land which was acquired from Mr. Reilly. The Commission approved the settlement.

The Right of Way Engineer reported that pursuant to instructions from the Commission a small parcel of highway property adjacent to US 99W near its intersection with the Monmouth-Independence Highway in Monmouth was advertised for sale, bids to be received on June 9, but none were submitted.

The Commission took no action.

The Right of Way Engineer reported the results of the taking of bids in Salem on June 17 for the purchase of the former maintenance site at Government Camp. The only bid received for this property, he said, was that of the Government Camp Community Club which offered to pay $2,850 for the property on a long-time payment basis. He recommended against the sale on such basis in order to avoid possible embarrassment. As a result of discussion, the Commission accepted the offer on the condition that the full purchase price shall be paid by January 1, 1953. The Commission ordered that possession of the building shall not be given to the Club until it has paid the full amount of the purchase price.

The Commission discussed and approved payment of $14,584.15 to the Federal Government, U. S. Forest Service, for timber removed from Government-owned land in connection with construction of the Gilchrist-Willamette Junction Unit of The Dalles-California Highway in Klamath County.

The Commission considered and unanimously approved conveyance to L. R. Peterson by quitclaim deed, a small parcel of property situate in the Southeast Quarter of the Northeast Quarter, Section 21, Township 4 North, Range 28 East, W. M., in Umatilla County. The Right of Way Engineer explained that the property is not owned by the State but it is necessary for the State to sign a quitclaim deed in order to clear title and the county deed records, and that the conveyance has been requested by the Pendleton Title Company. (The deed was signed later in the session.)

The Commission considered and approved quitclaiming to Multnomah County two small parcels of land situate on Gillihan County Road near the Sauvies Island Bridge. In the discussion of the matter it was explained that these two tracts were acquired in connection with construction of the Sauvies Island Bridge and are not needed for State Highway purposes, further, that they are subject to a drainage district tax amounting to $14 per year which the State will be relieved from paying if title to the property is vested in Multnomah County. (The deed was signed later in the session.)

The Commission considered and approved modification of lease of the Stebco Corporation on property acquired from O. R. Merrill in connection with construction of the Hood River-Mosier Section of the Columbia River Highway. The Right of Way Engineer explained that the original lease extended to December 31, 1956 but a modification has been worked out to eliminate certain undesirable features and which provides that the Company shall pay rental to the State at the rate of $50 per year beginning with the year 1953 and ending upon expiration of the lease in 1956. (Modified lease was signed by the Commission later in the session.)

The Commission discussed and upon recommendation of the Right of Way Engineer unanimously approved changes in points of access for the following properties: (a) Access to the Judkin's Point-Goshen Section on the Pacific Highway in Lane County from property owned by George and

Minnie Mounts. (b) Access to the Gilchrist-Willamette Junction Unit of the LaPine-Diamond Junction Section of The Dalles-California Highway in Klamath County from property owned by A. R. Pinney. (The indentures of access were signed by the Commission later in the session.)

The Right of Way Engineer brought to the attention of the Commission a proposed exchange of properties with R. B. Ashmead on the Ochoco Highway at the west city limits in the town of Mitchell. He explained that as a result of construction of the new highway at this point, a slide occurred which did considerable damage to Mr. Ashmead's property rendering it unfit for use for the purposes that he had in mind. Mr. Ashmead, he said, has been approached regarding settlement of the damage and has agreed to settlement which involves an exchange of 0.58 acres of his land for 0.61 acres of State land on the condition that he will be given two unrestricted access points to the highway and that the State will construct an approach roadway to his property. The Right of Way Engineer gave as his feeling that this is a fair settlement and recommended approval of the same. The Commission approved the recommendation.

The Engineer brought up for discussion the matter of enlarging an existing small picnic area on the Dooley Mountain Section of the Baker-Unity Highway. He said that the present area consists of only about one-half acre of land on which a number of picnic tables are being maintained and to which excellent water has been piped from a nearby spring. He suggested enlargement of the area by acquisition of land from Mr. Carl Silven of Baker, who, he said, has indicated that he will sell it for $100. He recommended purchase of the property at such figure and requested authority for the Right of Way Department to negotiate purchase of the property. The Commission approved the recommendation.

The Engineer also brought up for discussion the advisability of acquiring right of way along the proposed Adams Street route of US 99W in the City of McMinnville. He recalled that there has been some discussion in the matter of providing a one-way street couplet for US 99W traffic through this City using Baker Street, the present route of the highway, for north-bound traffic and Adams Street extended, for south-bound traffic. He also recalled that sometime ago at the request of the City and upon authorization by the Commission a traffic survey was conducted in McMinnville with the view of determining a future highway program for this City, the results of which indicated that the Baker Street-Adams Street couplet is the proper way to handle the situation. Later, he said, the City Council on its own initiative designated Adams Street as the future route for south-bound traffic and took action to control building construction along such route, although the Commission has not yet approved the designation. He gave as his feeling that this improvement will be required within the next two or three years, and he suggested in view thereof that the Commission authorize acquisition of right of way along the Adams Street route, the purchases to be limited to unimproved properties and to properties on which improvements are eminent. He gave as his feeling that the cost involved will be nominal. This matter was discussed by the Commission at some length but action thereon was deferred pending results of an investigation concerning the possibilities of

constructing a highway that will by-pass the City. The Engineer was authorized and instructed to make such investigation and report back to the Commission.

The Commission discussed and by unanimous vote authorized the Chief Counsel to acquire by condemnation, if necessary, the following properties that are needed as right of way or for other purposes in connection with various highway improvements, and to tender offers for the same in conformity with instructions given him in the resolution that was adopted by the Commission at its meeting on December 20, 1951:

Rock Point-Blackwell Hill Section of the Pacific Highway	Recommended Offer
R 19322 - Ernest A. Byrnes Channel Change (Jackson) 0.2 acre	*
R 19245 - Wesley M. Saum, et ux. Gravel Bar (Jackson) 59.67 acres	*
R 19246 - E. R. Prefountaine Gravel Bar (Jackson) 0.37 acre	*
Anlauf-Elk Creek Section of the Pacific Highway	
R 19092 - Fred L. Thompson Right of Way (Douglas) 1.28 acres	*
R 19097 - Frank Galdabini Right of Way (Douglas) 0.29 acre	*
R 19098 - L. L. Bewley Right of Way (Douglas) 18.50 acres	*
R 19101 - Robert Roy Booth (Douglas) 68.16 acres Right of Way 6.16 acres Channel Change	*
R 19103 - Minar Applegate Right of Way (Douglas) Parcel No. 1: 0.7 acre Parcel No 2: 9.16 acres	*

Anlauf-Elk Creek Section of the Pacific Hwy. (cont.)	Recommended Offer
R 19104 - Gerald Johnston (Douglas) 12.47 acres Right of Way 0.80 acre Connecting Road	*
R 19105 - Elton L. Grass Right of Way (Douglas) 4.52 acres	*
R 19095 - Glen Coons Right of Way (Douglas) Parcel No. 1: 34.91 acres Parcel No. 2: 2.41 acres	*
R 19100 - Theodore S. Russell Right of Way (Douglas) 3.80 acres	*
R 19093 - Elizabeth Galdabini Right of Way (Douglas) 26.43 acres	*
R 19094 - Bernardo Perini Right of Way (Douglas) 0.44 acre	*
Shogren-Rowena Unit of the Mosier-The Dalles Section of the Columbia River Highway	
R 18352 - William A. Salisbury Right of Way (Wasco) Parcel No. 1: 6.0 acres Parcel No. 2: 0.65 acre	*
Hayesville School-State Street Section of the Salem By-pass	
R -9225 - Ezra Lowell Keubler Right of Way (Marion) 1.045 acres	$2,300.00
Eagle Creek Section of the Clackamas Highway	
R 19257 - Scott Chandler Right of Way (Clackamas) 0.425 acre	$ 150.00

Medford-County Farm Section of the Pacific Highway	Recommended Offer
R 18418 - Walter H. Leverette Parcel No. 1: 0.63 acre Right of Way Parcel No. 2: 0.02 acre Right of Way 0.13 acre Slope Easement 0.02 acre Slope Easement (Jackson)	*
R 19115 - William Meredith Luse Right of Way (Jackson) 0.05 acre	*
R 19172 - William Blunt Right of Way (Jackson) 0.04 acre	*
R 19171 - Earl Boyd Right of Way (Jackson) 0.06 acre	*
R 19170 - W. B. Barnum Right of Way (Jackson) Parcel No. 1: 0.02 acre Parcel No. 2: 0.08 acre	*
R 19169 - William Blunt Right of Way (Jackson) 0.11 acre	*
R 19168 - Roy A. Bols Right of Way (Jackson) 0.01 acre	*
R 19167 - Chester Wendt Right of Way (Jackson) 0.04 acre	*
R 19166 - Dan H. Adams Right of Way (Jackson) 186 square feet	*
R 19163 - A. H. Dudley Right of Way (Jackson) 1,332 square feet	*
R 19162 - Oswald Hinx Right of Way (Jackson) 600 square feet	*

Medford-County Farm Section of the Pacific Hwy (cont.)	Recommended Offer
R 19160 - Reinhardt Erich Gedlich Right of Way (Jackson) 210 square feet	*
R 19159 - Bert S. Stancliffe Right of Way (Jackson) 1,125 square feet	*
R 19155 - Frank A. Denzer Right of Way (Jackson) 0.29 acre	*
R 19151 - Arthur M. Bonar Right of Way (Jackson) 0.09 acre	*
R 19149 - Harold R. Stevenson Right of Way (Jackson) 0.20 acre	*
R 19147 - Curtis L. Payne Right of Way (Jackson) 482 square feet	*
R 19143 - Myrtle B. Lee Right of Way (Jackson) 0.08 acre	*
R 19141 - D. E. McClurg Right of Way (Jackson) 0.15 acre	*
R 19136 - Arthur Thompson Right of Way (Jackson) 0.10 acre Slope easement 0.10 acre	*
R 19135 - Earl Harris Right of Way (Jackson) 0.02 acre Slope easement 0.02 acre	*
R 19134 - Eugene Hasenfurter Right of Way (Jackson) 0.10 acre Slope easement 0.22 acre	*

Medford-County Farm Section of the Pacific Hwy (cont.)	Recommended Offer
R 19131 - Ray Schumacher Right of Way (Jackson) 0.03 acre	*
R 19129 - R. K. Groves Right of Way (Jackson) 618 square feet	*
R 19128 - Allay Lumber Co., Inc. 252 square feet Right of Way (Jackson)	*
R 19127 - Oren B. Avent Right of way (Jackson) 0.07 acre Slope easement 0.04 acre	*
R 19126 - Burnie Blair Right of Way (Jackson) 730 square feet	*
R 19125 - Lawrence V. Smith Right of Way (Jackson) 700 square feet	*
R 19124 - Cecil Watson Right of Way (Jackson) 725 square feet	*
R 19123 - Dewey C. Gearin Right of Way (Jackson) 0.06 acre	*
R 19122 - Roy Maudlin Right of Way (Jackson) 680 square feet	*
R 19121 - M. Dale Newton Right of Way (Jackson) 960 square feet	*
R 19133 - John Kesler Right of Way (Jackson) 0.17 acre Slope easement 0.76 acre	*
R 19120 - Henry H. Dawson Right of Way (Jackson) 0.03 acre	*

Medford-County Farm Section of the Pacific Hwy (cont.)	Recommended Offer
R 19119 - Harold White Right of Way (Jackson) 0.04 acre	*
R 19117 - Oliver Rasmussen Right of Way (Jackson) 0.05 acre	*
R 19116 - Ellen E. Wood Right of Way (Jackson) 0.03 acre	*
R 18669 - L. C. Taylor Right of Way (Jackson) 0.18 acre Easement for Drainage Ditch 600 square feet	*
R 18440 - W. C. Earhart Right of Way (Jackson) 0.04 acre	*
R 18437 - William C. Earhart Right of Way (Jackson) 0.09 acre	*
R 18436 - I. W. Houschild Right of Way (Jackson) 0.05 acre	*
R 18435 - Claude Ward Right of Way (Jackson) 0.13 acre	*
R 18434 - C. C. Heard Right of Way (Jackson) 0.14 acre Slope easement 0.05 acre	*
R 18429 - Norman A. Kolln Right of Way (Jackson) 0.28 acre	*
R 18428 - Ray Jinks Slope Easement (Jackson) 0.05 acre	*
R 18427 - E. J. Moss Slope easement (Jackson) 0.02 acre	*

Medford-County Farm Section of the Pacific Hwy (cont.)	Recommended Offer
R 18426 - C. C. Pittenger Slope easement (Jackson) 0.02 acre	*
R 18425 - Clyde C. Pittenger Right of Way (Jackson) 0.10 acre	*
R 18424 - Ruth Dews Right of Way (Jackson) 0.06 acre	*
R 18423 - Wilber Reed Right of Way (Jackson) 0.04 acre	*
R 18422 - B. B. Lowry Right of Way (Jackson) 0.29 acre	*
R 18421 - John Stewart Right of Way (Jackson) 0.13 acre	*
R 18417 - Herman J. Bergren Right of Way (Jackson) 0.03 acre	*
R 18416 - Harold M. Roberts Right of Way (Jackson) 81 square feet Slope easement 0.16 acre	*
R 18398 - Doris Wier Right of Way (Jackson) 0.04 acre	*
R 18396 - Walter R. Bols Right of Way (Jackson) 0.07 acre	*
R 18395 - Fred W. Braun Right of Way (Jackson) 0.05 acre	*
R 18389 - Lynn J. Leslie Right of Way (Jackson) 60 square feet	*

Medford-County Farm Section of the Pacific Hwy (cont.)	Recommended Offer
R 18382 - Elmer Herried Right of Way (Jackson) Parcel No. 1: 0.03 acre Parcel No. 2: 0.01 acre Parcel No. 3: 0.06 acre Parcel No. 4: 0.26 acre Parcel No. 5: 3.10 acres	*
R 18379 - Jackson County Right of Way (Jackson) Parcel No. 1: 60 square feet Parcel No. 2: 1.71 acres Parcel No. 3: 0.06 acre Slope easement 0.36 acre	*
R 18374 - Medford Irrigation District Right of Way (Jackson) 0.03 acre	*
R 18325 - Sylvester Stevens Right of Way (Jackson) 0.09 acre	*
Burns Corner-Fern Corner Section of the Kings Valley Highway	
R 19278 - Owner unknown Right of Way (Polk) 0.15 acre	*
Fogarty Creek-Miner Creek Unit of the Siltes Bay-Miner Creek Section of the Oregon Coast Highway	
R 4243 - A. A. Wiegner Right of Way (Lincoln) 27.10 acres	*
R 4244 - Josephine Shoemaker Right of Way (Lincoln) 13.93 acres	*
R 19290 - Olive M.Lee Right of Way (Lincoln)	*
County Farm-Ashland Section of the Pacific Highway	
R 16543 - Minnie Bernice Koyl Right of Way (Jackson) 10 acres	*

County Farm-Ashland Section of the Pacific Hwy (cont.)	Recommended Offer
R 19260 - John W. Amberg Right of Way (Jackson) 1.95 acres	*
R 19261 - Harold O. Kreger Right of Way (Jackson) 0.23 acre	*
R 19262 - Willian Delaney Right of Way (Jackson) 0.28 acre	*
R 19263 - Nell Marie Perrine Right of Way (Jackson) Parcel No. 1: 0.13 acre Parcel No. 2: 4.0 acres	*
R 19264 - Ormae Terry Coffee Bergren Right of Way (Jackson) 0.76 acre	*
R 19265 - Vetabelle Carter Right of Way (Jackson) 0.17 acre	*
R 19266 - L. J. Daw Right of Way (Jackson) 0.06 acre	*
R 19267 - Hoyt D. Aderholt Right of Way (Jackson) 0.13 acre	*
R 19268 - C. D. Moon Right of Way (Jackson) 0.12 acre	*
R 19269 - Joseph P. Dugan Gravel Bar (Jackson) 6.50 acres	*
R 19270 - William C. Wilson Gravel Bar (Jackson) 3.5 acres	*
R 19271 - Gertrude DeYoung Gravel Bar (Jackson) 8.0 acres	*

County Farm-Ashland Section of the Pacific Hwy (cont.)	Recommended Offer
R 19272 - Forrest Andrew Steiger Gravel Bar (Jackson) 24.80 acres	*
R 19273 - Marcel Klimek Gravel Bar (Jackson) 1.5 acres	*
R 19274 - Lloyd S. Lucy Gravel Bar (Jackson) 1.03 acre	*

FOOTNOTE * Offer to be made in conformity with provisions of resolution adopted by the Commission at its meeting on December 20, 1951.

The attacked resolutions, marked EXHIBITS "P-1" through "P-16", inclusive, authorizing condemnation of the above-listed properties, which resolutions by this reference are made a part hereof with like effect as though extended in full herein, were thereupon adopted by the Commission by unanimous vote

The Chief Counsel submitted a written report on the following condemnation actions

(1) State vs. Cybl C. Catlin et al: This case involves acquisition of 12 acres of land needed as right of way for the Salem By-Pass Section of the Pacific Highway East The owners alleged that their property has a very high value for special designated purposes and demanded $12,000 for the land and $25,000 as severance damages. The property was appraised by two independent appraisers at $13,500 and $13,847.50 respectively. The offer submitted prior to institution of condemnation proceedings was $13,850. As a result of several conferences, settlement was reached in the amount of $20,000, payment of which amount was authorized by Commissioner McIver by telephone. The Commission approved the settlement.

(2) State vs Myles Henderson et al: This case involves acquisition of 4 73 acres of land for the Salem By-Pass Section of the Pacific Highway East The amount offered prior to commencement of condemnation proceedings was $32,000 based on three appraisals of $32,000, $28,832.56, and $28,827 17, respectively. Settlement was reached in the amount of $34,000. The Commission approved the settlement.

(3) State vs Elmer F. Gaska et al: The offer that was made prior to commencement of condemnation action was $800 for the taking of 6,519 square feet of land which is needed as right of way for the Salem-Hayesville Section of the Pacific Highway East. With the cooperation of the defendent's attorney, the offer was accepted The Commission approved the settlement.

(4) State vs. Russell J. Hubbard et ux: This case involves acquisition of 35 acres of land needed as right of way for the Reedsport-Winches-

ter Bay Section of the Oregon Coast Highway (US 101) in Douglas County.. Formal offer tendered prior to commencement of condemnation action was $15,000 based on an appraisal of Mr. Leroy Draper and upon subsequent appraisal by Mr. James Rodman Jr., Eugene, who places a value of $30,014 on the property. Mr. Horace Dryer, an appraiser in the employ of Mr. Hubbard, values the property at $25,000. Settlement was effected at $23,000. This settlement was approved over the telephone by Chairman Chandler and Commissioner McIver. The Commission approved this settlement.

(5) State vs. Rose Metcham et al: This case involves acquisition of 0.30 acres of land needed as right of way for the Tigard-Tualatin River Unit for the Tigard-Newberg Section of the Pacific Highway West. Offer tendered prior to commencement of condemnation action was $625.00. Settlement was reached with the owners on the basis of payment of $750. The Commission approved the settlement. (For details see copy of the Chief Counsel's written report, dated July 3, 1952, in general files.)

The Chief Counsel also reported on the trials of the following cases:

(1) State vs. Pacific Shore Land Company: This case involves acquisition of two parcels of land totalling 17.65 acres needed as right of way for a proposed improvement of the Oregon Coast Highway in Lincoln County. The Chief Counsel advised that parcel number 2 is being acquired for drainage purposes and to provide lateral support for the highway because there is considerable earth movement and substance in the area. The defendants, he said, questioned the necessity for the taking of this parcel because the highway had been constructed across it and in their estimation no portion of this parcel number 2 was required. Testimony by State's witnesses, he said, placed a value of $2,000 on parcel number 1, whereas the defendant's witnesses valued it from $9,000 to $12,000. The jury returned a verdict in the amount of $5,000 for this particular tract. As to parcel number 2, he said, Judge McHenry, who heard the argument, dismissed the complaint. He recommended an appeal to the Supreme Court from the judgment entered. The Commission approved the recommendation.

(2) State vs. Frank W. Seidel et ux: The Chief Counsel explained that this is a case to secure specific performance of an option to require conveyance to the State of 333 square feet of land needed as right of way for the La Grande-Ladd Canyon Section of the Old Oregon Trail, the amount of the option being $80. The defendants in this case, he said, failed to make an appearance, and upon motion the Court entered an order of default against them. A decree has been entered conveying the property to the State, and the consideration specified in the option has been paid to the clerk of the court for distribution to the defendants. The Commission approved the report.

(3) State vs. Albert J. Sauers et ux: This case involves acquisition of 460 square feet of land needed as right of way for the Salem-

Hayesville Section of the Pacific Highway East, being a narrow strip across the frontage of the Sauers property, 46 feet in length. Appraisal witnesses, he said, placed a high value of $1,360 upon the property being taken. Both defendants' witnesses, who are local real estate men, placed a high value on the property of $5,500. The jury returned a verdict in the amount of $4,000. He pointed out that the court erred by not giving requested instructions to the jury that the view of the premises made by the jury could be considered as evidence in the case, and by allowing interest on the amount of the verdict from the date of the filing of the complaint rather than from the date on which the State took possession of the property which was about ten months after the filing of the complaint. He recommended an appeal to the Supreme Court. The Commission approved the recommendation.

(4) State vs. William F. Loser et al: This case involves acquisition of approximately five acres of land needed as right of way for the T. H. Banfield Expressway, Portland, and for construction of a connecting road between the expressway and Sandy Boulevard. It appears that the defendants' entire tract consists of about ten acres of land lying between Sandy Boulevard and the Union Pacific Railroad right of way and that the State needs 3.93 acres for the expressway and an additional 0.93 acres for the connecting road. The State's appraisers testified to a valuation of the property taken of $5,000 based upon the highest and best use of the property being for agricultural purposes which value is $1,800 less than the amount of the State's offer. The defendants' appraisal witnesses, he said, stated that the highest and best use of the property is for industrial purposes, and on that basis, three appraisers placed a value of $30,000, $33,000, and $43,000 on the property. The Chief Counsel stated that the jury returned a verdict in the amount of $10,000 for the five acres plus $6,000 damages to the remaining acreage, for a total of $16,000 He recommended appeal to the Supreme Court. The Commission approved the recommendation.

(5) State vs. State Construction Company: This case involves the recovery from the State Construction Company and its surety, the Continental Casualty Company, of $8,634.95 being the amount of the performance bond furnished by State Construction Company in connection with its bid for construction of piers for the Marion Street Bridge across the Willamette River in Salem. The Company was awarded the contract but refused to accept and was declared in default. The Chief Counsel advised that upon the closing of the introductory testimony in the case the Court requested the parties to submit briefs in respect to legal questions involved and the defendants in their brief stated matters not covered by the testimony. They also submitted a second amended answer and cross complaint setting up defenses that were not contained in the pleas at the time of the trial with respect to which the defendants did not introduce testimony. The defendants in their brief, he said, have quoted in several instances from the testimony, which raises the necessity of securing the transcripts of the testimony prior to filing an answering brief. The case is still pending. The Commission approved the report.

(6) C. J. Eldon vs. State: This case involves the claim of C. J. Eldon, contractor, for extra compensation arising out of his contract with the State Highway Commission for regrading, surfacing, and oiling the Yellow Creek-Calapooya Creek Section of the Elkton-Sutherlin State Secondary Highway in Douglas County. Mr. Eldon is suing for the sum of $21,611.09 plus interest at the rate of 6 percent from September 30, 1949. The Chief Counsel advised that the State still owes Mr. Eldon the sum of $16,949.98 which Mr. Eldon refuses to accept as payment in full for work performed. It appears that Judge Dobson, who heard the testimony in this case, made an order upon his own motion to transfer the case from the law side to the equity side of the court and granted the plaintiff until the first of August in which to file an amended complaint. The Judge also stated that he would set the matter down for trial on September 24, 1952. The Commission approved the report.

The Chief Counsel requested authority to commence action against William L and Sophie Fisher to require specific performance of two real estate options which they gave the state regarding right of way needed for the Tigard-Onion Flat Unit of the Tigard-Newberg Section of the Pacific Highway West. Consideration is in the amount of $9,906. The Commission approved the request unanimously.

The Chief Counsel brought up for discussion construction of a proposed bridge across the Coquille River on a county road at a place known as Bullards, near Bandon, Coos County. He recalled that the Commission at its meeting on May 25, 1948, voted unanimously to pay 50 percent of the total cost of such bridge provided such total cost did not exceed $600,000 and that the State's contribution shall be limited to the construction of the bridge only; also, that the State would not participate in the cost of constructing an approach road leading to the bridge, and that the Commission's action in agreeing to cooperate in the bridge construction would not be considered in any way as a commitment or obligation on the part of the Commission to designate or to construct as a State Highway the road leading to the bridge. The Commission at that meeting, he said, indicated that it would advance the county's share of the cost on the condition that the county would reimburse the State for such advance at the rate of $30,000 annually. At its meeting on June 28, 1948, he said, the Highway Commission withdrew its offer to the County for the immediate construction of the bridge because of additional burdens placed upon the highway funds by reason of the Columbia River flood, the reconstruction of the Oregon Coast Highway between Coquille and Coos Bay, and the probable need to replace the Enegren Ferry with a bridge. He recalled further that at a meeting of the Commission held on April 3, 1950, it was reported that there was to be placed on the ballot at the primary election in May, 1950 a measure authorizing the issuance of bonds to pay the County's share of the cost of a bridge at Bullards, and at this meeting the Commission voted unanimously to proceed with the construction of the bridge in conformity with its previous offer to the County if the bond issue were approved by the people. It now appears, he said, that the people did authorize the bond issue for the purpose but the bonds have not yet been sold and no further action

has been taken with respect to the construction of the bridge. The Chief Counsel went on to say that since the cost of the bridge was first estimated in 1948, prices have risen and the estimated cost of the structure and approaches today is $726,940. He further stated that the County by its bond measure has authority to sell bonds for the construction of this bridge in the amount of $300,000 only, on the condition that the State will pay all cost incident thereto in excess of such sum, which means that if the bridge is built, it will be necessary for the State to increase the amount of its cooperative share from $300,000 to $426,940, approximately. The County, he said, now has authority to sell the bonds but is not in position to do so unless and until the Highway Commission will declare its intent and willingness to contribute all costs over and above the County's $300,000. He gave as his understanding that the Commission is willing to do that, and he suggested that appropriate action to that effect be taken at this meeting. The matter was discussed at some length and as a result thereof, motion was made by Commissioner Reynolds that the State pay all costs incident to construction of the bridge and approaches thereto in excess of $300,000 which the county is to contribute. The motion was seconded by Commissioner McIver and carried unanimously. The attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon unanimously adopted by the Commission.

In the discussion of this matter the question arose whether or not the bridge would eventually become a part of the State Highway System. It was explained that according to investigation heretofore made a state highway will some day be routed down the coast line from Coos Bay to Bandon and that the bridge will be on the route of such highway. The Engineer was instructed to forward to Commissioner McIver a copy of the reconnaissance survey heretofore made of such route.

The Commission discussed and upon recommendation of the Engineer and Chief Counsel unanimously approved payment of the claim of Motor Insurance Corporation in the amount of $270.76 representing the cost of repairing an automobile owned by Mr. W. I. Stewart which was damaged when it slid off the Halsey-Sweet Home Secondary Highway at a point about four miles west of the City of Sweet Home when passing over a newly oiled section of highway on which a protective gravel coating had not been placed.

The Chief Counsel presented for the Commission's consideration copies of twenty-two proposed bills that he has forwarded to the Legislative Highway Interim Committee for study prior to introduction in the 1953 legislature. The Commission indicated its approval of the bills as prepared.

The Commission considered the conveying to the First National Bank of Portland of 600 square feet of land adjacent to the T. H. Banfield Expressway near the intersection of Sandy Boulevard and 33d Street in the City of Portland. It was explained that title to the property is in the name of Dr. Hendrick and that the First National Bank of Portland is trustee, also, that through a misunderstanding a mistake was made in the description of the property as contained in the original deed and the present conveyance is simply to correct that error The Commission approved the conveyance. (Deed was

signed by the Commission later in the session.

The Chief Counsel requested authority to attend at state expense a meeting of the National Directors of America Right of Way Association which is to be held in Eureka, California, during July 26 and 27, 1952. He estimated the out-of-state travel cost at $32.40. The Commission approved the request.

The Chief Counsel brought up for discussion the claim of the Oregon Pulp and Paper Company in the amount of $1,950, representing payment for materials removed by the United States Army Engineers in connection with dredging operations for the Salem-Dallas Highway in West Salem. He explained that 26,000 cubic yards of rock, sand, and gravel were removed from the Company's property and deposited on the highway right of way for use as a fill, and it was apparent that the Army Engineers were unaware that the property was privately owned. The material, he said, was actually used in the highway fill, and since the State is obligated by the terms of an agreement with the United States Army Engineers to indemnify the Government for all claims arising out of the project, in his opinion the State is obligated to pay this claim, and he so recommended. The Engineer concurred in the recommendation advising that were the Commission to have obtained this fill material from other sources, it would have cost much more than the amount of the company's claim. The Commission approved the recommendation unanimously.

The Chief Counsel reported offers as follows for the acquisition of real property needed for highway purposes which offers were tendered to the owners prior to the institution of condemnation proceedings in conformity with authority granted him by the Commission in its resolution adopted December 20, 1951:

Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway

Owner - C. R. Lawrence, et ux. 16.59 acres of land needed for right of way and 0.56 acre for easement for a channel change. Amount of offer $9,475.00. Authorized by Commissioner McIver on June 10, 1952.

Tigard-Onion Flat Unit of the Tigard-Newberg Section of the Pacific Highway

Owner - Leonard Woods. 0.713 acre needed for right of way. Amount of offer $3,000. Authorized by Commissioner McIver on June 10, 1952.

Owner - O. V. Rentfrow, et ux. 8,220 square feet needed for right of way. Amount of offer $2,600. Authorized by Commissioner McIver on June 13, 1952.

Owner - Rose E. Metchan, et al. 0.185 acre for right of way. Amount of offer $625. Authorized by Commissioner McIver on June 10, 1952.

Owner - Robert D. Litton, et al. 1,715 square feet for right of

way. Amount of offer $300. Authorized by Commissioner McIver on June 10, 1952.

Owner - Violet N. Kirschner. 0.37 acre for right of way. Amount of offer $550. Authorized by Commissioner McIver on June 11, 1952.

Owner - Lotta Kurth, et al. 0.20 acre for right of way. Amount of offer $600. Authorized by Commissioner McIver on June 13, 1952.

Hauser-North Bend Section of the Oregon Coast Highway

Owner - Belva Ricketts Ferre, et al. Amount of offer $8,600. Authorized by Commissioner McIver on June 13, 1952.

Owner - Ernest T. Franson, et al. 16 acres for quarry site. Amount of offer $13,500. Authorized by Commissioner McIver on June 13, 1952. (This offer was rejected by the owner, and the property is not to be taken, as it is no longer required for this project.)

Lostine Section of the Wallowa Lake Highway

Owner - Merton S. Wade, et al. 5.59 acres for right of way. Amount of offer $3,500. Authorized by Commissioner Reynolds on June 19, 1952.

Owner - City of Lostine. 0.42 acre for right of way and 1.59 acres for gravel pit. Amount of offer $350. Authorized by Commissioner Reynolds on June 19, 1952.

Owner - Michael Crow, et ux. 2.55 acres for right of way. Amount of offer $510. Authorized by Mr. Reynolds on June 19, 1952.

Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway

Owner - Morton E. Post, et ux. 1.51 acres for right of way. Amount of offer $400. Authorized by Commissioner Reynolds on June 19, 1952.

Owner - Alvin Johnston, et al. 5.24 acres for right of way. Amount of offer $14,625. Authorized by Commissioner McIver on June 26, 1952. Since all of the original appraisals did not contain an allowance of damages for the denial of access to the owners' remaining land on the opposite side of the highway, Mr. McIver on July 9, 1952 approved an increased offer in the amount of $16,500, based on revised appraisals.

Owner - R. M. McKeown, et ux. 7.33 acres for right of way. Amount of offer $1,600. Authorized by Commissioner McIver on June 26, 1952.

Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway (cont.)

Owner - Mary N. Holmberg. 0.78 acre for right of way. Amount of offer $390. Authorized by Commissioner McIver on June 26, 1952.

Owner - Charles A. Prescott. 4.67 acres for right of way. Amount of offer $1,000. Authorized by Commissioner McIver on June 26, 1952.

Owner - Harvey T. Floyd, et ux. 0.78 acres for right of way. Amount of offer $300. Authorized by Commissioner McIver on June 26, 1952.

Owner - R. M. Falk, et ux. 21.73 acres for right of way. Amount of offer $4,510. Authorized by Commissioner McIver on June 26, 1952.

Owner - Ronald M. Cole, et ux. 0.75 acre for right of way. Amount of offer $3,725. Authorized by Commissioner McIver on June 26, 1952.

Owner - Ronald M. Cole, et ux. 0.57 acre for right of way. Amount of offer $685. Authorized by Commissioner McIver on June 26, 1952.

Owner - Howard B. Lentz, et ux. 0.83 acre for right of way. Amount of offer $830. Authorized by Commissioner McIver on June 26, 1952.

Owner - H. W. Senter, et al. 4.36 acres for right of way. Amount of offer $4,250. Authorized by Commissioner McIver on July 9, 1952.

Owner - Larry Nunnenkamp, et al. 0.80 acre for right of way. Amount of offer $2,175. Authorized by Commissioner McIver on July 9, 1952.

Owner - Ray Snook, et al. 3.9 acres for right of way. Amount of offer $400. Authorized by Commissioner McIver on July 9, 1952.

Owner - William L. McDonald, et al. 14.9 acres for right of way Amount of offer $14,500. Authorized by Commissioner McIver on July 9, 1952.

Oakland-Deady Section of the Pacific Highway

Owner - R. M. Crenshaw, et ux. 5.75 acres for right of way. Amount of offer $5,250. Authorized by Chairman Chandler June 30, 1952.

Oakland-Deady Section of the Pacific Highway (cont.)

Owner - Ed Hudson, et al. 9.4 acres for right of way. Amount of offer $4,275. Authorized by Chairman Chandler on June 30, 1952.

Owner - B. H. Olsen, et al. 5.46 acres for right of way. Amount of offer $5,125. Authorized by Chairman Chandler on June 30, 1952.

Owner - Alfred E. Hoffmeister, et ux. 5.40 acres for right of way. Amount of offer $6,150. Authorized by Commissioner McIver on July 9, 1952.

Owner - Robert Foster, et ux. 4.6 acres for right of way. Amount of offer $15,875. Authorized by Commissioner McIver on July 9, 1952.

Canyon Road Section of the Sunset Highway

Owner - Duane Company. 1,440 square feet for right of way. Amount of offer $550. Authorized by Commissioner McIver on June 26, 1952.

Owner - Bert M. Butler, et ux. 31,800 square feet for right of way. Amount of offer $3,000. Authorized by Commissioner McIver on July 9, 1952.

The Chief Counsel asked the Commission to approve salary increases for members of his staff as follows, which increases, he said, already have been authorized by the Attorney General:

J. W. DeSousa, from $550.00 per month to $575.00, effective July 1, 1952.

Charles Peterson, from $500.00 to $550.00, effective between October 1, 1952, and January 1, 1953.

Ralph Wyckoff, from $460.00 to $475.00, effective July 1, 1952, and from $475.00 to $500.00, effective between October 1, 1952, and January 1, 1953.

G. E. Rohde, from $460.00 to $475.00, effective July 1, 1952.

Frank C. McKinney, from $425.00 to $450.00, effective July 1, 1952, and from $450.00 to $475.00, effective between October 1, 1952, and January 1, 1953.

Robert L. May, from $425.00 to $450.00, effective July 1, 1952, and from $450.00 to $475.00, effective

between October 1, 1952, and January 1, 1953.

Frederick A. Morgan, from $375.00 to $400.00, effective between October 1, 1952, and January 1, 1953.

Thomas J. Reeder, from $375.00 to $425.00 if admitted to the bar, effective between October 1, 1952, and January 1, 1953.

The Chief Counsel also advised that the Attorney General has approved a salary increase for the Chief Counsel from $650 to $675 per month, effective July 1, 1952, and from $675 to $700 per month, effective between October 1, 1952 and January 1, 1953, which salary range, he said, already has been previously set by the Commission. The Commission unanimously approved all of the salary increases as reported.

The Commission discussed and unanimously approved employment of a Mr. Leonard I. Lindas as a member of the Legal Department staff upon acceptance by Governor McKay of Mr. Lindas' resignation as District Attorney for Clackamas County. Mr. Lindas is to be paid a salary of $550 per month and his employment is to be primarily for trial work.

The Chief Counsel reported three compromised right of way settlements as follows and recommended approval of the same:

(1) Settlement with Wilbur P. Lewis involving right of way for the Salem-Dallas Highway in West Salem.

(2) Settlement with Rubin Wilkins for right of way needed for the Bay City-Tillamook Section of the Oregon Coast Highway.

(3) Settlement with Anna Olive Neilson involving right of way needed for the Bay City-Tillamook Section of the Oregon Coast Highway.

Concerning the Lewis case, the Chief Counsel advised that the amount of the State's offer was $10,000 based on appraisals in the amounts of $7,500 and $7,585. The owners refused the offer, he said, and the case will not be tried for about two years. In the meantime, the State has had possession of the property for about eighteen months, and when the case is tried, the court undoubtedly will charge the State two years' interest at 6 percent, which will amount to $1,120. He recommended a compromised settlement at $12,000 and advised that he would endeavor to reach the settlement of $11,200 if possible. The Commission unanimously approved the maximum payment of $12,000 for the property.

Concerning the Wilkins property, the Chief Counsel advised that the owner was offered $1,825 for 2.05 acres, but the offer was refused. He pointed out that the highway is now under construction and that according to the plan there is a 17-foot cut through the Wilkins' holdings; moreover, Mr. Wilkins has a well about 30 feet from the right of way which may be destroyed by reason of the highway improvement and if so,

it will cost the State something to replace it. The present appraised value of the property is $3,000, which amount the owner has stated he will accept. He recommended approval of such payment. The Commission approved the recommendation.

Concerning the Neilson property, the Chief Counsel advised that the State's offer in this case was $5,000, which the owner refused, but who has agreed to accept the sum of $6,250, the difference being the value of a shed located on the premises, which was originally appraised at $600 but which according to a building contractor cannot be replaced for less than $4,000. Allowing 50 percent depreciation for the value of the building, he recommended payment to the owner of the sum of $6,250. The Commission approved the recommendation.

The Engineer reported the results of an investigation by the Landscape Engineer on the request of the Ophir Women's Club Wayside Committee for development of public facilities on a State-owned tract of land adjacent to the Oregon Coast Highway about one mile south of the town of Ophir. He stated that investigation has been made and the report of the Landscape Engineer reveals that the property is strategically located with respect to other facilities on this highway and that it fronts on an excellent ocean beach which would be the only picnic access to the ocean beach between Harris Beach State Park and Humbug Mountain State Park; however, the investigation also discloses that when the highway is reconstructed through this section, survey for which is now in process, there will be a considerable change in the grade elevation which could materially effect the highway as it now exists. For this reason, he suggested that it would be desirable to postpone any development of the property as a roadway picnic area until the final highway relocation has been established and more definite information is available with respect to the highway grade. The Commission approved the recommendation and instructed the Secretary to convey the action to the Ophir Women's Club.

Pursuant to previous instructions from the Commission, the Engineer reported on a request from citizens of Yamhill County for improvement of the Dayton-Amity Cut-off and Three Mile Lane Secondary Highway between Dayton and the junction with US 99W, including a new bridge over the Yamhill River. He advised that complete reconstruction of the approximate ten miles of roadway involved is estimated to cost about $350,000. He pointed out that the highway at the present time has a rather weak surfacing which requires considerable maintenance, particularly in the spring months when the road has been subjected to winter frost action. He also pointed out that daily traffic on the highway is about 800 vehicles which, in his estimation, is sufficient to warrant consideration in the not too distant future to the matter of improving the highway. He recommended that such consideration be given in the formulation of a future secondary highway program.

As to construction of a new bridge over the Yamhill River just north of Dayton, the Engineer estimated the cost of such structure at approximately $310,000; however, he questioned that the bridge should be replaced within the next three or four years because test borings indicate that the wooden

approaches will be satisfactory for that length of time. The bridge itself, he said, consists of a 200-foot steel truss span which is structurally sound but is too narrow for existing traffic. He suggested that replacement of the bridge along with the approach should be given serious consideration in about 1955. The Commission approved the report.

The Commission discussed a report from the Engineer on the feasibility of a proposed highway extending from Barbur Boulevard at its connection with Slavin Road in Portland to Hillsdale, the plan for which was prepared by the City of Portland Planning Commission in 1947. The Engineer advised that the plan is feasible, but would probably cost about $300,000 or $400,000 because it would require complete relocation from Barbur Boulevard to Hillsdale. He suggested that construction of thi. project be deferred to see what effect the opening of Bertha Boulevard, which now connects with Barbur Boulevard near Fred Meyer's Burlingame store, might have on the traffic pattern, and for the further reason that there is now being studied an expressway extending from West Portland to a connection with Harbor Drive which might interfere with the plan. The Commission approved the recommendation and ordered the item removed from the list of unfinished business.

A report was rendered by the Engineer on a condition prevailing at the intersection of the Island City County Road with US 30, a short distance east of the City of La Grande, where the county road crosses the main line tracks of the Union Pacific Railroad in close proximity to the highway. This matter, he said, has been investigated by the Traffic Engineer who states that there is no roadside culture in the vicinity of the intersection and that sight distance for both the railroad and the highway is entirely adequate with the exception that due to the railroad tracks being slightly higher in elevation than the highway, the stop sign at the intersection is not readily discernible from a distance by traffic approaching the highway on the county road. The county road traffic at this point, he said, consists of only 320 vehicles daily and the traffic volume on the highway consists of about 2,200 vehicles daily. Such traffic volume, he said, is not considered sufficient to cause any appreciable difficulty in making safe turns from the county road to the highway or visa versa. The Engineer also mentioned that the accident record at this intersection is favorable, only one accident having occurred at the railroad crossing during the last six years, although two accidents occurred during the past five years at the highway intersection. He recommended, in view of the prevailing conditions, against any treatment at either the railroad crossing or the highway intersection other than installation of a "PREPARE TO STOP" sign on the county road north of the railroad tracks. Commissioner Reynolds mentioned that two accidents have recently occurred at the railroad crossing and that the difficulty is in making the turn onto the county road from the highway. He agreed with the Engineer, however, that this is a problem that concerns the county and the railroad company. As a result of the discussion, the Commission unanimously approved the solution of the problem as recommended by the Engineer.

The Engineer reported the results of an investigation made of traffic conditions at the intersection of First and Main Streets in the City of Island City which section is on the route of the Wallowa Lake Highway and is also the termini of the Cove Secondary Highway and the Island City-US 30 Federal Aid Secondary County Road. According to the report, the investigation revealed that the accident record at the intersection is favorable, there having been only five reported accidents at this intersection during the past six years, and that the only possible improvement that could be made at the intersection would be to channelize it by construction of traffic islands which would function satisfactorily during certain times of the year but would create difficulties during the winter months in connection with snow removal operations. The Engineer recommended that no change be made at this intersection at the present time. The Commission approved the recommendation.

The Commission had under discussion the matter of conducting a location survey for proposed revisions of the Old Oregon Trail between Oxman and Durkee in Baker County. Commissioner Reynolds advised that he has received information from the Union Pacific Railroad Company whose tracks will be involved in the highway improvement, to the effect that the Company has no plans for revision of its facilities between these points in the near future. In view of this information, the Commission unanimously authorized the Engineer to make a location survey for the proposed highway revision.

The Engineer reported that agreement has been reached with Coos County with respect to acceptance of an abandoned section of the Oregon Coast Highway between Douglas County line and Coos Bay upon completion of the new highway between these points. The agreement, he said, provides that the County will assume jurisdiction and control over 9.83 miles of the old highway and will maintain the same in the future as a county road; that the State will retain 2.71 miles which are considered beneficial as frontage roads along the new highway, and that 0.23 mile will be abandoned to the abutting property owners. He recommended approval of the arrangement.

In the discussion of the matter the question arose as to whose obligation it would be to maintain the tide gates on the old highway. The Engineer explained that this will be the obligation of the county. The Commission approved the arrangement unanimously.

The Engineer recommended and the Commission unanimously approved reclassification of the following highways from Group II status to Group I status:

(1) Crater Lake Highway, No. 22, (ORE 62) from Shady Cove to the junction with the West Diamond Lake Secondary Highway near Union Creek. This highway is already classified as a Group I highway from Medford to Shady Cove.

(2) West Diamond Lake Secondary Highway, No. 233, (ORE 230) from the junction with the Crater Lake Highway near Union Creek to the

junction with the Crater Lake-North Highway near Diamond Lake.

(3) Crater Lake-North Highway No. 232, (ORE 230) from M. P. 0.0 near Diamond Lake to M. P. 3.81, junction with the East Diamond Lake Secondary Highway.

(4) East Diamond Lake Secondary Highway, No. 425, (ORE 230) from the junction with the Crater Lake-North Highway to the junction with The Dalles-California Highway.

(5) Cascade State Secondary Highway No. 160 (ORE 215) from junction with the Woodburn-Estacada State Secondary Highway No. 161 (ORE 211) to the town of Liberal in Clackamas County.

Requests were presented from the Eastern Star Grange No. 482, Bend, Oregon, and from Deschutes County Pomona Grange No. 35, also of Bend, in which the State Highway Commission is requested to maintain warning signs at hazardous places along the Central Oregon Highway between Bend and Burns and to improve this highway in such a manner that will eliminate the cause of automobile accidents which frequently occur on this highway, particularly between Bend and Horse Ridge. The Engineer rendered a comprehensive written report on the subject which reveals that the accident rate on this highway during the past five years is very favorable compared with the State-wide average accident rate. He pointed out that the highway is now well posted with signs warning the public of the possibility of livestock on the highway and pointing out curves, etc. The Highway surfacing, he said, is in excellent condition and accomodates speeds up to 90 miles per hour which is the major cause for the accidents. He also said that warning signs would have no effect on such condition and the zoning of the highway for reduced speeds would not be practical because the observance of such zones could not be expected without very strict enforcement. He gave as his opinion that very little more, if anything, can be done from an engineering standpoint to reduce the number of accidents that occur on this highway. The Commission approved the report.

The Commission considered the advisability of establishing a policy with respect to the maintenance of advertising signs over city streets that are State highway routes and in this connection the Commission considered a request from Horace W. Robinson, Manager-Director of the Douglas County Centennial Association, for permission to maintain such a sign over the route of the Pacific Highway in Roseburg, publicizing this civic celebration. The Engineer recommended adoption of a policy which would authorize the State Highway Engineer or either of the Assistant State Highway Engineers to grant permits of short duration, not to exceed 90 days, for the maintenance of cloth or canvas signs over such city streets publicizing any local, state, or city event or celebration, provided that the structural details of the sign or signs meet with the approval of the said engineers. This matter was given very careful consideration by the Commission and as a result thereof, the Commission unanimously authorized the granting of temporary permits, when requested, in conformity with the Engineer's recommendation.

The Commission definitely decided not to grant permits for maintenance of overhead signs constructed of wood or metal and also definitely decided not to permit signs of a permanent nature. The Commission's

action is to be considered as its future policy with regard to such matters.

The Engineer reported that pursuant to authority from the Commission, there was advertised for sale, bids to be received in Salem on June 26, 1952, timber that was blown down on several highways as a result of severe storms in December, but no bids were received. In view thereof, he requested authority to negotiate the sale of the timber privately to local interests. The Commission approved the request.

The Engineer rendered a written report containing his recommendation with respect to nineteen Highway Department employees who are subject to or are affected by the State Retirement Act during the third quarter of 1952. The Commission unanimously approved the Engineer's recommendation with respect to each of the employees concerned. (For complete list of the employees affected, see copy attached to the Engineer's letter dated June 25, 1952 directed to the Oregon State Highway Commission in the General Files.)

The Engineer presented a written report on a traffic survey recently completed in the City of Klamath Falls. Action on the matter was deferred by the Commission for study.

The Engineer brought to the Commission's attention a request from the Board of County Commissioners of Multnomah County for construction of an undercrossing of the T. H. Banfield Expressway and the Union Pacific Railroad tracks at 132d Avenue, east of Portland, where the County proposes at some future time to designate and construct a county road. He explained that 132d Avenue is now only a dedicated road 30 feet wide extending south of the Railroad Company's tracks and is not on the county highway system. Presently, he said there is no crossing of the railroad tracks at this point, and there is no roadway of any kind extending north from the railroad. This request, he said, comes as rather a surprise because, in his estimation, all matters pertaining to the Banfield Expressway were previously disposed of. However, when the form of agreement covering the arrangement was presented to the Board of County Commissioners, the Chairman of the Board, Mr. F. L. Shull, was the only member that would sign it, the other two declining unless the State would construct at State expense the undercrossing at 132d Avenue. He pointed out that undercrossings have been provided at 122d Avenue and at 148th Avenue, and he declared that there is no necessity now or in the foreseeable future for an undercrossing at 132d Avenue. He estimated that it will cost about $150,000 to construct the facility that the County is now demanding. As a result of discussion, the Commission voted unanimously not to construct an underpass at this location and instructed the Engineer to convey the action to the Board of County Commissioners.

The Engineer also stated further that the Board's refusal to accept and sign the agreement that was presented to it covering the T. H. Banfield Expressway is holding up the contracting of additional work on this throughway. He was instructed to inform the Board of County Commissioners that the Commission does not intend to call for bids for construction of additional work on this highway until the Board takes favorable action on the road closure at

this point; also, if agreement cannot be reached with the County within a reasonable length of time, the money set up to finance the present project will be reallocated to finance needed improvements in other parts of the State.

The Commission discussed with the Engineer the bids received for highway construction at the morning session, and at 4:00 p.m., Pacific Standard Time, Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's action in each instance having been by unanimous vote:

"0.27 mile of pavement widening on the Astoria (28th Street-32d Street) Section of the Columbia River Highway in Astoria, Clatsop County: C. H. Grimstad and T. Vanderveldt, Astoria, submitted the only bid for this project in the amount of $34,027.00. The Commission has rejected this bid as being too high.

"Construct a reinforced concrete bridge to replace an existing bridge over the Necanicum River known as the Avenue "G" Bridge in Seaside, Clatsop County: The low bid for this project was submitted by George E. Berry, Beaverton, in the amount of $44,687.50. Only one other bid was received. This is a city project so both bids have been referred to the City of Seaside for further handling.

"5.19 miles of grading and oil mat surfacing on the Deschutes County Line-Crooked River and Lone Pine School County Roads, about four miles east of Terrebonne, Crook County: Four bids were received for this work, the low one being that of Babler Brothers, Inc., Portland, in the amount of $91,327.00. The contract has been awarded to the low bidder, Babler Brothers, Inc., at its bid price.

"Aerial Photography and Topographic Mapping Project on the Oregon Coast Highway between Euchre Creek and Brookings in Curry County: Only one bid was received for this project, being that of Delano Aerial Surveys, Portland, in the amount of $19,990.00. The Commission awarded the contract to the Delano Aerial Surveys at their bid price.

"Grading and temporary surfacing on the Anlauf-Elkhead Road Unit, Divide-Rice Hill Section of the Pacific Highway, southerly from the Anlauf Railroad Station to a point about 3½ miles easterly from Yoncalla in Douglas County: The low bid for this work was submitted by Babler Brothers, Inc., Portland, in the amount of $988,629.00. There were five higher bids received. The bid of Babler Brothers, Inc. in the sum of $988,629.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of a reinforced concrete bridge across Calapooya Creek on the Elkton-Sutherlin Highway in Douglas County: The Commis-

sion received seven bids for this work, the low one being that of Tom Lillebo, Reedsport, in the amount of $71,362.00. The low bidder, Tom Lillebo, has been awarded the contract at his bid price.

"Grading and oil mat surfacing on the Middle Unit, Reedsport-Dean Creek Section of the Umpqua Highway, about one mile east of Reedsport, Douglas County: Fred H. Slate Company Oregon Limited, Portland, submitted the low bid for this work in the amount of $311,220.00. Three higher bids were received. The contract has been awarded to Fred H. Slate Company Oregon Limited, at its bid price.

"McCredie Springs-Willamette Junction Rock Production Project on the Willamette Highway, from 15 miles east of Oakridge easterly 33 miles, in Klamath and Lake Counties: There were two bids received for this work, the low one being that of Rogers Construction Company, Portland, in the amount of $69,355.00. The Commission has accepted the low bid of Rigers Construction Company and awarded them a contract at their bid price.

"Grading and paving of 6.51 miles on the Benton County Line-Cheshire Section of the Territorial Secondary Highway, about two miles south of Monroe in Lane County: The low bid for this work was submitted by Porter W. Yett, Portland, in the amount of $173,531.50. There were seven higher bids received. The bid of Porter W. Yett in the sum of $173,531.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving on the Low Pass Section of the Siuslaw Highway, about two miles east of Blachly in Lane County: Nine bids were received for this work, the low one being that of Natt McDougall Company, Portland, in the sum of $735,510.00. The Commission has awarded the contract to the low bidder, Natt McDougall Company, at its bid price.

"Oregon Slough Bridge Expansion Plates in Multnomah County: The Commission received two bids for this job, the low one being that of West Coast Steel Works, Portland, in the amount of $15,940.00. The contract has been awarded to the low bidder, West Coast Steel Works, at its bid price.

0 37 mile of embankment construction, finishing and slope protection on the west approaches to Salem Bridges on the Salem-Dallas Highway in West Salem, Polk County: E. L. Kennard, Enumclaw, Washington, submitted the low bid in the amount of $57,816.00. Nine higher bids were received. This contract has been awarded to E. L. Kennard at his bid price.

"The furnishing and placing of traffic signals at eight intersections in The Dalles on the Columbia River Highway in Wasco County: Of the six

bids received, Trowbridge and Flynn Electric Company, Medford, submitted the low bid in the amount of $19,520.00. Trowbridge and Flynn Electric Company has been awarded the contract for this work at its bid price.

"Grading and paving of the Shogren-Rowena Unit, Mosier-The Dalles Section of the Columbia River Highway between Mosier and Rowena in Wasco County: Parker-Schram Company, Portland, submitted the low bid of $1,223,561.50 for this job. There were nine higher bids received. The bid of Parker-Schram Company in the sum of $1,223,561.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of four reinforced concrete viaducts over West Portland-Hubbard Highway between Tualatin and Wilsonville at Nyberg, Sagert, Norwood, and Stafford county roads, in Washington County: Of the seven bids received, Birkemeier and Saremal, Portland, submitted the low bid in the amount of $153,925.00. The low bid of Birkemeier and Saremal in the amount of $153,925.00 has been accepted and said company has been awarded a contract at its bid price."

A letter was presented from the Nehalem Bay Expansion Association, Mr. K. A. Banks, Secretary, in which the State Highway Commission is requested to give consideration to construction of the Oregon Coast Highway south from Neskowin along a location skirting the face of Cascade Head which was surveyed in 1909 by the Hammond Lumber Company for a railroad. The Engineer advised that investigation of this alignment was made several years ago and the route was abandoned because it was not considered practical to build a highway around Cascade Head or around the Head lands between Oceanlake and the Salmon River. He expressed the feeling that the Hammond Lumber Company felt the same way about it because no attempt was ever made by the Company to construct its facilities on such location. The Commission denied the request unanimously.

The Commission had under consideration approval of an expenditure of $1,898 to assist the Highway Research Board in payment of expenses incurred in connection with research correlation surveys during the physical year ending June 30, 1953. The Commission approved the expenditure unanimously upon recommendation of the Engineer and thereupon authorized the Engineer to sign an agreement covering the matter in behalf of the Commission.

A petition was presented from the residents of Halfway, Oregon, requesting the application of a dust palliative on a short section of the Pine Creek Secondary Highway in the town of Halfway, particularly the one portion on Record Street extending from Main Street to the city limits. The Engineer advised that the section of highway referred to consists of a single block about 260 feet in length. He estimated the cost to oil this

one block at $550 and recommended approval of the expenditure. The Commission approved the recommendation.

The Engineer reported that the following cities and towns have fulfilled the legal requirements with respect to the expenditure of State Tax Street Funds that accrued to them during the second six-month period of 1951, and that the plans for improvements to be financed with such funds have been examined and found satisfactory:

Amity	$2,109.66	Antelope	$ 188.36
Aumsville	882.16	Aurora	759.73
Barlow	235.45	Coburg	2,175.58
Condon	3,038.91	Cornelius	3,133.09
Cove	885.30	Creswell	2,078.26
Dayville	897.86	Echo	1,434.69
Estacada	2,982.40	Fairview	1,375.04
Gaston	1,155.29	Gervais	1,434.69
Glendale	2,734.39	Gold Beach	2,125.35
Gold Hill	1,943.27	Halfway	979.48
Helix	571.37	Hines	2,881.94
Hubbard	1,547.71	Huntington	2,301.16
Idanha	1,387.60	Ione	822.51
Jefferson	1,996.64	Monroe	1,136.45
Mosier	813.10	North Powder	1,265.17
Oakland	2,602.54	Oceanlake	2,197.56
Prairie City	2,580.56	Sherwood	1,805.14
Sodaville	492.88	Summerville	229.17
Talent	2,319.99	Wasco	957.51

He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that all surveys for primary highway projects to be constructed during the year 1953 will be completed this coming fall, in fact a considerable number of them will be completed during the month of July. He requested authority to commence work on surveys for projects that are to be contracted during 1954 and later, so as to insure their completion a year in advance of the planned construction. He presented a list of projects in that category and advised that the projects represented in the list are included in the proposed five-year program for both bond funds and Federal Aid. The Commission unanimously authorized the Engineer to make surveys for the following projects contained in the listing:

Highway	Section	Length Miles	Estimated Construction Cost
	Division No. 1		
Columbia River	Goble-St. Helens	12.0	$ 750,000 F. A.

Highway	Section	Length Miles	Estimated Construction Cost
	Division No. 2		
Oregon Coast	Newport-Yachats	24.0	$ 950,000 Bond
Salmon River	Sulphur Creek-Rogue River	9.0	300,000 F. A.
Salmon River	Rogue River-Gold Creek	7.0	100,000 F. A.
	Division No. 3		
Oregon Coast	Gold Beach-Pistol River	13.0	1,000,000 Bond 1,500,000 F. A.
Oregon Coast	Pistol River-Brookings	23.0	1,200,000 F. A.
	(Survey authority has been granted for preliminary line and aerial photographs.)		
Redwood	Hayes Hill-Grants Pass	14.0	600,000 F. A.
Siuslaw	Florence-Tiernan	9.0	200,000 F. A.
Siuslaw	Swisshome-Indian Creek	3.0	250,000 F. A.
Coos Bay-Roseburg	Middle Fork-Suicide Creek	8.0	350,000 F. A.
	Division No. 4		
McKenzie	Deep Canyon	1.0	130,000 F. A.
Ochoco	Redmond-Powell Butte	8.0	200,000 F. A.
Sherman	Wasco-Grass Valley	19.0	500,000 F. A.
Sherman	Grass Valley-Kent	13.0	400,000 F. A.
Dalles-California	Sherman Junction-Willowdale	9.0	1,000,000 Bond
	Division No. 5		
Central Oregon	Juntura-Vale	56.0	1,500,000 F. A.
Pendleton-John Day	Emigrant Street RR Undercrossing (Pendleton)	.25	450,000 F. A.
Oregon-Washington	Adams-Weston	8.0	250,000 F. A.
Oregon-Washington	Weston-Milton	9.5	300,000 F. A.
Old Oregon Trail	Baker-Pleasant Valley	13.0	1,000,000 F. A.
Old Oregon Trail	Olds Ferry-Ontario (Bring old survey up to date)	32.0	800,000 F. A.
			$15,680,000

The Commission discussed a petition signed by 480 residents of Reedsport and vicinity requesting that immediate steps be taken to build a highway along the north side of the Umpqua River between Scottsburg and

Smith River Junction. The Engineer pointed out that a highway on the north side of the river will simply parallel the Umpqua Highway on the south side of the river between these points, and he gave as his considered opinion that there is no justification for providing such parallel roads in the immediate future. He recommended that the request be denied. The Commission approved the recommendation.

The Engineer requested authority to contract the construction of 3,400 rods (9.4 miles) of right of way fence along the Arlington-Heppner Junction Section of US 30. He explained that in negotiating for right of way along this section, settlement with four of the property owners required the State to construct right of way fences which is too large an undertaking for regular highway maintenance crews. The Commission approved the request.

The Commission discussed a letter from Mr. Eugene E. Marsh, City Attorney with the City of McMinnville, advising that the City Council in its consideration of the Highway Commission's resolution with reference to the abandonment of the South Yamhill River Section of the Three Mile Lane State Secondary Highway considered that the section proposed to be abandoned by the State should be repaired and presented in good condition before it is accepted by the City. The Engineer advised that the section referred to is 0.3 mile in length and inspection reveals that it is in need of repair. He estimated the cost of repairs at $700 and recommended approval of the expenditure. The Commission approved the recommendation.

The Commission discussed a letter from Mr. Bernard I. Galitzki, President of the S. E. Portland Chamber of Commerce, requesting immediate construction of a proposed extension of S. E Foster Road, Portland, to a junction with the Mount Hood Highway. The Engineer advised that a reconnaissance survey of this route was made in 1935, and the report that was rendered at that time indicated that the Foster Road extension would provide a savings of 1.14 miles over the present route, which made construction of the road justifiable at some future time. The facts brought out in that survey, he said, no doubt have changed materially because of developments during the past 17 years, and in order to arrive at a benefit quotient, he suggested a study to bring the report up to date. The Commission approved the recommendation unanimously and so ordered.

The Engineer brought to the Commission's attention a hazardous condition that exists at the intersection of US 30 with US 730 east of the town of Boardman in Morrow County, where the Paterson Ferry traffic volume to and from the east has increased far beyond the antici pated volume, creating a serious hazard because no provision has been made at that point for a traffic interchange. He exhibited a map showing the junction of the two highways and also showing the location of a proposed roadway connecting them a short distance east of the present junction. He pointed out that the connecting roadway is 0.6 mile in length and he estimated the cost to construct it at $13,000. He recommended approval of the project as a safety proposition. The Commission approved the recommendation unanimously. The Right of Way Engineer was authorized to negotiate acquisition of right of way as may

be required therefor.

The Engineer reported receipt of a communication from Mr. F. E. Landsburg, District Director of Interstate Commerce Commission, pointing out an unsatisfactory condition on the Cascade Secondary Highway about nine miles south of Oregon City where a fatal accident recently occurred. Mr. Landsburg advised that the highway at the scene of the accident is on a curve that is not properly super-elevated and is unsafe for speeds in excess of 40 miles per hour. The Engineer advised that this section of highway was built in 1925 and that investigation reveals about 1,600 feet of very poor alignment with several reverse curves and sub-standard super-elevation. The matter has been investigated, he said, and it has been ascertained that the condition can be corrected within the limits of the present roadbed by modifying the alignment slightly, spiraling the curves, and by a small amount of grading work to provide super-elevation of the curves to meet standard requirements. He estimated the cost of such work at $5,600 and recommended approval of the expenditure, the work to be done by State forces. The Commission approved the recommendation. The Right of Way Engineer was authorized to negotiate acquisition of additional right of way as may be required.

The Engineer brought up for discussion a request from the City of Eugene for State cooperation in connection with a comprehensive program for signal installation within the city. He stated that an investigation and review has been made of the City's program with the view in mind that the State should cooperate to a certain extent in the installations, and that as a result thereof, it is his recommendation that the Commission enter into an agreement with the City for signals at the following points, the cost involved to be paid 50 percent by the City and 50 percent by the State:

(1) Installation of traffic signals at the intersections of 6th and Polk Streets and at 7th and Polk Streets Estimated cost $5,600.

(2) Conversion of the existing non-standard installations at the intersection of 6th and Jefferson Streets and at 7th and Jefferson Streets to conform to approved highway standards. Estimated cost $4,700.

(3) Interconnection of signals at Polk, Blair, and Jefferson Streets intersections on the 6th Street and 7th Street couplet in order to maintain the progressive system. Estimated cost $2,000.

He pointed out that the total estimated cost of the above-described signals is $12,300, of which the State's share would be $6,150, and he recommended approval of the project. The Commission approved the recommendation.

The Commission discussed objections offered by the City Council of the City of Florence as to the type of channelization and center dividers that have been provided along US 101 within the city limits, particularly the design at the intersection of Fourth Street with the highway. The Engi-

neer advised that he personally consulted with the City officials regarding this matter and reached what, he believed, is a reasonable solution and which will necessitate only the cutting back of the center island and curve at the Fourth Street intersection The City officials, he said, agreed to withdraw their objections to the balance of the channeling work if such change were made at Fourth Street. He estimated the cost to make the change at Fourth Street at about $400. He exhibited a map showing the suggested change and recommended approval of the project. The Commission approved the recommendation unanimously

The Engineer reported that the surveys for the following highway sections have been completed, and he asked the Commission to approve and adopt them as the permanent locations of the highway sections to which they refer

(1) Relocation survey for the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway in Curry County, 3.4 miles in length.

(2) Canyonville East Section of the Tiller-[illegible] Secondary Highway, 1.1 miles in length, in Douglas County

The Engineer exhibited maps showing the two highway sections and explained details. As a result of careful consideration and study, the Commission unanimously approved both surveys by adoption of the attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and by unanimous vote approved an assignment given by Heavy Hauling Company to Koppisch Construction Company, Inc. of all of its interest in and to certain State Highway contracts that are now under way In the discussion of the matter, it was explained that the principals involved are exactly the same in both companies and that the change is simply a change in the business name of the firm which has now incorporated

The Engineer requested authority to transfer $25,000 of funds heretofore budgeted for construction of two employee houses at Warm Springs, Oregon, so as to permit the financing of two employee cottages at Lincoln on the Green Springs Highway in Jackson County He explained that the housing situation for employees at Lincoln is much more critical than that at Warm Springs because the majority of the employees at Warm Springs have their own trailer houses, whereas at Lincoln the foreman and his assistants have to live in Ashland which is twenty-one miles from their maintenance headquarters The Commission unanimously approved such transfer of funds and thereupon authorized the Engineer to advertise for bids for the construction of the two cottages at Lincoln

A letter was presented from the City of La Grande requesting a survey for a truck route through the City The Engineer advised that most of the information needed for study of such truck route was gathered at the time the traffic survey was made in the City of La Grande, and that very little work is required to complete it He recommended approval of the request The Commission ap-

proved the recommendation. The Engineer was instructed to have the Traffic Engineer consult with Commissioner Reynolds before starting the investigation.

The Commission discussed with the Engineer a request from Franklin Grange No. 572, Lane County, for improvement of the uncompleted section of the Territorial State Secondary Highway between Franklin and a junction with Oregon 36 (Siuslaw Highway), a distance of about 1.7 miles. The Engineer recalled a previous report on this matter in which it was estimated that it will cost about $100,000 to rebuild this section of highway to modern standards. He also recalled that the Commission denied the improvement because there were no funds available at the time to finance the work. A delegation, he said, is scheduled to appear before the Commission on the following day and is going to ask the Commission for application of a dust palliative, being a light type of oil treatment costing about $800 per mile or a total cost, in this particular instance, of about $1,400. He pointed out the temporary nature of such a treatment, advising that quite often it is necessary to reoil the roadbed each spring. The Engineer pointed out that the 1.7 miles that the Grange wants oiled lies between the existing oiled or paved roads and from that standpoint the improvement is merited. He recommended approval of such oil treatment for undertaking next spring, it being too late to arrange for a crew to do the work this year before the fall rains set in. This matter was discussed at some length and as a result thereof, the Commission approved the Engineer's recommendation and authorized him to apply a light oil treatment to the section next spring as an experiment. (This information was conveyed by the Commission to the delegation on the following day.)

The Engineer brought up for discussion a request from the Tigard Water District for State cooperation in the cost of re-establishing its water pipe line along the Tigard-Tualatin River Section of the Pacific Highway West, the moving of the pipe line being necessary because of the construction of the highway at this location. The Engineer advised that the district, as is usual in the case of small water districts, is in poor financial condition and is without sufficient funds to provide new pipe, which is required, and to install the same. He recalled that in numerous instances in the past the State has cooperated with municipal water districts in the moving of pipe lines to permit highway construction, and he recommended such cooperation in the present instance, the State's contribution to consist of reimbursing the district for the cost of installing new pipe which the city is purchasing for this purpose up to a maximum of $2,500, the district to pay the balance. The Commission approved the recommendation, and ordered the matter covered by a written agreement.

The Engineer asked the Commission to authorize an increase in the project authorization heretofore approved for each of the following projects:

(1) Construction of the South Unit of the Denver Avenue-Columbia Slough Section of US 99E. Increase requested $32,000.

(2) Construction of the Stout Creek-Mill City Section of the North Santiam Secondary Highway. Increase requested $43,000.

The Engineer explained details. The Commission by unanimous vote approved both increases.

A letter was presented from the Pendleton Motor Court Association, Pendleton, Oregon, by D. E. Roebuck, President, urging immediate construction of an underpass under the Union Pacific Railroad tracks on US 395 (Pendleton-John Day Highway) in Pendleton. In the discussion of this matter, the Engineer recalled that this project has been considered by the Commission several times in the past, but the Commission has made no definite commitment to it and has made no statement as to the time when the underpass might be built, although the project is listed in the tentative five-year construction program and the sum of $450,000 of either 1955, 1956, or 1957 Federal Aid Funds has been tentatively allocated to the work. He pointed out that the present grade crossing at this point is the only remaining primary highway grade crossing of a main line railroad in the State of Oregon. The Commission again denied the request for immediate construction of the project and instructed the Secretary to so inform the Association.

The Commission discussed a request from Mr. Robert A. Putnam, Portland, forwarded by the Board of County Commissioners of Multhomah County, for installation of a traffic signal at the intersection of 92d Avenue and Powell Boulevard (US 26). The Engineer advised that a recent traffic count taken on Tuesday and Wednesday, May 27 and 28, 1952, indicated that 10,690 vehicles enter this intersection in a 24-hour period. The accident record for the intersection, he said, is quite serious, there having been reported 54 accidents during the three-year period from 1949 through 1951, of which 25 were of a type which might have been prevented by traffic signals. He also said that the intersection meets the nationally accepted warrants for installation of traffic signals in urban areas, in view of which, he recommended the installation of a traffic signal at this point, which he estimated would cost about $3,500 and which will have to be paid entirely with State funds, it being outside of the city. The Commission approved the recommendation.

The Commission discussed and upon recommendation of the Engineer unanimously approved illumination of highway intersections as follows:

(1) Junction of US 99 with the McKenzie Highway south of Eugene as requested by the Glenwood Businessmen's Association. This is additional to the illumination that now exists at this point. It is estimated to cost $200.

(2) Illumination of the McKenzie Highway at its intersection with 42d Avenue, just east of Springfield, as requested by the Weyerhaeuser Timber Company. This is a new installation and is warranted by the heavy traffic that enters the highway at this point. It is estimated to cost $600.

The Commission unanimously approved a report from the Engineer advising satisfaction of conditions governing the awards of the following contracts and also advising that contract forms have been prepared and forwarded to the respective contractors pursuant to the Commission's instructions:

1. Grading and paving and bridge construction on the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County. Low bidder, McNutt Brothers, Eugene. Conditions satisfied, June 2.

2. Construction of 2 bridges and grading and paving the Calapooya Creek-Sutherlin Section of the Elkton-Sutherlin Highway in Douglas County. Low bidder, Fred H. Slate Company Oregon Limited & E. C. Hall Company, Portland. Conditions satisfied on June 20.

3. Grading and paving the Tigard-Tualatin River Unit of the Pacific Highway West. E. C. Hall Company, low bidder. Conditions satisfied June 17.

4. Grading and paving the Hauser-Coos Bay Section of US 101, Coos County. Low bidder C. R. O'Neil. Conditions satisfied June 17.

5. Phoenix and Talent Paving Project in Jackson County. United Contracting Company, low bidder. Conditions satisfied June 9.

6. Grading and paving and construction of a bridge on the Lostine River Bridge Section of the Wallowa Lake Highway in Wallowa County. H. J. and H. W. Miller, low bidders. Conditions satisfied June 24.

7. Grading and paving the Junction City Section, Lane County. Warren Northwest Inc., low bidders. Conditions satisfied May 28.

8. Grading and paving the Lafayette-North Yamhill River Section of US 99W, Yamhill County. J. C. Compton, low bidder. Conditions satisfied July 3.

9. Grading and paving the Oakland Junction-Deady Unit, Chenoweth Park-Deady Section of US 99. Bids received May 26, 1952. White Brothers Company, Walla Walla, Washington, low bidder, at $1,158,818. Conditions satisfied July 9, 1952.

The Commission had under consideration the following requests for extensions of time within which to complete State Highway Contracts.

1. Valley Construction Company, Contract No. 3503, for bridge construction and 1.75 miles of grading work on the Starkey Secondary Highway in Union County, requested an extension of time of 120 days, from November 30, 1951 to May 5, 1952, within which to complete this

job. The Company attributed its failure to complete this project within the specified time limit to high water conditions in the Grande Ronde River which delayed construction of the bridge footings and the grading work which could not be performed until after the bridge work was completed. The Engineer advised that the bridges were completed in November, 1951, and that the contractor immediately started grading operations which were carried on until the work had to be shut down for the winter. He further advised that very little inconvenience, if any at all, had been caused the public by the delay, and he recommended in view thereof that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

2. George E. Berry, Contract No. 3644, for replacement of metal handrail on a bridge over the North Santiam River on the North Santiam Highway in Linn County, requested an extension of time of 30 days, from June 30 to July 30, 1952, within which to complete this job. He attributed his failure to complete the project within the specified time limit to difficulties in securing delivery of the metal handrail. The Engineer advised that the reason given by the contractor for overrunning the specified time limit is correct. He recommended in view thereof that the extension of time as requested be granted with out penalty. The Commission approved the recommendation.

3. General Construction Company, Contract No. 3511, for widening Columbia Slough Bridge on the Pacific Highway East, Multnomah County, requested an extension of time of 122 days, from May 31, 1952 to September 30, 1952, within which to complete this job. The contractor gave as his reason for overrunning the specified time limit, the slow delivery of steel due to Government controls. The Engineer advised that the reason given by the contractor for overrunning the specified time limit is correct. He recommended in view thereof that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

4. City Electric Company, Contract No. 3501, for installation of traffic signals on the Oregon Coast Highway in the City of Tillamook, requested an extension of time of 240 days, from September 30, 1951 to May 27, 1952, within which to complete this job. They alleged their failure to complete the project within the specified time limit was due to adverse weather conditions which would not permit painting and curb work until suitable weather prevailed. The Engineer advised that in order to obtain an acceptable job of painting, the contractor was requested to delay that part of the work until the weather was satisfactory for such purpose; also that the contractor experienced delay in obtaining signal material for the job, all of which accounted for the fact that the job was not completed within the specified time. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation

5. M. L. and C. R. O'Neil, Contract No. 3295, for grading and surfacing the Ladd Canyon-North Powder Section of the Old Oregon Trail in Union County requested an additional extension of time of 163 days, from November 30, 1951 to May 13, 1952, within which to complete this job. They attributed their failure to complete the project within the previously extended time limit to freezing weather conditions during the winter season which prevented the placement of roadbed topping, and to failure of a sub-contractor to complete work that was assigned to him. The Engineer advised that the contractor actually completed the project on December 22, 1951 but there remained to be done at that time the removal of oversized stones in the cinder topping shoulders which work could not be done until Spring because of snow conditions but which was completed in only two days time when the contractor resumed his operations in May. He recommended that the extension of time as requested by granted but that engineering costs incurred by the State in connection with the job from November 30 to the normal finishing date, December 22, 1951, be assessed against this contractor as a penalty for overrunning the previously extended time limit. He explained that there were no engineering costs assessible against the project after December, 1951. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation unanimously.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that contracts Nos. 3557, 3564, 3577, 3596, 3630, 3633, 3634, 3685, 3687, 3688, 3437, 3503, 3542, 3544, 3589, 3604, 3671, 3673, 3501, and 3590 for construction of State highway projects have been completed according to the requirements of the contracts or modifications thereof and that said projects are now ready for acceptance. After due consideration the Commission, by unanimous vote, accepted said contracts by adoption of the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed and upon recommendation of the Engineer unanimously approved an agreement with the Pacific Power and Light Company covering the construction and maintenance of a water main extension to serve the highway landscape project on the Ochoco Highway near its west entrance into Prineville. (The agreement was signed by the Commission later in the session.)

Pursuant to instructions from the Commission at the previous meeting, the Manager of the Accounting Division submitted a list of miscellaneous claims against individuals, as follows, which have been deemed uncollectible:

NAME	DATE OF INVOICE	DESCRIPTION	AMOUNT
W. G. Hellier	4-3-42	Royalty	$7,600.00
Joe Wilson	7-19-43	Map	.55
W. M. Shiffer	3-30-45	Crushed Rock	25.08
L. B. Taylor	8-3-45	Map	.55
George A. Davis	8-11-47	Signs	7.20
Eugene Const. Co.	8-2-48	Signs	36.90
L. A. Smith	12-17-48	Rental concession	225.00
O. N. Eggen	1-17-49	Blueprinting	4.70
Curry County	5-2-49	Laboratory Test	27.00
J. C. Ramaker	11-25-49	Technical bulletin	1.15
Bob Collins	3-6-50	Signs	7.20
Ed James	5-12-50	Signs	7.20
A. F. Walls	7-11-50	Snow removal	49.00
		TOTAL	$7,991.53

The Commission unanimously approved cancellation of these claims.

The Commission had under discussion the distribution to the cities and towns of the State of Oregon their respective shares of revenues which accrued to the State Highway Fund during the first six-month period of 1952 amounting to $1,999,177.76. The Engineer advised that the total revenues accruing to the Highway Fund during such period amounted to $21,240,777.56, of which, according to the law, 10 percent must be paid to the cities and towns after deducting therefrom $125,000 which is to be expended by the State Highway Commission for improvement of city streets, and that the sum to be distributed totals $1,999,177.76. He presented a tabulation showing the distributive share of each city and town and advised that the amounts have been checked with the Secretary of State and are correct. After due consideration of this matter, the Commission approved the distribution of the funds as presented by the Engineer, and thereupon by unanimous vote adopted the attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed and upon recommendation of the Engineer unanimously approved an agreement with the US Army Engineers providing for reimbursement by the Federal Government of the State's expense and cost of repairing damage that occurred to a bridge in Juniper Canyon east of McNary Dam by reason of activities of the Army Engineers. The State's claim is in the amount of $4,662.50 and covers the expense of a State Highway crew in restoring the damage. (The agreement was signed later in the session.)

The Commission also considered and approved an agreement with Harney County providing for abandonment of the old route of the Rome-Princeton State Secondary Highway between Princeton and Malheur County line when the new highway between these points has been completed. (The agreement was signed later in the session.)

The Commission discussed an agreement with Wasco County providing for abandonment of a short section of road that was designated and used as a temporary State Highway in 1920, during the time when the Columbia River Highway was under construction between The Dalles and the Deschutes River, and which provided a temporary connection between a county road with the new state highway. The Engineer explained that this roadway was used until about 1925 when the Columbia River Highway was completed, and that it has been maintained by the County since that time, although no official action has been taken by the Commission to remove it from the State Highway system. He recommended approval of the agreement in order to clarify the records. The Commission approved the recommendation. (The agreement was signed by the Commission later in the session.)

The Commission unanimously confirmed telephonic approval given the Secretary by Chairman Chandler and Commissioner Reynolds on June 16, 1952, releasing the folder listing historical markers in Oregon as prepared by the Pendleton Woolen Mills, and authorizing the general distribution thereof.

The Commission discussed and approved an agreement with the City of Astoria covering the improvement of Franklin Avenue (US 30) in that city between 28th Street and 30th Street, bids for construction of which were received by the Commission at this meeting. (The agreement was signed on the following day.)

The Commission discussed a request from the City of Coquille for approval of a new street connection with US 101 which is necessary to serve the people residing in the residential district of Coquille, known as Sanford Heights. The Engineer advised that the location of the new street connection is within the city limits of Coquille where the State has only semi-access control. The new connection, he said, is much better located than the former connection, and has a sight-distance of about 1,300 feet in one direction and about 900 feet in the other. He recommended approval of the request in the interests of greater safety and better service to the people of the Sanford Heights district. The Commission approved the recommendation unanimously.

The Commission unanimously approved the Secretary's report on papers which he signed on behalf of the Commission during the period May 23 to July 7, 1952.

The Engineer asked the Commission to approve out-of-State travel expense for the following employees:

(1) Oscar Cutler, Assistant Traffic Engineer, to attend the Federal Civil Defense Administrative Technical Rescue School at St. Mary's College in Oakland, California, on July 20 to 26, 1952. The expense is to be paid by the Civil Defense Agency.

(2) Construction Engineer, H. G. Smith, and Bridge Engineer, G. S. Paxson, to inspect California highway construction at Big Lagoon near Eureka, California, in order to acquire knowledge of the type of construction that is used by the State of California to protect State Highways against action of the ocean waves, etc. One day trip at nominal expense.

The Commission approved both requests.

The Engineer reported that because of existing conditions, it was necessary to place a 50 percent reduced load limit on the West Diamond Lake State Secondary Highway between M. P. 8.0 and M.P. 23.89 at its junction with the Crater Lake Highway on Wednesday, May 28, 1952. He asked the Commission to confirm the posting. The Commission approved the request unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that due to changed conditions, it no longer is necessary to maintain the reduced load limits heretofore in effect on the following highways, and that he accordingly has ordered the removal of the signs:

(1) Warner Secondary Highway from junction with Freemont Highway to M. P. 21.4, effective Saturday, May 31, 1952.

(2) Frenchglen Secondary Highway from M. P. 0.0, junction Burns-Crane Highway, to M. P. 10, effective June 2, 1952.

(3) West Diamond Lake Secondary Highway from M. P. 8 to junction with Crater Lake Highway, effective June 20, 1952.

(4) Weston-Elgin Highway from M. P. 8 to junction Wallowa Lake Highway, effective June 2, 1952.

He asked the Commission to confirm his action in the matter. The Commission approved the request unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer asked the Commission to approve the reversal of the stop signs which are now being maintained on N. E. Halsey Street at its intersection with the Crown Point State Secondary Highway within the city limits of Troutdale. He explained that the Crown Point Secondary Highway was the former route of the Columbia River Highway and carried large volumes of traffic through Troutdale, and as a protective measure, Halsey Street traffic was required to stop before entering its intersection with that

highway. However, since the new Columbia River Highway has been built, the Crown Point Highway carries only very little traffic west of Halsey Street junction, although Halsey Street is an important county arterial. He gave as his opinion that the signs should be reversed so as to require eastbound Crown Point traffic to stop before entering the intersection with Halsey Street and to allow eastbound Halsey Street traffic to continue without stopping at this point, and he so recommended. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a request from Mr. Gerry O'Malley, Carlton, for alleviation of a dangerous condition which he alleges exists on US 99W just south of its junction with ORE 18 near McMinnville, particularly in the vicinity of an attraction known as "Mack Kiddie Land" which Mr. O'Malley owns and operates. The Engineer advised that Mr. O'Malley's property lies on the easterly side of the highway, and while his business is of a temporary nature, it attracts many people during the evening hours and Sunday afternoons when there is considerable parking of vehicles on the highway shoulders. He said that the 1950 average vehicular daily traffic on US 99W at this point was 2,221 vehicles, 80 percent of which it is estimated traveled at or below 50 miles per hour northbound and 40 miles per hour southbound. Parking of vehicles on the highway shoulders, he pointed out, introduces a definite hazard to highway traffic, and he recommended the designation of a "NO PARKING ON HIGHWAY SHOULDERS" zone on each side of the highway between M. P. 40.17 and M. P. 40.32. The Commission unanimously approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given by the Commission to requests as follows for the establishment of reduced speed zones on state highways:

(1) Petition from residents of the community known as Lindberg requesting the establishment of a 35-mile per hour speed zone on the Lower Columbia River Highway through this community, which is located east of and adjacent to the City of Rainier. The Engineer advised that the matter has been investigated by the Traffic Engineer who recommends that the request be denied because the conditions at this point do not meet with nationally accepted requirements, but who does recommend in lieu thereof that the area be bracketed with standard "LOOK OUT FOR PEDESTRIANS AHEAD" signs. He stated his concurrence in the recommendation. The Commission approved the recommendation unanimously.

(2) Request of Mrs. N. F. Shurtliff and Mrs. Walter Sneddon, Lowell, Oregon, for designation of a 25-mile per hour speed zone on the Willamette Highway at its intersection with the county road leading to Lowell. The Engineer advised that this matter was investigated by the Traffic Engineer who recommends that the request be denied

but who also recommends the installation of 90-degree roadside reflectorized symbol signs in advance of the intersection, that the existing stop sign on the Lowell Road be removed and a rubber "stop" flap be installed on the northerly pavement line of the Willamette Highway where it intersects the center line of Lowell Road, and that two mercury vapor luminaire units be installed at the intersection, at a cost of about $800. He stated his concurrence in the recommendation. The Commission approved the recommendation unanimously and so ordered.

(3) Request of the Harbor Community Club, Harbor, Oregon, for designation of a 25 or 30-mile per hour speed zone on the Oregon Coast Highway between the top of Harbor Hill and a point north of the Chetco River Bridge. The Engineer stated that this matter also has been investigated by the Traffic Engineer who reports that conditions prevailing at this point do not justify establishment of a reduced speed zone, but who recommends in lieu thereof that "SLOW" and "REVERSE CURVE" signs be maintained along that portion where the grade of the highway is rather steep and where there is relatively sharp reverse curvature in the highway alignment. He stated his concurrence in the recommendation. The Commission approved the recommendation unanimously.

(4) Recommendation of the Engineer that reduced speed zones be designated on N. E. Sandy Boulevard (US 30), Portland, from the easterly city limits of Portland at N. E. 82d Avenue, through the Parkrose area, to N. E. 122d Avenue. The Engineer pointed out that for some time past a progressive signal system has been in operation along this section of the highway, the signals being set for progressive speeds of 35 miles per hour between N. E. 82d Avenue and N. E. Columbia Boulevard, but from Columbia Boulevard to N. E. 112th Avenue the progressive speed is 30 miles per hour. A check of records, he said, discloses the fact that the Commission has never taken action to control the speed of traffic through this area in conformity with the progressive signal system, and in order to rectify the situation, he recommended the designation of speed zones along Sandy Boulevard as follows: between the east city limits of Portland and Columbia Boulevard intersection, 35 miles per hour; between Columbia Boulevard intersection and N. E. 112th Avenue, 30 miles per hour; between N. E. 112th Avenue and N. E. 122d Avenue, 35 miles per hour. The Commission unanimously approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

(5) Recommendation of the Engineer for designation of a reduced speed zone on the Lower Columbia River Highway through the Community of Burlington. The Engineer advised that investigation of this section of highway was made by the Traffic Engineer in connection with an overall speed zone program for highways on the State Highway System. Burlington, he said, is a small unincorporated community extending the distance of about 0.3 mile along the highway. He also said that the alignment of the highway through the Community is good and that the pavement is of Portland cement concrete 20 feet wide with gravel shoulders averaging 10 to 20 feet in width on both sides of the highway. He also mentioned that

the roadway culture consists of a mixture of business establishments and residences, and that the annual daily traffic volume consists of about 4,300 vehicles. This section of highway, he added, in now posted for a maximum indicated speed of 25 miles per hour which investigation reveals is too slow in that a traffic check indicates that 98 percent of the vehicles that travel the highway at this point exceed such speed. As to traffic accidents, he said that the accident rate amounts to 10.10 accidents per million vehicular miles as compared with the state wide rate of 11.20 overall on suburban primary highway sections. He recommended in view of the findings that the maximum speed along the section concerned be raised from the existing 25 miles per hour limit to 40 miles per hour, particularly between M. P. 12.62 which is 0.15 mile south of Main Street in Burlington and M. P. 12.94 which is 0.17 mile north of Main Street. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "M", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and ordered filed a telegram received from the Roseburg Chamber of Commerce offering complete cooperation to eliminate billboards and other unsightly distractions if the Highway Commission will spend 10 million or 15 million dollars for construction of an expressway through Roseburg.

The Commission discussed briefly the setting of a date for its annual inspection trip of State Highways through Western Oregon but deferred definite action in the matter until its next meeting.

The Commission discussed items of unfinished business appearing on the Secretary's Summary, dated May 27, 1952, and took action thereon as follows:

(1) Request for development of Eel Lake as a recreational area: This item was partially reported on earlier in the session and discussed thoroughly later in the session at which time the State Parks Superintendent reported on the park features and the Right of Way Engineer submitted a proposition from the State Game Commission with respect to acquiring right of way across the property of that Commission for improvement of the Oregon Coast Highway at this point. The Commission at that time ordered the item retained on the list of unfinished business. (See additional paragraph ahead.)

(2) Accidents at railroad crossing on the county road which extends from Island City to a junction with US 30, a short distance east of La Grande: This matter was reported by the Engineer earlier in the session and action taken by the Commission. The item is to be deleted from the list of unfinished business.

(3) Proposed survey of US 30 between Oxman and a point near Durkee, in Baker County: This matter was disposed of earlier in the session

when the Commission authorized the Engineer to conduct a relocation survey. The item is to be deleted from the list of unfinished business.

(4) Proposed highway extending from Barbur Boulevard, Portland, to Hillsdale: The Engineer rendered his report on the subject earlier in the session, in view of which, the item was ordered deleted from the list of unfinished business.

(5) Request for improvement of the Dayton-Amity cut-off and of Three Mile Lane Secondary Highway between Dayton and US 99W junction, including a new bridge over the south fork of the Yamhill River. The Engineer's report on this subject was rendered earlier in the session. The item was ordered deleted from the list of unfinished business.

(6) Request of Ophir Women's Club for establishment of a state park near Ophir in Curry County. This matter was reported on earlier in the session when final action was taken. It is to be deleted from the list of unfinished business.

(7) Request of Doctor Orville Eaton, Astoria, for crosswalk or blinker light installation at the junction of the Westport Road with US 30 in Clatsop County: This item was ordered deleted from the list of unfinished business in view of the Engineer's written report having been filed. (See minute entry ahead.)

(8) Acquisition of property from Mr. Frank Kernan and from the Pacific Livestock Association at Union Avenue-Swift Road Junction in North Portland: This matter was discussed at some length and as a result thereof the Engineer was instructed to make further investigation to determine whether or not it would be possible to realign the proposed location so as to avoid entirely the property of the Livestock Association. A report on the matter is to be rendered by the Engineer at the next meeting, if possible. The item is to remain on the list of unfinished business.

(9) Request of Lane County Recreation Committee that the State assume responsibility for the development of a recreational area at Dorena Dam: The Parks Superintendent advised that his report on this subject is not yet ready for presentation to the Commission, but he anticipates that he will be able to report at the Commission's next meeting. The item is to be retained on the list.

(10) Request of Westmost Grange in Coos County for establishment of a state park at Bandon Beach: The State Parks Superintendent advised that his report on this subject is not yet ready but he expects to be able to present it at the next meeting of the Commission. The item is to be retained on the list of unfinished business.

(11) Request of Mr. Marshall Dana, Portland, and the "Save the Gorge" Committee of the Portland Women's Forum for preservation of the scenic beauties in the Columbia Gorge: A report on this matter was rendered

by the Parks Superintendent earlier in the session and was acted on by the Commission at that time. The item is to be deleted from the list of unfinished business.

(12) Request that the State take over and develop Wilhoit Springs as a state park: The Parks Superintendent rendered a comprehensive report on the subject earlier in the session at which time the Commission took action. The item is to be deleted from the list of unfinished business.

(13) Request of St. Helens Pulp and Paper Company for permission to truck-haul logs on the Saddle Mountain Park road: The Commission ordered this item deleted from the list of unfinished business in view of the Engineer's written report on the subject which was discussed later in the session. (See additional entry ahead.)

(14) Request of Nehalem Bay Recreational Committee for permission to maintain signs along State hignways in the Nehalem district pointing out recreational features of this area: The Parks Superintendent's report on this subject was rendered earlier in the session and action taken at that time. The item is to be deleted from the list of unfinished business.

The meeting adjourned at 5:00 p.m., Pacific Standard Time, to reconvene the next day at 9:00 a.m., Pacific Standard Time, in the same room.

Portland, Oregon
July 11, 1952.

The meeting of the State Highway Commission reconvened in regular session at 9:00 a.m., Pacific Standard Time, in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Prior to the opening of bids, Commissioner Reynolds announced publicly that because of a change in the plans involving right of way, bids received by the Commission for construction of the Comstock and Lawrence Access Road Grade Separation Structures on the Divide-Anlauf Section of

the Pacific Highway in Douglas County will not be read but will be returned to the respective bidders unopened, and the project will be readvertised at a later date.

Bids as follows for the remaining projects advertised for this letting were then opened and read aloud by the Secretary in conformity with previously published notice, at the conclusion of which, it was announced that the awarding of contracts would be made at 3:00 p.m., Pacific Standard Time, in the same room:

BAKER-PINE CREEK-WINGVILLE COUNTY ROAD
GRADING AND OILING POCAHONTAS-BAKER SECTION

K. C. Dack Construction Co., Milton-Freewater	$128,563.00
Arthur Simonsen and George Borgen, Baker	128,877.50
C. E. Leseberg, Nyssa	132,745.00
Newport Construction Co., Portland	134,955.50
H. J. and H. W. Miller, Baker	140,186.00
John A. Logan, Portland	144,503.00
Babler Bros., Inc., Portland	155,740.00
Durbin Bros., Eugene	177,034.90

OSWEGO HIGHWAY IN CLACKAMAS COUNTY
WIDENING SUCKER CREEK BRIDGE APPROACH

J. F. Johnston, Sherwood	$ 8,390.00
James & Yost, Portland	8,607.50
Schrader Construction Co., Portland	11,975.00
United Builders, Inc., Beaverton	20,473.68

OREGON COAST HIGHWAY IN CLATSOP COUNTY
CANNON BEACH-ARCADIA SECTION

Koppisch Construction Co., Astoria	$182,480.00
Rogers Construction Co., Portland	196,680.00
Vernie Jarl, Gresham	196,916.00
J. N. Conley, Portland	203,485.00

OREGON COAST HIGHWAY IN COOS COUNTY
HAYNES SLOUGH BRIDGE

Valley Construction Co., Portland	$254,485.00
Tom Lillebo, Reedsport	283,940.00

PACIFIC HIGHWAY IN DOUGLAS COUNTY
COMSTOCK AND LAWRENCE GRADE SEPARATION STRUCTURES

ALL BIDS RETURNED UNOPENED

July 11, 1952

DOUGLAS COUNTY
RIDDLE AND GLENDALE GRADING AND PAVING PROJECT

Acme Construction Co., Eugene	$ 25,650.00
Roseburg Paving Co., Roseburg	28,309.00

PACIFIC HIGHWAY IN JACKSON COUNTY
GRADING AND PAVING ROCK POINT-BLACKWELL HILL SECTION

The Central Heating Co. Oreg. Ltd. and F. L. Somers, Eugene	$704,706.00
J. C. Compton Co., McMinnville	732,168.00
Babler Bros., Inc., and Rogers Construction Co., Portland	797,058.00
Parker-Schram Co., Portland	798,479.50
Fred H. Slate Co., Oreg. Ltd. and E. C. Hall Co., Portland	890,772.00

PACIFIC HIGHWAY IN JACKSON COUNTY
GRADING AND PAVING MEDFORD-COUNTY FARM SECTION

T. W. Thomas, Portland	$515,864.00
D-H Paving Co., Vancouver, Washington	523,370.50
Parker-Schram Co., Portland	531,996.60
F. L. Somers and Central Heating Co., Oreg. Ltd., Eugene	535,104.00
J. C. Compton Co., McMinnville	549,192.00
Fred H. Slate Co., Oreg. Ltd. and E. C. Hall Co., Portland	621,467.50
Babler Bros., Inc. and Rogers Construction Co., Portland	633,502.00

PACIFIC HIGHWAY EAST IN MARION COUNTY
SALEM BY-PASS SECTION

Vernie Jarl, Gresham	$200,790.00
R. A. Heintz Construction Co., Portland	204,475.00
Durbin Bros., Eugene	208,452.50
Parker-Schram Co., Portland	229,247.50

MARION COUNTY
SUMMER STREET GRADING AND PAVING PROJECT

Warren Northwest Inc., Portland	$ 39,970.00
Central Paving Company, Dallas	49,142.50

MARION COUNTY
SALEM HEAVY EQUIPMENT SHOP

Parker-Johnson Co., Portland	$175,088.25
Smith and Nelson, Salem	183,566.75
H. G. Carl Construction Co., Salem	193,682.91

July 11, 1952

Salem Heavy Equipment Shop (cont.)

Erwin E. Batterman, Salem	$198,849.65
Browning and Randolph, Salem	205,890.00
Chas. E. Schmiedeskamp, Portland	206,925.00

MARION AND POLK COUNTIES
CENTER STREET BRIDGE RECONSTRUCTION

Natt McDougall Company, Portland	$564,677.50
General Construction Co., Portland	583,779.00
Guy F. Atkinson Co., Portland	639,998.00

JOHN DAY HIGHWAY IN WHEELER AND GRANT COUNTIES
SERVICE CREEK-KIMBERLY SECTION

P. C. Knox, Gladstone	$ 35,295.00
Babler Bros. Inc., Portland	35,900.00
A. H. Saxton and Sons, Corvallis	36,055.00
Pioneer Construction Co., Portland	36,550.00
John A. Logan, Portland	36,765.00
F. O. Laws, Myrtle Point	37,100.00
I. H. Peters, Eugene	37,750.00
Q. L. Rufener, Portland	38,300.00
Glen Ousley, Eugene	39,515.00
F. C. Scott Construction Co., Portland	44,850.00

A delegation representing the Parkrose Chamber of Commerce in Northeast Portland appeared before the Commission concerning the installation of a traffic signal on N. E. Sandy Boulevard at its intersection with Columbia Boulevard which intersection is the junction of the Columbia River Highway and the N. E. Portland State Secondary Highway near 99th Avenue. The following people composed the group: Harry H. Pearce, Chairman of Highway Committee and head of the delegation; Arthur Damschen, Francis M. Reagan, James S. Walp, Harry Johnson, and G. R. Silverthorne, all members of the Parkrose Chamber of Commerce. Mr. Pearce introduced the members of the delegation and called upon Mr. Damschen to explain what they have in mind. Mr. Damschen stated that since the existing signal was installed several years ago, there has been a considerable increase in traffic so that now it is almost impossible for pedestrians to cross Sandy Boulevard at this point. He pointed out that the present timing of the signal allows automobile traffic to flow on Columbia Boulevard or N. E. Sandy at all times, thus precluding any opportunity for pedestrians to cross with safety. He urged the Commission to conduct another study of the situation and to provide some means whereby pedestrians can cross the highway without endangering their lives. Mr. Reagan offered the suggestion that the problem might be solved by prohibiting pedestrians from crossing the highway at 99th Avenue and by moving the pedestrian crosswalk one block to the east. Mr. Silverthorne pointed out that this is a business district where business establishments are on the north side of the highway and

people live on the south side. Mr. Pearce declared that at times pedestrians have to wait as much as 10 minutes before they are able to cross the highway with safety. At the request of the Commission, the Assistant State Highway Engineer, Mr. W. C. Williams, advised that the Engineering Department is cognizant of the condition that exists at this place and is now studying a solution of the difficulty which will include installation of a 10-second phase in the signal timing to allow pedestrians to cross the highway while vehicular traffic is stopped on Sandy Boulevard and on Columbia Boulevard. He gave as his feeling that whereas such measures may allow pedestrians to cross with safety, it will also have a detrimental effect of slowing down vehicular traffic. He admitted that the crossing of the highway under present conditions is a problem to pedestrians, and he expressed the hope that the proposed solution will prove satisfactory. This concluded the discussion.

A delegation representing the City of Troutdale and the Troutdale Lions Club appeared before the Commission to request improvement of Columbia Street, former route of the Columbia River Highway through the City of Troutdale. The following composed the group: Richard Knarr, Mayor; Dr. J. L. McPherson, President, Lions Club; and A. R. Frey, President, Troutdale Lumber Company and member of the Lions Club. Mayor Knarr, who acted as spokesman, urged improvement of this street which now is the route of the Crown Point State Secondary Highway through this city. He explained that the concrete curb on the south side of the street is about two feet high, which, in addition to the drainage ditch makes it very difficult for people to park their cars near the sidewalk, and is particularly bad during the winter season when ice is present. The section referred to, he said, is only three blocks long, but the City does not have funds to make the necessary repairs so is asking the State to do the work. Mr. McPherson recalled that to the best of his knowledge the curbs had been built as a part of the highway in 1908 and the street had been designated as a part of the Columbia River Highway in 1916. He suggested that if adequate information is not already available that a survey be made to determine the need for the improvement and the cost involved. Mr. Frey endorsed the remarks of the other speaker and urged the improvement from the standpoint of correcting an unsightly condition. Chairman Chandler advised that the problem is not new to the Commission and that previous investigations disclose that the situation is bad and should be corrected. He pointed out that there are many similar situations in cities over the state and that the Troutdale project carries a lower priority rating now than it did before the new Columbia River Highway was built. The Commission, he added, will have another engineering investigation conducted to ascertain the present need and the costs involved. The Engineer was thereupon instructed to make such investigation and to consult with members of the delegation in connection therewith.

Mr. Harry S. Osbourn, President, Clackamas County Federation of Community Clubs, Milwaukie, appeared before the Commission and urged in behalf of the Kendall Community Club installation of a traffic signal on S. E. 82d Avenue at its intersection with Johnson Creek Boulevard as a protection to school children who have to cross the highway to attend Battin School. Mr. Osbourn stated that the Community Club in addition to requesting

the installation of a traffic signal also wants to endorse the request made by the Clackamas County Court on the preceding day for the widening of 82d Avenue from Flavel Street, Portland, southerly to Oregon City. The Kendall Community Club, he said, is primarily interested in safeguarding the lives of school children at the Johnson Boulevard intersection. He mentioned that the Engineer previously had suggested installation of an overhead cross walk sign. He stated a preference for the type of signal that can be operated manually only during school hours, and he gave as his thought that the people of the community might pay the difference in cost. Chairman Chandler recalled that the Commission sometime ago granted permission to the community to operate a portable signal at this crossing on the basis that the community would purchase and operate the signal on its own account, since investigations made at that time disclosed there was not enough pedestrian traffic to warrant the installation of a signal by the State; however, the Commission will have another investigation made and will base its final decision on the results thereof. The Engineer was thereupon instructed to re-investigate the matter and report his findings at the next meeting of the Commission.

Messrs. Denzel Godard and Gather Harpole, Franklin, Oregon, composed a delegat on from Lane County representing Franklin Grange No. 572 which appeared before the Commission and urged the application of a light oil treatment on a short section of the Territorial Secondary H.ghway 1.7 miles in length, between Siuslaw Highway junction and Franklin. Both are members of the Grange Road Committee. Mr. Godard acted as spokesman. He pointed out that the section referred to lies between two sections that have already been paved or oiled and when completed will provide a continuous oiled highway. He presented a letter from the Lane County Court pointing out that the present highway is rough and dusty and expressing the hope that the Commission can see its way clear to apply oil treatment as requested.

Chairman Chandler advised that this matter was discussed by the Commission on the previous day at which time the Engineer expressed some doubt as to whether or not a light oil treatment will prove satisfactory because of its temporary nature; however, the Commission has decided to give it a trial and has authorized the application of a light oil treatment early next spring.

The Commission discussed a report from the State Parks Superintendent on the proposed development of a recreational area on the shores of Eel Lake adjacent to the Oregon Coast Highway in Coos County. Chairman Chandler gave a background summary on this project, pointing out that Eel Lake had once been a very beautiful lake abounding in fish life which was destroyed when the timber was removed from its shore and logs and tree tops were deposited in it. He further advised that the State Game Commission which has control of the lake attempted one time to restore the fish life but without much success; also, the City of Reedsport evidenced interest in the lake as a source of water but had apparently abandoned the idea due to the difficulty of cleaning the lake. The area, he stated, is a good spot for overnight camping, but he suggested before the Commission makes a definite

decision with respect to acquiring it for state park purposes that further investigation should be made by the Park Superintendent to ascertain just what cooperation can be expected from the Game Commission if it is made a state park, particularly, it should be determined if the Game Commission will relinquish control of the lake to the State Highway Department and if the Game Commission will remove the debris from the lake. The suggestion was approved by Commissioners Reynolds and McIver and it was so ordered.

The Right of Way Engineer, Mr. Forrest Cooper, pointed out that in conjunction with improvements to the Oregon Coast Highway, it is necessary to acquire from the State Game Commission as right of way approximately 19.3 acres of land adjoining Eel Lake. The Game Commission, he said, has offered to deed the land to the Highway Commission without cost if the Highway Commission will construct a roadway and parking area at the Lake. He estimated the cost of such roadway and parking area at $5,000 and expressed his feeling that the acquisition of the right of way at such price is somewhat high. As a result of discussion the Commission decided unanimously to accept the offer as presented inasmuch as the Game Commission is also a state agency and there should be cooperation between the two departments, and particularly in view of the possibilities of the area being developed as a state park later on The Right of Way Engineer was authorized to negotiate acquisition of the property on such basis.

The Parks Superintendent recommended that Mr. L. V. Koons, Assistant Parks Superintendent, be authorized to attend a meeting of the sub-committee on Recreational Planning of the Columbia Interagency Committee in Seattle on August 4 and 5, 1952. He estimated the cost of the trip at $70. The Commission approved the recommendation.

The Commission considered a request from the Nehalem Bay Expansion Association to install three signs reading "Entering Nehalem Bay Recreational Area, Ideal Vacation Land"--one near the jetty on US Highway 101, another south of the Tillamook-Clatsop County Line on Highway 101 and a third south of the Tillamook-Clatsop County Line on Highway 53. The Parks Superintendent advised that the proposed signs are similar to those that have been placed on highways in Central Oregon, and that he knows of no reason why they should not be permitted. He recommended that the signs be allowed under condition that all directional signs that the association is now maintaining on highways in this area advertising the Nehalem District be removed from the right of way and that the new signs are to be constructed and placed by the State Highway Department at the expense of the Nehalem Bay Expansion Association The recommendation was approved by the Commission

The Parks Superintendent reported on the number of visitors who took advantage of the overnight facilities in state parks during May and June. Briefly there were 1545 visitors during the month of May and 3600 during the month of June. The Commission took no action on the matter.

The Right of Way Engineer, as instructed by the Commission at a

previous meeting, presented a report on the cost to acquire level areas that are suitable for business purposes along the Divide-Comstock Section of the Pacific Highway in Douglas and Lane Counties. An investigation of the matter, he stated, discloses that it will cost about $70,000 to purchase all of the relatively level areas which might be developed commercially at a later date. He pointed out that condemnation proceedings could not be instituted inasmuch as the property is not necessary for highway construction. The Assistant Highway Engineer, Mr. W. C. Williams, gave as his feeling that it would not be necessary to acquire the properties for at least ten years in view of which he suggested adoption of a policy of watchful waiting and that acquisition of the properties be made when development starts. In the discussion that followed each member of the Commission expressed himself in favor of acquiring these areas now in order to protect this important throughway, and access thereto, particularly in view of the huge expenditures that are being made to improve it and the savings that can be made by purchasing the properties now rather than later on when prices are higher. Accordingly the Right of Way Engineer was authorized and instructed to negotiate options to acquire the areas.

The Right of Way Engineer presented a proposal with regard to the acquisition of right of way that is needed for the reconstruction of the Hauser-North Bend Section of the Oregon Coast Highway in Coos County, across land owned by Mr. and Mrs. Al Pierce. He said in negotiating for this property, which consists of 70 acres of land along the bay front, there arose some difference of opinion, but Mr. Pierce's latest counter proposal, presented through his attorney, Mr. Joe McKeown, and which Mr. McKeown believes will be approved by Mr. Pierce is as follows: Mr. Pierce will deed to the State the 70 acres of land needed as right of way on the following conditions and considerations

(1) Mr Pierce is to retain all timber now growing on the right of way and the State is to log a strip 300 feet wide on each side of the center line of the highway and stockpile the logs at convenient locations for Mr. Pierce.

(2) The State is to grant Mr. Pierce private access to the highway at nine different locations and is to construct an approach road at each point during the progress of the highway construction; in addition thereto, Mr. Pierce is to be granted an approach to the highway from the westerly side for his use in connection with a log dump on North Slough should such approach be required in the future.

(3) The State is to install two water pipe crossings of the highway, one at or near engineer's station 99+00 and the other at or near engineer's station 167+00, and is to grant Mr. Pierce a permit for the maintenance of such pipe lines

(4) The State is to construct fences along the westerly side of the right of way where feasible and where Mr Pierce still retains property. This is estimated to cost about $1,500.

(5) The State is to grant to Mr. Pierce an easement for a roadway through Simpson State Park on the south side of Coos Bay so as to permit him to develop property that he owns at such location.

(6) Mr. Pierce is to retain the right to construct at his own expense a cattle pass under and across the Hauser-North Bend Section of the Oregon Coast Highway, subject to the condition that all work in connection therewith is to be performed under State supervision and in conformity with State approved plans.

This matter was discussed by the Commission at considerable length, and as a result thereof, the Commission unanimously approved settlement on the basis thereof.

Commissioner Reynolds brought up the matter of enlarging the wayside picnic area at the mouth of Ladd Canyon on the new route of the Old Oregon Trail east of La Grande. The Parks Superintendent advised that investigation revealed that the proposed addition, which consists of about two acres of land, is better suited for a wayside area than a park, so he referred the matter to the Landscape Engineer who has jurisdiction over such areas. Mr. W. C. Williams, the Assistant Highway Engineer, reported that the area was inspected by the Landscape Engineer who declared it a most attractive spot and who recommended acquisition of the tract as an addition to the existing wayside. He stated his concurrence in the recommendation. As a result of discussion, motion was made by Commissioner Reynolds that the land be purchased for such purpose. The motion was seconded by Commissioner McIver and received the unanimous vote of the Commission. The Right of Way Engineer was instructed to negotiate purchase of the property.

The Engineer reported on a request made by Dr Orvil Eaton at a previous meeting for installation of either a crosswalk or a "blinker" light on the Columbia River Highway at its junction with the Westport Road in Clatsop County. He said that the matter has been made the subject of a traffic engineering investigation which disclosed a daily vehicular traffic volume of 1,973 vehicles and 336 pedestrians. The intersection, he stated, is an open one with excellent sight distance, and during the past five years there have been only four reported accidents in the intersection. In addition to this, he added, the Highway through Westport is posted for a speed limit of 25 miles per hour. In view of these facts and because it previously has been determined that a flashing beacon does not slow traffic, he recommended that the request be denied. The Commission approved the recommendation.

The Assistant Highway Engineer reported the status of the South "A" Street project in the City of Springfield which has to do with the proposed rerouting of McKenzie Highway traffic through the City. He recalled that according to the original arrangement the City is obligated to provide deeds for $47,000 worth of right of way; however, he said, to date the deeds have not been furnished. It was his thought that the City has been unnecessarily slow in completing its part of the agreement, and

he suggested in view thereof that nothing be done as to construction of the project until the City has furnished the right of way as previously agreed. As a result of discussion the Commission instructed the Engineer to notify the City that the Highway Commission is ready to proceed with the project, in fact, has been holding up money to finance it for approximately three years, and unless the City completes its obligations within the next 90 days the project will be abandoned and the monies reallocated elsewhere.

The Commission discussed a report from the Engineer on a request made by the St. Helens Pulp and Paper Company for permission to truck-haul logs over a park road in Saddle Mountain State Park. The Engineer recalled that this matter was first presented to the Commission at its meeting on May 27, 1952 when action was deferred pending determination of the amount of logs to be hauled and the condition of the road. Investigation has been made, he said, and it presently appears that the hauling will consist of only about 20 loads of logs, but there may be more later. He also said that recent rains have softened the roadbed so no hauling should be done at the present time. He recommended that the company be granted permission to haul approximately twenty loads of logs over the road when it has dried out sufficiently so that the hauling can be done without damage to the roadway, and that further hauling be dependent upon the condition of the road. The recommendation was approved by the Commission.

The Engineer requested authority to increase the project authorization for the Boardman grade separation project in the amount of $11,000. He explained that this overrun was caused by reason of the contract for the overcrossing structure being let at a later date than the contract for the grading and topping of the Willow Creek-Boardman Section; and, as a result, the grading contractor on the Willow Creek-Boardman Section could not construct the necessary approaches to the overcrossing structure. It thus became necessary to transfer the cost of the approaches from the grading project to the overcrossing project. He pointed out that the Willow Creek-Boardman Project underran the authorization approximately $45,000 so the net result of the two projects is an underrun of approximately $34,000. As the Willow Creek-Boardman Project has already been finaled, He recommended that the project authorization increase be granted as requested in order to clear the records. The recommendation was unanimously approved.

A petition submitted by Mr. Paul Geddes of Roseburg and signed by nineteen property owners who reside along the Coos Bay-Roseburg Highway near its junction with the Pacific Highway was considered by the Commission. The petitioners demand the cleaning out and widening of ditches and the lowering of driveway tile so that water will drain from the highway junction into Lookingglass Creek. The Engineer advised that the matter has been investigated and that to do the things requested will cost approximately $5,000, but what is more it will divert the water from its present natural drainage. He recommended, in view of the expense involved and the vital fact there is no obligation or authority for the Highway Commission to make such diversion of water, that the request be denied and that the existing drainage arrangement be perpetuated. The Commission approved the recommendation.

A request was presented from the City of North Bend that the State Highway Commission construct curbs and pave to full street width the Cape Arago State Secondary Highway for a distance of approximately 1.65 miles in the City of North Bend particularly on Virginia Street from Meade Street to Broadway, thence south on Broadway to "Deadman's Curve". The Engineer reported that this request is due mainly to the fact that the City is encouraging construction of curbs on city streets that are not on the highway system, to which the property owners object unless curbs are also provided on the highway with which these streets intersect. He estimated that it will cost a minimum of $75,000 to do what has been requested, and he recommended, in view of the fact that there are many primary highways through cities which do not have full width pavement with curbs, that the request be denied for immediate undertaking but that the project be kept in mind when future programs for improvement of highways within cities is considered. The Commission approved the recommenation.

The meeting adjourned for luncheon at 12:00 noon, Pacific Standard Time, and reconvened at 2:00 p.m. with the same persons present and participating.

A delegation representing North Lincoln County appeared before the Commission to request establishment of a state park adjacent to the Oregon Coast Highway near Dorchester House. The following composed the group: Paul H. Stege, Board of Directors, Salem Chamber of Commerce; C. W. Folkestad, Merle Gwynn, Herbert Gordon and R. G. McBride, Ocean Lake Chamber of Commerce; and J. R. Frum, representing the Recreational Natural Resources Committee of the Portland Chamber of Commerce. Mr. Gwynn acted as spokesman and explained that the area in which they are interested consists of approximately fourteen acres priced near $10,000 and is located approximately two blocks southwest of the Dorchester House and in the north part of the town of Ocean Lake. He emphasized the need for a park area to provide recreational facilities in this area citing the fact that there is no state park in the vicinity. If acquired, he stated, the area should have fundamental accomodations including picnic tables, playground area and toilet facilities. Mr. Gordon, who stated that he represents the owners of the land which is a part of the Smith-Denzel Estate, stated that the area of approximately 14 acres could be acquired for $9,250, being $7,000 for the land and $2,250 for a city sewer assessment. He described the property as being rolling, much of it covered with timber, that it is protected from the prevailing ocean winds and would serve as an ideal spot for tourists to stop, visit the beach, eat their lunch, et cetera. He declared that tourists, presently, have no place to picnic along the highway within a number of miles of this spot, and that establishment of such a facility would be of great convenience to them. He also said that he is not trying to promote a sale of the property but is simply endeavoring to benefit the community and the general public. Others speaking in behalf of the project were Messrs. Foldestad, Stege, and McBride. Chairman Chandler pointed out that the Commission has a policy of long standing that will not permit establishment of state parks in cities or heavily populated communities because in its opinion such communities and cities

should provide their own facilities; however, the Commission recognizes the need for wayside areas along the highway under discussion so has asked the State Parks Superintendent to make a careful investigation of possibilities for such waysides between Otis on the north and Nelscott on the south. Mr. Gordon asked the Commission to make an exception in this instance, but the Commission refused. This concluded the conference.

Mr. A. B. Lambert, owner of Lambert Gardens, Portland, was present and suggested to the Commission the establishment of information booths throughout the state for the dissemination of literature pointing out to tourists points of interest within the state. He declared that other states provide such facilities at the state lines and at other locations, which is helpful to tourists in ascertaining what there is to see and how to get there. Commissioner Reynolds gave as his understanding that Mr. Lambert is especially concerned with dispensing his literature, advertising Lambert Gardens, at the Vista House on the Old Columbia River Highway to which Mr. Lambert replied that he does wish to dispense his literature at that place, but his principal concern is to see that all attractions of the state are brought to the attention of strangers, which, he declared, is not being done now, and the state is losing a lot of publicity thereby.

In the discussion of the matter it was brought to Mr. Lambert's attention that the Vista House has been leased to a concessionaire. He was also told that the Commission has no objections to the dispensing of his literature at this place provided the material is placed in suitable containers inside of the building only, and that such distribution of the material meets with the approval of the concessionaire. He was also told that before the Commission adopts a definite policy with respect to advertising the state in accordance with Mr. Lambert's ideas, the matter will have to be discussed with the Commission's Travel Department which handles all matters of that kind The Engineer was instructed to have the Travel Department render a report on the subject.

The Commission considered the advisability of authorizing the Director of Permits to designate, upon written approval of the State Highway Engineer, qualified persons in any field office to sign permits for the operation of vehicles over state highways, pursuant to the provisions of Section 12 and 13, Chapter 405, Oregon Laws 1951. The Engineer advised that issuance of permits from field offices is a function which cannot be delayed in order to serve the public satisfactorily, and he recommended that such authority be granted so as to expedite the issuance of permits. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "N", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered an agreement with Guild D. and Lois Lay concerning the relinquishment of their right and title to a stockpass located at Mile Post 18.7 on the Medical Springs Secondary Highway in Union County. The Engineer advised that the stockpass, which was constructed by Union County about 1930 of untreated timber materials, has decayed to the point where complete replacement is necessary; however the Lays have stated

that they will relinquish their rights to it if paid the sum of $50.00, and they have signed an agreement to that effect. He recommended approval of the arrangement as being in the State's interest. The Commission approved the recommendation. (The agreement was signed later in the session.)

The Commission authorized Mr. Carl Jordan, Director of the Travel Department, to attend a meeting of the US 97 Highway Association in Yakima, Washington, on July 17 and 18, 1952, at an estimated cost of $40.00.

The Engineer reported receipt of a request from the State Board of Higher Education that the Highway Department perform certain paving work, estimated to cost $10,000, on the campus of Eastern Oregon College of Education in La Grande. He said that state highway crews have a full schedule of work to perform this season, so it will be impossible to do the work using state forces. In any event, he said, the work should be performed by contract. He recommended that the request be denied but that he be permitted to furnish engineering assistance as may be required and to advertise the job for contracting if the Board requests such help. The Commission approved the recommendation.

The Engineer requested approval of the transferring of $150,000 from the 1953 allocation for the proposed bridge across the Willamette River on the West Portland-Hubbard Highway at Wilsonville to the 1952 authorization so as to make possible the inclusion of the concrete deck, handrail, and painting in the first bids to be received for construction of this bridge. The Commission approved transfer of funds as requested.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4:00 p.m. Commissioner Reynolds announced the Commission's decision with respect to each project as follows, the action of the Commission being unanimous:

"Grading and oil mat surfacing on the Pocahontas-Baker Section of the Baker-Pine Creek-Wingville County Road, Baker County: K. C. Dack Construction Company, Milton-Freewater, submitted the low bid for this job at $128,563. There were seven higher bids. The Commission has awarded the contract to the low bidder, K. C. Dack Construction Company at their bid price.

"Widening the south approach spans to Sucker Creek Bridge on the Oswego Highway near Oswego, Clackamas County: J. F. Johnston, Sherwood, submitted the low bid out of a total of four bids received for this job at $8,390. The Commission has awarded the contract to Mr. J. F. Johnston, at his bid price.

"Placing of rock base and paving on the Cannon Beach-Arcadia Section of the Oregon Coast Highway in Clatsop County: Koppisch Construction Company, Astoria, submitted the low bid for this job at $182,480. Three higher bids were received. The contract has been awarded to the low bidder, Koppisch

Construction Company at its bid price.

"Construction of the Haynes Slough Bridge on the Oregon Coast Highway near Coos Bay, Coos County: Two bids were received for this project, the low one being that of Valley Construction Company, Portland, at $254,485 The Commission has awarded the contract to Valley Construction Company at its bid price.

"Construction of the Lawrence Access Road grade separation structures on the Divide-Anlauf Section of the Pacific Highway in Douglas County: All bids for this project are to be returned unopened to the bidders due to a change in plans for the project.

"Grading and paving in the towns of Riddle and Glendale, Douglas County: Acme Construction Company, Eugene, submitted the low bid for this project at $25,650. Only one other bid was received. The Commission has awarded the contract to the low bidder, Acme Construction Company at its bid price.

"Grading and paving the Rock Point-Blackwell Hill Section of the Pacific Highway near Gold Hill, Jackson County: The Central Heating Company, Oregon Limited and F L. Somers, Eugene, bidding jointly, submitted the low bid for this project at $704,706. Four higher bids were received. The bid of Central Heating Company Oregon Limited and F. L. Somers is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving the Medford-County Farm Section of the Pacific Highway in Jackson County. T. W Thomas, Portland, submitted the low bid for this job at $515,864. Six higher bids were received. The bid of T. W. Thomas is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads

"Grading and placing of gravel on the Hayesville School-Turner Road Unit of the Salem By-pass Section on the Pacific Highway East, Marion County: Vernie Jarl, Gresham, submitted the low bid for this unit at $200,790. Three higher bids were submitted. The contract has been awarded to Vernie Jarl, the low bidder, at his bid price.

"Grading and paving project on Summer Street in Salem, Marion County: Two bids were submitted for this project, the low bid being that of Warren Northwest Inc., Portland, at $39,970. The bid of Warren Northwest Inc., is accepted subject to the condition that the Oregon State Board of Control will concur in said acceptance, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution upon the said concurrence of the Board of Control.

"Construction of a heavy equipment shop building in the Salem Shop Yards, Marion County. The low bid for this building was submitted by Parker-Johnson

Company, Portland, at $175,088.25. Five higher bids were received. The contract has been awarded to Parker-Johnson Company at their bid price.

"Reconstruction of the Center Street Bridge on the Salem-Dallas Highway in Salem, Marion and Polk Counties: Natt McDougall Company, Portland, was the low bidder for this project, $564,677.50. Two higher bids were received. The Commission has awarded the contract to Natt McDougall Company at their bid price.

"Embankment widening on the Service Creek-Kimberly Section of the John Day Highway in Wheeler and Grant Counties: The low bid for this work was submitted by P. C. Knox, Gladstone, at $35,295. Nine higher bids were received. The contract has been awarded to the low bidder, P. C. Knox at his bid price."

A group representing the County Court of Linn County and the Albany Chamber of Commerce appeared before the Commission to urge State assistance in surfacing a county road from Millersburg, a small community about three miles north of Albany on the Pacific Highway East, westerly to the Willamette River, a distance of about three miles. The following were present: E. C. Arnold, County Judge; Wayne Downing, County Commissioner; Floyd Jenks, County Commissioner; Walter Larson, County Engineer; Walter Kropp, Chairman of the Highway Committee of the Albany Chamber of Commerce; and D. J. Donahue, Manager of the Albany Chamber of Commerce. Judge Arnold, who acted as spokesman, explained that the Russell Towboat and Moorage Company of Portland, are contemplating establishment of barge and towboat service for petroleum products between Portland and Albany and plan to install their unloading and storage facilities at a point on the Willamette River near Albany, where the county road known as the "Conser" or "Dever" Road extends westerly to the river from US 99E at Millersburg. The Company's initial operation, he said, will consist of a minimum of 2,000,000 gallons of bulk petroleum per month, corresponding to 400 truck loads, and eventually will amount to 6,000,000 gallons monthly, and the problem confronting the company is the assurance of a year around road from the unloading point to the state highway which is about 3 miles distant. Presently, he said, the unloading point is served by a county road which extends westerly from US 99E near Millersburg, but it was not constructed to a standard that will hold up under the anticipated truck traffic, so the county is asking the state for help inasmuch as the county is not financially able to assume full responsibility to provide the type of road as is needed. He estimated the cost to put the road in satisfactary condition at about $35,000, and he gave as their opinion that the state should share in the expense because the towboat company's operations will relieve the state highway of a large volume of heavy truck traffic. He asked the Commission to give the matter seribus study. The Commission agreed to make such study, and so instructed the Engineer, but told the delegation not to be disappointed if the Commission's decision is contrary to their wishes.

Mr. Vance Taylor, Chairman of the Highway Committee of the

Corvallis Chamber of Commerce and President of the Highway 20 Association; Mr. Jack Gallagher, Trustee of the Highway 20 Association; and Mr. C. L. Tharp, member and Secretary of the Highway Committee, appeared before the Commission with reference to a program of highway and bridge improvements in the vicinity of and affecting the city of Corvallis which they proposed for the next 24 months. Mr. Taylor headed the group. He inquired specifically as to the plans of the Commission for widening the Corvallis-Newport Highway between Corvallis and Philomath where, he said, many accidents occur. The City of Corvallis, he stated, is very anxious to have this section widened and a traffic divider strip installed as an accident prevention measure. The Engineer advised that a survey is now in progress on this section and it is expected that a report will be made to the Commission at its August meeting. Mr. Taylor also inquired as to the possibility of acquiring right of way sufficient for a four-lane highway between Corvallis and Granger on the Albany-Corvallis Highway, with construction at the present time limited to a two-lane facility. He was informed that this section is the first unit of a new highway between Albany and Corvallis, but no provision has as yet been made for it, although tentative plans do provide for extending Third Street and Fourth Street to a connection with US 99W north of Corvallis. Mr. Taylor urged the project at the earliest possible time. He also urged construction of the First Street project in Corvallis, and he asked for an engineering investigation of such project, right of way for which, he said, is nearly all acquired. He pointed out that the possibilities of securing the removal of the saw mill at the south end of First Street at an early date are quite remote, and he suggested that it would be advisable in the meantime to route the highway along "A" Street from First Street to Third Street and Fourth Street, the present highway couplet. He was informed that according to the written agreement that the Commission has with the city, it was not contemplated to extend First Street southerly until the new route of US 99W in the north part of the city had been completed because the change at the south end would be of no particular value until that time. Chairman Chandler stated that it appears that the delegation is asking the Commission to rearrange the program which was previously agreed upon with the city. The Commission, he said, is adhering to that program.

Mr. James Gallagher brought into the discussion the matter of providing a "cut-off" route between US 99W and the Corvallis-Newport Highway that will avoid traffic congestion in the southern part of the city. He exhibited a map showing the proposed "cut-off" which extends in a southeasterly direction from 20th Street on the Corvallis-Newport Highway, to a connection with US 99W at a point about one-fourth mile south of Mary's River Bridge and involves construction of a new bridge across the Mary's River at the south end of 15th Street He urged construction of such "cut-off" in order to relieve the congestion that occurs during athletic events at Oregon State College, and to provide a by-pass facility for industrial traffic enroute to the industries located south of the river. He presented a brief in support of his oral presentation, and he asked the Commission to authorize an engineering investigation of the project. He was informed by Chairman Chandler that because of the shortage of Engineers and the fact that the present personnel are busily engaged, the Commission does not know when it can spare one for

this purpose, but will authorize an investigation when an engineer is available; however, any study that is made of the situation will be without commitment of any kind whatsoever.

The Commission considered and approved an agreement with Wasco County by which the County agrees to take over and maintain a portion of the old Columbia River Highway between Hood River and Mosier when the new highway has been constructed and opened to traffic between these points. (The Commission signed the agreement later in the session.)

The Commission also considered and approved an agreement with Wasco County whereby the County agrees to the closure of certain county roads intersecting the Columbia River Highway on the Shogren-Rowena Unit of the Mosier-The Dalles Section. The State in this agreement consents to construct and maintain a grade separation structure carrying the Lyle Ferry County Road over the Columbia River Highway. (The Commission signed the agreement later in the session.)

The Engineer reported that the City of Culver, due to a change in city officials, had delayed in making application for work to be done with State Tax Street Funds that accrued to the city during the year 1947. He presented the city's plans for expenditure of $773.97 accrued to the city during that period and recommended that they be approved. The Commission approved the plans unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "O", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Chairman Chandler reported the results of a conference with a group from the City of Tillamook concerning elimination of a traffic hazard that has existed for a long time on the Oregon Coast Highway in the northern part of the City where operations of the Coates Lumber Company encroach upon the highway right of way. Included in the group, he said, were County Judge O. E. Effenberger, H. C. Elliott, Mayor of the City; and the owners of the mill property, and as a result of the conference the owners finally agreed to remove a certain ramp which encroaches onto the highway, endangering highway traffic, and to refrain in the future from the parking of equipment or the storing of products from the mill upon the highway right of way They also agreed hereafter to maintain flagmen on the highway as a protection to the traveling public when moving long timbers on the highway

Commissioners Reynolds and McIver expressed their approval of the arrangement. The Engineer was thereupon instructed, as a further aid in the protection of the public, to erect and maintain an oversized sign, bearing the wording "SLOW, CONGESTED AREA AHEAD", on the highway just north of the narrow bridge where the highway enters the industrial district of the city.

Commissioner McIver reported, as a matter of information only, that a petition is being circulated by Mr. Arnold Harris objecting to the pro-

posed West Portland-Harbor Drive Expressway entrance into Portland. He gave as his feeling that the petition is being promoted by property owners whose holdings will be affected by construction of the proposed route. The Commission took no action on the matter.

The Commission approved the Parks Superintendent's request that he be allowed to take a vacation from July 20 to July 30.

The Commission discussed a date for its next regular meeting and decided to hold such meeting in Portland on Monday and Tuesday, August 18 and 19, 1952. The meeting is to start at 9:00 a.m., Pacific Standard Time, on each day. The Secretary was instructed to make the usual arrangements for use of the Green Room in the Imperial Hotel.

The Commission signed agreements and other papers as follows:

Agreement Extension with Mr. and Mrs. Jack Flaucher covering use of Vista House from March 31, 1952 to March 31, 1953.

Quitclaim Deed with L. R. Peterson covering a small parcel of land in Umatilla County. Deed requested by Title Company.

Quitclaim Deed conveying to Multnomah County two small parcels of land on Gillihan County Road near Sauvies Island Bridge. Consideration $1.00.

Modification Lease with Stebco Corporation covering property acquired from O. R. Merrill for Hood River-Mosier Section of Columbia River Highway.

Indenture of Access with George and Minnie Mounts regarding change in access point on property on the Judkin's Point-Goshen Section.

Indenture of Access with A. R. Pinney regarding change in point of access on the Gilchrist-Willamette Junction Unit of the La Pine-Diamond Lake Junction Section of The Dalles-California Highway.

Bargain and Sale Deed conveying to The First National Bank of Portland property adjacent to T. H. Banfield Expressway.

Agreement with Pacific Power and Light Company covering construction and maintenance of a water main extension to serve the landscape project at the entrance to Prineville

Agreement with US Army Engineers providing for reimbursement of expense incurred by the State in repairing damage to a bridge in Juniper Canyon east of McNary Dam. Amount $4,662.52.

Agreement with Harney County providing for abandonment of the old route of the Rome-Princeton State Secondary Highway between Princeton and Malheur County Line

Agreement with Wasco County providing for abandonment of the toll bridge

cut-off in Wasco County formerly used as a State Highway Connection.

Agreement with City of Astoria regarding improvement of Franklin Avenue (US 30) between 28th Street and 32d Street.

Agreement with Guild and Lois Lay for elimination of cattle pass located at M. P. 18.7 on the Medical Springs State Secondary Highway in Union County.

Maintenance Agreement with Crook County covering the Deschutes County Line-Crooked River Section of FAS 322 and the Lone Pine School-O'Neil Section of FAS 400.

Maintenance Agreement with Crook County for improvement of 4.16 miles of FAS Highway 400 from FAS 320 northerly and easterly to a county road junction at the Lone Pine School, Oregon Project No. S-122(1)"A"

Abandonment Agreement with Klamath County covering The Lake of the Woods-Rocky Creek Section of the Klamath Lake Secondary Highway No. 421 "A".

Abandonment Agreement with Clatsop County covering the Gnat Creek-Bradley Park Section of the Columbia River Highway. "A".

Agreement with Wasco County covering the construction of the Shogren-Rowena Unit of the Mosier-The Dalles Section of the Columbia River Highway as a throughway.

Abandonment agreement with Wasco County covering the Hood River-Mosier Section of the Columbia River Highway which is designated as State Highway No. 2 in Wasco County.

Project Agreements.

There being no further business to come before the Commission at this time, the meeting adjourned at 4:00 p.m.

Minutes of

July 10 and 11, 1952

EXHIBIT "A"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

UNIT NO. 5 - T. H. BANFIELD EXPRESSWAY

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's records or minutes, and

WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission, and

WHEREAS, for the purpose of supplementing such informal records and action, it is the purpose of the Commission at this time to ratify all options so taken.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction, or other improvement of the following-named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved:

County and Section	Highway
BAKER	
Baker-Huntington (Stockpile site)	Old Oregon Trail
CLACKAMAS	
Quarry Site	Cascade & Woodburn-Estacada
CLATSOP	
Seaside Maint. Headquarters Site	Oregon Coast

POLK	
West Salem-Brunks Corner	Salem-Dallas
Burns Corner-Fern Corner	King Valley # 191
WALLOWA	
Rock Creek (Stockpile site)	Wallowa Lake

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is ratified.

3. That this resolution be entered in the minutes and records of the Commission as of July 10, 1952, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed on said attached page.

EXHIBIT "C"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, the Seven Devils Road leading from the City of Prosper in a Northerly direction across the Coquille River to the City of Charleston in Coos County, Oregon, is a county road under the control and jurisdiction of Coos County; and

WHEREAS, heretofore at its meeting held April 3, 1950, the State Highway Commission agreed to assist Coos County in the construction of a bridge upon said Highway across said River by paying one-half of the cost of said bridge up to the maximum of $300,000 and

WHEREAS, in reliance upon said action of the State Highway Commission and in reliance upon estimates that the cost of constructing said bridge would not exceed $600,000, Coos County placed upon the ballot at the primary election held in May 1950, a measure authorizing the issuance of bonds in the amount of $300,000 for the construction of said bridge which measure was approved by the voters of Coos County: and

WHEREAS, since the time when the cost of constructing said bridge was estimated at $600,000 said estimated cost has increased due to the increased cost of labor and materials: and

WHEREAS, the State Highway Commission has given due and careful consideration to the matter based upon the reports and recommendations of the Chief Highway Engineer, and based upon knowledge of the needs of the traveling public and the State as a whole:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by this Commission all its members being present and voting affirmatively as follows:

1. That the welfare of the State and the traveling public will be best served by the construction of a bridge together with necessary approaches, to be known as and designated as the Bullards Ferry Bridge, across the Coquille River upon the Seven Devils County Road according to plans and specifications heretofore made and presently on file in the offices of the State Highway Commission in Salem.

2. That upon the condition that Coos County shall pay to the State toward the cost of constructing said bridge and approaches the sum of $300,000, the State Highway Commission shall in the usual and ordinary manner call for competitive bids, let a contract or contracts, and supervise the construction of said Bullards Ferry Bridge and the approaches thereto, and shall pay all costs thereof in excess of $300,000 out of the State Highway Fund and such Federal funds as may be available.

(cont.)

EXHIBIT "C" (cont.)

3. That Coos County shall deposit with the State Highway Commission the sum of $300,000 as its share of the cost of said project before the Highway Commission shall call for bids or let contracts therefore.

4. That the construction of said bridge and approaches as above set forth shall not be deemed or considered a commitment or obligation on the part of the Commission to designate or construct a State Highway leading to the said Bridge.

5. That the Secretary be and hereby is instructed to furnish the County Court of Coos County with a duly certified copy of this Resolution.

6. That this Resolution be entered in the Minutes and Records of the Commission as of the 10th day of July, 1952.

EXHIBIT "D"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six-month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Amity	$2,109.66	Antelope	$ 188.36
Aumsville	882.16	Aurora	759.73
Barlow	235.45	Coburg	2,175.58
Condon	3,038.91	Cornelius	3,133.09
Cove	885.30	Creswell	2,078.26
Dayville	897.86	Echo	1,434.69
Estacada	2,982.40	Fairview	1,375.04
Gaston	1,155.29	Gervais	1,434.69
Glendale	2,734.39	Gold Beach	2,125.35
Gold Hill	1,943.27	Halfway	979.48
Helix	571.37	Hines	2,881.94
Hubbard	1,547.71	Huntington	2,301.16
Idanha	1,387.60	Ione	822.51
Jefferson	1,996.64	Monroe	1,136.45
Mosier	813.10	North Powder	1,265.17
Oakland	2,602.54	Oceanlake	2,197.56
Prairie City	2,580.56	Sherwood	1,805.14
Sodaville	492.88	Summerville	229.17
Talent	2,319.99	Wasco	957.51

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above-named respective cities and/or towns hereby are approved.

2. That the action taken respectiveby by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed

(cont.)

EXHIBIT "D" (cont.)

an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 10th day of July, 1952.

EXHIBIT "E"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway in Curry County and also authorized and directed the Engineer to make a complete and final survey of the route and location of the Canyonville-East Section of the Tiller-Trail Secondary Highway in Douglas County, and in connection therewith to prepare maps showing the route and location of each of the said highway sections and to file said reports and records with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed the said surveys and has submitted the same for the approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said surveys, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1-a. That the survey of the Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway, beginning at Engineer's Station 416+00, a short distance south of Bear Trap Creek, near Humbug Mountain State Park, and extending southerly to Engineer's Station 595+00 north of Myrtle Creek, together with the map, which for identification purposes bears Map File No. 5B-1-19 and the date of June, 1952, field notes and other engineering data submitted by the Engineer, hereby are approved and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

1-b. That the survey of the Canyonville-East Section of the Tiller-Trail Secondary Highway in Douglas County, beginning at Engineer's Station 0+00 at the intersection of Third Street and Main Street in the City of Canyonville and extending in an easterly direction to Engineer's Station 58+26.8, a distance of approximately one mile, together with the map, which for identification purposes bears Map File No. 7B-13-18 and the date of June, 1952, field notes, and other engineering data submitted by the Engineer hereby are approved and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said sections of said highways are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

(cont.)

EXHIBIT "E" (cont.)

3. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Departments all necessary descriptions and other required data or real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said surveys, said approval and adoption shall also be deemed and constituted as notice to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the 10th day of July, 1952.

EXHIBIT "F"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts, and that said jobs are now ready for acceptance:

Contract No. 3437 with J. F. Johnston for constructing a bridge over the North Yamhill River near Carlton on the Moores Valley County Road in Yamhill County, completed May 31, 1952.

Contract No. 3501 with City Electric, Inc., for installing traffic signals at Second and Third Avenues in the City of Tillamook on the Oregon Coast Highway, in Tillamook County, completed May 27, 1952.

Contract No. 3503 with the Valley Construction Company for constructing 2 bridges over the Grande Ronde River on the Starkey Secondary Highway in Union County, completed May 5, 1952.

Contract No. 3542 with McKel Incorporated for constructing employees houses and sand storage shed at Timberline Junction on the Mt. Hood Highway in Clackamas County, completed June 6, 1952.

Contract No. 3544 with Robert C. Wilson for constructing maintenance building at Delake in Lincoln County, completed May 31, 1952.

Contract No. 3557 with Babler and Rogers for paving on the Ontario (East 1st Street South), Ontario City Streets in Malheur County, completed May 27, 1952.

Contract No. 3564 with Babler and Rogers for grading and paving on the Nyssa (Locust Avenue-Bauer Avenue) Section of the Oregon Trail Highway in Malheur County, completed May 26, 1952.

Contract No. 3577 with the Central Heating Company for paving on the Franklin Boulevard (University Avenue-Walnut Street) section of the Pacific Highway in Lane County, completed May 23, 1952.

Contract No. 3589 with Birkemeier and Saremal for constructing the McGill undercrossing on the T. H. Banfield Expressway in Multnomah County, completed June 6, 1952.

Contract No. 3590 with McKel, Inc., for constructing a dormitory at Timberline Junction in Clackamas County, completed June 30, 1952.

Contract No. 3596 with Rogers Construction Company for surfacing

(cont.)

EXHIBIT "F" (cont.)

and oiling on the Gerking Corner-North Section of the Gerking and Inness Market Roads in Deschutes County, completed May 28, 1952.

Contract No. 3604 with Orlando C. Bennard for constructing the Jaymar overcrossing on the Columbia River Highway in Hood River County, completed May 31, 1952.

Contract No. 3630 with Babler and Rogers for grading and oil mat surfacing on the Powell Butte-Deschutes County Line Section of the Powell Butte Secondary Highway in Crook County, completed May 29, 1952.

Contract No. 3633 with M. C. Lininger and Sons for furnishing crushed rock in stockpiles on the Siskiyou Junction-Long Prairie Creek Section of the Green Springs Highway in Jackson and Klamath Counties, completed May 23, 1952.

Contract No. 3634 with Barney B. Helser for furnishing crushed rock in stockpiles on the Lexington Section of the Heppner and Lexington-Echo Highways in Morrow County, completed May 14, 1952

Contract No. 3671 with Victor Johnston for constructing latrine in Devils Elbow Park in Lane County, completed June 13, 1952.

Contract No. 3673 with John Helstrom for constructing latrine in the Short Sand Beach Park in Tillamook County, completed June 18, 1952.

Contract No. 3685 with J. C. Compton Company for reoiling on Buchanan-Juntura Section of the Central Oregon Highway in Harney and Malheur Counties, completed June 28, 1952.

Contract No. 3687 with Babler and Rogers for grading and paving on the Ontario-Evans Corner Section of the Ontario-Lincoln School County Road in Malheur County, completed July 1, 1952.

Contract No. 3688 with Warren Northwest Inc., for paving on Marion and Summer Streets (Salem) Section in Marion County, completed May 27, 1952.

THEREFORE, BE IT RESOLVED that the work covered by said State Highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "G"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by the enactment of Chapter 149, Oregon Laws 1949, it is provided as follows:

"Beginning with the year 1949 and annually thereafter there shall be and hereby is appropriated out of the state highway fund such sums of money as will equal 10 per cent of all moneys credited to the state highway fund by the state treasurer between January 1 and December 31 of each year and which have accrued from funds transferred to the state highway fund by the state treasurer under the provisions of section 115-135, O. C. L. A.; section 15, chapter 413, Oregon Laws 1945, as amended by section 4, chapter 114, Oregon Laws 1947; and section 29, chapter 467, Oregon Laws 1947; and from fines and penalties collected for violations of the motor vehicle and transportation laws. Such appropriation shall be distributed among the several cities as provided in this act."

AND, WHEREAS, by said law it is further provided that:

"Such appropriation shall be allocated to the cities as follows: The sum of two hundred fifty thousand dollars ($250,000) shall be withdrawn from such appropriation each year and set up in a separate account to be administered by the state highway commission. Such account shall be spent each year by such commission upon streets not a part of the state highway system within cities which are receiving excessive wear through sudden increases in population in the area or heavy and unusual industrial traffic. Such commission shall determine the distribution of such expenditures after considering applications made to it therefor from the cities. The balance remaining in such appropriation after the withdrawal of said two hundred fifty thousand dollars ($250,000) shall be distributed to all of the cities. Each city shall receive such share of the balance as its population bears to the total population of the cities."

AND, WHEREAS, by section 3 of said act it is provided that:

"Funds accrued and payable to cities under this act shall be remitted semiannually by the secretary of state to the financial officer of each city. The funds appropriated by this act shall be apportioned on a semiannual basis immediately following June 30 and December 31 of each year by the state highway commission who shall certify such apportion-

(cont.)

EXHIBIT "G" (cont.)

ment to the secretary of state. Upon receipt of such certificate the secretary of state shall issue his warrants therefor payable to the cities in the amounts set out."

WHEREAS, the funds or moneys which have been by the State Treasurer credited to the state highway fund during the period of January 1 to June 30, inclusive, of the year 1952, and which have accrued from the sources named herein, produced the following amounts:

Funds resulting under the provisions of Section 115-135, O. C. L. A. (motor vehicle licence fees)	$ 5,759,019.54
Funds resulting under the provisions of Section 15, Chapter 413, Oregon Laws 1945, as amended by Section 4, Chapter 114, Oregon Laws 1947 (gasoline tax)	12,423,250.14
Funds resulting under the provisions of Section 29, Chapter 467, Oregon Laws 1947, (motor carrier fees)	2,878,042.75
Funds resulting from fines and penalties collected for violations of the motor vehicle and transportation laws	181,465,13
	$21,241,777.56

AND, WHEREAS, the statutory ten percent of said total produces for allocation and distribution by the Highway Commission to the benefited cities and towns a total of $2,124,177.76, from which sum there is to be deducted one-half of the sum of $250,000, or $125,000, thus leaving for allocation and distribution for the period January 1 to June 30, 1952, the sum of $1,999,177.76, and

WHEREAS, by applying the factors of allocation or distribution provided for in said Chapter 149, Oregon Laws 1949, the State Highway Commission has determined upon an apportionment of said balance among the cities of the state as shown in the tabulation given below;

NOW, THEREFORE, be it and it hereby is resolved and ordered by this Commission as follows:

1. The Commission does hereby find, declare and order that the funds made available for allocation and distribution to the several cities of the State of Oregon pursuant to law, are hereby allocated and appropriated to the cities and/or towns named below in the amounts set opposite the names of the respective cities:

EXHIBIT "H"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, the West Diamond Lake Secondary Highway No. 233, Oregon Route 230, has been duly designated and declared to be a state secondary highway and has been improved and is being maintained by the State Highway Commission pursuant to the laws of the State of Oregon as a state secondary highway; and,

WHEREAS, said highway is, in the judgment of the State Highway Commission, being subjected to a kind and character of traffic which will damage and injure the said highway during the present period of melting snow, and in order to protect said highway against such damage and injury, it is deemed and is the judgment of the Highway Commission, and said Highway Commission finds that it will be for the best interest of said highway that the maximum weights permitted and authorized by law be reduced during such period; and,

WHEREAS, the State Highway Commission has, after due investigation, determined and found, and it is the judgment of the Commission that the maximum weights which shall be permitted upon said highway during said period shall be reduced and fixed as in this order provided.

NOW, THEREFORE, the premises being in part as above-stated and the State Highway Commission being of the opinion that said highway was not built to sufficient standards to withstand adverse action of the elements and the maximum weights permitted and authorized by law, and the Commission having found upon due investigation that it will be for the best interests of said highway that the maximum total weight of load and vehicle which shall be permitted upon said highway during said period commencing on the date hereinafter specified shall be reduced so as to conform to the requirements fixed in this order.

IT IS HEREBY ORDERED, that the maximum weight of combined load and vehicle or combination of vehicles which shall be permitted upon the following described highway shall not exceed 11,000 pounds gross on any single axle nor 20,000 pounds gross on any pair of tandem axles nor a maximum of 36,000 pounds gross on all axles of the vehicle or combination of vehicles.

Name of Highway and	No.	County	Section Restricted	Date Effective 1952
West Diamond Lake	233	Douglas	M.P. 8.00 (approx. 2 mi N. of Jackson County line) to M.P. 23.89 (jct. with Crater Lake North Hwy.)	May 28 8:00 a.m.

(cont.)

EXHIBIT "H" (cont.)

IT IS FURTHER ORDERED, that these rules and regulations as made and found by the State Highway Commission under the provisions of Section 15, Chapter 405, Oregon Laws 1951, shall be in full force and effect from the effective date hereinabove specified until modified, annulled, or voided by the order of the State Highway Commission.

AND IT IS FURTHER ORDERED, that a notice be posted in a conspicuous manner and place at each end of the above highway and at important crossroads on said highway so that said notice can be readily seen and read, which said notice shall state plainly the limitations and prohibitions of traffic hereby in this order determined and fixed.

AND BE IT FURTHER ORDERED, that a certified copy of this order be furnished to the county clerk of each county affected by this order and that a certified copy of this order be furnished to the Superintendent of the Department of State Police for his information.

Dated this 10th day of July, 1952.

EXHIBIT "I"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, on the 31st day of January, on the 13th day of March, on the 21st day of April and on the 10th day of July, 1952, the Commission passed and adopted resolutions reducing the maximum load limits on certain state highways; and,

WHEREAS, subsequent to the effective dates contained in said resolutions, conditions have changed so that it no longer is necessary or desirable and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limits set out in said resolutions.

NOW, THEREFORE, BE IT RESOLVED, that the action of the State Highway Commission reducing the maximum permissible load limits as set forth in the said resolutions of January 31st, March 13th, April 21st, and July 10th, 1952, on certain state highways and sections of highways to wit:

Name of Highway and No.		County	Section Restricted	Date Effective 1952
Weston-Elgin	330	Umatilla & Union	M.P. 8.00 (E. of Weston) to M.P. 41.39 (Jct. Wallowa Lake Hwy.)	June 2 8:00 a.m.
West Diamond Lake	233	Douglas	M.P. 8.00 (approx. 2 mi N. of Jackson County line) to M.P. 23.89 (Jct. Crater Lake North Highway)	June 20 8:00 a.m.
Warner	431	Lake	M.P. 0.00 (Jct. Fremont Hwy.) to M.P. 21.4 (end of new construction)	May 31 8:00 p.m.
Frenchglen	440	Harney	M.P. 0.00 (Jct. Burns-Crane Hwy.) to M.P. 10.00 (Near summit of Wrights Point Grade)	June 2 8:00 a.m.

be and the same hereby is rescinded and cancelled insofar as it pertains to the highways and sections of highways listed hereinabove, and the maximum load limits permissible on such highways subsequent to the dates shown shall be the maximum load limit provided by law.

IT IS HEREBY ORDERED that a certified copy of this resolution be furnished to the county clerk of each county in which said highways or sections of highways are located and a like copy be furnished to the Superintendent of the Department of State Police for his information.

Dated this 10th day of July, 1952.

July 10, 1952

EXHIBIT "J"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by the provisions of O. C. L. A., 115-351 as amended by Chapter 428, Oregon Laws 1941, the State Highway Commission with respect to state highways, is authorized to designate main-traveled or through highways or sections thereof by placing at the entrances thereto from intersecting highways signs or markers notifying drivers of vehicles to stop before entering or crossing such designated highway or highways, and the State Highway Commission is further authorized to designate particular intersections and place such stop signs or markers at one or more entrances thereto; and,

WHEREAS, the Commission heretofore on the 21st day of September, 1949, adopted a resolution by which certain state highways and sections thereof were declared to be and were designated as throughways, and the State Highway Engineer was instructed to properly mark the same; and,

WHEREAS, by said resolution of September 21, 1949, the Highway Commission declared the Crown Point Secondary Highway No. 125 between its junction with the Columbia River Highway at a point approximately one mile west of Troutdale (M. P. 0.00) and its junction with the Columbia River Highway at a point approximately 24 miles east of Troutdale (M. P. 23.93), to be a through highway, and ordered that all traffic entering said highway from intersecting streets, roads and highways shall come to a stop before entering said highway; and,

WHEREAS, since adoption of said resolution of September 21, 1949, by this Commission, a traffic engineering investigation has been made that reveals changed conditions at the intersection of said Crown Point Secondary Highway with N. E. Halsey Street, Portland, within the City of Troutdale, and that the volume of traffic which now enters the intersection from N. E. Halsey is far greater than that which enters the intersection from the west over Crown Point Secondary Highway; and

WHEREAS, based upon the results of said investigation, the State Highway Engineer has recommended to this commission a modification of the order contained in the aforementioned resolution of September 21, 1949, so as to allow traffic from N. E. Halsey Street to enter the intersection without stopping, and to require eastbound traffic on Crown Point Secondary Highway to stop before entering the intersection;

NOW, THEREFORE, based upon the results of said traffic engineering investigation made by its employees and upon the recommen-

(cont.)

EXHIBIT "J" (cont.)

dation of the State Highway Engineer, this Commission, all members being present and voting affirmatively, does hereby find, declare, resolve and order as follows:

1. That so much of said resolution of September 21, 1949, requiring that vehicles traveling on N. E. Halsey Street shall come to a stop before entering upon said Crown Point Secondary Highway at its intersection with said highway near the west city limits of Troutdale be and the same hereby is repealed but in all other respects the provisions of said resolution of September 21, 1949, are hereby reaffirmed and shall remain in full force and effect.

2. That hereafter all eastbound vehicles on said Crown Point Secondary Highway shall come to a stop before entering upon the intersection of said state highway with N. E. Halsey Street in the western part of the City of Troutdale.

3. That the State Highway Engineer be and he hereby is instructed to place or cause to be placed and thereafter maintain the necessary signs and markers to accomplish the traffic control and regulation contemplated by this resolution. Such signs as may be erected at said intersections shall conform to the types and standards heretofore approved by the Commission.

4. This resolution shall be entered in the minutes and records of the Commission as of the 10th day of July, 1952, and a duly certified copy thereof delivered to the U. S. Bureau of Public Roads and a like copy to each of the following: Board of County Commissioners of Multnomah County, Common Council of the City of Troutdale, and Superintendent of the Department of State Police, for their information.

EXHIBIT "K"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, the Pacific Highway West, otherwise known as US Route No. 99W, is one of the major state primary highways and likewise a Federal highway, which highway throughout its entire length carries a large volume of traffic; and,

WHEREAS, it appears that at a location just south of its junction with the Salmon River Highway, there is located an establishment known as "Mack Kiddie Land" and that a hazardous condition is created at and near said "Mack Kiddie Land" by the parking of vehicles on either shoulder of said Pacific Highway West in front of and near said "Mack Kiddie Land"; and,

WHEREAS, the parking of vehicles on said highway right of way creates a hazard not only to the traveling public using said highway but to parked vehicles and occupants thereof by reason of their parking and unparking maneuvers; and,

WHEREAS, the roadway of said highway at said location is not of sufficient width to safely accommodate the traveling public and permit the parking of vehicles; and,

WHEREAS, in the opinion of this Commission, public welfare and public safety require that parking should be prohibited within said area.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:,

1. The Commission does hereby find and declare, based upon investigation, reports and recommendation by members of its staff, that the parking of vehicles on either side of the Pacific Highway West, (US 99W) between M. P. 40.17, approximately one hundred feet south of the south city limits of McMinnville, and M. P. 40.32, approximately 0.17 mile south of the south city limits of McMinnville, creates a hazard not only to traffic but to persons owning and using said parked vehicles.

2. That this Commission does hereby find and declare that the parking of vehicles on both sides of the right of way of said highway within said termini should be prohibited.

3. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared on which signs

EXHIBIT "K" (cont.)

shall be printed in plain, legible letters, "NO PARKING ON HIGHWAY SHOULDERS".

4. That a certified copy of this resolution be sent to the owner and operator of "Mack Kiddie Land" and a like copy be mailed to the Superintendent of the Department of State Police.

5. That this resolution be entered in the minutes and records of the State Highway Commission as of the 10th day of July, 1952.

EXHIBIT "L"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highway: COLUMBIA RIVER HIGHWAY

Highway Number 2 Route Number US 30

Location of Termini		Established Speed
M.P. 5.50 (East city Limits of Portland)	to M. P. 6.49 (Columbia Boulevard)	35 miles per hour
M.P. 6.49 (Columbia Blvd)	to M.P. 7.22 (NE 112th Avenue)	30 miles per hour
M.P. 7.22 (NE 112th Avenue)	to M.P. 7.45 (NE 122d Avenue)	35 miles per hour

EXHIBIT "L" (cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Commission as of the 10th day of July, 1952.

EXHIBIT "M"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Commission as of the 10th day of July, 1952.

EXHIBIT "N"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, it is desirable and in the best public interest to facilitate the movement on the highways of all types of vehicles, equipment, commodities, materials, and articles where such movement is proposed over sections of highways that will permit such movements and where the hazard to the motoring public is at the minimum; and,

WHEREAS, on July 16, 1951, the State Highway Commission adopted a resolution authorizing the issuance of permits pursuant to the provisions of Section 12, Chapter 405, Oregon Laws 1951, for the movement over state highways of any vehicle or combination of vehicles, article, property or things having any gross weight or dimension or of any description not otherwise permitted to move over state highways, and in Paragraphs 4 and 5 of said resolution designated the persons authorized to sign and issue valid permits by and for the State Highway Commission; and,

WHEREAS, on July 16, 1951, the State Highway Commission adopted a resolution authorizing the issuance of permits pursuant to the provisions of Section 13, Chapter 405, Oregon Laws 1951, for the movement over state highways of any vehicle or combination of vehicles, article, property, or thing having any gross weight or dimension or of any description not otherwise permitted to move over state highways, and in Paragraphs 10 and 11 of said resolution the Commission delegated to certain designated persons the authority to sign and issue such permits; and,

WHEREAS, it is desirable and to the best public interest to make locations at which permits may be obtained more convenient and accessible, and in the opinion of the Commission it is feasible and proper to authorize additional persons to issue permits under the provisions of Sections 12 and 13, Chapter 405, Oregon Laws, 1951.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by the Commission, all members being present and voting affirmatively as follows:

1. In addition to those persons now authorized to sign and issue permits, the Director of Permits, with the written approval of the State Highway Engineer, is authorized to designate qualified persons in any field office to sign and issue permits pursuant to the provisions of Sections 12 and 13, Chapte 405, Oregon Laws 1951, for the movement over state highways of any vehicle or combination of vehicles, article, property or thing having any gross weight or dimension or of a description not otherwise permitted to move over state highways.

(cont.)

EXHIBIT "N" (cont.)

2. All permits issued by persons so designated by the Director of Permits shall be within the limits and under the conditions set forth in the resolution of the Commission adopted July 16, 1951, relating to the issuance of permits pursuant to Section 12, Chapter 405, Oregon Laws 1951, and the resolution of the Commission adopted July 16, 1951, as amended by a resolution adopted October 11, 1951, relating to the issuance of permits pursuant to Section 13, Chapter 405, Oregon Laws 1951.

3. The Director of Permits shall furnish to the Superintendent of the State Police and the Public Utilities Commissioner a current list of all State Highway Department officials and employees who are authorized to sigh and issue permits pursuant to Section 12 and 13, Chapter 405, Oregon Laws 1951.

4. That this resolution be entered in the minutes and records of the Commission as of the 11th day of July, 1952, and that the original of this resolution be filed in the office of the Secretary of the State Highway Commission and that a copy of this resolution be furnished to each the Superintendent of the State Police, Public Utilities Commissioner and the Secretary of the State.

EXHIBIT "O"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the 1st and 2nd six-month period of 1947 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Culver.....$773.97

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above-named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 11th day of July, 1952.

July 11, 1952

20329

EXHIBIT "P-1"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Medford-County Farm Section of the said Pacific Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes; and,

WHEREAS, the said Pacific Highway is a major highway of the state and as such carries large volumes of traffic,both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the widening, improvement and maintenance of the Medford-County Farm Section of the Pacific Highway, the following described real property, located in Jackson County, Oregon, to wit:

R-19163
Owner: A. H. Dudley, et ux

A parcel of land lying in 7th Street (vacated), and in Lots 1 and 2, Block 7, Original Town Site of Phoenix, situated in Section 9, Township 38 South, Range 1 West, W. M., Jackson County, Oregon, and being a portion of that property described in that deed to A. H. Dudley and Frances Marie Dudley, recorded in Book 210, Page 213, of Jackson County Records of Deeds, the said parcel being that portion of said

(cont.)

EXHIBIT "P-1" (cont.)

property included in a strip of land 35 feet in width, lying on the Westerly side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 365+97.40, said Station being 589.06 feet North and 3762.07 feet West of the Southwest corner of Donation Land Claim No. 82, Township 38 South, Range 1 West, W. M., thence North 36° 01' 25" West 110.92 feet; thence on a spiral curve left (the long chord of which bears North 36° 36' 25" West) 100 feet; thence on a 1637.02 foot radius curve left (the long chord of which bears North 38° 56' 55" West) 67.14 feet to Station 368+75.46. The Westerly line of said strip of land intersects the Southerly and Northerly lines of said property approximately opposite Stations 366+50 and 368+29 respectively.

The bearings used in this description are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 1,332 square feet.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Medford-County Farm Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the Pacific Highway of a width of 15 feet on the West side of said Pacific Highway opposite Highway Engineer's center line Station 366+58.

b. A right of access to the Pacific Highway of a width of 100 feet on the West side of the said Pacific Highway opposite Highway Engineer's center line Station 367+60.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease; but the owners, their heirs and assigns, shall have access to the frongage road at such places as will afford

(cont.)

EXHIBIT "P-1" (cont.)

reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings, it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 10th day of July, 1952.

EXHIBIT "P-2"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the said Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway, and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this

(cont.)

EXHIBIT "P-2" (cont.)

Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way for the proper construction and maintenance of the Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway as a throughway, the following described real property, to wit:

R-19105
Owner: Elton L. Grass, et al

A parcel of land lying in Section 31, Township 22 South, Range 4 West, W. M., Douglas County, Oregon, and being a portion of that property conveyed by that deed to Elton L. Grass and Lucile G. Grass, recorded in Book 185, Page 320, of Douglas County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable width, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 682+84.35, said Station being 2509.1 feet South and 129.7 feet East of the Northwest corner of the Northeast quarter ($NE\frac{1}{4}$) of said Section 31: thence on a decreasing spiral curve right (the long chord of which bears South 35° 19' 15" East) 350 feet; thence South 36° 20' 30" West 865.65 feet to Station 695+00. Said center line crossing the North line of the South half ($S\frac{1}{2}$) of said Section 31 and the North line of the John M. Scott Donation Land Claim No. 37 approximately at Stations 684+44 and 692+63 respectively.

The widths in feet of the strip of land above referred to are as follows.

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
683+00	690+00	125 feet	125 feet
690+00	691+00	125 feet on a straight line to 200 feet	100 feet
691+00	695+00	200 feet	100 feet

The bearings used in this description are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 4.52 acres.

(cont.)

EXHIBIT "P-2" (cont.)

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings, it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 10th day of July, 1952.

EXHIBIT "P-3"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway, and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that access to and from said highway should be controlled; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the said Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway, and in connection therewith, to change and relocate the channel of Curtis Creek; to provide a frontage road connection with the Cox County Road, also known as County Road No. 196, Douglas County, Oregon; to relocate and realign the said Cox

(cont.)

EXHIBIT "P-3" (cont.)

County Road and the Anlauf-Scotts Valley Road, also known as County Road No. 25, Douglas County, Oregon, where the said roads intersect, and for such purposes and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for the relocation, construction, improvement and maintenance of the Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway, a parcel of real property, located in Douglas County, Oregon, and described as follows, to wit:

R-19101
Owner: Robert Roy Booth, Jr., et al

Parcel No. 1:

A parcel of land lying in the Northwest quarter ($NW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 17; the East half ($E\frac{1}{2}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 18; Section 19; and the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 30, Township 22 South, Range 4 West, W. M., Douglas County, Oregon, the said parcel being a strip of land extending from the Southerly line of that tract of land conveyed to William B. and Gertrude E. Hardy by deed recorded in Book 161, Page 588, Douglas County Deed Records, to the South line of said Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 30, said strip of land being of variable width, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 515+24.18, said Station being 66.00 feet North and 247.07 feet East of the West quarter ($W\frac{1}{4}$) corner of said Section 17; thence South 28° 42' 30" West 2351.57 feet; thence on a spiral curve left (the long chord of which bears South 28° 02' 30" West 400 feet; thence on a 5729.58 foot radius curve left (the long chord of which bears South 24° 26' 30" West) 453.33 feet; thence on a spiral curve left (the long chord of which bears South 20° 50' 30" West) 400 feet; thence South 20° 10' 30" West 5880.25 feet; thence on a spiral curve left (the long chord of which bears South 18° 29' 15" West) 450 feet; thence on a 2546.48 foot radius

(cont.)

EXHIBIT "P-3" (cont.)

curve left (the long chord of which bears South 1° 50' 45" East) 1507.41 feet to Station 629+66.74, said center line intersecting the North line of the Northwest quarter (NW¼) of the Southwest quarter (SW¼) of said Section 17, and the South line of the Northeast quarter (NE¼) of the Northwest quarter (NW¼) of said Section 30 approximately at Stations 516+07 and 615+16 respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
516+00	533+80	125 feet	to County Road right of way
533+80	544+00	125 feet	180 feet
544+00	546+50	100 feet	180 feet
546+50	592+70	125 feet	to County Road right of way
592+70	596+50	125 feet	125 feet
596+50	599+00	125 feet on a straight line to 300 feet	125 feet
599+00	616+00	125 feet	125 feet

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 68.35 acres, of which 2.29 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 66.06 acres lie outside of the existing right of way.

2. The Commission does hereby find and declare that there is needed and required for right of way for the relocation, construction, improvement and maintenance of the Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway, and in connection therewith, for the relocation and realignment of the Cox County Road, also known as County Road No. 196, Douglas County, Oregon, and to provide a connection between a frontage road to be constructed on the hereinabove described real property, designated as Parcel No. 1, and the said Cox County Road, a parcel of real property located in Douglas County, Oregon, and described as follows, to wit:

Parcel No. 2:

A parcel of land lying in the Southeast quarter (SE¼) of the Southwest quarter (SW¼), and in the Southwest quarter (SW¼) of the Southeast quarter (SE¼) of Section 19, Township 22 South, Range 4 West, W. M. Douglas County, Oregon, the said parcel being described as follows:

(cont.)

EXHIBIT "P-3" (cont.)

Beginning at a point on the Easterly line of Parcel No. 1, above; said point being opposite and 125 feet Easterly of Engineer's center line Station 599+00 as described in Parcel No. 1 above; thence South 69° 49' 30" East 600 feet, more or less, to the Northerly right of way line of the Cox Creek County Road; thence Westerly along said county road right of way line to the Easterly line of Parcel No. 1 above; thence along said Easterly line North 20° 10' 30" East 146 feet, more or less, to the point of beginning, containing 1 acre, more or less.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

3. The Commission does hereby find and declare that there is needed and required for right of way for the relocation, construction, improvement and maintenance of the Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway, and in connection therewith, the relocation and realignment of the intersection between the Anlauf-Scotts Valley Road, also known as County Road No. 25, Douglas County, Oregon and the Cox County Road, also known as County Road No. 196, Douglas County, Oregon, a parcel of real property located in Douglas County, Oregon, and described as follows, to wit:

Parcel No. 3:

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 19, and in the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 30, Township 22 South, Range 4 West, W. M., Douglas County, Oregon, the said parcel being described as follows:

Beginning at a point on the Westerly line of Parcel No. 1 above; said point being opposite and 125 feet Westerly of Engineer's center line Station 596+00 as described in Parcel No. 1 above; thence North 69° 49' 30" West 85 feet; thence parallel to said Westerly line South 20° 10' 30" West 300 feet; thence South 33° 18' 30" West 775 feet, more or less to the Southeasterly right of way line of the Scotts Valley County Road; thence Northeasterly along said Southeasterly right of way line to said Westerly line of Parcel No. 1 above; thence along said Westerly line North 20° 10' 30" East 590 feet more or less, to the point of beginning, containing 1.1 acres, more or less outside of the existing right of way.

4. The Commission further finds and declares that in addition to the acquisition of fee simple title to the aforesaid parcels of real property, it is necessary that there be acquired, for the proper relocation, con-

EXHIBIT "P-3" (cont.)

struction and maintenance of the Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway, certain easements across the following described tracts of real property, for the purpose of changing the channel of a certain stream, commonly known as Curtis Creek, located upon the Easterly and Westerly sides of the aforesaid right of way, hereinabove defined as Parcel No. 1, said easements across said tracts being described as follows, to wit.

Tract A:

A strip of land 120 feet in width, lying Easterly of and adjoining said Parcel No. 1, between Highway Engineer's center line Stations 529+00 and 537+00, containing 2.20 acres.

Tract B:

A strip of land 100 feet in width, lying Easterly of and adjoining said Parcel No. 1, between Highway Engineer's center line Stations 559+00 and 562+50, containing 0.80 acre.

Tract C:

A strip of land 100 feet in width, lying Easterly of and adjoining said Parcel No. 1, between Highway Engineer's center line Stations 604+00 and 608+50, containing 1.03 acres.

Tract D:

A strip of land 300 feet in width, lying Westerly of and adjoining said Parcel No. 1, between Highway Engineer's center line Stations 607+00 and 610+09.33, containing 2.13 acres.

5. That in addition to the acquisition of the above described real property and the easements across the hereinabove described tracts, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the relocated Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of and easements across the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, the following:

a. A right of access to a frontage road to be constructed by the State upon the hereinabove described real property, designated as Parcel No. 1, and Easterly of the main relocated Pacific Highway, said frontage road to be connecte . to the said main highway or other public ways only at such point or points as are designated by the State of Oregon.

(cont.)

EXHIBIT "P-3" (cont.)

b. A right to cross the relocated Pacific Highway through an underpass to be constructed by the State of Oregon under the relocated Pacific Highway for farm purposes only, said underpass to be located at Highway Engineer's center line Station 532+50, provided, however, that upon the alienation of either of the portions of the property severed by the said relocated Pacific Highway, this right of underpass shall be forfeited and shall cease, and if the said owners, their heirs or assigns, shall commit, suffer or permit any use of the said underpass for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event the right hereby reserved to the owners will be automatically forfeited, and the Highway Commission shall have the power to close and barricade said underpass for all purposes.

c. Right of access to the Anlauf-Scotts Valley Road, also known as County Road No. 25, Douglas County, Oregon, and the Cox County Road, also known as County Road No. 196, Douglas County, Oregon, where said roads lie within the hereinabove described right of way of the said relocated Pacific Highway.

6. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

7. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcels of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid parcels of real property.

8. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or bythe exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved , which increase or decrease shall be justified by reason of said revised description.

9. That upon the trial of any suit or action instituted to acquire

EXHIBIT "P-3" (cont.)

the said parcels of real property, or any interest therein, the Chief Counsel, or in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

10. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 10th day of July, 1952.

EXHIBIT "P-4"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right of interest therein, deemed by the Highway Commission necessary for highways purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, if by so doing the interest of the owner and the State will be best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, the Highway Commission has approved and adopted a survey of the Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway, and has by a resolution ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said throughway law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that access to and from said highway should be controlled; and,

(cont.)

EXHIBIT "P-4" (cont.)

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the said Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway, and, in connection therewith, to change the channel of Curtis Creek and relocate a portion of the Anlauf-Scotts Valley Road, also known as County Road Number 25, in Douglas County, and for such purposes and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for the relocation, construction, improvement and maintenance of the Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway, and, in connection therewith, a channel change of Curtis Creek, and the relocation and realignment of the Anlauf-Scotts Valley Road, also known as County Road Number 25, Douglas County, Oregon, a parcel of real property located in Douglas County, Oregon, and described as follows, to wit:

R-19098
Owner: L. L. Bewley, et ux

Parcel No. 1:

A parcel of land lying in the West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 8, Township 22 South, Range 4 West, W. M., Douglas County, Oregon, the said parcel being that portion of said West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) included in a strip of land 150 feet in width on the Easterly side and of variable width on the Westerly side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 460+07.30, said Station being 2654.44 feet North and 1432.84 feet East of the Southwest corner of said Section 8; thence South 22° 09' West 147.82 feet; thence on a spiral curve left (the long chord of which bears South 20° 49' West) 400 feet; thence on a 2864.79 foot radius curve left (the long chord of which bears South 8° 25' 15" West) 972.92 feet; thence on a spiral curve left (the long chord of which bears South 3° 58' 30" East) 400 feet; thence South 5° 18' 30" East 266.21 feet; thence on a spiral curve right (the long chord of which bears

(cont.)

EXHIBIT "P-4" (cont.)

South 4° 06' 18" East) 380 feet; thence on a 3015.57 foot radius curve right (the long chord of which bears South 11° 42' West) 1410.35 feet to Station 449+84.60. Said center line intersecting the North and South lines of said West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) approximately at Stations 460+80 and 487+58 respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Westerly Side of Center Line
460+50	464+00	To West line of existing county road right of way
464+00	472+00	150 feet
472+00	473+00	150 feet on a straight line to 100 feet
473+00	475+50	100 feet
475+50	487+60	To West line of county road right of way.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 19.0 acres, of which 3.65 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 15.35 acres lie outside of the existing right of way.

2. The Commission does hereby find and declare that the acquisition of the real property hereinabove described and the denial of access thereto, as hereinafter set forth, will result in depriving the owner of all means of access from that portion of his real property lying Easterly of and adjacent to the real property hereinabove described to any public highway and to his remaining real property, and, therefore, that it is in the best interest of both the State and the owner for the Highway Commission to acquire fee simple title to the owner's entire tract of real property lying Easterly of the West boundary of the real property hereinabove described, which said tract includes that portion of the real property described in paragraph 1, above, and the real property described as follows, to wit:

Parcel No. 2:

A parcel of land lying in the West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 8, Township 22 South, Range 4 West, W.M., Douglas County, Oregon, the said parcel being that portion of said West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) lying East-

(cont.)

EXHIBIT "P-4" (cont.)

erly of a line which is parallel to and 150 feet Easterly of the relocated center line of the Pacific Highway, containing 3.15 acres.

3. That in addition to the acquisition of all of the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of said remaining real property, their heirs and assigns, right of access to the Anlauf-Scotts Valley Road, also known as County Road Number 25, Douglas County, Oregon, to be constructed by the State and maintained by Douglas County upon the above described real property described as Parcel No. 1 and Westerly of the main relocated Pacific Highway; said Anlauf-Scotts Valley Road to be connected to the said main highway or to other public ways only at such point or points as are designated by the State of Oregon.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

7. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or in his absence, the Assistant Counsel, is authorized to make such

EXHIBIT "P-4" (cont.)

stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be and it hereby is entered in the minutes and records of the Commission this 10th day of July, 1952.

20347

EXHIBIT "P-5"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Clackamas Secondary Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Eagle Creek Section of the said Clackamas Secondary Highway, and to construct and maintain a frontage road adjacent to said highway, and for such purposes and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way of the Eagle Creek Section of the Clackamas Secondary Highway, for use in connection with the construction and maintenance of a frontage road, the following described real property, located in Clackamas County, Oregon, and described as follows, to wit:

R-19257
Owner: Scott Chandler, et al

A parcel of land lying in the John Chiles Donation Land Claim, also in the West half ($W\frac{1}{2}$) of Section 5, Township 3 South, Range 4 East, W.M., Clackamas County, Oregon, and being a portion of that property described in that deed to Scott Chandler and Verda A. Chandler, recorded in Book 435, Page 296 of Clackamas County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable width, lying on the Easterly side of the center line of the Clackamas Highway as said highway has been

(cont.)

EXHIBIT "P-5" (cont.)

relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1032+00, said Station being 2317.6 feet South and 1865.3 feet East of the Northwest corner of said Section 5; thence South 4° 50' West 1151.23 feet to Station 1052+25, through an equation in which Station 1034+38.18 back equals Station 1043+11.95 ahead; said strip of land extends from the Northerly line of said property to a line at right angles to said center line at Station 1052+25. Excepting therefrom that portion of said strip of land conveyed to the State of Oregon, by and through its State Highway Commission, by deed recorded in Book 456, Page 653, of the Clackamas County Deed Records.

The widths in feet of the strip of land above referred to are as follows:

Station to Station	Width on Easterly Side of Center Line
Northerly line of said Chandler property to 1033+10	120 feet
1033+10 to 1033+50	Taper from 120 feet to 95 feet
1033+50 to 1034+38.18 back equals 1043+11.95 ahead	95 feet
1034+38.18 back equals 1043+11.95 ahead to 1050+00	Taper from 95 feet to 55 feet
1050+00 to 1052+25	55 feet

The parcel of land to which this description applies contains 1.925 acres, of which 1.500 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 0.425 acres lie outside of the existing right of way.

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said property.

EXHIBIT "P-5" (cont.)

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 10th day of July, 1952.

EXHIBIT "P-6"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right of interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve, and maintain the Medford-County Farm Section of the said Pacific Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes; and,

WHEREAS, the said Pacific Highway is a major highway of the state and, as such, carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the widening, improvement, and maintenance of the Medford-County Farm Section of the Pacific Highway, the following described real property, located in Jackson County, Oregon, to wit:

R-19166
Owner: Dan H. Adams, et al.

A parcel of land lying in D. L. C. No. 42, situated in Section 9, Township 38 South, Range 1 West, W. M., Jackson, County, Oregon, and being a portion of that property described in that deed to Dan H. and Regina E. Adams, recorded in Book 279, page 421, of Jackson County Records of Deeds, the said parcel being that portion of said property included in a strip of land 35 feet

(cont.)

EXHIBIT "P-6" (cont.)

in width, lying on the southwesterly side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 365+97.40, said station being 589.06 feet North and 3762.07 feet West of the southwest corner of D. L. C. No. 82, Township 38 South, Range 1 West, W. M.; thence North 36° 01' 25" West 110.92 feet; thence on a spiral curve left (the long chord of which bears North 36° 36' 25" West) 100 feet; thence on a 1637.02 foot radius curve left (the long chord of which bears North 38° 56' 55" West) 67.14 feet; thence on a spiral curve left (the long chord of which bears North 41° 17' 25" West) 100 feet to Station 369+75.46.

The southwesterly line of said strip of land intersects the southerly and northerly lines of said property approximately opposite Stations 368+29 and 369+60, respectively.

The parcel of land to which this description applies contains 186 square feet. (Bearings based on Oregon Coordinate System, South Zone).

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future, or potential rights of access between the right of way of the said Medford-County Farm Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

(a) A right of access to the Pacific Highway of a width of 25 feet on the west side of the said Pacific Highway opposite Highway Engineer's Centerline Station 368+56.

(b) A right of access to the Pacific Highway of a width of 25 feet on the west side of the said Pacific Highway opposite Highway Engineer's Centerline Station 369+06.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease; but the owners; their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

(cont.)

EXHIBIT "P-6" (cont.)

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings, it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 10th day of July, 1952.

20353

EXHIBIT "P-7"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Medford-County Farm Section of the said Pacific Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes; and

WHEREAS, the said Pacific Highway is a major highway of the state, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the widening, improvement and maintenance of the Medford-County Farm Section of the Pacific Highway, the following-described real property located in Jackson County, Oregon, to-wit:

R 19133
Owner: John C. Kesler, et ux.

Parcel No. 1:

A parcel of land lying in Donation Land Claim No. 43, situated in Section 15, Township 38 South, Range 1 West, W. M., Jackson County, Oregon, and being a portion of that property described in that deed to John C. Kesler and Rosemary B. Kesler,

(cont.)

EXHIBIT "P-7" (cont.)

recorded in Book 310, Page 283, of Jackson County Records of Deeds; the said parcel being that portion of said property included in a strip of land 35 feet in width, lying on the westerly side of the center line of the Pacific Highway, as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 279+22.94, said Station being 3035.58 feet south and 3629.88 feet east of the Northwest corner of said Donation Land Claim No. 43; thence North 32° 40' 35" West 897.39 feet; thence on a spiral curve left (the long chord of which bears North 33° 00' 35" West) 200 feet; thence on a 5729.58 foot radius curve left (the long chord of which bears North 34° 06' 00" West) 84.72 feet; thence on a spiral curve left (the long chord of which bears North 35° 11' 25" West) 200 feet; thence North 35° 31' 25" West 200.68 feet to Station 295+05.73. The westerly line of said strip of land intersects the southerly and northerly lines of said property approximately opposite Station 287+07 and Station 294+37, respectively, containing 0.17 acre outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired an easement across the owners' real property for the purpose of realigning the channel of an irrigation ditch, and to provide for proper highway slopes so that the said ditch and slopes will coincide with the widening, improvement and maintenance of the Medford-County Farm Section of the Pacific Highway, said easement being described as Parcel No. 2, as follows:

Parcel No. 2:

A parcel of real property contained in a strip of land being 45 feet in width, lying adjacent to and westerly of the above-described Parcel No. 1, said strip of land extending from the southerly line to the northerly line of said property, and containing 0.76 acre, more or less, lying in Section 15, Township 38 South, Range 1 West, W. M., Jackson County, Oregon.

3. That in addition to the acquisition of fee simple title to and an easement across the above-described parcels of real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Medford-County Farm Section of the Pacific Highway and all of the contiguous real property of the owners' remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for

EXHIBIT "P-7" (cont.)

service of the said remaining land, the following:

A right of access to the Pacific Highway of a width of 25 feet on the west side of said Pacific Highway, opposite Highway Engineer's center line Station 292+40.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcels of property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings, it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of the said revised description.

7. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

EXHIBIT "P-7" (cont.)

8. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 10th day of July, 1952.

20357

EXHIBIT "P-8"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve, and maintain the Medford-County Farm Section of the said Pacific Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes; and,

WHEREAS, the said Pacific Highway is a major highway of the state and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the widening, improvement, and maintenance of the Medford-County Farm Section of the Pacific Highway, the following described real property, located in Jackson County, Oregon, to wit:

Owner: David E. McClurg, et al
R-19141

A parcel of land lying in D. L. C. No. 42, Township 38 South, Range 1 West, W. M., Jackson County, Oregon, and being a portion of that property described in those deeds to D. E. and Gladys Pauline McClurg, recorded in Book 27 , page 47, and Book 362, page 100, of Jackson County Records of Deeds, the said parcel being that portion of said property lying northwesterly of that property conveyed to L. C.

(cont.)

EXHIBIT "P-8" (cont.)

Taylor and Doris A. Taylor by deed recorded in Book 233, page 451, Jackson County Deed Records and included in a strip of land 35 feet in width, lying on the westerly side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 317+00, said station being 3.82 feet South and 2734.46 feet East of the southwest corner of said Donation Land Claim No. 42; thence North 36° 50' 50" West, 182.80 feet; thence on a spiral curve left (the long chord of which bears North 37° 00' 50" West) 200 feet; thence on a 11459.16 foot radius curve left (the long chord of which bears North 37° 26' 38" West) 38.61 feet; thence on a spiral curve left (the long chord of which bears North 37° 52' 25" West) 200 feet; thence North 38° 02' 25" West, 178.59 feet to Station 325+00. The westerly line of said strip of land intersects the northerly line of said Taylor property and the northerly line of said McClurg property approximately opposite Stations 317+69 and 324+36, respectively. Subject to the rights of the Medford Irrigation District for canal purposes.

(Bearings used herein are based upon the Oregon Coordinate System, South Zone.)

The parcel of land to which this description applies contains 0.15 acre, outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future, or potential rights of access between the right of way of the said Medford-County Farm Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

(a) A right of access to the Pacific Highway of a width of 25 feet on the west side of said Pacific Highway opposite Highway Engineer's Center Line Station 324+00.

(b) A right of access to the Pacific Highway of a width of 25 feet on the west side of said Pacific Highway opposite Highway Engineer's Center Line Station 323+40.

(c) A right of access to the Pacific Highway of a width of 25 feet on the west side of said Pacific Highway opposite Highway Engineer's Center Line Station 322+70.

EXHIBIT "P-8" (cont.)

(d) A right of access to the Pacific Highway of a width of 25 feet on the west side of said Pacific Highway opposite Highway Engineer's Center Line Station 320+00.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease; but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings, it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 10th day of July, 1952.

EXHIBIT "P-9"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway, to be known as the Hayesville School-State Street Unit of the Salem By-Pass Section of the Pacific Highway East, and has ordered and declared that said unit and section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that access to and from said highway should be controlled; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to construct, improve and maintain the Hayesville School-State Street Unit of the Salem By-Pass Section of the Pacific Highway East, and to construct and maintain a connecting or frontage road between the Silverton Road, also known as Marion County Market Road No. 26, Marion County, Oregon, and Hollywood Avenue, also known as Marion County Road No. 710, Marion County, Oregon, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

(cont.)

EXHIBIT "P-9" (cont.)

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the construction, improvement and maintenance of the Hayesville School-State Street Unit of the Salem By-Pass Section of the Pacific Highway East, and the construction and maintenance of a connecting or frontage road between Silverton Road, also known as Marion County Market Road No. 26, Marion County, Oregon, and Hollywood Avenue, also known as Marion County Road No. 710, Marion County, Oregon, a parcel of real property located in Marion County, Oregon, and described as follows, to wit:

R-19225
Owner: Ezra Lowell Keubler, et ux

Lot 9, West Hollywood, Marion County, Oregon (See Volume 7, Page 68, Record of Town Plats for said county and state).

SAVE AND EXCEPT therefrom the following:

Beginning at the Northwest corner of Lot 10, West Hollywood, Marion County, Oregon (See Volume 7, Page 68, Record of Town Plats for said county and state); and running thence Southerly along the West line of said lot 1.905 chains; thence Easterly parallel with the North line of said Lot 10, 7.88 chains to the East line of Lot 9, thence Northerly along the East line of said Lot, 1.905 chains to the Northeast corner of said Lot; thence Westerly along the North line of Lots 9 and 10, 7.88 chains to the place of beginning.

ALSO SAVE AND EXCEPT that part of land described in deed from The United States National Bank of Portland (Oregon) to Irene Brant, recorded November 27, 1935, in Volume 223, at Page 205, Deed Records for Marion County, Oregon, which lies within Lot 9.

ALSO SAVE AND EXCEPT that portion of the above described real property heretofore conveyed by Ezra Lowell Keubler and Elizabeth Frances Keubler, husband and wife, to the State of Oregon, by and through its State Highway Commission, in Volume 435, Page 799, Deed Records for Marion County, Oregon, which lies within Lot 9.

EXHIBIT "P-9" (cont.)

The parcel of land to which this description applies contains 1.045 acres, more or less.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property , or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be and it hereby is entered in the minutes and records of the Commission this 10th day of July, 1952.

20363

EXHIBIT "P-10"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Medford-County Farm Section of the said Pacific Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes; and

WHEREAS, the said Pacific Highway is a major highway of the State and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the widening, improvement and maintenance of the Medford-County Farm Section of the Pacific Highway, the following-described real property located in Jackson County, Oregon, to-wit:

R 18436
Owner: I. W. Houschild, et ux

A parcel of land lying in Donation Land Claim No. 44, also in the Northeast quarter ($NE\frac{1}{4}$) of Section 31, Township 37 South, Range 1 West, W. M., Jackson County, Oregon, and being a portion of that property described in that deed to I. W. Houschild and Marian Houschild, recorded in Book 222, Page 224, of Jackson County Records of Deeds; the said parcel being that portion of

(cont.)

EXHIBIT "P-10" (cont.)

said property included in a strip of land 35 feet in width, lying on the easterly side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 535+45.90, said Station being 104.27 feet north and 735.86 feet west of the Southeast corner of said Donation Land Claim No. 44; thence North 24° 51' 50" West 1554.10 feet to Engineer's center line Station 551+00. The Easterly line of said strip of land intersects the Southerly and Northerly lines of said property approximately opposite Station 543+71 and Station 545+66, respectively.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 0.05 acre, more or less, outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above-described real property it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Medford-County Farm Section of the Pacific Highway and all of the contiguous real property of the owners, remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the Pacific Highway of a width of 40 feet on the east side of said Pacific Highway, opposite Highway Engineer's center line Station 544+16.

b. A right of access to the Pacific Highway of a width of 45 feet on the east side of said Pacific Highway, opposite Highway Engineer's center line Station 544+87.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease; but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

EXHIBIT "P-10" (cont.)

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings, it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 10th day of July, 1952.

EXHIBIT "P-11"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Medford-County Farm Section of the said Pacific Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes; and

WHEREAS, the said Pacific Highway is a major highway of the state, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the widening, improvement and maintenance of the Medford-County Farm Section of the Pacific Highway, the following-described real property located in Jackson County, Oregon, to-wit:

R 19115
Owner: William Meredith Luse

Parcel No. 1:

A parcel of land lying in Donation Land Claim No. 41, also in Section 9, Township 38 South, Range 1 West, W. M., Jackson County, Oregon, and being a portion of that property described in that deed to William Meredith Luse, recorded in Book 333,

(cont.)

EXHIBIT "P-11" (cont.)

Page 438, of Jackson County Records of Deeds, the said parcel being that portion of said property included in a strip of land 35 feet in width, lying on the southwesterly side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 391+57.16, said Station being 4929.75 feet South and 4952.71 feet East of the Southwest corner of Donation Land Claim No. 38, Township 38 South, Range 1 West, W. M.; thence North 43° 59' 50" West 1342.84 feet to Engineer's center line Station 405+00. The Southwesterly line of said strip of land intersects the Southerly and Northwesterly lines of said property approximately opposite Station 401+06 and Station 403+05, respectively.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 0.05 acre, more or less.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired an easement across the owner's real property for the purpose of realigning the channel of an irrigation ditch so that the said ditch will coincide with the widening, improvement and maintenance of the Medford-County Farm Section of the Pacific Highway, said easement being described as Parcel No. 2, as follows:

Parcel No. 2:

A strip of land 20 feet in width, extending Northwesterly 35 feet, more or less, from the South line of said Luse property, the Northeasterly and Southwesterly lines of said strip being 35 feet and 55 feet, respectively, Southwesterly of and parallel to the relocated center line of the Pacific Highway.

3. That in addition to the acquisition of fee simple title to and an easement across the above-described parcels of real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Medford-County Farm Section of the Pacific Highway and all of the contiguous real property of the owners, remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owner of the said remaining land, his heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the Pacific Highway of a width of

EXHIBIT "P-11" (cont.)

25 feet on the West side of said Pacific Highway, opposite Highway Engineer's center line Station 401+50.

b. A right of access to the Pacific Highway of a width of 25 feet on the West side of said Pacific Highway, opposite Highway Engineer's center line Station 402+52.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owner, his heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcels of property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of the said revised description.

7. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for

EXHIBIT "P-11" (cont.)

the best interests of the State, the State Highway Commission, or the property owner.

8. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 10th day of July, 1952.

EXHIBIT "P-12"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments there of or additions thereto, the State Highway Commission is authorized and empowered by acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Medford-County Farm Section of the said Pacific Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes; and

WHEREAS, the said Pacific Highway is a major highway of the state, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the widening, improvement and maintenance of the Medford-County Farm Section of the Pacific Highway, the following described real property, located in Jackson County, Oregon, to wit:

R-18669
Owner: L. C. Taylor, et ux

Parcel No. 1:

A parcel of land lying in Donation Land Claim No. 42 and Donation Land Claim No. 43, and situated in Section 15, Township 38 South, Range 1 West, W. M., Jackson County, Oregon, and being a portion of that property described in that deed to

(cont.)

EXHIBIT "P-12" (cont.)

L. C. Taylor and Doris A. Taylor, recorded in Book 233, Pages 451 and 452, of Jackson County Records of Deeds, the said parcel being that portion of said property included in a strip of land 35 feet in width, lying on the Westerly side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 305+00, said Station being 1027.72 feet South and 2244.39 feet East of the Northwest corner of said Donation Land Claim No. 43; thence North 36° 50' 50" West 1300 feet to Station 318+00. The Westerly line of said strip of land intersects the Southerly and Northerly lines of said property approximately opposite Stations 309+75 and 317+69 respectively.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 0.18 acre, more or less, outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Medford-County Farm Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the Pacific Highway of a width of 25 feet on the West side of the said Pacific Highway, opposite Highway Engineer's center line Station 316+20.

b. A right of access to the Pacific Highway of a width of 25 feet on the West side of the said Pacific Highway, opposite Highway Engineer's center line Station 317+24.

c. A right of access to the Pacific Highway of a width of 25 feet on the West side of the said Pacific Highway, opposite Highway Engineer's center line Station 313+50.

d. A right of access to the Pacific Highway of a width of 25 feet on the West side of the said Pacific Highway opposite Highway Engineer's center line Station 310+50.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired

(cont.)

EXHIBIT "P-12" (cont.)

right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

3. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired an easement across the owner's real property for the purpose of constructing and relocating the channel of a certain irrigation ditch so that said ditch will coincide with the widening of the said highway, said easement being hereinafter described as follows:

Parcel No. 2:

A parcel of land lying in Donation Land Claim No. 42 and Donation Land Claim No. 43, and situated in Section 15, Township 38 South, Range 1 West, W. M., Jackson County, Oregon, and being a portion of the following described property: That tract of land which was described in that certain deed to L. C. Taylor and Doris A. Taylor, recorded in Book 233, Pages 451 and 452 of Jackson County Record of Deeds, the said parcel being described as follows:

Beginning at a point on the Westerly line of Parcel No. 1 above, said point being opposite and 35 feet Westerly from Engineer's center line Station 310+85, as said center line is described in Parcel No. 1 above, and also being 481.57 feet South and 1770.32 feet East of the Northwest corner of said Donation Land Claim No. 43; thence North 36° 50' 50" West 30 feet along said Westerly line; thence South 53° 09' 10" West 20 feet; thence South 36° 50' 50" East 30 feet; thence North 53° 09' 10" East 20 feet to the point of beginning.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 600 square feet, more or less.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

(cont.)

EXHIBIT "P-12" (cont.)

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcels of real property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings, it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property or easement, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of the said revised description.

7. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 10th day of July, 1952.

EXHIBIT "P-13"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Medford-County Farm Section of the said Pacific Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes; and,

WHEREAS, the said Pacific Highway is a major highway of the state, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the widening, improvement and maintenance of the Medford-County Farm Section of the Pacific Highway, the following described real property, located in Jackson County, Oregon, to wit:

R-18418
Owner: W. H. Leverette, et al

Parcel No. 1:

A parcel of land lying in Lots 9 to 12, inclusive, of Pepper and Taylor Subdivision, situated in Sections 4 and 5, Township 38 South, Range 1 West, W. M., Jackson County,

(cont.)

EXHIBIT "P-13" (cont.)

Oregon, the said parcel being that portion of said Lots 9 to 12, inclusive, included in a strip of land 35 feet in width, lying on the Northeasterly side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 420+02.89, said Station being 2882.61 feet South and 2976 feet East of the Southwest corner of Donation Land Claim No. 38, situated in Township 38 South, Range 1 West, W. M., thence on a spiral curve right (the long chord of which bears North 43° 39' 50" West) 200 feet; thence on a 5729.58 foot radius curve right (the long chord of which bears North 42° 37' 35" West) 74.17 feet; thence on a spiral curve right (the long chord of which bears North 41° 35' 20" West) 200 feet; thence North 41° 15' 20" West 2038.24 feet; thence on a spiral curve right (the long chord of which bears North 40° 35' 20" West) 200 feet; thence on a 2864.79 foot radius curve right (the long chord of which bears North 38° 44' 28" West) 51.42 feet; thence on a spiral curve right (the long chord of which bears North 36° 53' 38" West) 200 feet; thence North 36° 13' 37½" West 333.28 feet to Engineer's center line Station 453+00. The Northeasterly line of said strip of land intersects the Southeasterly line of said Lot 12 and the Westerly line of said Lot 9 approximately opposite Station 424+75 and Station 452+34, respectively, containing 0.63 acre.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

Parcel No. 2:

A parcel of land lying in Lot 2, Pepper and Taylor Subdivision, situated in Sections 4 and 5, Township 38 South, Range 1 West, W. M., Jackson County, Oregon, the said parcel being that portion of said Lot 2 included in a strip of land 35 feet in width, lying on the Southwesterly side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 420+02.89, said Station being 2882.61 feet South and 2976 feet East of the Southwest corner of Donation Land Claim No. 38, Township 38 South, Range 1 West, W. M., thence on a spiral curve right (the long chord of which bears North 43° 39' 50" West) 200 feet; thence on a 5729.58 foot radius curve right (the long chord of which bears North 42° 37' 35" West) 74.17 feet; thence on a spiral curve right (the long chord of which bears North 41° 35" 20"

(cont.)

EXHIBIT "P-13" (cont.)

West) 200 feet to Station 424+77.06. The Southwesterly line of said strip of land intersects the Southerly line of said Lot 2 and the Westerly right of way line of the existing highway approximately opposite Stations 422+35 and 424+05, respectively, containing 0.02 acre.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Medford-County Farm Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the Pacific Highway of a width of 25 feet on the West side of said highway opposite Highway Engineer's center line Station 446+25.

b. A right of access to the Pacific Highway of a width of 25 feet on the West side of said highway opposite Highway Engineer's center line Station 445+50.

c. A right of access to the Pacific Highway of a width of 25 feet on the West side of said highway opposite Highway Engineer's center line Station 439+85.

d. A right of access to the Pacific Highway of a width of 25 feet on the West side of said highway opposite Highway Engineer's center line Station 437+20.

e. A right of access to the Pacific Highway of a width of 25 feet on the West side of said highway opposite Highway Engineer's center line Station 431+45.

f. A right of access to the Pacific Highway of a width of 25 feet on the West side of said highway opposite Highway Enfineer's center line Station 424+00.

g. A right of access to the Pacific Highway of a width of 25 feet on the East side of said highway opposite Highway Engineer's center line Station 448+73.

h. A right of access to the Pacific Highway of a width of

25 feet on the East side of said highway opposite Highway Engineer's center line Station 447+65.

i. A right of access to the Pacific Highway of a width of 25 feet on the East side of said highway opposite Highway Engineer's center line Station 446+25.

j. A right of access to the Pacific Highway of a width of 25 feet on the East side of said highway opposite Highway Engineer's center line Station 445+40

k. A right of access to the Pacific Highway of a width of 25 feet on the east side of said highway opposite Highway Engineer's center line Station 444+22.

l. A right of access to the Pacific Highway of a width of 25 feet on the East side of said highway opposite Highway Engineer's center line Station 435+00.

m. A right of access to the Pacific Highway of a width of 25 feet on the East side of said highway opposite Highway Engineer's center line Station 425+00.

3. That in addition to the acquisition of fee simple title to the real property above described, it is necessary that there be acquired easements across the owners' real property for the purpose of maintaining the slopes for said highway, and to construct and relocate the channel of a certain irrigation ditch sothat said ditch will coincide with the widening of the said highway, said easements being described as Tract A and Tract B, as follows:

Tract A:

A strip of land adjacent to and Northeasterly of the above described Parcel No. 1, said strip of land being 15 feet in width, extending from a line at right angles to the center line of the Pacific Highway at Engineer's center line Station 443+00 to a line at right angles to said center line at Station 440+00; and 10 feet in width from Station 440+00 to the Southerly line of Lot 12, Pepper and Taylor Subdivision, in Section 5, Township 38 South, Range 1 West, W. M., Jackson County, Oregon, and containing 0.45 acre.

Tract B:

A strip of land 15 feet in width adjacent to and Northeasterly of the above described Parcel No. 1, said strip of land extending from a line at right angles to the Engineer's

(cont.)

EXHIBIT "P-13" (cont.)

center line at Station 451+00 to the West line of Lot 9 of the Pepper and Taylor Subdivision, in Section 5, Township 38 South, Range 1 West, W. M., Jackson County, Oregon, and containing 0.05 acre.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of real property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings, it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property and easements, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property and easements, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of the said revised description.

7. That upon the trial of any suit or action instituted to acquire the said parcels of real property and easements, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 10th day of July, 1952.

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Medford-County Farm Section of the said Pacific Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes; and,

WHEREAS, said Pacific Highway is a major highway of the state, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the widening, improvement and maintenance of the Medford-County Farm Section of the Pacific Highway, the following described real property, located in Jackson County, Oregon, to wit:

R-18374
Owner: Medford Irrigation District, et al

A parcel of land lying in Donation Land Claim No. 42, situated in Section 15, Township 38 South, Range 1 West, W. M., Jackson County, Oregon, and being a portion of that property conveyed by that deed to Medford Irrigation District, recorded in Book 136, Page 176, of Jackson County Records of Deeds, the said parcel being that portion of

(cont.)

EXHIBIT "P-14" (cont.)

said property included in a strip of land 35 feet in width, lying on the Westerly side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 323+21.41, said Station being 490.68 feet North and 2840.46 feet East of the Southwest corner of said Donation Land Claim No. 42; thence North 38° 02' 25" West 178.59 feet to Station 325+00. The Westerly line of said strip of land intersects the Southerly and Northerly lines of said property approximately opposite Stations 323+26 and 324+45 respectively.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

2. That in addition to the acquisition of fee simple title to the above described real property it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Medford-County Farm Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the Pacific Highway of a width of 25 feet on the West side of said highway opposite Highway Engineer's center line Station 324+00.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of real property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings, it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized,

EXHIBIT "P-14" (cont.)

then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of the said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 10th day of July, 1952.

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the County Farm-Ashland Section of the said Pacific Highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes; and

WHEREAS, the said Pacific Highway is a major highway of the state, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the widening, improvement and maintenance of the County Farm-Ashland Section of the Pacific Highway, the following described real property, located in Jackson County, Oregon, to wit:

R-19265
Owner: Vetabelle Carter, et al

A parcel of land lying in Government Lot No. 7, situated in the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 31, Township 38 South, Range 1 East, W. M., Jackson County, Oregon, the said parcel being that portion of said Lot 7 lying Southerly of the existing highway right of way and Westerly of that tract of land conveyed to Ormae

(cont.)

EXHIBIT "P-15" (cont.)

Terry Coffee Bergren by deed recorded in Book 349, Page 359, of Jackson County Deed Records, and included in a strip of land of variable widths, lying on the Southwesterly side of the center line of the Pacific Highway, which center line is described as follows:

Beginning at Engineer's center line Station 79+00, said Station being 1252.0 feet South and 433.8 feet West of the North quarter ($N\frac{1}{4}$) corner of said Section 31; thence North 52° 46' West 400 feet to Station 83+00 at which point the Northwesterly line of said strip of land lies at right angles to said center line and also at which point said strip of land is coincident with the existing right of way. The Southerly line of said strip intersects the Westerly line of said Bergren tract approximately opposite Station 80+52.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Southerly Side of Center Line
79+00	83+00	Taper 120 to 75 feet

The parcel of land to which this description applies contains 0.17 acre outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said County Farm-Ashland Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the Pacific Highway of a width of 25 feet on the West side of said highway opposite Highway Engineer's center line Station 81+20.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to at-

EXHIBIT "P-16"

Minutes of July 10 and 11, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any right or interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, if by so doing the interest of the owner and the State will be best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the County Farm-Ashland Section of the Pacific Highway; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and

WHEREAS, said Commission is authorized to take fee simple title

(cont.)

EXHIBIT "P-16" (cont.)

to real property for the acquisition of a gravel pit site; and,

WHEREAS, the said Highway Commission is authorized to take fee simple title to said real property for right of way and other highway purposes, and, in addition, the Commission is authorized to acquire easements for right of way purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper widening, improvement and maintenance of the County Farm-Ashland Section of the Pacific Highway, the following-described real property, to-wit:

R 16543
Owner: Charles W. Koyl, et al

Parcel No. 1:

A parcel of land lying in the John Barrett Donation Land Claim No. 48, also in Sections 31 and 32, Township 38 South, Range 1 East, W. M., Jackson County, Oregon, and being a strip of land lying on each side of the center line of the Pacific Highway, which center line is described as follows:

Beginning at Engineer's center line Station 28+00, said Station being 921.7 feet North and 1661.1 feet West of the South quarter ($S\frac{1}{4}$) corner of said Section 32; thence on a 3819.72 foot radius curve left (the long chord of which bears North 50° 59' 30" West) 236.7 feet to Station 30+36.7; thence North 52° 46' West 4463.3 feet to Station 75+00, said center line crossing the South line of said Donation Land Claim No. 48 approximately at Station 30+49.

Said parcel is further described as follows: Beginning on the South line of said Donation Land Claim No. 48 at a point which is 90 feet Southwesterly of (when measured at right angles to) said center line; thence North 52° 46' West parallel to said center line, 232 feet, more or less, to a point opposite Station 34+00; thence North 37° 14' East, 30 feet; thence North 52° 46' West, 1430 feet, more or less, to the South line of that tract of land conveyed to Clifford C. Wyers and Virginia G. Wyers by deed recorded in Book 336, Page 387 of Jackson County Deed Records; thence Easterly along said South line to the most Easterly corner of said tract which corner lies in the Southwesterly right of way line of the existing

(cont.)

EXHIBIT "P-16" (cont.)

highway; thence North 52° 46' West, 820 feet, more or less, along said right of way line to the Easterly line of that tract of land conveyed to J. C. Ottinger and Gertrude Ottinger by deed recorded in Book 215, Page 7, of Jackson County Deed Records; thence Northerly along said Easterly line to a line which is parallel to and 80 feet Northeasterly of said highway center line; thence South 52° 46' East along said parallel line 625 feet, more or less, to the center line of Antelope Road (Valley View Road); thence Southerly along the center line of Antelope Road to a line which is parallel to and 60 feet Northeasterly of said highway center line; thence South 52° 46' East along said parallel line, 1620 feet, more or less, to a point opposite Engineer's center line Station 34+00; thence North 37° 14' East, 20 feet; thence Southeasterly parallel to and 80 feet Northeasterly of said center line, 450 feet, more or less, to the South line of said Donation Land Claim No. 48; thence West along said Donation Land Claim line to the point of beginning.

The parcel of land to which this description applies contains 7.31 acres, of which 5.16 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 2.15 acres lie outside of the existing right of way.

Parcel No. 2:

A parcel of land lying in the John Barrett Donation Land Claim No. 48, also in Section 31, Township 38 South, Range 1 East, W. M., Jackson County, Oregon, and being a strip of land 80 feet in width, lying on the Southwesterly side of the center line of the Pacific Highway, which center line is described in Parcel No. 1 above. Said strip of land extends Northwesterly from the Northerly line of that tract of land conveyed to J. C. Ottinger and Gertrude Ottinger by deed recorded in Book 215, Page 7, of Jackson County Deed Records, to the West line of said Donation Land Claim No. 48.

The parcel of land to which this description applies contains 0.46 acre, outside of the existing right of way.

Parcel No. 3:

A parcel of land lying in the John Barrett Donation Land Claim No. 48, also in Section 31, Township 38 South, Range 1 East, W. M., Jackson County, Oregon, and being a strip of land 60 feet in width, lying on the Northeasterly side of the center line of the Pacific Highway, which center line is described in Parcel No. 1 above. Said strip of land extends Northwesterly

(cont.)

EXHIBIT "P-16" (cont.)

from the Northerly line of that tract of land conveyed to J. C. Ottinger and Gertrude Ottinger by deed recorded in Book 215, Page 7, of Jackson County Deed Records, to the West line of said Donation Land Claim No. 48.

The parcel of land to which this description applies contains 0.32 acre, outside of the existing right of way.

2. The Commission does hereby find and declare that the acquisition of the real property hereinabove described as Parcels No. 1, 2 and 3, and the denial of access to the owners' remaining land from the said County Farm-Ashland Section of the Pacific Highway will result in depriving the owners of all means of access from that portion of their real property hereinabove described lying Southwesterly of and adjacent to the real property hereinabove described as Parcel No. 2, to any public highway and to the owners' remaining real property, and, therefore, that it is to the best interest of both the owners and the State of Oregon for the Highway Commission to acquire fee simple title to the defendants' entire tract of land lying Southwesterly of the Northeast boundary of the real property hereinabove described as Parcel No. 2, which said tract, in addition to that portion thereof described as Parcel No. 2, is described as follows, to wit:

Parcel No. 6:

A parcel of land lying in the John Barrett Donation Land Claim No. 48, also in Section 31, Township 38 South, Range 1 East, W. M., Jackson County, Oregon, the said parcel being bounded on the West by the West line of said Donation Land Claim No. 48, bounded on the Southwesterly and Southerly sides by the Northerly line of that tract of land conveyed to J. C. Ottinger and Gertrude Ottinger by deed recorded in Book 215, Page 7, of Jackson County Deed Records, and bounded on the Northeasterly side by a line which is parallel to and 80 feet Southwesterly of the center line of the Pacific Highway, containing 0.82 acre.

3. That in addition to the acquisition of fee simple title to the aforesaid described real property, the Commission does hereby find that the following described real property is necessary and required for the acquisition of a gravel pit to be used in connection with the proper construction and maintenance of state highways, which said real property is described as follows, to wit:

Parcel No. 5:

A parcel of land lying in the John Barrett Donation Land Claim No. 48, also in Section 31, Township 38 South, Range 1

East, W. M., Jackson County, Oregon, the said parcel being bounded on the Northeasterly side by the center line of Bear Creek, bounded on the East by Antelope Road (Valley View Road), bounded on the Southwesterly side by a line which is parallel to and 80 feet Northeasterly of the center line of the Pacific Highway, and bounded on the West by the Easterly line of that tract of land conveyed to J. C. Ottinger and Gertrude Ottinger by deed recorded in Book 215, Page 7, of Jackson County Deed Records, containing 1.03 acres.

4. That the Commission does further find and declare that it is necessary to acquire an easement across the following described parcel of real property for the purpose of realigning the channel of a certain creek, commonly known as Bear Creek, so that said creek will coincide with the widening, improvement and maintenance of the County Farm-Ashland Section of the Pacific Highway. The real property over which this easement is required is described as follows, to wit:

Parcel No. 4:

A parcel of land lying in the John Barrett Donation Land Claim No. 48, also in Section 31, Township 38 South, Range 1 East, W. M., Jackson County, Oregon, the said parcel being described as follows:

Beginning on the West line of said Donation Land Claim No. 48 at a point which is 180 feet Northeasterly of (when measured at right angles to) the center line of the Pacific Highway; thence South 52° 46' East, parallel to said center line, 500 feet, more or less, to a point opposite Engineer's center line Station 65+00; thence in a straight line to a point which is opposite and 250 feet Northeasterly of Station 61+00; thence South 27° 14' West, 180 feet, more or less, to the Northerly line of that tract of land conveyed to J. C. Ottinger and Gertrude Ottinger by deed recorded in Book 215, Page 7, of Jackson County Deed Records; thence Southwesterly 15 feet, more or less, along the Northerly line of said Ottinger tract to a line which is parallel to and 60 feet Northeasterly of said highway center line; thence North 52° 46' West, 800 feet, more or less, to the West line of said Donation Land Claim No. 48; thence North along said Donation Land Claim line to the point of beginning, containing 2.8 acres.

5. That in addition to the acquisition of fee simple title to the hereinabove described real property and the easement across the real property hereinabove described as Parcel No. 4, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said County Farm-Ashland Section

(cont.)

EXHIBIT "P-16" (cont.)

of the Pacific Highway, and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the Pacific Highway of a width of 25 feet on the North and South sides of the said Pacific Highway, opposite Highway Engineer's center line Station 38+90.

b. A right of access to the Pacific Highway of a width of 25 feet on the South side of the said Pacific Highway, opposite Highway Engineer's center line Station 39+84.

c. A right of access to the Pacific Highway of a width of 25 feet on the South side of the said Pacific Highway, opposite Highway Engineer's center line Station 41+00.

d. A right of access to the Pacific Highway of a width of 25 feet on the South side of the said Pacific Highway, opposite Highway Engineer's center line Station 43+22.

e. A right of access to the Pacific Highway of a width of 25 feet on the North side of the said Pacific Highway, opposite Highway Engineer's center line Station 42+00.

6. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

7. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

8. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property and easement, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description hereby is authorized to use such revised description in connection with the acquisition of said real property and easement, either by

agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of offer herein approved, which increase or decrease shall be justified be reason of said revised description.

9. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interest of the State, the State Highway Commission, or the property owners.

10. That this resolution be, and it hereby is, entered in the minutes and records of this Commission this 10th day of July, 1952.

Portland, Oregon
August 18, 1952

The State Highway Commission met in regular session at 9:00 a.m., Pacific Standard Time in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistand State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary in conformity with previously published notice, following which it was announced that the awarding of contracts would be made at 3:00 p.m., Pacific Standard Time, in the same room:

BAKER COUNTY
BAKER MAINTENANCE BUILDING

Loree Building Service, La Grande	$ 10,817.00
Witham Bros., Baker	11,886.73
Jensen & Mayes, Haines	13,571.00

BEAVER AMMUNITION STORAGE POINT IN COLUMBIA COUNTY
GRADING AND OIL MAT SURFACING PROJECT

John R. Saxton, Clatskanie	$ 32,110.50

WASHINGTON COUNTY
GRADE WIDENING AND PAVEMENT RESURFACING

Porter W. Yett, Portland	$ 9,394.00
Oregon Asphaltic Paving Co., Portland	10,492.00

The Commission unanimously approved the minutes of its meeting held on July 10 and 11, 1952.

August 18, 1952

The State Parks Superintendent reported on the following park matters:

1. Attendance in State Parks: The Parks Superintendent reported that the parks are becoming increasingly popular. The attendance records up to the last of July of this year were 3,468,979 people compared with an attendance last year of 2,473,000 people during the same period.

2. Proposed park at Bandon Beach: The Parks Superintendent submitted a comprehensive written report on this subject, including pictures and maps, and he recommended acquisition of two areas, one being a four-acre tract at Grave Point from which a splendid view of the ocean may be obtained, and the other being a 45-acre tract fronting on a beach at Crooked Creek, which is desirable for picnic and other recreational purposes. He particularly recommended acquisition of the Crooked Creek tract because of its suitability for general recreational purposes, and he advised that both areas will fit in nicely in the State Parks System. He requested authority for the Right of Way Department to negotiate options to acquire them. The Commission unanimously approved the recommendation, and thereupon authorized the Right of Way Engineer to negotiate options for purchase of both tracts.

3. Proposed purchase of Wilhoit Springs, Clackamas County, for State Park purposes: The Parks Superintendent recalled that the owners of this property appeared before the Commission at its previous meeting and offered to sell the property to the State for the sum of $35,000, but the offer was refused by the Commission as being too high. Since that time, he said, the owners have reduced their price to $31,000 and will reduce it an additional $1,000 if they are allowed to retain four small cabins located on the property. He suggested an investigation of the roadway leading to the property before the Commission takes definite action. The Commission decided definitely not to purchase the property at this time.

4. Proposed enlargement of Honeyman State Park: The Parks Superintendent reported an offer from Mr. James W. Ford, Jr., Gardiner, Oregon, to sell to the State 70 acres of timber land adjoining the present park, the price being $7,500. He said that the area lies on the west side of the Oregon Coast Highway and on the south side of the present park, that it contains a stand of approximately 1,000,000 feet of timber, the value of which he estimated is considerably in excess of the amount Mr. Ford is asking for the property. He recommended acceptance of the offer. Chairman Chandler stated his wish to inspect the property again before deciding. Accordingly, the Commission deferred action in the matter until its next meeting.

5. Proposal of the City of Gold Hill for establishment of a state park on the Rogue River at Gold Hill to be known as "Ben Hur Lampman" State Park: The Parks Superintendent recalled that this matter was discussed by the Commission at a previous meeting in connection with a right of way settlement, and that he was instructed to investigate the possibilities and desirability of establishing a state park at this location. The proposed site, he said, lies across the river from the City of Gold Hill and adjoins an existing city park, a portion of which is needed as right of way for the improvement of US 99 at this place.

He recalled the city's offer to deed to the State the city park which fronts on the Rogue River for about 1,700 feet, if the State will acquire the adjoining tract from the owner, Mr. Irwin Granger. He gave as his feeling that the Granger property can be purchased for about $3,500 and he recommended acceptance of the city's offer because there are no state park areas accessible to the river along this highway between Gold Hill and Grants Pass, and because the area will make a fine addition to the state park system. He also recommended that the park be named "Ben Hur Lampman" State Park in honor of a former newspaperman by that name who once edited the newspaper in Gold Hill and who endeared himself to the people of this vicinity by his writings, many of which related to outdoor life and to fishing in the Rogue River. The Commission unanimously approved both recommendations and thereupon authorized the Right of Way Engineer to negotiate the purchase of the Granger property.

6. Termination of the U. S. Government lease on one acre of land acquired by the State from Crown-Zellerback Corporation on Tillamook Head: The Parks Superintendent advised that the Federal Government several years ago in the establishment of a radar station at Tillamook Head obtained a lease from the Crown-Zellerback Corporation for one acre of land on which a pumping plant was installed. Since that time, he said, the State has acquired 50 acres of land at this location including the one-acre tract leased by the Government, but the Government is willing to give up its lease and has submitted a form of "release" for this purpose. He presented the "release" and recommended approval of the same. The Commission approved the recommendation. (The lease agreement was signed by the Commission later in the session.)

7. Status report on proposed state park at Eel Lake: The Parks Superintendent advised that he contacted the State Game Commission as instructed by the Commission at the previous meeting and ascertained that instructions had been given to the State Game Administrator to proceed with the salvaging of logs in this lake, and that the work is to be done as rapidly asppossible. although, in his estimation, it is going to take a considerable length of time to complete the operation. The Commission took no action in the matter however, in the discussion Chairman Chandler pointed out that there is a strong movement pending for establishment of a summer camp for crippled children at this place. The Parks Superintendent advised that he had some knowledge of this proposal and will keep in touch with the situation.

8. Offer of Mountain States Power Company to furnish electrical energy in Cape Lookout State Park: The Parks Superintendent advised that the company has agreed to extend its power line to this park at a cost of about $4,200, of which amount $1,000 will be assumed by a rancher in the vicinity, the balance to be paid by the State either in a lump sum or on a contractual basis at the rate of $335.76 per year for a period of five years, as a minimum charge, after which time, payments to the company shall be for power used only. He recommended approval of the second arrangement. The Commission approved the recommendation unanimously. (An agreement covering the matter was signed by the Commission later in the session.)

9. Construction of a wading pool at Sunset Bay State Park for the benefit of children: Chairman Chandler brought this matter up for discussion and suggested that it would be a convenience if such a wading pool were provided. The Parks Superintendent was instructed to investigate the matter.

The Right of Way Engineer presented for the Commission's consideration options that he has obtained for acquisition of real property that is needed as right of way for various highway improvements throughout the State and for other purposes. As a result of careful consideration, the Commission approved the options as presented and authorized the Right of Way Engineer to close them at the prices mentioned therein. The attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission by unanimous vote.

The following footnotes have reference to items appearing in EXHIBIT "A" mentioned in the foregoing paragraph:

FOOTNOTE 1: Purchase of right of way for the West Portland-Harbor Drive Expressway: The Commission approved the closing of all of the options listed for this section of highway, notwithstanding that the survey of this section is not yet completed, it being understood that the purchase of properties shall be limited to such properties that are void of buildings and where there is no doubt about the location of the highway.

FOOTNOTE 2: Acquisition of gravel site for use in connection with construction of the Benton County Line-Cheshire Section of the Territorial Highway--Item No. 19206: The Commission approved the securing of a two-year lease for use of this gravel site at a consideration of 10 cents per cubic yard for materials taken therefrom. In the discussion the Commission questioned the advisability of paying 10 cents per cubic yard for the material, but approved the same upon the recommendation of the Right of Way Engineer and the State Highway Engineer who advised that the price of 10 cents has been established in commercial plants operating in this vicinity and that it would cost more than the price of gravel to ship it in from outside points. (A ground lease agreement was signed by the Commission later in the session.)

The Right of Way Engineer requested authority to negotiate purchase of right of way for the following projects for which, he said, no specific authority previously has been granted.

County and Section	Highway
COLUMBIA Inglis-Beaver	Beaver Access Road

COOS
Coquille Maintenance Shops

MORROW
Morgan-Heppner (Maint. Site) Heppner

POLK
Brunks Corner Salem-Dallas No. 30

The Commission approved the request unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission unanimously confirmed sales of miscellaneous properties as reported by the Right of Way Engineer. (For a list of the properties sold, see copy of report prepared by Mr. C. W. Parker, Property Manager, dated August 18 and 19, 1952, on file in the Secretary's office under the heading "Miscellaneous Sales".)

The Right of Way Engineer recommended payment of an additional amount of $111.77 to Mr. C. D. Burt, house moving contractor, in connection with his moving of a maintenance shed owned by Clatsop County in order to make a highway improvement. He explained that the arrangement with Mr. Burt called for a payment of $2,115, but after the shed was moved, it was discovered that additional pipe and trenching across the highway would be needed in order to provide water service which work Mr. Burt performed as an extra item at a cost of $111.77. The Commission unanimously approved the payment of such sum.

The Right of Way Engineer requested authority from the Commission to renew a certain ground lease acquired from Mr. and Mrs. Frank Oliver in the Northwest Quarter (NW$\frac{1}{4}$) of Section 30, Township 13 South, Range 32 East, W. M., Grant County. He explained that the present lease expired on July 20, 1952, and it is proposed to renew it for a one-year period ending July 20, 1953, on the basis of the original lease. The Commission approved the request unanimously. (A lease agreement covering the subject was signed by the Commission later in the session.)

The Commission also considered, and upon recommendation of the Right of Way Engineer, unanimously approved renewal of a lease with the City of Tualatin providing for a maintenance stock pile site on the Beaverton-Aurora Highway at this place. (The lease was signed by the Commission later in the session.)

The Commission considered purchase of 3.95 acres of land from the Northern Pacific Railroad Company as an addition to the Boardman Oasis in Morrow County. The Right of Way Engineer explained that it recently has been discovered that this small park encroaches on non-operating railroad property and in order to correct the situation, the Railroad Company has agreed to deed this small tract to the State for the sum

of $50 provided payment of the purchase price is made in full prior to delivery of the deed. He recommended approval of the purchase of the property on the basis of the Railroad Company's requirements. The Commission approved the recommendation unanimously.

The Right of Way Engineer brought up for discussion a claim presented by Mr. J. A. Robbins for damages that occurred to his property by reason of the cutting of timber located thereon during construction of the Hood River-Mosier Section of the Upper Columbia River Highway. He explained that the highway construction required the temporary rerouting of the Union Pacific Railroad tracks and the pole line of the Western Union Telegraph Company, and when the work was done, it was believed that the property on which these facilities were moved belonged to the Railroad Company; however, it subsequently developed that much of the land on which the temporary facilities were placed was privately owned by Mr. Robbins who has submitted a claim for damages on account of trespass. As a result of negotiations, he said, Mr. Robbins has agreed to waive all claims if paid the sum of $500. The Right of Way Engineer recommended settlement on such basis. The Commission approved the recommendation.

The Commission had under discussion the bid received in Salem on August 4, 1952 from Mr. Forrest L. Meuret for purchase of property located in the Cove State Park, Jefferson County, which was the only bid received. Mr. Meuret offered a total price of $271 for the 23.8 acres involved, whereas the advertisement calling for the bids stated specifically that no bid would be considered for an amount less than $2,816.00. The Parks Superintendent and Right of Way Engineer both recommended that Mr. Meuret's proposal be denied and that the property be withdrawn from sale. The Commission approved the recommendation unanimously and so ordered.

The Commission discussed and upon recommendation of the Right of Way Engineer, unanimously approved a change in the point of access heretofore granted Oscar and Evelyn Jones on the Forest Grove Section of the Wilson River Highway Connection, in Forest Grove. (An "Indenture of Access" covering the matter was signed by the Commission later in the session.)

The Right of Way Engineer brought up for discussion the sale of an old maintenance site on the Oregon Coast Highway at Port Orford, Curry County, described as the North Half ($N\frac{1}{2}$) of Lot 3, Block 66, plat of Port Orford. He explained that the property is of no further value for State Highway purposes and that the building located on this property is badly in need of repairs. He gave as his feeling that the property could be sold at a minimum price of $2,500 and requested authority to advertise it for sale at not less than such amount. The Commission approved the request and thereupon by unanimous vote adopted the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer requested authority to advertise the sale of a small parcel of Highway Department property located in the City of Florence, described as that part of Lots 9 and 10 in Block 9 of the original Town of Florence, lying easterly of a line parallel to and 70 feet easterly of the center line of the Oregon Coast Highway. He explained that the Elks Lodge of Florence owns adjacent property on which it plans to erect a building and that the State's property is desired for landscaping and parking purposes only, in connection with the activities of the Elks Lodge. He recommended that the property be sold as a result of competitive bidding for a sum not less than $4,000 with complete restriction of access to the Oregon Coast Highway. The Engineer concurred in the recommendation. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer reported receipt of an offer from Mr. E. J. Johnson, Florence, to purchase for the sum of $125, a parcel of State-owned land in Florence, described as Lot 12, Block 43, Gallagher's Addition to the City of Florence. He recommended sale of the property at such figure with complete restriction of access to the highway. The Engineer concurred. The Commission approved the recommendation unanimously.

The Right of Way Engineer presented for the Commission's consideration a "Memorandum of Agreement" with the First National Bank of Portland, Oregon, trustee, in which provision is made for encroachment of a State Highway building on certain property belonging to a Doctor Hendricke, Portland situate adjacent to Unit No. 2 of the T. H. Banfield Expressway, as a temporary proposition until such time as the construction of this highway unit is undertaken, but in no event longer than December 31, 1955. The Commission approved the arrangement unanimously. (The "Memorandum of Agreement" was signed by the Commission later in the session.)

The Commission had under discussion a request from the City of Coos Bay to lease excess right of way along the water front in the City of Coos Bay between Market Avenue and Ferry Street, which property is desired by the City in connection with the operation of a floating dock along the harbor line in this area. The Right of Way Engineer exhibited a map showing the location of the property, and he advised that the City wants to use it for a period of four years. He explained further details. In the discussion of the matter, Chairman Chandler recalled negotiations with the City several years ago when right of way was being acquired for the improvement of the Oregon Coast Highway through this City, and he mentioned particularly that the City at that time agreed to pay the State for the excess property at the same rate that the State paid for it; however, he said, it now appears that the City's attitude has changed. He expressed himself as being opposed to granting a lease for use of the property, and gave as his thought that, if the City wants it, it should pay for it in accordance with the original understanding. Commissioners Reynolds and McIver concurred in the view-

point of Chairman Chandler, and thereupon the matter was referred back to the Right of Way Engineer with instructions to negotiate further with the City on such basis.

The Engineer requested authority for the Right of Way Department to negotiate the purchase of 1.3 acres of land lying adjacent to and immediately south of the Maintenance Headquarters in Baker, Oregon, so as to provide additional space for storage purposes. He explained that because of the expansion of the Department over a period of years, the storage facilities at Baker are being over-taxed, the building and grounds being inadequate for the storage of materials, supplies, and equipment. He estimated the value of the property desired at $700. The Commission approved the request unanimously and so ordered.

The Engineer also brought up for discussion the advisability of acquiring additional property from the State Board of Control as an addition to the Highway Shop property in Salem. He recalled that sometime ago the Commission acquired 12 acres at this place and that during the negotiations for the purchase of this tract, the Board was asked to give the Highway Department first consideration for the purchase of an additional 4.9 acre tract which is surrounded by other Highway property, the 4.9 acre tract being under lease to the U. S. Army until 1962. It appears now, he said, that the property is not being used by the Army and, in view thereof, he recommended that authority be granted to the Right of Way Department to negotiate the purchase of the property from the Board of Control, subject to the Army's lease, at an estimated cost of $2,000. The Commission approved the request unanimously.

The Commission discussed a complaint received from a Mr. and Mrs. Earl R. Marsh who allege that when the Portland-Estacada Highway was constructed, a portion of their land adjacent thereto was taken by the State as right of way, and that they have received no compensation for this land. The Right of Way Engineer explained that, because of a mistake in an old land survey at this place, a question has arisen as to the property lines. If an encroachment exists, he said it is a very small one, and because of its minor nature, he suggested that the Commission deny any claim that the Marshes may present and let the courts decide the issue unless perchance a reasonable settlement can be reached out of court. The Commission reserved its decision in the matter pending discussion with Mr. and Mrs. Marsh who are scheduled to be present on the following day. (See additional paragraph ahead.)

The Right of Way Engineer reported a request from the U. S. Bureau of Public Roads for a change in the access point heretofore granted Mr. and Mrs. W. K. Deal on the Forest Boundary-Hauser Section of the Oregon Coast Highway, Coos County, from Station 149.00 to Station 148.80 where the approach to the highway will be much safer because of longer sight distance. He recommended approval of the request. The Commission approved the recommendation. (An "Indenture of Access" was signed by the Commission later in the session.)

The Right of Way Engineer recommended additional changes in access points as follows

(1) Change in access to the Pacific Highway from property owned by Mr. Robert E. Rice on the Calapooya Creek-Sutherlin Section, Douglas County, Right of Way File No. 18874.

(2) Change in access to the Forest Boundary-Hauser Section of the Oregon Coast Highway, Coos County, from property owned by a Mr. Dodds, Right of Way File No. 18211

He recommended approval of the changes. The Commission approved the recommendation unanimously.

The Right of Way Engineer reported a proposed settlement with a man by the name of Moss concerning construction of a well in connection with a right of way settlement on the Milton-Freewater Section of the Oregon-Washington Highway, Umatilla County, Right of Way File No. 10578. He explained that sometime ago when this section of highway was constructed, right of way was acquired from Mr. Moss, and as partial consideration, it was agreed that the State would replace a well that was located on the right of way. It now appears that to fulfil this part of the agreement, it will be necessary to purchase a special type pump, which is very costly. However, Mr. Moss has agreed to relieve the State of further obligation if paid the sum of $1,635 He recommended approval of such settlement. The Commission approved the recommendation.

The Commission discussed and, upon recommendation of the Right of Way Engineer, approved a settlement with the Union Pacific Railroad Company for acquisition of right of way needed for the Boardman-Irrigon Section of the Old Oregon Trail, Morrow County. Consideration $730.

The Right of Way Engineer reported a compromised settlement with the City of Corvallis as follows for right of way needed for the North Corvallis Section of US 99W: The City is to deed to the State 7.5 acres of land valued at $3,750 across the westerly part of a tract that the City proposes to use as a sewage disposal and shop area. The City is also to deed to the State its present used shop area which is valued at $15,000, representing a total value of $18,750. The State is to reimburse the City in an amount of $9,000 for acquisition of a tract situate northerly from the City's sewage disposal and maintenance site, and the State is also to give the City a bill of sale gratis for a house that the State now owns on the highway right of way easterly from Third Street, which house is valued at $3,000. In other words, by this transaction, the State acquires from the City certain property valued at $18,750, and the City receives from the State property valued at $12,000. The Commission unanimously approved the settlement.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way or for other purposes, in connection with various highway improvements, and to tender offers for the same in conformity with instructions given him in the resolution that was adopted by the Commission at its meeting on December 20, 1951.

Unit No. 2 Section of the T. H. Banfield Expressway		Recommended Offer
R 15872 - Walnut Park Company (A Fred Meyer Ownership) Right of Way (Multnomah) 1305 square feet		$ 900.00
R 15873 - Yamhill Street Corporation (A Fred Meyer Ownership) Right of Way (Multnomah) 2.319 acres at $25,291.82 per acre, or 101,016 square feet at $0.50 per square foot	$50,508.00	
Allowance for damage to remainder by reduction of the plottage from 130,591 sq. ft. to 29,575 sq. ft. 1/2 value of 29,575 sq. ft. at $0.50 per foot	7,393.75	
Allowance for store rental buildings	750.00	
	$58,651.75	$58,700.00
Unit No. 3 Section of the T. H. Banfield Expressway		
R 14887 - Emery B. Kelley (Right of Way) (Multnomah County) Land: 5,000 sq. ft. at $0.12 per sq. ft.	$ 600.00	$ 800.00
Unit No. 5 Section of the T. H. Banfield Expressway		
R 19176 - Anton Bergsvick, et ux. Right of Way (Multnomah) 0.27 acre		
Value before taking	$24,000.00	
Value after taking	19,000.00	
Value of taking	5,000.00	$ 5,000.00
R 19177 - Melvin E. Abbott, et al. Right of Way (Multnomah) 0.273 acre		
Before taking	$12,600.00	
After taking	11,072.40	
The taking	$ 1,527.60	$ 1,530.00
R 19179 - Steve Calcagano et ux. Right of Way (Multnomah) 0.417 acre		*

Unit No. 5 Sec. of the T. H. Banfield Expressway (cont.)		Recommended Offer
R 19209 - Michael J. Burns Heirs		
Borrow Pit (Multnomah)		
Land: 13.17 acres at $1,100	$14,487.00	
Fencing, 126 rods at $5	630.00	
Loss of land to provide for a road 0.62 acre at $1500	750.00	
450 yards of fill material for road at $2	900.00	
	$16,767.00	$16,770.00
Boones Ferry Road-Marion County Line Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway		
R 19220 - M. W. Pennington et ux.		
Right of Way (Washington)		
0.76 acre		*
R 19221 - Callie B. Heider		
Right of Way (Washington)		
5,100 square feet or 0.12 acre		*
R 19222 - Leo Schuemmer, et ux.		
Right of Way (Washington)		
0.20 acre		*
North Corvallis Section of the Pacific Highway West		
R 14621 - James G. Johnson		
Right of Way (Benton)		
0.60 acre	$ 900.00	
Cost of rerouting septic tank drain field	100.00	
Concrete parking slab	68.40	
	$1,068.40	$ 1,075.00
R 15194 - Thomas Henry Paul Ireland		
Right of Way (Benton)		
1.37 acres		$ 2,075.00
R 17978 - J. A. Gallagher, et ux.		
Right of Way (Benton)		
Parcel No. 1: 1,326 sq. ft. at 20 cents a sq. ft.	$ 265.20	
Parcel No. 2: 0.2 acre, valued as a moorage site	1,000.00	
	$ 1,265.20	$ 1,275.00
R 17987 - T. J. Starker		
Right of Way (Benton)		
77,700 sq. ft. at 12 cents sq. ft.	$ 9,324.00	$ 9,350.00

County Farm-Ashland Section of the Pacific Highway	Recommended Offer
R 17714 - J. C. Ottinger, et ux. Right of Way (Jackson) 2.61 acres	*
R 19379 - Sam K. Pollard, et ux. Right of Way (Jackson) Parcel No 1: 0.35 acre Parcel No. 2: 0.08 acre	*
R 19380 - The Federal Land Bank of Spokane Right of Way (Jackson) 0.05 acre	*
R 19381 - O. H. Adams Right of Way (Jackson) 0.06 acre	*
R 19383 - Frank D. Vetter Right of Way (Jackson) 0.06 acre	*
R 19385 - Eugene Thorndike Right of Way (Jackson) 0.10 acre	*
Miner Creek-Fogarty Creek Unit of the Siletz Bay-Newport Section of the Oregon Coast Highway	
L 1485 - Wilbur F. Badley, et ux. Right of Way (Lincoln) 29.65 acres	*
Willamette Highway, The Dalles-California Highway and the East Diamond Lake Highway	
L 1734 - St. Helens Pulp and Paper Company Klamath Parcel No. 1: 19.97 acres for cinder pit Parcel No. 2: 1.72 acres for haul road	*

The Commission approved the request unanimously by adoption of the attached resolutions relative thereto, marked EXHIBITS "M-1" through "M-14" inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

FOOTNOTE * Offer to be made in conformity with provisions of resolution adopted by the Commission at its meeting on December 20, 1951.

State Senator Howard Belton, Clackamas County, appeared before the Commission in behalf of the Clackamas County Federation of Community Clubs and urgently requested the Commission to authorize installation of a traffic signal on S. E. 82d Avenue, Portland, (Cascade

State Secondary Highway) at Johnson Boulevard for the benefit and protection of the many school children who are obliged to cross this highway daily going to and from Battin school. He was informed that the subject is one of the items on the Agenda for discussion by the Commission at this meeting, and that he will be informed when action has been taken in the matter. (See ahead for additional paragraph and approval of installation by the Commission.)

The Chief Counsel submitted a written report on the following condemnation actions:

(1) State vs. Neoma Morton, et vir, File No. L 1487: This case involves acquisition of two lots in Klamath Falls needed as right of way for the Klamath Falls-Malin Highway. Amount of State's offer was $200. The jury in this case rendered a verdict in the sum of $200, and, in addition thereto, the court allowed interest upon the verdict at the rate of 6 percent from July 3, 1947 when the State took possession of the property, which interest amounted to $60. The Commission approved the settlement.

(2) State vs. Charles D. Harter, et ux, Legal File No. L 1771: This case involves acquisition of 0.88 acre of land needed as right of way for the T. H. Banfield Expressway, Portland. Amount of State's offer was $2,800, whereas the defendants demanded $15 350 for the property including $1,000 attorney's fees. The Chief Counsel advised that the jury in this case rendered a verdict in the amount of $5,000; however the court allowed attorney's fees in the amount of $650 additional. He predicted that the case would be appealed. The Commission approved the report.

The Chief Counsel also reported settlement of the following cases:

(1) State vs. Alfred E. Hoffmeister, et ux, Legal File No. L 1890: This case involves acquisition of 5.4 acres of land needed as right of way for the Oakland Junction-Deady Section of the Pacific Highway in Douglas County. Amount of State's offer $6,150. The owners demanded $10,000. As a result of negotiations, the owners have agreed to accept the State's offer provided the State will fence right of way adjacent to their remaining property which is estimated to cost $300. The Commission approved such settlement.

(2) State vs. Morton E. Post, et ux, Legal File No. L 1881: This case involves acquisition of 1.51 acres of land needed as right of way for the Forest Boundary-Hauser Section of the Oregon Coast Highway, Coos County. State's offer was in the amount of $400, compared with the owners' demand of $1,400. As a result of negotiations, settlement was reached for the sum of $500. The Commission approved the settlement.

(3) State vs. Violet N. Kirschner, Legal File No. 1876: This

case involves acquisition of 0.82 acre of land needed for the Tigard-Tualatin River Unit of the Tigard-Newberg Section of US 99W, Washington County. The State's offer was $550; the owners demanded $800. As a result of negotiations through the owner's attorney, settlement was effected at $600. The Commission approved the settlement.

(4) State vs. Michael Crow, Legal File No. 1883: This case involves acquisition of 0.7 acre of land needed as right of way and 2.3 acres of land needed as a gravel site in connection with construction of the Lostine Section of the Wallowa Lake Highway, Wallowa County. State's offer $510, whereas prior to commencement of condemnation action, the owners refused to sell their property at any price; however, subsequent to the starting of the condemnation proceedings, the owners accepted the State's offer on condition that they reserve the right to remove the existing fence located on the property being acquired if such removal does not interfere with highway construction. The Commission approved the settlement.

(5) State vs. City of Lostine, et al, Legal File No. L 1884: This case involves acquisition of 0.82 acre of land needed as right of way and 1.54 acres of land needed as a gravel site in connection with construction of the Lostine Section of the Wallowa Lake Highway, Wallowa County. The State's offer was $350, whereas prior to commencement of condemnation action the City refused to sell at any price; however, subsequent thereto, the City agreed to accept $620 for the property which is on the basis of $350 for the land and $270 for fencing. The Commission approved the settlement.

(6) State vs. W. P. McBee, et ux, Legal File No. L 1846: This case involves acquisition of 13.236 acres of land needed as right of way for improvement of the Newport-Toledo Section of the Corvallis-Newport Highway, also acquisition of an easement on 2.14 acres of land for changing the channel of Beaver Creek. Amount of State's offer was $6,144. Amount of the owners' demand prior to condemnation action was $10,000. As a result of negotiation, settlement was reached at $8,000. The Commission approved the settlement.

The Commission discussed and unanimously confirmed offers reported by the Chief Counsel as follows for acquisition of real property that is needed for various highway purposes which offers were tendered to the owners prior to institution of condemnation proceedings in conformity with authority granted by the Commission in its resolution adopted December 20, 1951:

Medford-County Farm Section of the Pacific Highway

R-19163 - Owner: A. H. Dudley, et ux. 1,332 square feet for right of way. Amount of offer $2,000. Authorized by Chairman Chandler on August 6, 1952.

R-19141 - Owner: D. E. McClurg, et ux. 0.15 acre for right of way. Amount of offer $1,700. Authorized by Commissioner McIver on August 15, 1952.

Medford-County Farm Section of the Pacific Highway (cont.)

R-19166 - Owner: Dan H. Adams, et ux. 186 square feet for right of way. Amount of offer $100. Authorized by Commissioner McIver on August 15, 1952.

R-18418 - Owner: W. H. Leverette, et ux. 0.65 acre for right of way and 0.65 acre for slope easement and channel change. Amount of offer $3,000. Authorized by Commissioner McIver on August 15, 1952.

Gold Hill (Rock Point-Blackwell Hill) Section of the Pacific Highway

R-19086 - Owner: David H. Sawyer, et al. 1.76 acres for right of way. Amount of offer $3,000. Authorized by Chairman Chandler on August 6, 1952.

Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway

R-19105 - Owner: Elton L. Grass, et al. 4.38 acres for right of way. Amount of offer $4,500. Authorized by Chairman Chandler on August 6, 1952.

R-19098 - Owner: L. L. Bewley, et ux. 15.35 acres for right of way and 3.15 acres for excess taking. Amount of offer $3,560. Authorized by Chairman Chandler on August 6, 1952.

R-19101 - Owner: Stella H. Booth, et al. 66.06 acres for right of way, 2.1 acres for approach or connecting roads, and approximately 6.16 acres for easements for channel changes. Amount of offer $30,000. Authorized by Chairman Chandler on August 6, 1952.

Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway

R-18247 - Owner: George C. Lesher. 0.08 acre for right of way. Amount of offer $1,600. Authorized by Chairman Chandler on July 21, 1952.

R-18230 - Owner: William Ruder, et ux. 3 acres for right of way. Amount of offer $300. Authorized by Commissioner Reynolds on July 18, 1952.

R-18814 - Owner: Al Peirce, et ux. 70 acres for right of way. Amount of offer $6,500 plus $10 per thousand for timber. Authorized by Chairman Chandler on June 30, 1952.

R-18245 - Owner: Laura Withrow, et al. 2.68 acres for right of way. Amount of offer $1,072. Authorized by Chairman Chandler on July 28, 1952.

The Commission discussed a written report from the Chief Counsel, dated August 13, 1952, concerning a proposed extension of the west-bound route of the Santiam Highway in the City of Lebanon through a cemetery that is now blocking the completion of this project. In his report, the Chief Counsel recalled that the Commission at its meeting on January 31, 1952 made a definite commitment to extend the highway on the proposed route if the City of Lebanon would acquire the necessary right of way through the cemetery. He also advised that subsequent to this commitment negotiations were carried on with the City officials and an arrangement was effected for the securing of the right of way through the cemetery subject to satisfactory consummation of legal features involved In his report, the Chief Counsel also outlined a procedure to be followed in order to dispose of the cemetery problem, and he recommended that the City be required to follow through with such a procedure because the City has more authority than has the State with respect thereto, and that when the City has obtained as clear a title to the cemetery as is possible and has caused the cemetery to be vacated, that the State pay the cost involved in the removal of the graves that are within the right of way which he estimated would amount to about $3,000. (For details see copy of the Chief Counsel's report in the General Files.) This matter was discussed by the Commission at considerable length, and as a result thereof, the Commission voted unanimously to proceed with the proposed improvement if and when the City of Lebanon acquires right of way through the cemetery property, and the Commission also agreed unanimously to reimburse the City for the cost of removing the graves from the right of way. The Chief Counsel was instructed to inform the City accordingly.

The Chief Counsel requested authority to conduct specific performance suits to enforce performance of options given the State by the following parties:

(1) Suit against J S and Hilda Chambers to require conveyance to the State of 1 5 acres of land needed as right of way for the Ontario Spur Section of the Old Oregon Trail. Amount involved $2,775.00.

(2) Suit against Julius and Neva Siller for acquisition of 2.66 acres of land needed as right of way for the Clear Lake-Forest Boundary Unit of the Winchester Bay-Forest Boundary Section of the ~~Old~~ Oregon Coast Highway, Douglas County

The Commission approved the request unanimously

A status report was rendered by the Chief Counsel on the Commission's proposed settlement with the Union Pacific Railroad Company of the State's claim against the company in the amount of $24,345 40, and the company's claim against the State in the amount of $41,897 87 arising out of slides that occurred on the Upper Columbia River Highway The Chief Counsel advised that the Railroad Company has accepted a compromised arrangement whereby each party is to assume 50 percent of the total amount of both claims, which will result in payment by the State to the Company of the sum of $8,776.24. The Commission approved the report

The Commission discussed and upon recommendation of the Chief

Counsel and the Engineer unanimously approved settlement of the claim of Eva M. Beale, et al, for additional damages which they allegedly suffered in the loss of business resulting from the moving of a building in which they were operating a tavern business, from right of way that was acquired by the State for the Ladd Canyon Section of the Old Oregon Trail. The amount involved in the settlement is $1,000 which the complainants have agreed to accept as settlement in full for their loss.

The Commission confirmed authority heretofore given the Chief Counsel to offer to Mr. Chester Blum, et ux, the sum of $1,700 as settlement in full for damages which they allege occurred to their property as a result of a slide on the Stout Creek-Mill City Section of the North Santiam Highway, including an easement to stabilize the slide area. (For details see copy of Chief Counsel's written report on this subject to the Commission dated August 7, 1952 in the General Files.)

The Chief Counsel brought to the Commission's attention the need for the Commission to adopt a resolution amending the resolution heretofore adopted on April 12, 1951 approving the final survey of the Mosier-The Dalles Section of the Columbia River Highway in Wasco County and of the Salem By-Pass Section of the Pacific Highway East, north of State Street in Marion County, in order to meet the requirements prescribed by the Throughway Law for establishing highways as throughways. He explained that the survey of each of these two highway sections was adopted by the Commission prior to the preparation of the standard form of throughway resolution, and in order to properly establish them as throughways, it is necessary for the Commission to adopt a new resolution amending the earlier one. He presented a form of resolution covering the matter. The Commission by unanimous vote adopted the resolution, a copy of which is attached hereto, marked EXHIBIT "E", and by this reference is made a part hereof with like effect as though extended in full herein.

The Chief Counsel presented for the Commission's consideration a proposed bill to be submitted to the 1953 legislature, in which authority is granted to the Oregon State Land Board to dispose of materials deposited upon the ocean beach from whatever cause, and providing a procedure to be followedin connection therewith. The Commission approved the bill and authorized the Chief Counsel to present it to the Legislative Highway Interim Committee.

The Commission confirmed telephonic authority heretofore given Mr. Frank I. Towle, of the Legal Department, to go to Walla Walla, Washington. to interview Army Engineers concerning the case of Strasbaugh vs. Chandler, et al. Expense involved $22.

The Engineer reported a compromised arrangement with the Board of County Commissioners of Multnomah County relating to the construction of an underpass at 132d Avenue on the T. H. Banfield Expressway to accomodate a future county road. He stated that the members of the Board have withdrawn the major portion of their demands relating to this structure on the condition that if and when a north and south arterial is

necessary to meet the demands of traffic at or near 132d Avenue, the State will share the cost of constructing that portion of the new road within the limits of the state highway right of way, the County to assume all costs relative to the construction of the underpass under the Union Pacific Railraod tracks. He estimated the total cost of such facility at about $190,000, of which the State's portion, he said, will be approximately $65,000, the County's share $125,000. He gave as his belief that the arrangement is a fair one, and he recommended approval of the same. The Commission approved the recommendation. (An agreement with the Board of County Commissioners covering the matter was signed by the Commission later in the session.)

The Commission discussed and denied a request from the Walla Walla Chamber of Commerce for a study and survey of the Lincton Mountain Road in Umatilla County as the permanent route of the Weston-Elgin Highway. It was the feeling of the Commission that the present route should be generally followed as a convenience for the people residing along this highway who go to Weston enroute to points south and west, and for whose benefit the present road would have to be maintained regardless of the construction of the other. It was also the considered opinion of the Commission that the expense of constructing the Lincton Mountain route is not justified by the small amount of traffic that would use it.

The Commission discussed and denied a request from the Portland City Council, Portland Housing Authority, and Portland Planning Commission for state cooperation in improving N. W. Thurman Street as the route of the Lower Columbia River Highway in connection with the City's Vaughn Street development project. The Engineer advised that according to the Housing Authority the proposed improvement will cost about $860,000. He gave as his feeling that the State will not benefit by the change, and he recommended that the request be denied. The Commission approved the recommendation. (This matter was discussed with a delegation representing the City, which was present on the following day.)

A letter was presented from Mr. J. D. McLaughlin Portland, in which he points out what he alleges is a dangerous traffic condition that exists at the junction of US 99E and US 99W at Junction City, and in which he recommends that immediate corrective measures be taken. The Engineer advised that this matter has been investigated, and it has been determined that the signs at the junction are appropriate so, if people pay proper attention to them, there should be no danger of entering the intersection with out additional warning He gave as his opinion that the junction is properly marked and requires no additional signs. The Commission approved the report.

A request was presented from the Culver Chamber of Commerce for establishment of a State Secondary Highway extending easterly from the town of Culver to a connection with the Madras-Prineville State Secondary Highway so as to provide a shorter route of travel from Culver to Prineville. The Engineer advised that the proposed road will shorten the distance from Culver to Prineville about 5.6 miles.. He gave as his considered opinion that the cost of constructing such road is not justified nor warranted by the traffic that would

use it. He mentioned also that a delegation will be present on the following day to request the road in person, and to ask the Commission to authorize a fact-finding survey which, he said, will cost approximately $2,000. He recommended that the request be denied. The Commission approved the recommendation. (See additional paragraph ahead.)

The Engineer reported the results of receiving bids in Salem on July 29, 1952 for the purchase of an assortment of used equipment and scrap materials stored at the Highway Shops in Salem. He presented a list of the high bids received for the materials offered for sale, and he pointed out that the aggregate amount of the offers exceeds the estimated value of the material by $4,229.85. He recommended acceptance of the high bid in each instance except that the bids received for the purchase of scrap steel be refused as being too low. The Commission approved the recommendation unanimously. (For details see tabulation of bids filed in the office of the Secretary under File No. 458, "Miscellaneous Proposals".)

The Engineer reported on the request of the County Court of Clackamas County for improvement of 82d Avenue (Cascade Secondary Highway) southerly from Flavel Street, Portland, to Oregon City as instructed by the Commission at the previous meeting. He stated that an investigation by the Traffic Engineer reveals that the highway between Flavel Street and King Road Junction, a distance of 1.5 miles, carries a volume of traffic far in excess of the ability of the present facility to handle without congestion and hazard. The pavement on this section, he said, is only 18 feet wide, with gravel shoulders, and the average traffic volume is in excess of 9,000 vehicles daily. He further stated that the traffic congestion is not as great between King Road and Oregon City so in his estimation improvement of that section is not essential in any immediate construction program. He pointed out the difficulty in providing funds to finance improvements on this road because, while it is a State Secondary Highway, it also has been designated a Federal Aid Primary Highway in which Federal secondary funds cannot be utilized. He also pointed out that there is an insufficiency of primary highway funds to allocate to this project until the Third Year Federal Aid Program is arranged. He recommended an allocation of about $200,000 in such program to finance this 1.5 mile improvement, the work to be done in 1955. As a result of careful study of the report, the Commission decided unanimously not to construct this improvement until the funds for the 1956 Federal Aid Program have been made available.

The Engineer also reported on a request presented by a delegation from Linn County, composed of the County Court and Members of the Albany Chamber of Commerce, at the last meeting of the Commission for State assistance in re-enforcing a county road which extends westerly from US 99E at a point near Millersburg, to the Willamette River where the Russell Towboat and Moorage Company, Portland, contemplate operating a tank farm in connection with the transportation of petroleum products from Portland for distribution by truck in the Albany area. Inspection of the existing county road, he said, reveals that it has an oil surface in very good condition, having only been recently completed with funds raised by a special 5 mill tax levied against real property; also, that it is well

constructed with good drainage on very favorable soil, and a very satisfactory base of crushed rock. He gave as his considered opinion that maintenance of the road is strictly a county problem since a new industry is being brought into the county which will provide employment for additional people of the district, and if the Towboat Company's operations are successful, it will result in the operation of additional truck terminals at Albany by larger transportation companies. He recommended that the County's request for State cooperation be denied. The Commission approved the recommendation.

The Commission discussed a report from the Engineer on the request of the Clackamas County Federation of Community Clubs for installation of a traffic signal on S. E. 82d Avenue, Portland, near Battin School. The Engineer recalled that on several occasions in the past, requests for a regular type of traffic signal have been presented to the Commission, and in each instance, the request has been denied because the operation of such type signal would interfere with the movement of traffic on the two-lane highway which is now congested by reason of an average daily traffic in excess of 9,000 vehicles. He also recalled that the Federation of Community Clubs requested that consideration be given to the installation of a pedestrian-actuated signal which would be operated only when necessary by a local control box, and that the group offered to contribute toward the cost of such a signal. He estimated the cost of the pedestrian-actuated signal at $1,400, of which the State's share would be $800 and that of the School District or the Federation of Community Clubs would be $600. He recommended installation of such a signal at State expense if it develops that local funds cannot be obtained. As a result of discussion, the Commission unanimously approved installation of a pedestrian-actuated signal at this point at State expense.

The Engineer reported on a request presented by a delegation from Troutdale at the previous meeting, for improvement of the old Columbia River Highway within the City. He said that pursuant to instructions from the Commission, this matter was investigated by Mr. W. C. Williams, Assistant State Highway Engineer, who advises that the conditions complained of by the delegation are a fact and improvements are warranted. He estimated the cost to eliminate the deep gutters along this street and to improve drainage conditions, at $12,000, and he recommended approval of the project as a Minor Betterment Project in 1953 with work to be done as early in the spring as weather will permit. The Commission approved the recommendation unanimously.

The Commission discussed with the Engineer a controversy with the City of Hood River relative to the disposal of a sawdust pile located partially on property acquired by the State for highway right of way and partially on property owned by the City of Hood River. The Engineer recalled that the Commission previously authorized the removal of the sawdust pile, but a subsequent investigation determined that there are approximately 46,000 cubic yards of material in the pile and that it will cost about $23,000 to move it. The City's principal complaint about the pile, he said, is the fire hazard and the nuisance created by the smoke arising therefrom, which hazard can be eliminated

were the pile leveled and covered with dirt; moreover, such treatment will permit the area to be seeded or made use of in some other way. In this connection, the Engineer reported a recent communication from the City requesting that the State Highway Department pave the city street which leads from the undercrossing of the new highway to an existing paved street near the Highway Department's maintenance headquarters in Hood River. It appears that the City is anxious to have this street paved but is without funds to finance the improvement. The Engineer estimated the cost of the work at approximately $4,000, and gave as his belief that the obligation to improve it is partially the State's inasmuch as the increased traffic on this street is the result of State activities. He suggested in view thereof that the Commission authorize improvement of the street on the condition that the City will pay one-half of the cost involved and will consent to the disposal of the sawdust pile controversy as mentioned, which means that the State's expenditure for the paving work and to take care of the sawdust pile would be $4,500 and that the City's expense would be about $2,500, as compared with the cost of $23,000 to truck-haul the sawdust pile to another location. The Commission approved the arrangement.

A letter was presented from Mr. Chas. V. Stitter, Chairman of Road Committee, Springwater Grange, Estacada, in which the Commission is urged to construct as the No. 1 road project on Highway No. 211 in 1952-53 a proposed revision of the Woodburn-Estacada State Secondary Highway No. 161 south of Estacada on what is known as the Dubois Creek Survey. The Engineer advised that an amount of $241,000 has been set up in the tentative program for 1955 Federal Aid Secondary Highway Funds to finance this project which is about two miles long; however, this program has not as yet been approved by the Commission. The Commission deferred a decision in the matter pending discussion of such program later on.

The Commission also discussed a letter from Mary Louise Steere, Kernville requesting the oiling of the uncompleted section of the Siletz State Secondary Highway between the towns of Siletz and Kernville. The Engineer advised that to improve this road to a modern secondary highway standard will cost in excess of $1,000,000, which amount is not available at this time. He also mentioned that consideration is being given to the improvement of a portion of the project, costing about $200,000, in the current five-year program, but it may not be possible to include the project in the final program because of changes that may be required by reason of the redistribution of secondary funds to county roads The Commission deferred its decision in the matter until later in the session. (This matter was reconsidered by the Commission on the following day when the program for the 1954 Federal Funds was discussed, at which time the Commission decided to delete the project from the tentative program and to place the amount set up therefor in reserve.)

A request was presented from the City of Hermiston for installation of traffic signals at the intersection of First Street and Gladys Avenue and at the intersection of First Street and Main Street in that city. The Commis-

sion denied both requests on recommendation of the Engineer who stated that the conditions obtaining at these intersections do not meet the warrant for signal installation. (A delegation appeared before the Commission on the following day and renewed the City's request for the signal at the First Street-Gladys Avenue intersection. On the basis of information disclosed at that time, the Commission instructed the Engineer to give the matter further study with particular reference to conditions during the peak hour traffic period. See additional paragraph ahead.)

A letter was presented from the City of Roseburg, W. A. Gilchrist, City Manager, advising that the City has in its current budget an item of $4.500 to pay the City's share of installing traffic signals at the intersections of Lane Street and Washington Street with Stephens Street (route of US 99 through Roseburg) and to pay for changing the controllers so that the signals may be coordinated. Mr. Gilchrist requests the Commission's approval of the project so that installation can be made in the near future. The Engineer advised that for several years it has been recognized that traffic signals in Roseburg at the points referred to are a necessity. He estimated the cost involved at $9.000, and he recommended approval of the installation on the basis of the city and the State each paying fifty percent of the expense, the city to maintain the signals and to furnish electrical energy with which to operate them after the installation is completed. The Commission approved the recommendation.

The Commission considered and upon recommendation of the Engineer denied a request from the City of Carlton for installation of a lighted overhead crosswalk signal in front of the U. S. Post Office on West Main Street in Carlton (route of ORE 47) and for the installation of a four-way stop signal at the intersection of Main Street with Pine Street in lieu of an existing flashing beacon.

The Commission discussed a letter from the City of Lebanon by its Chief of Police and Minicipal Judge in which request was made for installation of a stop and go light on the Santiam Highway at the intersection of Park Street and Grant Street within the City where it is alleged that accidents frequently occur The Engineer advised that this matter has been investigated by the Traffic Engineer who advises that the traffic volume at this intersection does not warrant the installation of a signal, the maximum hourly traffic count being only 524 compared with the minimum warrant of 750; however, he said, the investigation did disclose some hazard by reason of insufficient sight-distance which could be materially improved were the parking of vehicles on the east side of Park Street for a two-block section between Grant and Oak Streets prohibited. He recommended that the request for a signal be denied, but that the City be requested to adopt an appropriate order providing for a "NO PARKING" restriction on the east side of Park Street along the two-block section mentioned. The Commission approved the recommendation unanimously and so ordered.

The Engineer reported that upon completion of construction work now under way in Forest Grove and the rerouting of ORE 6 and ORE 47 at this place, a new junction of these two highways will be formed at the intersection of Pacific Avenue (ORE 6) and "B" Street (ORE 47) and that this junction is of such a nature that it will be difficult to arrange signals that will properly apprise motor-

ists of the "STOP" ahead. He recommended as a remedy for the situation installation of a flashing beacon that will display a flashing amber warning indication to the east and west on ORE 6 and a flashing red stop indication to the north and south on ORE 47. He estimated the cost of such installation at $450 and recommended approval of the project to be paid for entirely with State funds on the condition that the City will maintain the signal and will furnish electrical energy to operate it at no cost to the State when the installation is completed. The Commission approved the recommendation.

The Engineer reported a hazardous condition at the junction of US 99E with the South 12th Street truck route, Salem, where accidents frequently occur by reason of the fact that 12th Street enters the highway at a very flat angle. During the period January 1, 1946 to date, he said, 64 accidents have occured at this intersection resulting in 3 fatalities and 24 personal injuries, and it appears that more accidents are occuring each year. He recommended as a corrective measure installation of a traffic signal, overhead illumination, and some channelization which he estimated will cost about $12,500. He exhibited a map showing the proposed improvements and advised that funds are available to finance the work in the 1952 Betterment Budget. The Commission approved the project unanimously.

The Engineer reported that the following cities and towns have fulfilled the legal requirements with respect to expenditure of State Tax Street Funds that accrued to them during the first six-month period of 1952, and that the plans for the improvements proposed to be financed with such funds have been examined and found to be satisfactory:

Arlington	$1,856.82
Eagle Point	1,642.99
Gold Beach	1,832.46
Mitchell	1,123.29
Monroe	979.84
Taft	1,218.03
Troutdale	1,391.26

He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "F-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the following cities and towns have fulfilled the legal requirements with respect to expenditure of State Tax Street Funds that accrued to them during the second six-month period of 1951 and that the plans for the improvements proposed to be financed with such funds have been examined and found to be satisfactory:

Arlington	$2,153.61
Fossil	2,024.89

Gates	$1,324.81
Mitchell	1,302.84
Monument	715.78
Moro	1,127.03
Sisters	2,269.76
Troutdale	1,613.64

He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "F-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the town of Mitchell has satisfied the legal requirements with respect to State Tax Street Funds that accrued to it during the second six-month period of 1950 and during the first six-month period of 1951 and that the plans for the improvements proposed to be financed with such funds have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolutions relative thereto, marked EXHIBIT "F-3" and EXHIBIT "F-4", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission conferred with representatives of the United States Bureau of Public Roads and the United States Forest Service regarding the designation as forest highways of (1) the road which extends northerly from Belknap Springs, Lane County, to a connection with the South Santiam Highway in Linn County near Clear Lake, and (2) the road which extends westerly from Starkey, Union County, to a connection with the Pendleton-John Day Highway near Ukiah, Umatilla County. Present representing the Bureau of Public Roads were W. H. Lynch, Division Engineer, C. G. Polk, District Engineer, F. E. Andrews, Principal Assistant, and R. N. Kellogg, Forest Highways Engineer; also present was W. McDonald, Assistant Regional Engineer, United States Forest Service. Mr. Lynch advised that there is no question that the Belknap Springs road qualifies as a forest highway because it is located entirely within the Willamette National Forest, but only a portion of the Starkey road so qualifies, there being an eleven-mile section at the west end and a six-mile section at the east end that are outside of the Umatilla National Forest boundaries. A suggestion was made that the Belknap Springs Road and such portions of the Starkey road that lie within the national forest boundary be designated forest highways, and that the sections of the Starkey road that lie outside of the forest boudaries be designated either a Federal Aid Secondary Highway (county road) or a State Secondary Highway. This matter was discussed at considerable length, and as a final result thereof, it was mutually agreed to recommend to the Federal authorities designation of the Belknap Springs road in its entirety as an addition to the Forest Highway System, and to recommend also that such portion of the Starkey-Ukiah road that lies within the boundaries of the national forest likewise be added to the Forest Highway System. It was also agreed that the portion of the Starkey-Ukiah road which extends easterly from the Umatilla National Forest boundary to Starkey should

be designated as a State Secondary Highway and as a Federal Aid Secondary Highway, and that the section which extends westerly from the forest boundary to a connection with the Pendleton-John Day Highway should be designated only as a Federal Aid Secondary Highway (county road) provided Umatilla County will agree to such a designation; if the county will not agree, then such section is to be designated a State Secondary Highway.

The meeting recessed for luncheon at 12:20 p.m., Standard Time, and reconvened at 1:30 p.m., Standard Time, with the same persons present and participating.

The Commission discussed and unanimously approved an agreement with the City of Salem providing for construction of a dike at the west approach to the Willamette River Bridge at Salem. The work is estimated to cost $12,000, and the City by this agreement is to assume payment of the entire amount. (The agreement was signed later in the session.)

The Commission discussed a request from the Moro Booster Club for reconstruction of the Union Pacific Railroad underpass on US 97 about one and one-half miles south of the town of Moro. The Engineer advised that the existing underpass is narrow and that the sight-distance approaching from either direction is extremely poor, rendering the underpass quite hazardous. He estimated the cost to replace the structure with a permanent type at about $50,000, and he recommended careful consideration of the project for 1953 construction as a Federal Aid Project. The Commission deferred a decision in the matter pending discussion of the Federal Aid Program. (The Commission later approved this project for 1954 Primary Federal Aid Funds which become available to finance construction during 1953.)

The Engineer requested authority for an additional expenditure of $5,000 of State funds to finance additional tests relative to flared-inlet box culverts which tests are being conducted at Oregon State College at the suggestion of the Bureau of Public Roads. He said that the tests are practically completed and the results obtained have been very successful, in fact modifications already adopted for culvert designs will provide savings greatly in excess of the cost of the tests. The Commission approved the additional expenditure.

The Engineer also requested approval of an additional expenditure of $5,000 to match a like sum provided by the United States Geological Survey to finance an investigation of run-off which might be expected from small drainage areas. He recalled that the Commission in September, 1951 entered into an agreement with the United States Geological Survey whereby each agency agreed to contribute $5,000 to finance such investigations, and he advised that the results from the work, to date, have been quite encouraging and already have had some effect on culvert design. The United States Geological Survey, he said, considers the work very important and has stated a willingness to contribute an

additional sum of $5,000 to continue the work for another year if the State will contribute a like sum. He gave as his feeling that the project is a worthy one and that the expenditure is justified. He accordingly recommended approval of the additional expenditure. In the discussion of the matter the question arose how long will the project last. The Engineer gave as his feeling it probably will require an annual expenditure of $5,000 for ten years. The Commission approved an expenditure of $5,000 for one year only.

A letter was presented by Miss Harriet Jack, Manager of "Woodcraft Home", Hood River, in which request was made for construction of a sidewalk along the Columbia River Highway (US 30) between the "Home" and the city limits, and that a traffic light be installed at a crosswalk in front of the home. The Engineer advised that this matter was investigated, and there does appear to be some hazard from the present conditions by reason of heavy truck traffic and contractors operations; however, upon completion of the new highway, traffic on the old highway will be very materially reduced, and it will be comparatively safe for the people residing in the home to walk along the old highway in going to and from Hood River, if they must walk. He pointed out that there is bus service to Hood River Heights, and he suggested that it would be possible to arrange for two or three scheduled stops daily to the "Home" which would afford opportunity for the elderly people who reside there to go to town without walking. The expense of constructing a sidewalk, he said, is not justified, neither is there warrant for the traffic light; moreover, the responsiblity for constructing the sidewalk does not rest with the State Highway Commission. He recommended that both requests be denied. The Commission approved the recommendation.

The Engineer requested authority for an expenditure of about $3,000 to plant grass seed along the fill slopes on the Barkley Springs-Algoma Section and on the Modoc Point-Barkley Springs Section of The Dalles-California Highway. He predicted that there will be considerable erosion of the slopes unless they are protected by grass growth. The Commission approved the expenditure.

The Engineer also requested authority to spend about $1,500 for landscaping at the new intersection of the Bend-Sisters Highway with US 97, north of Bend in order to correct an unsightly condition that exists at this point. The Commission approved the expenditure.

The Commission discussed a request from Mr. Paul L. Patterson, City Attorney for Gaston, for improvement of the Tualatin Valley Highway between Oak Street and Cottonwood Street in Gaston. The Engineer advised that the improvement requested consists of widening and construction of curbs with necessary drainage. He estimated the cost of such work at about $18,500 and advised that while the improvement is desirable, there are many other cities in the State that have like conditions and higher priority. He recommended that the request be denied for immediate undertaking but that it be reconsidered later on when more funds are available. The Commission approved the recommendation.

A letter was presented from Mayor J. H. Cochran of the City of Hammond, Clatsop County, in which request is made for the widening of Fort Stevens State Secondary Highway within Hammond in order to eliminate a very hazardous street junction where, he stated, many accidents occur. The Engineer advised that this matter has been investigated, and it has been determined that to do the widening work requested will cost about $2,500; however, it also has been determined that such improvement will not be satisfactory because the drainage problem would not be taken care of and existing conditions would be very little improved. He estimated the cost to provide a satisfactory improvement, including construction of curbs and a storm sewer, at about $35,000; however, he pointed out that the priority of such a project in the City of Hammond is well below that of many other cities in the State. He recommended, in view thereof, against both the complete improvement and the partial improvement at this time. The Commission approved the recommendation.

A resolution was presented from the City of Hillsboro in which the State Highway Commission is authorized to widen 10th Street from the southeast city limits to the intersection of 10th Street and Baseline Street, to a width of 58 feet between curbs; to develop Baseline Street and Oak Street into a one-way street couplet from 10th Street to the westerly city limits; to do whatever is necessary for clearing rights of way to effect the purpose desired; and to investigate the possibility and feasibility of routing traffic from a westerly point on Baseline Street to a westerly point on Main Street in order to funnel traffic into the city proper. The Engineer advised that this is a very meritorious project, but there is no money to finance it at the present time. He recommended that it be given consideration by the Commission in the formulation of future construction programs. The Commission approved the recommendation.

The Commission discussed and unanimously approved an agreement with Columbia County providing for county maintenance of the Beaver Ammunition Storage Point Access Road when the improvement thereof has been completed by the State. (The agreement was signed by the Commission later in the session.)

The Commission unanimously approved a report from the Engineer advising satisfaction of conditions governing the awards of the following contracts and also advising that forms have been prepared and forwarded to the respective contractors pursuant to the Commission's instructions:

(1) Grading and paving on Summer Street between Chemeketa Street and Center Street in Salem. Conditions of award satisfied on July 17, 1952. Warren Northwest, Inc., successful bidder.

(2) Grading and paving the Benton County Line-Cheshire Section of the Territorial Secondary Highway, Lane County. Conditions satisfied July 22, 1952. Porter W. Yett, successful bidder.

(3) Grading and paving the Rock Point-Blackwell Hill Section of the Pacific Highway near Gold Hill, Jackson County. Conditions

satisfied August 11, 1952. Central Heating Company Oregon Ltd. and F. L. Somers, successful bidder.

(4) Grading and paving on the Anlauf-Elkhead Road Unit of the Pacific Highway in Douglas County. Conditions satisfied August 15, 1952. Babler Brothers, Inc., successful bidder.

The Engineer requested authority to make a detailed location survey of an eight-mile section of the Old Oregon Trail between Hilgard and La Grande. He advised that no funds have been programmed for improvement of this highway between Deadman's Pass and La Grande, but it appears that the Hilgard-La Grande Section should be improved in the not too distant future since it has the most inferior alignment. He further stated that it is going to take considerable time to make the survey because the location is rather complicated, and the reason that he is asking for authority to conduct it at this time is to have the information available when it is needed. He advised that he would use an engineering crew that can be made available from other projects without handicapping surveys for projects that are programmed for immediate construction. The Commission approved the request unanimously.

The Engineer brought to the Commission's attention the need to increase the project authorization for construction of the hydraulic embankment on the Hood River-Mosier Section of US 30, by an amount of $230,000. He explained that in the construction of the Hydraulic embankment along this highway below Bonneville Dam no particular difficulty was encountered since the depth and swiftness of the water could be fairly well predicted; however, above Hood River where the embankment is being placed in the Bonneville pool, unanticipated and unpredictable events have materially increased the amount of the hydraulic embankment necessary to furnish a satisfactory job. The latest tabulations, he said, indicate that construction of hydraulic embankments in the deep water resulted in an overrun of 944,000 cubic yards of material which will cost about $230,000, which amount will be applied to contract No. 3532 awarded to General Construction Company for construction of a hydraulic embankment on the Hood River-Mosier Section. The Commission approved the increase unanimously

The Commission had under discussion a letter from the Association of Oregon Counties, F. L. Phipps, Executive Secretary, in which Mr. Phipps includes a formula that has been adopted by the Association for the allocation of funds made available under the 1952 Federal Aid Act to finance the improvement of county roads on the Federal Aid Secondary System, such formula being as follows:

> "That 25% of the federal funds available for county roads on the Federal Aid Secondary System in Oregon be divided equally between the counties, and that of the remaining 75% of such funds 80% be allocated to the counties on the basis of rural population and 20% on the basis of county road mileage as shown by the most recent records of the State Highway Department."

In his letter Mr. Phipps advises that the formula was submitted to a referendum vote of the county courts and resulted in approval of the formula by a majority of all of the county courts of the state. The Engineer advised that he has given this matter very careful consideration and has discussed it in considerable detail with the Committee of The Association of Oregon Counties which developed it, and it is his considered opinion that the formula is as good as can be developed. He recommended approval of the formula by the Commission. He further recommended that for the next two-year program for which Congress has appropriated monies, the matching of federal monies be made on a 50-50 basis between the counties and the state. In other words, of the total funds available, 60 percent would be federal, 20 percent state, and 20 percent county. He further recommended that the counties be required to purchase all of the necessary rights of way and material sources but that the preliminary surveys be made at the expense of the state. Chairman Chandler stated his reluctance to approve such a formula as a permanent proposition, however, he agreed to it on a trial basis for a two-year period with the understanding that the matter will be reconsidered at the end of that time. Commissioner Reynolds thereupon moved adoption of the Engineer's recommendation in connection with the two-year program for which Congress has appropriated funds. The motion was seconded by Commissioner McIver and carried by the unanimous vote of the Commission.

The Commission had under consideration the adoption of completed surveys of the following described highway sections as reported by the Engineer:

(1) North Corvallis Section of the Pacific Highway West (US 99W), Benton County

(2) Phoenix Section of the Pacific Highway (US 99), Jackson County

(3) Otter Crest Section of the Oregon Coast Highway (US 101), Lincoln County.

The Engineer exhibited maps showing the location proposed at each point. He explained details and recommended approval of the surveys by the Commission. As a result of discussion, the Commission approved all three surveys as recommended. The attached resolutions relative thereto, marked EXHIBITS "G-1" and "G-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein, were thereupon adopted by the Commission by unanimous vote.

In the discussion of the survey at Otter Crest, the Engineer advised that the proposed revision will effect a savings of $200,000 in construction costs, and he suggested that this sum be applied to improve another section of this highway in the vicinity of Fogarty Creek. He was instructed by the Commission to render a report on the subject.

The Commission considered the following requests for extensions

of time within which to complete highway contracts:

1. Parker-Johnson Company, Contract No. 3639, for construction of Rock Creek Bridge, Mosier Overcrossing, and Mosier Creek Bridge on the Upper Columbia River Highway in Wasco County, requested an extension of time of 258 days from August 31, 1952 to May 15, 1953, within which to complete this job. They attributed their failure to complete the Mosier Creek Bridge within the specified time limit to inclement weather, and they stated they failed to complete the other structures within the specified time because they are located in a section of highway where hydraulic embankment is being constructed by another contractor whose work will not be done until about October 1, 1952. The Engineer advised that the reasons given by the contractor for failure to complete the project within the specified time limit are correct. He recommended in view thereof that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

2. Lindstrom Brothers, Inc., Contract No. 3429, for construction of the Weed and Muscott Bridges on the Little Nestucca Highway in Tillamook County requested an extension of time of 60 days from June 30, 1952, to August 29, 1952, within which to complete this job. They alleged that the project overran the specified time limit because of unseasonal high water conditions which made it impractical to place the falsework necessary for the erection of the Weed Bridge, and also prevented the painting of the Muscott Bridge. The Engineer advised that the Commission already has extended the time limit on this contract two times, the last extension, from November 30, 1951 to June 30, 1952, being granted subject to the condition that the contractor would reimburse the State for all engineering costs incurred in connection with the job subsequent to November 30, 1951. He recommended that the additional extension of time now requested be granted subject to the same condition. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

3. R & M Construction Company, Contract No. 3443, for grading and surfacing the Holland Loop County Road Section of the Holland Loop Federal Aid Secondary Highway in Josephine County, requested an additional extension of time of 90 days, from July 31, 1952 to October 29, 1952, within which to complete this project. They gave as their reason for failing to complete the project within the previously extended time limit inclement weather and too much water which prevented operations during the winter season. The Engineer advised that the contract completion date was November 30, 1951 and that the time was previously extended to and including July 31, 1952 without penalty because of the accition of one span to the Lower Sucker Creek Bridge after the contract had been awarded. He further advised that the extension of time previously granted was sufficient to account for all of the extra work entailed by this addition. He recommended in view thereof that the additional extension now requested be granted subject to the condition that the contractor shall reimburse the State for all engineering costs incurred by the State on

this job subsequent to July 31, 1952. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

4. Larsen Brothers, Contract No. 3479, for painting the McCullough Bridge on the Oregon Coast Highway at Coos Bay, Coos County, requested an additional extension of time from July 31, 1952 to September 30, 1952, within which to complete this job. They gave the following reasons for overrunning the previously extended time limit: adverse weather conditions; labor trouble in 1951; and certain requirements of the State s Inspector which they are performing under protest. The Engineer advised that the specified completion date was October 31, 1951, and that it was previously extended by the Commission to July 31, 1952. Insofar as it can be determined, he said, the reason for the delay is lack of sufficient crew of workmen to do the things required. He recommended in view of the circumstances that the additional extension of time now requested by granted subject to the condition that the contractor shall reimburse the State for all engineering costs incurred by the State in connection with this job subsequent to July 31, 1952. The Commission approved the recommendation.

5. Felix Carlson Dredging Co., Inc., Contract No. 3652, for replacement of fender piling at the Coos Bay Bridge on the Oregon Coast Highway in Coos County, requested an extension of time of 60 days, from June 30, 1952 to August 29, 1952, within which to complete this job They attributed their failure to complete the project within the specified time limit to late delivery of creosoted piling and shortage of competent workmen. The Engineer advised that the contractor started work as soon as he received the treated piling from the treating company, and that he has prosecuted the work with due diligence since that time. He further stated that it was through no fault of the contractor that the work was not completed within the period specified, and accordingly he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

6. C. J. Eldon, Contract No. 3578, for construction of a bridge over the Little North Santiam River on the Mehama-Mill City Section of the North Santiam Highway in Marion County, requested an extension of time of 122 days, from August 31, 1952 to December 31, 1952, within which to complete this job. He gave the following reasons for failure to complete the project within the specified time limit: (1) Overrun of the quantities listed under the heading "Excavation Below Elevations Shown"; (2) Extra time consumed in cutting keys in abutments No. 1 and No. 2 where no explosives were permitted, such keys being not shown on the original plans; (3) High water which flooded coffer dams; (4) Overrun of concrete in the abutments. The Engineer advised that because of foundation conditions it became necessary to change the foundations for the concrete arch which increased the amount of excavation and the concrete used in the foundations. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The

Commission approved the recommendation.

7. Tom Lillebo Contract No. 3462, for construction of a bridge over Coos River on the Coos River Secondary Highway in Coos County, requested an extension of time of 90 days, from August 1, 1952 to October 29, 1952, within which to complete this job. He attributed his failure to complete the project within the specified time limit to the delay of the suppliers in making deliveries of electric motors which were ordered promptly after the contract was awarded. The Engineer advised that the reason given by the contractor for overrunning the specified time limit is correct; that the electric motors which are to operate the structure were ordered from the Westinghouse Electric Company, but manufacture of the same was delayed due to a prolonged strike in the Westinghouse plants. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

8. F. L. Somers, Contract No. 3533, for surfacing the Metolius-Culver and the North Unit of the Culver-Juniper Butte County Roads in Jefferson County, requested an extension of time of 60 days, from October 15, 1951 to December 14, 1951, within which to complete this job. He gave the following reasons for overrunning the specified time limit: "We were not cleared to work in the designated cinder pit until 70 days after award of the contract. We have not yet received delivery of the required metal pipe." The Engineer advised that the cinder pit specified for this project was obtained under permit from the U. S. Bureau of Land Management; however, at the time the contractor attempted to enter the pit, jurisdiction over the land on which the pit was located was assumed by a private party who refused to let the contractor obtain materials from this source. Several weeks time, he said, was taken up in negotiations between this private party and the government officials before the difficulties were ironed out and the contractor was allowed to enter the pit. These circumstances, he said, were responsible for overrun of the time limit. He pointed out that the contract was completed on November 17, 1951 and should be extended to that date rather than December 14, 1951, the date requested by the contractor. He recommended in view thereof that the extension of time be granted up to November 17, 1951 without penalty A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

9. Roy L. Houck & Son, Contract No. 3430, for grading and paving the Canyonville (Fifth Street) Project on a city street in the City of Canyonville, Douglas County, requested an extension of time of 243 days, from October 31, 1951 to June 30, 1952, within which to complete this job. They gave as their reason for overrunning the specified time limit financial difficulties involving the local commercial gravel plant with whom arrangements previously had been made to furnish materials for the project. The Engineer advised that the contractor was repeatedly requested to complete this project within the specified completion date, and he did place an oil mat or binder course prior to the expiration of such period; however, he was not able to

secure sufficient aggregate for the paving until the spring of 1952. He further stated that in order to provide proper service to the general public during the winter months, it was necessary for the State to do some patch work on the street which involved an expenditure of State funds in the amount of $185.27. He pointed out that the job was completed on July 18, 1952 and recommended that the extension of time be granted to that date subject to the condition that the contractor be required to reimburse the State for the cost of the maintenance work which would not have been necessary had the contract been completed on time. The Commission approved the recommendation.

10. E. H. Itschner Company, Contract No. 3586, for rock production on the Vida-Belknap Springs Section of the McKenzie Highway in Lane County, requested an extension of time of 46 days, from April 15, 1952 to May 31, 1952, within which to complete this job. He alleged that his failure to complete the project within the specified time limit was due to the quarry from which his materials were obtained being much harder to work than was anticipated. The Engineer advised that the contractor experienced considerable difficulty in working this quarry because of the demands of adjacent property owners that extreme care be taken in the use of powder. Certain precautionary measures were required by the State, he said, and were followed by the contractor to the best of his ability with the result that the job was completed without damage to any of the parties concerned. Due to the fact that the overrun of the time limit was not necessarily the fault of the contractor, he recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation.

11. Inter City Sand and Gravel Company, Inc., Contract No. 3253, for grading, surfacing, and oiling the Fisher Road-Oak Hill Section of the Richardson-Eugene Secondary Highway in Lane County, requested an extension of time of 371 days, from November 1, 1950 to November 6, 1951, within which to complete this job. The following reason was given by the contractor for overrunning the specified time limit: "Bad weather softened the grade and prevented rocking until the summer of 1951. Subcontractor for the oiling could not get on the job and we had to get another contractor to do the job, which caused additional delay." The Engineer advised that the contractor experienced some difficulty in compacting the subgrade due to excessive moisture, and that he was unable to obtain the services of an oiling subcontractor in time to complete the project earlier than he did. The State, he said, has incurred no additional engineering expense neither has the general public experienced any hardship by reason of the failure of the contractor to complete the project at an earlier date. He recommended in view of the circumstances, that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

12. Rex C. Ayers Construction Company, Contract No. 3510, for grading and paving the Florence Section of the Oregon Coast Highway, Lane County, requested an extension of time of 189 days, from November 1, 1951 to June 6, 1952, within which to complete this job. They

attributed their failure to complete the project within the specified time limit to labor shortage, slow production of rock, and shortage of dump trucks for hauling. The Engineer advised that all work in connection with this job except construction of the top course of paving and some approaches was completed within the specified completion date and that the delay in completing the balance of the work was due to the inability of the contractor to secure sufficient aggregate from local rock-producing plants in the Florence area. Ultimately, he said, sufficient material to complete the project was loaned to the contractor from state stock piles but bad weather set in before the negotiations were accomplished, so it was necessary to carry the job over into the 1952 season. He recommended because of the circumstances, that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

13. Parker and Fuhrman, Contract No. 3730, for oiling on the Prineville-Eagle Rock Section of the Paulina Secondary Highway, Crook County, requested an extension of time of 30 days, from June 30, 1952, to July 30, 1952 within which to complete this job. They attributed their failure to complete the job within the specified time limit to excessive rain which prevented oiling operations. The Engineer advised that the reason given by the contractor for overrunning the specified time limit is correct. The State, he said, has incurred no additional engineering expense neither has the traveling public been inconvenienced by reason of the delay. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

14. E. L. Gates and Company, Inc., Contract No. 3380, for grading and paving the Chrome Plant-Cedar Point Section of the Oregon Coast Highway, requested an extension of time of 168 days, from August 31, 1951 to February 15, 1952, within which to complete this job. They attributed their failure to complete the project within the specified time limit to inability of their subcontractor, Porter W. Yett, to finish the surfacing work because of additional work being performed by him which seemed to be more urgent. The Engineer advised that practically all of the work on this contract was completed within the specified time limit, and the only thing remaining to be done was the placement of a seal coat on the asphaltic concrete pavement. Weather conditions, he said, did not appear suitable for the application of the seal coat so such work was deferred until later; however, it was not applied because tests made during January and February indicated that it was not required, and the contractor was relieved of his obligation on February 15, 1952. He recommended in view of the circumstances, that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring threin. The Commission approved the recommendation.

15. McNutt Brothers, Contract No. 3474, for grading the Judkins Point-Goshen Section of the Pacific Highway, Lane County, requested an extension of time of 45 days, from April 30, 1952 to June 14, 1952, within which to complete this job. They alleged that the general contract was

completed prior to the expiration of the specified time limit, and that the extra time was necessary in order to remove unanticipated slides that extended beyond the right of way boundaries. The Engineer advised that the contractor's statements are correct and that the overrun of time limit was not their fault. He further advised that the contract was completed on June 10, 1952 and should be extended to that date rather than June 14, 1952, the date requested by the contractor. He recommended in view of the circumstances that the extension of time be granted to June 10, 1952 without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

16. O. C. Yocom Company, Contract No. 3412, for grading and paving the South Yamhill River (McMinnville) Bridge Section of the Three Mile Lane State Secondary Highway, Yamhill County, requested an extension of time of 30 days, from September 30, 1951 to October 31, 1951, within which to complete this job. They attributed their failure to complete the project within the specified time limit to delay by the State in acquiring right of way for road approaches. The Engineer advised that all work on this project was completed within the specified time, except for a road approach which was a right of way obligation. He further advised that the contract was completed on October 10, 1951 and should be extended to that date rather than October 31, 1951, the date requested by the contractor. He said the State has incurred no additional engineering expense nor has the traveling public been inconvenienced by the delay. He recommended in view of the circumstances that the extension of time to October 10, 1951 be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

17. Durbin Brothers, Contract No. 3528, for grading and paving Main Street in Island City and the Island City-Lone Tree County Road in Union County, requested an extension of time of 230 days, from October 31, 1951 to June 17, 1952, within which to complete this job. They alleged that the overrun of the time limit was caused by the failure of the fill materials, which were taken from under water excavation, to drain and become firm enough for a roadbed on which to construct pavement so late in the season, and it was necessary to defer the pavement work until conditions were satisfactory. The Engineer advised that for reasons stated by the contractor, he ordered postponement of the paving work until the spring of 1952 in order to provide a satisfactory job. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein The Commission approved the recommendation.

18. R. A. Heintz Construction Company, Contract No. 3303, for grading, paving, and structures on the South Unit of the Denver Avenue-Columbia Slough Section of the Pacific Highway East, Multnomah County, requested an additional extension of time of 121 days from December 31, 1951 to April 30, 1952, within which to complete this job. They attri-

buted their failure to complete the project within the previously extended time limit to additional work required by the State Highway Department. The Engineer advised that the contractor had completed all work on the traveled portion of the roadway within the specified time limit, but had extreme difficulty in securing conduit and other material required to finish roadside portions of this job; moreover, additional drainage work was required which the contractor could not perform until the State had obtained easements. He further advised that this contract was completed on April 18, 1952 and should be extended to that date rather than April 30, 1952, the date requested by the contractor. The delay, he said, was not the contractor's fault and in view thereof, he recommended that an extension of time up to April 18, 1952 be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

19. Leonard and Slate Oregon Ltd. and E. C. Hall Company, Contract No. 3456, for grading and topping the East Unit of the La Grande-Ladd Canyon Section of the Old Oregon Trail, requested an additional extension of time of 120 days, from March 15, 1952 to July 15, 1952, within which to complete this job. They advised that they were unable to complete the job within the previously extended time limit because of conditions beyond their control involving extensive slides and increased quantities. The Engineer advised that numerous slides developed on this contract and the contractor was required to move more than 100,000 additional cubic yards of material. He further advised that this contract was completed on May 23, 1952 and should be extended to that date rather than July 15, 1952, the date the contractor requested. He recommended that the additional extension of time up to May 23, 1952 be granted without penalty because the conditions obtaining were beyond the control of the contractor. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

19a. C. S. Whitcomb Company, Inc., Contract No. 3574, for landscaping the Redmond (5th Street) Section of The Dalles-California Highway, Deschutes County, requested an extension of time of 76 days, from April 30, 1952 to July 15, 1952, within which to complete this job. They attributed their failure to complete the project within the specified time limit to inclement "growing" weather and other conditions beyond their control. The Engineer advised that the reasons given by the contractor for overrunning the specified time limit are correct. He also said that the contractor completed this contract on June 26, 1952 and that the extension of time should be extended to that date rather than July 15, 1952, the date requested by the contractor. The State, he said, has incurred no extra expense for engineering supervision, and he recommended in view thereof, that the extension of time to June 26, 1952 be granted without penalty. The Commission approved the recommendation.

20. Parker-Schram Company, Contract No. 3579, for grade

widening on the Sylvan Section of the Sunset Highway, Multnomah County, requested an additional extension of time of 60 days, from June 1, 1952 to July 30, 1952, within which to complete this job. They attributed their failure to complete the project within the previously extended time limit to unsatisfactory weather conditions. The Engineer advised that the reason given by the contractor for overrunning the specified time limit is correct. He also advised that the contractor completed the contract on July 22, 1952, and that the extension of time should be granted to that date rather than to July 30, 1952, the date requested by the contractor. He recommended that the extension of time be granted to July 22, 1952 without penalty. The Commission approved the recommendation.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that contracts Nos. 3247, 3253, 3303, 3380, 3402, 3412, 3415, 3430, 3456, 3477, 3481, 3495, 3510, 3528, 3533, 3563, 3574, 3580, 3586, 3598, 3611, 3621, 3625, 3643, 3654, 3662, 3697, 3698, 3701, 3705, 3713, 3714, 3726, 3730 for construction of State highway projects have been completed according to the requirements of the contracts or modifications thereof and that said projects are now ready for acceptance. After due consideration the Commission, by unanimous vote, accepted said contracts by adoption of the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Chairman Chandler brought up for discussion delays by contractors in starting work after they have been awarded contracts. He expressed the feeling, based on a study of the status of contracts, that the contractors are not commencing their work as soon as they should after the contracts have been awarded. As a result of discussion, the Engineer was instructed to direct a letter to all the contractors advising them that the Commission expects them to start work on their respective jobs just as soon as the contracts have been awarded, and to carry on their work expeditiously so that the work will be completed at the earliest possible time without extending or overrunning the time limit specified for such completion.

A letter was presented from Mr. Arthur W. Schaupp, former member of the Highway Commission, relative to the use of the "Wye" formed by the intersection of the Klamath Falls-Malin and the Klamath Falls-Lakeview Highways about four miles east of the City of Klamath Falls.

The Commission referred the letter to the Engineer with instructions to contact Mr. Schaupp and explain to him personally just what is planned by the Highway Department for public protection at this point, following which he is to render a report on the subject.

The Engineer brought up for discussion the revised Civil Service pay plan as finally approved by State Budget Director, State Emergency Board, and the Governor, providing for cost of living salary increases for about 40 percent of 50 percent of State Highway employees, effective September 1, 1952. He recommended approval of the plan which, he said, will result in an estimated total annual cost of about $338,530. The Commission approved the recommendation unanimously.

In this connection, the Engineer also asked the Commission to approve a three-step monthly pay plan for all of the 1,350 hourly paid personnel in the State Highway Department. He explained details, particularly pointing out that if the plan is adopted none of the hourly paid employees would receive a decrease in earnings, and that there will result an average increase of about $2 per person per month over and above the hourly rates established by the Civil Service Department. He recommended adoption of the proposed plan subject to approval by the Civil Service Commission. The Commission unanimously approved the recommendation.

The Commission discussed a written report from the Manager of the Accounting Division, dated August 8, 1952, on the amount of the Highway Department's contribution to the State Restoration Fund. According to the report, an appraisal of the buildings and non-expendible property must be submitted annually to the Department of Finance and Administration subsequent to June 30 of each year, and it has been past practice to exclude from the appraisal report the Highway Department's properties that are covered by commercial fire insurance; however, the question has been raised by the Division of Audits of the Secretary of State's Office as to whether or not it is proper to exclude such properties. It appears from the report that a total valuation of State Highway property as of December 31, 1951 amounted to $16,215,111.27, which will make the Highway Department's contribution to the Restoration Fund, based on 25 cents per $100, approximately $40,537.78 for the year 1952, but by excluding the properties covered by commercial fire insurance in the amount of $10,996,263.95, the contribution could be reduced to about $13,047.12. The auditor requested instructions whether or not to include in the current report to the Department of Finance and Administration appraisals of properties that are covered by commercial fire insurance. As a result of discussion, the Commission ordered that the 1952 report be based on properties not covered by commercial fire insurance only as in the past, which would result in savings to the State Highway Fund of about $27,490 66. The Chief Counsel was instructed to prepare a proposed bill for presentation to the next legislative assembly which would authorize the purchase of commercial fire insurance and would exclude properties so covered from the appraisal report and would clarify existing statutes pertaining to such matters.

In the consideration of this matter, Commissioner Reynolds pointed

out the State's insurance now furnished by the Restoration Act does not provide for "extended coverage" but is limited to loss by fire only. It was his feeling that the law should be modified to include such type of coverage. Chairman Chandler and Commissioner McIver concurred whereupon the Chief Counsel was instructed to bring the matter to the attention of the State Insurance Commissioner, with the idea in mind that he would take action to secure legislation to that end

The Engineer reported that when reconstruction of the Cedar Point-Coquille Section of US 101 was completed, the City of Coquille established a small one-way street grid system which must be formally approved by the State Highway Commission in order to become effective. He recommended appropriate action by the Commission to legalize the City's ordinance. The Commission approved the recommendation and thereupon unanimously adopted the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a proposed agreement with the County Court of Clackamas County providing for abandonment of a section of the Mt. Hood Highway at Rhododendron on completion of a revision of the highway at this place. The Commission approved the agreement unanimously. (The agreement was signed by the Commission later in the session.)

Consideration was given by the Commission to the disposal of a portion of the old right of way of the Hilgard Junction-Red Bridge Section of the Starkey Secondary Highway in Union County. The attached resolution relative thereto, marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein was adopted by the Commission by unanimous vote

The Engineer reported that on Monday, July 7, 1952, he ordered restoration of the maximum weight limits authorized by law for the Coyote Creek Bridge located at M P 26 24 on the Territorial Secondary Highway in Lane County, repairs to the structure having been completed. He asked the Commission to confirm his action. The Commission by unanimous vote approved the action taken by the Engineer in this matter by adoption of the attached resolution relative thereto, marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein

A request was presented from the postmaster at Aloha, Oregon, for designation of a loading zone in front of the U. S. Postoffice on the Tualatin Valley Highway at this place. The Engineer advised that the matter has been investigated by the Traffic Engineer who advises that there are sufficient mail deliveries daily in the congested parking area to warrant the establishment of such a loading zone for the safety of through traffic and for the protection and convenience of the postmaster in handling mail by truck delivery. He recommended in view thereof that such a loading zone be established on the north side of the highway at M. P. 6.49, between

highway engineer's station 127+47 and 127+07, 40 feet in length. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "L-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission also considered a request from the City of Central Point for designation of a "NO PARKING" zone on the west side of US 99 for a distance of one block in Central Point, particularly between Manzanita Street and Pine Street. The Engineer advised that from an investigation of conditions at this point, it has been determined that such a parking restriction should be established; however, it should be for a distance of two blocks rather than one, between Manzanita Street and Oak Street. He recommended, therefore, that a "NO PARKING" zone be established for either one or two blocks as may be desired by the City, and that the posting of appropriate signs be made contingent upon the city passing an ordinance covering the restriction. The Commission approved the recommendation unanimously and instructed the Secretary to inquire of the City its particular wishes in the matter and to ask the City to adopt an appropriate ordinance in conformity therewith.

A letter was presented from the El Dorodo Grange No. 817, Ironside, Oregon, Ernestine L. Howard, Secretary, in which the Highway Commission is requested to erect signs on the John Day Highway at and near Ironside to protect the children of their community. The Engineer advised that this matter was investigated by the Traffic Engineer who gives as his considered opinion that existing signs at this location are entirely adequate to take care of the situation, and who recommends that the request be denied. He stated his concurrence in the recommendation. The Commission approved the recommendation unanimously.

Requests were presented from Mapleton Community Guild, Mapleton, Oregon, and from the International Woodworkers of America, Reedsport, Oregon, for better enforcement of the 25-mile per hour speed limit on the Siuslaw Highway through the town of Mapleton. The Engineer advised that an investigation by the Traffic Engineering Department reveals that the average speed of traffic through this community is 37.5 miles per hour, and that a speed as low as 25 miles per hour is not necessary and cannot very well be enforced. He gave as his belief that conditions prevailing in Mapleton could be considerably improved were the 25 mile per hour speed limit raised to 35 miles per hour, which speed would be enforceable, and by the further establishment of "NO PARKING ON SHOULDERS" on the westerly side of the highway through the main part of town, specifically between M. P. 13.85 and M. P. 15.10. The establishment of such no parking zone, he said, would eliminate the present hazard wherein vehicles are parked on the pavement, which narrows the traveled roadway and increases hazard and congestion. In addition to such treatment, he said, instructions have been issued to trim bushes and small trees growing along shoulders of the highway in order to improve sight-distance. He recommended approval of the treatment proposed to remedy the conditions at this place. The Commission unanimously approved the recommendation by adoption of the attached resolutions relative thereto,

marked EXHIBITS "L-2" and "L-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Consideration was given by the Commission to a request from the Oregon Coast Ad Club that the existing reduced speed zone on US 101 in the vicinity of Wecoma Beach be extended to include the point of access to the Club's "Visitors' Information Center". The Engineer advised that the information center is located on US 101 near its junction with the road leading to Road's End where sight-distance on the highway approaches is restricted by vertical and horizontal alignment of the highway, and that the establishment of the information center at this point is a traffic generator and adds to an already difficult situation from the standpoint of traffic hazard. He recommended that the 35-mile per hour speed zone now established on US 101 be extended to include this information building, particularly from M. P. 124.80 to M. P. 125.06, a distance of 0.26 miles. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "L-4", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and unanimously approved the following requests for out-of-state travel:

(1) R. H. Baldock to attend meetings of the Highway Research Board and of the Executive Committee of the American Association of State Highway Officials in Washington, D. C. during September 5 and 6, 1952. Estimated cost $325.00.

(2) R. H. Baldock and George Hester to attend meeting of the Western Interstate Committee on Highway Policy Problems of the Council of State Government in San Francisco on September 25 and 26. Estimated total cost $220.00.

(3) F. B. Crandall to attend annual meeting of Institute of Traffic Engineers in Chicago during September 8 to 11, 1952. Estimated cost $300.00.

(4) J. Al Head, R. C. Blensly, J. E. Gately, and J. W. Blair of the Traffic Engineering Department to attend a highway planning conference sponsered by the Western Association of State Highway Officials in Seattle, Washington, during October 9 and 10, 1952. Estimated total cost $160.00.

(5) Carl W. Jordan, Director of the Travel Department, to attend the annual convention of the Pacific Northwest Travel Association in Banff, Alberta, Canada, during September 12 and 13, 1952. Estimated cost $155.00. This item was anticipated in preparation of the Travel Department budget.

(6) R. H. Baldock to attend meeting with Washington State Highway Commission in Olympia during week commencing September 15, 1952. Expense nominal.

(7) William F. Lieske, Radio Engineer, to attend a national conference of the Association of Police Communications Officers in San Francisco during August 19-22, 1952. Estimated cost $115.00.

The Commission also considered the designation of persons who are to represent Oregon at the annual meeting of the American Association of State Highway Officials which is to be held in Kansas City, Missouri, during December 10 to 12, 1952. As a result of discussion, the following persons were authorized to attend such meeting at State expense: R. H. Baldock, State Highway Engineer; W. C. Williams, Assistant State Highway Engineer; G. S. Paxson, Bridge Engineer, E. A. Collier, Maintenance Engineer; C. W. Enfield, Chief Counsel; Forrest Cooper, Right of Way Engineer; and H. B. Glaisyer, Secretary.

The Engineer presented a claim from Floyd W. Hogoboom, Grants Pass, Oregon, in the amount of $15, representing the cost to repair his car which was damaged by the spraying of oil while it was parked near the railroad siding in Grants Pass where a State Highway crew was unloading and retorting asphalt. He advised that the claim has been investigated and it has been found a legitimate one against the State Highway Department. He recommended payment of the same. The Commission approved the recommendation on the condition that Mr. Hogoboom will sign the customary release form.

The Commission discussed the matters of unfinished business appearing on the Secretary's summary, dated July 11, 1952, and took action thereon as follows:

(1) Request for the development of Eel Lake as a recreational area: Report on this matter was rendered earlier in the session. The item is to be deleted from the list.

(2) Request of Lane County Recreation Committee that the State develop a recreational area at Dorena Dam: The Parks Superintendent advised that his investigation of this matter is still in progress, but he anticipates that his report will be ready to present to the Commission at its next meeting. The item is to be retained on the list of unfinished business.

(3) Request of Westmost Grange for a state park at Bandon Beach: This item was reported on by the State Parks Superintendent earlier in the session. The item is to be deleted from the list.

(4) Request of DeLake and Oceanlake Chambers of Commerce for establishment of a state park near the Dorchester House: The Parks Superintendent advised that his investigation is still in progress and that he expects to render a report on the subject at the next meeting of the Commission. The item is to be retained on the list of unfinished business.

(5) Request of Clackamas County Court for improvement of 82d Avenue (Cascade Secondary Highway) from Flavel Street, Portland, to Oregon City: This item was ordered deleted from the list of unfinished business in view of the fact that the Engineer had already rendered his report on the subject.

(6) Request of the City of Gold Hill for establishment of a State Park at Gold Hill: The Parks Superintendent reported on this matter earlier in the session, in view of which, the Commission ordered the item deleted from the list.

(7) Proposed rerouting of US 99W through McMinnville: The Engineer advised that his report on this subject is not yet ready. The Commission ordered the item retained on the list of unfinished business.

(8) Request of the City of Troutdale for improvement of the Old Columbia River Highway through Troutdale: This item was ordered deleted from the list of unfinished business in view of the fact that the Engineer reported on the subject earlier in the session.

(9) Request of County Court of Linn County and Albany Chamber of Commerce that the State improve a county road which extends westerly from Highway 99E near Millersburg to a point on the Willamette River where the Russell Towboat and Moorage Company proposes to establish a tank farm for distribution of petroleum products in the Albany area: The Engineer reported on this matter earlier in the session so the item was ordered deleted from the list of unfinished business.

(10) Request of the Clackamas County Federation of Community Clubs for installation of a traffic signal on S. E. 82d Avenue, Portland, near Battin School: This item is to be deleted from the list of unfinished business having been acted on by the Commission earlier in the session.

(11) Suggestion of Mr. A. B. Lambert, Portland, for publicizing Oregon attractions: The Engineer advised that Mr. Lambert was personally contacted by Mr. W. W. Stiffler, Assistant State Highway Engineer, and Mr. Carl Jordan, Director of the Travel Department, and during a lengthy discussion of the subject, Mr. Lambert failed to reveal exactly what he wants the Commission to do, and the only outstanding feature of the conversation was Mr. Lambert's request that he and the managers or owners of other attractions, such as Peterson's Gardens, Redmond, and the Sea Lions Cave on the Coast, be given permission to display descriptive literature. He recommended that Mr. Lambert and the others be given such permission in parks where a concession has been granted, and where some person is on duty to answer questions propounded by the public. The Commission approved the recommendation unanimously subject to the condition that arrangement must be agreeable to the concessionaire in each instance. The item was ordered deleted from the list of unfinished business.

The Commission discussed a date for its annual inspection of State highways located in Western Oregon but deferred a decision with

respect thereto.

Consideration was given by the Commission to the setting of a date for its next regular meeting and it was decided to hold such meeting in Portland on Monday and Tuesday, September 22 and 23, 1952, the meeting on both days to convene at 9:00 a.m., Pacific Standard Time. The Secretary was instructed to make the usual arrangements for the use of the Green Room in the Imperial Hotel.

Commissioner Reynolds mentioned that the people of La Grande want to formally dedicate the Ladd Canyon Project when it is completed and opened for travel, and they would like for the members of the Commission to be present on such occasion to take part in the ceremonies. The Engineer gave as his belief that the highway would be opened to the public during the first week in October. In view of this information, the Commission approved dedication sometime during that week. (A definite date for the dedication was later set for Sunday, October 5, 1952.)

The Commission discussed briefly a proposed program for monies derived from the contemplated sale of $10,000,000 of Oregon Highway bonds after January 1, 1952, but deferred a decision in the matter until its next meeting.

In this connection, the Engineer pointed out that the 1953 Bond Fund Program contains an item of $675,000 to finance construction of steel trusses for the Willamette River Bridge on the West Portland-Hubbard Highway at Wilsonville. He gave as his feeling that it would be advisable to advance this project to the 1952 Bond Fund Program because of difficulties in obtaining steel allotments; accordingly he suggested the substitution of this project for the following four projects in the 1952 Bond Program with the understanding that these four projects will be included in the program for the 1953 Bond Funds:

Structures on the Salem By-Pass Section of US 99E in Marion County--$260,000.

Rock Point Bridge on the Rock Point-Blackwell Hill Section of US 99 in Jackson County--$113,000.

Reconstruction of the Columbia River Bridge Approach on the Hood River--Mosier Section of US 30 in Hood River County--$46,000.

Construction of the Union Avenue-Swift Road Junction in Multnomah County--$202,000.

The Commission unanimously approved such transfer of funds and authorized the Engineer to advertise the Wilsonville Bridge Project for bids to be received at the next meeting of the Commission.

The Commission also considered adoption of a program for the unprogrammed balance of Primary Federal Aid Funds, amountingto approxi-

mately $420,000, which are available due to underruns in the cost of Federal Aid Projects. The Engineer advised that the unprogrammed balance, together with the required State matching funds, is sufficient to finance a project costing $700,000. He recommended allocation of such amount to the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway, particularly the portion between the Willamette River crossing at Wilsonville and the junction with the Pacific Highway East near White School, which is estimated to cost such sum. He advised that if the Commission approves such allocation, it will be possible to receive bids for the project at the September meeting of the Commission. The Commission approved the recommendation unanimously and so ordered.

The Commission approved the Secretary's report on papers that he signed on behalf of the Commission during the period July 8 through August 14, 1952.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 3:00 p.m., Pacific Standard Time, Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's action having been by unanimous vote:

"Construction of a highway maintenance building in the City of Baker, Baker County: Loree Building Service, La Grande, was the low bidder for this work at $10,817.00. There were two higher bids. The contract has been awarded to the Loree Building Service at its bid price.

"Grading and oil mat surfacing on the Beaver Ammunition Storage Point County Access Road, Columbia County: The Commission received only one bid for this job, being that of John R. Saxton, Clatskanie, at $32,110.50. The bid of John R. Saxton in the sum of $32,110.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the Bureau of Public Roads.

"Construction of a reinforced concrete box culvert at North Slough on the Hauser-Coos Bay Section of the Oregon Coast Highway, Coos County Tom Lillebo, Reedsport, was the low bidder for this work at $24,915.00. There were two higher bids received. The bid of Tom Lillebo in the sum of $24,915.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the Bureau of Public Roads.

"Construction of the Manning and Cemetery Road Grade Separation Structures on the Oakland Junction-Deady Unit of the Pacific Highway near Oakland, Douglas County: The Commission received eight bids for this work, the low one being that of Hannan Brothers Company, Portland, at $60,080 00. The contract has been awarded to Hannan Brothers Company at its bid price

"Installation of traffic signals at two street intersections in the City of Medford, Jackson County: Trowbridge & Flynn Electric Company, Medford,

was the only bidder for this work at $3,875.00. The contract has been awarded to Trowbridge & Flynn Electric Company at its bid price.

"Installation of automatic traffic control signals at four street intersections in the City of Eugene, Lane County: C & S Electric, Eugene, submitted the low bid for this work at $8,315.00. There were two higher bids. The contract has been awarded to the low bidder C & S Electric at its bid price.

"Grading and paving the Depoe Bay-Miner Creek Unit of the Siletz Bay-Miner Creek Section of the Oregon Coast Highway, Lincoln County: Funderburk & Stoen Construction Company, Sutherlin, was the low bidder for this work at $1,245,874.00. There were eight higher bids. The bid of Funderburk and Stoen Construction Company in the amount of $1,245,874 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of a highway maintenance building at the state highway shops in Salem, Marion County: Enoch I. Maerz, Salem, submitted the low bid for this work at $13,990.00. There were six higher bids. The contract has been awarded to the low bidder, Enoch I. Maerz at his bid price.

"Paving the West Approaches to the Salem Bridge on the Salem-Dalles Highway in West Salem, Polk County: The Commission received two bids for this work, the low one being that of Warren Northwest, Inc., Portland, at $44,965.50. The contract has been awarded to Warren Northwest, Inc. at its bid price.

"Grading and paving the Glen Creek Road-Southern Pacific Railroad Section of the Salem-Dayton Secondary Highway in West Salem, Polk County: Warren Northwest Inc., Portland, was the low bidder for this job at $25,860.00. There was one higher bid. The contract has been awarded to the low bidder, Warren Northwest, Inc. at its bid price.

"Construction of a State Highway Building in the City of Pendleton, Umatilla County: Loree Building Service, La Grande, was the low bidder for this work at $10,512.80. There were two higher bids. The contract has been awarded to the low bidder, Loree Building Service, at its bid price.

"Installation of automatic traffic control signals at six street intersections in the City of La Grande, Union County: Zephyr Electric, Pendleton, submitted the low bid at $15,579.56. There were two higher bids. The contract has been awarded to Zephyr Electric at its bid price.

"Maupin-Cow Canyon-Shaniko Rock Production Project on The Dalles-California And Sherman Highways, Wasco County: The low bid for this work was submitted by Barney B. Helser, Union, at $37,290.00. Rogers Construction Company, Portland, submitted the only other bid at $41,100.00. The contract has been awarded to Barney B. Helser at his bid price.

"Grade widening and pavement surfacing on the Beaverton (Water Street-East Street) Section of the Beaverton-Hillsdale Highway in Beaverton, Washington

County: The Commission received two bids for this work, the low one being that or Porter W. Yett, Portland, at $9,394.00. The contract has been awarded to Mr. Yett at his bid price."

The Engineer brought up for discussion construction of a shop building at the Bend Division Headquarters. He recalled that the 1952 budget contains an amount of $150,000 for this purpose; however, he said, everyone concerned is of the opinion that the building at Bend should be of the same size as the recently constructed building at Salem, which cost $175,000. To duplicate this building, he said, would cost $250,000 in Bend including state force work on the grounds, costing about $50,000. In addition to the shop building, he said, another building should be provided in which to store equipment and to be used also as a warehouse, radio repair shop, etc. The estimated cost of such structure is $50 000, making a grand total of $300,000 for both buildings. He requested approval of the project as explained, and authority to advertise it for bids to be received by the Commission at its November meeting. As to financing the project, he stated that provision will be made in the 1953 budget to take care of the excess amount over the $150,000 that is contained in the 1952 budget. In the discussion of this matter, the question arose as to the adequacy of the division office building in Bend. The Engineer advised that some of the engineering crew have been moved out of this building into rented quarters, so as a temporary proposition, the present facility is satisfactory, but a new office building definitely will be needed later on. Chairman Chandler expressed himself in favor of constructing the office building along with the others. Commissioner Reynolds and Commissioner McIver did likewise. Accordingly the Engineer was authorized and instructed to prepare plans and specifications for all three buildings and to advertise them for bids to be received at one and the same time.

The Engineer presented for the Commission's consideration a revised list of projects for the tentative Five-Year Federal Aid and Bond Fund Program as a substitution for the projects shown in previously prepared statements which have become more or less obsolete by revisions during the past few months. The Commission deferred action in this matter until its next meeting.

The Engineer brought to the Commission's attention an item contained in the tentative 1954 Federal Aid Program which provides the sum of $220,000 for construction of the Smith River Bridge-Kellogg Section of the Elkton-Sutherlin State Secondary Highway, Douglas County. He advised that since this program was prepared, the people of Sutherlin have urgently requested improvement of that portion of the Elkton-Sutherlin Secondary Highway within the city limits of Sutherlin, specifically the section which extends from the existing Pacific Highway to the west city limits. He pointed out that a traffic interchange is to be constructed on the new Pacific Highway Expressway just west of the city limits, and in connection therewith a portion of the Elkton-Sutherlin Secondary Highway will be used as a main arterial between the town and the new highway. He gave as his opinion that it would be advisable to construct this short section of the

secondary highway simultaneously with construction of the new Pacific Highway. He estimated the cost of such improvement at $95,000, and he recommended that such sum be taken from the $220,000 tentatively allocated to the Elkton-Sutherlin Highway in the 1954 Federal Aid Program, the remaining $125,000 to be held in reserve for improvement of a section of this highway to be decided later. The Commission deferred its decision in the matter pending discussion of the program later in the session. (The change was approved by the Commission on the following day. See additional paragraph ahead.)

The meeting adjourned at 4:00 p.m., Pacific Standard Time, to reconvene on the following morning in the same room.

Portland, Oregon
August 19, 1952

The meeting of the State Highway Commission reconvened at 9:00 a.m. Pacific Standard Time, in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Commissioner M. K. McIver was excused from attending this session.

Bids as follows for highway construction were opened and read aloud by the Secretary in conformity with previously published notice, at the conclusion of which, it was announced that the awarding of contracts would be made at 3:00 p.m., Standard Time, in the same room:

CLACKAMAS COUNTY
WILSONVILLE BRIDGE

Guy F. Atkinson Co., Portland	$1,112,370.00
Carl M. Halvorson Inc., Portland	1,113,160.00
C. J. Montag & Sons, Portland *	1,128,395.00
General Construction Company, Portland	1,311,353.00

* Bidder will accept award of only one project.

COLUMBIA RIVER HIGHWAY IN CLATSOP COUNTY
PAVEMENT WIDENING ON ASTORIA SECTION

C. H. Grimstad & T. Vanderveldt, Astoria	$34,092.00

DOUGLAS COUNTY
COMSTOCK GRADE SEPARATION

Hamilton & Thoms, Eugene	$27,890.00
VaDare Construction Company, Portland *	28,990.00
Fred H. Slate Co. Oreg. Ltd. & E. C. Hall Co., Portland	32,680.00
Orlando C. Bennard, Portland	39,610.00

* Bidder will accept award of only one project.

COLUMBIA RIVER HIGHWAY IN GILLIAM COUNTY
FENCING ON ARLINGTON-HEPPNER JUNCTION SECTION

Carl Anderson, Walla Walla, Washington	$14,348.00
McWaters and Bartlett, Boise, Idaho	19,830.00
George E. Berry, Beaverton	22,751.00
Rogers Construction Company, Portland	33,780.00

MT. HOOD HIGHWAY IN HOOD RIVER COUNTY
GRADING AND BITUMINOUS MACADAM SURFACING

B. M. Emery Company, Portland	$47,049.00
Gibbons & Reed Co., Salt Lake City, Utah	47,853.50
Anliker & Robinson, Bend	48,761.00
A. H. Saxton & Son, Corvallis	53,041.00
Rex C. Ayers Construction Co., Portland	55,910.80
Arthur Simonsen, Baker	57,659.00
Kathman Construction Co., Estacada	66,259.00
C. J. Eldon, Portland	66,918.00
John A. Logan Portland	74,194.00

PACIFIC HIGHWAY IN JACKSON COUNTY
GRADING AND PAVING COUNTY FARM-ASHLAND SECTION

Acme Construction Company, Eugene	$378,055.25
Erland and Blickle, Portland	436,475.00
J. C. Compton Company, McMinnville	444,833.50
Fred H. Slate Co. Oreg. Ltd., Portland	456,770.00
Central Heating Co. Oregon Limited and F. L. Somers, Eugene	483,195.00

August 19, 1952

GREEN SPRINGS HIGHWAY IN JACKSON COUNTY
LINCOLN DWELLINGS

Harold W. Salter, Rogue River	$25,986.00
Ausland & Dodson, Grants Pass	28,986.00
R. E. Meade & Company, Grants Pass	31,100.00

McANDREWS ROAD IN JACKSON COUNTY
BEAR CREEK BRIDGE

Tom Lillebo, Reedsport	$58,228.00
R. E. Meade & Company, Grants Pass	58,400.00
VaDare Construction Company, Portland *	59,445.00
Ausland & Dodson, Grants Pass	63,030.00
Hamilton & Thoms, Eugene	67,810.00

* Bidder will accept award of only one project.

COLUMBIA RIVER HIGHWAY IN MORROW COUNTY
GRADING AND OIL MAT SURFACING

Leslie Harris, Pendleton	$12,924.80
Russell Olson Construction Co., Pendleton	15,615.00
Arthur Simonsen, Baker	16,192.50

T. H. BANFIELD EXPRESSWAY IN MULTNOMAH COUNTY
GRADING 92ND AVENUE-FAIRVIEW SECTION

Gibbons & Reed Co., Salt Lake City, Utah	$468,483.50
R. A. Heintz Construction Company, Portland	474,696.50
Guy F. Atkinson Co., Portland	484,273.50
Rogers Construction Company, Portland	499,227.00
Durbin Bros. Eugene	500,541.00
F. C. Scott Construction Co., Portland	549,959.90
Vernie Jarl, Gresham	550,989.00
Roy L. Houck & Son, Salem	557,782.00
Kuckenberg Construction Company, Portland	561,605.00
Parker-Schram Co., Portland	572,223.00
Fred H. Slate Oreg. Ltd. & E. C. Hall Co., Portland	575,680.00
C. J. Montag & Sons, Portland *	605,158.10
J. N. Conley, Portland	620,601.50
Peter Kiewit Sons' Co., Longview, Washington	630,901.00
McNutt Bros., Eugene	691,512.00

* Bidder will accept award of only one project

KINGS VALLEY SECONDARY HIGHWAY IN POLK COUNTY
GRADING AND PAVING

Central Paving Co., Dallas	$141,416.50
E. C. Hall Co., Portland	153,883.00
Porter W. Yett, Portland	167,002.00

COLUMBIA RIVER HIGHWAY IN WASCO COUNTY
MOSIER CONNECTION GRADE SEPARATION

Teller Construction Co., Portland	$30,435.50
Parker-Johnson Co., Portland	33,758.50

Mr. J. P. Steiwer, Secretary of the Fossil Community Club and Mr. Van Rietmann, member of the Highway Committee, were present and renewed their request for improvement of the Butte Creek Summit Section of the John Day Highway in Wheeler County. They also asked the Commission for a copy of the Engineer's report on his economic studies of highways in this vicinity. Mr. Steiwer was the principal spokesman. He urged the Commission to widen the highway at some of the worst places and to provide an improvement similar to that which the Commission recently contracted between Service Creek and Spray. Commissioner Reynolds recalled that the Commission some time ago authorized an allocation of highway funds to improve some of the worse spots on the Butte Creek-Summit Section, but later transferred the money to the Service Creek-Spray Section at the request of the Fossil Club. The Commission, he said, is in sympathy with the present request, but simply does not have the funds available to finance standard improvement. Mr. Steiwer again urged improvement of only the worst places. The Commission agreed to give the matter early consideration and instructed the Engineer to render a cost report on the project. He was also instructed to send the club a copy of his economic report.

The following persons composed a delegation from the City of Hermiston who appeared before the Commission and requested several highway improvements. Kenneth Hodge, Secretary, Manager of the Chamber of Commerce, S. E. Prothero, City Commissioner, and Sam Sellers, member of the Chamber of Commerce. Mr Hodge headed the group and presented the following projects:

(1) Widening of the underpass at the Union Pacific Railroad main line crossing of ORE 207 south of Hermiston.

(2) Solution of what he termed a critical traffic congestion problem that exists in Hermiston at a point where five state highways converge at one intersection. He suggested installation of traffic lights and a

semi-grid system, with one-way traffic north and south, particularly urging a signal installation at the intersection of Gladys Street and First Street.

(3) Erection of more adequate road signs at the intersection of US 30 and ORE 207 at a place known as Bucks Corner.

(4) Widening of first bridge south of Hermiston on the old highway, US 30.

With respect to the Union Pacific Railroad underpass, Commissioner Reynolds advised that the Commission has this project in mind, but to date has not been able to finance it; however, it will be given consideration. The Engineer was thereupon instructed to review the matter and report his findings at the next meeting of the Commission.

With respect to the second request, the Engineer advised that a traffic investigation already has been made and according to the information gathered, signals are not warranted. Mr. Prothero questioned the Engineer's remarks insofar as it pertains to peak hour traffic. He further stated that the City of Hermiston will pay 50 percent of the cost to install a proper signal at the intersection of Gladys and First Streets. The Engineer was instructed by the Commission to give the matter further study, particularly as it concerns the peak hour traffic and to report his findings at the next meeting of the Commission.

As to request No. 3, the Commission instructed the Engineer to give this matter further study and to report his findings at the next meeting.

Concerning the widening of the narrow bridge one mile south of Hermiston, Mr. Sellers mentioned that the highway carries a large volume of traffic and that serious accidents frequently occur. He declared that the existing bridge is a definite hazard. The Engineer was instructed to investigate the matter and report at the next meeting.

The following persons composed a delegation representing the City of Portland,which appeared before the Commission regarding adoption and improvement of N. W. Thurman Street, Portland, as a major arterial, and as a route for US 30 through the northwestern part of the City. Hon. Dorothy McCullough Lee, Mayor, William A. Bowles, Public Works Commissioner, Armond R. Bean, Commissioner of Finance, Lloyd T. Keefe, and Harry Shroufe, Director and Chairman, respectively, of the City Planning Commission, Floyd Ratchford, Harlan Nelson, and Margaret Fritsch representing the Portland Housing Authority, and Guy E. Jaques,, Chairman of the Portland Redevelopment Advisory Board. Mayor Lee headed the group. She explained briefly the program of the housing authority of the City of Portland for the redevelopment of the industrial area of Northwest Portland north of Vaughn Street, and she declared that in connection therewith, it is essential that N. W. Thurman Street be improved as a major arterial in order to provide a better and more acceptable route for travel between Northwest 19th Avenue and Northwest St. Helens Road. She gave as the feeling of the City

Council that it is reasonable to ask the State Highway Commission to provide for the improvement of Thurman Street because this street makes a much better connection between Northwest 19th Avenue and Northwest St. Helens Road than does Vaughn Street, the presently designated route of US 30. Others speaking in behalf of the project were Mr. Jaques who explained details with respect to the Vaughn Street redevelopment project which he said involves a changeover of residential property to industrial property. Mr. Shroufe , who read aloud a prepared statement containing two recommendations, one being for a new bridge across the Willamette River at the end of Northwest 14th Avenue and the other being a two-phased proposal for routing US 30 traffic through Portland (for details see copy of statement in General Files). Mr. Ratchford briefly stated that the housing authority is in full accord with the sentiments expressed by the other speakers. Chairman Chandler advised that the improvement of Thurman Street is a major project that will involve an expenditure of a large sum of money which the Commission does not have available at the present time; moreover, all state highway funds for the Portland area for the next six or seven years has been committed, so the Commission is in no position now to offer much encouragement. Mr. Jaques contributed the information that the plans for the redevelopment project will not be completed for about a year and that the next thing will then be to move the people out of the district. He also said that the Federal Government will contribute two-thirds of the expense involved, but some other body will have to contribute the balance. The immediate need, he said, is not money, but information whether or not the state will adopt Thurman Street as the route of US 30 if that appears advisable in the future. Mayor Lee expressed her understanding of the Commission's situation, but she asked the Commission to authorize an investigation to determine the feasibility of the project. Mr. Shroufe also asked the Commission to authorize an engineering study. Chairman Chandler replied that there is a shortage of engineers in the State Highway Department and that many of those now employed are required to put in over-time in order to complete their assignments, in view of which, the Commission is not in position to state how soon or when such a study can be made. He gave as the feeling of the Commission that the problem, at least presently, is one that the City must solve on its own account although, he added, some future Commission may feel differently about that. In the meantime, he said, that, if time will permit, a study of the situation will be made. This concluded the conference.

The Right of Way Engineer brought to the Commission's attention a claim filed by Mr. Clay Booth for damage to his property caused by construction of the Big Creek Section of the Lower Columbia River Highway It appears that the highway construction caused Mr. Booth's well to go dry and that Mr. Booth wishes compensation for his loss. The Right of Way Engineer advised that he has reached a settlement with Mr. Booth, whereby he will release the state from its obligation to provide a new well if paid the sum of $75. He recommended payment of such sum as being a just and fair settlement. The Commission approved the recommendation.

The Engineer brought to the Commission's attention the log hauling

operations of Mr. Walter Vale over the Columbia River Highway from Latourelle Falls to Portland. It appears that Mr. Vale truck-hauls logs for a Mr. James Sturman and that his loads originate at Latourelle Falls from which place he operates over the old Columbia River Highway to Bridal Veil and from that point he hauls over the new Columbia River Highway to Portland. It also appears that Mr. Vale obtained a temporary P. U. C. permit from the Portland representative of the Public Utilities Commissioner which indicated that he could truck-haul the logs into Portland over the route that he has been using, however, his interpretation was in error because the truck hauling of logs is not permitted over the new highway, and his request for such a permit was denied. Mr. Sturman and Mr. Vale, he added, offered objections to the decision of the Highway Department, and they engaged an attorney who was to have ppeared before the Commission at this meeting, but whose appointment was cancelled. He recommended that the action taken by the Permit Department denying Mr. Vale his permit be confirmed and that all applications for the privilege of truck-hauling logs over this highway be denied. The Commission approved the recommendation unanimously.

The meeting recessed at 12:00 noon Standard Time, and reconvened at 2:00 p.m. Standard Time, with the same persons present and participating.

A delegation from Culver, Madras, and Prineville appeared before the Commission to urge construction of a state secondary highway easterly from Culver to a connection with the Madras-Prineville Secondary Highway. The following people were present: Dave Law, President of the Culver Chamber of Commerce; Leo Gessner, Secretary-Treasurer of the Culver Chamber of Commerce; B. N. Dickerson, W. E. Frazier, and A. E. Greenwall, members of the Culver Chamber of Commerce; Jack T. Chinnock, member of the Madras Chamber of Commerce; and Ralph Brown, member of the Prineville Chamber of Commerce. Mr. Dave Law headed the group and introduced the members. He briefly explained what they have in mind and called upon others for details. Mr. Chinnock pointed out that presently it is necessary for residents of Culver to drive eleven extra miles to get to Prineville and that construction of the highway as requested would eliminate this extra drive and would serve also as a great benefit to farmers in marketing their produce; moreover, it would be a great aid to the Culver fire protection district and would provide better access to Cove State Park. Mr. Brown stated that the Prineville Chamber of Commerce is heartily in favor of the project. Chairman Chandler advised that there are many roads in the state, as well as others in this area which have higher priority for improvement than the road under discussion, and he gave as his feeling that it would be a number of years before money would be available to construct the road the delegation wants. He also said that the Commission considers the proposed "cut-off" more of a county project than the State's, and that the Commission has an established policy which will not permit additions to the State Secondary Highway System until improvement of the roads on the present system is farther advanced.

Mr. P. A. Joss attorney, Portland, was present with his client,

Mr. Earl R. Marsh, of Boring, Oregon, regarding Mr. Marsh's claim for damages arising out of what he alleges was the unauthorized use of his property by the State in connection with the improvement of the Milwaukie-Estacada Highway. Mr. Joss stated that some years ago Mr. Marsh purchased forty acres of land at this location for use as a home and recreational area, but in 1947 the State purchased a quarry site adjacent to Mr. Marsh's property for use in construction and maintaining highways in this vicinity and that in the State's use of this property encroachment was made upon Mr. Marsh's land, particularly a narrow strip which lies between the highway and the State's property. Mr. Marsh, he said, spoke to the Highway Department's representatives and asked them not to encroach upon his land, but his request was not granted and as a result Mr. Marsh has suffered losses as follows:

(1) Trespass on the northern part of his property. Felling of trees and removing of gravel and rocks from his land. Also the destruction of a windbreak which he had established for his residence.

(2) Destruction of the only means of access he had to his remaining property on which he contemplated constructing cabins but cannot do so now because of lack of access to the area except up a steep cliff.

(3) By the State's removing a portion of land on the east side of Mr. Marsh's property, Mr. Marsh's land no longer has lateral support.

(4) Destruction of a spring on Mr. Marsh's land which was used as domestic water supply and for irrigation. Because of the destruction of the spring, Mr. Marsh was forced to purchase additional acreage in order to obtain a new water supply.

(5) Not only did the State usurp some of Mr. Marsh's land and remove rock therefrom without compensating Mr. Marsh, but certain waste materials were deposited back on his property where it constitutes a nuisance in the form of dust and silt on his grazing land.

Chairman Chandler inquired why these facts were not contained in Mr. Marsh's letter to the Commission, and he also asked what Mr. Marsh wants the Commission to do in order to dispose of the claim. Mr. Marsh replied that the State took his land without his consent and in his estimation the State should pay for it. He asserted that he had to purchase six acres of additional land at the cost of $3,000 in order to provide a new water supply and that he believed that he is entitled to $5000 damages. As a result of the discussion, Chairman Chandler advised that so far as the Highway Commission is concerned, the dispute is a matter of establishing property lines which should be settled by the courts and that when that is done, the Commission will be in a position to give the matter further consideration.

A delegation representing the Central Oregon Chamber of Commerce was present and requested modernization of The Dalles-California Highway between Terrebonne and Crooked River Bridge in Deschutes County. Present were Fred Baer, Redmond; Howard W. Turner, Madras;

Marion Cady, Clyde McKay, and Frank Loggan, Bend, all of the Central Oregon Chamber of Commerce; W. L. Houk, Chairman of the Highway Committee of the Redmond Chamber of Commerce; P. M. Houk, Redmond Chamber of Commerce; Ralph Brown, Prineville Chamber of Commerce; Dave Law, A. E. Greenwell, W. E. Frazier, B. N. Dickerson, and Leo Gessner, Culver Chamber of Commerce; and Boyd Overhulse and Jack Chinnock, Madras Chamber of Commerce. Mr. Turner headed the group and introduced Mr. Baer, their principal spokesman, who presented a written brief in behalf of their project and in support thereof stated orally that the project is about four miles in length, that it serves a rich agricultural area, is a favorite scenic drive for tourists and improvement would also be of benefit to lumber and log haulers. He declared that this section of highway has had no particular improvement in the past 20 years and that the high crown and the narrow pavement are conducive of serious traffic accidents. He urged immediate reconstruction of the section. Chairman Chandler advised that improvement of this section is being considered by the Commission in its long range program and a tentative allocation of funds has been made (1954-1955) to bring it up to modern standards; also that if the 1953 legislature authorizes the sale of additional highway bonds the job will be done.

A delegation from Condon, Moro, and Fossil, headed by E. R. Fatland, Condon, appeared before the Commission to request further improvements to the Cottonwood Canyon Section of the Wasco-Heppner Secondary Highway in Gilliam County. Others in the group were Van Rietmann, Condon Commercial Club, Highway Committee; J. S. Burres, Moro; J. P. Steiwer, Secretary, Fossil Community Club; Bob Smith, Condon; and George Kaseberg, The Dalles. Mr. Fatland introduced Mr. Van Rietmann who urged the Commission to place an oil surfacing on the road which was recently graveled but which is not proving satisfactory, and people are taking another route which is much longer in order to avoid existing conditions on Cottonwood Grade. He expressed the feeling of the people of this district that an oil macadam will provide the only satisfactory solution of their problem. The Engineer pointed out that only about 50 vehicles per day travel this road and that it had been found by past experience that to justify the expense of oiling a road, the traffic volume should be at least 300 vehicles daily. He further advised that it is planned to place a filler to bind the loose gravel, and he gave as his opinion that the road will be in good condition by next spring. Mr. Burres asked the Commission to restore legal weight loads on the bridge over the John Day River. He gave as his feeling that the present bridge will stand up under such loading because he has tested it out by driving 200 head of cattle over it, weighing about 100 tons. He was informed that the Engineer feels that the bridge is not safe for loads weighing in excess of the amounts for which the bridge is posted and that the Commission must follow the Engineer's recommendations in such matters. Mr. Fatland stated that with a reduced load limit on the bridge and loose gravel on the road, traffic will not use it and prefers a roundabout route 30 miles longer. He expressed appreciation for anything that the Commission may do to improve conditions, and advised that they are particulatly concerned with the oiling project. Chairman Chandler stated that the Commission appreciated the problem involved and that a real effort is being made to get the road in a decent, passable condition. Commissioner Reynolds pointed out that two contracts, totaling approximately $110,000, have been awarded on

this highway and he gave as his feeling that when this work is completed the road will be in good condition. Chairman Chandler concluded the discussion by stating that an effort is being made to stabilize the road by addition of filler material, and that if this method does not prove satisfactory then it will be necessary to try something else.

The Commission discussed with the Engineer the bids received at the morning session for highway construction and at 3:00 p.m., Pacific Standard Time, Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the action of the Commission in each instance being by unanimous vote:

"Construction of piers, approaches, etc., for the bridge over the Willamette River on the West Portland-Hubbard Highway at Wilsonville in Clackamas County: Guy F. Atkinson Company, Portland, submitted the low bid for this project at $1,112,370. Four higher bids were received. The Commission has awarded the contract to the low bidder, Guy F. Atkinson Company, at their bid price.

"Pavement widening on the Astoria Section of the Columbia River Highway in Clatsop County: The only bid submitted for this job was that of C. H. Grimstad and T. Vanderveldt, Astoria, in the sum of $34,092. The contract has been awarded to C. H. Grimstad and T. Vanderveldt, at their bid price.

"Construction of the Comstock Grade Separation Crossing on the Divide-Anlauf Section of the Pacific Highway in Douglas County: The low bid for this project was submitted by Hamilton and Thoms, Eugene, at $27,890. Three higher bids were received. The Commission has awarded the contract to Hamilton and Thoms at their bid price.

"Construction of 4,000 rods of fencing on the Middle Unit, Arlington-Heppner Junction Section of the Columbia River Highway in Gilliam County: Carl Anderson, Walla Walla, Washington, submitted the low bid for this work at $14,348. Also submitted were three higher bids. The Commission has awarded the contract to the low bidder, Carl Anderson at his bid price.

"Grading and bituminous macadam surfacing on the Whiskey Creek Section of the Mt. Hood Highway south of Hood River in Hood River County: B. M. Enery Company, Portland, submitted the low bid for this job at $47,049. Also submitted were eight higher bids. The contract has been awarded by the Commission to the low bidder, B. M. Emery Company, at their bid price.

"Grading and paving on the County Farm-Ashland Section of the Pacific Highway north of Ashland in Jackson County. The low bid for this project was submitted by Acme Construction Company, Eugene, at $378,055.25. Four higher bids were also submitted. The bid of Acme Construction Company in the sum of $378,055.25 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as

soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construct two frame dwellings at Lincoln on the Green Springs Highway in Jackson County. Harold W. Salter, Rogue River, submitted the low bid for these buildings at $25,986. Two higher bids were also received. The Commission has awarded the contract to the low bidder, Harold W. Salter, at his bid price.

"Construction of a concrete viaduct over Bear Creek on McAndrews County Road in Jackson County. The low bid for this project was submitted by Tom Lillebo, Reedsport, at $58,228. Four higher bids were received. This is a county project advertised in behalf of the County Court; accordingly the Commission has referred all bids to Jackson County Court for further handling.

"Grading and oil mat surfacing on the East Connection of the Boardman Junction Section of the Columbia River Highway in Morrow County. The low bid for this job was submitted by Leslie Harris, Pendleton, at $12,924.80. Two higher bids were received. The bid of Leslie Harris in the sum of $12,924.80 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared.

"Grading and service road construction on the 92d Avenue-Fairview Section of the T. H. Banfield Expressway in East Portland, Multnomah County. Gibbons & Reed Company, Salt Lake City, submitted the low bid for this project at $468,483.50. Also received were 14 higher bids. The bid of Gibbons & Reed Company in the sum of $468,483.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading, paving, and construction of three bridges on the Fern Corner-Burns Corner Section of the Kings Valley Secondary Highway in Polk County. Central Paving Company, Dallas, submitted the low bid for this job at $141,416.50. Two higher bids were received. The Commission has awarded the contract to the low bidder, Central Paving Company, at its bid price.

"Construction of the Mosier Grade Separation Structure over the Columbia River Highway near Mosier in Wasco County. Only two bids were received for this job, the low one being that of Teller Construction Company, Portland, at $30,435,50. The Commission has awarded the contract to the low bidder, Teller Construction Company, at its bid price."

Mr. Frank J. Kernan, Portland, was present regarding a right of way across the property of the Kernan Live Stock Farm to be used for a connection between Swift Secondary Highway and US 99W in North Portland. Mr. Kernan presented a letter in which he states his willingness to settle this long-standing controversy on certain conditions specified therein. (For details see copy of letter dated August 19, 1952 in General Files.) Mr. Kernan was

informed by Chairman Chandler that the Commission had abandoned this highway project because it appeared that reasonable arrangements could not be made with respect to right of way needed across property belonging to the Kernan Live Stock Company and across property of the Pacific International Live Stock Exposition. The Commission, he said, will refer the letter to the State Highway Engineer for review and should the matter come up again for discussion, it will be as an entirely new project. .

A delegation from the City of Hood River representing the Chamber of Commerce and composed of the following persons, was present concerning the development of a roadside park at a place known as Koberg Beach, adjacent to the Columbia River Highway west of the City of Hood River: R. E. Steele, Secretary, Chamber of Commerce; D. L. Pierson, member; and Waldo Arens, Perpetual Road Committeeman. Mr. Steele headed the group. He urged the Commission to give serious and favorable consideration to the development of a roadside park at this place where, he said, many people congregate and where conditions will be much worse when the new highway is completed than they presently are at the Sandy River Bridge near Troutdale. Mr. Pierson inquired whether or not the Highway Commission has taken adverse action on their previous request. He was informed by Chairman Chandler that the Commission has decided not to undertake this development. Mr. Pierson then urged the Commission to reconsider and at least to construct a roadway into the area so people will have access to the beach. He also inquired whether or not the Commission's action was based on cost. He was informed to the contrary and that the main reason the Commission decided against the development was because of the traffic hazards that would be created. Mr Arens expressed concurrence in the statements of the other speakers. He also asked the Commission for an additional improvement on the Mt. Hood Highway at a place known as "Fikes Corner" where, he said, a very hazardous condition definitely exists and has existed for thirty years, because of the many bad curves in the highway alignment. He was informed by Chairman Chandler that the Commission is aware of the conditions that exist at that place but a large amount of money is involved which the Commission presently does not have available. He added that the Commission will bear the project in mind and will grant relief in the future if possible.

The following persons composed a delegation from Lane County which presented to the Commission a number of highway projects in the Eugene-Springfield area: D. T. Bayly, County Judge, Lane County; Oren King, City Manager of Eugene, L. B. Bartlett, City Manager of Springfield; and Oliver Larson representing the Springfield Chamber of Commerce. Mr. Larson headed the group and introduced the speakers. He briefly stated that the Lane County metropolitan area, which consists of the Eugene area, the Springfield area, and the River Road District, are still in accord with the program of projects that were presented to the Commission some months ago, which projects are as follows:

(1) Construction of a highway extending from the Ferry Street Bridge

in Eugene to the intersection of Mill and "Q" Streets in the City of Springfield, along the north side of the Willamette River.

(2) Improvement of the Secondary Highway which extends from Springfield to a junction with Highway No. 58 via the new Jasper Bridge.

(3) Railroad overcrossing connecting the North River Road to Blair Street in Eugene.

(4) Construction of an industrial by-pass road connecting the River Road with the Ferry Street Bridge along the south side of Skinners Butte.

Mr. King inquired as to the Commission's plans with respect to these projects and when they will be started. He expressed a hope for construction in 1953. Judge Bayly suggested that the first of the above-mentioned projects be held in abeyance for the time being and that the other three projects be expedited in the order listed. In support of his oral argument, he presented a letter signed by the members of the county court and a letter from the Springfield Chamber of Commerce, together with pictures, in which letters additional information is given to emphasize the importance of the projects they have in mind. The committee was informed by Chairman Chandler that the Commission will keep in mind the projects that they request, but the Commission is not in a position to make a definite statement regarding them at this time. He then brought up for discussion the South "A" Street project in the City of Springfield and in connection therewith he mentioned that the Commission has held in reserve for a long time $335,000 for this project and wants to get the work under way as soon as is possible pursuant to previous agreement with the City. Mr. Bartlett reported the status of right of way negotiations, stating that the City is working on the project to the best of its ability and expects to have the few remaining details ironed out satisfactorily in the near future. This concluded the conference.

The following persons composed a group which appeared before the Commission regarding the allocation of Federal Aid Secondary Highway Funds to the counties for county road construction, and regarding construction of a new bridge across the Columbia River near The Dalles. County Judge Ward R. Webber, Wasco County, member of the committee of the Associations of Oregon Counties, Colonel Ralph A. Tudor, Consulting Engineer on The Dalles Bridge, Mr. Wm. S. Nelson, Manager, The Dalles Chamber of Commerce and George Otten, Landscape Architect, Portland: Judge Webber advised that all of the county courts of the State were polled with regards to a suggested formula for the allocation of the Federal Aid Secondary Highway Funds that are required to be spent for county road improvements, and that replies were received from thirty of them, and of the thirty, twenty-seven approved the formula and three disapproved. He recommended in view of this showing that the Highway Commission agree to the formula which reads as follows:

"That 25% of the federal funds available for county roads on the Federal Aid Secondary System in Oregon be divided equally between the counties,

and that of the remaining 75% of such funds 80% be allocated to the counties on the basis of rural population and 20% on the basis of county road mileage as shown by the most recent records of the State Highway Department."

Chairman Chandler advised that he personally is rather skeptical as to the operation of the formula because some of the counties may have to wait for improvements that they want and there are possibilities of disagreements occurring, however, the Commission has unanimously adopted the formula as a trial proposition for the two-year period for which federal funds have been provided, it being understood that if the formula does not work satisfactorily, the matter will be reconsidered. Judge Webber agreed to such procedure.

Judge Webber then brought up for discussion matters pertaining to the proposed bridge over the Columbia River near The Dalles. He called upon Colonel Tudor to speak on this subject. Colonel Tudor recited the status of the project and advised that they expect to advertise it for bids to be received about October 1, 1952 and that the bridge would be completed and ready for public use the latter part of 1953 or early in 1954. Colonel Tudor also outlined their plan for financing this structure advising that they expect to receive a contribution of federal funds in the amount of $1,994,000 and that the county has on hand a balance of $1,600,000 to go with the federal money, but it is going to be necessary for the county to sell additional bonds in the amount of $570,000 to complete the financing. He also mentioned that their present plan provides for a new connection of US 97 with US 30 near The Dalles. Judge Webber emphasized the need for such new connection which he said would assist greatly in the sale of the additional bonds. He explained that the plan involves reconstruction of the present US Highway 97 from a point about six miles south of The Dalles to The Dalles, following generally the route of the old Dufur Road which will provide a facility between common points eleven miles shorter than the present highway. He also advised that Wasco County will furnish right of way for such a highway if the Highway Commission will build it, and he urged approval of the project so that construction of the highway will be completed at the same time that the bridge is finished.

Judge Webber also mentioned a housing problem in connection with this change at a place known as Three Mile Creek where it is planned to erect buildings for the accomodation of men working on the Columbia River Dam located a short distance up stream from the bridge. Mr. Otten explained details with respect to the housing project , and Mr. Nelson presented further arguments in support of the housing project and the new highway. The question arose as to how much the new highway will cost. The Engineer roughly estimated its cost at about $1,000,000.00. The general discussion which followed was concluded by Chairman Chandler who advised that the project involves a question of money and may mean the transfer of funds in the Wasco County area, however, the Commission will see what can be done if the 1953 Legislature authorizes the Commission to sell additional bonds for highway improvements.

The Chief Counsel brought to the Commission's attention additional properties, as follows, that are needed as right of way for various highway improvements:

Mehama-Mill City Section of the North Santiam Hwy	Recommended Offer
R 16483 - Fenton Groblebe Right of Way (Marion) Parcel No. 1: 5.60 acres Parcel No. 2: 1.55 acres	$ 500.00
Owyhee River Bridge Section of the Nyssa-Adrian Highway	
R 19461 - Eleanor McEwan Right of Way (Malheur) 1.05 acres	*
Medford-County Farm Section of the Pacific Highway	
R 19114 - E. H. Lamport, et ux. Right of Way (Jackson) 0.20 acre	*
Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway	
L 1816 - C. R. Lawrence, et ux. New resolution to be prepared	*
L 1818 - I. R. Lawrence, et ux. New resolution to be prepared	*

He requested authority to condemn such properties if necessary and to tender offers for the same in conformity with instructions given him in the resolution the Commission adopted at its meeting on December 20, 1951. The Commission unanimously approved the request by adoption of the attached resolutions relative thereto marked EXHIBITS, "N-1" through "N-4" inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

FOOTNOTE * Offer to be made in conformity with provisions of resolution adopted by the Commission at its meeting on December 20, 1951.

The Right of Way Engineer asked the Commission to confirm the sale of a house located on the Rhododendron-Still Creek Section of the Mt. Hood Highway near Rhododendron (File No. 12372 - Kearnes). He advised that the house was advertised for sale by the auction method along with a small parcel of land which was not needed for right of way purposes, and that a Mr. Carl Jacobson submitted the high bid for the property at $525

which was considered satisfactory and the house was sold to him. The Commission approved the sale.

Chairman Chandler brought up for discussion the matter of constructing cattle passes in connection with highway improvements. He inquired whether or not provision is made in the annual budget for such facilities as minor betterments. He was informed by the Engineer that the budget does make provision for such action. Chairman Chandler then mentioned the need for cattle passes at several locations on the Oregon Coast Highway between Coquille and Bandon, particularly at Lampa Creek and Bear Creek, where dairy cattle cross the highway several times daily and where conditions are very bad. The Engineer was instructed to investigate these crossings.

Chairman Chandler also brought up for discussion the matter of a survey of the Oregon Coast Highway between Rocky Point and Euchre Creek in Curry County. The Engineer was authorized and instructed to conduct a location survey of this section.

Also reported by Chairman Chandler was a request by the people of Gold Beach that the recent improvement of the Oregon Coast Highway at this place be extended. It was the feeling of the Commission that this project should be deferred for the time being.

Chairman Chandler also brought up for consideration the matter of paving the section of the Coos River Secondary Highway between Enegren Ferry and Coos River Crossing. He pointed out that it might be to the advantage of the State to contract this work in the near future while a paving plant is available near by on another project. The Engineer gave as his feeling that this project can be advertised for bids to be received at the November meeting of the Commission if federal funds with which it is proposed to finance it are released before that time.

The matter of striping state highways was mentioned by Chairman Chandler. The Engineer advised that painting of stripes is done on all highways at least once a year and sometimes, if conditions warrant, the stripes are painted twice. Commissioner Reynolds mentioned that the Sunset Highway had not yet been striped this year to which the Engineer replied that pavement operations were underway on this highway and that the stripes will be painted as soon as the paving work is done.

Consideration was given by the Commission to the adoption of a highway construction program for 1954-55-56 Federal Aid Funds covering Interstate highways, Primary Highways, Urban Highways, and State Secondary Highways, but not including County Secondary Highways. In this connection the Engineer presented a list of the projects that are eligible for the funds under discussion. As a result of careful consideration the Commission unanimously approved the following projects for the 1954 federal funds, and authorized the Engineer to present the program to the Bureau of Public Roads for its approval so the projects may be advertised for bids immediately after the federal funds have been released. The

selection of projects for the 1955 and 1956 federal funds was deferred until later.

PROGRAM	1954 FEDERAL FUNDS	INTERSTATE
County	Highway, Section and Description	Allotted Amount
	DIVISION NO. 1	
Multnomah	Banfield Expressway. Unit #5 (To apply on paving)	$ 174,000.00
	DIVISION NO. 2	
Marion	Salem By-pass. (To apply on grading and paving)	$ 139,000.00
	DIVISION NO. 3	
Douglas	Pacific. Elkhead Road-Rice Hill, Structures	168,000.00

	Subtotal, Division No. 5	$ 720,000.00
	Total, All Divisions	$2,400,000.00

The Commission discussed, approved, and signed agreements, etc., as follows:

Termination and release agreement with the U. S. Government re transfer of title of one acre of land on Tillamook Head.

Ground Lease with Mr. Frank Oliver on the John Day-Prairie City Section.

Lease Agreement with the City of Tualatin covering a stock pile site.

"Indenture of Access" re change of access for Oscar and Evelyn Jones on the Forest Grove Section of the Wilson River Connection.

Deed re acceptance of offer of Mr. E. J. Johnson to pay $125.00 for small parcel of land in City of Florence.

Memorandum of Agreement with Dr. Hendricke re building encroachment on his property on Banfield Expressway in Portland.

Agreement with City of Salem providing for construction of a dike at the west approach to the Willamette River Bridge in Salem, the City to pay 100 percent of cost of proposed work, which is estimated at $12,000.

Agreement with Columbia County providing for maintenance of the Beaver Ammunition Storage Point Access Road when construction of such road has been completed by the State.

Agreement with Clackamas County providing for abandonment of a portion of the old route of the Mt. Hood Highway at Rhododendron.

Ground Lease with J. R. Woods & Sons for twenty year lease of stockpile site. Consideration $50.00.

Voucher No. 15268 covering payment of $108,750 interest on highway bonds due September 1, 1952.

Agreement with State Game Commission re right of way for improvement of US 101 at Eel Lake, Coos County.

Lease Agreement with Robert Harper, et al., covering purchase of gravel materials needed for the Benton County Line-Cheshire Section of the Territorial Secondary Highway, Lane County.

"Indenture of Access" granting to Mr. and Mrs. W. K. Deal change in access point to their property on the Forest Boundary-Hauser Section of US 101, Coos County.

Agreement with Multnomah County with respect to its demand for an underpass on Banfield Expressway at 132d Avenue, Portland.

"Indenture of Access" with Robert E. Rice for property in Section 13 & 14, Township 25 South, Range 6 West, W. M., Douglas County.

Permit Agreement with Moore Mill and Lumber Company covering their use and maintenance of an existing logging road in Humbug Mountain State Park in Curry County.

Agreement with City of Beaverton covering the cooperative construction Project on Broadway Street (Beaverton-Hillsdale State Highway).

Agreement with City of La Grande covering traffic signal installations along Adams Avenue in City of La Grande.

Quitclaim Deed to Wasco County re Deschutes River Spur abandonment.

Bargain & Sale Deed to Carl Jacobsen for parcel of land in Lot 5, Block 11, Rhododendron, Section 11, Township 3 South, Range 7 East, W. M., Clackamas County.

The meeting adjourned at 5:00 p.m., Pacific Standard Time.

EXHIBITS "A" through "N"

Minutes of

August 18 and 19, 1952

EXHIBIT "A"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other material sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission, outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

UNIT #3 - T. H. BANFIELD EXPRESSWAY

14729 - Meyer Foundation (Cooper)
Right of Way
Option expires August 15, 1952

5850 sq. ft.	Lump Sum	$1,500.00
Amount to be paid owner - chrg to Right of Way		$1,500.00

Takes all -

Confirmation of approval by Commissioner M. K. McIver
7-30-52

EXHIBIT "A" (cont.)

WEST PORTLAND HARBOR DRIVE-EXPRESSWAY

19325 - Sweeney, Rex O. and Opal L. (Smith)
Right of Way
Option expires January 1, 1953

1 Lot	Lump Sum	$ 480.94
House - 1089 sq. feet.		9,000.00

Amount to be paid owner - chrg to Right of Way $9,480.94

Takes all -

State to assume 1952-53 taxes. Estimated Cost $ 150.00

19356 - McMahon, Patrick H. and Ruth Emma (Smith)
Right of Way
Option expires December 27, 1952

50x80 Lot.	$ 750.00
House - 1032 sq. ft.	8,000.00

Amount to be paid owner - chrg to Right of Way $8,750.00

Takes all -

State to assume 1952-53 taxes. Estimated Cost $ 130.00

19358 - Gillson, Ivan E. and Oretta (Johnson)
Right of Way
Option expires January 10, 1953

5,300 sq. ft. at $0.10 per foot.	$ 530.00
Allowance - lawn and shrubs.	150.00
House - 969 sq. ft.	6,783.00

Amount to be paid owner - chrg to Right of Way $7,463.00

Takes all -

State to assume 1952-53 taxes. Estimated Cost $ 125.00

19355 - Weidlick, George W. and Louise H. (Smith)
Right of Way
Option expires December 25, 1952

EXHIBIT "B"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's minutes or records;

AND, WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission;

AND, WHEREAS, for the purpose of supplementing such informal record and action, it is the purpose of the Commission at this time to ratify all options so taken;

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction or other improvement of the following named hignway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved:

County and Section	Highway
COLUMBIA	
Inglis-Beaver	Beaver Access Road
COOS	
Coquille Maintenance Shops	
MORROW	
Morgan-Heppner (Maint. Site)	Heppner
POLK	
Brunks Corner	Salem-Dallas No. 30

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is ratified.

(cont.)

EXHIBIT "B" (cont.)

3. That this resolution be entered in the minutes and records of the Commission as of August 18, 1952, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed hereinabove.

EXHIBIT "C"

Minutes of August 18 and 29, 1952

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land along and adjacent to the Oregon Coast Highway described as follows:

The north 50 feet of Lot three (3) in Block sixty-six (66), Port Orford, in the County of Curry and State of Oregon.

WHEREAS, after consideration, the Commission hereby finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $2,500.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of Chapter 437, Oregon Laws 1949.

Sealed bids for the sale of the said property shall be received by the said Secretary in the office of the Commission in Salem, Oregon, at 2:00 P.M., Standard Time, on the 10th day of October, 1952, and shall be opened in the presence of the Commission's Chief Counsel or his authorized representative.

The results and tabulations of the bids received shall be reported to the Commission at its next succeeding regular or special meeting.

The published notice for the receiving of bids shall fix a minimum price of $2,500.00 for which the property shall be sold and shall further provide that the sale shall be made for cash.

EXHIBIT "D"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the parcel of land along and adjacent to the Pacific Highway West described as follows:

> All that part of Lots 9 and 10 in Block 9 of the Original Town of Florence, situated in Section 34, Township 18 South, Range 12 West, W. M., Lane County, Oregon, lying Easterly of a line which is parallel to and 70 feet Easterly of the centerline of the Oregon Coast Highway.

WHEREAS, after consideration, the Commission hereby finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $4,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount, upon the basis of complete restriction of access to Pacific Highway West.

NOW, THEREFORE, BE IT RESOLVED that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of Chapter 437, Oregon Laws 1949.

Sealed bids for the sale of the said property shall be received by the said Secretary in the office of the Commission in Salem, Oregon, at 2:00 P.M., Standard Time, on the 10th day of October, 1952, and shall be opened in the presence of the Commission's Chief Counsel or his authorized representative.

The results and tabulations of the bids received shall be reported to the Commission at its next succeeding regular or special meeting.

The published notice for the receiving of bids shall fix a minimum price of $4,000.00 for which the property shall be sold and shall further provide that the sale shall be made for cash.

EXHIBIT "E"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, the Commission on the 12th day of April, 1951, fully approved and adopted the final surveys of the following sections of state highways, to wit:

(1) Mosier-The Dalles Section of the Columbia River Highway in Wasco County.

(2) Salem By-Pass Section of the Pacific Highway East, in Marion County.

and in connection therewith ordered said survey maps, field notes, and other engineering data to be filed and preserved in the records of the Commission in Salem, Oregon; and,

WHEREAS, the said sections are located on primary state highways, which by a resolution dated November 3, 1948, designated said highways as throughways within the meaning of Chapter 226, Oregon Laws 1947; and,

WHEREAS, it was the intention and desire of the Commission, on April 12, 1951, to not only adopt and approve the above-mentioned surveys, as such, but in addition to specifically provide that said section surveys were to be constructed as throughways and within the meaning and purpose of said Chapter 226, Oregon Laws 1947; and,

WHEREAS, the said resolution adopted on April 12, 1951, failed to fully state the intentions and desire of the Commission with respect to the adoption of the said section surveys as throughways.

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. That the resolution dated April 12, 1951, approving and adopting the surveys of the Mosier-The Dalles Section of the Columbia River Highway in Wasco County and the Salem By-Pass Section of the Pacific Highway East in Marion County be, and the same hereby is, amended so as to include and incorporate therein the following paragraph:

> That the surveys of the Mosier-The Dalles Section of the Columbia River Highway in Wasco County and the Salem By-Pass Section of the Pacific Highway East in Marion County have been made within the meaning and purpose of Chapter 226,

(cont.)

EXHIBIT "E" (cont.)

Oregon Laws, 1947, commonly known as the "Throughway Law," and said surveys were likewise made within the scope and purpose of the resolution approved and adopted by the Highway Commission November 3, 1948. Therefore, the construction of said sections of the said state highways shall be accomplished pursuant to the provisions of the said Throughway Law and said November 3, 1948, resolution.

2. That this amending resolution be entered in the minutes and records of the Commission this 18th day of August, 1952.

EXHIBIT "F-1"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Arlington	$1,856.82
Eagle Point	1,642.99
Gold Beach	1,832.46
Mitchell	1,123.29
Monroe	979.84
Taft	1,218.03
Troutdale	1,391.26

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 18th day of August, 1952.

20536

EXHIBIT "F-2"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Arlington	$2,153.61
Fossil	2,024.89
Gates	1,324.81
Mitchell	1,302.84
Monument	715.78
Moro	1,127.03
Sisters	2,269.76
Troutdale	1,613.64

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 18th day of August 1952.

EXHIBIT "F-3"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six month period of 1950 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Mitchell $1,250.22

AND WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 18th day of August, 1952.

20538

EXHIBIT "F-4"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Mitchell $1,039.44

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 18th day of August, 1952.

EXHIBIT "G-1"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the North Corvallis Section of the Pacific Highway West in Benton County and also authorized and directed the Engineer to make a complete and final survey of the route and location of the North-Bound Lane of the Pacific Highway through the town of Phoenix in Jackson County, and in connection therewith to prepare maps showing the route and location of said sections of highways and file said report and record with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed the said surveys and has submitted the same for the approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said surveys, field notes, maps and other engineering date, it is the judgment of the Commission that the same shall be approved and files.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1-a. That the survey of the North Corvallis Section of the Pacific Highway West beginning at the intersections of Harrison Street with Third and Fourth Streets in the city of Corvallis (Engineer's Station 0+00) and extending northerly to a junction with the existing Pacific Highway West at Engineer's Station 138+74.55, a distance of approximately 2.62 miles, together with the map, which for identification purposes bears the signature of W. C. Williams, Assistant State Highway Engineer, and the map file No. 6B-30-13, and is dated January, 1949, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in Salem, Oregon.

1-b. That the survey of the North-Bound Lane of the Pacific Highway through Phoenix, beginning a short distance north of the south city limits of Phoenix at Engineer's Station 331+11.44 and extending northerly to a point a short distance south of the north city limits of Phoenix at Engineer's Station 365+48.74, together with the map which for identification purposes bears map file No. 7B-10-13 and the date November 1951, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

EXHIBIT "G-1" (cont.)

2. That when said highway sections are permanently constructed the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That the survey of the North Corvallis Section of the Pacific Highway West has been made within the meaning and purpose of Chapter 226, Oregon Laws 1947, commonly known as the "Throughway Law", and was likewise made within the scope and purpose of the resolution approved and adopted by the Highway Commission November 3, 1948; therefore, the construction of said state highway shall be accomplished pursuant to the provisions of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 18th day of August, 1952.

EXHIBIT "G-2"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the engineer to make a complete and final survey of the route and location of the Siletz River-Newport Section of the Oregon Coast Highway in Lincoln County, Oregon, and in connection therewith to prepare a map showing the route and location of said Section, and to file said survey and report with the Commission for consideration; and,

WHEREAS, the engineer on the 16th day of June, 1947 compiled the said survey and submitted the same for the approval or disapproval of the Commission; and,

WHEREAS, after due consideration of the said survey, field notes, map, and other engineering data, the Commission on the 16th day of June, 1947, adopted said survey and in particular the unit of said survey, known as the Otter Crest Unit of the Siletz River-Newport Section of the Oregon Coast Highway, and which for identification purposes bears engineer's map file No. 5B-8-3, dated December, 1936; and,

WHEREAS, the engineer has brought to the attention of the Commission that the said Otter Crest Unit of the said Section, as originally adopted and approved, should be relocated and realigned to the end that a more modern thoroughfare may be constructed; and,

WHEREAS, it now appears to the Commission that the said Otter Crest Unit of said Section, as originally adopted and approved, is inadequate as to alignment, curvature, design, grade, and other elements and factors to serve the needs of the motoring public; and,

WHEREAS, the engineer has prepared and submitted to the Commission maps of a new survey along with field notes and other engineering data, showing a more adequate route and a relocation of the said Otter Crest Unit of the Siletz River-Newport Section of the Oregon Coast Highway, said maps for identification purposes bearing engineer's map file Nos. 5B-8-3 dated December 1936 and 6B-35-17 dated September 1949, both maps including the suggested revisions of August 1952, and in addition a sketch map entitled Whale Cove-Miner Creek Section dated August 1952; and

WHEREAS, after due consideration of the said new survey, field notes, maps and other engineering data, it is the judgment of the Commission that the original Otter Crest Unit survey of the Siletz River-Newport Section of the Oregon Coast Highway should be amended so as to conform to a proposed relocation and realignment as suggested by the engineer, in order to more adequately serve the motoring public, and that the said new survey should be approved and filed:

(cont.)

EXHIBIT "G-2" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the original survey of the Otter Crest Unit of the Siletz River-Newport Section of the Oregon Coast Highway, as formerly adopted by a resolution of this Commission, dated June 16, 1947, which is shown, for identification purposes, on the engineer's maps, file No. 5B-8-3, dated December 1936, be, and the same hereby is amended and modified, insofar as the Otter Crest Unit is concerned, and that the new unit survey to be known as the Whale Cove-Miner Creek Unit of the Siletz River-Newport Section of the Oregon Coast Highway, and which for identification purposes, is shown on the engineer's maps as file Nos. 5B-8-3, dated December, 1936, and 6B-35-17, dated September, 1949, with the revisions thereon dated August, 1952, and the sketch map of the Whale Cove-Miner Creek Unit, dated August, 1952, be and the same hereby are approved and adopted as the correct and final survey of said Unit of said Section, and the engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said Unit of said Section of the Oregon Coast Highway is permanently constructed the same shall be done in accordance with the said amended survey unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of the Whale Cove-Miner Creek Unit survey shall constitute and be deemed instructions to the engineer to prepare and make available to the Legal and Right of Way Departments all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the Oregon Coast Highway along and over said survey. Said approval and adoption shall also be deemed and constitute instructions to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way, pursuant to the normal and approved method.

4. That the revised survey, now known as the Whale Cove-Miner Creek Unit of the Siletz River-Newport Section of the Oregon Coast Highway, has been made within the meaning and purpose of Chapter 226, Oregon Laws 1947, commonly knows as the "Throughway Law", and likewise has been made within the scope and purpose of the resolution approved and adopted by the Highway Commission on November 3, 1948. Therefore, the construction of said State Highway shall be accomplished pursuant to the provision of said Law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission this 18th day of August, 1952.

EXHIBIT "H"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts, and that said jobs are now ready for acceptance:

Contract No. 3247 with Edwin C. Gerber for oil mat surfacing and rock production on the Sherars Grade-Grass Valley Section of the Sherars Bridge Highway in Sherman County, completed June 30, 1951. Removal of equipment and cleaning up of site was completed July 16, 1952.

Contract No. 3253 with Inter-City Sand and Gravel Company, Inc. for grading, surfacing and oiling on the Richardson-Eugene Highway in Lane County, completed November 6, 1951.

Contract No.3303 with R. A. Heintz Construction Company for grading and paving on the South Unit, Denver Avenue-Columbia Slough Section of the Pacific Highway East in Multnomah County, completed April 18, 1952.

Contract No. 3380 with E. L. Gates and Company, Inc. for grading and paving on the Chrome Plant-Cedar Point Section of the Oregon Coast Highway in Coos County, completed February 15, 1952.

Contract No. 3402 with C. J. Montag and Sons for grading, paving and structures on the Broadway Bridge-Steel Bridge Section of the Pacific Highway West in Multnomah County, completed July 15, 1952.

Contract No. 3412 with O. C. Yocom Company for grading and Paving on the South Yamhill River (McMinnville) Bridge Section of the Three Mile Lane Secondary Highway in Yamhill County, completed October 10, 1951.

Contract No. 3415 with the American Bridge Company for placing the Marion Street bridge steel spans on the Salem-Dallas Highway in Marion County, completed August 8, 1952.

Contract No. 3430 with Roy L. Houck and Son for grading and paving on the Canyonville (5th Street) Section of the Canyonville City Streets, completed June 27, 1952.

Contract No. 3456 with Leonard and Slate, Oreg. Ltd. assigned to Fred H. Slate Company, Oreg. Ltd. and E. C. Hall Company for grading and topping on East Unit, La Grande-Ladd Canyon Section of the Old Oregon Trail Highway in Union County, completed May 23, 1952.

(cont.)

EXHIBIT "H" (cont.)

Contract No. 3477 with Babler and Rogers for bridge construction, grading and paving on the Cascade Locks-Herman Creek Road Section of the Columbia River Highway in Hood River County, completed July 29, 1952.

Contract No. 3481 with Floyd Grahm Construction Company for grading and pvaing on the Siletz-Logsden County Road in Lincoln County, completed June 23, 1952. Removal of equipment and cleaning up of site was completed June 23, 1952.

Contract No. 3495 with Babler and Rogers for grading and paving on the Tumalo-Bend Section of the McKenzie-Bend Highway in Deschutes County, completed July 25, 1952.

Contract No. 3510 with Rex C. Ayres Construction Company for grading and paving on the Florence Section of the Oregon Coast Highway in Lane County, completed June 6, 1952.

Contract No. 3528 with Durbin Brothers, for grading and paving on the Island City (Main Street) and Island City-Lone Tree Section of the Union City Streets and Island City-South County Road in Union County, completed June 17, 1952.

Contract No. 3533 with F. L. Somers for surfacing on the Metolius-Culver and North Unit, Culver-Juniper Butte Section of the Metolius-Culver and Culver-Juniper Butte County Roads in Jefferson County, completed November 17, 1951.

Contract No. 3563 with Babler and Rogers for grading and paving on the Nyssa-Adrian Section of the Nyssa-Adrian Highway in Malheur County, completed June 25, 1952.

Contract No. 3574 with C. S. Whitcomb Company for landscaping on the Redmond (5th St.) Section of The Dalles-California Highway in Deschutes County, completed June 26, 1952.

Contract No. 3580 with Warren Northwest, Incorporated for grading and paving on the Forest Grove Section of the Wilson River and Tualatin Valley Highways in Washington County, completed July 22, 1952.

Contract No. 3586 with E. H. Itschner Company for furnishing crushed materials in stockpiles on the Vida-Belknap Springs Section of the McKenzie Highway in Lane County, completed May 31, 1952.

Contract No. 3598 with C. M. Corkum Company for constructing maintenance building at Sylvan in Multnomah County, completed July 30, 1952.

(cont.)

EXHIBIT "H" (cont.)

Contract No. 3611 with Carl M. Halvorson, Incorporated for grading and paving on the Tunnel Point Section of the Wilson River Highway in Tillamook County, completed August 7, 1952.

Contract No. 3621 with Vernie Jarl for furnishing crushed materials in stockpile on the Sandy-One Mile Bridge Section of the Mt. Hood Highway in Clackamas County, completed June 28, 1952.

Contract No. 3625 with Barney B. Helser for furnishing crushed materials in stockpile on the Burns Section of the Central Oregon and John Day-Burns Highways in Harney County, completed July 28, 1952.

Contract No. 3643 with P. L. Holloway Painting Company for painting the Albany Bridge in Benton County, completed July 22, 1952.

Contract No. 3654 with Mill Electric Company for constructing traffic signals in Bend, Deschutes County, completed July 24, 1952.

Contract No. 3662 with Tri-State Painting Company for painting the Interstate and Oregon Slough Bridges in Multnomah County, completed August 7, 1952.

Contract No. 3697 with Enoch Maerz for constructing garage building in Yaquina State Park in Lincoln County, completed July 30, 1952.

Contract No. 3698 with A. H. Saxton and Son for grading and surfacing on the Eddyville-Nashville Section of the Eddyville-Blodgett Highway in Lincoln County, completed July 25, 1952.

Contract No. 3701 with Leslie Harris for grading and oil mat surfacing on the Ione (Spring Street) City Street Section in Morrow County, completed August 11, 1952.

Contract No. 3705 with Warren Northwest, Incorporated for grading and paving on the Forest Grove (19th Avenue and Elm Street) and Cornelius ("W" Street N.) City Street Section in Washington County, completed July 23, 1952.

Contract No. 3713 with Oregon Asphaltic Paving Company for paving on the Canby (North 1st Avenue, Douglas Street and North 2nd Avenue) City Street Section in Clackamas County, completed July 15, 1952.

Contract No. 3714 with Oregon Asphaltic Paving Company for reoiling on Division No. 1-B Reoiling Project on the Woodburn-Estacada, Mt. Hood and Wapinitia Highways in Clackamas, Wasco and Hood River Counties, completed August 3, 1952.

(cont.)

EXHIBIT "H" (cont.)

Contract No. 3726 with Walter Goodat for grading and paving on Prescott (Blakely St.), City Street, Section in Columbia County, completed July 17, 1952.

Contract No. 3730 with Parker and Fuhrman for oiling on the Prineville-Eagle Rock Section of the Paulina Highway in Crook County, completed July 18, 1952.

THEREFORE, BE IT RESOLVED that the work covered by said State Highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "I"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, the State Highway Commission entered into an agreement dated January 24, 1951, with the City of Coquille, Coos County, Ore., covering that portion of the Cedar Point-Coquille Section of the Oregon Coast Highway located in the City of Coquille; and

WHEREAS, this agreement established a one-way grid system at the junction of the Oregon Coast Highway and the Coos Bay-Roseburg State Highway within the City of Coquille but nothing in the said agreement precisely designated the route of the Highways or definitely established maintenance responsibility; and

WHEREAS, it is the purpose of the Highway Commission to take official action to clarify and set forth these matters and to impress them upon the records of the Commission:

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. The following named streets or portions or units thereof are hereby designated as parts of the State Highway system pursuant to the authority vested in the Highway Commission by Section 100-122, O. C. L. A. Said streets or portions thereof shall be maintained by the State from curb to curb, and are listed herein under the particular highway of which they become a part:

Oregon Coast Highway, State Highway No. 9:

Taylor Street and the extension thereof from the West boundary of the City to Front Street.
Second Street from Taylor Street to Willard Street.
Willard Street from Second Street to Front Street.
Front Street from the Coquille River to Taylor Street.

Coos Bay-Roseburg Highway, State Highway No. 35:

Hall Street and the extension thereof from Third Street to the South boundary of the City.
Third Street from Taylor Street to Hall Street.
Second Street from Taylor Street to Hall Street.
Front Street from Taylor Street to Hall Street.

(cont.)

EXHIBIT "I" (cont.)

2. There is attached hereto, marked Exhibit "A" and by this reference made a part hereof, a print on which there is shown, colored in blue, the streets, or portions thereof, which are herein designated as a part of the Oregon Coast Highway, and there is also shown on said print, colored in yellow, the streets, or portions thereof, which are herein designated as a part of the Coos Bay - Roseburg Highway.

3. This resolution shall be entered in the minutes and records of the Commission on this 18th day of August, 1952, and the Secretary hereby is directed to mail to the City of Coquille, Coos County, Oregon a duly certified copy thereof.

EXHIBIT "J"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Starkey Secondary Highway No. 341 known as the Hilgard Junction-Red Bridge Section in Union County, the westerly terminus of which is at Highway Engineer's Station 406+90 of the reconstructed line and the easterly terminus of which is at Highway Engineer's Station 42+57.3 of the reconstructed line; and

WHEREAS, by reason of the relocation of said section of said highway, portions or units of the right of way of the highway, as formerly located, have been eliminated from the boundary of the new location, which eliminated portions or units are no longer needed for highway purposes or for the service of persons living thereon or for any community served thereby; and

WHEREAS, the contract for the construction of this relocated section of the Starkey Secondary Highway was completed on May 5, 1952, the highway traffic is now routed over said section; and

WHEREAS, Union County, by and through its County Court, has advised the Highway Department by letter dated June 12, 1952, that said County is not interested in retaining any of the said eliminated portions or units of said highway right of way; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the several portions or units of the right of way of said highway which are affected by reason of said relocation;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the section of the Starkey Secondary Highway known as the Hilgard Junction-Red Bridge Section located in Union County is now completed; therefore, the portions or units of the old route of said highway herein defined and described as Units "A", "B," "C," "D," "E," "F," "G," "H," and "I," shall no longer be parts of the route of the Starkey Secondary Highway but shall be eliminated and removed therefrom. Said Units "A," "B," "C," "D," "E," "F," "G," "H," and "I," are not needed for the service of persons living thereon or for any community served thereby or for other highway purposes.

2. That the portions or units of the old right of way, which by reason of the relocation of said highway are no longer within the boundaries

(cont.)

EXHIBIT "J" (cont.)

of the new right of way, which, for the purpose of this resolution are identified as Units "A," "B," "C," "D," "E," "F," "G," "H," and "I," and are located as shown colored in brown on the map attached hereto, marked "Exhibit A", and by this reference is made a part hereof, and which are more particularly described as follows:

Unit "A"

Beginning at State Highway Engineer's Station 291+00 of the relocated Starkey Secondary Highway in the Northeast quarter ($NE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 15, Township 3 South, Range 36 East, W. M.; thence northeasterly via the former route of the Starkey Secondary Highway to State Highway Engineer's Station 282+00 of the relocated Starkey Secondary Highway in the Northeast quarter ($NE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 15, Township 3 South, Range 36 East, W. M.

Unit "B"

Beginning at State Highway Engineer's Station 276+00 of the relocated Starkey Secondary Highway in the Northwest quarter ($NW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 14, Township 3 South, Range 36 East, W. M.; thence northeasterly via the former route of the Starkey Secondary Highway to State Highway Engineer's Station 274+00 of the relocated Starkey Secondary Highway in the Northwest quarter ($NW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 14, Township 3 South, Range 36 East, W. M.

Unit "C"

Beginning at State Highway Engineer's Station 266+00 of the relocated Starkey Secondary Highway in the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 14, Township 3 South, Range 36 East, W. M.; thence northeasterly via the former route of the Starkey Secondary Highway to State Highway Engineer's Station 262+50 of the relocated Starkey Secondary Highway in the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 14, Township 3 South, Range 36 East, W. M.

Unit "D"

Beginning at State Highway Engineer's Station 190+00 of the relocated Starkey Secondary Highway in the Southeast quarter ($SE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 11, Township 3 South, Range 36 East, W. M.; thence Northeasterly via the former route of the Starkey Secondary Highway to State Highway Engineer's Station 184+00 of the relocated Starkey Secondary Highway in the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 12, Township 3 South, Range 36 East, W. M.

(cont.)

EXHIBIT "J" (cont.)

Unit "E"

Beginning at State Highway Engineer's Station 146+00 of the relocated Starkey Secondary Highway in the Northwest quarter (NW¼) of the Northeast quarter (NE¼) of Section 12, Township 3 South, Range 36 East, W. M.; thence easterly via the former route of the Starkey Secondary Highway to State Highway Engineer's Station 129+00 of the relocated Starkey Secondary Highway in the Northeast quarter (NE¼) of the Northeast quarter (NE¼) of Section 12, Township 3 South, Range 36 East, W. M.

Unit "F"

Beginning at State Highway Engineer's Station 116+65 of the relocated Starkey Secondary Highway in the Southwest quarter (SW¼) of the Southwest quarter (SW¼) of Section 6, Township 3 South, Range 37 East, W. M.; thence northeasterly via the former route of the Starkey Secondary Highway to State Highway Engineer's Station 109+00 of the relocated Starkey Secondary Highway in the Southwest quarter (SW¼) of the Southwest quarter (SW¼) of Section 6, Township 3 South, Range 37 East, W. M.

Unit"G"

Beginning at State Highway Engineer's Station 96+50 of the relocated Starkey Secondary Highway in the Northeast quarter (NE¼) of the Southwest quarter (SW¼) of Section 6, Township 3 South, Range 37 East, W. M.; thence northerly via the former route of the Starkey Secondary Highway to State Highway Engineer's Station 87+00 of the relocated Starkey Secondary Highway in the Southeast quarter (SE¼) of the Northwest quarter (NW¼) of Section 6, Township 3 South, Range 37 East, W. M.

Unit "H"

Beginning at State Highway Engineer's Station 79+30 of the relocated Starkey Secondary Highway in the Southwest quarter (SW¼) of the Northwest quarter (NW¼) of Section 6, Township 3 South, Range 37 East, W. M.; thence northerly via the former route of the Starkey Secondary Highway to State Highway Engineer's Station 57+40 of the relocated Starkey Secondary Highway in the Southwest quarter (SW¼) of the Southwest quarter (SW¼) of Section 31, Township 2 South, Range 37 East, W. M.

Unit "I"

Beginning at State Highway Engineer's Station 57+60 of the relocated Starkey Secondary Highway in the Southwest quarter (SW¼) of the Southwest quarter (SW¼) of Section 31, Township 2 South, Range 37 East, W. M.; thence northeasterly via the former route of the Starkey Secondary Highway to State Highway Engineer's Station 54+00 of the relocated Starkey Secondary Highway in the Southeast quarter (SE¼) of the Southwest quarter (SW¼) of Section

(cont.)

EXHIBIT "J" (cont.)

31, Township 2 South, Range 37 East W. M.

hereby are abandoned as parts of said highway, and all right title and interest which the State has in said right of way does hereby revert to and vest in the owners of the abutting land.

3. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not revert to or become the property of abutting owners.

4. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such monuments shall thereafter be maintained in place.

5. This resolution shall be entered in the minutes and records of the Commission on this 18th day of August 1952, and the Secretary hereby is directed to mail to the County Court of Union County a duly certified copy thereof.

EXHIBIT "K"

Minutes of August 18 and 18, 1952

RESOLUTION

WHEREAS, on the 19th day of February, 1952, at a meeting of the Oregon State Highway Commission, all members being present and participating, the Commission adopted a resolution reducing the maximum load limit on the following described state highway bridge, to-wit:

TERRITORIAL SECONDARY HIGHWAY NO. 200

M. P. 26.24	Bridge No. 4053 over Coyote Creek in Lane County	27 tons (54,000 lbs.)

and,

WHEREAS, subsequent to the passage of said resolution, conditions have changed so that it no longer is necessary or desirable and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limit set out in said resolution.

NOW, THEREFORE, BE IT RESOLVED that the action of the State Highway Commission reducing the permissible load limit on the said bridge be and the same hereby is rescinded and cancelled as of July 7, 1952, and that the maximum load limit permissible on the said bridge structure hereafter shall be the maximum load limit provided by law; and

IT IS FURTHER ORDERED that certified copies of this resolution be furnished to the Lane County Clerk and to the Superintendent of the Department of State Police for their information.

Dated this 18th day of August, 1952.

OREGON STATE HIGHWAY COMMISSION

By Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner

R. H. Baldock
State Highway Engineer

EXHIBIT "L-1"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, it has been reported by Mr. F. G. Tollifsen, Postmaster at Aloha, Oregon, that the parking of cars on the Tualatin Valley Highway in front of the post office at Aloha causes inconvenience to and interference with the movement of the United States mails, and to remedy such situation this Commission has been requested to designate the highway in front of the post office as a "Loading Zone - No Parking at Any Time" area; and,

WHEREAS, it is the opinion of this Commission that every reasonable and legitimate action should be taken which has for its purpose a speeding of the movement of United States mail, and this Commission is, therefore, of the opinion that the parking of vehicles in front of the post office entrance at said place should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively as follows:

1. That the area adjacent to the post office at Aloha on the north side of the Tualatin Valley Highway near Mile Post 6.49 and particularly between Engineer's Stations 127+47 and 127+07 be and said area hereby is declared closed to the parking of vehicles.

2. That the Engineer be and he hereby is instructed to install and thereafter maintain at points in front of said post office entrance where they will best serve the purpose of this resolution, appropriate signs designating said area as a "Loading Zone - No Parking at Any Time" area, and that in addition to such signs the curb line in front of said building shall be appropriately painted.

3. That this resolution be entered in the minutes and records of this Commission as of August 18, 1952, and that a certified copy thereof mailed to Mr. F. G. Tollifsen, Postmaster at Aloha, Oregon, and a like copy to the Superintendent of the Department of State Police.

EXHIBIT "L-2"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O.C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highway: Siuslaw

Highway Number: 34 Route Number State Route 36

Location of Termini		Established Speed
M. P. 13.85 (near railroad crossing at westerly edge of Mapleton	to M. P. 15.10 (at easterly edge of Mapleton)	35 miles per hour

(cont.)

EXHIBIT "L-2" (cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Commission as of the 18th day of August, 1952.

EXHIBIT "L-3"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, the Siuslaw Highway is one of the major state primary highways and is likewise a federal highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that through the town of Mapleton on said highway in Lane County, particularly between Mile Post 13.85 at the westerly edge of Mapleton and Mile Post 15.10 at the easterly edge of Mapleton, vehicles make a practice of parking on the westerly side of the highway for extended periods of time; and,

WHEREAS, the parking of said vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission, a hazard is created not only to through traffic but to the owners and drivers of said parked vehicles; and,

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulder on the westerly side of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations by members of its staff, that the parking of vehicles along the westerly shoulder of the Siuslaw Highway between Mile Post 13.85 at the westerly edge of Mapleton and Mile Post 15.10 at the easterly edge of Mapleton, being a distance of 1.25 miles, creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which, in the opinion of the Commission should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the westerly side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and

(cont.)

EXHIBIT "L-3" (cont.)

the action of the Commission as herein declared, on which signs shall be printed in plain letters the words, "No Parking on Highway Shoulders".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 18th day of August, 1952.

EXHIBIT "L-4"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter, and

WHEREAS, the data, facts, and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following:

Name of highway: Oregon Coast Highway

Highway number: 9 Route number US 101

Location of Termini		Established Speed
M. P. 124.80 (0.06 mile North of Road's End Road)	To M. P. 125.06 (0.20 mile South of Road's End Road)	35 miles per hour

(cont.)

EXHIBIT "L-4" (cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Commission as of the 18th day of August, 1952.

EXHIBIT "M-1"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right of interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing road or highway as a throughway; and,

WHEREAS, the T. H. Banfield Expressway is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as Unit Number 5 of the T. H. Banfield Expressway, and has ordered and declared that said Unit Number 5 of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that access to and from said highway should be controlled; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission, plans and proposes to construct, improve and maintain Unit Number 5 of the T. H. Banfield Expressway, and in connection therewith to realign N. E. 148th Ave., also known as Multnomah County Road Number 723, in order to provide an underpass carrying the said T. H. Banfield Expressway, and for such purposes and in connection therewith the real property hereinafter described is necessary; and,

(cont.)

EXHIBIT "M-1" (cont.)

WHEREAS, the said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the construction, improvement and maintenance of Unit Number 5 of the T. H. Banfield Expressway, and the realigning of N. E. 148th Avenue, also known as Multnomah County Road Number 723, Multnomah County, Oregon, in order to provide an underpass carrying said N. E. 148th Avenue under the said T. H. Banfield Expressway, a parcel of real property located in Multnomah County, Oregon, and described as follows, to-wit:

R. 19176 Owner: Anton Bergsvik, et al.

A parcel of land lying in the northwest quarter of Section 25, Township 1 North, Range 2 East, Willamette Meridian, Multnomah County, Oregon, the said parcel being described as follows:

Beginning at a point on the east line of the W. G. Wilkes D. L. C. in Section 25, 2225.4 feet north of the southeast corner of said claim, said point also being the northwest corner of that tract of land conveyed to Anton and Tillie Bergsvik by deed recorded in Book 336, Page 441, Multnomah County Records of Deeds; thence north 89° east along the north line of said property 819.1 feet, more or less, to a point which is 25 feet westerly from (when measured at right angles to) the center line of N. E. 148th Avenue, formerly known as Fisher Road, said point also being the true point of beginning; thence southerly 528.56 feet, more or less, to a point on the north line of the O. W. R. & N. Co. right of way, said point being 60 feet from (when measured at right angles to) the center line of said N. E. 148th Avenue; thence south 82° 03' east along the north line of said O. W. R. & N. Co. right of way 60.59 feet, more or less, to the center line of N. E. 148th Avenue; thence northerly along the center line of N. E. 148th Avenue, 535.8 feet to the northeast corner of said Bergsvik property; thence south 89° west along the north line of said property 25 feet, more or less, to the place of beginning. Excepting therefrom the east 20 feet in said N. E. 148th Avenue, also known as Fisher Road.

The parcel of land to which this description applied contains 0.27 acre outside of the existing right of way.

(cont.)

EXHIBIT "M-1" (cont.)

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be and it hereby is entered in the minutes and records of the Commission this 18th day of August, 1952.

20564

EXHIBIT "M-2"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the T. H. Banfield Expressway is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway, to be known as Unit No. 5 of the T. H. Banfield Expressway, and has ordered and declared that said unit of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that access to and from the said highway should be controlled; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to construct, improve and maintain Unit No. 5 of the T. H. Banfield Expressway, and, in connection therewith, to realign N. E. 148th Avenue, also known as Multnomah County Road No. 723, Multnomah County, Oregon, in order to provide an underpass carrying the said N. E. 148th Avenue under the said T. H. Banfield Expressway, and in addition, for the construction of a frontage road along the east side of the said N. E. 148th Avenue, and for such

purposes and in connection therewith the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes;

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED, by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the construction, improvement and maintenance of Unit No. 5 of the T. H. Banfield Expressway, and the realignment of N. E. 148th Avenue, also known as Multnomah County Road No. 723, Multnomah County, Oregon, in order to provide an underpass carrying said N. E. 148th Avenue under the said T. H. Banfield Expressway and, in addition thereto, for the construction of a frontage road along the east side of the said N. E. 148th Avenue, a parcel of real property located in Multnomah County, Oregon, and described as follows, to wit:

File R-19177
Melvin E. Abbott, et al.

A parcel of land lying in the West half ($W\frac{1}{2}$) Lot 5, Block 2, Springwater Acreage, situated in the Northwest quarter ($NW\frac{1}{4}$) of Section 25, Township 1 North, Range 2 East, W. M., Multnomah County, Oregon, the said parcel being that portion of said Lot 5 lying Westerly of a line which is parallel to and 75 feet Easterly from the center line of N. E. 148th Avenue, also known as Fisher Road, containing 0.273 acre, more or less.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection

EXHIBIT "M-2" (cont.)

with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of the said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be, and it hereby is, entered in the minutes and records of this Commission this 18th day of August, 1952.

EXHIBIT "M-3"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the West Portland-Hubbard Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway, to be known as the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway, and has ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that access to and from the said highway should be controlled; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to construct, improve and maintain the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway, and, in connection therewith, to widen and realign Norwood Road, also known as Washington County Road No. 1183, in order to provide an overpass carrying the said Norwood Road over the said West Portland-Hubbard Highway, and for such

(cont.)

EXHIBIT "M-3" (cont.)

purposes and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the construction, improvement and maintenance of the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway, and the widening and realignment of Norwood Road, also known as Washington County Road No. 1183, Washington County, Oregon, in order to provide an overpass carrying said Norwood Road over the said West Portland-Hubbard Highway, a parcel of real property located in Washington County, Oregon, and described as follows, to wit:

R-19221
Owner: Paul M. McFarland, et ux

A parcel of land lying in Lot 30, Comte and Kohlman's Little Homes No. 1, situated in the Northwest quarter ($NW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 36, Township 2 South, Range 1 West, W. M., Washington County, Oregon, the said parcel being described as follows:

Beginning on the North line of said Lot 30, at a point 91.0 feet West of the Northeast corner thereof; thence West 302.0 feet, more or less, along the North line of said Lot 30 to its intersection with the Easterly line of that tract of land conveyed to the State of Oregon by deed recorded in Book 325, page 463, Washington County Deed Records: thence Southerly along the Easterly line of said State tract 20.9 feet, more or less, to a point which is 20.0 feet South of (when measured at right angles to) the North line of said Lot; thence East 207.9 feet parallel with the North line of said Lot; thence Northeasterly 102.0 feet, more or less, to the point of beginning.

The parcel of land to which this description applies contains 0.12 acre, more or less.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be

EXHIBIT "M-3" (cont.)

most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of the said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be, and it hereby is, entered in the minutes and records of this Commission this 18th day of August, 1952.

20570

EXHIBIT "M-4"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the Willamette Highway, The Dalles-California Highway, and the East Diamond Lake Highway are under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of maintaining said highways, road-building materials are needed and required, and for such purposes and in connection therewith the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee title to said property for the acquisition of road-building materials and hauling road and other highway purposes; and,

WHEREAS, the Commission, by resolution, made and entered in its records on January 23, 1951, declared the necessity and need for the acquisition of a parcel of land lying in the East Half of Section 2, Township 29 South, Range 7 East, W. M., Klamath County, Oregon, containing 21.52 acres, as a source of road-building materials and for a hauling road for the removal of said materials, and authorized acquisition thereof in the manner provided by law, and it now is the opinion of the Commission that said parcel of land as described in said resolution, and thereby authorized to be acquired, is inadequate for the purposes needed;

NOW THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members thereof being present and voting affirmatively as follows:

1. The Commission does hereby find and declare that there is needed and required as a source of road-building materials and for a hauling road for the removal of said road-building materials for use in connection with the maintenance of the Willamette Highway, The Dalles-California Highway, and the East Diamond Lake Highway, real property located in Klamath County, Oregon, and described as follows, to wit:

Owner: St. Helens Pulp and Paper Company
File: R-16774

(cont.)

EXHIBIT "M-4" (cont.)

Two parcels of land lying in the East half ($E\frac{1}{2}$) of Section 2, Township 29 South, Range 7 East, W. M., Klamath County, Ore.

Parcel #1 being described as follows:

Beginning at a point on East-West center line of said Section 2; said point being North 0° 02½' West 2631.54 feet and 990 feet West of the Southeast corner of said Section 2; thence North 500 feet; thence West 1100 feet; thence South 900 feet; thence East 700 feet; thence North 300 feet; thence East 400 feet; thence North 100 feet to the point of beginning, containing 19.97 acres.

Parcel #2 being a strip of land 40 feet in width, 20 feet on each side of following described center line:

Beginning at Engineer's center line Station 67+04 of the East Diamond Lake Highway, said point being 395 feet North and 1443 feet West of the Southeast corner of said Section 2; thence North 17° 07½' West 798.85 feet; thence North 2° 17' West 397.32 feet; thence North 31° 27' West 229.7 feet; thence North 24° 00½' East 418.97 feet; thence North 11° 50½' East 100 feet, more or less to the South boundary of Parcel No. 1 above, containing 1.72 acres, more or less, outside of the existing right of way.

2. That the highway facilities for which the aforesaid property is required and is being taken has been located, planned and will be used in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and all other persons having or claiming an interest in said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is authorized and directed to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

4. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be, and the same hereby is, entered in full in the minutes and records of the Commission this 18th day of August, 1952.

20572

EXHIBIT "M-5"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right of interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the T. H. Banfield Expressway is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway, to be known as Unit No. 5 of the T. H. Banfield Expressway, and has ordered and declared that said unit of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that access to and from the said highway should be controlled; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to construct, improve and maintain Unit No. 5 of the T. H. Banfield Expressway, and, in connection therewith, to realign N. E. 148th Avenue, also known as Multnomah County Road No. 723, Multnomah County, Oregon, in order to provide an underpass carrying the said N. E. 148th Avenue under the said T. H. Banfield Expressway, and, in addition, for the construction of a frontage road along the east side of the said N. E. 148th Avenue, and for

(cont.)

EXHIBIT "M-5" (cont.)

such purposes and in connection therewith the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes;

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED, by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the construction, improvement and maintenance of Unit No. 5 of the T. H. Banfield Expressway, and the realignment of N.E. 148th Avenue, also known as Multnomah County Road No. 723, Multnomah County, Oregon, in order to provide an underpass carrying said N.E. 148th Avenue under the said T. H. Banfield Expressway and, in addition thereto, for the construction of a frontage road along the east side of the said N.E. 148th Avenue, a parcel of real property located in Multnomah County, Oregon, and described as follows, to wit:

Steve Calcagano, et ux.
File R-19179

A parcel of land lying in Lot 4, Block 2, Springwater Acreage, situated in the Northwest quarter ($NW\frac{1}{4}$) of Section 25, Township 1 North, Range 2 East, W.M., Multnomah County Oregon, the said parcel being bounded on the West by the East line of N.E. 148th Avenue; bounded on the East by a line which is parallel to and 75 feet Easterly of the center line of N.E. 148th Avenue; bounded on the South by the South line of said Lot 4; and bounded on the North by a line which is parallel to and 330 feet Northerly of said South line of Lot 4.

The parcel of land to which this description applies contains 0.417 acre.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may necessary to acquire title to the aforesaid parcel of real property.

(cont.)

EXHIBIT "M-3" (cont.)

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of the said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be, and it hereby is, entered in the minutes and records of this Commission this 18th day of August, 1952.

EXHIBIT "M-6"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right of interest therein, deemed by the State Highway Commission necessary for highway purposes; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining certain sections of the state highway system, the said Commission plans and proposes to acquire certain road building materials, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for the acquisition of road building materials;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that the following described real property is necessary and required for the acquisition of road building materials for the proper construction and maintenance of certain sections of the state highway system, said real property being located in Multnomah County, Oregon, to wit:

R-19209
Owner: J. C. Burns, et al

A parcel of land lying in Section 29, Township 1 North, Range 3 East, W. M., Multnomah County, Oregon, the said parcel being described as follows:

Beginning at a point 1380.2 feet East and 59.5 feet North of the Southwest corner of the G. B. Pullen Donation Land Claim, said point also being on the South line of that tract of land conveyed to the State of Oregon by deed recorded in Book 1484, Page 151, Deed Records of Multnomah County, Oregon, and being 100.0 feet Southerly from (when measured at right angles to) Engineer's center line of the T. H. Benfield Expressway at Station 578+00; thence South

(cont.)

EXHIBIT "M-6" (cont.)

4° 57' West 669.0 feet to the center of a creek; thence tracing the center of said creek as follows: South 73° 11' East 204.4 feet; thence North 88° 52' East 150.8 feet; thence North 80° 18' East 134.4 feet; thence North 79° 18' East 207.7 feet; thence South 88° 52' East 150.3 feet; thence North 48° 19' East 123.8 feet; thence North 73°58' East 78.2 feet; thence North 29° 18' East 138.3 feet; thence North 10° 27' East 114.5 feet; and thence North 29° 07' East 107.5 feet to the South line of the O. W. R. & N. Company right of way; thence Northwesterly following said South line of the O. W. R. & N. Company right of way 288 feet more or less, to its intersection with the South line of the G. B. Pullen Donation Land Claim; thence North 87° 55' 26" West along the South line of said G. B. Pullen Donation Land Claim 693 feet more or less, to the Southeast corner of that tract of land deeded to Michael J. Burns by deed recorded in Book 157, Page 291, Multnomah County Record of Deeds; thence North 0° 20' 56" West along the East line of said Michael Burns property 103.7 feet, more or less, to the South line of said State of Oregon property; thence North 85° 03' West along said South line of said State of Oregon property 117.3 feet to the point of beginning.

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 13.17 acres.

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located and will be operated and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized,

EXHIBIT "M-7"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the West Portland-Hubbard Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway, to be known as the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway, and has ordered and declared that said section of said highwas shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that access to and from the said highway should be controlled; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to construct, improve and maintain the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway, and, in connection therewith, to widen and realign Norwood Road, also known as Washington County Road No. 1183, in order to provide an overpass carrying the said Norwood Road over the said West Portland-Hubbard Highway, and for such purposes

(cont.)

then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be and it hereby is entered in the minutes and records of the Commission this 18th day of August, 1952.

EXHIBIT "M-7" (cont.)

and in connection therewith the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes;

NOW, THERFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the construction, improvement and maintenance of the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway, and the widening and realignment of Norwood Road, also known as Washington County Road No. 1183, Washington County, Oregon, in order to provide an overpass carrying said Norwood Road over the said West Portland-Hubbard Highway, a parcel of real property located in Washington County, Oregon, and described as follows, to wit:

R-19222
Owner: Leo Schuemmer, et ux

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 35, Township 2 South, Range 1 West, W.M., Washington County, Oregon, the said parcel being described as follows:

Beginning on the East and West quarter line of said Section 35 at a point which is 100.0 feet Westerly of (when measured at right angles to) the center line of the West Portland-Hubbard Highway, said point being approximately 58.24 feet West of the East quarter ($E\frac{1}{4}$) corner of said Section; thence Southerly 44.6 feet, more or less, along the Westerly line of said highway to a point which is 62.8 feet Southerly of and at right angles to the center line of County Road No. 1183 (Norwood Road); thence Westerly, at right angles to the Westerly line of said West Portland-Hubbard Highway, 82.5 feet to a point which is 40.0 feet Southerly of and at right angles to the center line of said County Road; thence West 300.0 feet parallel with the center line of said County Road; thence North 20.2 feet, more or less, to said East and West quarter line; thence East 390.6 feet to the point of beginning.

The parcel of land to which this description applies contains 0.20 acre.

(cont.)

EXHIBIT "M-7" (cont.)

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid parcel of real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of the said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be, and it hereby is, entered in the minutes and records of this Commission this 18th day of August, 1952.

EXHIBIT "M-8"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the North Corvallis Section of the Pacific Highway West, and has ordered and declared that the said section of the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes in connection with the establishing, constructing and maintaining of the North Corvallis Section of the Pacific Highway West as a throughway the following described real property, to wit:

(cont.)

EXHIBIT "M-8" (cont.)

R-17978
Owner: J. A. Gallagher, et ux

Parcel No. 1:

A parcel of land lying in Lots 5 and 6, Block 3, Dixon's Addition to Corvallis, situated in Section 35, Township 11 South, Range 5 West, W. M., Benton County, Oregon, and being a portion of that property conveyed by that deed to J. A. Gallagher, recorded in Book 65, Page 131, of Benton County Records of Deeds, the said parcel being that portion of said property included in a strip of land 50 feet in width, lying on the Westerly side of the center line of the Pacific Highway West (North First Street Connection) as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station 6+10.03, said Station being 191.74 feet South and 202.20 feet East of the Northwest corner of Block 3 of said Dixon's Addition to Corvallis; thence on a 1909.86 foot radius curve left (the long chord of which bears North 14° 29' East) 166.67 feet to Engineer's Station 7+76.70. The Southerly line of said property (If produced) intersecting the said center line approximately at Station 6+42, and the Northerly line of said property (If produced) intersecting the center line approximately at Station 7+20.

The parcel of land to which this description applies contains 1,326 square feet.

Parcel No. 2:

A parcel of land lying in Section 35, Township 11 South, Range 5 West, W. M., Benton County, Oregon, and being that tract of land which was conveyed by that certain deed to J. A. Gallagher, recorded in Book 91, Page 286 of Benton County Record of Deeds, the said parcel being described as follows:

A tract of land North of the North line of Tyler Street, East of First and Water Streets and West of the Willamette River, Corvallis acreage to Corvallis, in Benton County, State of Oregon, containing 0.2 acres, more or less.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said North Corvallis Section of the said relocated Pacific Highway West and all of the contiguous real property of the owners remaining after the

EXHIBIT "M-8" (cont.)

appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domian. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 18th day of August, 1952.

20584

EXHIBIT "M-9"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve, and maintain the County Farm-Ashland Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be improved, widened and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this

(cont.)

EXHIBIT "M-9" (cont.)

Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper widening, improvement and maintenance of the County Farm-Ashland Section of the Pacific Highway as a throughway, the following described real property, to wit:

R-19380
Owner: Ralph D. McCulloch, et al

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 25, Township 38 South, Range 1 West, W. M., Jackson County, Oregon, the said parcel being described as follows:

Beginning at a point on the Northeasterly line of Parcel No. 1 as described in that deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 216, Page 57, Jackson County Deed Records, said point being 50 feet North 37° 14' East of Engineer's center line Station 109+00 on the center line of the Pacific Highway and, also, being 1207.9 feet North and 518.8 feet West of the Southeast corner of the W. H. Dingman Donation Land Claim No. 41; thence North 37° 14' East 10 feet; thence North 52° 46' West 200 feet; thence South 37° 14' West 10 feet and South 52° 46' East 200 feet along the lines of said Parcel No. 1 to the point of beginning, containing 0.05 acres.

2. That in addition to the acquisition of fee simple title to the above described real property it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the County Farm-Ashland Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the Pacific Highway of a width of 25 feet on the North side of the said Pacific Highway, opposite Highway Engineer's center line Station 108+50.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "M-9" (cont.)

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the State Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 18th day of August, 1952.

EXHIBIT "M-10"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Whale Cove- Miner Creek Unit of the Siletz River-Newport Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has approved and adopted a survey of the said Whale Cove-Miner Creek Unit of the Siletz River-Newport Section of the Oregon Coast Highway and has by a resolution ordered and declared that said unit of said section of said highway shall be relocated and constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled; and

(cont.)

EXHIBIT "M-10" (cont.)

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for the proper relocation, construction, and maintenance of the Whale Cove-Miner Creek Unit of the Siletz River-Newport Section of the Oregon Coast Highway as a throughway, including, as a part thereof, the Otter Crest State Park Loop Road, which said Loop Road lies Westerly of the relocated main highway and connects with said main highway opposite Highway Engineer's center line Stations 582+00 and 592+00, the following described real property, to wit:

R-4245
Owner: Wilbur F. Badley, et ux

Parcel No. 1:

A parcel of land lying in Lots 2 and 3, and in the Northwest quarter ($NW\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$), and in the Southeast quarter ($SE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 29, Township 9 South, Range 11 West, W. M., Lincoln County, Oregon, and being a portion of that property conveyed by that deed to Wilbur F. Badley, recorded in Book 75, Page 251, of Lincoln County Records of Deeds, the said parcel being that portion of said property lying Easterly of the existing Oregon Coast Highway and Westerly of a line parallel to and 150 feet Easterly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station R' 572+00, said Station being 397.35 feet North and 1054.08 feet West of the Northeast corner of the South half ($S\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of said Section 29; thence South 26° 47' East, 312.36 feet; thence on a 400 foot spiral curve to the right (the long chord of which bears South 22° 47' East, 399.22 feet); thence on a 954.93 foot radius curve to the right (the long chord of which bears South 8° 29' 50" East 209.12 feet) 209.54 feet; thence on a 400 foot spiral curve to the right (the long chord of which bears South 5° 47' 20" West 399.22 feet); thence South 9° 47' 20" West 60.20 feet; thence on a 300 foot spiral curve to the left (the long chord of which bears South 4° 47' 20" West 299.09 feet); thence on a 572.96 foot radius curve to the left (the long chord of which bears South 22° 06' 50" East 333.17 feet) 338.06 feet; thence on a 300 foot spiral curve to the left (the

(cont.)

EXHIBIT "M-10" (cont.)

long chord of which bears South 49° 01' East 299.09 feet); thence South 54° 01' East 90.06 feet; thence on a 300 foot spiral curve to the right (the long chord of which bears South 49° 01' East 299.09 feet); thence on a 572.96 foot radius curve to the right (the long chord of which bears South 26° 21' East 251.28 feet) 253.33 feet; thence on a 300 foot spiral curve to the right (the long chord of which bears South 3° 41' East 299.09 feet); thence South 1° 19' West 117.42 feet to Station R' 605+80.97 back equals R' 606+60.80 ahead; thence on a 400 foot spiral curve to the left (the long chord of which bears South 4° 01' East 398.62 feet) to Station R' 610+60.8. Said center line crosses the North and South lines of said property approximately at Stations R' 576+52 and R' 607+18 respectively. Excepting therefrom a tract of land described as follows: Beginning at a point which is opposite and 95 feet Westerly of Station 585+13.36 on said relocated center line, said point also being 829 feet South and 918 feet West of the Northeast corner of the South half ($S\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of said Section 29; thence South 9° 47' 20" West 86.65 feet, parallel to said center line; thence South 60° 31' West 32.01 feet; thence on a 293.27 foot spiral curve left (the long chord of which bears South 3° 54' 50" West 292.37 feet); thence on a 692.96 foot radius curve left (the long chord of which bears South 12° 20' 40" East 172.07 feet) 172.51 feet; thence South 57° 27' West 170.57 feet; thence on a 188.73 foot radius curve right (the long chord of which bears South 78° 23' 30" West 134.90 feet) 137.95 feet; thence North 59° 19' 55" West 107.11 feet; thence North 53° 45' 30" West 80.02 feet; thence on a 154.63 foot radius curve right (the long chord of which bears North 14° 25' 15" West 168.53 feet) 178.23 feet; thence North 18° 36' East 112.84 feet; thence on a 522.96 foot radius curve right (the long chord of which bears North 36° 47' East 326.39 feet) 331.93 feet; thence North 62° 43' 50" East 175.34 feet; thence South 73° 06' East 118.16 feet to the point of beginning, containing 5.77 acres in this exception.

The parcel of land to which this description applies contains 23.2 acres, outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the aforesaid described real property, hereinabove designated as Parcel No. 1, the Commission does hereby find and declare that the following described real property is necessary and required for right of way purposes, in connection with the relocation, construction and maintenance of Whale Cove-Miner Creek Unit of the Siletz River-Newport Section of the Oregon Coast Highway as a throughway, and for the relocation, construction and maintenance of a section of the present and now existing Oregon Coast Highway at Otter Crest, so that said existing Oregon Coast Highway may remain open

EXHIBIT "M-10" (cont.)

to public travel after the construction of the said relocated Oregon Coast Highway, which said real property is described as follows, to wit:

Parcel No. 2:

A parcel of land lying in Lot 3 of Section 29, Township 9 South, Range 11 West, W. M., Lincoln County, Oregon, the said parcel being that portion of said Lot 3 lying Westerly of the existing Oregon Coast Highway and Easterly of the following described line:

Beginning at a point which is opposite and 180 feet Westerly of Station R' 605+28.40 on the relocated center line of said highway, as said center line is described in Parcel No. 1 above, said point also being 2549.15 feet South and 204.14 feet West of the Northeast corner of the South half ($S\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of said Section 29; thence North 29° 09' West 428.21 feet; thence North 59° 03' West 1227.28 feet; thence Northwesterly 49 feet, more or less, to an angle point in the Easterly and Southerly lines of that tract conveyed to the State of Oregon By deed recorded in Book 54, Page 35, Deed Records of Lincoln County, Oregon. Excepting therefrom that portion of said tract previously conveyed to the State of Oregon by deed recorded in said Book 54, Page 35, Deed Records of Lincoln County, Oregon.

The parcel of land to which this description applies contains 3.25 acres, outside of the existing right of way.

3. The Commission does further find and declare that in addition to the acquisition of fee simple title to the hereinabove described parcels of real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Whale Cove-Miner Creek Unit of the Siletz River-Newport Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the parcels of real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. Right of access for pedestrian use to and from the said remaining land.

b. Right of access to the entire length of the said Otter Crest State Park Loop Road

c. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the West side of the said

(cont.)

EXHIBIT "M-10" (cont.)

relocated Oregon Coast Highway, opposite Highway Engineer's center line Station 588+70.

d. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the East side of the said relocated Oregon Coast Highway, opposite Highway Engineer's center line Station 585+82, for private access only.

e. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the East side of the said relocated Oregon Coast Highway, opposite Highway Engineer's center line Station 501+00, for private access only.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from,or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcels of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed

EXHIBIT "M-10" (cont.)

and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid parcels of real property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the descriptions of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer revised descriptions, hereby is authorized to use such revised descriptions in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised descriptions.

7. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 18th day of August, 1952.

EXHIBIT "M-11"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the T. H. Banfield Expressway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled; and

WHEREAS, said Commission is authorized to take fee simple title to said real property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proper construction and maintenance of the T. H. Banfield Expressway as a throughway, the following des-

cribed real property, to wit:

Owner: Walnut Park Company, et al
File: R-15872

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of Section 25, Township 1 North, Range 1 East, W. M., Multnomah County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to Walnut Park Company, recorded in Book 1232, Page 246 of Multnomah County Record of Deeds, the said parcel being described as follows:

Beginning at the Northeast corner of said property, said corner being North 89° 40' East 629.51 feet (along the South line of Section 25) and North 0° 20' West 175.18 feet from the quarter section corner on the South side of Section 25; thence South 0° 20' East 45 feet along the East line of said property; thence Northwesterly on a straight line to the North line of said property at a point 58 feet from the Northeast corner; thence North 89° 40' East 58 feet along said North line to the place of beginning.

The parcel of land to which this description applies contains 1,305 square feet.

Owner: Yamhill Street Corporation
File: R-15873

A parcel of land lying in Section 25, Township 1 North, Range 1 East, W. M., Multnomah County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to Yamhill Street Corporation, recoreded in Book 1132, Page 337 of Multnomah County Record of Deeds, the said parcel being all of said property except the following:

Beginning at a point in the South line of Section 25, said point being 629.51 feet Easterly of the Southwest corner of the Southeast quarter ($SE\frac{1}{4}$) of said Section 25; thence Northerly along the East line of that property conveyed to the Walnut Park Company as recorded in Book 1232, Page 246 of the Multnomah County Record of Deeds, a distance of 130.18 feet; thence Southeasterly, a distance of 474.22 feet to a point on the South line of said Section 25; thence Westerly along said South section line, a distance of 456 feet to the point of beginning.

EXHIBIT "M-11" (cont.)

The parcel of land to which this description applies contains 2.319 acres.

Owner: Emery B. Kelly, et al
File: R-14887

Lot 2, Block 3, Avalon Addition to the City of Portland, situated in Section 31, Township 1 North, Range 2 East, W. M., Multnomah County, Oregon, containing 5,000 square feet.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said T. H. Banfield Expressway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the State Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domian. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

EXHIBIT "M-11" (cont.)

7. That this resolution be entered in full in the minutes and records of the Commission this 18th day of August, 1952.

EXHIBIT "M-12"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the North Corvallis Section of the Pacific Highway West, and has ordered and declared that the said section of the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, in connection with the establishment, construction and maintenance of the North Corvallis Section of the Pacific Highway West as a throughway, the following described real property, to wit:

(cont.)

EXHIBIT "M-12" (cont.)

R-15194
Owner: Thomas Henry Paul Ireland, et al

A parcel of land lying in the Herman C. Lewis Donation Land Claim No. 47, Township 11 South, Range 5 West, W. M., Benton County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to Thomas Henry Paul Ireland, recorded in Book 108, Page 270, of Benton County Record of Deeds, the said parcel being a triangular tract of land bounded on the West by the existing Pacific Highway West, bounded on East by the Southern Pacific Railroad right of way, and bounded on the South by a line which is parallel to and 23.88 chains Southerly of the North Line of said Herman C. Lewis Donation Land Claim, said South line being coincident with the South line of a certain 10 acre (more or less) tract as described in said deed, recorded in Book 108 on Page 270.

The parcel of land to which this description applies contains 1.37 acres.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the relocated North Corvallis Section of the Pacific Highway West and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the relocated Pacific Highway West of a width of 25 feet on the East side of the said relocated highway, opposite Highway Engineer's center line Station 123+15, for private access only.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

(cont.)

EXHIBIT "M-12" (cont.)

The State shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 18th day of August, 1952.

20600

EXHIBIT "M-13"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947. known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish. construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the North Corvallis Section of the Pacific Highway West, and has ordered and declared that the said section of the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted. highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled,

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, in connection with the establishment, construction and maintenance of the North Corvallis Section of the Pacific Highway West as a throughway, the following described real property, to wit:

(cont.)

EXHIBIT "M-13" (cont.)

R-14621
Owner: James G. Johnson, et al

A parcel of land lying in the John Stewart Donation Land Claim No. 49, Township 11 South, Range 5 West, W. M., Benton County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to James G. Johnson and Olga Holmes Johnson recorded in Book 115, Page 264, of Benton County Record of Deeds, the said parcel being all that portion of the foregoing described property included in a strip of land 60 feet in width, lying on the Westerly side and all of said property lying on the Easterly side of the center line of the Pacific Highway West, as said highway has been relocated over and across or adjacent to the said property, which center line is described as follows:

Beginning at a point which is Engineer's center line Station 61+55.44, said point being 1272.6 feet North and 283.6 feet East of the Southeast corner of Donation Land Claim No. 48, Township 11 South, Range 5 West, W. M., thence on a spiral curve left (the long chord of which bears North 27° 09' East, 399.98 feet) a distance of 400 feet; thence on a 5729.58 foot radius curve left (the long chord of which bears North 22° 52' 15" East, 588.91 feet) a distance of 589.17 feet to Station 71+44.61, said center line crossing the Southerly and Northerly lines of said property approximately at Stations 64+80 and 66+43 respectively.

The parcel of land to which this description applies contains 0.60 acre.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the relocated North Corvallis Section of the Pacific Highway West and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be

(cont.)

EXHIBIT "M-13" (cont.)

reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 18th day of August, 1952.

EXHIBIT "M-14"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon be agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the North Corvallis Section of the Pacific Highway West, and has ordered and declared that the said section of the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes in connection with the establishment, construction and maintenance of the North Corvallis Section of the Pacific Highway West as a throughway the following described real property, to wit;

R-17987
Owner: T. J. Starker, et ux

(cont.)

EXHIBIT "M-14" (cont.)

A parcel of land lying in Section 35, Township 11 South, Range 5 West, W. M., Benton County, Oregon, the said parcel being described as follows:

Beginning at the Northwest corner of that tract conveyed to T. J. Starker and Margaret O. Starker by deed recorded in Book 136, Page 500 of Benton County Deed Records, and run thence South 16 feet along the East line of Third Street extended; thence Southeasterly 350 feet, more or less, to the South line of that tract conveyed to T. J. Starker and Margaret O. Starker by deed recorded in Book 131, Page 647, at a point 210 feet East of the Southwest corner thereof; thence East to the Southeast corner thereof; thence North along the East lines (center line of county road) of said Starker tracts to a point which is 165 feet from the Northeast corner of said tract recorded in Book 136, Page 500; thence Northwesterly 200 feet, more or less, to a point on the North line which is 175 feet East of the Northwest corner of said tract recorded in Book 136, Page 500; thence West 175 feet to the point of beginning, and containing 45,880 square feet, of which 4,800 square feet lie in the right of way of the county road, and 40,080 square feet lie outside of said county road right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said North Corvallis Section of the said relocated Pacific Highway West and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description,

EXHIBIT "M-14" (cont.)

hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 18th day of August, 1952.

20606

EXHIBIT "N-1"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Medford-County Farm Section of the said Pacific Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes; and

WHEREAS, the said Pacific Highway is a major highway of the state, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the widening, improvement and maintenance of the Medford-County Farm Section of the Pacific Highway, the following-described real property located in Jackson County, Oregon, to-wit:

R 19114
Owner: E. H. Lamport, et ux.

Parcel No. 1:

A parcel of land lying in Lot 1, Oak Grove Tracts, situated in Section 9, Township 38 South, Range 1 West, W. M., Jackson County, Oregon; the said parcel being that portion of said Lot 1 included in a strip of land 35 feet in width, lying on the southwesterly side of the center line of the Pacific Highway, as said

(cont.)

EXHIBIT "N-1" (cont.)

highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 391+57.16, said Station being 4929.75 feet south and 4952.71 feet east of the southwest corner of Donation Land Claim No. 38, Township 38 South, Range 1 West, W. M., thence North 43° 59' 50" West 2845.73 feet to Engineer's center line Station 420+02.89. The southwesterly line of said strip of land intersects the southeasterly and northwesterly lines of said Lot 1 approximately opposite Station 392+39 and Station 401+06, respectively.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 0.20 acre, more or less, outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired an easement across the owner's real property for the purpose of realigning the channel of an irrigation ditch so that the said ditch will coincide with the widening, improvement and maintenance of the Medford-County Farm Section of the Pacific Highway, said easement being described as Parcel No. 2, as follows:

Parcel No. 2:

A parcel of land included in a strip of land 20 feet in width, extending southeasterly 70 feet from the northerly line of said Lot 1; the northeasterly and southwesterly lines of said strip of land being 35 feet and 55 feet, respectively, southwesterly of and parallel to the relocated center line of the Pacific Highway, situated in Section 9, Township 38 South, Range 1 West, W. M., Jackson County, Oregon.

3. That in addition to the acquisition of fee simple title to and an easement across the above-described parcels of real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Medford-County Farm Section of the Pacific Highway and all of the contiguous real property of the owners', remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the Pacific Highway of a width of 25 feet on the west side of said Pacific Highway, opposite

EXHIBIT "N-1" (cont.)

Highway Engineer's center line Station 396+48.

b. A right of access to the Pacific Highway of a width of 25 feet on the west side of said Pacific Highway, opposite Highway Engineer's center line Station 394+00.

c. A right of access to the Pacific Highway of a width of 25 feet on the west side of said Pacific Highway, opposite Highway Engineer's center line Station 400+00.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcels of property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of the said revised description.

7. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or,

EXHIBIT "N-1" (cont.)

in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 19th day of August, 1952.

20610

EXHIBIT "N-2"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the North Santiam Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate and construct the Mehama-Mill City Section of the said highway, and for such purpose and in connection therewith, the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes; and

WHEREAS, the said North Santiam Highway is a major highway of the state and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the relocation, construction and maintenance of the Mehama-Mill City Section of the North Santiam Highway, and a proper intersection with the North Santiam Forest State Park access road, the following described parcels of real property, located in Marion County, Oregon, and described as follows, to wit:

R-16483
Owner: Earl F. Groblebe, et al

Parcel No. 1:

A parcel of land lying in the North half ($N\frac{1}{2}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 22, Township 9 South, Range 2 East, W. M., Marion County, Oregon, the said parcel being that

(cont.)

EXHIBIT "N-2" (cont.)

portion of said North half ($N\frac{1}{2}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 22 included in a strip of land 200 feet in width, 100 feet on each side of the center line of the North Santiam Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 611+39.02, said Station being 533.24 feet North and 382.23 feet West of the Northwest corner of Lot 2 of said Section 22; thence on a 1432.4 foot radius curve left (the long chord of which bears South 59° 10' 15" East) 470.21 feet; thence on a spiral curve left (the long chord of which bears South 73° 54' 30" East) 400 feet; thence South 76° 34' 30" East 1596.62 feet to Engineer's center line Station 636+05.85; said center line crossing the West and South lines of said North half ($N\frac{1}{2}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 22 approximately at Stations 615+90 and 628+11 respectively, containing 5.60 acres.

Parcel No. 2:

A parcel of land lying in the Northwest quarter ($NW\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 22, Township 9 South, Range 2 East, W. M., Marion County, Oregon, the said parcel being described as follows:

Beginning at the Southwest corner of said Northwest quarter ($NW\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$); thence Northerly along the West line of said Northwest quarter ($NW\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) 195 feet; more or less, to a line which is parallel to and 100 feet Southerly of the center line of the relocated North Santiam Highway, said line being the Southerly line of Parcel No. 1; thence Southeasterly along said line 765 feet, more or less, to the South line of said Northwest quarter ($NW\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$); thence Westerly along the South line of said Northwest quarter ($NW\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) 740 feet, more or less, to the point of beginning, containing 1.55 acre.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Mehama-Mill City Section of the relocated North Santiam Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will

EXHIBIT "N-2" (cont.)

be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcels of real property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings, it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 19th day of August, 1952.

EXHIBIT "N-3"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway, for the purpose of establishing, constructing and maintaining a throughway, the following described parcel of real property, to wit:

(cont.)

EXHIBIT "N-3" (cont.)

R-17993
Owner: I. R. Lawrence, et al

Parcel No. 1:

A parcel of land lying in the Samuel Hall Donation Land Claim No. 37, also situated in Section 20, Township 21 South, Range 4 West, W. M., Douglas County, Oregon, the said parcel being that portion of said Donation Land Claim No. 37 lying in said Section 20 and included in a strip of land of variable width, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 200+00, said Station being 199.09 feet South and 1723.57 feet East of the Northwest corner of Samuel Hall Donation Land Claim No. 37; thence South 35° 52' West 3366.07 feet; thence on a spiral curve right (the long chord of which bears South 36° 04' 30" West) 250 feet to Station 236+16.07; said center line intersecting the East line of said Donation Land Claim No. 37 approximately at Station 204+05 and the South line of said Donation Land Claim approximately at Station 234+66.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Westerly Side of Center Line	Width on Easterly Side of Center Line
200+00	202+00	190 feet	125 feet
202+00	205+50	150 feet	125 feet
205+50	219+00	125 feet	125 feet
219+00	233+66.07	200 feet	125 feet
233+66.07	235+00	200 feet	125 feet on straight line to 180 feet
235+00	237+00	200 feet	180 feet

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 20.40 acres.

2. That the Highway Commission does further find and declare that in addition to the acquisition of fee simple title to the above described real property, it is necessary to acquire an easement across the owners' real property for the purpose of relocating the channel of a certain stream known as

(cont.)

EXHIBIT "N-3" (cont.)

Pass Creek, and after relocating said channel upon other property, to fill in the present channel of the said creek so that the said highway can be properly constructed and maintained, said easement being across the hereinafter described real property:

Parcel No. 2:

A parcel of land lying in the Samuel Hall Donation Land Claim No. 37, also situated in Section 20, Township 21 South, Range 4 West, W. M., Douglas County, Oregon, the said parcel being described as follows:

All that portion of said Donation Land Claim No. 37 lying between the Southern Pacific Railroad right of way and a line which is parallel to and 190 feet Northwesterly of the relocated Pacific Highway center line and extending Southwesterly from the North and East lines of said Donation Land Claim No. 37 to a line at right angles to said center line at Highway Engineer's center line Station 202+00.

The parcel of land to which this description applies contains 0.36 acre.

3. That in addition to the acquisition of fee simple title to and an easement across the above described parcels of real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway and all of the contiguous real property of the owners, remaining after the appropriation of the real property and an easement hereinabove described; except that there shall be reserved unto the owners of the said remaining real property, their heirs and assigns, the following:

a. A right of access to a frontage road to be constructed by the State on the West side of the relocated Pacific Highway, which said road will connect with the Easterly boundary of the owners' property opposite Highway Engineer's center line Station 201+48, said frontage road to be connected to the said relocated Pacific Highway or other public ways only at such point or points as are designated by the State of Oregon.

b. A right of access to a frontage road to be constructed by the State on the East side of the relocated Pacific Highway, which said road will connect with the Easterly boundary of the owners' property opposite Highway Engineer's center line Station 206+05, said frontage road to be connected to the said relocated Pacific Highway or other public ways only at such point or points as are designated by the State of Oregon.

(cont.)

EXHIBIT "N-3" (cont.)

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to and an easement across the said parcels of real property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property and easement, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property and easement, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

7. That upon the trial of any suit or action instituted to acquire the said parcel of real property and an easement, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be and it hereby is entered in the minutes and records of the Commission this 19th day of August, 1952.

EXHIBIT "N-4"

Minutes of August 18 and 19, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right of interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the Divide-Anlauf Unit of the Divide-Rice Hill section of the Pacific Highway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway, for the purpose of establishing, constructing and maintaining a throughway, the following described parcel of real property, to wit:

(cont.)

EXHIBIT "N-4" (cont.)

R-17992
Owner: C. R. Lawrence, et ux

Parcel No. 1:

A parcel of land lying in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$); the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$), and in Lot 3 of Section 20, Township 21 South, Range 4 West, W. M., Douglas County, Oregon, the said parcel being that portion of said North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$); the Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$); and Lot 3 included in a strip of land of variable width, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 168+55.60, said Station being 257.36 feet North and 847.48 feet West of the Northeast corner of said Section 20; thence South 65° 19' West 612.14 feet; thence on a spiral curve left (the long chord of which bears South 64° 17' 45" West) 350 feet; thence on a 3274.05 foot radius curve left (the long chord of which bears South 50° 35' 30" West) 1332.86 feet; thence on a spiral curve left (the long chord of which bears South 36° 53' 15" West) 350 feet; thence South 35° 52' West 1199.40 feet to Station 207+00; said center line intersecting the North line of said North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) approximately at Station 173+50 and the West line of said Lot 3 approximately at Station 204+05. Excepting therefrom a parcel of land lying in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 20 as deeded to DeEava Gibson in Book 178, Page 123 of Douglas County Records of Deeds.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
169+00	176+00	136 feet	Variable to railroad right of way
176+00	178+17.74	136 feet on straight line to 180 feet	Variable to railroad right of way
178+17.74	180+00	180 feet	Variable to railroad right of way
180+00	183+50	180 feet on straight line to 275 feet	Variable to railroad right of way

(cont.)

EXHIBIT "N-4" (cont.)

183+50	187+50	275 feet on straight line to 140 feet	Variable to railroad right of way
187+50	188+50	140 feet on straight line to 75 feet	
188+50	193+50	75 feet	
193+50	197+00	150 feet taper to 225 feet	
197+00	200+00	225 feet	
200+00	206+00	225 feet taper to 150 feet	
206+00	Property line	150 feet	
187+50	195+00.60		Variable to railroad right of way
195+00.60	202+00		190 feet
202+00	205+50		150 feet
205+50	219+00		125 feet

The parcel of land to which this description applies contains 20.61 acres, of which 2.21 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 18.40 acres lie outside of the existing right of way.

2. The Commission does further find and declare that in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired an easement across the owner's real property for the purpose of relocating and constructing the channel of a certain stream known as Pass Creek so that the said highway can be properly constructed and maintained, said easement being across the hereinafter described parcel of real property:

Parcel No. 2:

A parcel of land lying in Lot 3 of Section 20, Township 21 South, Range 4 West, W. M., Douglas County, Oregon, the said parcel being all that portion of said Lot 3 lying between the Southern Pacific Railroad right of way and a line which is parallel to and 190 feet Westerly of the relocated center line of the Pacific Highway, and bounded on the Northeasterly side by a line at right angles to said center line at Station 199+00, said station being 118 feet South and 1782 feet East of the Northwest corner of Samuel Hall Donation Land Claim No. 37, Township 21 South, Range 4 West, W. M., and bounded on the Southwesterly side by said Donation Land Claim.

The parcel of land to which this description applies contains 0.31 acre.

EXHIBIT "N-4" (cont.)

3. That in addition to the acquisition of fee simple title to and an easement across the above described parcels of real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway and all of the contiguous real property of the owners, remaining after the appropriation of the real property and an easement hereinabove described; except that there shall be reserved unto the owners of the said remaining real property, their heirs and assigns, the following:

a. A right of access to a frontage road to be constructed by the State upon the above described real property and Westerly of the main relocated Pacific Highway, said frontage road to be connected to the main highway or other public ways only at such point or points as are designated by the State of Oregon.

b. A right of access to a frontage road to be constructed by the State upon the above described real property and Easterly of the main relocated Pacific Highway, said frontage road to be connected to the main highway or other public ways only at such point or points as are designated by the State of Oregon.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to and an easement across the said parcels of real property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property and easement, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property and easement, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

7. That upon the trial of any suit or action instituted to acquire the said

EXHIBIT "N-4" (cont.)

parcel of real property and an easement, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be and it hereby is entered in the minutes and records of the Commission this 19th day of August, 1952.

LOCATED AT SALEM, OREGON

TABLE OF CONTENTS

Page	Date 1952	Subject
20622	Sept. 22	Bids received on construction projects.
20624		Parks Supt. reports on the following matters:
		Dorena Dam recreational area. No action.
		Lincoln County. Proposed park development. 6 areas investigated. Action deferred.
		Deschutes County. Petersen Rock Gardens. Acquisition not approved.
20625		Short Sand Beach Park. Agreement to use road across park approved.
		Devils Elbow Park. Agreement with Ralph Koon for use of road approved.
		Camas Mountain Park. Agreement with Zimpel for use of road approved.
		Parks Supt.'s trip to Rapid City South Dakota confirmed. Overnight camping facilities discussed.
		Saddle Mountain Park. Request of St. Helens Paper Co. to haul logs over park road denied.
20626		Real property. Options for acquisition approved. See EXHIBIT "A".
		Portland. Banfield Expressway. Report to be made concerning r/w acquisition.
		Real property. Authority granted to negotiate for property near Butteville and near Wolf Creek.
		Sale of miscellaneous properties confirmed.
		Recessed at 10:30 a.m. to reconvene at 1:00 p.m.
		Klamath County. The Dalles-California Hwy. Lapine-Diamond Lake Jct. Agreement with Gilchrist Timber Co. approved.
20627		Yamhill County. Pacific Hwy. West. Lafayette-North Yamhill River. Easements with Southern Pacific Company approved.
		Lake County. City of Lakeview. Deeding of property to E.G. Mitchell approved.
		Marion County. Pacific Hwy. East. Salem-Hayesville School. Change of access to Lentsch property approved.
		Coos County. Oregon Coast Hwy. Forest Boundary-Hauser. Change in access to Dodds property approved.
		Lane County. Pacific Hwy. Judkins Point-Goshen. Change in access to Judkins property approved.
		Douglas County. Umpqua Hwy. Scottsburg. Purchase of Myrtlewood properties. Negotiations to be dropped.
20628		Portland. Union Avenue-Denver Avenue. Hunsperger property. No action re acquisition.
		Condemnation. Authority granted to institute proceedings. See EXHIBITS "I-1" through "I-9".
20630		Court Cases. Counsel reports as follows:
		State Construction Company. Trial judge decides against State. Appeal to be made.

Page	Date 1952	Subject
20630	Sept.22	Anthony J. Becker. Newport-Toledo Section. Jury returns verdict of $4,250.
		William R. Coates. Bay City-Tillamook Section. Jury returns verdict of $10,000.
20631		Condemnation cases. Counsel reports following settlements:
		Elmer H. Olson. Oakland Jct.-Deady Section. Settlement approved.
		Otto Nation. Salem By-Pass Section. Settlement approved.
		Gordon T. Emery. Settlement re auto accident approved.
		Condemnations. Amounts of offers to owners confirmed.
20633		Columbia River Hwy. Snow removal insurance with Union Pacific. Endorsement to present policy approved.
		Condemnation cases. Chief Counsel reports on high verdicts. Action deferred.
		Jackson County. Pacific Hwy. Medford-Ashland Section. Removal of frontage road clause on r/w acquisitions approved.
		Coos County. Oregon Coast Hwy. North Slough. Agreement with County re tide gates approved.
20634		Jackson County. Pacific Hwy. Medford County Farm. Settlement with A. M. Boner for r/w approved.
		Coos County. Oregon Coast Hwy. Coquille to Bandon. Stock passes to be installed.
		Used equipment and scrap materials at La Grande. High bids accepted.
		Tillamook County. Wilson River Hwy. Sidewalk construction requested near Tillamook. Action deferred.
		Coos County. Myrtle Point-Sitkum Road. Request for designation as state hwy. denied.
		Baker County. Old Oregon Trail. City of Haines. Oiling of shoulders in city approved.
20635		Coos County. Oregon Coast Hwy. Sixes. Construction of sidewalk on Sixes River Bridge approved.
		Federal Aid Program. Anlauf-Elkhead Section and Elkhead Road-Rice Hill Section. Error in allotments corrected.
		State Tax Street Funds. Projects approved. See EXHIBITS "B-1, -2, -3".
		Coos County. Oregon Coast Hwy. Cedar Point-Coquille. Allotment increase on Contract 3464 approved.
20636		Tillamook County. Little Nestucca Secdy. Hwy. Request for oiling denied.
		Ochoco Hwy. Agreement with BPR to maintain Ochoco Mountain Section approved.
		Tiller-Trail Secdy. Hwy. Agreement with BPR to maintain section approved.
		Baker County. City of Baker. Request to maintain two city streets denied.
		Lane County. Eugene. Payment for improvements in front of Secretary of State's Office approved. Re-imbursement to be sought from state legislature.

Page	Date 1952	Subject
20637	Sept.22	Douglas County. Pacific Hwy. Divide-Rice Hill Section. Survey adopted. See EXHIBIT "C".
		Budget. 1953-55 Biennial Budget approved.
		Coos County. Oregon Coast Hwy. Hauser-Douglas County Line. Four agreements with Southern Pacific Company approved.
		Willamette Hwy. Willamette Pass Ski Area. Request to construct parking space denied. Record of traffic to be made.
20638		Jackson County. Medford. Enlargement of hdqtrs. bldg. approved. Transfer of funds approved.
		Malheur County. Ontario Spur. Improvements to maintenance bldg. approved.
		Contract awards. Engineer reports satisfaction of conditions.
20639		Heppner Hwy. Lena-Nye Section. Contract construction of 2 bridges approved.
		Test section to determine axle loading. Proposed tests to be made in Illinois by BPR and states. Participation not approved.
20640		Yamhill County. Three-Mile Lane Hwy. Dayton Bridge. Installation of traffic lights confirmed.
		Extensions of time on highway contracts approved.
20649		Contracts completed and accepted. See EXHIBIT "D".
		Travel Advisory Committee. Appointment of Arthur C. Waud approved.
		W. E. Murphy. IBM computation of earthwork quantities. No royalties to be paid to Mr. Murphy.
		Wallowa County. Wallowa Lake Hwy. Grande Ronde River Bridge. Reduced load limits removed. See EXHIBIT "E".
		Jackson County. Pacific Hwy. City of Central Point. "No Parking" resolution adopted. See EXHIBIT "F-1".
20650		Multnomah County. Columbia River Hwy. Sandy River. "No Parking" zone approved. See EXHIBIT "F-2".
		Douglas County. Pacific Hwy. Roseburg. "No Parking" zone north of city approved. See EXHIBIT "F-3".
		Yamhill County. Oregon Route 219. Request for reduced speed zone denied.
		Douglas County. Pacific Hwy. Myrtle Creek. Request for reduced speed zone denied.
20651		Lane County. Willamette Hwy. Willamette City-Oakridge. Reduced speed zones approved. See EXHIBIT "G-1".
	WASHINGTON	~~Yamhill~~ County. Forest Grove. Reduced speed zones on Tualatin Valley and Nehalem Hwys. approved. See EXHIBITS "G-2" and "G-3".
20652		Claim. Payment to H. F. Hunt for road oil damage to car approved.
		W. C. Williams. Attendance at WASHO meeting in Ogden, Utah, approved.

Page	Date 1952	Subject
20652	Sept.22	Lester Orton. Attendance at Weed Control Conference at Chehalis, Washington, approved.
		Unfinished business items considered as follows:
		Dorena Dam Recreation Area.
		Proposed State Park near Dorchester House.
		Pacific Hwy. West. Re-routing through McMinnville.
		Honeyman State Park. Proposed addition.
20653		Merrill-Malin and Klamath Falls-Lakeview Hwys. intersection east of Klamath Falls.
		Hermiston Chamber of Commerce request for improvements: Underpass, traffic signals, bridge widening, signs.

Portland, Oregon
September 22, 1952

The State Highway Commission met in regular session at 9:00 a.m., Pacific Standard Time, in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Commissioner McIver was excused from attending this meeting.

Bids as follows for highway construction were opened and read aloud by the Secretary in conformity with previously published notice, at the conclusion of which it was announced that the awarding of contracts would be made at 3:00 p.m., Pacific Standard Time, in the same room:

PACIFIC HIGHWAY IN DOUGLAS COUNTY
CALAPOOYA CREEK BRIDGE AND STEARNS LANE OVERCROSSING

Snook Brothers, Corvallis	$111,100.00
Hamilton & Thoms, Eugene	111,660.00
Hannan Brothers, Portland	113,140.00
Tom Lillebo, Reedsport	114,870.00
C. J. Eldon, Portland	118,095.00
Fred H. Slate Oregon Limited, Portland	123,140.00

PACIFIC HIGHWAY IN JACKSON COUNTY
WAGNER CREEK BRIDGE

Ausland & Dodson, Grants Pass	$ 11,970.00
R. E. Meade & Co., Grants Pass	12,685.00
VaDare Construction Co., Portland	14,190.00
R & M Construction Co., Central Point	17,151.00
George E. Berry, Beaverton	17,810.00

LANE COUNTY
RICHARDSON-NOTI ROCK PRODUCTION PROJECT

Calkins Crushing Co., Ocean Lake	$ 24,150.00

Richardson-Noti Rock Production Project (cont.)

E. C. Swaggart, Coos Bay	$ 25,060.00
F. H. McEwen, Eugene	28,000.00
L. P. Stubblefield, Eugene	37,100.00

LINCOLN COUNTY
SPENCER CREEK PARK OVERNIGHT CAMPING AREA

Teller Construction Co., Portland	$ 23,817.00
Victor Johnston, Newberg	24,398.00
J. E. Jeremiah, Portland	26,174.78
Robert C. Wilson, Corvallis	27,287.50
Schrader Construction Co., Portland	32,218.50

MULTNOMAH COUNTY
ARATA ROAD UNDERCROSSING

Teller Construction Co., Portland	$ 35,712.80
Montag Brothers, Portland	37,095.00
C. M. Corkum, Portland	38,093.00

Schrader Construction Co., Portland	44,726.00
Fred H. Slate Co. Oreg. Ltd., Portland	47,350.00
United Builders, Inc., Beaverton	59,764.85

COLUMBIA RIVER HIGHWAY IN MULTNOMAH COUNTY
ONEONTA SECTION EMBANKMENT AND RIP RAP REPAIR

Rex C. Ayers, Portland	$ 7,230.00
B. M. Emery Co., Portland	9,860.00
C. J. Eldon, Portland	10,130.00
John A. Logan, Portland	10,150.00
J. N. Conley, Portland	10,975.00
River Bend Construction, Inc., Portland	11,150.00
F. C. Scott Construction Co., Portland	16,875.00

MULTNOMAH COUNTY TRAFFIC SIGNALS
POWELL BOULEVARD AND SANDY BOULEVARD

W. R. Grasle Co., Portland	$ 5,346.00
Montgomery Electric Co., Portland	6,725.00

The State Parks Superintendent reported on the following park

matters:

1. Proposal of Lane County Recreational Committee for development of a state park at Dorena Dam: The Parks Superintendent advised that pursuant to instructions from the Commission he has made a comprehensive study of the project and finds that while the area is desirable from a recreational standpoint and probably will be developed as a park sometime in the future, in his estimation, the State should not assume the responsibility until some of the other state parks in the vicinity of Eugene are further developed. He pointed out that the U. S. Corps of Engineers has developed areas at the Cottage Grove Dam which is not too far distant from Dorena and which will serve the people in this district for sometime to come. He also mentioned a number of state park developments in and around Eugene, and developments that had been made by the U. S. Forest Service along the Willamette and Upper McKenzie Rivers. He also pointed out that serious consideration should be given to the matter of the road improvement leading to the area, the Dorena area now being served by a county road about eight miles long which is partially oiled and partially graveled, and that the State will have to take this road over if the area is designated a state park. He recommended that nothing be done at the present time to establish a state park at this location. The Commission approved the recommendation unanimously.

2. Development of a state park along US 101 in North Lincoln County: The Parks Superintendent advised that he investigated six locations, including an area recommended by the Ocean Lake and Delake Chambers of Commerce near Ocean Lake, one of them being an area containing about 52 acres of land west of the highway at its junction with Roads End Road, and another being a 152-acre tract on the south side of Siletz Bay. He expressed his preference for the latter mentioned tract of all those investigated and recommended that options be negotiated to acquire this area, the development of which, he estimated, would cost about $28,000 including access roadway, sewers, water facilities, tables, stoves, etc. He estimated the cost of the tract opposite the intersection of the highway and Roads End Road at about $1,000 per acre or a total of $62,000. It was the feeling of the Commission that the tract located on the south side of the Siletz Bay would not satisfy the Ocean Lake Chamber of Commerce or others who are interested in the matter. Accordingly, action was deferred by the Commission until some future time.

3. Acquisition of "Petersen Rock Gardens" on the old route of US 97 between Redmond and Bend in Deschutes County: The Parks Superintendent advised that these gardens consist of many fantastic rock designs constructed by a Mr. Rasmus Petersen who spent a lot of time and effort collecting unusual stones and rocks from the Central Oregon area to create this very beautiful setting. He further stated that numerous suggestions have been received that this area be designated a state park. He gave as his belief that the area does not meet the requirements for a state park because it is entirely artificial in character and would not fit into the State Parks picture. Accordingly, he recommended against acquisition of the property. The Commission approved the recommendation.

4. Request of St. Helens Pulp and Paper Company for an extension of time within which to complete its log hauling operations across Short Sand Beach State Park, Tillamook County: The Parks Superintendent advised that the company is now operating across the park under an agreement with the Commission which expires on October 2, 1952 and that the company alleges that because of road building difficulties experienced in construction of a road across its own land adjoining the park, it is going to take about two years to complete the road and to log the timber they have in mind. The company's operations across the park, he said, will not detract from use of the park by the general public, and he accordingly recommended approval of the company's request for a two-year extension of the present arrangement. The Commission approved the recommendation.

5. Request of Ralph Koon for an extension of his agreement covering a logging road crossing of Devil's Elbow State Park on the Coast Highway: The Parks Superintendent advised that Mr. Koon has not completed his logging operations at this place and wants a two-year extension of the privilege previously granted which expires on October 5, 1952. He recommended approval of the request. The Commission approved the recommendation.

6. Request of R. A. Zimpel for an extension of his agreement with the Commission covering a logging road crossing of the Camas Mountain State Park on the Coos Bay-Roseburg Highway: The Parks Superintendent advised that the present agreement with Mr. Zimpel expires on October 9, 1952 and that Mr. Zimpel wants the time extended for a two-year period. He recommended approval of the request. The Commission approved the recommendation.

7. Confirm authority given Parks Superintendent to attend a meeting of the National Conference of State Parks which was recently held at Custer State Park near Rapid City, South Dakota: The Parks Superintendent advised that he incurred out-of-state travel expense in the amount of $231.85 to attend this meeting. The Commission authorized payment of this expense with State Highway Funds. In this connection the Parks Superintendent gave a brief resume of matters that were discussed at the meeting, pointing out that the meeting was attended by 125 people representing the Parks Departments of all of the states, whose reports indicate that their problems are very similar to those of the State of Oregon, and that they are being solved in much the same manner. He particularly pointed out that some of the states are extending themselves considerably more than the State of Oregon to provide overnight camping facilities.

8. Request of St. Helens Pulp and Paper Company to truck-haul logs over Saddle Mountain State Park Road, Clatsop County: The Parks Superintendent advised that the company's operations are quite extensive and will extend over a period of several years and that the company wants to transport all of the logs over the Saddle Mountain Road. He advised that the road is not suitable for this type of hauling, and undoubtedly will go to pieces unless it is reinforced. He also pointed out that the road is narrow and crooked and has very steep grades, so its use by logging operations will constitute a serious hazard to other traffic for which it was built. The State Highway Engineer gave further details with respect to the existing road. He estimated that it would cost about $80,000 to improve it as will be necessary if log hauling is permitted. He pointed out, as did the Parks

Superintendent, that the road was constructed for light traffic only and in its present condition is satisfactory for such purposes, so if the Commission reconditioned it to hold up under the use that the company wishes to put it, it would be spending State Highway Funds for private gain. He recommended that the company's request be denied. The Commission approved the recommendation and so ordered.

The Right of Way Engineer presented for the Commission's approval options obtained for the acquisition of real property needed as right of way or for other purposes in connection with State Highway construction. After careful consideration, the Commission approved the options as reported and authorized the Right of Way Engineer to close them in accordance with the prices mentioned therein. The attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission unanimously.

In this connection the Commission discussed briefly the status of right of way acquisition on the T. H. Banfield Expressway, Portland. The Right of Way Engineer was instructed to render a report giving full information concerning this subject for all five units.

The Right of Way Engineer requested authority to negotiate acquisition of real property needed for the following purposes:

(1) Quarry site needed as a material source for the Portland-Salem Expressway near Butteville in Marion County, consisting of approximately 20 acres, owner Samons, Frohn, and Hart, Portland.

(2) Property needed for change in the channel of Wolf Creek on the Glendale Junction-Wolf Creek Section of the Pacific Highway near the town of Wolf Creek in Josephine County, in order to prevent flooding of private property caused by highway improvement, owners: John C. Porter, approximately 0.50 acre, and Harry Stewart, approximately 0.73 acre.

The Commission approved the request unanimously.

The Commission unanimously confirmed sales of miscellaneous properties as reported by the Right of Way Engineer. (For a list of the properties sold, see copy of report prepared by Mr. C. W. Parker, Property Manager, dated September 22 and 23, 1952, on file in the Secretary's office under the heading "Miscellaneous Sales".)

The meeting recessed for luncheon at 10:30 a.m., Standard Time, and reconvened at 1:00 p.m., Standard Time, with the same persons present and participating.

The Commission considered and approved a Modification of Lease and Sale of Road Materials and Easement for Hauling Road with the Gilchrist Timber Company on the Lapine-Diamond Lake Junction Section of The Dalles-

4. Request of St. Helens Pulp and Paper Company for an extension of time within which to complete its log hauling operations across Short Sand Beach State Park, Tillamook County: The Parks Superintendent advised that the company is now operating across the park under an agreement with the Commission which expires on October 2, 1952 and that the company alleges that because of road building difficulties experienced in construction of a road across its own land adjoining the park, it is going to take about two years to complete the road and to log the timber they have in mind. The company's operations across the park, he said, will not detract from use of the park by the general public, and he accordingly recommended approval of the company's request for a two-year extension of the present arrangement. The Commission approved the recommendation.

5. Request of Ralph Koon for an extension of his agreement covering a logging road crossing of Devil's Elbow State Park on the Coast Highway: The Parks Superintendent advised that Mr. Koon has not completed his logging operations at this place and wants a two-year extension of the privilege previously granted which expires on October 5, 1952. He recommended approval of the request. The Commission approved the recommendation.

6. Request of R. A. Zimpel for an extension of his agreement with the Commission covering a logging road crossing of the Camas Mountain State Park on the Coos Bay-Roseburg Highway: The Parks Superintendent advised that the present agreement with Mr. Zimpel expires on October 9, 1952 and that Mr. Zimpel wants the time extended for a two-year period. He recommended approval of the request. The Commission approved the recommendation.

7. Confirm authority given Parks Superintendent to attend a meeting of the National Conference of State Parks which was recently held at Custer State Park near Rapid City, South Dakota: The Parks Superintendent advised that he incurred out-of-state travel expense in the amount of $231.85 to attend this meeting. The Commission authorized payment of this expense with State Highway Funds. In this connection the Parks Superintendent gave a brief resume of matters that were discussed at the meeting, pointing out that the meeting was attended by 125 people representing the Parks Departments of all of the states, whose reports indicate that their problems are very similar to those of the State of Oregon, and that they are being solved in much the same manner. He particularly pointed out that some of the states are extending themselves considerably more than the State of Oregon to provide overnight camping facilities.

8. Request of St. Helens Pulp and Paper Company to truck-haul logs over Saddle Mountain State Park Road, Clatsop County: The Parks Superintendent advised that the company's operations are quite extensive and will extend over a period of several years and that the company wants to transport all of the logs over the Saddle Mountain Road. He advised that the road is not suitable for this type of hauling, and undoubtedly will go to pieces unless it is reinforced. He also pointed out that the road is narrow and crooked and has very steep grades, so its use by logging operations will constitute a serious hazard to other traffic for which it was built. The State Highway Engineer gave further details with respect to the existing road. He estimated that it would cost about $80,000 to improve it as will be necessary if log hauling is permitted. He pointed out, as did the Parks

Superintendent, that the road was constructed for light traffic only and in its present condition is satisfactory for such purposes, so if the Commission reconditioned it to hold up under the use that the company wishes to put it, it would be spending State Highway Funds for private gain. He recommended that the company's request be denied. The Commission approved the recommendation and so ordered.

The Right of Way Engineer presented for the Commission's approval options obtained for the acquisition of real property needed as right of way or for other purposes in connection with State Highway construction. After careful consideration, the Commission approved the options as reported and authorized the Right of Way Engineer to close them in accordance with the prices mentioned therein. The attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission unanimously.

In this connection the Commission discussed briefly the status of right of way acquisition on the T. H. Banfield Expressway, Portland. The Right of Way Engineer was instructed to render a report giving full information concerning this subject for all five units.

The Right of Way Engineer requested authority to negotiate acquisition of real property needed for the following purposes:

(1) Quarry site needed as a material source for the Portland-Salem Expressway near Butteville in Marion County, consisting of approximately 20 acres, owner Samons, Frohn, and Hart, Portland.

(2) Property needed for change in the channel of Wolf Creek on the Glendale Junction-Wolf Creek Section of the Pacific Highway near the town of Wolf Creek in Josephine County, in order to prevent flooding of private property caused by highway improvement, owners: John C. Porter, approximately 0.50 acre, and Harry Stewart, approximately 0.73 acre.

The Commission approved the request unanimously.

The Commission unanimously confirmed sales of miscellaneous properties as reported by the Right of Way Engineer. (For a list of the properties sold, see copy of report prepared by Mr. C. W. Parker, Property Manager, dated September 22 and 23, 1952, on file in the Secretary's office under the heading "Miscellaneous Sales".)

The meeting recessed for luncheon at 10:30 a.m., Standard Time, and reconvened at 1:00 p.m., Standard Time, with the same persons present and participating.

The Commission considered and approved a Modification of Lease and Sale of Road Materials and Easement for Hauling Road with the Gilchrist Timber Company on the Lapine-Diamond Lake Junction Section of The Dalles-

California Highway. (The lease was signed later in the session.)

The Commission also discussed and unanimously approved acquisition from the Southern Pacific Company of two longitudinal slope easements on the Lafayette-North Yamhill River Section of the Pacific Highway West, Yamhill County. (A form of easement was signed by the Commission later in the session.)

The Right of Way Engineer presented for the Commission's approval a correction deed conveying to Ernest G. Mitchell 0.06 acre of land in the City of Lakeview. He explained that the land is a portion of a stock pile site purchased some years ago, and that subsequently a minor boundary dispute arose. In order to dispose of the matter, he recommended that this small parcel be deeded back to Mr. Mitchell without charge. The Commission approved the recommendation. (The deed was signed later in the session.)

The Commission discussed and upon recommendation of the Right of Way Engineer unanimously approved changes in points of access to state highways as follows:

(1) Lentsch property on the Salem-Hayesville School Section of US 99E, File No. 13905.

(2) Dodds property on the Forest Boundary-Hauser Section of US 101, Coos County, File No. 18211.

(3) Judkins property on the Judkins Point-Goshen Section of US 99, Lane County, File No. 9311.

("Indentures of Access"covering each of the above changes were signed by the Commission later in the session.)

The Right of Way Engineer reported the results of negotiations to acquire tracts of land along the Umpqua Highway near Scottsburg whereon myrtle wood trees are growing. He recalled that the investigation was ordered by the Commission at the request of the "Save the Myrtle Woods, Inc." of Portland which sometime ago offered to contribute toward the expense involved. He advised that several parties were contacted, one being a Mrs. Gladys M. Kaskich who has agreed to sell her property for $1,000 but which, in his estimation, is too high. A Mr. Woodward and a Mr. Parker were also contacted, and it was determined they did not wish to sell their properties under any consideration so if their properties are acquired, acquisition would have to be by condemnation. He gave as his feeling that such procedure is not justified, and he recommended that none of the properties be acquired and that the matter be dropped. The Commission approved the recommendation unanimously. The Secretary was instructed to notify the association of the action taken, and to advise further that if the association sees fit to acquire the areas and to convey them to the State for park purposes without cost, the Commission will accept them.

The State Highway Engineer brought up for discussion a letter received from Mr. M. Edward Hunsperger, Washington, D. C., directed to Governor

McKay, regarding property that he owns at the intersection of Union Avenue and Denver Avenue in North Portland. It appears that Mr. Hunsperger owns approximately 29,000 square feet of land at this location which heretofore has been rented for business purposes from which he received a nice rental; however, construction of the highway at this point with its curves, islands, channels and markers, etc. has made it so inapproachable from the business standpoint, that his tenants have vacated the premises, and he has been unable to secure others so he wants the state to buy the property for which he asks the sum of $60,000. The Engineer advised that the State can use a small portion of Mr. Hunsperger's property for the proposed connection between Swift Secondary Highway and US 99W, but the entire property, which is appraised at $16,500, is not needed. He suggested that the Commission authorize negotiations with Mr. Hunsperger to acquire the property at somewhat near the appraised value. It was the feeling of the Commission that the price demanded by Mr. Hunsperger is entirely too high and, because the property is not needed immediately, that nothing be done about acquiring it at this time.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way or for other purposes in connection with various highway improvements, and to tender offers for the same in conformity with instructions given him in the resolution that was adopted by the Commission at its meeting on December 20, 1951:

County Farm-Ashland Section of the Pacific Highway

R 19532 - William Fox
Right of Way (Jackson)
0.07 acre

R 19533 - Maybelle A. Bunnell
Right of Way (Jackson)
0.32 acre

R 19534 - Thomas A. Klarin
Right of Way (Jackson)
0.25 acre

R 19535 - Edwin C. Gardner
Right of Way (Jackson)
0.02 acre

R 19536 - Charles K. Paulstick
Right of Way (Jackson)
0.26 acre

R 19537 - Wanda Crowl
Right of Way (Jackson)
0.08 acre

County Farm-Ashland Section of the Pacific Highway (cont.)

R 19542 - Jay B. Cochran
Right of Way (Jackson)
0.11 acre

Willamette River-White School Junction Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway

R 10625 - J. E. Langdon
Right of Way (Clackamas)
8.97 acres, plus drainage easement

R 10630 - Anna B. Wurster
Right of Way (Clackamas)
7.96 acres

R 17527 - Homer Langdon
Right of Way (Clackamas)
18.83 acres, plus drainage easement

R 18583 - James E. Langdon
Right of Way (Clackamas)
3.72 acres

R 19382 - Paul Cooney
Gravel Pit (Clackamas)
13.918 acres

R 19538 - Marie Schodde
Right of Way (Clackamas)
0.679 acre

R 19539 - John Downing
Right of Way (Clackamas)
0.604 acre

R 19540 - G. Mourens
Right of Way (Clackamas)
0.37 acre

State Street-South Unit of the Salem By-Pass Section of the Pacific Highway East

R 18294 - W. H. Grabenhorst Co.
Right of Way (Marion)
3.491 acres

R 18295 - G. H. Grabenhorst
Right of Way (Marion)
Parcel No. 1: 49.4 acres
Parcel No. 2: 23.195 acres
Parcel No. 3: 4.25 acres
Parcel No. 4: 0.153 acre

September 22, 1952

State Street-South Unit of the Salem By-Pass Sec. of the Pacific Hwy. East (cont.)

R 18297 - Roy H. Simmons
Right of Way (Marion)
Parcel No. 1: 0.255 acre
Parcel No. 2: 0.168 acre

R 18300 - Arland Lovcik
Right of Way (Marion)
Parcel No. 1: 1.5 acres
Parcel No. 2: 8.35 acres

Unit No. 4 Section of the T. H. Banfield Expressway

R 14839 - Howard-Cooper Corporation
Right of Way (Multnomah)
1.16 acres

Rowena-The Dalles Unit of Mosier-The Dalles Section of the Columbia River Highway

R 16222 - W. R. Taylor
Right of Way (Wasco)

Reedsport-Luder Creek Section of the Umpqua Highway

R 15458 - Earle S. Butler
Right of Way (Douglas)
0.10 acre

The Commission approved the request unanimously by adoption of the attached resolutions relative thereto, marked EXHIBITS "I-1" through "I-9" inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Chief Counsel rendered a written report of cases tried or in which judgment decrees have been entered since the August meeting of the Commission as follows:

(1) State vs. State Construction Company: This case involves a contractor who refused to accept the contract awarded to him by the State Highway Commission as a result of competitive bidding, the particular contract being for construction of piers for the Marion Street Bridge in Salem. The Chief Counsel advised that this case was decided against the State by the trial judge, but it is his intention to appeal.

(2) State vs. Anthony J. Becker, et al: This case involves acquisition of 0.675 acre of land needed as right of way for the improvement of the Newport-Toledo Section of the Corvallis-Newport

Highway. The jury in this case returned a verdict in the amount of $4,250.

(3) State vs. William R. Coats, et al: This case involves acquisition of 4.38 acres of land necessary as right of way for the Bay City-Tillamook Section of the Oregon Coast Highway with complete restriction of access to the new highway except for a farm crossing and the right to drive stock beneath the highway bridge. The jury in this case returned a verdict in the amount of $10,000. No interest was allowed by the court, but the court has not yet determined the amount of attorney's fees. The Commission approved the report. (For details see copy of report in the General Files.)

The Chief Counsel reported settlement of the following cases:

(1) State vs. Elmer H. Olsen et ux: This case involves acquisition of 5.46 acres of land needed as right of way for the Oakland Junction-Deady Section of the Pacific Highway. Offer tendered prior to commencement of condemnation proceedings was $5,128, which the owner refused because it did not leave sufficient property on which to carry on a saw mill operation. As a result of continued negotiations, an option was obtained for the purchase of 6.02 acres of land for the sum of $12,000, the owners being obligated to remove their saw mill from the property being taken by the State and to do other things in the State's interest. The Commission approved the settlement.

(2) State vs. Otto Nation, et al: This case involves acquisition of 0.927 acre of land needed as right of way for the Salem By-Pass Section of the Pacific Highway East. Offer tendered prior to the filing of a complaint was in the amount of $450. The property owner demanded $4,000. A compromised settlement has been reached at $2,500 and a deed has been secured from the owners on that basis. The Commission approved the settlement.

(3) State vs. Gordon T. Emery, et al: This case involves collection of a claim against Mr. Emery in the sum of $153.46 for damage to a State-owned delivery sedan in an accident involving a vehicle that was being driven by Mr. Emery. A compromised settlement was effected with the Oregon Automobile Insurance Company, Mr. Emery's insurance carrier, for the sum of $125, a check for which has been delivered. The Commission approved the settlement.

The Commission discussed and unanimously confirmed offers reported by the Chief Counsel, as follows, for acquisition of real property that is needed for various highway purposes which offers were tendered to the owners prior to institution of condemnation proceedings in conformity with authority granted him by the Commission in its resolution adopted December 20, 1951:

Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway

L-1816 - Owner: C. R. Lawrence, et ux. 18.40 acres for right of way and 0.31 acre for easement for channel change. Amount of offer $10,075.00. Authorized by Commissioner Reynolds on September 8, 1952.

Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway

R-19222 - Owner: Leo Schuemmer, et al. 0.20 acre for right of way. Amount of offer $1,000.00. Authorized by Commissioner McIver on August 21, 1952.

R-19221 -Owner: Paul M. McFarland, et ux. 0.12 acre for right of way. Amount of offer $2,500.00. Authorized by Commissioner McIver on August 21, 1952.

Unit No. 5 of the T. H. Banfield Expressway

R-19179 - Owner: Steve Calcagno, et ux. 0.417 acre for right of way. Amount of offer $1,200.00. Authorized by Commissioner McIver on August 21, 1952.

State Street South Unit of the Salem By-Pass Section of the Pacific Highway East

R-17361 - Owner: Helen R. Edmundson. 3.876 acres for right of way. Amount of offer $2,500.00. Authorized by Commissioner McIver on August 21, 1952.

Medford-County Farm Section of the Pacific Highway

R-18669 - Owner: L. C. Taylor, et ux. 0.18 acre for right of way, and 600 square feet for easement for channel change. Amount of offer $4,500.00. Authorized by Commissioner McIver on August 21, 1952.

R-19133 - Owner: John C. Kesler, et ux. 0.17 acre for right of way, and 0.76 acre for easement for channel change. Amount of offer $3,000.00 plus construction by the State of a chain link fence along the right of way and a foot bridge over the irrigation ditch. Authorized by Commissioner McIver on August 21, 1952.

R-18436 - Owner: I. W. Housechild, et al. 0.05 acre for right of way. Amount of offer $5,100.00. Authorized by Commissioner McIver on August 21, 1952.

R-19114 - Owner: E. H. Lamport, et ux. 0.20 acre for right of way, and 1,925 square feet for easement for construction of irrigation ditch. Amount of offer $1,000.00. Authorized by Commissioner McIver on August 21, 1952.

R-19151 - Owner: A. H. Boner, et al. 0.09 acre for right of way. Amount of offer $4,550.00. Authorized by Commissioner McIver on August 21, 1952.

R-19115 - Owner: William M. Luse. 0.05 acre for right of way, and 1,925 square feet for easement for construction of irrigation ditch.

Medford-County Farm Section of the Pacific Highway (cont.)

R-19115 (cont.) Amount of offer $900.00. Authorized by Commissioner McIver on August 29, 1952.

North Santiam State Park Access Road

R-17766 - Owner: Keith Phillips, et ux. 3.257 acres for park access road. Amount of offer $815.00. Authorized by Commissioner Reynolds on September 8, 1952.

The Chief Counsel brought up for discussion the question of renewal for a five-year period of the insurance policy in favor of the Union Pacific Railroad Company relating to snow removal in the Columbia Gorge. The Chief Counsel advised that the Commission has heretofore entered into two distinct snow removal agreements with the Railroad Company covering snow removal operations through the Columbia River Gorge -- one dated March 26, 1937, in which provision is made for the State to purchase liability insurance subject to the satisfaction of the Railroad Company, and the other dated December 19, 1950, by the terms of which the Railroad Company is to furnish necessary liability insurance to the satisfaction of the State. Pursuant to the terms of the 1950 agreement, he said, the Railroad Company submitted a certificate of insurance for the State's approval, but upon examination, was found to be unsatisfactory inasmuch as the coverage was on an award basis with respect to property damage liability rather than on an occurrence basis as was required by the 1950 agreement. He further explained that the matter was taken up with the Railroad Company which furnished a satisfactory endorsement but demanded that the 1937 agreement also be placed on an occurrence basis. These matters, he said, have now been taken care of, but the question arises whether or not it would be advisable to rewrite the policy for an additional five-year term on an occurence basis rather than securing an endorsement of the present policy. The cost of the endorsement, he said, would be nothing and the premium charge for the five-year renewal would be at the same rate the Commission is now paying, which is $800 per year. As a result of discussion, the Commission decided unanimously to dispose of the matter by endorsement to be attached to the present policy.

The Commission discussed briefly but deferred action until its next meeting, a written report from the Chief Counsel containing results of a study of the problem presented by verdicts in condemnation actions at times being too high and the remedial action that may be taken.

At the request of the Chief Counsel, the Commission unanimously confirmed for the record authority given to the Chief Counsel to remove the usual future frontage road clause from all right of way acquisitions for the Medford-County Farm and the County Farm-Ashland Sections of the Pacific Highway.

The Commission discussed and upon recommendation of the Chief Counsel and the Engineer unanimously approved a form of agreement with the North Slough Diking District Coos County, covering the installation of tide gates on a culvert structure at North Slough. The agreement provides that the

installation is to be made by the State at the sole cost of the district. (The agreement was signed later in the session.)

The Chief Counsel reported that settlement has been reached with Mr. Arthur M. Boner, et ux for right of way needed for the Medford-County Farm Section of the Pacific Highway. He explained that the taking is 0.09 acre of land including complete restriction of access to the new highway. He recalled that the Commission authorized condemnation of the property and an offer of $4,550 in connection therewith, but an option has been obtained from the owner for a consideration of $4,500. The Commission approved the settlement.

The Engineer reported the results of investigations conducted pursuant to the Commission's instructions to determine the necessity of stock passes on the Oregon Coast Highway between Coquille and Bandon. He said that investigation reveals that over a section 5.7 miles in length, there are nine ranchers who drive their dairy stock across the highway at least twice daily. He pointed out that during the years 1948 to date, the average daily traffic on the highway has increased from 1,823 to approximately 2,300 and that the accident rate on that section of highway also has been increasing steadily, although it has not yet exceeded the state-wide average rate of approximately five accidents per million vehicle miles. The investigation further reveals, he said, that the sight-distance at three of the cattle crossings is not sufficient for cars traveling 45 or 50 miles per hour to stop, but the sight-distance at the other six crossings is satisfactory. He recommended that there be included in the 1953 budget a minor betterment item for installation of three corrugated galvanized iron stock passes at the crossings serving the properties of Mr. C. M. Bogard at M. P. 285.51, Mr. J. W. Curtis at M. P. 287.05, and Mr. C. S. Danielson at M. P. 286.45. He estimated the cost involved at $7,500. The Commission approved the report and the recommendation.

The Engineer reported the results of the taking of bids in Salem on September 8, 1952 for the purchase of used equipment and scrap materials located at the highway shops in La Grande. He recommended acceptance of the high offer submitted for each item. The Commission approved the recommendation. (For details see tabulation of bids filed in the office of the Secretary under File No. 459, "Miscellaneous Proposals".)

A petition was presented signed by numerous citizens of Tillamook County in which request was made for sidewalk construction along the Wilson River Highway through the populated area east of Tillamook City. The Commission referred the matter to the Engineer for investigation and report.

The Commission discussed and denied a request from Mrs. Nettie Baker, Myrtle Point, Oregon, that the Myrtle Point-Sitkum County Road in Coos County be designated and improved as a state highway.

The Commission discussed a letter from the City of Haines requesting the oiling of the shoulders adjacent to the highway pavement on US 30 through the town's business district in order to eliminate a dust condition that obtains

during the summer season. The Engineer advised that this matter has been investigated and it has been determined that the work can be done for about $1,000. He recommended approval of the project as a minor betterment in 1953. The Commission approved the recommendation.

The Commission discussed a petition sponsored by Sixes Grange, Sixes, Oregon, Coos County, and bearing the signatures of numerous residents of this district, in which petition the Highway Commission is requested to construct a footwalk on the Sixes River Bridge for the safety and convenience of pedestrians. The Engineer advised that an investigation reveals that traffic, particularly truck traffic, is quite heavy on this structure. He pointed out that the bridge is 523 feet long and only 23 feet wide and that it takes a person about two minutes to walk across it which is too short a time to permit a pedestrian to wait for a break in traffic. He gave as his opinion there is justification for a sidewalk on this bridge and he recommended an expenditure of $5,000 for such purpose using reserve funds from the 1952 minor betterment budget. The Commission approved the recommendation.

The Engineer brought to the Commission's attention an error in the amounts allocated to two highway projects that were approved by the Commission at the previous meeting for the 1954 Federal Aid Program. These two projects are the paving of the Anlauf-Elkhead Road Section of the Pacific Highway, and the grading of the North Unit of the Elkhead Road-Rice Hill Section of the Pacific Highway both in Douglas County. The program as adopted, he said, shows an amount of $870,000 for the paving project and $200,000 for the grading project, whereas properly the amounts should be reversed. He asked the Commission to approve the change and to authorize the Secretary to correct the record of the previous meeting accordingly. The Commission approved the request unanimously.

The Engineer reported that the towns of Banks, Barlow, Bay City, Canyonville, Chiloquin, Corvallis, DeLake, Gearhart, Huntington, Lonerock, Mt. Vernon, Phoenix, Sisters, Waldport, and Waterloo have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds that accrued to them during the first six-month period of 1952; also that the towns of Boardman, Chiloquin, Joseph, Mt. Vernon, Prescott, Scappoose, and Siletz have satisfied the legal requirements with respect to State Tax Street Funds that accrued to them during the second six-month period of 1951; also that the towns of Chiloquin and Siletz have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds that have accrued to them during the first six-month period of 1951. He further advised that the plans of the projects proposed to be financed with the funds in each instance have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolutions relative thereto marked EXHIBITS "B-1", "B-2", and "B-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer requested an increase of $19,000 in the project authorization for the Cedar Point-Coquille Section of the Oregon Coast Highway under Contract No. 3464. He explained that the overrun of the original authorization was due to the necessity of using more sub-base and crushed rock surfacing materials than was anticipated. The Commission approved the increase unanimously.

A letter was presented from the County Court of Tillamook County requesting the oiling or construction of a black top surface on the Little Nestucca State Secondary Highway easterly from its junction with the Oregon Coast Highway to a place known as the Dunn Bridge. The County Court states that because of the dust condition of the present road, considerable losses are being caused to the owners of dairy farms located thereon. The Engineer advised that investigation reveals that the section of the highway referred to is 1.65 miles in length, and the the existing surfacing is of insufficient width or depth to permit oiling. This road, he said, carries considerable log hauling traffic and to improve it to an oil standard would cost about $25,000. He admitted that the dust nuisance is bad, but he pointed out there are many miles of county roads in Tillamook County that are in similar condition. He recommended that the request for oiling be denied until the Commission has more secondary highway funds than are available at the present time. The Commission approved the recommendation.

The Commission discussed and upon recommendation of the Engineer approved two agreements with the U. S. Bureau of Public Roads whereby the Bureau agrees to maintain for an additional one-year period two sections of state highways that were constructed with forest highway funds, one being the Ochoco Mountain Section of US 26, 18.15 miles in length, and the other being a 15.45 mile section of the Tiller-Trail Secondary Highway extending northerly from the summit. (The agreements were signed later in the session.)

The Commission discussed a request from the City of Baker that the State assume responsibility for improving and maintaining two city streets in Baker which connect at one end or the other with existing state highways. The Engineer advised that approval of this request by the Commission would establish precedent that would be far-reaching and eventually would involve an expenditure of a large sum of money which the Commission can ill afford. He recommended that the request be denied. The Commission approved the recommendation.

A letter was presented from the Secretary of State in which the Commission was requested to approve the improvement of Walnut Street in the City of Eugene in front of State Highway property which is under lease to the Secretary of State, so as to provide additional parking space for automobiles. The Engineer advised that the City of Eugene is improving Walnut Street between Franklin Boulevard (US 99) and 15th Avenue, a distance of 464 feet, of which the State's frontage extends 125 feet. Fifty feet of the State's frontage, he said, is occupied by the Secretary of State's office, and in order to provide suitable parking space along this frontage, it was considered advisable to construct a pavement several feet wider than standard. The city, he said, has completed the improvement on an understanding with the Secretary of State that the State would pay its regular assessment and would also pay the cost of the extra widening, or a total of approximately $1,900. Due to the large amount of truck traffic to and from the Highway Department's Maintenance Headquarters, the Secretary of State's Office, and the police operation, the Engineer recommended approval of the payment of this expense, and that the matter be presented to the next Legislative Assembly

to authorize payment of the amount if and when properly certified by the City of Eugene and the Secretary of State. The Commission approved the recommendation.

The Engineer reported that the survey for the revised location of the Divide-Rice Hill Section of the Pacific Highway in Douglas County has been completed. He exhibited a map showing the proposed location and explained details. He recommended adoption of the survey by the Commission. As a result of discussion, the Commission unanimously approved and adopted the said survey as recommended. The attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission by unanimous vote.

The Engineer presented for the Commission's consideration an estimate for the 1953-1955 biennial budget which is required to be submitted to the Department of Finance and Administration for presentation to the 1953 Legislative Assembly along with the budget estimates of other state departments. The Commission approved the budget unanimously as prepared. (The budget was signed by the Commission later in the session.)

The Commission discussed and upon recommendation of the Engineer and Chief Counsel unanimously approved four agreements with the Southern Pacific Company relative to the Hauser-Douglas County Line Section of the Oregon Coast Highway, Coos County, as follows:

(1) Agreement covering construction of overcrossing at Ten Mile Creek.

(2) Easement for overcrossing structure and for slope easement adjacent to Ten Mile Creek structure.

(3) Longitudinal encroachment on the Hauser-Douglas County Line Section.

(4) Temporaty encroachment covering detour roadway.

(The agreements were signed by the Commission later in the session.)

The Engineer reported a request from Mr. George Korn, proprietor of the Willamette Pass Ski Area, for an enlargement of the car-parking area at the summit of the Willamette Pass as an accomodation to winter sports enthusiasts participating in winter sports at this location. He advised that the matter has been investigated and it has been determined that to do what Mr. Korn requests would cost about $7,150. He also said that the present parking area was constructed by the State in 1949 at a cost of $4,500 and because of its popularity has been used to full capacity during the past two winters and that the manager of the Ski Area predicts a much greater attendance at their winter sports events upon completion of the reconstructed Willamette Highway past Meridian Dam. He gave as his feeling that there is merit in Mr. Korn's request, but because of the lateness of the season, construction of the enlarged area should be deferred

until 1953 which would allow sufficient time to make further study of the project. Discussion of this matter brought out that the area to be improved is beyond the limits of the highway right of way and that Mr. Korn's resort is a private undertaking, also that the improvement requested by Mr. Korn is of a promotional nature. From the facts disclosed, the Chief Counsel questioned the Commission's authority to spend money for this purpose. The members of the Commission expressed reluctance to approve the project, and thereupon denied the request, at least for immediate undertaking. The Engineer was instructed to make a record of traffic conditions that occur at this location during the coming winter and to report his findings next spring when the matter will be reconsidered.

The Engineer requested authority to spend about $7,500 to enlarge the Highway Department's Maintenance Headquarters Building in Medford to accommodate the state police and the resident construction engineer who is to handle work either now under way or comtemplated in the near future in this locality. He suggested that the project could be financed within the limits of the current budget by transferring a portion of the funds heretofore budgeted by the Commission to construct a maintenance headquarters at Seaside, it being impossible to construct the Seaside project this year because a satisfactory building site has not as yet been found. As a result of discussion, the Commission unanimously approved construction of the building at Medford and the method of financing the same as suggested by the Engineer.

The Engineer also requested authority for an expenditure of about $1,200 for alterations to a building on the Ontario Spur Section of US 30 to accommodate personnel of the State Police Department and of the office of the Public Utilities Commissioner. He explained that the building is located near the west end of the Snake River Bridge and was acquired along with land that will be needed some time in the future for two additional traffic lanes when an additional bridge is built across the Snake River at this place. The State Police Department, he said, is very anxious to get additional office space at Ontario, and the Public Utilities Commissioner also wants accommodations which it is not practical to provide by enlarging the present highway building. The Police Department, he said, will pay $75 per month and the Public Utilities Commissioner $25 per month rental which is sufficient to retire the $1,200 investment in one year's time. He recommended approval of the expenditure. The Commission approved the arrangement unanimously.

The Commission approved a report from the Engineer advising satisfaction of the conditions covering the awards of the following contracts and also advising that contract and bond forms have been prepared and forwarded to the respective contractors pursuant to the Commission's instructions:

(1) Construction of the North Slough Culvert on US 101, Coos County. Conditions of award satisfied on September 3, 1952. Tom Lillebo, Reedsport, successful bidder.

(2) Grading and oil mat surfacing on the East Connection, Boardman Junction Section of US 30, Morrow County. Conditions of award satisfied August 28, 1952. Leslie Harris, Pendleton, successful bidder.

(3) Grading and paving the Shogren-Rowena Unit of the Columbia River Highway, Wasco County. Conditions of award satisfied August 22, 1952. Parker-Schram Company, Portland, successful bidder.

(4) Grading and oil mat surfacing on the Beaver Ammunition Storage Point in Columbia County. Conditions of award satisfied August 22, 1952. John R. Saxton, Clatskanie, successful bidder.

(5) Grading and paving on the Medford-County Farm Section of US 99, Jackson County. Conditions of award satisfied on August 20, 1952. T. W. Thomas, Portland, successful bidder.

The Engineer requested authority to contract construction of two bridges on the Lena-Nye Section of the Heppner Highway for which the sum of $17,000 was provided in the original project authorization for the improvement of this highway section. It was originally intended, he said, to use State forces to recondition these bridges to conform with Federal requirements; however, later it was deemed advisable to contract the work using state funds to finance it. By doing the work in this manner, he said, the project authorization for the Lena-Nye Project will be reduced by the amount of $17,000. The Commission approved the request.

The Engineer brought up for discussion the advisability of the State of Oregon joining with the other states of the Union, with the U. S. Bureau of Public Roads and with some of the industries in financing a test to determine the effect of single axle and tandem axle loadings on a wide range of rigid and flexible pavement sections in order to establish basic information to be used in the design of future highways and in the determination of load-carrying capacity of existing highways that are subject to heavy and frequent axle loads. He said that the study will include construction cost elements in relation to axle-load applications in order to correlate the original cost plus maintenance and depreciation of the different test sections with the magnitude and frequency of the applied load, and it is also to determine the effect of representation of stress on the service life of highway bridge structures. The location of the test section, he said, will be near the geographic center of the United States, in Illinois, and he estimated the total cost involved at approximately $3,500,000 of which about $1,500,000 will be paid with Federal Aid Funds; $1,000,000 will be contributed by industries; and the balance of approximately $1,000,000 will be contributed by the states, which means that each state will contribute between $20,000 and $25,000. He recommended that the State of Oregon join in this undertaking. In the discussion of the matter, the members of the Commission expressed themselves as being reluctant to obligate the sum required until the results of the Idaho test road have been made known and studied, and it was the feeling of the Commission that the formula covering the participation of each state should be adjusted so that those states which have larger revenues for highway purposes shall contribute proportionately more than those with small highway revenues. The Engineer was instructed to suggest such arrangement to the sponsors of the project.

The Engineer asked the Commission to confirm his action in ordering installation of traffic lights on the Dayton Bridge over the North Yamhill River, at a cost of $2,300. He explained that this is a narrow bridge and that recently a very serious accident occurred on it which convinced him that something should be done immediately to safeguard traffic inasmuch as it is not proposed to replace the bridge within the next five years. He added that because of the apparent emergency, he ordered installation of the signal on short notice. The Commission approved the Engineer's action.

Consideration was given by the Commission to the following requests for extensions of time within which to complete highway contracts:

1. Zephyr Electric Company, Contract No. 3594, for installation of traffic signals on the Old Oregon Trail (Main Street) in the City of Baker, requested an additional extension of time of 24 days from June 21 to July 15, 1952, within which to complete this project. They attributed their failure to complete the project within the previously extended time limit to unavailability of necessary materials. The Engineer advised that the overrun in time limit was entirely due to slow delivery by materials suppliers and is not in any sense the fault of the contractor. He recommended in view thereof that the additional extension of time as requested be granted without penalty. The Commission approved the recommendation.

2. Parker-Schram Company, Contract No. 3537 for topping and paving on the Meridian Dam-Duval Creek Section of the Willamette Highway in Lane County, requested an extension of time of 15 days from August 1 to August 15, 1952, within which to complete this job. They stated that failure of other contractors to complete their grading contracts on schedule interfered with and delayed the placing of gravel topping materials; also that additional work and materials involved in a change in type of shoulder construction contributed to the overrun of time. The Engineer advised that the completion date specified in this contract was August 1, 1952; that all surfacing work was completed and the highway opened to travel by July 30, and that the overrun of time limit was required solely to permit the completion of stock piling of maintenance materials. The public, he said,has not been inconvenienced by the delay; neither has the State incurred any additional expense for engineering supervision. He recommended, in view of the circumstances, that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

3. Leslie Harris, Contract No. 3693 for reoiling the Unity Junction-Mill Gulch Section of the Baker-Unity Highway in Baker County, requested an extension of time of 302 days, from August 31, 1952 to June 30, 1953, within which to complete this job. He stated that it was impossible for him to complete this project within the specified time limit because rock which was to be furnished by the State had not yet been made available and indications are that it will not be available until

the spring of 1953. The Engineer advised that this contract provided that the rock for the reoiling operations would be furnished by the State through another contract and that failure of the other contractor to provide the rock in sufficient time to complete the oiling work this year necessitated postponement of such work until next year. The overrun in time limit, he said, is not the fault of the contractor, and he accordingly recommended that the extension of time as requested by granted without penalty. The Commission approved the recommendation.

4. Warren Northwest Inc., Contract No. 3699 for paving the Silverton (McLaine Street and West Main Street) City street project in the City of Silverton requested an extension of time of 46 days, from July 31 to September 15, 1952, within which to complete this job. The contractor explained that the delay in completing this project within the specified time limit was due to its plans to use materials from the paving plant which is to be set up at Monitor in connection with another state highway contract awarded to them, between Woodburn and Mt. Angel, which plant they expected to be in opetation by August 12, 1952. The Engineer advised that this contractor was awarded both contracts as stated, and it was their intention to pave both projects from the same setup Present indications are, he added, that both jobs will be completed in the very near future. He further stated that the state has incurred no extra expense for engineering supervision. In view thereof, he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

5. Newport Construction Company, Contract No. 3665 for rock production on the Baker-Table Rock Creek Section of the Baker-Homestead Highway in Baker County, requested an extension of time of 120 days, from July 31 to November 30, 1952, within which to complete this job. The alleged their failure to complete the project within the specified time limit was due to the Engineer's request that they expedite several other state highway contracts which took longer than was expected, and as a result, the Baker rock production job got behind schedule. The Engineer advised that the contractor was requested to expedite several other contracts prior to starting this one in order that other major contracts would not be held up. The overrun of time, he said, will not cause any extra expense for engineering supervision, and he recommended, in view thereof, that the extension be granted without penalty. The Commission approved the recommendation.

6. United Contracting Company, Contract No. 3711 for grading and paving The Dalles Section of the Columbia River Highway in Wasco County, requested an extension of time of 61 days, from August 31 to October 31, 1952, within which to complete this job. They attributed their failure to complete the project within the specified time limit to delay by the state in the award of the contract because of right of way difficulties and delays caused by the failure of the City of The Dalles to re-establish its water mains on four city blocks involved in this work. The Engineer advised that the reasons given by the contractor for overrunning the specified time limit are correct. He recommended, in view of the fact that the overrun of time was not the fault of the contractor, that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

7. Western Paving and Construction Company, Contract No. 3733 for paving the Delake-Newport-Toledo Paving Project on the Oregon Coast Highway and certain city streets, in Lincoln County, requested an extension of time of 30 days from August 31, to September 30, 1952 within which to complete this job. They gave the following reasons for overrunning the specified time limit: "Late spring rain caused soft grade on contract we had with City of Sweet Home and delay in delivery and getting into operation of new equipment needed on this contract". The Engineer advised that the contractor purchased new equipment for this job and because of the failure of the manufacturer to deliver the equipment when expected, the contractor was delayed approximately six weeks in the performance of portions of this work. The State, he said, has incurred no extra expense for engineering supervision, and he recommended, in view thereof, that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

8. Inland Construction Company, Contract No. 3682 for grading and paving and bridge construction on the Eagle Creek Section of the Clackamas Secondary Highway in Clackamas County, requested an extension of time of 45 days, from August 31 to October 15, 1952, within which to complete this job. They gave the following reasons for failure to complete the project within the specified time limit: delays incident to a 57-day steel strike; 20 days delay caused by a flash flood which destroyed bridge falsework; several days delay over procurement of spring from an adjacent property owner, and performance of extra work not included in the original contract. The Engineer advised that the reasons given by the contractor for overrunning the specified time limit are substantially correct and that the overrun cannot be classed as the contractor's fault. He recommended, in view thereof, that the extension of time, as requested, be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

9. R. A. Heintz Construction Company, Contract No. 3534 for grading, paving, and bridge construction on the Bridgeton Road-Gertz Road and Columbia Slough-Columbia Boulevard Sections of the Pacific Highway East in Multnomah County, requested an extension of time of 61 days, from July 31, 1952 to September 30, 1952, within which to complete this job. They gave the following reasons for overrunning the specified time limit:

a. Backfill could not be placed at the ends of the Slough Bridge because another contractor had not completed his work.

b. Necessity to allow fill materials to dry out so as to avoid settling when base rock and paving is placed.

c. Failure of the State and the City of Portland to reach an agreement relative to placement of curbs and driveways in front of business establishments on Union Avenue near Columbia Boulevard.

The Engineer advised that the contractor expedited the contract as much as he could, but because of the failure of another contractor to complete the Columbia Slough Bridge due to the steel strike, he could not complete the project within the specified time. He recommended, in view of the circumstances, that the extension of time,as requested, be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

10. Durbin Brothers Construction Company, Contract No. 3471 for grading and bituminous macadam surfacing on the Big Creek (Agate Beach-Newport) Section of the Oregon Coast Highway in Lincoln County, requested an extension of time of 32 days,from June 30. 1952 5o August 1, 1952, within which to complete this job. They attributed their failure to complete the project within the specified time limit to adverse weather conditions, extra work involved in construction of a box culvert necessitating the laying off of one shift of workers, and the necessity to readjust the oiling schedule because grading work was not completed on time. The Engineer advised that the reasons given by the contractor for overrunning the specified time limit are substantially correct. He further stated that the traveling public was not inconvenienced by the delay, neither did the State incur additional expense for engineering supervision. He recommended, in view of the circumstances, that the extension of time, as requested, be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

11. O. C. Yocom Company and J. C. Compton Company, Contract No. 3706 for paving city streets in Carlton, Yamhill, and Lafayette, requested an extension of time of 30 days, from August 31, 1952 to September 30, 1952, within which to complete this job. They gave as their reasons for failure to complete the project within the specified time limit the necessity to start the Judkins Point-Goshen Paving Project, Contract No. 3618, immediately; also a crew to operate the McMinnville plant was not available until after September 1. The Engineer advised that all work in connection with this job except the paving work, was completed before the specified time limit expired and that the contractor's plant is set up to do the paving work on short notice. He further stated that at his request the contractor concentrated his efforts on the paving of the Judkins Point-Goshen Project. He recommended in view of the fact that the overrun of time was for the convenience of the Highway Department, that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

12. H & R Construction Company, Contract No. 3631 for construction of the Second Street Overcrossing on the Columbia River Highway in Hood River, requested an extension of time of 30 days, from August 31, to September 30. 1952, within which to complete this job. They alleged that their failure to complete the job within the specified time limit was due to delay in securing clearance from the railroad company. The Engineer advised that before work on this project could start it was necessary that the railroad company move a water tank and do some other work. Due to the failure of the railroad company to move its tank, the contractor s operations were held up which accounted for the overrun of time limit. He recommended, in view of the circumstances, that

the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

13. Warren Northwest Inc., Contract No. 3769 for grading and paving the Summer Street Section (Chemeketa Street-Center Street) of US 99E in Salem, requested an extension of time of 30 days, from September 15 to October 15, 1952, within which to complete this job. The Engineer advised that this project involved construction of a portion of the Capitol Mall and that before the contractor could commence work, certain buildings had to be removed from the area. Because of delays in the moving of the buildings, the contractor's operations were held up for quite some time which accounted for the overrun of the time limit specified. The delay, he said, was not the fault of the contractor, and he recommended, in view thereof, that the extension of time be granted as requested, without penalty. The Commission approved the recommendation.

14. Portland Construction Company, Contract No. 3568 for landscaping the Coos Bay (Greenwood Avenue-Market Avenue) Section of the Oregon Coast Highway in the City of Coos Bay, requested an extension of time of 9 days from April 30 to May 9, 1952 within which to complete this job. They attributed their failure to complete the project within the specified time limit to delay of the grading contractor to do certain grading work as soon as was anticipated. The Engineer advised that this contract was worked in conjunction with the Fir Avenue-Ingersoll Avenue contract in the City of Coos Bay and because of the failure of the other contractor to complete the grading of the area to be seeded, the Portland Construction Company was not able to complete its job within the specified time limit. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

15. Ernest Ferrante and Company, Contract No. 3615 for roadside improvement on the West Prineville Section of the Madras-Prineville and Ochoco Highways in Crook County, requested an extension of time of 90 days, from June 30 to September 30, 1952, within which to complete this job. They stated that flood conditions and failure of the seed to germinate in an alkali area delayed completion of the project within the specified time. The Engineer advised that because of the alkali soil, it was necessary for the contractor ro reseed several of the areas in the landscaping project in order to comply with the specifications that the grass area must be mowed by the contractor at least three times before the project could be accepted. Because of the necessity of reseeding operations, he said, it was not possible for the contractor to complete the project until August 15, which was the actual completion date of the project. He recommended that an extension of time to August 15, 1952 be granted without penalty. The Commission approved the recommendation.

16. George E. Berry, Contract No. 3499 for fencing along the Willow Creek-Boardman Section of the Columbia River Highway in Morrow

County, requested an extension of time of 160 days, from November 30 to May 9, 1952, within which to complete this job. He alleged that he failed to complete the job within the specified time limit because he was unable to obtain all the necessary materials until May 1, 1952. The Engineer advised that this contract called for steel posts and steel wire, and because of steel shortages at the time the contractor was unable to secure delivery of such materials. He said that the overrun in time limit was not the fault of the contractor and he recommended in view thereof that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

17. D & H Paving Company, Contract No. 3561 for grading and paving the Hayesville-Salem (Lana Avenue) Section of the Pacific Highway East in Marion County, requested an extension of time of 17 days, from June 15 to July 2, 1952, within which to complete this job. They attributed their failure to complete the project within the specified time limit to an overrun of the quantities of materials to be handled. The Engineer advised that when this project was opened up, it was found that many pipes and culverts were in place which were not found during the preliminary investigations, so it was necessary to greatly increase the quantity of structural excavation, pipe removal, and reinstallation of pipe over the preliminary quantities. All of this work, he said, had to be completed before the contractor could commence regular grading operations with the result that the time schedule on the job was disrupted. He recommended in view of the fact that the extra work was no fault of the contractor that the extension of time as requested be granted without penalty. A letter from the Bureau of Public Roads was presented concurring therein. The Commission approved the recommendation.

18. Vernie Jarl, Contract No. 3475 for grading the Herman Creek Road-Gorton Creek Section of the Upper Columbia River Highway in Hood River County, requested an extension of time of 274 days, from November 30, 1951 to August 31, 1952, within which to complete this job. He attributed his failure to complete the project within the specified time limit to delay of the Western Union Company to remove its pole line facilities from the highway right of way. The Engineer advised that the slowness of the Western Union Company to remove its poles from the right of way did contribute to the overrun of the time limit; however there were many other contributing factors which required the job to be operated very slowly, particularly two bad slides, one of which involved the railroad and necessitated the changing of the grade line in order to gain relief. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

19. K. C. Dack Construction Company, Contract No. 3712 for grading and oiling the Irrigon Ordnance Depot Access Road in Morrow County, requested an extension of time of 30 days, from August 15, 1952 to September 15, 1952, within which to complete this job. They attributed their failure to complete this project within the specified time limit to the delay of the State Highway Commission in awarding the contract. The Engineer advised that due to right of way

difficulties, the contract was not awarded until nearly 30 days after bids were received and that this delay did not permit the contractor to finish the grading operations in time to complete the oiling within the completion date specified. He recommended, in view of the circumstances, that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

20. Cosmo Gilo, Contract No. 3421 for grading the Stout Creek-Mill City Section of the North Santiam Secondary Highway, requested an additional extension of time of 38 days, from July 1 to August 7, 1952, within which to complete this job. He attributed his failure to complete the project within the specified time limit to adverse weather conditions, to confusion of boundary lines with various property owners, and to additional work required to remove slides. The Engineer advised that this contract was awarded on October 10, 1950 with a specified completion date of July 15, 1951; further that Mr. Gilo commenced operations on October 23, 1950 but the work was suspended on November 10, 1951 because it could not proceed during the winter months but was resumed on April 14, 1952 and was completed on August 7, 1952. He recalled that because of right of way difficulties, the project was not completed within the specified time limit of July 15, 1951 so the Commission at its November 1951 meeting extended the completion date to July 1, 1952 with the understanding that no penalty would be assessed up to October 15, 1951 but that the contractor would be charged with the engineering expenses incurred by the State in connection with this job from that time up to the date the contract actually was completed. He gave as his opinion that Mr. Gilo has no legitimate excuse for an additional extension of time without penalty, and he recommended that the additional time now requested be granted subject to the condition that the contractor be assessed for all engineering expense incurred by him between October 15, 1951 and August 7, 1952 when the job was finally completed, except for the period between November 10, 1951 and April 14, 1952 when the work was closed down for the winter months. In the discussion of the matter, the Engineer presented Mr. Gilo's request for relief from the payment of the penalty. A letter was presented from the Bureau of Public Roads concurring in the Engineer's recommendation. As a result of the discussion, the Commission denied Mr. Gilo's request for relief of payment of the penalty but granted his request for the additional extension of time in conformity with the recommendation of the Engineer.

21. F. L. Somers, Contract No. 3535 for grading, surfacing, and rock production on the East Unit of the Antelope-Clarno Section of the Shaniko-Fossil State Secondary Highway in Wheeler County, requested an extension of time of 123 days, from April 30 to August 31, 1952, within which to complete this job. He attributed his failure to complete the project within the specified time limit to adverse weather conditions which prevented delivery of culvert pipe to the job in the fall of 1951, making it impossible for him to proceed with the grading and crushing work until the spring of 1952. The Engineer advised that the contractor experienced considerable trouble in securing metal pipe specified for the job, the

delivery of which was so late that he could not commence his grading operations until adverse winter weather set in. The conditions were such, he said, that the work could not be satisfactorily prosecuted during the winter months so it had to be held up until the spring of 1952. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The recommendation was approved by the Commission.

22. J. N. Conley, Contract No. 3595 for bridge construction, grading, and oil mat surfacing on the Pittsburg-Wilson Creek Section of the Pittsburg-Scappoose County Road in Columbia County, requested an extension of time of 15 days from August 31 to September 15, 1952 within which to complete this job. He attributed his failure to complete the project within the specified time limit to inclement weather. The Engineer advised that the contractor's grading operations were held up due to a modification of a bridge design to fit unexpected foundation conditions; also that the overrun of time has not increased the cost of the engineering. In view thereof, he recommended that the extension of time as requested be granted without penalty. A letter from the Bureau of Public Roads was presented concurring therein. The Commission approved the recommendation.

23. Snook Brothers, Contract No. 3573 for construction of the Banzer Bridge over the Nehalem River on the Nehalem State Secondary Highway in Columbia County requested an additional extension of time of 56 days, from June 15 to August 27, 1952, within which to complete this job. They gave the following reasons for overrunning the previously extended time limit: "Delays caused by loss of falsework from high water and subsequent repairs to the damaged structure". The Engineer advised that this project includes the removal of an existing bridge which could not be done until State forces had constructed and surfaced the approaches to the new structure, and that such work was not completed until May 22, 1952. The extension of time now requested, he said, is simply to allow for the removal of the existing structure. He recommended approval of such extended time limit without penalty because of the conditions prevailing. A letter was presented from the Bureau of Public Roads concurring therein. The recommendation was approved by the Commission.

24. Allen E. Sackett. Contract No. 3353 for grading and oil mat surfacing on the Salisbury Junction-Poker Creek Section of the Sumpter Valley Highway in Baker County, requested an additional extension of time of 16 days from June 30 to July 16, 1951, within which to complete this job. He gave no particular reason for overrunning the previously extended time limit other than to accommodate the oiling subcontractor. The Engineer advised that all work on this contract with the exception of the oiling, was completed by June 30, 1951. The oiling work, he said, was subcontracted to one of the larger oiling contractors whose schedule was arranged to take care of several other more important state projects prior to operating on this one. The delay, he said, did not inconvenience the traveling public, and the State incurred only $300 additional expense for engineering supervision which was more than offset by the benefits received from the adjustment of the oiling contractor's schedule. He recommended in view of the

circumstances that the additional extension of time as requested be granted without penalty notwithstanding that the Bureau of Public Roads will not concur therein. The Commission approved the recommendation.

24-a. Warren Northwest Inc., Contract No. 3519 for grading and paving the Davies-Forest Grove Section of the Nehalem Secondary Highway in Washington County, requested an extension of time of 280 days, from October 15, 1951 to July 22, 1952, within which to complete this job. They stated that their failure to complete the project within the specified time limit was due to prior commitments and inability of their supplier of materials to furnish sufficient materials to complete the project within the specified time. The Engineer advised that in connection with this job it was necessary for the contractor to get his paving materials from a commercial plant which, due to prior commitments, was unable to supply the materials in sufficient quantities to complete the paving work before bad weather set in last fall, so the work had to be carried over into the season of 1952. He recommended in view thereof that the extension of time as requested be granted without penalty. A letter from the Bureau of Public Roads concurred therein. The recommendation was approved by the Commission.

25. M. L. and C. R. O'Neil and George E. Berry, Contract No. 3385 for bridge construction, grading and topping on the North Powder River Section of the Old Oregon Trail in Union County, requested an additional extension of time of 277 days, from November 15, 1951 to August 13, 1952, within which to complete this job. They stated that the project overran the specified completion date because of a 90-day delay with the railroad company before the job could be started, and because of a small misunderstanding with the resident engineer with respect to several small clean-up items. The Engineer advised that the contractor was held up for 90 days because of failure to reach an agreement with the railroad company, thus forcing his operations into adverse weather conditions during the fall and winter of 1950. He also said that all of the grading, topping, and structures were completed by December 22, 1951 and there remained only the removal of some oversized material and a small amount of refinishing of the hand rails on the North Powder overcrossing structure to complete the project. The State, he said, has incurred no extra engineering expense because of the overrun in time, neither was there any inconvenience to the paving contractor on this section. He recommended in view of the circumstances, that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contracts Nos. 3353, 3385, 3421, 3474, 3475, 3499, 3504, 3535, 3561, 3568, 3573, 3594, 3597, 3610, 3615, 3628, 3635, 3644, 3651, 3652, 3655, 3657, 3658, 3668, 3677, 3683, 3738, and 3740 for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof and said projects are now ready for acceptance. After due consideration, the Commission, by unanimous vote, accepted said contracts by adoption of the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Secretary presented a letter from Mr. John A. Laing, Chairman of the Travel Advisory Committee, recommending in behalf of the Committee the appointment of Mr. Arthur O. Waud, Tillamook, Oregon, Manager of the Oregon Coast Association, as a member of the Committee to fill the vacancy caused by the resignation of Mr. Verne H. Tennerstet, former Manager of the Oregon Coast Association. The Commission unanimously approved the recommendation and instructed the Secretary to tender the appointment to Mr. Waud.

The Engineer brought up for discussion the utilization of IBM machines for the computation of earthwork quantities on construction projects. He advised that a Mr. W. E. Murphy, former employee of the State Highway Department, developed the idea and had it copyrighted. Moreover, he has applied for a patent, but none as yet has been issued, and in the opinion of the Legal Department, a patent will not be granted. He further explained that subsequent to Mr. Murphy's initial idea, the system was greatly improved by employees of the State Highway Department. Mr. Murphy, he said, is requesting payment in the amount of $12 per thousand for IBM cards should the Highway Department utilize this system, whereas, the price of regular IBM cards is only about $2.50 per thousand which indicates a profit of $9.50 per thousand to him, or a total royalty of about $8,000 per year. It is the opinion of the Chief Counsel, he said that the State Highway Commission should not pay any amount whatsoever to Mr. Murphy but should institute the use of IBM cards for the purpose desired since it will afford a material savings in engineering manpower. He requested authority to proceed immediately with the use of this method of computation notwithstanding a possible suit by Mr. Murphy, and to let the courts decide what, if any, compensation Mr. Murphy is entitled to. The Commission approved the request.

The Engineer reported that he has ordered the removal of the 36 ton maximum gross load limit heretofore in effect on the Grand Ronde River Bridge at M. P. 02.64 on the Wallowa Lake Highway effective August 29, 1952, this bridge having been reenforced so that it now will safely carry legal weight loads. He asked the Commission to confirm his action. The Commission approved the Engineer's action in this matter unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed Ordinance No. 315 passed by the Common Council of the City of Central Point on September 2, 1952, making it unlawful for any person to park a motor vehicle on the westerly side of Front Street (US 99)

between Manzanita Street and Bush Street within the City of Central Point. In the discussion, it was recalled that the Commission at the previous meeting indicated its approval of such an order on the condition that the City would adopt an appropriate ordinance relative thereto. It was the feeling of the Commission that the ordinance now under consideration satisfies that requirement; accordingly, the Commission approved the ordinance and unanimously adopted the attached resolution prohibiting the parking of vehicles on the westerly side of the highway between the limits covered by the ordinance, marked EXHIBIT "F-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A letter was presented from Mr. Lewis C. Dyer, Condon, Oregon, complaining of the hazards that are created by people parking their automobiles on the shoulders of the Upper Columbia River Highway near its crossing with the Sandy River at Troutdale, and suggesting that something be done to correct the situation. The Engineer advised that a number of complaints have been received relative to parking of vehicles on the highway right of way at this point and that investigation reveals that the complaints are well founded. He recommended the establishment of a "NO PARKING ON HIGHWAY SHOULDERS" zone prohibiting the parking of cars on either side of this highway between M. P. 15.11 on the west side of the river and M. P. 15.69 on the east side of the river. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "F-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported the need to establish a "NO PARKING ON HIGHWAY SHOULDERS" zone on the east side of the Pacific Highway at its intersection with the Garden Valley Road about two miles north of the City of Roseburg where a channeled traffic interchange was recently completed. He explained that the highway has four traffic lanes between Roseburg and this junction and at the traffic interchange a transition is made from two lanes northbound to one land northbound. He also said that the parking of cars on the shoulders on the east side of the highway interfers with such transition,and he recommended appropriate action by the Commission prohibiting the parking of cars on that side of the highway between M. P. 197.63 and M. P. 197.76. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "F-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and denied the following requests for establishment of reduced speed zones on state highways:

(1) Petition from citizens of Newberg requesting establishment of a reduced speed zone along a portion of ORE 219 for a distance of approximately one mile north of the city limits of Newberg.

(2) Letter from the Superintendent of Schools of Myrtle Creek, Oregon, for the designation of a reduced speed zone on US 99 south of the town of Myrtle Creek through a community known as Tri-City.

The Commission's action was based on reports of the State Highway Engineer which indicated that the designation of such speed zones is not warranted by conditions obtaining at these locations.

There was presented to the Commission a petition signed by numerous residents of Oakridge and vicinity requesting the removal of several trees growing on the right of way of the Willamette Highway in Willamette City, an unincorporated town adjoining Oakridge; also requesting establishment of a 25-mile per hour speed zone through this district. The Engineer advised that this matter has been investigated, and it has been determined that a reduced speed limit is warranted. He recommended the establishment of speed zones as follows:

(1) 35 miles per hour between M. P. 34.87, west of Willamette City, and M. P. 36.07 at the west city limits of Oakridge.

(2) 40 miles per hour speed limit between M. P. 36.74, east city limits of Oakridge, and M. P. 36.93, easterly thereof.

As to the request for the removal of trees, the Engineer stated that, in his estimation,they do not constitute a hazard, and there is no reason to remove them other than to possibly benefit some small businesses that are somewhat shielded from view by the trees. He recommended that they not be removed unless further investigation reveals them to be unsound. The Commission approved both recommendations. The attached resolution designating the reduced speed zones as recommended by the Engineer, marked EXHIBIT "G-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission by unanimous vote.

The Engineer reported that the State Speed Control Board at its meeting on September 4, 1952, designated certain maximum speeds for traffic on state highways within the corporate limits of the City of Forest Grove. He further stated that investigation indicates that certain highways approaching the city limits should also be zoned for reduced speeds to conform to those effective within the city limits. He recommended the following:

Tualatin Valley Highway (ORE 6) (Highway No. 29)

From Martin Road (M. P. 17.77) to the east city limits of Forest Grove (M. P. 18.14) -- 35 miles per hour

Tualatin Valley Highway (ORE 47) (Highway No. 29)

From the south limits of Forest Grove (M. P. 19.68) to M. P. 19.84-- 35 miles per hour

Nehalem Highway (ORE 47) (Highway No. 102)

From a point north of Willamina Avenue (M. P. 88.12) to the north city limits of Forest Grove (M. P. 88.56) -- 40 miles per hour

The Commission approved the recommendation unanimously by adoption of the attached resolutions relative thereto, marked EXHIBITS "G-2" and "G-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Consideration was given by the Commission to a claim presented by Hardware Mutuals for reimbursement in the amount of $55 for a claim paid to their insured, Hubert F. Hunt, under the comprehensive coverage clause contained in his policy. The Engineer advised that Mr. Hunt's car was damaged by road oil that was accidently sprayed on it during the operations of an oiling crew on the Sunset Highway ten miles east of Seaside on July 20, 1952. He recommended payment of the claim. The Commission approved the recommendation unanimously.

The Commission discussed and unanimously approved out-of-state travel expense amounting to $115 for Mr. W. C. Williams, Assistant State Highway Engineer, to attend a meeting of the Western Association of State Highway Officials Advisory Committee in Ogden, Utah during the early part of October; also for Mr. Lester Orton, Agronomist, to attend the Washington State Weed Control Conference at Chehalis, Washington, on October 27 and 28, expense involved $24.

The Commission discussed the items of unfinished business appearing on the Secretary's Summary, dated August 19, 1952, as follows:

(1) Request of Lane County Recreation Committee that the State develop a recreational area at Dorena Dam: The Commission ordered this item removed from the list of unfinished business, the Parks Superintendent's report on the subject having been rendered earlier in the session.

(2) Request of Delake and Ocean Lake Chambers of Commerce for establishment of a state park on US 101 near the Dorchester House: The Parks Superintendent reported on this subject earlier in the session. The Commission ordered the item deleted from the list.

(3) Proposed re-routing of US 99W through McMinnville: The Engineer advised that his report on this subject is not as yet ready to be presented to the Commission. The item was ordered retained on the list of unfinished business.

(4) Proposed purchase of seventy acres of timber land adjoining Honeyman State Park as an addition to the park: Chairman Chandler advised that he has given this matter considerable thought since the last meeting of the Commission and is convinced that it is not necessady at this time to acquire the property for which the owner is asking the sum of $7,500. He recommended deferment of the purchase until some future time. Commissioner Reynolds stated his concurrence in the recommendation, whereupon the item was ordered deleted from the list of unfinished business.

(5) Proposed use of the triangular area formed by the intersection of the Merrill-Malin and Klamath Falls-Lakeview Highways about four miles east of Klamath Falls: The Engineer advised that he has not yet had an opportunity to discuss this matter with Mr. Arthur W. Schaupp, former State Highway Commissioner, so has no report to make at this time. The item was ordered retained on the list of unfinished business.

(6) Request of the Hermiston Chamber of Commerce for the following improvements:

a. Widening of the Union Pacific Railroad underpass on ORE 207 three miles south of Hermiston.

b. Installation of traffic signals at the intersection of First and Gladys Streets in Hermiston.

c. Widening of the bridge on the old route of US 30 one mile south of Hermiston.

d. Erection of more adequate signs at the intersec ion of US 30 and ORE 207.

The Engineer estimated the cost of a new underpass and the widening of the existing roadway on ORE 207 three miles south of Hermiston at $110,000. The Commission decided not to approve this project; however, in the discussion, Commissioner Reynolds pointed out the need for a new bridge over the Umatilla River in close proximity to the underpass. The Engineer was instructed to investigate this bridge structure and report his findings.

As to Item No. 2 -- installation of traffic signals at the intersection of First and Gladys Streets: The Engineer advised that the Traffic Engineer made a further investigation and particularly checked the volume of traffic at peak hours as requested by the delegation from Hermiston that appeared before the Commission at the previous meeting. The investigation revealed, he said, that the conditions prevailing at this point still do not warrant installation of a traffic signal, based on standards adopted by the American Association of State Highway Officials. He again recommended that the request for signalization be denied. The Commission approved the recommendation.

As to the third item -- widening of the bridge on old US 30 one mile south of Hermiston: The Engineer advised that it has been determined from investigation that the existing bridge can be widened to a width of 32 feet for a cost of $6,200, and that it would cost an additional $1,500 to widen the approaches thereto, making a total expenditure of $7,700. This bridge, he said, is a potential hazard, and he recommended approval of the widening project as a betterment item in 1953. The Commission approved the recommendation.

As to Item No. 4 -- erection of more adequate signs at the intersection of

US 30 and ORE 207: The Engineer advised that this matter has also been investigated, and the Sign Engineer has arranged to replace the existing finger board signs with rectangular signs 3' by 4½' in dimension. The signs, he said, have been ordered and will be placed soon. The Commission approved the action taken by the Engineer in this matter.

In view of the Engineer's report on this item, the Commission ordered it deleted from the list of unfinished business.

(7) Request of the County Court of Wasco County for the rerouting of US 197 to connect directly with the proposed new bridge across the Columbia River at The Dalles: The Engineer advised that there will be nothing to report on this subject until the survey, which is now underway, is completed. He recommended that the item be deleted from the list of unfinished business because it will naturally come before the Commission again when he reports the results of the survey. The Commission approved the recommendation.

(8) Advisability of constructing cattle passes on the Oregon Coast Highway between Coquille and Bandon: This item was ordered deleted from the list of unfinished business because the Engineer's report on the subject was rendered earlier in the session.

(9) Request of the City of Coos Bay for lease rights on excess right of way along the waterfront in Coos Bay: The Right of Way Engineer advised that he is still negotiating with the City of Coos Bay. The Commission ordered the item retained on the list of unfinished business.

(10) Adoption of a program for $10,000,000 of highway funds to be made available by the sale of bonds after January 1, 1953: The Commission deferred action in this matter and order it deleted from the list of unfinished business.

(11) Proposed changes in the tentative five-year construction program for Federal Aid and bond monies: The Commission deferred action in this matter and ordered the item deleted from the list of unfinished business.

(12) Request of the Fossil Community Club for the widening of narrow sections on the Butte Creek-Summit Section of the John Day Highway, Wheeler County: The Engineer advised that his report on this subject is not yet ready for presentation to the Commission. The Commission ordered this item retained on the list of unfinished business.

The Commission considered and approved the Secretary's report on papers signed by him on behalf of the Commission during the period August 15 to September 19, 1952.

The Commission discussed briefly its proposed inspection trip of state highways through the western part of the State and decided not to make

the trip until sometime next year.

The Chief Counsel reported settlement of the case of the State Highway Commission vs. Artilla Pittman, legal file No. 1910, for the sum of $170. He explained that this case involves acquisition of two acres of land necessary as right of way for improvement of the North Corvallis Section of the Pacific Highway West, Benton County, together with complete restriction of access to the highway from the owner's remaining land and that the offer made prior to commencement of condemnation proceedings was $170 as authorized by the Commission which amount was accepted by Mr. Pittman after the filing of the complaint, and the condemnation case was dismissed. The Commission approved the report.

The Engineer reported a recommendation from the Memorials Committee of the Oregon Historical Society that three additional text boards containing historical information be erected on Oregon highways as follows:

(1) Memorial to Lewis and Clark to be erected just east of Corbett on the Upper Columbia River Highway where there is a suitable location. He said that the Royal Arch Masons of Oregon have offered to pay for the erection of the text board so it will cost the State nothing.

(2) Canyon Creek Memorial to be erected in the Narrow Canyon Creek Canyon a short distance south of Canyonville, Oregon, on US 99.

(3) Jesse Applegate Memorial to be erected on the present Pacific Highway in the vicinity of Yoncalla.

The Engineer estimated the total cost to erect the Canyon Creek and Jesse Applegate Memorials at approximately $600, and he recommended approval of the expenditure. He also recommended approval of the following texts for the three memorials which, he said, were prepared by the Memorials Committee:

LEWIS AND CLARK

"The Lewis and Clark expedition camped by this rock on November 2, 1805. Under the leadership of Meriwether Lewis and William Clark this was the first and most important American trans-continental expedition. It helped to establish the claim of the United States to the Pacific Northwest and to add to the national domain the present States of Oregon, Washington, Idaho and parts of Montana and Wyoming."

CANYON CREEK

"The first white travelers along this narrow gorge were Alexander Roderick McCould and a group of Hudson's Bay Company trappers enroute to California in 1828. Eighteen years later an official expedition of the Provisional Government, seeking a more direct route from Fort Hall, ex-

plored the canyon. During the next decade emigrants struggled down this river bed. Packers from the Port of Scottsburgh supplied the miners and settlers of southwestern Oregon and northwestern California via this route. Before the building of the railroad in the 1880's this was the main thoroughfare for the stages and the freight wagons between Oregon and California."

JESSE APPLEGATE

"Pioneer, statesman, philosopher, Jesse Applegate settled here in 1849. His home, which stood (so many miles) west of this spot near Mt. Yoncalla, was a center for much early Oregon history. In it was held the first session of the Provisional Government Court for the southern district. Applegate was first Surveyor General in 1844; the next year he helped reorganize the Provisional Government; in 1846 he helped blaze the southern route from Fort Hall into the Willamette Valley; in 1849 he was a member of the Territorial Government; in 1857 he helped frame the Constitution of Oregon."

The Commission approved both recommendations unanimously.

The Chief Counsel asked the Commission to take action by resolution readopting the survey and location of the Goshen-Creswell Section of the Pacific Highway in Lane County. He explained that the Commission at its meeting on February 26, 1951 by resolution adopted the survey and location of this highway section, but reference was made therein to a map bearing file No. 7B-6-4 which number was assigned prior to the actual completion of the map and was overlooked later when the map was completed and a new number was then assigned to it. This discrepancy, he said, involves a condemnation action to acquire right of way from Earl C. Law, et al, and in order to avoid embarrassment when the case comes to trial, he suggested adoption of a new resolution containing the correct map file number. The Commission approved the suggestion and thereupon by unanimous vote adopted the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed briefly matters that are to be presented by delegations on the following day, but took no action thereon.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 3:00 p.m., Pacific Standard Time, Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's action being unanimous:

"Construction of Calapooya Creek Bridge and Stearns Lane Overcrossing on the Oakland Junction-Deady Unit of the Pacific Highway in Douglas County: Snook Brothers, Corvallis, was the low bidder for this work in the amount of $111,100.00. There were five higher bids. The contract has been awarded

to Snook Brothers at its bid price.

"Widening the Wagner Creek Bridge on the Pacific Highway between Medford and Ashland in Jackson County: Of the five bids received, Ausland and Dodson, Grants Pass, was the low bidder for this work at $11,970.00. The contract has been awarded to the low bidder, Ausland and Dodson, at its bid price.

"Richardson-Noti Rock Production Project on the Richardson-Eugene Highway, Lane County: The Commission received four bids for this work, the low one being that of Calkins Crushing Company, Ocean Lake, at $24,150.00. The contract has been awarded to the low bidder at its bid price.

"Construction of the Spencer Creek Park Overnight Camping Area about seven miles north of Newport on the Oregon Coast Highway, Lincoln County: Five bids were received for this work, the low one being that of Teller Construction Company, Portland, at $23,817.00. The Commission has awarded the contract to Teller Construction Company, the low bidder, at its bid price.

"Construction of a reinforced concrete structure known as the Arata Road Undercrossing over the T. H. Banfield Expressway east of Portland, Multnomah County: Teller Construction Company, Portland, was the low bidder for this work at $35,712.80. Seven higher bids were submitted for this work. Teller Construction Company, the low bidder, has been awarded the contract at its bid price.

"Embankment and riprap repair on the Oneonta Section of the Columbia River Highway about 0.6 mile east of Multnomah Falls, Multnomah County: Of the seven bids received for this work, Rex C. Ayers Co., Portland, was the low bidder at $7.230.00. The contract has been awarded to the low bidder, Rex C. Ayers Co., at its bid price.

"Installation of traffic signals on Powell Boulevard and Sandy Boulevard in Multnomah County: Only two bids were received for this job, the low one being that of W. R. Grasle Company, Portland, in the amount of $5,346.00. The Commission has awarded the contract to W. R. Grasle Company at its bid price."

Chairman Chandler inquired concerning a letter received from a Mr.. Joseph A. Minott who offers objections to the granting of overnight camping privileges in Ecola State Park. Mr Minott alleges that when the park was donated to the State of Oregon by the former owners, it was understood that overnight camping would not be allowed in the area. The Parks Superintendent advised that he is developing a small overnight camping area at this place and that a thorough search of the records fails to disclose anything to the effect that such use of the property was not to be allowed. He was instructed by the Commission to convey such information to Mr. Minott.

The Engineer presented a request from Mr. Archie C. Pierce, President of Pierce Freight Lines, for the weighing of several passenger buses of the Greyhound and TrailwaysCompanies on some pre-arranged date at three typical locations along the Pacific Highway across the State of Oregon. It was the feeling of the Commission that Mr. Pierce's request should be granted and accordingly the Engineer was authorized to do such weighing subject to the condition that the bus companies

shall be notified in advance as to the time and location where the tests are to be made and that the weighmasters will have the cooperation and assistance of State Police officers in connection therewith. The matter was referred to the Assistant State Highway Engineer, Mr. W. W. Stiffler, to handle the details.

Commissioner Reynolds brought up for discussion a letter from the Union Commercial Club Union, Oregon, suggesting the maintenance of signs on the new Ladd Canyon route of the old Oregon Trail bearing information to tourists as to the location and distance to the towns along the old highway route between La Grande and North Powder. The matter was referred to the Engineer for investigation and report.

Commissioner Reynolds also brought up for discussion a dangerous condition that exists on the Medical Springs Secondary Highway in the town of Medical Springs where the highway is on a curve and where accidents frequently occur. He suggested that a sign should be maintained on each side of this point to warn traffic of the danger. The Engineer advised that the matter is now being investigated and that a report will be rendered to the Commission when the investigation is completed.

The Chief Counsel requested a leave of absence for one month to attend a one week's orientation course to be conducted by the Sixth Army Infantry School at Fort Benning, Georgia from October 12 to October 18, 1952, and to visit for a few days with relatives in the East. The Commission approved the request.

The Commission discussed a report of the Engineer on his meeting with the Washington State Highway Commission in Olympia, Washington, on Tuesday, September 16, 1952 with reference to the design of a proposed low level bridge across the Columbia River between Vancouver and Portland paralleling the present structure between these points. He explained briefly the matters that were discussed and pointed out particularly a suggestion offered that the Highway Commissions of both states appoint a working committee consisting of its Engineer and its Attorney to make a further study of this project as a joint venture. He recommended approval of such plan. The Commission approved the recommendation subject, however, to the understanding that the Commission is making no commitment, implied or otherwise, with respect to the project. (For further details see copy of Engineer s written report on the subject dated September 18 1952 in General Files.)

The Engineer brought up for discussion the question whether or not to charge for plans and specifications that are furnished to the suppliers of materials that go into State Highway construction. He recalled that the Commission at a meeting held on December 20, 1948 authorized the furnishing of such plans without charge to suppliers of steel for bridge projects but he said, suppliers of other materials now have asked for the same concession and the question arises how far he should go in furnishing the information free of charge. He expressed himself in favor of charging everyone for the plans regardless of who they may be--suppliers of materials or contractors, the

present rate being $2 for each set furnished. The Commission unanimously approved charging everyone for the plans at the present rate.

The meeting adjourned at 3:45 p.m., Pacific Standard Time, to reconvene on the following morning in the same room.

Portland, Oregon
September 23, 1952

The meeting of the State Highway Commission reconvened at 9:00 a.m., Pacific Standard Time, in the Green Room of the Imperial Hotel with the same persons present and participating.

Bids as follows for highway construction were opened and read aloud by the Secretary in conformity with previously published notice, following which it was announced that the Commission would award contracts at 3:00 p.m., Pacific Standard Time:

WEST PORTLAND-HUBBARD HIGHWAY IN CLACKAMAS COUNTY
GRADING AND PAVING

Roy L. Houck & Son, Salem	$320,721.00
F. C. Scott Construction Co., Portland	339,585.00
R. A. Heintz Construction Co., Portland	342,130.50
Vernie Jarl, Gresham	342,205.00
Steelman Duff, Inc., Portland	347,098.50
Babler & Rogers, Portland	347,910.00
John Havlik, Jr. Scappoose	349,902.50
Durbin Brothers, Eugene	350,962.50
O. C. Yocom, McMinnville	355,015.50
Fred H. Slate Oreg. Ltd. and E. C. Hall Co., Portland	362,420.00
Guy F. Atkinson Co., Portland	362,566.00
J. N. Conley, Portland	363,460.50
Cosmo Gilo, Lowell	368,098.00
Parker-Schram Co., Portland	378,682.50
J. C. Compton Co., McMinnville	389,915.00
Kuckenberg Construction Co., Portland	390,042.50
Gibbons and Reed, Salt Lake City, Utah	398,189.00

WILLAMETTE RIVER BRIDGE IN CLACKAMAS COUNTY
WILSONVILLE BRIDGE STEEL

Bethlehem Pacific Coast Steel Corp., Seattle, Washington $462,872.00

Willamette River Bridge Steel (cont.)

General Construction Co., Portland	$487,200.00
Judson Pacific-Murphy Corp., Emeryville, Calif.	488,092.00
American Bridge Division, U. S. Steel Corp, Portland	504,860.00

COOS COUNTY
BULLARDS FERRY BRIDGE

Carl M. Halvorson, Inc., Portland	$639,993.00
C. J. Eldon, Portland	655,929.00
Tom Lillebo, Reedsport	657,665.00
Hamilton & Thoms, Eugene	683,220.00
General Construction Co., Portland	738,718.50
Guy F. Atkinson Co., Portland	742,563.00

The following members of the Common Council of the City of Ashland were present regarding improvement of US 99 along the route of the present highway through Ashland. Honorable P. H. Stansbury, Mayor; Fred Taylor, Fred Homes, Walt Weiler, Dick Niell, and Art Eriesman, all City Councilmen; and Elmer Biegel, City Superintendent. Mayor Stansbury headed the group. He read aloud and presented to the Commission a petition requesting:

(1) Widening of Highway 99 within the city limits of Ashland
(2) Installation of traffic lights on Main Street in Ashland

He also presented a copy of a resolution that was adopted by the City Council at a meeting in February, 1952 in which resolution the Highway Commission is requested to conduct a survey for the purpose of determining the advisability of widening Highway 99 within the City of Ashland to a four-lane highway wherever possible, and to commence construction of the project as soon as funds are available to finance it. He called upon other members of the delegation to speak in behalf of the project. Three members responded with brief remarks. In reply, Chairman Chandler advised that the Commission is not in any position at this time to make a statement with respect to improvement of the highway through Ashland and cannot take action until an engineering investigation has been made to determine what is needed and the cost involved. He pointed out that there is a shortage of engineering personnel so it would take sometime to conduct any investigation or survey that the Commission might authorize; however, he said, the Commission will ask the Engineer to make the investigation as soon as that can be conveniently done. The Engineer was thereupon instructed to make such a survey.

Honorable Robert O. Dimmick, Mayor of the City of Brookings, Oregon, and Mr. Charles Echols, City Engineer, were present and asked

the Commission to provide a uniform width of right of way along the Oregon Coast Highway north of their city which, they said, is necessary to permit property owners to properly develop their adjacent holdings. He said that the city has been undergoing considerable growth and development, and at this location it is very hard to establish a uniform setback for improvements because of the varying widths of the highway right of way. They exhibited a map showing the section involved, and advised that property owners are willing to cooperate by extending culverts and filling in the old highway to a level with the new one at their own cost and expense. They requested permission in behalf of the property owners to fill in the old road, and they also asked the Commission to grant access to the highway at each end of the filled-in section. The Engineer advised that this matter was previously considered by the Commission at the request of Mr. Elmer Bankus of Brookings, that the matter was investigated, and that the Commission adopted his recommendation that Mr. Bankus be permitted to fill in the old road up to the approximate level of the new highway provided the area between the old and the new highways was left in its present condition. Moreover, no objections were offered to allowing Mr. Bankus access to the new highway at each end of the fill. He further stated he has no reason to change his previous recommendation on the subject. As a result of discussion, the Commission instructed the Engineer to make a further investigation of the matter and report his findings. Mayor Dimmick then asked the Commission to construct curbs, gutters, and sidewalks along the highway within the city limits, which, he said, has been extended northerly to include Harris Beach State Park. He was informed that the other matter should be disposed of first.

The meeting recessed at 11:00 a.m., Pacific Standard Time, and reconvened at 1:00 p.m., Pacific Standard Time, with the same persons present and participating.

The Commission discussed briefly matters pertaining to the adoption of a program for $10,000,000 of State Highway Funds that will become available when additional bonds are sold after the first of January, 1953 but deferred action until later.

A delegation from Douglas County consisting of Messrs. Eugene Fisher and Cecil Denny, farmers, Oakland, and Ted Taylor and A. R. Marsh, merchants, Elkton, was present in the interest of the Elkton-Sutherlin State Secondary Highway. Mr. Fisher headed the group. He urged the Commission to improve the northerly end of this highway, particularly the section between Kellogg Bridge and Smith Bridge, and he gave the following reasons in support of his request: (1) The Elkton-Sutherlin Highway provides the shortest route to the coast from Roseburg and Central Douglas County, being fourteen miles shorter than the route through Drain. (2) The two-mile section between Kellogg Bridge and Smith Bridge contains many sharp curves and steep grades which should be eliminated so farmers can truck-haul their produce to market without taking a roundabout course about twenty-two miles longer. Trucks, he said, cannot negotiate the hills. (3) Improvement of the road would facilitate movement of log and timber products from seven or eight small sawmills which operate in the vicinity, to Elkton. (4) The road in its present condition is not safe for the operation of school buses, two of which operate over it. He stated further that this highway was placed on the State

Secondary Highway System in 1931 and in his estimation its improvement is merited. Messrs. Taylor and Marsh endorsed the remarks of Mr. Fisher. Chairman Chandler pointed out that the Highway Commission has spent a lot of money on this road during the past two years and is now endeavoring to find funds to improve the southerly end at Sutherlin. He explained briefly the provisions of the new Federal Aid Law and advised that the present outlook is that the Commission will have no more money to spend on this road for the next couple years other than right in Sutherlin. He added that if the Commission had sufficient funds available, it would be glad to improve the road as requested, but such funds are not available without depriving other communities of funds that rightfully belong to them, and whose roads are equally as bad or perhaps worse than the Elkton-Sutherlin Highway. The Highway Commission, he said, is endeavoring to distribute its funds throughout the State on an equitable basis, and according to the records, Douglas County presently is receiving more highway money than any other county in the State. In conclusion, Mr. Fisher stated that they will be satisfied with a small improvement each year. He filed with the Commission a brief and petition in support of his oral arguments.

The following persons representing the City of Astoria appeared before the Commission regarding adoption of a one-way street grid system for certain streets in the central business district of Astoria including those over which the state highway is routed: Mr. Brewer Billie, City Manager, Mr. J. A. Greenberg, Member of the Traffic Committee; and Sergeant Harold A. Ellsworth, City Police Department. Mr. Billie was principal spokesman. He recalled that in 1949 a survey of traffic conditions in the City of Astoria was made by the State Highway Department and from the results thereof, a tentative plan for establishment of a one-way street grid was formulated. This plan, he said, provides for the designation of Bond Street as a one-way street for southbound highway traffic, and the designation of Commercial Street as a one-way route for northbound highway traffic. He further stated that the City Council has approved the establishment of this system and has authorized its installation if the State Highway Commission will cooperate. A map was exhibited showing the system as planned which included provisions for one-way traffic on several streets that intersect the highway route. Chairman Chandler inquired if the city will put into effect its one-way street grid on city streets at the same time the Highway Commission puts into effect the one-way couplet for highway traffic, to which Mr. Billie replied in the affirmative. Chairman Chandler then gave as his understanding that the entire cost of the project so far as the highway couplet is concerned and including traffic signals is estimated at $32,000, of which amount the City has agreed to pay $14,000, the balance of $18,000 to be assumed by the State. He inquired if that understanding is correct. Mr. Billie again replied in the affirmative. He added that the City expects to install at least one extra signal and perhaps more, and that the cost of the same will be paid entirely with city funds; also, that the city is now ready to proceed with the installation. The State Highway Engineer mentioned that if the Commission approves the project, plans and specifications can be prepared so that bids can be received by the Commission either at its November or December meetings. As a result of discussion, the Commission unanimously approved the project for construction in 1953 on the basis that the State's contribution will be $18,000

and the City's contribution $14,000, and that the City will pass necessary ordinances. The matter is to be covered by a written agreement between the City and the State. The Engineer was authorized to advertise the project for bids later in the year.

The County Court of Crook County, represented by County Commissioners J. C. Minson and Wm. R. McCormack, was present and requested additional improvements to the Paulina State Secondary Highway. Mr. Minson was principal spokesman. He advised that the United States Reclamation Service which has had under consideration for a long time the selection of a site for the Prineville Dam in Crooked River recently selected a site near the point where the river crosses the Crooked River Highway about fifteen miles south of Prineville, and in view thereof, theybelieve that now is the time to further improve the Paulina Secondary Highway easterly from the end of the present improvement. He referred to a brief presented to the Commission about two years ago pointing out the need for this road. Commissioner Reynolds mentioned the improvement already completed on this highway, and he recalled that the County Court was previously informed that the road would be further improved sometime in the future when the traffic developed, but he said, the records do not disclose that the volume of traffic has yet reached that point. He further stated that improvement of the Paulina Secondary Highway is in the Commission's overall state program but no monies have been allocated or set up for it as yet, and there is a question when necessary funds will become available. Mr. McCormack inquired as to the new Federal Aid Secondary Highway Funds and was informed by Chairman Chandler that the program for the funds that will become available during the fiscal year 1954 has already been arrangedbut does not include an allotment for the Paulina Highway, although the Commission is tentatively considering an allocation for this road in future programs. He assured the Court that the Commission will give the Paulina Road equal consideration as other highways in the allocation of future highway funds.

Mr. J. Shelt Burres, rancher, Condon, Oregon, and Mr. Van Rietmann of the Condon Commercial Club were present regarding the Wasco-Heppner State Secondary Highway, particularly with reference to the use of the bridge over the John Day River which is posted for maximum 15-ton load. Mr. Burres stated that the people of this district are extremely desirous of transporting over this bridge loads weighing in excess of weight for which this bridge is posted, and he gave as his understanding that such permission would be granted by the State Highway Commission if a bond of sufficient amount were furnished to guarantee repairs to this structure if it were damaged by reason of such overloads. He inquired as to the amount of the bond that the Commission would require. He was informed by Chairman Chandler that the Commission cannot accept a bond from anyone to cross this bridge with a load weighing more than weight for which the bridge is posted. At his request the Chief Counsel advised that the furnishing of a bond would merely indemnify the State against damage to the bridge but not against loss of life if that should happen. In view of the Chief Counsel's statement, Chairman Chandler advised that the Commission will not authorize movements over this bridge weighing more than fifteen tons for which the bridge is posted because, according to the Engineers the bridge is not safe for loads of greater weights and in cases of this kind, the Commission must abide by the opinion of its experts. In reply

to an inquiry from Mr. Burres as to how long it will be before the bridge is replaced with a better structure, Chairman Chandler advised that indications are that it will be quite a few years.

Mr. Burres then stated that rumors are current in their district that the State Highway Commission intends to reroute the western end of this highway so as to connect with the Sherman Highway in the town of Moro, by-passing the grain warehouses in Hay Creek Canyon. He inquired as to the plans of the Commission in that regard. The Engineer advised that such rerouting has been requested but the Commission has taken no action in the matter.

The following persons representing the Westside Highway Association came before the Commission in the interest of the Pacific Highway West (US 99W): Messrs. Floyd B. Willert, Member of the Westside Highway Association, Dayton; B. M. LeFevre, Chairman of Chamber of Commerce Highway Committee, Newberg; and Carl Francis, State Representative, Dayton. Mr. Willert headed the group. He said that the Westside Highway Association had an appointment with the Commission at this meeting but the time was too short to prepare for it so they are going to ask for another appointment during the next meeting of the Commission. He mentioned briefly that they have in mind to ask the Commission for a number of improvements to this highway between Dayton Junction and Rickreall, including the widening and straightening of the highway at a number of points, elimination of railroad grade crossings, replacements of weak bridges, etc., and he asked the Commission to be prepared at that time to advise them regarding the things that they propose to bring up for discussion. Mr. LeFevre asked that something be done to eliminate the hazardous underpass on US 99W north of Rex where, he said, accidents have occurred. He suggested an alternate routing of the highway at this point. The Commission instructed the Engineer to render a report on the subjects presented by both Mr. Willert and Mr. LeFevre.

The Commission discussed with the Engineer the bids received during the morning session for highway construction and at 3:00 p.m., Pacific Standard Time, Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the action of the Commission being by unanimous vote:

"Grading and paving 2.11 miles, the Willamette River-Marion County Line Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway, Clackamas County: The Commission received seventeen bids for this work, the low one being that of Roy L. Houck & Son, Salem, at $320,721.00. The bid of Roy L. Houck & Son in the sum of $320,721.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Furnishing and erecting all structural steel for the Willamette River Bridge near Wilsonville on the West Portland-Hubbard Highway, Clackamas County: Four bids were submitted for this work, the low one being that of Bethlehem Pacific Coast Steel Corporation, Seattle, Washington, in the amount of

$462,872.00. The contract has been awarded to the low bidder, Bethlehem Pacific Coast Steel Corporation, at its bid price.

"Construction of 0.49 mile highway roadbed and surfacing and construction of a reinforced concrete and steel bridge with movable span, (Bullards Ferry Bridge) over the Coquille River on the Seven Devils Highway near Bandon, Coos County: Carl M. Halvorson, Inc., Portland, submitted the low bid for this work at $639,993.00. There were five higher bids received. The bid of Carl M. Halvorson in the sum of $639,993.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as Coos County's share of this project in the sum of $300,000 has been deposited with the Highway Commission."

A telegram was presented from Mr. John J. Hunter, Crescent Lake, Oregon, in which the Commission was asked to give consideration to the immediate improvement of the Crescent Lake Secondary Highway which extends from the Willamette Highway to Crescent Lake in the northern part of Klamath County. The Secretary was instructed to inform Mr. Hunter that according to reports from the Engineer the road is in good condition, and in view thereof, the Commission cannot see its way clear to spend additional highway funds on it at this time.

The Chief Counsel requested authority to institute condemnation proceedings, if necessary, to acquire right of way for highway improvements across the following properties:

Unit No. 5 of the T. H. Banfield Expressway

R 19070 - Leonard O. Osburn *
Right of Way (Multnomah)
0.63 acre

Goshen-Creswell Section of the Pacific Highway

R 18452 - Earl C. Law *
Right of Way (Lane)
1 acre

The Commission approved the request unanimously by adoption of the attached resolutions relative thereto, marked EXHIBITS "J-1" and "J-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

FOOTNOTE * Offer to be made in conformity with provisions of resolution adopted by the Commission at its meeting on December 20, 1951.

The Chief Counsel advised that a meeting of the American Right of Way Association is scheduled to be held in either Olympia or Seattle, Washington, during October 18 and 19, 1952. Because of the importance of the meeting, he

requested authority for the Right of Way Engineer, Mr. Forrest Cooper, to attend the meeting at state expense. The Commission approved the request.

The Commission had under discussion the setting of dates for its next two regular meetings and decided unanimously to hold such meetings in Portland on Monday and Tuesday, October 20 and 21, and on Monday and Tuesday, November 24 and 25. The Secretary was instructed to make the usual arrangements to hold these meetings in the Green Room of the Imperial Hotel.

The Commission considered and signed agreements, etc., as follows:

Modification of Lease re easement for hauling road with the Gilchrist Timber Company on the Lapine-Diamond Lake Junction Section of The Dalles-California Highway.

Easement Form re acquisition of two longitudinal slope easements on the Lafayette-North Yamhill River Section of the Pacific Highway West from the Southern Pacific Company.

Correction Deed conveying to Ernest G. Mitchell 0.06 acre of land in Lakeview. No consideration.

"Indentures of Access" re changes in points of access to state highways as follows:

1. Lentsch property on the Salem-Hayesville School Section of US 99E
2. Dodds property on the Forest Boundary-Hauser Section of US 101
3. Judkins property on the Judkins Point-Goshen Section of US 99.

Agreement with North Slough Diking District concerning installation of tide gates on a culvert structure at North Slough, Coos County.

Agreement with the U. S. Bureau of Public Roads covering maintenance of two sections of state highways constructed with forest highway funds, one being the Ochoco Mountain Section of US 26, 18.15 miles in length, and the other being the Summit North Section of the Tiller Trail Secondary Highway, 15.45 miles in length.

1953-1955 bi-annual budget estimate to be submitted to the Department of Finance and Administration.

Four Agreements with Southern Pacific Company relative to the Hauser-Douglas County Line Section of the Oregon Coast Highway, Coos County, as follows:

1. Agreement re overcrossing at Ten Mile Creek
2. Easement for overcrossing structure and slope easement adjacent to Ten Mile Creek structure

3. Longitudinal encroachment on the Hauser-Douglas County Line Section
4. Temporary encroachment covering detour roadway

Cooperative Construction Agreement with Coos County covering the Bullard Bridge (Coquille River) Section FAS 550. (Authorized July 10, 1952)

One package certificate of retirement awards.

Agreement with Clarence L. Lash covering extension of former agreement to November 30, 1952 relating to the salvage logging on Salmon River Highway in Tillamook and Lincoln Counties.

Project Agreements:

Woodburn-Mt. Angel Section of the Hillsboro-Silverton Highway
Benton County Line-Cheshire Section, Territorial Highway
Middle Unit, Reedsport-Dean Creek Section, Umpqua Highway
Lone Pine School-O'Neil Secondary, Lone Pine School Road.
Deschutes County Line-Crooked River Section, Terrebonne-O'Neil Road

Bureau of Public Roads Letter re inclusion of Ukiah-Starkey and Belknap Springs-Clear Lake roads as part of the Forest Highway system.

The meeting adjourned at 3:15 p.m., Pacific Standard Time.

EXHIBIT "A"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

UNIT #5 - T. H. BANFIELD EXPRESSWAY

19069 - Page, Victor M. and Eunice E. (Mayhew)

EXHIBIT "C"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Elkhead Road-Rive Hill Section of the Pacific Highway in Douglas County and in connection therewith, to prepare a map showing the route and location of said section of highway and file said report and record with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed the said survey and has submitted the same for the approval or disapproval of the Commission and,

WHEREAS, after due consideration of said survey, field notes, map, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members being present and affirmatively voting as follows:

1. That the survey of the Elkhead Road-Rice Hill Section of the Pacific Highway beginning at Engineer's Station 685+48, which point is about 700 feet north of the point where said survey crosses the London Springs County Road in Section 31, T 22S R4 W, Douglas County, and extending southerly therefrom to Engineer's Station 1047+63.53 which is the junction point of said survey with the existing Pacific Highway near Rice Hill in Section 28, T 23S R5 W, W.M. Douglas County, together with the map, which for identification purposes bears map File No. 7 B-14-15&16 and the date of September, 1952, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. The approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Departments all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

(cont.)

EXHIBIT "C" (cont.)

4. That the survey of said section of said Pacific Highway has been made within the meaning and purpose of Chapter 226, Oregon Laws 1947, commonly known as the Throughway Law, and was likewise made within the scope and purpose of the resolution approved and adopted by the Highway Commission, November 3, 1948. Therefore, the construction of said state highway shall be accomplished pursuant to the provisions of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 22nd day of September, 1952.

EXHIBIT "D"

Minutes of September 22, and 23, 1952

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

Contract No. 3353 with Allen E. Sackett for grading and oil mat surfacing on the Sumpter Valley Highway in Baker County, completed July 16, 1951.

Contract No. 3385 with M. L. and C. R. O'Neil and George E. Berry for grading, topping and structures on the North Powder River Section of the Old Oregon Trail Highway in Union and Baker Counties, completed August 13, 1952.

Contract No. 3421 with Cosmo Gilo for grading on the Stout Creek-Mill City Section of the North Santiam Highway in Marion County, completed August 6, 1952.

Contract No. 3474 with McNutt Brothers for grading on the Judkins Point-Goshen Section of the Pacific Highway in Lane County, completed June 10, 1952. Final clean-up of site and removal of equipment was completed August 18, 1952.

Contract No. 3475 with Vernie Jarl for grading and paving on the Herman Creek Road-Gorton Creek Section of the Columbia River Highway in Hood River County, completed August 20, 1952.

Contract No. 3499 with George E. Berry for fencing on the Willow Creek-Boardman Section of the Columbia River Highway in Morrow and Gilliam Counties, completed May 9, 1952.

Contract No. 3504 with Robert C. Wilson for constructing Warm Springs Maintenance Building in Wasco County, completed August 13, 1952.

Contract No. 3535 with F. L. Somers for grading and surfacing on the East Unit, Antelope-Clarno Section of the Shaniko-Fossil Highway in Wasco County, completed July 31, 1952.

Contract No. 3561 with D-H Paving Company for grading and paving on the Hayesville-Salem (Lana Avenue) Section of the Pacific Highway East in Marion County, completed July 2, 1952.

EXHIBIT "D" (cont.)

Contract No. 3568 with the Portland Construction Company for landscaping on the Coos Bay (Greenwood Avenue-Market Avenue) Section of the Oregon Coast Highway in Coos County, completed May 9, 1952.

Contract No. 3573 with Snook Brothers for constructing the Banzer Bridge over the Nehalem River on the Nehalem Highway in Columbia County, completed August 27, 1952.

Contract No. 3594 with Zephyr Electric for installing traffic signals in Baker, Baker County, completed July 15, 1952.

Contract No. 3597 with H. G. Wirtz for constructing the Bly Maintenance Building in Klamath County, completed July 31, 1952.

Contract No. 3610 with H. G. Carl Construction Company for constructing paint shop at Salem Shops in Marion County, completed August 31, 1952

Contract No. 3615 with Ernest Ferrante and Company for roadside improvement on the West Prineville Section of the Madras-Prineville and Ochoco Highways in Crook County, completed August 15, 1952.

Contract No. 3628 with P. B. Doherty and Son for furnishing crushed material in stockpile on the Silverton-Rocky Point School Section of the Silver Creek Falls Highway in Marion County, completed August 22, 1952.

Contract No. 3635 with Knight Pearcy Nursery and Parkrose Nursery for landscaping on the Front Avenue (Steel Bridge-Alder St.) Section of the Pacific Highway West in Multnomah County, completed August 30, 1952.

Contract No. 3644 with George E. Berry for Santiam River rail replacement in Linn County, completed July 30, 1952.

Contract No. 3651 with Mill Electric Company for installing traffic signals in Coos Bay, Coos County, completed August 31, 1952.

Contract No. 3652 with Felix Carlson Dredging Company Inc. for Coos Bay Bridge fender pile replacement in Coos County, completed August 25, 1952.

Contract No. 3655 with E. H. Itschner Company for furnishing crushed materials in stockpile on the Sisters Section of the McKenzie-Santiam and McKenzie-Bend Highways in Deschutes and Jefferson Counties, completed August 16, 1952

Contract No. 3657 with Heavy Hauling Company (Koppisch Construction Company Inc.) for grading and oil mat surfacing on the North Unit, Princeton-Follyfarm Section of the Diamond Valley and Rome-Princeton Highways in Harney County, completed August 26, 1952

(cont.)

EXHIBIT "D" (cont.)

Contract No. 3658 with N. A. Toole Construction Company for furnishing crushed materials in stockpile on the Suntex Section of the Central Oregon and Lakeview-Burns Highways in Harney County, completed July 31, 1952.

Contract No. 3668 with Tri-State Painting Company for Umpqua River Bridge painting in Douglas County, completed August 30, 1952.

Contract No. 3677 with Glenn Snook for constructing the Silverton Branch overcrossing on the Salem ByPass in Marion County, completed September 9, 1952.

Contract No. 3683 with J. C. Compton Company for reoiling on the Division No. 3 Reoiling Project on 5 state highways in Coos and Curry Counties, completed August 18, 1952.

Contract No. 3738 with Cascade Construction Company for paving on the Sherwood (Pine St.) City Street Section in Washington County, completed August 29, 1952.

Contract No. 3740 with Warren Northwest Incorporated for paving on the Junction City (14th St. and Laurel St.) City Street Section in Lane County, completed August 23, 1952.

THEREFORE BE IT RESOLVED that the work covered by said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "E"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, on the 19th day of February, 1952, at a meeting of the Oregon State Highway Commission, two members being present and participating, the Commission adopted a resolution reducing the maximum load limit on the following described state highway bridge, to-wit:

WALLOWA LAKE PRIMARY HIGHWAY NO. 10

M. P. 2.64	Bridge No. 4821 over the Grande Ronde River in Wallowa County	36 tons (72,000 lbs.)

and,

WHEREAS, subsequent to the passage of said resolution, conditions have changed so that it no longer is necessary or desirable, and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limit set out in said resolution.

NOW, THEREFORE, BE IT RESOLVED that the action of the State Highway Commission reducing the permissible load limit on the said bridge be and the same hereby is rescinded and cancelled as of August 29, 1952, and that the maximum load limit permissible on said bridge structure hereafter shall be the maximum load limit provided by law; and,

IT IS FURTHER ORDERED that certified copies of this resolution be furnished to the Wallowa County Clerk and to the Superintendent of the Department of State Police for their information.

Dated this 22nd day of September, 1952.

OREGON STATE HIGHWAY COMMISSION

By Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner

R. H. Baldock
State Highway Engineer

Attest
H. B. Glaisyer, Secretary

20709

EXHIBIT "F-1"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, Front Street in the City of Central Point is a street heretofore selected and designated as a street over which to route state highway traffic, particularly Pacific Highway traffic within the corporate limits of Central Point; and

WHEREAS, it has been demonstrated that the parking of vehicles on the westerly side of said Front Street between Manzanita Street and Bush Street in said city constitutes and is a hazard to traffic and interferes with the safe and easy flow or movement of vehicles over said street; and,

WHEREAS, it appears that the Common Council of the City of Central Point on the second day of September, 1952, adopted Ordinance No. 315 making it unlawful for any person to park any motor vehicle or trailer on the westerly side of said Front Street between Manzanita Street and Bush Street; and,

WHEREAS, it is the judgment of this Commission that the State through its State Highway Commission should cooperate with the City of Central Point in the accomplishment of the purpose of said ordinance.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, a majority of the members being present and affirmatively voting as follows:

1. That the Commission does hereby ratify and approve said Ordinance No. 315 as adopted September 2, 1952, by the Common Council of the City of Central Point and hereby offers the cooperation of the State Highway Department to the end that the full benefit of said ordinance may be accomplished and the convenience and safety of the traveling public thereby advanced.

2. That the State Highway Engineer be and he hereby is instructed to erect "NO PARKING AT ANY TIME" signs on the westerly side of Front Street between Manzanita Street and Bush Street and at such points between said termini as in the judgment of the said Engineer are necessary to accomplish the purposes of said city ordinance and the action of the Highway Commission as herein declared.

3. That a certified copy of this resolution be sent to the Central Point City Counsel for its information and guidance.

4. That this resolution be entered in the minutes and records of the State Highway Commission as of the 22nd day of September, 1952.

EXHIBIT "F-2"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, the Columbia River Highway is one of the major state highways of the state and is under the jurisdiction and control of the State Highway Commission, being identified in the Commission's records as State Highway No. 2 and U.S. Highway No. 30; and,

WHEREAS, it appears that on said highway situate in the vicinity of the Sandy River Bridge near Troutdale, Multnomah County, there is an area consisting of a gravel pit, and land adjoining which is used by swimmers and picnickers, and that people park their vehicles along the shoulders of said highway at said location and leave said vehicles parked for extended periods of time; and,

WHEREAS, this said highway throughout its entire length carries a large volume of traffic and the parking of vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission, a hazard is created not only to through traffic but to the owners and occupants of said parked vehicles; and,

WHEREAS, in the opinion of this Commission, public welfare and public safety require that the use of said highway and shoulders thereof for parking purposes be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendation made by and under the supervision of the State Highway Engineer, that the parking of vehicles along the shoulders of the Columbia River Highway between M. P. 15.113 at the intersection of the road to Troutdale with the Columbia River Highway, a short distance west of the Sandy River Bridge, and M. P. 15.59, east of the Sandy River Bridge and approximately opposite a dike erected to control flood waters, creates a hazard not only to through traffic on said highway but also to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit the parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of this Commission, should be provided the motoring public.

3. That this Commission does further find and declare that the parking of vehicles for extended periods of time on both sides of the right of way of said highway between M. P. 15.113 and M. P. 15.59 should be and hereby is prohibited.

(cont.)

EXHIBIT "F-2" (cont.)

4. That the State Highway Engineer be and he hereby is instructed to erect "NO PARKING ON HIGHWAY SHOULDERS" signs on both sides of the highway at said termini and at such points between said termini as in the judgment of the Engineer are necessary to accomplish the purpose of this resolution and the action of the Commission as herein described.

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police and a like copy be mailed to the Board of County Commissioners of Multnomah County for their information and guidance.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 22nd day of September, 1952.

EXHIBIT "F-3"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, the Pacific Highway is one of the major state highways of the state and is under the jurisdiction and control of the State Highway Commission, being identified in the Commission's records as State Highway No. 1 and U.S. Highway No. 99; and,

WHEREAS, it appears that on said highway situate approximately two miles north of the city of Roseburg in Douglas County, there is in existance a chanelized traffic interchange, at the intersection of the Garden Valley Road with the Pacific Highway at which point the traffic interchange makes a transition from two lanes northbound to one lane northbound, and that people park their vehicles on the east side of the highway at said location and leave said vehicles parked for extended periods of time; and,

WHEREAS, because said highway throughout its entire length carries a large volume of traffic, the parking of said vehicles on said east shoulder of said highway tends to restrict and impair the use of the traveled portion of the highway and interferes with the transition from two lanes to one lane to such an extent that in the opinion of the Highway Commission, a hazard is created not only to through traffic but to the owners and occupants of said parked vehicles; and,

WHEREAS, in the opinion of this Commission, public welfare and public safety require that the use of said shoulder of said highway within said area for the parking of vehicles shall be prohibited.

NOW, THEREFORE, be it and it hereby is resolved by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations made by and under the supervision of the State Highway Engineer, that the parking of vehicles along the easterly side of the Pacific Highway between M.P. 197.63 (Engineer's Station 2490+14) which point is approximately .14 mile north of the Douglas County road to Garden Valley, and M.P. 197.76 (Engineer's Station 2497+00) at the intersection of the Garden Valley Road, a distance of .13 mile, creates a hazard not only to through traffic on said highway but also to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit the parking of vehicles thereon and at the same time to provide the degree of safety and convenience which in the opinion of this Commission should be provided the motoring public.

(cont.)

EXHIBIT "F-3" (cont.)

3. That this Commission does further find and declare that the parking of vehicles for extended periods of time on the easterly side of the right of way of said highway between said M. P. 197.63 and said M. P. 197.76 should be and hereby is prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect "NO PARKING ON HIGHWAY SHOULDERS" signs on the easterly side of the highway at said termini and at such points between said termini as in the judgment of the Engineer are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared.

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police and a like copy be mailed to the Sheriff of Douglas County for their information and guidance.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 22nd day of September, 1952.

EXHIBIT "G-1"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and,

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and,

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A. as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

NAME OF HIGHWAY: Willamette Highway

HIGHWAY NUMBER: 18 ROUTE NUMBER: ORE 58

Location of Termini		Established Speed
M. P. 34.87 (west of Willamette City)	to M. P. 36.07 (west city limits of Oakridge)	35 miles per hour
M. P. 36.74 (east city limits of Oakridge)	to M. P. 36.93 (east of Oakridge)	40 miles per hour

(cont.)

EXHIBIT "G-1" (cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Commission as of the 22nd day of September, 1952.

EXHIBIT "G-2"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and,

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and,

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

NAME OF HIGHWAY: Tualatin Valley Highway

HIGHWAY NUMBER: 29 ROUTE NUMBER: State Routes 6 and 47

Location of Termini		Established Speed
M. P. 17.77 (Jct. Martin Rd. on State Route 6)	to M. P. 18.14 (East city limits of Forest Grove)	35 miles per hour
M. P. 19.68 (South city limits of Forest Grove on State Route 47)	to M. P. 19.84 (approx. 200 ft north of Gales Creek Bridge)	35 miles per hour

(cont.)

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Commission as of the 22nd day of September, 1952.

EXHIBIT "H"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, the Commission on the 26th day of February, 1951 fully approved and adopted the final survey of the Goshen-Creswell Section of the Pacific Highway between the said Pacific Highway junction with the Willamette Highway East of Goshen and a point approximately 2.18 miles Southerly thereof in Lane County, Oregon, and, in connection therewith, ordered the survey maps, field notes and other engineering data to be filed and preserved in the records of the Commission at Salem, Oregon; and,

WHEREAS, the said resolution of February 26, 1951, referred to certain engineer survey map file numbers for identification purposes, namely, map file numbers 5B-35-9 and 7B-6-4; and,

WHEREAS, it has been called to the attention of the Commission that an error was committed in the numbering of the said map file number 7B-6-4, and that the true and correct map file numbers for the said section of the said highway should be 5B-35-9 and 7B-10-15, rather than 5B-35-9 and 7B-6-4, as stated in the said resolution of February 26, 1951; and,

WHEREAS, the said section is located on a primary state highway, which highway, by a resolution dated November 3, 1948, was designated as a throughway within the meaning of Chapter 226, Oregon Laws 1947; and,

WHEREAS, it was the intention of the Commission on February 26, 1951, to not only adopt and approve the above mentioned survey, as such, but, in addition, to specifically provide that said section was to be constructed as a throughway and within the meaning and purpose of said Chapter 226, Oregon Laws 1947; and,

WHEREAS, the said resolution adopted February 26, 1951, failed to fully state the intentions and desire of the Commission with respect to the adoption of said section survey as a throughway;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. That the resolution dated February 26, 1951, approving and adopting the survey of the Goshen-Creswell Section of the Pacific Highway, be, and the same hereby is, amended by deleting therefrom for identification purposes, engineering map file number 7B-6-4, and, in lieu thereof and incorporating therein, for identification purposes, engineer map file number 7B-10-15.

(cont.)

EXHIBIT "H" (cont.)

2. That the resolution dated February 26, 1951, approving and adopting the survey of the Goshen-Creswell Section of the Pacific Highway in Lane County, Oregon, be, and the same hereby is, amended so as to include and incorporate therein the following paragraph:

> That the survey of the Goshen-Creswell Section of the Pacific Highway in Lane County, Oregon, has been made within the meaning and purpose of Chapter 226, Oregon Laws 1947, commonly known as the "Throughway Law', and said survey was likewise made within the scope and purpose of the resolution approved and adopted by the Highway Commission November 3, 1948. Therefore, the construction of said section of said highway shall be accomplished pursuant to the provisions of the said Throughway Law and said November 3, 1948 resolution.

3. That this amending resolution be entered in the minutes and records of the Commission this 22nd day of September, 1952.

EXHIBIT "I-1"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property, which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the West Portland-Hubbard Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway, to be known as the Boones Ferry Road-Marion County Line Section of the West Portland-Hubbard Highway, and has ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled; and

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

(cont.)

EXHIBIT "I-1" (cont.)

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for use in connection with the construction, improvement and maintenance of the Boones Ferry Road-Marion County Line Section of the West Portland-Hubbard Highway, the following described real property, to wit:

R-17527
Owner: Homer Langdon

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of Section 26, Township 3 South, Range 1 West, W. M., Clackamas County, Oregon, and being a portion of that property described in that deed to Homer Langdon, recorded in Book 242, Page 216, of Clackamas County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable width, lying on each side of the center line of the West Portland-Hubbard Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 594+81, said Station being 519.34 feet South and 1235.38 feet West of the Northeast corner of said Section 26; thence South 0° 03' 30" East 4219 feet to Station 637+00; said center line crossing the Northerly and Southerly lines of said property approximately at Stations 618+00 and 635+90, respectively.

The center line described in this description is parallel to and 100 feet Easterly of the center line described in those deeds to the State of Oregon recorded in Book 450, Page 181, and in Book 451, Page 65, of Clackamas County Deed Records.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
616+00	618+50	160 feet	200 feet
618+50	629+20	100 feet	To West line of said property
629+20	630+00	100 feet	144 feet to 122 feet
630+00	631+00	100 feet	122 feet to 100 feet
631+00	636+00	100 feet	100 feet

The parcel of land to which this description applies contains 18.83 acres.

2. That in addition to the acquisition of fee simple title to the

(cont.)

EXHIBIT "I-1" (cont.)

above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Boones Ferry Road-Marion County Line Section of the West Portland-Hubbard Highway, and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the West Portland-Hubbard Highway of a width of 25 feet on the west side of said highway, opposite Highway Engineer's center line Station 635+50, for private access only.

b. A right to cross the West Portland-Hubbard Highway for farm purposes only, said crossing to be 25 feet in width at Highway Engineer's center line Station 635+50, provided, however, that upon the alienation of either of the portions of the property severed by the said highway, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event, the right hereby reserved to the owners will be automatically forfeited, and the Highway Commission shall have the power to close and barricade said crossing for all purposes.

c. A right of access to a corrugated steel cattle underpass, eighty-four inches in diameter, to be constructed under the said West Portland-Hubbard Highway at Highway Engineer's center line Station 635+90.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road

(cont.)

EXHIBIT "I-1" (cont.)

within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcel of property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of the said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interest of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of this Commission this 22nd day of September, 1952.

EXHIBIT "I-2"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property, which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the West Portland-Hubbard Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway, to be known as the Boones Ferry Road-Marion County Line Section of the West Portland-Hubbard Highway, and has ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled; and

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

20727

EXHIBIT "I-2" (cont.)

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for use in connection with the construction, improvement and maintenance of the Boones Ferry Road-Marion County Line Section of the West Portland-Hubbard Highway, the following described real property, to wit:

R-18583
Owner: James E. Langdon, Jr.

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of Section 35, Township 3 South, Range 1 West, W. M., Clackamas County, Oregon, and being a portion of that property described in that deed to James E. Langdon, Jr., and Ruth Betty Langdon, racorded in Book 448, Page 541, of Clackamas County Records of Deeds, the said parcel being that portion of said property lying in the Northeast quarter ($NE\frac{1}{4}$) of Section 35, and included in a strip of land 200 feet in width, 100 feet on each side of the center line of the West Portland-Hubbard Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 635+00, said Station being 735.35 feet North and 1422.34 feet East of the North quarter ($N\frac{1}{4}$) corner of said Section 35; thence South 0° 03' 30" East 4,000 feet to Station 675+00, said center line crossing the lines of that part of said property lying in the Northeast quarter ($NE\frac{1}{4}$) of Section 35 approximately at Stations 655+44 and 663+53.

The center line described in this description is parallel to and 100 feet Easterly of the center line described in that deed to the State of Oregon, recorded in Book 451, Page 65 of Clackamas County Deed Records.

The parcel of land to which this description applies contains 3.72 acres.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Boones Ferry Road-Marion County Line Section of the West Portland-Hubbard Highway, and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the West Portland-Hubbard High-

(cont.)

way of a width of 25 feet on the West side of said highway, opposite Highway Engineer's center line Station 663+50, for private access only.

b. A right to cross the West Portland-Hubbard Highway for farm purposes only, said crossing to be 25 feet in width at Highway Engineer's center line Station 663+50, provided, however, that upon the alienation of either of the portions of the property severed by the said highway, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of said crossing for any purpose other than as a passage-way from one side of the said highway to the other for farm purposes, then and in that event, the right hereby reserved to the owners will be automatically forfeited, and the High-way Commission shall have the power to close and barricade said crossing for all purposes.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any com-mercial institution or activity extablished or conducted on the adjoining property which in any manner caters to, in-vites, solicits from, or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

EXHIBIT "I-2" (cont.)

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcel of property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of the said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interest of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of this Commission this 22nd day of September, 1952.

EXHIBIT "I-3"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission, is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the West Portland-Hubbard Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway, to be known as the Boones Ferry Road-Marion County Line Section of the West Portland-Hubbard Highway, and has ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled; and

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

(cont.)

EXHIBIT "I-3" (cont.)

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for use in connection with the construction, improvement and maintenance of the Boones Ferry Road-Marion County Line Section of the West Portland-Hubbard Highway, the following described real property, to wit:

R-10625
Owner: James E. Langdon, Sr., et ux

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of Section 26, and in the East half ($E\frac{1}{2}$) of Section 35, Township 3 South, Range 1 West, W. M., Clackamas County, Oregon, and being a portion of that property described in that deed to James E. Langdon and Marie Langdon, recorded in Book 230, Page 232, of Clackamas County Records of Deeds, the said parcel being that portion of said property included in a strip of land 200 feet in width, 100 feet on each side of the center line of the West Portland-Hubbard Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 635+00, said Station being 735.35 feet North and 1422.34 feet East of the North quarter ($N\frac{1}{4}$) corner of said Section 35; thence South 0° 03' 30" East 4,000 feet to Station 675+00; said center line crossing the North line of said property approximately at Station 635+90 and crossing the South line of said property approximately at Station 655+44.

The center line described in this description is parallel to and 100 feet Easterly of the center line described in those deeds to the State of Oregon, recorded in Book 450, Page 181, and in Book 451, Page 65, of Clackamas County Deed Records.

The parcel of land to which this description applies contains 8.97 acres.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Boones Ferry Road-Marion County Line Section of the West Portland-Hubbard Highway, and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the West Portland-Hubbard Highway of a width of 25 feet on the West side of said highway,

(cont.)

EXHIBIT "I-3" (cont.)

opposite Highway Engineer's center line Station 648+40, for private access only.

b. A right to cross the West Portland-Hubbard Highway for farm purposes only, said crossing to be 25 feet in width at Highway Engineer's center line Station 648+40, provided, however, that upon the alienation of either of the portions of the property severed by the said highway, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event, the right hereby reserved to the owners will be automatically forfeited, and the Highway Commission shall have the power to close and barricade said crossing for all purposes.

c. A right of access to a corrugated steel cattle underpass, eighty-four inches in diameter, to be constructed under the said West Portland-Hubbard Highway at Highway Engineer's center line Station 635+90.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property

(cont.)

is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcel of property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of the said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interest of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of this Commission this 22nd day of September, 1952.

EXHIBIT "I-4"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domian, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, may, in its discretion, acquire an entire lot, block or tract of land, if by so doing the interest of the owner and the State will be best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East, and has ordered and declared that said unit and section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and

WHEREAS, said Commission is authorized to take fee simple title

(cont.)

EXHIBIT "I-4" (cont.)

to said real property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for use in connection with the proposed establishment, construction, improvement and maintenance of the State Street South Unit of the Salem By-Pass Section of the Pacific Highway East, the following described real property, to wit:

R-18300
Owner: Albin W. Lovcik, et ux

Parcel No. 1:

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter($NW\frac{1}{4}$), and in the Northwest quarter ($NW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 25, Township 8 South, Range 3 West, W.M., Marion County, Oregon, and being a portion of that property described in that deed to Albin W. Lovcik and Barbara B. Lovcik, recorded in Book 318, Page 546, of Marion County Records of Deeds, the said parcel being that portion of said property included in a strip of land 100 feet in width, lying on the Westerly side of the center line of the South bound traffic lane connection from the Salem By-Pass Section to the Pacific Highway East as said center line has been located, which center line is described as follows:

Beginning at Engineer's center line Station 558+52.2, said Station being 1240 feet South and 29 feet West of the Northwest corner of said Section 25; thence on a spiral curve right (the long chord of which bears South 19° 21' East) 400 feet to Station 562+52.2 equals 273+82.5; thence on a 5729.58 foot radius curve right (the long chord of which bears South 12° 14' East) 1156.7 feet; thence on a spiral curve right (the long chord of which bears South 5° 07' East) 400 feet to Station 289+39.2 equals 289+73.8; thence South 4° 27' East 426.2 feet to Station 294+00; the Westerly line of said strip of land crosses the West line of said property approximately opposite Station 562+38 and passes through the Southeast corner of said property approximately opposite Station 293+50, containing 1.5 acres.

2. The Commission does hereby find and declare that the acquisition of the real property hereinabove described as Parcel No. 1 and the denial of access to the owners' remaining property from the said State Street South Unit of the Salem By-Pass Section of the Pacific Highway East will result in depriving the owners of all means of access from the said remaining real property lying Westerly of the real property hereinabove described as Parcel No. 1 and

(cont.)

EXHIBIT "I-4" (cont.)

the said highway, and, therefore, it is in the best interest of the owners, as well as the interest of the State of Oregon, that the State acquire fee simple title to all of the owners of said remaining real property lying Westerly of the West boundary of the said highway, which said remaining real property is described as follows, to wit:

Parcel No. 2:

All that portion of that property conveyed to Albin W. Lovcik and Barbara B. Lovcik by deed recorded in Book 318, Page 546, of Marion County Records of Deeds, lying West of a line which is parallel to and 100 feet Westerly of the located center line of the South bound traffic lane connection from the Salem By-pass Section to the Pacific Highway East, which center line is described as follows:

Beginning at Engineer's center line Station 558+52.2, said Station being 1240 feet South and 29 feet West of the Northwest corner of said Section 25; thence on a spiral curve right (the long chord of which bears South 19° 21' East) 400 feet to Station 562+52.2 equals 273+82.5; thence on a 5729.58 foot radius curve right (the long chord of which bears South 12° 14' East) 1156.7 feet; thence on a spiral curve right (the long chord of which bears South 5° 07' East) 400 feet to Station 289+39.2 equals 289+73.8; thence South 4° 27' East 426.2 feet to Station 294+00, containing 8.35 acres.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcels of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement

or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 22nd day of September, 1952.

EXHIBIT "I-5"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Umpqua Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Reedsport-Luder Creek Section of the said Umpqua Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to the said real property for right of way and other highway purposes; and

WHEREAS, the said Umpqua Highway is a major highway of the state, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the widening, improvement and maintenance of the Reedsport-Luder Creek Section of the Umpqua Highway, the following described real property located in Douglas County, Oregon, to wit:

R-15458
Owner; Earle S. Butler, et al

A parcel of land lying in Lot 7 of Section 34, Township 21 South, Range 11 West, W. M., Douglas County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to Earle S. Butler and Harriette Butler recorded in Book 153, Page 522, of Douglas County Record of Deeds, the said

(cont.)

EXHIBIT "I-5" (cont.)

parcel being all that portion of the foregoing described property included in a strip of land 40 feet in width, lying on the Southerly side of the center line of the Umpqua Highway, as said highway has been relocated over and across or adjacent to the said property; the location of the said strip of land being determined by the said center line from Station 310+16.1 to Station 312+54.1, which portion of center line is described as follows:

Beginning at a point which is Engineer's center line Station 310+16.1 opposite and 40 feet distant from which point the Southerly line of the said strip of land intersects the West line of said property; said point being 289.09 feet North and 405.72 feet East of the South quarter ($S\frac{1}{4}$) corner of Section 34, Township 21 South, Range 11 West, W. M.; thence South 71° 14' East a distance of 238.0 feet to Engineer's Station 312+54.1, opposite and 40 feet distant from which station the Southerly line of said strip intersects the East line of said property.

The parcel of land to which this description applies contains 0.10 acre.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential common law or statutory rights of access between the right of way of the said Reedsport-Luder Creek Section of the Umpqua Highway and all of the contiguous real property of the owners, remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the Umpqua Highway of a width of 25 feet on the South side of the said Umpqua Highway, opposite Highway Engineer's center line Station 311+50, for ordinary travel for private residential use only, and shall not be used in connection with any commercial activity; said access from said remaining rpoperty shall not be used by the owners, their heirs and assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission,

EXHIBIT "I-5" (cont.)

will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said real property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of the said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized and empowered to make such stipulation, agreement, or admission as in his judgment may be for the best interest of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 22nd day of September, 1952.

20741

EXHIBIT "I-6"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve, and maintain the County Farm-Ashland Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be improved, widened and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this

(cont.)

EXHIBIT "I-6" (cont.)

Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for the proper widening, improvement and maintenance of the County Farm-Ashland Section of the Pacific Highway as a throughway, and in connection therewith the construction of a connecting road between the old Pacific Highway and a county road, the following described real property, to wit:

R-19534
Owner: Thomas A. Klarin and Flora A. Klarin
Husband and Wife

A parcel of land lying in Donation Land Claim No. 60, situated in the Southwest quarter ($SW\frac{1}{4}$) of Section 23, Township 38 South, Range 1 West, W. M., Jackson County, Oregon, and being a portion of that property described in that deed to THOMAS A. KLARIN and FLORA A. KLARIN, Husband and Wife, recorded in Book No. 374, Page 320 and Book No. 352, Page 86, of Jackson County Records of Deeds. The said parcel being that portion of said property lying Easterly of a line which is parallel to and twenty-five (25) feet Westerly of the center line of the Talen Road Connection between Pacific Avenue and the County Road as said connection has been located, which center line is described as follows:

Beginning in the center of the old Pacific Avenue at Engineer's center line Station 0+00, said Station being 251.5 feet South and 892.5 feet West of the Southeast Corner of Donation Land Claim No. 59 in said Section 23; thence on a 143.24 foot radius curve left (the long chord of which bears North 35° 16' West) 48.33 feet; thence North 44° 56' West 264.75 feet; thence on a 102.31 foot radius curve left (the long chord of which bears North 67° 30' West) 80.60 feet to Engineer's Center Line Station 3+93.68, which is on the Center Line of the County Road. Said connection road center line intersects the Easterly and Northerly lines of said property approximately at Stations 1+15 and 3+20 respectively.

The parcel of land to which this description applies contains 0.25 acres.

2. That in addition to the acquisition of fee simple title to the above described real property it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the County Farm-Ashland Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of said remaining land, their heirs and assigns

for service of the said remaining land, the following:

A right of access to a connecting road to be constructed by the State upon the above described real property and Westerly of the main Pacific Highway, said connecting road to be connected to the said main highway or other public ways only at such point or points as are designated by the State of Oregon.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it is found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the State Highway Engineer a revised description is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 22nd day of September, 1952.

EXHIBIT "I-7"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the T. H. Banfield Expressway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled; and

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for the proper construction and maintenance of the T. H. Banfield Expressway as a throughway, the following described real

(cont.)

EXHIBIT "I-7" (cont.)

property, to wit:

Owner: Howard-Cooper Corporation
File No. R-14839

A parcel of land lying in the Mandale Addition to the City of Portland, situated in Section 31, Township 1 North, Range 2 East, W. M., Multnomah County, Oregon.

The said parcel being described as follows: All of that portion of Blocks 2 and 3, Mandale Addition to the City of Portland, and that portion of vacated Northeast Oregon Street between said Blocks 2 and 3, which lies north of the following described property:

Beginning at the southeast corner of Block 1 of said Mandale Addition; thence northerly along the westerly line of Northeast 60th Avenue 733.98 feet thence southwesterly in a straight line to a point in the east line of Northeast 58th Avenue, said point being 483.24 feet Northerly along the Easterly line of Northeast 58th Avenue from the Southwest corner of said Block 1 of said Mandale Addition; thence Southerly along the Easterly line of Northeast 58th Avenue 483.24 feet to the Southwest corner of said Block 1 of said Mandale Addition; thence Easterly along the Northerly line of Northeast Glisan Street 339.9 feet more or less to the point of beginning.

The parcel of land to which this description applies contains 1.16 acres.

2. That in addition to the acquisition of fee simple title to the above described property it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of said T. H. Banfield Expressway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if

EXHIBIT "I-7" (cont.)

any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of this Commission this 22nd day of September, 1952.

EXHIBIT "I-8"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property, which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the West Portland-Hubbard Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway, to be known as the Barbur Boulevard-Willamette River Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway, and has ordered and declared that said unit of said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that access to and from the said highway should be controlled; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to construct, improve and maintain the Barbur Boulevard-Willamette River Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway and, in connection therewith, to construct and maintain approach or connecting roads between the said highway and Harrington Avenue, Roosevelt Avenue and the Upper Boones Ferry Road, and for which purpose and in connection

(cont.)

EXHIBIT "I-8" (cont.)

therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes for the construction of the Barbur Boulevard-Willamette River Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway, and in connection therewith the construction and maintenance of approach or connecting roads between the said highway and Harrington Avenue, Roosevelt Avenue and the Upper Boones Ferry Road, the following described parcels of real property, to wit:

Owner: Marie and Fred Schodde
File No. 19538

Two (2) parcels of land lying in Lots 1, 2 and 3, Block 6, Lake Forest Plat No. 2, a Subdivision of Section 7, Township 2 South, Range 1 East, W. M., Clackamas County, Oregon.

The said parcels being described as follows:

Parcel No. 1: All of that portion of said Lot 1 not previously conveyed to the State of Oregon by and through its State Highway Commission by that certain deed recorded in Book No. 239, Page 194, Clackamas County Deed Records;

Parcel No. 2: All that portion of said Lots 2 and 3 lying Westerly of the West line of Roosevelt Avenue extended, said Parcel No. 2 being more particularly described as follows:

Beginning at the most Northerly corner of said Lot 3; running thence South 47° 43' 40" West along the Northwesterly line of said Lots 3 and 2, 190 feet to the most Northwesterly corner of said Lot 2; thence South 44° 37' 20" East along the Southwesterly line of said Lot 2, 131.30 feet to the Southwesterly corner of said Lot 2; thence South 89° 02' 30" East along the Southerly line of said Lot 2, 70.09 feet to the Westerly line of Roosevelt Avenue extended; thence North 0° 20' West along said Westerly line of Roosevelt Avenue extended 202.38 feet to the Northeasterly line of said Lot 3; thence North 44° 37' 20" West along said Northeasterly line to the point of beginning.

EXHIBIT "I-8" (cont.)

The parcels of land to which this description applies contain 0.679 acre.

Owner: Gabriel Mourens
File No. 19540

A parcel of land lying in Lot 15, Block 5, Lake Forest Plat No. 2, a subdivision of Section 7, Township 2 South, Range 1 East, W. M., Clackamas County, Oregon.

The said parcel being all that portion of said Lot 15 not previously conveyed to the State of Oregon, by and through its State Highway Commission, by that certain deed recorded in Book No. 277, Page 556, Clackamas County Records of Deeds.

The parcel of land to which this description applies contains 0.37 acre.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcels of property as to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcel of property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of the said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interest of the State, the State Highway Commission, or the property owners.

6. That this resolution be, and it hereby is, entered in the minutes and records of this Commission this 22nd day of September, 1952.

EXHIBIT "I-9"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property, which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the West Portland-Hubbard Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway, to be known as the Boones Ferry Road-Marion County Line Section of the West Portland-Hubbard Highway, and has ordered and declared that said section of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled, and

WHEREAS, said Commission is authorized to take fee simple title to the said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

(cont.)

EXHIBIT "I-9" (cont.)

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for use in connection with the construction, improvement and maintenance of the Boones Ferry Road-Marion County Line Section of the West Portland-Hubbard Highway as a throughway, the following described real property, to wit:

Owner: Anna B. Wurster
File No. 10630

A parcel of land lying in the Southeast quarter (SE$\frac{1}{4}$) of Section 35, Township 3 South, Range 1 West, W. M., Clackamas County, Oregon, and being a portion of that property conveyed by that deed to Anna B. Wurster, recorded in Book 304, Page 744, of Clackamas County Records of Deeds. The said parcel being that portion of said property included in a strip of land 200 feet in width, 100 feet on each side of the center line of the West Portland-Hubbard Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 675+00, said Station being 2019.9 feet North and 1420.4 feet East of the South Quarter ($\frac{1}{4}$) corner of said Section 35; thence South 0° 03' 30" East 690.04 feet to Station 681+90.04 Back = 681+01.76 Ahead; thence on a spiral curve right (the long chord of which bears South 0° 36' 30" West) 400 feet; thence on a 5729.58 foot radius curve right, (the long chord of which bears South 3° 32' 15" West) 319.17 feet; thence on a spiral curve right (the long chord of which bears South 6° 28' West) 400 feet; thence South 7° 08' West 215.42 feet to the South line of said Section 35 at Engineer's center line Station 694+36.35; said station being approximately 1325.4 feet east of the South quarter ($\frac{1}{4}$) corner of said Section 35; said center line crossing the North and South lines of said property approximately at Stations 676+72 and 694+36.35.

The parcel of land to which this description applies contains 8.10 acres, of which 0.14 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 7.96 acres lie outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said Boones Ferry Road-Marion County Line Section of the West Portland-Hubbard Highway, and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right of access to the West Portland-Hubbard Highway of a width of 25 feet on the West side of said highway, opposite Highway Engineer's center line Station 681+70, for private access only.

(cont.)

EXHIBIT "I-9" (cont.)

b. A right of access to the West Portland-Hubbard Highway of a width of 25 feet on the West side of said highway, opposite Highway Engineer's center line Station 685+00, for private access only.

c. A right of access to the West Portland-Hubbard Highway of a width of 25 feet on the West side of said highway, opposite Highway Engineer's center line Station 690+00, for private access only.

d. A right of access to the West Portland-Hubbard Highway of a width of 25 feet on the East side of said highway, opposite Highway Engineer's center line Station 681+70, for private access only.

e. A right of access to the West Portland-Hubbard Highway of a width of 25 feet on the East side of said highway, opposite Highway Engineer's center line Station 685+00, for private access only.

f. A right of access to the West Portland-Hubbard Highway of a width of 25 feet on the East side of said highway, opposite Highway Engineer's center line Station 690+00, for private access only.

g. A right to cross the West Portland-Hubbard Highway for farm purposes only, said crossing to be 25 feet in width at Highway Engineer's center line Station 681+70, provided, however, that upon the alienation of either of the portions of the property severed by the said highway, this right of crossing shall be forfeited and shall cease, and if the owners their heirs or assigns, shall commit, suffer or permit any use of said crossing for any purpose other than as a passageway from one side of said highway to the other for farm purposes, then and in that event, the right hereby reserved to the owners will be automatically forfeited, and the Highway Commission shall have the power to close and barricade said crossing for all purposes.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners, their heirs or assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land

abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highwya or to other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of the said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interest of the State, the State Highway Commission, or the property owners.

7. That this resolution be, and it hereby is, entered in the minutes and records of this Commission this 22nd day of September, 1952.

EXHIBIT "J-1"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized, and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Pacific highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goshen-Creswell Section of the Pacific Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and decla- d that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

(cont.)

EXHIBIT "J-1" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way, for the proper relocation, construction, improvement and maintenance of the Goshen-Creswell Section of the Pacific Highway as a throughway, the following described real property, to wit:

R-18452
Owner: Earl C. Law, et al

A parcel of land lying in the Northwest quarter (NW$\frac{1}{4}$) of the Northwest quarter (NW$\frac{1}{4}$) of Section 24, Township 18 South, Range 3 West, W.M., Lane County, Oregon, the said parcel being described as follows:

Beginning at a point on the North line of said Section 24, said point being 594 feet West of the intersection of the North line of said Section 24 and the West line of the Milton Riggs Donation Land Claim No. 57; thence South 89° 56' East along said North line a distance of 3.1 feet to a point which is 80 feet distant Southwesterly from (when measured at right angles to) the relocated center line of the Willamette Highway; thence South 60° 00' 30" East parallel to and 80 feet from said highway center line a distance of 394.3 feet to the North line of the Pebbles property; thence North 89° 56' West parallel to the North line of said Section 24 a distance of 443.3 feet; thence North 26° 39'30" East parallel to the Westerly line of said Milton Riggs Donation Land Claim a distance of 220 feet to the point of beginning, containing 1 acre, more or less.

(Save and except all that portion lying within the right of way of the present Willamette Highway.)

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said property.

(cont.)

EXHIBIT "J-1" (cont.)

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the State Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of September, 1952.

20757

EXHIBIT "J-2"

Minutes of September 22 and 23, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt , establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the oonstruction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as Unit No. 5 of the T. H. Banfield Expressway, and has ordered and declared that said Unit No. 5 of said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that access to and from said highway should be controlled; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to construct, improve and maintain Unit No. 5 of the T. H. Banfield Expressway, and to construct and maintain a frontage or connecting road between Birdsdale Road, also known as Multnomah County Road No. 682, and Osburn Road, also known as Multnomah County Road No. 952, and to realign the said Birdsdale Road in order to provide an underpass carrying said Birdsdale Road under the said Unit No. 5 of the T. H. Banfield Expressway, and for which purpose and in connection therewith, the real property hereinafter described is necessary;

(cont.)

EXHIBIT "J-2" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes, for use in connection with the construction, improvement and maintenance of Unit No. 5 of the T. H. Banfield Expressway, and the construction of a frontage or connecting road between Birdsdale Road, also known as Multnomah County Road No. 682, and Osburn Road, also known as Multnomah County Road No. 952, and the realigning of said Birdsdale Road in order to provide an underpass carrying said Birdsdale Road under the said Unit No. 5 of the T. H. Banfield Expressway, the following described real property, to wit:

R-19070
Owner: Leonard O. Osburn, et al

A parcel of land lying in the Jacob Zimmerman Donation Land Claim, Township 1 North, Range 3 East, W.M., Multnomah County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to Leonard O. Osburn and Margaret Osburn, recorded in Book 946, Page 318 of Multnomah County Records of Deeds, the said parcel being described as follows:

That certain portion of the Jacob Zimmerman and Leboldine Zimmerman Donation Land Claim No. 39, all described with reference to a certain stone monument herein referred to as the initial point which stone monument is set in center line of Sandy Road at a point 17 feet Easterly from the West line of said Donation Land Claim, measured at right angles with the said West line of said claim, from said stone run South parallel to and 17 feet Easterly from the West line of said Donation Land Claim 1629.49 feet to the Northwest corner and beginning point of the tract herein described; thence Easterly along the North line of said tract 86.86 feet, more or less, to a point 85.0 feet Easterly of, when measured at right angles to, the center line of Birdsdale Avenue; thence Southerly 201.01 feet, more or less, to a point 90.0 feet Easterly of, when measured at right angles to, the center line of Birdsdale Avenue, said point also being 165 feet Northerly of, when measured at right angles to, the Northerly right of way line of the Union Pacific Railroad; thence Southeasterly parallel to and 165 feet Northerly of said Northerly right of way line 340.29 feet, more or less, to the South line of said property; thence Westerly along said South line 427.58 feet, more or less, to the Southwest corner; thence Northerly parallel to and 17 feet Easterly of the West line of said Donation Land Claim 258.50 feet to the point of beginning. Excepting therefrom that portion of said tract that lies in Birdsdale Avenue.

EXHIBIT "J-2" (cont.)

The parcel of land to which this description applies contains 0.63 acre, outside of the existing right of way.

2. That in addition to the acquisition of fee simple title to the aforesaid described real property, it is necessary that there be acquired or extinquished all existing, future or potential rights of access between the right of way of the said Unit No. 5 of the T. H. Banfield Expressway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, a right of access to a frontage road to be constructed by the State upon the above described real property and Northerly of the said T. H. Banfield Expressway, said frontage road to be connected to the said highway or other public ways only at such point or points as are designated by the State of Oregon.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the bests interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 23rd day of September, 1952.

Portland, Oregon
October 20, 1952

The State Highway Commission met in regular session at 9:00 a.m., Pacific Standard Time, in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
F. A. Miller, Assistant Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

The Commission unanimously approved the minutes of its meetings held on August 18 and 19, 1952 and September 22 and 23, 1952.

The State Parks Superintendent reported on the following park matters:

1. Request of E. V. Shults and W. A. Markam, Arch Cape, Oregon, for permission to construct and maintain a two-inch water pipe line across a corner of Short Sand Beach State Park, Clatsop County: The Parks Superintendent advised that the proposed water line will pass across a portion of the park that is not now in use and probably will not be in use for a great many years; moreover, this pipe line will not damage the park in any way. He recommended approval of the request. The Commission approved the recommendation.

2. Request of U. S. Coast Guard for permission to use excess water from the Umpqua Lighthouse State Park water supply and for permission to construct a pipe line across this park: The Parks Superintendent advised that a water system has been constructed by the State for use in connection with development of a park area near a small body of water called "Lake Marie"; however, to date the development has been very meager, and there has been very little use for the water. He also said that the Coast Guard, whose headquarters are located across the outlet of this lake, wants to connect its pipe line with the State system and to use such water as is not needed for State purposes, the Coast Guard having an inadequate source of pure water at the present time. He gave as his feeling that such use of the excess water will not interfere with or be detrimental to the park, and he recommended approval of the request on the condition that the Coast Guard's pipe line shall be disconnected if for any reason future needs of the park require all of the water. The Commission approved the recommendation and ordered the matter covered by revocable permit.

3. Proposed exchange of land with Percy G. Sweet, Bandon, in order to consolidate the State's holdings in Newburgh State Park located on the ocean

front opposite the town of Denmark: The Parks Superintendent advised that Mr. Sweet owns 38.48 acres of land situate in the SW¼ of the SW¼ of Section 19, Township 31 South, Range 15 West, W. M., which land is entirely surrounded by the state park, and he has offered to deed this property to the State on the condition that the State will deed to him 21.76 acres of land situate in Lot 1, Section 31. Township 31 South, Range 15 West, W. M., which property now is a part of the park but joins other property that he owns. The values of the two areas, he said, are approximately the same, and Mr. Sweet's offer is being made in an endeavor to compensate the State for having cut some of the timber standing on the State's land, by mistake. He recommended acceptance of Mr. Sweet's proposal as being in the State's interest. The Commission approved the recommendation.

4. Suggestion of Mr. R. V. Jenkins, Tigard, Oregon, that the State Highway Commission acquire for state park purposes the privately owned park area known as Avalon Park, located on US 99W at its crossing of the Tualatin River near Tigard, Washington County: The Parks Superintendent advised that Avalon Park is a beautiful place which was developed privately and has been used for a great many years by local people as well as by residents of Portland. He further stated that the park does not fit into the state park plan, and whereas development of the same should be continued, jurisdiction should rest with the community rather than the State. He recommended against acquisition of the property. The Commission approved the recommendation.

5. Request of Mr. Joseph A. Minott and the Misses Caroline W. and M. Louise Flanders, Portland, that the state park acquired from them at Ecola in Clatsop County be permanently named Ecola State Park: The Parks Superintendent advised that this park is customarily known as Ecola State Park, but a diligent search of the records fails to disclose that it has been given that name formally by any Highway Commission. He recommended such formal action by the Commission at this time, particularly in view of the fact that through the generosity of these people the property was deeded to the State as a gift. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein. The Secretary was instructed to send an embossed copy of the resolution to the Flanders sisters.

In this connection the matter of permitting overnight camping in this park was discussed. The Parks Superintendent advised that the doners of the park offer objection to overnight camping in the area, and he suggested compliance with their wishes insofar as it pertains to the picnic area which has been developed, but that overnight camping be allowed in a small area in the northerly part of the park, provision for which, he said, will be contained in the 1953 budget. The Commission approved the report.

6. Suggestion of Mr. J. Neilson Barry, Portland, that copies of certain historical documents in his possession relating to early Oregon governments be placed in the museum in Champoeg State Park: The Parks Superintendent advised that Mr. Barry, who has made a deep study of Oregon history, has a great library of information, some of which, he believes, would be highly interesting to people

who visit the park. He recommended approval of Mr. Barry's suggestion and that at least some of the things that he owns be placed in the park museum for public inspection, the selection of the items to be decided by the Oregon Historical Society. The Commission approved the recommendation unanimously on the condition that the Oregon Historical Society selects the items that are to be preserved in the museum.

7. Offer of the Interurban Telephone Company, Silverton, to take over and to rebuild the telephone line which serves Silver Falls State Park: The Parks Superintendent explained that the service now rendered the park is over the state's own telephone lines which is about six miles long and is in very poor condition. The telephone company, he said, has offered to take over this facility and to rebuild and maintain it in the future at its own cost and expense, and, thereafter, the only charge that it will make for service in the park headquarters will be at the regular established rate. He also said that the company has offered to pay $125 for material salvaged from the State's line. He recommended acceptance of the company's proposition as being in the State's best interests and to eliminate several hundred dollars expense each year for upkeep of the present line. He pointed out, however, that the service to be rendered will not extend to the area in which is located the youth camp. The Commission approved the recommendation.

8. Proposal of Corbett Water District to extend its water pipe line to serve Dabney State Park on the Columbia River Highway (Scenic Route) east of Troutdale: The Parks Superintendent advised that the Corbett Water District furnishes water to the area east of Springdale and has proposed to extend the system to include other people in the area, as well as Dabney Park, provided that the people served will pay for the extension. Dabney Park, he said, is now served by a spring located nearby, but the supply of water is inadequate and indications are that it may become contaminated at any time. The estimated cost to construct the pipe line as presently planned, he said, is about $10,000, of which the State's share will amount to about $900. He recommended approval of the expenditure in order to provide water for fire protection as well as for use by the general public. The Commission approved the recommendation unanimously.

9. Renewal of agreement with the United States Soil Conservation Corps re the planting of Holland Beach Grass and Scotch Broom to control sand blow in Cape Lookout State Park: The Parks Superintendent recalled that the previous agreement, which has expired, covered the furnishing of European Beach Grass at a price not to exceed $1.75 per thousand plants. The Soil Conservation Service, he said, wishes the renewal of the agreement, the only difference being that they are now asking $2 per thousand for the Beach Grass and a price of $10 to $15 for the Scotch Broom. He recommended approval of the agreement because there is considerable more planting to be done on the sand spit at this location in order to protect the park. The Commission approved the recommendation unanimously. (An agreement covering the matter was signed by the Commission later in the session.)

The Right of Way Engineer presented for the Commission's consideration options secured for the acquisition of real property that is needed for various State highway improvements, and for other purposes. As a result of

very careful consideration, the Commission approved the closing of the options at the prices mentioned therein. The attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission unanimously.

The Commission unanimously confirmed sales of miscellaneous properties as reported by the Right of Way Engineer. (For a list of the properties sold, see copy of report prepared by Mr. C. W. Parker, Property Manager, dated October 20 and 21, 1952 on file in the Secretary's office under the heading "Miscellaneous Sales".)

Pursuant to instructions given him at the previous meeting, the Right of Way Engineer rendered a complete status report in writing, concerning the acquisition of right of way for all units of the T. H. Banfield Expressway. The report was discussed and approved by the Commission. (For details, see copy of the report in General Files.)

The Right of Way Engineer reported that pursuant to Commission authority, there was advertised for sale, the bids to be received in Salem on October 10, 1952, certain property in the City of Florence which the Elks Lodge of that place was interested in, and the old maintenance building and site in Port Orford. He further stated that no bids were received for the purchase of the property in Port Orford, and that only one bid was received for the property in Florence, being that of the Elks Lodge at $4,000. He recommended acceptance of this offer; he also recommended that the Port Orford property be readvertised for sale sometime next spring. The Commission approved both recommendations unanimously.

The Right of Way Engineer brought up for discussion a controversy which has developed with Mr. William Foss, Lapine, relative to granting him additional access points to The Dalles-California Highway in the town of Lapine. He advised that on January 16, 1952 Mr. and Mrs. Foss signed a real estate option for several parcels of land that the State needed as right of way for improvement of the Lapine-Forest Boundary Section of this highway, which option covered not only right of way but also all access rights thereto, except rights of access at two points which were granted for private purposes only. The consideration paid to the Fosses, he said, included payment for the land and also for the rights of access, and on June 30, 1952, the Fosses executed a warranty deed conveying to the State the land desired, which deed also contained the access restrictions. Subsequently, the Fosses requested two commercial access points in connection with a motel which they plan to construct. The request was denied in conformity with the established policy of the Commission, but the Fosses were not satisfied, and renewed their request through their attorney, Mr. A. C. Goodrich of Bend, at whose request the matter is now being brought to the attention of the Commission. The Right of Way Engineer recommended that the request again be denied because there are no extenuating circumstances that would place the matter in any different catagory than the many other requests the Commission receives; moreover, if the Commission granted the request in this instant, it would be necessary to treat others in the same manner with the result that the Highway Department would be flooded with requests to modify previously purchased access rights; and the effect upon the highway

system of the entire state would be most detrimental to public welfare. As a result of discussion, the Commission voted unanimously against the granting of the additional access points. The Secretary was instructed to so inform Mr. Foss' attorney and to explain briefly the reasons which prompted the action.

The Commission discussed and upon recommendation of the Right of Way Engineer unanimously approved changes in the points of access heretofore granted William G. Hagelstein and George F. Ketsdever to The Dalles-California Highway from their properties located on the Barkley Springs-Algoma Section of The Dalles-California Highway in Klamath County. (Two Indentures of Access covering these changes were executed by the Commission later in the session.)

The Right of Way Engineer requested the Commission's approval of the following change in th wording of a clause used in agreements covering access control, in order to make workable the form of agreement heretofore approved by the Commission as it pertains to such control: Substitute the wording "for ordinary travel for private residential use only", for the existing clause which reads "ordinary travel for private residential use only to serve not more than _____ single family dwelling units". In other words the change is simply the deletion of the words in the clause, as quoted above, following the word "only". The Right of Way Engineer advised that in actual practise, the clause presently written has proven to be unworkable. The Commission unanimously approved the change as requested.

The Right of Way Engineer brought up for discussion the sale to the U. S. Army Engineers, of a State-owned gravel pit located on the Willamette Highway near the town of Dexter. The State Highway Engineer explained details. It appears that the Army Engineers are constructing a re-regulating dam in the Willamette River near the town of Dexter some distance down-stream from the Meridian Dam, and that the maximum elevation of the water pool that will be formed back of this dam is higher than the elevation of the gravel pit which will be inundated, so the Army Engineers have asked that the property be deeded to them. The Engineer advised that the gravel pit is of very little use to the State inasmuch as most of the gravel has been removed therefrom; moreover, the gravel that is left will be used by the Army Engineers in reconstructing the highway at this point necessitated by the dam construction. He gave as his feeling that the property should be deeded to the Army Engineers free of cost, and he so recommended. The Right of Way Engineer joined in the recommendation. The Commission approved the recommendation unanimously. (A form of "Option for Purchase of Land" covering the matter was signed by the Commission later in the session.)

The Right of Way Engineer reported the status of negotiations for the acquisition of property to be developed as a state park at Bandon. He advised that difficulties have been encountered, and that most of the owners of the property involved are demanding prices far in excess of the appraised valuation of their properties. He mentioned three properties for which the owners are demanding the sum of $38,500 whereas the appraised value of the properties is only $19,100. He requested instructions whether or not to acquire the prop-

erties by condemnation. Chairman Chandler recalled that this project was originated by local people, and he suggested, if the properties cannot be acquired at reasonable cost, that the project be abandoned. The suggestion was approved by Commissioners Reynolds and McIver, and it was so ordered. The Secretary was instructed to notify the proponents of the project of the action taken.

The Commission discussed and unanimously approved deeding to Mr. and Mrs. W. P. McBee a 0.09 acre parcel of land situate on the Newport-Toledo Section of the Corvallis-Newport Highway, Lincoln County. The Right of Way Engineer explained that this small parcel of land lies between the rights of way of the new highway and the old highway and was included in the deed that the McBees' gave to the State in conveying right of way across their property, but it seems that it was included in the description by mistake, and now the McBees want it conveyed back to them. The property, he said, is of no value to the State, and he recommended approval of the request subject to the condition that the deed of conveyance shall provide a complete restriction of access to the new highway. The Commission approved the recommendation.

The Right of Way Engineer presented a complaint from Mr. A. N. Whitman concerning a right of way settlement on the Reedsport-Winchester Bay Section of the Oregon Coast Highway. He explained that a parcel of land containing 1,700 square feet was acquired from Mr. Whitman, and that during negotiations, Mr. Whitman was informed that he would have a strip of land about 18 feet wide in the rear of his cabins, which measurement was substantiated on the map that was used in connection with the negotiations; however, when the right of way line was staked, it was found this strip was only 9 feet wide, which is not sufficient for Mr. Whitman's purposes. In order to correct the error, he recommended that Mr. Whitman be deeded a 10-foot strip off the westerly end of the property acquired from him on the condition that he will pay for the property at the rate of $0.08 per square foot which is the amount the State paid him for the property. The Commission approved the recommendation.

Request was made by the Right of Way Engineer for authority to issue land use permits during the calendar year 1953 in conformity with past practice. The Commission approved the request.

The Assistant Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way or for other purposes in connection with various highway improvements, and to tender offers for the same in conformity with instructions given him in the resolution that was adopted by the Commission at its meeting on December 20, 1951:

Garden Valley Road-Second Crossing of the Umpqua River Unit of the Deady-Shady Section of the Pacific Highway

R 17857 -	Douglas Community Hospital, Inc. Right of Way (Douglas) 0.06 acre	Recommended Offer *

Garden Valley Road-Second Crossing of the Umpqua River Unit of the Deady-Shady Section of the Pacific Highway (cont.)

			Recommended Offer
R 17859 -	E. A. Springer Right of Way (Douglas) 0.02 acre		*
R 17887 -	Vernon Orr and Hugh Harrison Right of Way (Douglas) 12.34 acres		*
R 18612 -	Benjamin O. DuFresne Right of Way (Douglas) 140 square feet		*
R 18613 -	Elsie K. Cain Right of Way (Douglas) 0.18 acre		*

East Unit of the Deschutes County Line-Prineville Section of the O'Neil Secondary Highway

R 18848 -	Earl Forest Right of Way (Crook) 0.35 acre at $80.00 per acre Replacing 90 rods fencing at $2.50 per rod	$28.00 225.00 $253.00	$ 260.00
R 18849 -	Lenore W. Althaus Right of Way (Crook) 0.03 acre 20 rods of fencing at $2.50 per rod	$10.00 50.00 $60.00	$ 60.00

Rowena-The Dalles Unit of the Mosier-The Dalles Section of the Columbia River Highway

R 16224 -	Charles W. Frantz Right of Way (Wasco) 8.44 acres	*
R 18132 -	Phil T. Stofer Right of Way (Wasco) Parcel No. 1: 3.20 acres Parcel No. 2: 9.25 acres	*

Rowena-The Dalles Unit of the Mosier-The Dalles Section of the Columbia River Highway (cont.)

		Recommended Offer
R-18182 -	Fred Wetle and Nellie Anderson (Wasco) Parcel No. 1 (Right of Way) 24.75 acres Parcel No. 2 (Gravel Pit) 5.95 acres Parcel No. 3 (Easement for Channel Change) 1.7 acres	*

City of Springfield Section of the McKenzie Highway

R 16255 -	Otto Sellin Right of Way (Lane) 7,380 square feet	*
R 16256 -	Sig Moe Right of Way (Lane) 98,010 sq. ft.	*
R 16258 -	Daniel O. Peterson Right of Way (Lane) 9,080 sq. ft.	*
R 16262 -	Jasper J. Foster Right of Way (Lane) 6,072 sq. ft.	*
R 16269 -	Sidney Duncan Right of Way (Lane) 504 sq. ft.	*
R 16270 -	Ethel Duncan Right of Way (Lane) 990 sq. ft.	*
R 16271 -	Mary L. Nelson Right of Way and slope easement (Lane) 11,614 sq. ft.	*
R 16276 and R 16277 -	Clear Fir Products Company, a corporation Right of Way (Lane) 34,720 sq. ft.	*
R 17190 -	Charles P. Seymore Right of Way (Lane) 1,570 sq. ft.	*
R 17267 -	Walter Baker Right of Way (Lane) 3,520 sq. ft.	*

City of Springfield Section of the McKenzie Highway (cont.)

		Recommended Offer
R 17269 -	Lydia Gielish Vander Waal Right of Way (Lane) 1,020 sq. ft.	*
R 16275 -	Floyd L. Kull Right of Way (Lane) 5,600 sq. ft.	*
R 17268 -	Clarence A. Wheeler, Roy A. Marks, Earl J. Vaughn Right of Way (Lane) 1,490 sq. ft.	*
R 17270 -	S. C. Sasser Right of Way (Lane) 220 sq. ft.	*
R 17317 -	Sig Moe Gravel Bar (Material Source) (Lane) 0.24 acre	*
R 18797 -	Albert Vik Right of Way (Lane) 14,729 sq. ft.	*

The Commission approved the request unanimously by adoption of the attached resolutions relative thereto, marked EXHIBITS "J-1" through "J-3" inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

In this connection the Commission discussed the advisability of acquiring by condemnation certain properties that are needed as right of way for the proposed West Portland-Harbor Drive Expressway. The question arose as to the exact location of the properties with reference to the highway center line, the survey for which, together with the width of right of way, has not as yet been definitely determined. Action on the matter was deferred by the Commission pending additional information from the Engineer who was also instructed to report to the Commission the results of the public hearing that was held in Portland on this subject.

The Assistant Chief Counsel rendered a written report on cases tried or in which judgment decrees have been entered since the last meeting of the Commission as follows:

(1) Fred J. Strasbaugh, et ux vs. Ben R. Chandler, et al: The Assistant Counsel reported that the court in this case ruled favorably upon the State's motion to direct the jury to return a verdict in favor of the defendants. Not only did the plaintiffs fail in proving liability upon any of the several-named defendants, he said, but in addition to the expense that they, themselves, incurred in prosecuting the case, they will have to pay the

Highway Department's cost bill. The Assistant Counsel gave as his feeling that the State Land Board may wish to take some action against the Strasbaughs for recovery of the value of the materials that the Strasbaughs have removed from lands owned by the State, and in connection therewith, the clerk of the Land Board has requested the services of one of the State's witnesses, Mr. Frank I. Towle, who has rendered valuable assistance in the case just tried. He recommended that Mr. Towle be authorized to assist the State Land Board in the matter if requested. The recommendation was approved by the Commission. Also brought into the discussion by the Assistant Counsel was payment of the fees of the attorneys who were employed to assist in the case. He recommended approval of the following amounts: Anthony Yturri - $4,339.51, and George Cochran - $2,750.10, the amount due Mr. Yturri being the full amount earned, and that being paid to Mr. Cochran being partial payment, he having already received a certain amount. He explained that these amounts represent fees and expenses. He also said that the claims are being presented to the Commission as directed by the Attorney General, Mr. George Neuner. The Commission unanimously approved payment of the amounts as recommended. The Commission highly complimented Mr. Miller, Mr. Towle, and others who assisted in handling this case.

(2) State vs. Ludvig Anderson, et al: This case involves acquisition of right of way needed for the Tigard-Tualatin River Unit of US 99W. Complaint was filed in Washington County on June 17, 1952 for acquisition of 2,700 square feet of land including right of access and slope easements. The offer authorized by the Commission was in the amount of $2,400. The case was tried before a jury and resulted in a verdict of $3,600 with interest at the rate of 6 percent from June 17, 1952. The Commission approved the report.

(3) State vs. Margaret Litchenthaler, et al: This case involves acquisition of 0.98 acre of land needed as right of way for the Bay City-Kilchis River Section of the Oregon Coast Highway. Complaint was filed in Tillamook County on December 8, 1951. Amount of offer authorized by the Commission was $950. The case was tried before a jury and resulted in a verdict of $800 plus interest at 6 percent from December 8, 1951. The Commission approved the report.

(4) Karl Tomasek vs. State Highway Commission: This case concerns a claim for damages in the amount of $34,880 and involves a 69.76 acre tract of land which the plaintiff alleges was destroyed in 1945 by reason of construction of a bridge over the North Santiam River and approaches thereto. The case was tried and a verdict was rendered against the State in the amount of $13,500. An appeal was taken to the Supreme Court which confirmed the opinion of the lower court on September 24, 1952. The Assistant Counsel gave as his opinion that no legislative appropriation has been provided to pay the judgment, and appropriation to satisfy the judgment will have to be decided by legislative enactment. The Commission approved the report.

(5) State vs. Charlotte W. Kurth: This case concerns acquisition of 0.2 acre of land needed as right of way for the Tigard-Onion Flat Section of US 99W. Amount of offer was $600. Verdict rendered by the jury was in the amount of

$650. The Commission approved the report.

The Assistant Chief Counsel reported settlement of the following cases:

(1) State vs. Minnie C. Flanagan, et al: This case involves acquisition of 399 square feet of land needed as right of way for the Cascade Highway and the Mt. Hood Highway. Maximum appraised value of the property was $800. The amount demanded by the plaintiff was $1,500. Settlement was reached for $1,250. The Commission approved the report.

(2) State vs. Elmer Bankus, et ux: This case involves acquisition of 2,314 square feet of land along the Brookings-California State Line Section of the Oregon Coast Highway. Complaint was filed on August 4, 1950, and the amount authorized by the Commission prior to filing of condemnation proceedings was $3,000 for a warranty deed conveying the property to the State. This matter was finally concluded by an exchange of properties rather than by paying a cash amount. The Commission approved the arrangement.

The Commission discussed and unanimously confirmed offers reported by the Assistant Chief Counsel, as follows, for acquisition of real property that is needed for various highway purposes, which offers were tendered to the owners prior to institution of condemnation proceedings in conformity with authority granted by the Commission in its resolution adopted December 29, 1951:

Whale Cove-Miner Creek Unit of the Siletz River-Newport Section of the Oregon Coast Highway

L-1485 - Owner: Wilbur F. Badley, et al. 26.45 acres for right of way. Amount of offer $13,150.00. Authorized by Chairman Chandler on September 30, 1952.

State Street South Unit of the Salem By-Pass Section of the Pacific Highway East

R-18300 - Owner: Albin W. Lovcik, et ux. 1.5 acres for right of way, and 8.35 acres for excess taking. Amount of offer $1,600. Authorized by Chairman Chandler on September 26, 1952.

Unit No. 5 of the T. H. Banfield Expressway

R-19070 - Owner: Leonard C. Osburn, et al. 0.63 acre for right of way. Amount of offer $1,500.00. Authorized by Commissioner Reynolds on October 2, 1952.

Chemult-Diamond Lake Junction Section of The Dalles-California Highway

L-1734 - Owner: A. W. Arnold, et al. 19.97 acres for cinder pit, and 1.72 acres for access road to cinder pit. Amount of offer $1,000.00. Authorized by Commissioner Reynolds on October 9, 1952.

Goshen-Creswell Section of the Pacific Highway

R-18452 - Owner: Earl C. Law, et al. 1 acre for right of way. This is the entire taking. Amount of offer $12,500.00. Authorized by Chairman Chandler on September 26, 1952.

County Farm-Ashland Section of the Pacific Highway

R-19380 - Owner: Ralph D. McCulloch, et al. 0.05 acre for right of way. Amount of offer $100.00. Authorized by Chairman Chandler on September 26, 1952.

R-16543 - Owner: Charles W. Koyl, et al. 8.09 acres for right of way, 2.8 acres for easement for channel change, 1.03 acre for gravel pit, and 0.82 acre for excess taking. Amount of offer $12,000.00. Authorized by Commissioner Reynolds on October 2, 1952.

Boones Ferry Road-Marion County Line Section of the West Portland-Hubbard Hwy

R-10625 - Owner: James E. Langdon, Sr. et ux. 8.97 acres for right of way. The State is to construct an 84-inch corrugated steel cattle underpass on the boundary line between this property and that of Homer Langdon. Amount of offer $10,425.00. Authorized by Commissioner Reynolds on October 2, 1952.

R-17527 - Owner: Homer Langdon. 18.83 acres for right of way. The State is to construct an 84-inch corrugated steel cattle underpass on the boundary line between this property and that of James E. Langdon, Sr. Amount of offer $10,461.00. Authorized by Commissioner Reynolds on October 2, 1952.

R-18583 - Owner: James E. Langdon, Jr. et ux. 3.72 acres for right of way. Amount of offer $5,037.00. Authorized by Commissioner Reynolds on October 2, 1952.

The Assistant Counsel reported on status of the Commission's claim against Mr. Leo R. Beard who owned the truck that was being driven by Mr. William D. Clark when it was involved in an accident that resulted in damaging the bridge over the Grande Ronde River at M. P. 19.43 on the Wallowa Lake Highway. He advised that the State's claim amounted to $107.04 and that $30 of such amount was paid by Mr. Beard who indicates that he does not intend to pay the balance. The Assistant Counsel requested authority to institute such court action as may be necessary to collect the remaining $77.04. The Commission approved the request.

The Assistant Chief Counsel also brought up for discussion settlement of the accident claim of the Commission vs. the estate of Ray L. Cattnack in the amount of $3,402.36 plus $117.82, the latter amount representing value of sick leave due the driver of the State's equipment that was involved in the accident. The Assistant Counsel explained that the claim arose out of an accident which took place

on the Wapinitia Highway wherein the State Highway vehicle was damaged, and the driver of the same was injured. The total amount of the claim, he said, has been paid in full. The Commission approved the report.

The Engineer reported that in conformity with authority given him by the Commission, he has reclassified the Athena-Holdman Secondary Highway between Athena and Cold Springs Highway junction from a Group II Highway to a Group I Highway. He said that test runs of equipment observed by the Director of Permits revealed that this highway can now accommodate combinations of equipment sixty feet overall in length without creating a hazard to other traffic, hence his order reclassifying the highway. The Commission approved the action taken by the Engineer.

The Engineer reported the results of a traffic survey conducted at the intersection of Fourth Street and Central Avenue in Coos Bay to determine the need of a traffic signal at this point. He advised that from the information gathered by the survey, it has been determined that a signal is warranted. He estimated the cost of such signal at $4,000 and recommended approval of the installation on the condition that the City of Coos Bay will pay one-half of the cost of installing the signal, will maintain the signal after the installation is completed, and will provide electrical energy to operate it without cost to the State. The Commission approved the recommendation.

The Commission discussed a letter from the County Court of Clackamas County requesting the reestablishment of an overhead crossing of Roberts Road No. 80 (Boeckman Road) over the West Portland- Hubbard Expressway as a convenience for local citizens. The Engineer explained that the original plan called for an overcrossing structure at this point, but the plan was later changed so as to close entirely the Boeckman Road crossing because an overpass at this place was not considered essential. In lieu of the overpass, frontage roads were constructed on both sides of the highway to connect with traffic interchanges at Stafford Road and at the Wilsonville-Oregon City Road, each of which is approximately one mile distant from the Boeckman Road. He pointed out that the Boeckman Road extends only a short distance from the expressway to the Oregon Electric Railroad right of way where it terminates, and he gave as his considered opinion that the people residing on this short section can be served equally as well without the overpass as they can be with it. He pointed out that the Commission has a written agreement with the Clackamas County Court providing for the closure of the Boeckman Road and the construction of service roads in lieu thereof at a cost in excess of $10,000; also that the County Court was fully cognizant of the overall plan of the highway improvement when the agreement was executed; otherwise, the frontage roads would not have been constructed. The cost of constructing an overpass, he said, is in no way commensurate with the volume of traffic that would use it, and he mentioned that it would be possible to build an overcrossing at any time in the future should traffic conditions warrant the same. He recommended that the County Court's request be denied. The Commission approved the recommendation unanimously and instructed the Secretary to advise the County Court of the action taken and the reasons therefor.

The Engineer requested authority for the Chief Counsel to assist the District Attorney of Coos County in every way possible in prosecuting Mr. Neil

Ferre across whose property a right of way is being condemned for improvement of the Hauser-Coos Bay Section of US 101, for wantonly and feloniously assaulting the Highway Department's Resident Engineer, Mr. G. A. Barnhart. He explained that Mr. Barnhart went onto Mr. Ferre's property to obtain some measurements that were needed in connection with the relocation of Mr. Ferre's buildings, and that Mr. Ferre belligerently ordered Mr. Barnhart off the premises, and threatened to shoot his car if he did not leave at once. Mr. Barnhart, he said, got into his car and was just about to leave when Mr. Ferre shot at the car with his rifle. The bullet struck the ground and caused rocks to splatter the car, resulting in damages thereto and what was more serious, a small piece of gravel or a possible fragment of the bullet struck Mr. Barnhart on his left cheek. A second shot fired by Mr. Ferre hit the left front wheel of the car doing additional damage. Mr. Barnhart, he said, drove into North Bend and swore out a warrant for Mr. Ferre's arrest, following which Mr. Ferre was picked up by the State Police and lodged in the Coos County jail, but was released shortly thereafter upon the posting of a cash bail in the amount of $1,500. It was the feeling of the Commission such actions cannot be condoned. Accordingly, the Commission authorized the Chief Counsel to assist the District Attorney in every way possible in vigorously prosecuting Mr. Ferre for this offense.

The Engineer reported the results of an investigation of the Umatilla River Bridge on Secondary Highway No. 207 southwest of Hermiston as ordered by the Commission at the previous meeting when the Commission discussed a request from the City of Hermiston for the widening of an underpass of the Union Pacific Railroad nearby on this highway. The Engineer advised that he personally inspected this bridge and ascertained that it is not in immediate need of replacement, but will adequately serve for several years. He recommended that improvement of the structure be deferred until such time as it shows signs of deterioration. He also stated that the location of this bridge structure will have no bearing whatsoever on the location of the railroad underpass in view of which he recommended improvement of the underpass as soon as funds are available to finance the work. The Commission unanimously approved the recommendation and authorized the Engineer to prepare the underpass project for construction when there are funds to finance it which indications are will be not before 1954.

The Commission discussed a written report from the Engineer, dated October 16 1952, on improvements to the Pacific Highway West and connecting highways, between Dayton Junction and Monmouth via Dayton and Amity, which it is anticipated will be requested by the West Side Highway Association when it appears before the Commission on the following day. Action in this matter was deferred by the Commission pending appearance of the delegation. (See additional paragraph ahead.)

The Engineer brought up for discussion an offer received from Mr. F. S. Elfving, Astoria, to sell to the State for the sum of $12,000, all of his property lying northerly from the S. P. & S. Railroad right of way line between 14th and 15th Streets in the City of Astoria which property is now being leased by the State as a terminal for the Astoria-Megler Ferry. Due to the uncertainty of constructing a new ferry terminal at the foot of 17th Street in Astoria in the near future, the Engineer suggested that it would be advisable to purchase Mr. Elfving's property at the amount of his offer. He advised that the appraised value of Mr. Elfving's

property is $20,000, based on river frontage at $25 per foot. He explained that the present lease from Mr. Elfving for which the State is paying $3,000 per year, will not expire until June 1, 1954 so rentals payable up to that time will amount to $4,500 and he estimated that the property will have a salvage value of between $8,000 and $10,000 at the end of the current lease. He suggested purchase and use of the property as a ferry terminal until such time as traffic becomes so great that a new terminal at the foot of 17th Street must be provided. The Commission gave the matter careful consideration, and, as a result thereof, decided unanimously to accept Mr. Elfving's offer.

The Engineer brought up for discussion the need to improve the Wallowa Lake Highway between La Grande and Island City. He said that the present highway is not adequate to accomodate with safety the volume of traffic that uses it, and he suggested that it should be widened to provide a pavement 24 feet wide with 8 foot shoulders on each side. He estimated the cost of such improvement at $112,000, and he recommended approval of the project for construction in 1953 using state funds to finance it. The Commission approved the recommendation unanimously and authorized the Engineer to advertise the project for bids to be received at the January meeting of the Commission.

The Commission discussed a claim presented by C. J. Montag and Sons for extra compensation in the amount of $35,144.71 in connection with State Highway Contract No. 3236 awarded to them for construction of the Tillamook Street-Broadway Bridge Section of the Harbor Drive Expressway in Portland. The Engineer advised that the contractor's claim has been carefully analyzed, and it has been determined that without question the contractor was caused extra expense in the amount of $16,960.00. He explained details and advised that the contractor has agreed to accept payment of such sum as settlement in full of the claim. He recommended approval of such settlementbythe Commission. The Commission approved the recommendation unanimously. (A "Release Agreement" covering the matter was signed by the Commission later in the session.)

Letters were presented from Mr. Tom N. Holland, Mr. and Mrs. W. C. Bryson, and Mr. and Mrs. Gene Burrell, all of Route 5, Eugene, complaining of the condition of the Territorial Highway between places known as Crow and Gillespie Corner and urging improvements at an early date. The Engineer advised that this section of highway is now being maintained in as good condition as is possible considering that it is a gravel surfaced roadway, and that it carries a large volume of traffic, including a large number of logging trucks which hamper maintenance operations severely especially during the summer season. This road in its present condition cannot be maintained satisfactorily for the traffic that uses it, but to improve it to modern standards will cost about $400,000 which sum of money simply is not available at this time. He pointed out that there has been provided tentatively in the Commission's three-year Federal Aid Program an item of $414,000 to surface and pave this section during the calendar year 1955. He recommended such improvement as soon as the funds are available. The Commission approved the report and ordered it filed for future reference.

The Commission approved a report from the Engineer advising satisfaction of conditions governing the awards of the following contracts and also advising that contract and bond forms have been prepared and forwarded to the respective contractors pursuant to the Commission's instructions:

(1) Grading and paving the Depoe Bay-Miner Creek Unit of the Oregon Coast Highway, Lincoln County. Bids received August 18, conditions satisfied October 1, 1952. Funderburk & Stoen Construction Company, low bidder.

(2) Grading and paving the County Farm-Ashland Section of US 99, Jackson County. Bids received August 18, conditions satisfied October 1, 1952. Acme Construction Company, low bidder.

(3) Grading and paving 92d Avenue-Fairview Section of the T. H. Banfield Expressway, East Portland. Bids received August 19, conditions satisfied October 2, 1952. Gibbons & Reed Company, low bidder.

The Engineer requested authority for an expenditure of $900 to install two mercury vapor luminaire units at the truck scales on US 101 at Coaledo, between Coquille and Coos Bay. He explained that the signing of this truck scale has presented a troublesome problem which has been given considerable study by the Traffic Engineering Division, and it appears that regardless of the attention that has been given to the matter, the possibility still exists that the portable signs which are used only when weighmasters are operating the scales will be struck or displaced by motor vehicles, and a complaint has been registered by a member of the Southern Oregon Truckers League. To overcome this difficulty, he said, it has been determined that the operation of scales can be greatly facilitated by the installation of two mercury vapor luminaires at the two points where northbound truck traffic diverges and converges with northbound through traffic. He added that the plan provides for wiring the lights to a separate switch so they will be used only during the hours when the scales are being operated by the weighmasters. He also said that if the Commission approves the expenditure, the installation will be financed with funds available in the 1952 budget. The Commission unanimously authorized the installation as requested.

A letter was presented from Mrs. Brooks Hawley, Baker, Oregon, for immediate improvement of the Sumpter Secondary Highway from the end of the present oiled section near Poker Creek, to the town of Sumpter. Mrs. Hawley alleges that the present road is in a deplorable condition and is conducive of accidents, and she urges that it be given a hard surface treatment. The Engineer advised that the section of highway complained of is 16 miles long and that it has only a light macadam surface which was quite satisfactory until the last two or three years when there was considerable increase in log hauling. He also said that it is impossible to maintain the road in a satisfactory condition because of the log hauling traffic. He estimated the cost to grade, surface, and oil the entire section at about $500,000; however, he pointed out that such an expenditure is not justified by the volume of traffic that uses it, which averages only about 200 vehicles daily. He recommended construction of a light resurfacing project at an estimated cost of $35,000 in order to properly maintain this section as an untreated macadam roadway, the work to be done as a special maintenance project in 1953. The Commission ap-

proved the recommendation.

The Commission discussed briefly and ordered filed for future consideration communications from the Lane County Economic Development Committee and from the Eugene Chamber of Commerce urging early construction of the Clear Lake Road which extends from the McKenzie Highway near Blue River to a connection with the Santiam Highway via Clear Lake, which road was recently recommended by the Commission, the Division Engineer of the Bureau of Public Roads, and the U. S. Regional Forester as an addition to the Forest Highway System.

The Engineer reported that the towns of Maupin and Paisley have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds that accrued to them during the last half of 1951, and that the cities and towns of Culver, Dundee, Cave Junction, Metolius, Nehalem, Ocean Lake, and Paisley have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds that accrued to them during the first half of 1952; also, that the plans for the improvements proposed to be financed with such funds have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolutions relative thereto, marked EXHIBITS "C-1" and "C-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer reported completion of a survey for the permanent location of US 99W (Pacific Highway West) between Monmouth and Orr Corner in Polk County. He exhibited maps showing the proposed location and explained details. He asked the Commission to approve the survey. As a result of discussion, the Commission unanimously approved the survey as reported, by adoption of the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer requested an increase of $15,000 in the project authorization for construction of the Cape Lookout Park Access Road in Tillamook County, State Highway Contract No. 3691. He explained that during the construction of this road an extremely difficult construction problem arose by reason of a swamp area about 2,000 feet long located within the park boundaries. The contractor, he said, has attempted to build a roadway across this swamp with available material but without success, and it appears necessary, in order to obtain a suitable roadway to secure quarry stone from outside sources, the cost of which, he said, is estimated at $15,000. He recommended approval of the increased amount and advised that there are sufficient unused funds in the State Parks Budget for 1952 to take care of the item so no additional financing will be required. The Commission approved the recommendation.

The Commission discussed and approved an agreement with the Southern Pacific Company covering the installation of a flashing signal at the grade crossing of the Orleans-Lebanon County Road with the Southern Pacific

Company tracks one mile north of Tangent in Linn County. The Commission's approval was given with the understanding that the Railroad Company will maintain the signals at its own cost and expense when the installation is completed and that the State's contribution shall be limited to 50 percent of the actual installation cost. (The agreement was signed by the Commission later in the session.)

Consideration was given by the Commission to the following requests for extensions of time within which to complete highway contracts:

1. E. H. Itschner Company, Contract No. 3681 for grading and surfacing the West Cottonwood Grade Section on the Wasco-Heppner Secondary Highway in Sherman County, requested an extension of time of 30 days, from September 30 to October 31, 1952, within which to complete this job. They alleged that they were delayed over a month in starting this job due to difficulties encountered on their Blue River crushing contract so were unable to complete the present job within the specified time limit. The Engineer advised that the contractor was delayed on the Blue River job due to special requirements with respect to blasting which delayed his moving to the West Cottonwood job approximately 30 days. The delay at Blue River, he said, was no fault of the contractor's, for which reason he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

2. Central Paving Company, Contract No. 3722 for grading and paving the Tenth Street Project in the City of Independence, Polk County, requested an extension of time of 30 days, from September 15 to October 15, 1952, within which to complete this project. They stated that water from a farmer's irrigation system delayed the grading; that the City Water Department had difficulty in changing city water mains, and that there was additional delay in getting three telephone poles moved. The Engineer advised that the reasons given by the contractor for overrunning the specified time limit are correct; that the contractor was delayed almost two months by the City's changing its pipe line. The delay, he said, was not the fault of the contractor; accordingly he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

3. G. D. Dennis and Sons, Contract No. 3572 for grading and oil mat surfacing on the Polk County Line-Fir Grove Section of the Independence-Albany County Road in Polk County, requested an extension of time of 90 days, from June 30 to October 1, 1952, within which to complete this job. They stated that they were unable to complete the contract within the specified time limit due to a soft subgrade. The Engineer advised that because there was considerable moisture in the subgrade, it was deemed best to permit traffic to use the grade for a period of time before placing the oil mat surfacing. The overrun in time, he said, was occasioned by the desire of the Department to secure a better subgrade, in view of which he recommended that the extension of time as requested be granted without penalty. A letter from the Bureau of Public Roads concurring in the recom-

mendation was presented. The Commission approved the recommendation.

4. R. A. Heintz Construction Company, Contract No. 3606 for grading and paving the Gilchrist-Willamette Junction Unit of the Lapine-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County, requested an extension of time of 270 days, from September 30, 1952 to June 30, 1953, within which to complete this project. They stated that they had been prevented from completing the contract within the specified time limit by excessive snow which did not permit clearing work to progress as planned; by wet materials in cuts and fills; and by delays in replacing and securing concrete sewer pipe. The Engineer advised that the contractor's operations were materially slowed by unusally deep snow during the fall and winter of 1951, and that due to excessive snow, materials in the cuts were damper than normal, and it was necessary to open and dry out each cut before it could be satisfactorily worked. For these reasons he recommended that the extension of time be granted as requested, without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

5. Parker-Schram Company, Contract No. 3562 for topping and slope protection on the Hood River-Mosier Section of the Columbia River Highway in Hood River and Wasco Counties, requested an extension of time of 183 days from September 30, 1952, to March 31, 1953, within which to complete this project. They alleged they were prevented from completing the contract within the specified time limit by the failure of other contractors working in the same area to provide a roadbed on which to place topping and slope protection material. The Engineer stated that the contractor's progress was dependent upon completion of work by two other contractors in the same area, and that failure of these contractors to complete their projects on time made it impossible for Parker-Schram to complete their portions of the work. As the overrun was not the fault of the contractor, he recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

6. Bechtel Bros., Contract No. 3702, for grading, construction of camping area, building, plumbing and electrical work in Emigrant Springs State Park on the Old Oregon Trail in Umatilla County, requested an extension of time of 76 days from August 31, 1952 to November 15, 1952, within which to complete this job. They stated that shortage of material, particularly heavy copper wire, had prevented completion of the job within the specified time limit. The Engineer stated that the reason given by the contractor for overrunning the specified time limit is correct. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

7. Bechtel Bros., Contract No. 3529, for construction of a maintenance employee's cottage at Flora Junction on the Enterprise-Lewiston Highway in Wallowa County, requested an additional extension of time of

76 days, from August 31 to November 15, 1952, within which to complete this job. They alleged that they were prevented from completing the project within the previously extended time due to the State changing the location of the building site and because of other State construction. The Engineer advised that the site had been changed because of the impracticability of obtaining water at the original site which caused postponement of work until the spring of 1952. For this reason he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

8. Bechtel Bros., Contract No. 3488, for construction of a maintenance building at Flora Junction on the Enterprise-Lewiston Highway in Wallowa County, requested an additional extension of time of 76 days, from August 31 to November 15, 1952, within which to complete this contract. They stated they were prevented from completing the contract within the limits of the previously extended time because of a change in the location of building site, and because of other state construction. The Engineer advised that because of difficulty in obtaining an adequate water supply the building site was moved to an entirely new location. For this reason he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

9. Lindstrom Bros., Inc., Contract No. 3429, for construction of the Weed and Muscott Bridges on the Little Nestucca Secondary Highway in Tillamook County, requested an additional extension of time of 20 days, from August 29 to September 20, 1952, within which to complete this job. They attributed their failure to complete the project within the previously extended time limit to labor difficulties. The Engineer advised that this contract previously was extended three times, the first extension from September 30, 1951 to November 30, 1951, being without penalty; however, the second and third extensions were granted subject to the contractor reimbursing the State for extra engineering costs incurred during those extensions. It was his opinion that the contractor's delay was due almost entirely to lack of attention to the work, and he, therefore, recommended that the fourth extension be granted subject to the same penalty that the contractor reimburse the State for all engineering costs incurred during the time extension. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

10. E. C. Swaggart and Company, Contract No. 3622, for rock production on the Hunter Creek-Lone Ranch Section of the Oregon Coast Highway in Curry County, requested an extension of time of 30 days, from September 30 to October 30, 1952, within which to complete this job. They stated that they planned to start the work on August 1, but were prevented from doing so by an accident that occurred to their equipment while engaged on private work for a lumber company near Blachly whereby material damage was done to their crushing plant. The Engineer advised that the contractor scheduled his operations to start on this job August 1 which would have been ample time to complete the contract within the specified time limit ; however, his plant was damaged by blasting in another quarry, and he was unable to secure necessary repair parts in time to start work as anticipated. As no extra engineering costs were

incurred by the State because of the delay, and no inconvenience was caused the public because of the overrun in time, he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

11. Standard Asphalt Paving Company, Contract No. 3502, for reoiling on the Weston Section of the Weston-Elgin and Oregon-Washington Highways in Umatilla County, requested an extension of time of 314 days, from September 15, 1951, to July 25, 1952, within which to complete this contract. They stated that contractor Oscar Joelson who had the contract to supply the aggregate for this job, did not have the necessary seal rock in stockpile until well into September, 1951, which was too late in the season for oiling so arrangements were made with Mr. W. S. Hodge, the Resident Engineer, to defer such work until the spring of 1952. The Engineer advised that the contractor had been held up by lack of rock, but he had started work in the spring of 1952 as early as the Engineer would allow and completed it expeditiously. The overrun in time, he said, was not the fault of the contractor, wherefore he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

12. Babler and Rogers, Contract No. 3548, for oil mat surfacing on the Nyssa city streets in Malheur County, requested an extension of time of 243 days, from September 30, 1951 to May 30, 1952, within which to complete this job. They alleged that material necessary for this contract was not available until similar material was provided under another contract, No. 3557, (Ontario Paving Project) so both jobs could be completed simultaneously. The Engineer advised that this contract was bid in conjunction with the Ontario paving project, Contract No. 3557, and the contractor had arranged to secure materials for both projects from a private supplier. These materials, he said, were not made available until early in 1952, and both contracts were then completed without delay. As no extra cost had been incurred by the State, he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

13. Grimstad and Vanderveldt, Contract No. 3785 for paving the Astoria Section of the Columbia River Highway in Clatsop County, requested an extension of time of 305 days from September 30, 1952, to July 31, 1953, within which to complete this job. They stated that failure of the Pacific Power and Light Company and The Pacific Telephone and Telegraph Company to move their poles from the right of way delayed the job to such an extent that there was not sufficient time to complete it before bad weather set in. The Engineer stated that the utility companies failed to move their poles in time to permit the contractor to efficiently operate his equipment. He pointed out the project was advertised for bids on two different occasions and that the contract was awarded as a result of the second call; however, the specified completion date in the proposal for the second letting was not extended to allow for the lapse of time between the first and second lettings which

resulted in the contractor being allowed only 41 calendar days within which to complete the project. Since these circumstances were not the fault of the contractor, he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

14. Porter W. Yett, Contract No. 3512, for grading and paving the Bunker Hill-Delmar Section of the Oregon Coast Highway in Coos County, requested an extension of time of 273 days, from September 30, 1952, to June 30, 1953, within which to complete this project. He stated that failure to complete the contract within the specified time limit was due to right of way difficulties, unfavorable weather, and extensive overrun of major contract items. The Engineer advised that all of the work involved was completed within the specified time limit except construction of approaches, shoulders, sidewalks, and miscellaneous cleanup work which cannot be done until next spring. He also said that the contractor was considerably delayed by the failure of the power and telegraph companies to move their lines from the area of operations, and that the close proximity of the Southern Pacific Railroad required many additional items not anticipated in the contract. For these reasons he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

15. Parker-Schram Company, Contract No. 3355, for grading and paving the Brookings-California State Line Section of the Oregon Coast Highway in Curry County, requested an additional extension of time of 100 days, from July 31 to November 8, 1951, within which to complete this work. They stated that the attempted jacking through a fill of a 48-inch corrugated metal culvert pipe, later determined as impractical, a substantial increase in pay quantities and an unusually short working season prevented completion of the contract within the limits of the previously extended time. The Engineer advised that unsuitable weather in the spring of 1951 shortened the working season considerably. The contractor attempted to jack a 48-inch pipe through a heavy fill, but after several attempts it was deemed impractical so the pipe was installed by the open cut method resulting in considerable delay to the contractor as he was unable to operate in the area where the pipe was being placed. In view of these circumstances, he recommended that the additonal extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

16. Porter W. Yett, Contract No. 3783, for paving the Beaverton Section of the Beaverton-Hillsdale Highway in Washington County, requested an extension of time of 10 days, from September 15 to September 25, 1952, within which to complete this contract. He stated that completion of the contract within the specified time limit was prevented by failure of the City of Beaverton to adjust local utilities in connection with the project. The Engineer advised that the contractor was delayed approximately 10 days by failure of the City of Beaverton to adjust local utilities. He also said that the delay did not inconvenience the traveling public and that the State incurred

no additional expense thereby. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

17. Lockyear and White, Inc., Contract No. 3636, for construction of the Shogren Overcrossing on the Columbia River Highway in Wasco County, requested an extension of time of 90 days, from August 31 to December 1, 1952, within which to complete this structure. They stated that they were unable to start construction for 60 days after the contract was awarded because snow and rain made the job inaccessible, and they were further delayed in receiving railroad insurance and by heavy sand storms. The Engineer stated that the start of construction on the project was delayed approximately 60 days because of difficulty in securing access to the work but the contractor worked with diligence after starting. He recommended in view of the circumstances, that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

18. Newport Construction Company, Contract No. 3646, for rock production on the Pendleton Section on four state highways in Umatilla County, requested an extension of time of 60 days, from September 30 to November 30, 1952, within which to complete this project. They alleged that they were late in starting this job because their equipment was tied up at North Dalles on account of Government condemnation of The Dalles toll bridge right of way, and as a result, the job overran the specified time limit. The Engineer advised that the contractor's crushing plant was engaged on two Federal Aid projects, the completion of which had been requested before starting this contract. The State, he said, has been caused no additional expense by reason of the delay, and he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

19. Newport Construction Company, Contract No. 3645, for rock production on the Hermiston Section on four state highways in Umatilla County, requested an extension of time of 45 days from November 1 to December 15, 1952, within which to complete this work. They alleged that completion of the job within the specified time limit was prevented by slow operations of the subcontractor on this job. The Engineer advised that because of the demands of the Department that this contractor complete other projects of greater importance, it was found necessary to subcontract the crushing on this project which was not done until late in the summer. The State, he said, has incurred no additional expense for Engineering supervision, and for that reason, and because the rock will not be needed until next year, he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

20. Warren Northwest Inc., Contract No. 3609, for grading and paving the Forest Boundary-Gilchrist Unit of the Lapine-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County,

requested an extension of time of 60 days, from September 30 to November 30, 1952, within which to complete this contract. They attributed their failure to complete the contract within the specified time limit to unusally wet material in the bottom of excavation cuts, and a late spring which delayed the start of grading operations. The Engineer advised that extremely deep snow during the spring of 1952, together with unusual saturation of materials in the cuts contributed largely to the delay in starting grading operations; however, the contractor, as soon as weather permitted, prosecuted the work very ably and completed most of it within the specified time. In view of the circumstances, he recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

21. C. R. O'Neil, Contract No. 3727, for grading and oil mat surfacing the Middle Unit, Deschutes County Line-Prineville Section of the O'Neil Secondary Highway in Crook County, requested an extension of time of 258 days, from October 15, 1952, to June 30, 1953, within which to complete this work. He stated that he overran the specified time limit because he was unable to start operations until August 10, 1952, due to failure of the power and telephone companies to move their pole line facilities. The Engineer advised that this contract was awarded on May 27, 1952, but the contractor was unable to start operations until mid-August because of power and telephone lines which were in direct conflict with his operations, and as a result it is impossible to perform the oiling this year. He recommended in view thereof that the extension of time, as requested, be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

22. Porter W. Yett, Contract No. 3620, for paving the Quartz Creek-North Plains Unit of the Necanicum Junction-North Plains Section of the Sunset Highway in Washington and Clatsop Counties, requested an extension of time of 273 days, from September 30, 1952 to June 30, 1953, within which to complete this project. He attributed his failure to complete the contract within the specified time limit to unfavorable weather conditions. The Engineer advised that the contractor encountered difficulty in two quarries which he had opened for this job; however, he started paving operations on the North Plains end of the project on June 30, hauling asphaltic concrete from his plant at Beaverton and completed the section to Davies Overcrossing late in July. He then started paving at the Quartz Creek end on August 4, and has been in continuous operation since that time. He added that the contractor's operations have been satisfactory, and the engineering costs have remained commensurate to the work accomplished. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

23. Kuckenberg Construction Company, Contract No. 3507, for rock toe embankment and grading on the East Unit, Hood River-Mosier Section of the Columbia River Highway in Wasco and Hood River Counties, requested an extension of time of 230 days, from February 28 to October 16, 1952, within

which to complete this project. They stated that this contract was bid on February 26, 1951, but they were unable to do any dike construction due to the Railroad Company not having the trestles constructed until after July 15, 1951, also that their operations were curtailed during the winter of 1951-1952 due to severe weather conditions. The Engineer advised that bids for this job were received February 26, 1951, but the contract was not awarded until April 19 because of railroad agreement difficulties; also that the contractor had to suspend operations from June 15, 1951 to July 7, 1951, due to failure of the Railroad Company to construct two underpasses which were necessary to permit the contractor to haul across the road. The total of these delays which were not the fault of the contractor, amount to 75 days. In addition, the contractor's operations were disturbed by the raising of the elevation of Bonneville pool some six feet, necessitating reconstruction of the toe wall. The Bureau of Public Roads, he added, does not feel that the contractor is entitled to an extension of time without penalty beyond the 75 days of actual delay, but in his estimation the full time extension as requested should be allowed due to both the actual delays and the disruptions by reason of the fluctuation of the Bonneville pool level. This will mean that the Bureau of Public Roads will not pay its portion of the engineering costs during the extended period which is a nominal amount. He recommended that the extension of time as requested be granted without penalty notwithstanding the objections of the Bureau of Public Roads. The Commission approved the recommendation.

24. J. C. Compton Company, Contract No. 3497, for grading and paving the Prospect-Union Creek Junction and the Union Creek Junction-Lost Creek Sections of the Crater Lake and West Diamond Lake Highways, in Jackson and Douglas Counties, requested an extension of time of 250 days, from November 30, 1951 to July 31, 1952, within which to complete this job. The contractor stated that all work involved except the production of 6,000 cu. yds. of oil rock in stock piles. was completed prior to the expiration of the specified time limit, and that because of snow conditions such work had to be postponed until spring. The Engineer advised that all grading and paving work on the contract was completed within the specified completion date and that the overrun was required to produce maintenance material in stock pile for future state use. As there was no inconvenience to the traveling public or additional cost to the State, he recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

25. Vernie Jarl, Contract No. 3614 for paving the Big Creek Section of the Columbia River Highway in Clatsop County, requested an extension of time of 30 days, from September 30 to October 30, 1952, within which to complete this contract. He alleged that failure of the grading contractor to finish the grade in time prevented completion of the contract within the specified time limit. The Engineer advised that the overrun in time was actually only three days and was caused by failure of the grading contractor

to complete his section in sufficient time. As the overrun caused no inconvenience to the public or additional expense to the State, he recommended that the three-day extension of time to October 3, 1952, be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

26. Arthur Simonsen and George Borgen, Contract No. 3664, for rock production on the Baker-Huntington Section of the Old Oregon Trail in Baker County, requested an extension of time of 60 days, from October 31 to December 31, 1952, within which to complete this job. They gave as their reason for overrunning the specified time limit that a part of the work was sublet to Newport Construction Company, who, later asked to be relieved of the obligation, so they had to arrange with another subcontractor, H. J. and H. W. Miller, to crush aggregate, but their operations were held up by equipment repairs. The Engineer stated that these contractors are new operators with the State, and the fact that their equipment was not in good condition caused considerable delay waiting for repairs; however, the State has not suffered thereby nor been put to additional cost. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendation of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

In this connection, the Engineer was asked to render a report to the Commission on extensions of time that have been granted during the last two years, which information the Commission desires in connection with studies to determine whether or not contractors have been given sufficient time within which to complete their projects and to determine whether or not contractors have commenced their operations promptly after being awarded contracts.

The Engineer reported that Contracts Nos. 3355, 3367, 3429, 3497, 3502, 3507, 3519, 3537, 3548, 3570, 3572, 3579, 3595, 3626, 3641, 3650, 3665, 3670, 3695, 3708, 3712, 3724, 3742, 3764, and 3769 for construction of State Highway Projects have been completed according to the requirements of the contracts or modifications thereof and that said projects are now ready for acceptance. After due consideration, the Commission, by unanimous vote, accepted said contracts by adoption of the attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer asked the Commission to confirm his action in ordering the removal of the five-ton maximum load limit which was placed on the Little Nestucca Secondary Highway No. 130 between M. P. 5.0 and M. P. 9.4 by resolution dated November 25, 1947. The conditions requiring such reduced load limit,

he said, no longer exist , and he ordered the reduced load limit signs removed on October 8, 1952. The Commission approved the request by adoption of the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also asked the Commission to rescind and cancel its resolution adopted on July 26, 1950 establishing a "NO PARKING ON HIGHWAY SHOULDERS" zone on the Oregon Coast Highway between M. P. 123.20 and M. P. 123.58 north of Ocean Lake, Lincoln County. He explained that the zone was originally established because of a motor car race track that was being operated at this location and when the races were in progress many cars were parked on the highway shoulders, creating a hazardous condition. This race track has now been abandoned so the restriction is no longer needed. The Commission approved the request unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed and upon recommendation of the Engineer denied a petition of 41 people who reside along the Umpqua Highway, requesting the establishment of a reduced speed zone through a small community on this highway about two miles east of Scottsburg. The action was based on the Engineer's report on the subject which revealed that there is only a small amount of roadside culture along this section, that the traffic volume is low, and that a reduced speed restriction would be very difficult to enforce. The Commission did, however, approve the installation of appropriate signs.

The Commission discussed the disposal of portions of the Agate Beach-Newport Section (old Route) of the Oregon Coast Highway in Lincoln County; also the disposal of portions of the East Unit of the Antelope-Clarno Section of the Shaniko-Fossil State Secondary Highway No. 291 in Wasco County; and the disposal of a portion of the Columbia River Highway (old route) between the City of Cascade Locks and a point east of Herman Creek in Hood River County. The Commission unanimously adopted the attached resolutions relative thereto, marked EXHIBITS "H-1", "H-2", and "H-3" which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

There was presented to the Commission for consideration and approval a proposed "Contract for Electrical Service" agreement with the California-Oregon Power Company covering the furnishing of electrical energy to the Highway Department's new remote radio transmitter that is situated on Hog Back Mountain and serves the Klamath Falls radio station. The Commission approved the agreement upon the recommendation of the Engineer. (The agreement was signed by the Commission later in the session.)

A request was presented from numerous residents and businessmen of Eagle Point, Oregon and vicinity, for removal of the barricade that has been erected closing the Crater Lake Highway (old route) at its grade crossing with the Medford Corporation Railway Company's tracks near Eagle Point. The Engineer advised that when the Crater Lake Highway was relocated near Eagle Point in 1946, this grade crossing was closed by orders of the Public Utilities

Commissioner and a new crossing was provided in a much safer place nearby. It appeared to him to be without the province of the Highway Commission to open the old crossing and in any event, he said, it should remain closed in the interests of public safety. He recommended that the request be denied. The Commission approved the recommendation.

The Commission, upon recommendation of the Engineer, approved a request from the U. S. Geological Survey for installation of a stream gauging station on Pier No. 2 of the Willamette River Bridge on the Portland-Salem Expressway at Wilsonville. The Engineer advised that the station is estimated to cost about $1,250 and that the entire amount will be paid by the U. S. Geological Survey but the work will be done by State forces. (An agreement covering the matter was signed by the Commission later in the session.)

Consideration was given by the Commission to a request from Mr. R. C. Albertus, Coquille, Oregon, that he be permitted to purchase some logs that were dumped off logging trucks at Highway Department weighing scales under orders issued by Highway Department Weighmasters. In the discussion of the matter, the question arose whether or not the Commission has legal authority to dispose of the logs in this manner. The Assistant Chief Counsel advised that a search of the statutes reveals no well-defined authority for the Commission to sell the logs. He suggested that the legislative assembly which meets in 1953 be requested to clarify the matter so that in cases where logs are dumped on the Highway right of way and the owners do not remove them within a reasonable length of time, that the logs then become the property of the State for disposal by sale or in any other manner that the Commission sees fit. In view of this advice, the Commission decided not to sell to Mr. Albertus the logs under discussion. The Counsel was instructed to prepare an appropriate bill along the lines suggested for presentation to the legislature through the Legislative Highway Interim Committee.

The Engineer reported a list of ten Highway Department employees who will be affected by the Public Employees Retirement Act during the first quarter of 1953, eight of whom previously have received retirement extensions. He recommended that nine of these employees be retained in service for one additional year and that the tenth be retired on his effective retirement date. The Commission approved the recommendation unanimously. (For list of the employees affected, see copy of Engineer's written report on the subject dated October 21, 1952, directed to the Oregon State Highway Commission, in the General Files.)

The Engineer reported that Jackson County has filed a petition with the Public Utilities Commissioner for authority to install a county road crossing at grade with the tracks of Southern Pacific Company at a point approximately two miles North of Medford, which crossing necessarily will involve an entrance on the westerly side of the Pacific Highway. He pointed out that this section of the Highway has been declared to be a throughway, and that under the provisions of the Throughway Act, it will be necessary that the State Highway Commission give its consent to the intersection of the county road with the highway before such entrance may be made. After consideration, the State Highway Commission decided that a permit will be issued for such intersection provided the plans and specifications therefor are approved by the State Highway Engineer.

The Engineer discussed with the Commission a request from the Community of Lakeside, Coos County, for a road connection from Lakeside to the newly constructed Oregon Coast Highway approximately one mile north of Lakeside. He exhibited a map showing the proposed roadway and advised that the desired access point is in a good location with excellent sight-distance in each direction so would not create a hazardous condition. He recalled that the new highway is being built with restricted access but he pointed out that the access now requested is for a community and not an individual, so, in his estimation, it would appear in order to grant the access which will afford a loop road through Lakeside from the new highway. The Commission deferred a decision in the matter pending additional information from the Engineer who was instructed to report such information at the next meeting of the Commission.

The Commission unanimously approved out-of-state travel expenses for the following Highway Department employees:

(1) Mr. G. S. Paxson to attend a meeting on recent developments in prestressed concrete at the University of California at Los Angeles on November 14 and 15, 1952. Estimated cost $120.00.

(2) Carl W. Jordan, Director, Travel Department, to attend annual convention of National Association of Travel Organizations in San Diego, California, during November 16 - 19, 1952. Estimated cost $169.00.

(3) George C. Hester to attend the American Reciprocity Workshop Conference, sponsored by the American Association of Motor Vehicle Administrators, in Chicago during November 12 - 14, 1952. Estimated cost $275.00.

The Commission discussed a resolution adopted by North Lincoln Grange No. 861 and endorsed by Lincoln Pomona Grange at Nashville, Oregon, on September 13, 1952, in which resolution the Highway Commission is requested to supply more adequate garbage disposal facilities at convenient locations along state Highways as an aid in keeping highways clean. The Engineer advised that the Highway Department is now maintaining approximately twenty-two receptacles along the Oregon Coast Highway at convenient locations for public use, some of which are in good condition and others in need of repainting. Investigation reveals, he said, that receptacles are needed in about ten other locations where motorists stop for short rests or for luncheon. He advised that he has ordered the reconditioning of existing receptacles and the installation of the ten new ones; moreover, he intends to have another inspection made of the highways to determine whether or not the additional service to the public is warranted from the standpoint of cost, and when sufficient information has been gathered, the results will be reported to the Commission. The Commission approved the report, and instructed the Engineer to investigate the desirability of furnishing such receptacles at other locations, such as stockpile sites, etc.

Consideration was given by the Commission to damage claims as follows:

(1) Claim of R. L. Weiher, McMinnville, in the amount of $16.25, for damage to his car when it was being moved by an employee of the State Highway Department preparatory to reoiling work by a Highway Department crew.

(2) Claim of Ralph Williams, Newberg, for damage to his car during operations of a Highway Department paving crew.

The Engineer recommended payment of the full amount of the claim of Mr. Weiher. As to Mr. Williams' claim, he recommended payment of the actual cost of removing the road oil from his car, but in no event is such payment to be more than $20. The Commission approved both recommendations.

The Engineer brought to the Commission's attention the need for the Commission to formerly reroute the Tualatin Valley Highway through the City of Forest Grove in harmony with the new highway construction at that place. As a result of discussion, the Commission unanimously adopted the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission unanimously approved the Secretary's report disclosing papers that he signed in behalf of the Commission during the period September 19 through October 15, 1952, inclusive.

Consideration was given by the Commission to matters of unfinished business appearing on the Secretary's Summary, dated September 23, 1952. The following action was taken on the several items:

(1) Proposed rerouting of US 99W highway through McMinnville: The Engineer presented a written report on this subject, dated October 17, 1952, disclosing factual information concerning a proposed bypass route and including additional information concerning a one-way street system which heretofore was proposed to care for US 99W traffic through this city; He pointed out that an economic analysis shows that the one-way street plan will give a benefit factor of 1.97 in comparison with a benefit factor of 0.89 for the by-pass route. He gave as his considered opinion that the project of first importance is the one-way street plan whereby northbound highway traffic will be routed along Baker Street (present route of this highway) and southbound traffic will be routed along Adams Street which is one block west of Baker Street, and he suggested that it would be advisable to make provision now to construct such one-way street couplet so when the Commission is ready to construct the project, there will be no right of way difficulties to interfere. The Engineer estimated the cost to construct the by-pass route at $613,000 including $200,000 for right of way, and the cost to construct the one-way couplet at $390,000 including $175,000 for right of way. He recommended adoption of the one-way street couplet and that the Right of Way Department be authorized to negotiate right of way options along such route. Chairman Chandler pointed out that there are no funds presently available to finance this project, and he gave as his feeling that the project of most importance in McMinnville is construction of a new bridge across Cozine Creek in order to relieve the traffic congestion on this structure; however, he said that he would have no objection to acquiring right of way as suggested by the

Engineer if there were funds to finance it. He declared himself not in favor of committing $390,000 to construct the one-way street couplet under present circumstances. The matter was discussed some length, but action in the matter was deferred by the Commission until its next meeting. The Engineer was instructed to report at that time further details with respect to the right of way situation. The Secretary was instructed to retain this item on the list of unfinished business. (The Commission discussed this matter on the following day at a breakfast meeting with a group of businessmen from the City of McMinnville at which time the Right of Way Engineer and the Chief Counsel were instructed to consult with members of the group in McMinnville at a convenient time in the near future in regards to right of way matters and to report back to the Commission.)

(2) Proposed use of the triangular area included in the "Wye" connection formed by the intersection of the Merrill-Malin and Klamath Falls-Lakeview highways about four miles east of Klamath Falls: The Engineer advised that his report on this subject is not yet ready to render. The Commission ordered the item retained on the list of unfinished business.

(3) Request of City of Coos Bay for lease rights on excess right of way of the Oregon Coast Highway along the waterfront in the City of Coos Bay: The Right of Way Engineer advised that negotiations with the City are still underway so he has nothing to report at this time. Chairman Chandler recalled that the City at one time agreed to purchase this surplus property at the same rate the State paid for it, and that he knows of no reason why the Highway Commission should deviate from that arrangement now. The Right of Way Engineer was instructed to bear this in mind in his negotiations with the City. This item is to be retained on the list of unfinished business.

(4) Request of Fossil Community Club for the widening of narrow places on the Butte Creek-Summit Section of the John Day Highway: The Engineer advised that his report on the subject is not yet ready to present. The Commission ordered this item retained on the list of unfinished business.

(5) Report on status of acquisition of right of way needed for the T. H. Banfield Expressway in Portland: The Right of Way Engineer reported on this matter earlier in the session, and in view thereof, the Commission ordered the item deleted from the list.

(6) Purchase of land from M. Edward Hunsperger at the intersection of Union Avenue and Denver Avenue in North Portland: The Right of Way Engineer advised that he is negotiating the purchase of this property but is not yet in position to make a report. The Commission ordered the item deleted from the list of unfinished business with the understanding that if it again arises, it will be considered as new business.

(7) Suggestion of the Chief Counsel for correcting problems presented by verdicts in condemnation actions: Due to the absence of the Chief Counsel at this meeting, the Commission ordered the item retained on the list of unfinished business pending his return.

(8) Request of the citizens of the City of Tillamook for sidewalk construction along the Wilsonville Highway just east of the Tillamook City limits: The Engineer advised that his report on the subject is not ready to present. The Commission ordered the item retained on the list of unfinished business.

(9) Question of improving the Umatilla Bridge on ORE 207 southwest of Hermiston: The Engineer's report on this subject was rendered earlier in the session, in view of which, the Commission ordered the item deleted from the list of unfinished business.

(10) Protest of Mr. Joseph A. Minott and the Misses Caroline W. and M. Louise Flanders, Portland, regarding establishment of overnight camping at Ecola State Park: The Parks Superintendent reported on this subject earlier in the session. The Commission ordered the item deleted from the list of unfinished business.

(11) Request of the City of Brookings for establishment of a uniform width right of way in the north part of the City as an accommodation to business development: The Engineer advised that his report on this subject is not yet ready to present. The Commission ordered the item retained on the list of unfinished business.

(12) Request of West Side Highway Association for improvements to US 99W and connecting secondary highways between Monmouth and Dayton Junction: The Engineer's report on the subject was rendered earlier in the session. The Commission ordered the item deleted from the list of unfinished business.

(13) Request of Union Commercial Club that signs be erected at each end of the new Ladd Canyon Section of US 30 giving directions and mileage to the towns along the old highway route: The Engineer advised that existing signs at each end of this highway section are in conformity with the standards adopted by the American Association of State Highway Officials, and that it has been the Highway Commission's practice in the past to follow the recommendation of that Association. He recommended continuation of the Commission's past policy in that regard and that the request of the Union Commercial Club be denied. The Commission approved the recommendation and ordered the item deleted from the list of unfinished business.

(14) Report concerning a dangerous condition that exists on the Medical Springs State Secondary in the town of Medical Springs: The Engineer advised that he is not prepared to make a final report on this subject, but from information received from the field, indications are that the situation can be improved by replacing existing curve signs with oversize "Slow" and "Curve" signs and by removing a small flat area near the mid-point of the curve which because of the narrowness of the pavement, might be enough to cause an accident. The Commission approved the report and ordered the item deleted from the list of unfinished business.

The Commission had under discussion the setting of dates for its next two regular meetings. The Commission confirmed Monday and Tuesday, November 24 and 25, 1952, heretofore set for its meeting in November, and decided to hold

the next following meeting on Thursday and Friday, January 15 and 16, 1953, The Secretary was instructed to make the usual arrangements to hold these meetings in the Green Room of the Imperial Hotel in Portland.

The Engineer reported on a request received from residents of Umatilla County, Oregon, and from Walla Walla, Washington, for improvement of the State Line Road which connects the old state highway and the new state highway about six miles north of the City of Milton-Freewater, Oregon. He advised that this matter has been investigated, and it has been found that the existing road lies within the State of Washington but that the ditch on the south side of the road and possibly a minor portion of the roadway, lie within the State of Oregon. To obtain a uniform sixty-foot right of way, he said, will require the acquisition of a twenty-foot strip of land on the Oregon side which is estimated to cost about $8,600. The cost to construct the road to state secondary highway standards, he estimated at about $20,400, making a total cost of $29,000. It was his considered opinion that the State of Oregon should take no part in the improvement of this road since it is not on the Oregon Highway System and because there are several other east and west roads connecting these two highways, and he so recommended. The Commission approved the recommendation unanimously.

The Commission discussed and, upon recommendation of the Engineer, unanimously approved an agreement with the City of Salem providing for a cooperative traffic signal installation at three street intersections and for an interconnecting signal arrangement. In the discussion of the matter, the Commission was informed that the project was authorized on September 28, 1950, also that the City's share of the cost, amounting to $10,330, has been received. (The agreement was signed by the Commission later in the session.)

The Commission also approved an agreement with the City of Portland covering additions, deletions, etc., to the State Highway System within the City as previously authorized by the Commission on May 26, 1952. (An agreement was signed by the Commission later in the session.)

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

Mr. John A. Laing, Chairman, and Mr. George Henderson, Member of the Highway Department's Advisory Committee on travel matters appeared before the Commission regarding the 1953 budget for the Travel Information Division; also present was Mr. Carl Jordan, Director of the Travel Information Division. Mr. Laing asked the Commission to approve a budget item in the amount of $274,711.04. He explained that this budget amount is the result of extended discussion and action by the Advisory Committee at its meeting in Portland on October 3, when it was unanimously decided that increased costs of the magazine and newspaper space required for adequate presentation of Oregon's invitations to traveling motorists, and other cost increases would necessitate a minimum overall budget for 1953 at least 10 percent higher than that authorized for 1952. The Committee, he said, is firmly convinced that Oregon's modest annual investments in travel promotion are being many times returned in increased motor travel from other states, and in the income the State derives from this business, including the revenues from gasoline

taxes. He presented a copy of the proposed budget containing details, a recapitulation of which is as follows:

PROPOSED BUDGET FOR 1953

RECAPITULATION -- ITEMS A, B & C

ITEM A:	
Printing (Booklets & Maps)	$23,750.00
Photographic Department	9,500.00
Miscellaneous Auxiliary Promotion	5,750.00
General Office	8,740.00
Salaries	26,998.00
TOTAL -- Item A	74,738.00
ITEM B:	
Magazine Space	123,409.60
ITEM C:	
Newspaper Space	59,563.44
Art and Production	13,500.00
Contingency Fund	3,500.00
GRAND TOTAL	$274,711.04

Mr. Laing asked the Commission to approve the budget as prepared, advising that in their opinion the amount thereof is the minimum that will produce desired results. The Commission discussed the matter at some length during which Chairman Chandler complimented the Advisory Committee on its record and expressed appreciation for the service that the members thereof have voluntarily rendered. The Highway Commission, he said, is inclined to approve the full amount of the budget as proposed; however, he explained, any budget amount that the Commission may approve today will be predicated on favorable action bythe people at the polls on November 4, 1952. Unless the people express themselves favorably on the highway measures that are on the ballot at that time, he said, the Highway Commission will not have money available to finance many of the things it has in mind, and he mentioned particularly that highway construction and maintenance will have to be greatly curtailed in that event. The members of the Commission, he said, have discussed this matter and are willing to approve the budget in the total amount requested on the condition that the Advisory Committee and the Travel Department will not enter into any contracts or agreements on the surmise that the full amount of the budget will be made available to them, and the members of the Commission will approve the budget on such basis. Commissioners Reynolds

and McIver expressed themselves similarly. Mr. Laing indicated his approval of the Commission's decision. This concluded the conference. (For details of the Travel Department Budget, see copy of the budget filed in the Secretary's Office under the heading "Highway Department's Budgets 1953".)

The Engineer presented for the Commission's consideration a written report on his studies of a proposed truck route in the City of La Grande. He pointed out that the report covers two alternate proposals, one being the utilization of Hemlock Street from Adams Street to Jefferson Street, Jefferson Street from Hemlock Street to Fourth Street with a continuation on Jefferson Street connecting with US 30 near the west city limits of La Grande, the other being utilization of Greenwood Street from Adams Street to Jefferson Street, Jefferson Street from Greenwood Street to Second Street, Second Street from Jefferson Street back to Adams Street. The first mentioned alternate, he said, is estimated to cost about $111,800, including $23,000 for traffic signals which have already been contracted. In other words, it will cost about $88,800 to complete this alternate. He estimated the cost to construct the other alternate at about $64,000 which amount includes $23,000 for traffic signals which already have been provided for, leaving a net balance to complete this route of $41,000. He suggested the adoption of the second alternate which, he said, will serve satisfactorily for a number of years. Commissioner Reynolds suggested a decision in this matter should be deferred until the new traffic signals and the parallel parking arrangement have been given a fair trial and the need for the truck route has been definitely determined. The Commission approved the suggestion unanimously. The Commission ordered that the City of La Grande be informed that the second alternate mentioned by the Engineer appears to be satisfactory, but the Commission is not in position to finance it at the present time; moreover, the Commission wants to see how the traffic signals and the parallel parking scheme function before proceeding further with the establishment of the truck route.

The Engineer reported receipt of a telephonic inquiry from the District Attorney of Wasco County, Mr. Donald E. Heisler, as to whether or not the State Highway Commission will grant Wasco County an easement for construction of a structure over the Columbia River Highway as an approach to the bridge the county is constructing across the Columbia River east of The Dalles, and will permit this approach roadway to be connected with the Columbia River Highway at this point. It appears that the county has received a satisfactory bid for construction of the bridge, but cannot sell necessary additional bonds to finance it unless the State Highway Commission will authorize the overhead structure and the connection to the highway. He recommended approval of both requests. The Commission unanimously approved the granting of the easement for the overcrossing and a permit to connect the bridge approach to the highway on the condition that the entire cost of constructing the overcross and the connection will be paid by Wasco County and that the State will not be requested to contribute towards that expense. The matter is to be covered by written agreement between the State and the County.

Commissioner Reynolds brought up for discussion a dangerous condition existing on the Island City - La Grande County Road where it crosses the main line tracks of the Union Pacific Company at grade. He suggested that a "STOP" sign on the north side of this crossing would be helpful. The Engineer advised that he would see that such sign is erected at once.

Commissioner Reynolds inquired as to the status of the survey for the Little Sheep Creek Highway improvement northeasterly from the town of Joseph in Wallowa County. He was informed by the Engineer that a location survey has not as yet been made but the plan is to conduct it along the reconnaissance survey alignment which will not coincide exactly with the wishes of the local people but is the proper location for the highway. He was instructed by the Commission to complete the survey as soon as possible; the Right of Way Engineer was instructed to expedite acquisition of needed right of way.

The Commission discussed briefly the reports that appear weekly in newspapers of the State pointing out travel conditions of state highways. Commissioner Reynolds gave as his feeling that the reports as published, are rather discouraging to highway travel, and that the State is receiving adverse publicity. It was his feeling that the reports possibly could be toned down somewhat. The Engineer advised that the reports contain factual information that the public wants, and, in his estimation, if the facts are not given, the Highway Department would be subject to criticism. The Commission took no action in the matter.

Consideration was given by the Commission to the budget prepared by the State Parks Superintendent covering proposed state park expenditures during the calendar year 1953. As a result of careful consideration, the Commission unanimously approved in principle the budget as presented except an item of $8,135 for betterment work in a proposed park at Bandon Beach, and an item of $5,000 for construction of a roadway in Devil's Elbow State Park. It was understood that the contracting of individual projects, and purchases, are to be given specific approval by the Commission before expenditures are made for those items. It was also understood that the Commission's approval of this budget is conditioned on the people of the State taking favorable action on certain measures that are to appear on the ballot at the coming general election on November 4, 1952. There follows a summary of the budget as conditionally approved:

STATE PARKS DIVISION

Proposed Budget - 1953

CAPITAL OUTLAY

Survey for Parks	$ 27,000	
Purchase of Real Property	50,000	
Construction and Betterment of Parks	350,000 *	
Purchase of Equipment - Field	6,000	
Purchase of Equipment - Office	2,000	
Road Construction and Betterment	125,000 *	
Total Capital Outlay		$560,000 *

October 20, 1952

OPERATION

Administration and General Supervision	$ 97,000	
Park Operation and Maintenance	330,000	
Maintenance of roads and parking areas	27,000	
Total Operation Cost		$454,000
GRAND TOTAL PARK BUDGET		$1,014,000 *

* Deduct $8,135 from Betterment items (Bandon) and $5,000 from Park Roadway items (Devil's Elbow).

(For details of the Parks Budget, see copy of the budget filed in the Secretary's Office under the heading "Highway Department's Budgets 1953".)

The Commission also had under discussion a proposed general working budget for the calendar year 1953 as prepared by the State Highway Engineer. Total amount of the budget as submitted is $73,041,000 and provides for expenditures totaling $61,661,000. The Engineer advised that this budget is based on favorable action by the people at the polls on November 4, 1952. The Commission deferred action on this budget until its next meeting in November.

The Right of Way Engineer requested instructions in regard to the acquisition of myrtle tree tracts along the Umpqua Highway near Scottsburg. He recalled that the Commission at its last meeting decided not to acquire these tracts because the property owners who are willing to give options demand exorbitant prices, and others are not willing to dispose of their properties at all, and it appeared necessary to condemn the properties if the Commission wanted them. Such information, he said, was conveyed to Mr. M. L. Merritt, President of Save the Myrtlewoods, Inc., who now wants the matter held open and the options retained pending further negotiations. It was the feeling of the Commission, as expressed by Chairman Chandler, that this matter was definitely disposed of at the last meeting of the Commission and that it should not be reopened.

The Commission discussed briefly a proposed five year program for bond funds and for Federal Aid Funds as submitted by the State Highway Engineer. Action in this matter was deferred by the Commission until its next meeting.

The Commission discussed, approved, and signed agreements, etc., as follows:

Agreement with Soil Conservation Service covering the planting of Holland Beach Grass and Scotch Broom at Cape Lookout State Park.

Indentures of Access re change of access point on Barkley Springs-Algoma Section of US 97 with Messrs. Hagelstein and Ketsdever.

Agreement with Southern Pacific Company re installation of flashing signals at grade crossing of Orleans-Lebanon County Road and Southern Pacific tracks.

Contract for Electrical Service Agreement with California-Oregon Power Company re furnishing of electrical energy for radio transmitter at Hog Back Mountain.

Agreement with U. S. Geological Survey re installation of a stream gauging station on Pier No. 2 of Willamette River Bridge at Wilsonville.

Bargain and Sale Deed with R. B Rands re conveyance of property on the Boardman-Irrigon Section of Columbia River Highway. (Authorized August 19, 1952.)

Bargain and Sale Deed with Edward A. and Alice Peterson re conveyance of property on the Lapine-Diamond Lake Junction Section of The Dalles-California Highway. (Authorized July 10, 1952.)

Agreement with City of Salem covering installation of traffic signals at three additional highway street intersections and providing for interconnecting signal system. (Authorized September 28, 1950.)

Agreement with Union Pacific Railroad Company disposing of Company and State claims arising out of slides on the Mosier-Moffitt Section of the Columbia River Highway. (Authorized August 18, 1952.)

Resolution permanently naming "Ecola State Park" in Clatsop County.

Agreement with City of Portland covering additions, deletion, etc., to the State Highway System within the City.

Release Agreement with C. J. Montag & Sons re settlement of any and all claims in connection with and arising out of Contract No. 3236.

Agreement with Southern Pacific Company with reference to the installation of flashing light signal at M. P. 756.7 near Oregon City on the Cascade Secondary Highway.

Option for purchase of land to U. S. Army Engineers of a gravel pit located on the Willamette Highway near Dexter.

Agreement with Irene Wiggins, Leland Wiggins, and Robert Wiggins covering the boat concession at Wallowa Lake State Park, for a period of five years commencing April 1, 1952 and expiring January 1, 1957.

Resolution with Washington County and the City of Forest Grove with respect to the rerouting of the Tualatin Valley Highway through the City of Forest Grove.

The meeting adjourned at 4:30 p.m. to reconvene at 9:00 a.m. the following day in the same room.

October 20, 1952

Portland, Oregon
October 21, 1952

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotal with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
F. A. Miller, Assistant Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Bids for highway construction were opened and read aloud by the Secretary in conformity with previously published notice, at the conclusion of which it was announced that the awarding of contracts would be made at 4:00 p.m. in the same room:

General Construction Co., Portland	105,801.50
Fred H. Slate Co., Oreg. Ltd., Portland	111,709.50

The Engineer brought up for discussion a request from Mr. Ralph Williams, Portland, for permission to maintain a neon sign partially on right of way of US 101 about two miles north of Gearhart, pointing to a community named Surfpine . He said that the existing sign is an illegal one which the owners are reluctant to remove, alleging that they were, at one time, authorized by a highway department employee to maintain the sign in its present location. Mr. Williams, he said, has requested the privilege of discussing the matter with the Commission at this meeting and will be present later in the session. He recommended removal of the sign and that it be replaced with a standard highway department direction sign which, in his estimation, would serve the purpose. He mentioned that the sign is located on the east side of the highway, twenty-seven feet from the highwav center line,and encroaches about thirteen feet on the highway right of way, also, that it points to the community of Surfpine which is situate near the ocean beach on the west side of the highway. The Commission deferred action in the matter pending appearance of the delegation. (See ahead for additional paragraph.)

Chairman Chandler reported for the record a breakfast meeting with a group of businessmen from McMinnville, including Eugene E. Marsh, State Senator, and Mr. Roy Waggoner, City Engineer, regarding either a one-way

street couplet routing for US 99W traffic through McMinnville using Baker Street and Adams Street, or construction of a two-way by-pass route. This group, he said, offered a proposal that might save the State considerable expense in the acquisition of right of way, and he suggested that it would be advisable to have the Chief Counsel and the Right of Way Engineer consult with the group in McMinnville with regard to the plan, notwithsatnding that it will be two, three, or more years before the Commission would be in position to construct the project. Commissioners Reynolds and McIver indicated their approval of this suggestion, and it was so ordered.

A delegation comprised of Messrs. Ralph Williams, Barney Lucas, and _____ Hazeltine were present regarding a large neon sign located partially on the right of way of US 101 about two miles north of Gearhart, pointing to the community of Surfpine. Mr. Lucas headed the group. He explained that the community of Surfpine is located on the coast some distance from the highway and that it is served by only one roadway leading from the highway. The highway at this point of connection, he said, is a straight of way about three miles long, and the point of connection is in a rather deep cut and cannot be readily seen by traffic which passes the point at high speeds making it hazardous for anyone to enter the highway from the road, particularly at night time. He mentioned that log truck traffic is especially bad. He explained that the existing sign encroaches on the highway right of way one foot but overhangs the highway several feet more. He also said they have been trying to solve their problem and would have placed their sign on private property west o. the highway but the owner emphatically denied the use of his property for such purpose. Mr. Lucas pointed out that at the present time, nine families live in the Surfpine development area, all of whom are obliged to enter the highway at this point. He presented pictures showing the conditions existing at the intersection, and he suggested that a "blinker" light installation at this place would serve the purpose. Mr. Williams mentioned that people residing in this community are on almost a permanent basis; that the intersection is a school bus stop. He declared that some type of a marker is essential, especially at night time in order to eliminate the hazard of fast traffic. Mr. Hazeltine expressed concurrency in the remarks of the other speakers and suggested installation of a "blinker" light at the intersection. Chairman Chandler advised that the Commission is definitely concerned with the traffic hazard which the pictures indicate actually exists at this point, and the matter will be investigated by the Engineer to determine whether or not some plan can be worked out to eliminate it and still comply with the provisions of the statutes relating to signs. The Engineer was thereupon instructed by the Commission to make such investigation and report his findings.

A group representing the West Side Highway Association headed by Mr. Floyd Willert, Vice President, Dayton, Oregon, was present and urged improvements to the Pacific Highway West (US 99W), Three Mile Lane Secondary Highway, and the Amity-Dayton Secondary Highway, between Dayton Junction and Junction City. There were twenty-six in the group including the following besides Mr. Willert: P. E. Meeker, President, Don Jones, Secretary, and Glen Watts, Member, all of Amity; John Pfaff and George Lindahl, Members,of Independence; Vance Taylor, Vice President, and S. R. G. Rodriguez, both of Corvallis; Dave Ellis, Harry Sherman, Earle Coburn, Carl Francis, and J. S. Imlah, all of Dayton; John Keizur

W. E. Gearin, C. P. Pearson, Herman Wilke, Wm. Chamberlain, Joe Yackey, Mel Inloes, Chet Windsor, Mel Dunston, John Wanner, Carl Butler, Paul Abner, and W. S. Wallace, all of Newberg. Mr. Willert prefaced his remarks by stating that this highway which was constructed in 1919 and the early 1920's, was considered an excellent highway for traffic requirements at that time; however, it has become outmoded by population growth, heavier traffic, larger vehicles, tourist traffic, truck hauling of logs, and other developments so that it no longer is capable of caring for traffic needs, in fact its condition is hazardous to the motoring public and constitutes a bottleneck in the highway system. He also said that their group has no criticism to offer with respect to other projects which the Commission has under construction or which it is considering for future construction programs, and that they have full confidence in the judgment of the Highway Commission to do what is right and fair to all concerned; moreover, they are not attempting in any way to tell the Commission what it should do or how to do it because they realize that such matters involve technicalities and policies which only the Commission and the Engineers are prepared to handle. He read aloud and presented to the Commission a program of improvements suggested for this highway between Dayton Junction on the north and Junction City on the south via Three Mile Lane and Amity-Dayton State Secondary Highways, including the following: Improvements at the railroad crossing near Dayton Junction. This, he said, has been the scene of fatal and many near fatal accidents due to lack of warning signs, signals, and poor visibility at night time. Replacement of the bridge at Dayton. He pointed out that the existing bridge is very narrow and accomodates only one-way traffic, and that accidents have frequently occurred on it in the past; however, conditions have somewhat improved since the Highway Department installed a signal on this structure. Between Dayton Junction and a point two miles south of Dayton, he said, the pavement is in poor condition, being narrow and broken. He also mentioned two sharp curves on the Amity-Dayton Highway which should be "eased off". Mr. Willert also mentioned the bridge on US 99W near the south limits of Amity, which bridge, he said, is narrow and constitutes a bottleneck and should be widened, particularly because it is on a curve and visibility is poor. He also mentioned a narrow culvert at Ash Swale. He particularly urged improvements at the railroad grade crossing at Homes Gap where the highway contains two sharp curves at the railroad crossing. He alleged that this point is a veritable death trap because there is a downhill grade to the crossing from each direction. South of these two curves, he said, the highway is narrow and goes over hills and through hollows which should be eliminated. The highway south of Homes Gap and on into Junction City, he said, is entirely too narrow to safely take care of the traffic that uses it, especially large freight trucks and school busses. He suggested that the widening of the highway a foot or two in each side of the existing pavement would be helpful. Mr. Willert gave as his understanding that the Commission is committed to the improvement of US 99W between Monmouth and Rickreall, and he expressed appreciation for such improvement. He also expressed appreciation for the improvements that are being made on the Territorial Secondary Highway south of the Town of Monroe. In concluding his remarks, he gave as his feeling that the improvements suggested can be accomplished with a nominal expenditure of funds, and he declared that the expenditure of such funds is warranted because it will eliminate death traps, dangerous hazards, and traffic bottlenecks for all time and will also relieve the traffic

congestion that now obtains on US 99E north of Junction City in that much of the traffic that presently uses US 99E will travel on US 99W. He requested an expression from the Commission as to its attitude with respect to the projects as outlined when a study has been made of them. He then asked others in his group to augment his remarks, but none responded. Speaking for the Commission, Chairman Chandler stated that the Commission is glad to know what improvements the Association has in mind and will bear the several projects in mind in arranging future highway programs. He gave as his feeling that some of the crucial projects will be given special attention by the Commission, but, he said, the Commission can make no definite plans for the commitment of funds until after the election of November 4, 1952, because, unless the people of the State vote favorably on certain measures that are on the ballot, the Highway Department will have very little, if any, funds for new construction. This concluded the conference.

The meeting recessed at 11:00 a.m. and reconvened at 4:00 p.m. with all of the Commissioners, the State Highway Engineer, First and Second Assistant State Highway Engineers, and the Secretary present.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4:00 p.m., Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's action being unanimous:

"Construction of the Beaverton-Aurora Road Undercrossing on the West Portland-Hubbard Highway near Wilsonville, Clackamas County: Of the nine bids received for this work, J. F. Johnston, Sherwood, was the low bidder in the amount of $43,675.00. The contract has been awarded to J. F. Johnston at his bid price.

"Construction of a maintenance building in Seaside, Clatsop County: The Commission received five bids for this work, the low one being that of J. E. Jeremiah, Portland, at $10,792.76. The contract has been awarded to the low bidder at his bid price.

"Construction of concrete structures on the Rock Point-Blackwell Hill Section of the Pacific Highway, Jackson County: Ausland & Dodson, Grants Pass, submitted the low bid for this work at $62,714.00. Six higher bids were received. The Commission has awarded the contract to the low bidder, Ausland & Dodson, at their bid price.

"Construction of automatic traffic control signals, installation of mercury-vapor street lights and illuminated signs at Twelfth Street connection to the Pacific Highway East, south of Salem, Marion County: No bids were submitted for this project.

"Installation of automatic traffic control signals at twelve street intersections in the City of Salem, Marion County: Only one bid was received for this work, being that of Electric Corporation, Salem, in the amount of $15,182.00. The contract has been awarded to Electric Corporation at its bid price.

"Construction of a masonry block maintenance building in the City of Heppner, Morrow County: Four bids were received for this work, the low one being that of Swendig &

Son, Redmond, at $18,510.00. The Commission has awarded the contract to the low bidder at its bid price.

"Construction of twin reinforced concrete grade separation structures to carry the T. H. Banfield Expressway over 122d Avenue, Multnomah County: Erick Enquist, Troutdale, submitted the low bid for this work in the amount of $42,220.00. Ten higher bids were received. Erick Enquist, the low bidder, has been awarded the contract by the Commission.

"Construction of a sand storage shed at M. P. 32.48 near the Washington County Line on the Wilson River Highway, Tillamook County: The Commission received four bids for this work, the low one being that of Johnston & Bryant, Newberg, at $5,864.00. The contract has been awarded to the low bidder at its bid price.

"Construction of a frame shed with concrete footings at The Dalles, Wasco County, to be used as a State Highway sand shed: Of the four bids received for this work, Gilbert Roberts, Hood River, submitted the low bid at $6,666.00. The Commission has awarded the contract to the low bidder, Gilbert Roberts, at his bid price.

"Construction of the St. Joseph Undercrossing Unit of the Lafayette-North Yamhill River Section of the Pacific Highway West, Yamhill County: Only three bids were received for this work, the low one being that of C. J. Eldon, Portland, at $103,322.50. The contract has been awarded to the low bidder at his bid price."

The Commission discussed and upon recommendation of the Engineer unanimously approved and signed agreements as follows with the Southern Pacific Company:

(1) Indenture covering grant of easement for improvement of the channel of Cabin Creek and placing riprap on railroad property between the towns of Oakland and Isadore, Douglas County.

(2) Easement agreement concerning construction of St. Joseph Undercrossing on the Pacific Highway, West, in Yamhill County.

The Engineer presented requests from the Associated Forest Industries, Mr. Charles Ogle, Manager, and from the Columbia Basin Sawmills, Mr. E. D. Crosby, Manager, that the Highway Commission authorize the truck-hauling of logs over state highways during Armistice Day, November 11, 1952, in order to help operators catch up on their log deliveries which were closed down until recently because of adverse weather conditions. He recommended approval of the request. The Commission approved the recommendation unanimously and ordered that the concession be made state wide. The Secretary was instructed to inform the Public Utilities Commissioner of the action taken.

The Commission discussed matters pertaining to the two trucking measures that will appear on the November 4 election ballot, particularly their

effect on the State Highway Program. It appears that, based upon an opinion given by the Commission's Chief Counsel, unfavorable action by the people will reduce highway revenues to such an extent that new highway construction will have to be stopped and there will be only sufficient monies to carry on a program of maintenance unless the burden of providing the funds is passed on to the passenger car and light car owners. It was the feeling of the Commission that no information concerning the proposed construction program should be disclosed, except in a very qualified manner, pending the outcome of the November 4 election, and it was so ordered.

The meeting adjourned at 4:45 p.m.

EXHIBIT "A"

Minutes of October 20 and 21, 1952

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, The said properties hereby ordered and authorized to be acquired are as follows:

BOONES FERRY ROAD-MARION COUNTY LINE UNIT-BARBUR BOULEVARD-WHITE SCHOOL SECTION - WEST PORTLAND-HUBBARD HIGHWAY

19539 - Downing, John N. and Ethel L. (Johnson)
Right of Way
Option expires March 16, 1953

26,310 sq. ft. at $0.04- per sq. ft. $ 900.00

Amount to be paid owner - chrg to Right of Way	$	900.00

Minutes of October 20 and 21, 1952

RESOLUTION

WHEREAS, the area now situated between the townsite of Cannon Beach and Tillamook Head in Sections 6 and 7, Township 5 North, Range 10 West, and Sections 1 and 12, Township 5 North, Range 11 West, W. M., Clatsop County, Oregon, is commonly known as Ecola State Park; and

WHEREAS, a large portion of said area was a gift to the State of Oregon by Rodney L. Glisan, Mrs. Florence G. Minott, Miss Caroline W. Flanders and Miss M. Louise Flanders and purchase from the Ecola Point & Indian Beach, an Oregon corporation, on February 11, 1932 and "conditioned on the said property being used and maintained by the State of Oregon for park purposes"; and that when conveying the said property for said purposes it was in the belief and with the common understanding of the donors that the permanent name of said park was to be "Ecola State Park"; and

WHEREAS, although said area has, so far as is known, been commonly called "Ecola State Park", a careful search of the records of the State of Oregon, including the minutes and records of the State Highway Commission since jurisdiction over all state parks was vested by the legislature in the State Highway Commission, discloses no such official designation of said area; and

WHEREAS, Ecola State Park has become nationally famous not only for its beauty and grandeur, but because of the historic origin of its name, "Ecola", which is an original Clatsop Indian tribe name meaning "Whale" and was first used and introduced into this country by Capt. William Clark of the Lewis & Clark Expedition who on January 8, 1806 wrote in his diary, "I returned to the Village of five cabins on the Creek, which I shall call 'Ecola or Whale Creek'," referring at the time to the stream now named Elk Creek and flowing past Cannon Beach and into the Pacific Ocean; and

WHEREAS, in keeping with the wishes of those generous and public-spirited donors and in accordance with the public sentiment of this state the Oregon State Highway Commission is desirous of preserving by the records of this State and in the manner provided by law, as a monument to those donors and the people of this State, the name "Ecola State Park" as that name has been and now is applied to that certain area in Clatsop County, Oregon, situated between the townsite of Cannon Beach and Tillamook Head;

NOW, THEREFORE, BE IT RESOLVED that the following described real property, situated in Clatsop County, Oregon, be and the same hereby is officially constituted a state park of the state of Oregon and designated "Ecola State Park":

All of Section 30; the West half of Section 31; the $W\frac{1}{2}NE\frac{1}{4}$ of Section

(cont.)

EXHIBIT "B" (cont.)

31; the $NE\frac{1}{4}NE\frac{1}{4}$ of Section 31; all that part of the $W\frac{1}{2}SE\frac{1}{4}$ of Section 31 lying north and west of a diagonal line extending to the $S\frac{1}{4}$ corner of Section 31 northeasterly to the SE corner of the $SW\frac{1}{4}NW\frac{1}{4}$ of Section 31; the $NW\frac{1}{4}NW\frac{1}{4}$ of Section 32; all of the above in Township 6 North, Range 10 West, W. M.; all of the $NW\frac{1}{4}$ of Section 6 lying north and west of a diagonal line extending from the $W\frac{1}{4}$ corner northeasterly to the $N\frac{1}{4}$ corner of Section 6, Township 5 North, Range 11 West, W. M.; all of Sections 1 and 12 in Township 5 North, Range 11 West, W. M.; the $SW\frac{1}{4}NW\frac{1}{4}$, Lots 1 and 2, the $W\frac{1}{2}W\frac{1}{2}E\frac{1}{2}SW\frac{1}{4}$ of Section 7 in Township 5 North, Range 10 West; the $W\frac{1}{2}$, $SW\frac{1}{4}NE\frac{1}{4}$, $W\frac{1}{2}SE\frac{1}{4}$, $W\frac{1}{2}NE\frac{1}{4}SE\frac{1}{4}$, and $NE\frac{1}{4}NE\frac{1}{4}SE\frac{1}{4}$ of Section 18, Township 5 North, Range 10 West, W. M.

Dated this 20th day of October, 1952.

EXHIBIT "C-1"

Minutes of October 20 and 21, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Maupin	$979.48
Paisley.	671.82

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 20th day of October, 1952.

EXHIBIT "C-2"

Minutes of October 20 and 21, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns;

Culver	$ 814.73
Dundee	833.67
Cave Junction	766.00
Metolius	424.96
Nehalem	730.82
Oceanlake	1,894.71
Paisley	579.24

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 20th day of October, 1952.

EXHIBIT "D"

Minutes of October 20 and 21, 1952

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Orr Corner-Monmouth Section of the Pacific Highway West in Polk County, and in connection therewith to prepare a map showing the route and location of said section of highway and file said report and record with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for the approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said survey, field notes, maps, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the survey of the Orr Corner-Monmouth Section of the Pacific Highway West in Polk County, beginning at a point on the existing highway approximately one and one-fourth miles south of Rickreall, Engineer's Station 479+00, and extending southerly therefrom to a connection with the Pacific Highway West, the intersection of East Street with Main Street in the city of Monmouth, Engineer's Station 1037+60, together with a map, which for identification purposes bears map file No. 7-B-13-16 and the date of October, 1952, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way departments all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That the survey of the section of said Pacific Highway West has been made within the meaning and purposes of Chapter 226, Oregon Laws,

(cont.)

EXHIBIT "D" (cont.)

1947, commonly known as the "Throughway Law", and was likewise made within the scope and purpose of the resolution approved and adopted by the Highway Commission November 3, 1948. Therefore, the construction of said state highway shall be accomplished pursuant to the provisions of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 20th day of October, 1952.

EXHIBIT "E"

Minutes of October 20 and 21, 1952

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

Contract No. 3355 with Parker-Schram Company for grading and paving on the Brookings-California State Line Section of the Oregon Coast Highway in Curry County, completed November 5, 1951.

Contract No. 3367 with Roy L. Houck and Son for oil mat surfacing on the Meridian Dam Detour Section of the Willamette Highway in Lane County, completed May 23, 1951. Removal of contractor's equipment and final clean-up was completed October 6, 1952.

Contract No. 3429 with Lindstrom Brothers Inc. for constructing the Weed and Muscott Bridges on the Little Nestucca Highway in Tillamook County, completed September 20, 1952.

Contract No. 3497 with J. C. Compton Company for grading and paving on the Prospect-Union Creek and Union Creek-Lost Creek Section of the Crater Lake and West Diamond Lake Highways in Jackson and Douglas Counties, completed July 30, 1952.

Contract No. 3502 with Standard Asphalt Paving Company for re-oiling on the Oregon-Washington and Weston-Elgin Highways in Umatilla County, completed July 24, 1952.

Contract No. 3507 with Kuckenberg Construction Company for rock toe embankment and grading on the East Unit, Hood River Mosier Section of the Columbia River Highway in Wasco and Hood River Counties, completed October 1, 1952.

Contract No. 3519 with Warren Northwest Inc. for pavement re-surfacing on the Davies-Forest Grove Section of the Nehalem Highway in Washington County, completed July 22, 1952.

Contract No. 3537 with Parker-Schram Company for topping and paving on the Meridan Dam-Duval Creek Section of the Willamette Highway in Lane County, completed August 12, 1952.

Contract No. 3548 with Babler & Rogers for oil mat surfacing on the Nyssa (King and Park Avenues) City Street Section in Malheur County, Completed May 28, 1952

(cont.)

EXHIBIT "E" (cont.)

Contract No. 3570 with Babler & Rogers for pavement resurfacing on the Forest Boundary-Mill Creek Section of the Warm Springs Highway in Wasco County, completed September 27, 1952.

Contract No. 3572 with G. D. Dennis and Sons for grading and oil mat surfacing on the Polk County Line-Fir Grove Section of the Independence-Albany County Road in Benton County, completed September 22, 1952.

Contract No. 3579 with Parker-Schram Company for grade widening on the Sylvan Section of the Sunset Highway in Multnomah County, completed July 22, 1952.

Contract No. 3595 with J. N. Conley for bridges, grading and oil mat surfacing on the Pittsburgh-Wilson Creek Section of the Pittsburgh-Scappoose County Road in Columbia County, completed September 15, 1952.

Contract No. 3626 with Rogers Construction Company for paving on the Mill City (South 1st Avenue) City Street Section in Linn County, completed September 20, 1952.

Contract No. 3641 with Todd Building Company for constructing the Bear Creek Bridge at Curtin on the Pacific Highway in Douglas County, completed September 23, 1952.

Contract No. 3650 with Electric Corporation for constructing traffic signals in Corvallis, Benton County, completed September 30, 1952.

Contract No. 3665 with Newport Construction Company for furnishing crushed material in stockpiles on the Baker-Table Rock Section of the Baker-Homestead Highway in Baker County, completed September 29, 1952.

Contract No. 3670 with Inter-City Sand & Gravel Company, Inc. for furnishing crushed material in stockpiles on the Klamath County Line-Silver Lake Section of the Fremont Highway in Lake County, completed August 22, 1952.

Contract No. 3695 with Cinder Hill for furnishing crushed material in stickpiles on the Madras-Terrebonne Section of The Dalles-California Highway in Jefferson and Deschutes Counties, completed September 26, 1952.

Contract No. 3708 with H. J. and H. W. Miller for paving on the Elgin (Baltimore St. and 15th Ave.) City Street Section in Union County, completed September 8, 1952.

Contract No. 3712 with K. C. Dack Construction Company for grading and oil mat surfacing on the Irrigon Ordnance Depot Access Road in Morrow County, completed September 15, 1952.

(cont.)

EXHIBIT "E" (cont.)

Contract No. 3724 with C. W. Leseberg for furnishing crushed material in stockpiles on the Meacham Section of the Old Oregon Trail Highway in Umatilla and Union Counties, completed September 23, 1952.

Contract No. 3742 with The United Contracting Company for grading and paving on the Phoenix (Rose St.) and Talent (Pacific Ave.) City Street Section in Jackson County, completed September 30, 1952.

Contract No. 3764 with Acme Construction Company for paving on the Riddle (Front St.) and Glendale (Pacific Ave. and 3rd St.) City Street Section in Douglas County, completed August 23, 1952. Removal of contractor's equipment and final clean-up was completed October 10, 1952.

Contract No. 3769 with Warren Northwest Inc. for grading and paving on the Summer Street (Chemeketa St. - Center St.) (Mall Extension) Section in Marion County, completed October 7, 1952.

THEREFORE BE IT RESOLVED that the work covered by said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

2083

EXHIBIT "F"

Minutes of October 20 and 21, 1952

RESOLUTION

WHEREAS, on the 25th day of November, 1947, the Commission passed and adopted a resolution ordering a five-ton maximum load limit on the Little Nestucca Secondary Highway No. 130; and,

WHEREAS, subsequent to the adoption of said resolution, conditions have changed so that it no longer is necessary or desirable, and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limit set out in said resolution.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED that the action of the State Highway Commission reducing the maximum permissible load limits as set forth in said resolution of November 25, 1947, to-wit:

Name of Highway and No.		County	Section	Maximum Weight	Cancelled
Little Nestucca	130	Tillamook Lincoln	M. P. 5.0 to M. P. 9.4 (500 ft. east of Bear Creek to Dolph)	5 tons	Oct. 8, 1952

be and the same hereby is rescinded and cancelled, and the maximum load limit permissible subsequent to the date shown shall be the maximum load limit provided by Law.

IT IS HEREBY ORDERED that a certified copy of this resolution be furnished to the Lincoln County Clerk and a like copy to the Superintendent of the Department of State Police.

Dated this 20th day of October, 1952.

OREGON STATE HIGHWAY COMMISSION

By

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner

R. H. Baldock
State Highway Engineer

Attest
H. B. Glaisyer, Secretary

EXHIBIT "G"

Minutes of October 20 and 21, 1952

RESOLUTION

WHEREAS, on the 26th day of July, 1950, the Commission adopted a resolution prohibiting the parking of vehicles on the shoulders of the Oregon Coast Highway between Mile Post 123.20 and Mile Post 123.58 north of Ocean Lake in Lincoln County by reason of a motor car race track located adjacent to said highway at said location; and,

WHEREAS, said race track has now been abandoned and the conditions which necessitated the adoption of said restrictions no longer exist.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the action of the State Highway Commission as set forth in said resolution adopted July 26, 1950, prohibiting the parking of vehicles along the Oregon Coast Highway between Mile Post 123.20 (Highway Engineer's Station 730+00) and Mile Post 123.58 (Highway Engineer's Station 750+00) is hereby rescinded and cancelled as of this date.

2. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information and guidance.

3. That this resolution be entered in the minutes and records of the Commission as of the 20th day of October, 1952.

EXHIBIT "H-1"

Minutes of October 20 and 21, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Oregon Coast Highway No. 9 known as the Agate Beach-Newport Section in Lincoln County, the northerly terminus of which is at Highway Engineer's Station 904+00 of the reconstructed line and the southerly terminus of which is at Highway Engineer's Station 1064+67.6 of the reconstructed line; and

WHEREAS, by reason of the relocation of said section of said highway, portions or units of the right of way of the said highway, as formerly located, have been eliminated from the boundaries of the new location, which eliminated portions or units are no longer needed for highway purposes; and,

WHEREAS, Lincoln County and the Highway Commission have heretofore entered into an agreement under date of May 15, 1947, relating to the use and jurisdiction of the said eliminated portions or units; and,

WHEREAS, pursuant to said agreement, it was agreed that when the construction of said relocated section of the Oregon Coast Highway was completed and opened to public travel that the jurisdiction and control of the said eliminated portions or units would vest in Lincoln County; and,

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation; and,

WHEREAS, the Highway Commission, by and through its authorized officers and agents, has formally notified Lincoln County by letter dated August 29, 1952, that the construction of the said section has been completed and opened to public travel and that as of that date the jurisdiction and control of the said eliminated portions or units of the right of way of the said highway as formerly located, became vested in Lincoln County.

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the section of the Oregon Coast State Highway No. 9, known as the Agate Beach-Newport Section located in Lincoln County, the northerly terminus of which is at Highway Engineer's Station 904+00 of the reconstructed line, and the southerly terminus of which is at Highway Engineer's Station 1064+67.6 of the reconstructed line, was completed on August 1, 1952, and the said County was formally notified of the completion thereof by letter dated August 29, 1952. Pursuant to the aforementioned agreement by and between the Commission and said County which was entered into on May 15, 1947, and

(cont.)

EXHIBIT "H-1" (cont.)

as stated in the said letter, the said County became vested, upon the date of said letter, with the jurisdiction and control of the portions or units herein defined and described as Units "A" and "B" and pursuant thereto the same were eliminated and removed as a part of the route of the Oregon Coast Highway.

2. That the portions or units of the old right of way which, by reason of the relocation of said highway, are no longer within the boundaries of the new right of way, which, for the purpose of this resolution, are identified as Units "A" and "B," and are shown colored in red on the map attached hereto, marked "Exhibit A," and by this reference made a part hereof, and which are more particularly described as follows:

Unit "A"

Beginning at State Highway Engineer's Station 915+80 of the relocated Oregon Coast Highway in the Southeast quarter of the Northwest quarter of Section 29, Township 10 South, Range 11 West, W. M.; thence southerly via the former route of the Oregon Coast Highway to State Highway Engineer's Station 925+60 of the relocated Oregon Coast Highway in the Southeast quarter of the Northwest quarter of Section 29, Township 10 South, Range 11 West, W. M.

Unit "B"

Beginning at State Highway Engineer's Station 964+60 of the relocated Oregon Coast Highway in the Northwest quarter of the Northeast quarter of Section 32, Township 10 South, Range 11 West, W. M.; thence southerly via the former route of the Oregon Coast Highway to Highway Engineer's Station 1013+40 of the relocated line of said highway, in the Northeast quarter of the Northwest quarter of Section 5, Township 11 South, Range 11 West, W. M.

shall from the date of the aforementioned letter and thereafter be maintained by the said County as county roads for the benefit and service of persons living thereon and communities served thereby. The Commission hereby formally confirms the disposition heretofore made in the said letter of the said Units "A" and "B," and the Commission hereby formally declares that the said units have been abandoned pursuant to said agreement and said letter to the said County and that all right, title, and interest which the State had in said right of way vested in the said County as of the date of said letter.

3. The area shown colored in green on said Exhibit "A" includes right of way acquired for the location and construction of the said highway, and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way and for other highway purposes and uses. For such uses and purposes, therefore, the

(cont.)

EXHIBIT "H-1" (cont.)

Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State.

4. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

5. This resolution shall be entered in the minutes and records of the Commission on this 20th day of October, 1952, and the Secretary hereby is directed to mail to the County Court of Lincoln County a duly certified copy thereof.

EXHIBIT "H-2"

Minutes of October 20 and 21, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Shaniko-Fossil Secondary Highway No. 291 known as the East Unit, Antelope-Clarno Section in Wasco County, the westerly terminus of which is at Highway Engineer's Station 0+00 of the reconstructed line and the easterly terminus of which is at Highway Engineer's Station 443+46 of the reconstructed line; and,

WHEREAS, by reason of the relocation of said section of said highway portions or units of the right of way of the said highway, as formerly located, have been eliminated from the boundaries of the new location, which eliminated portions or units are no longer needed for highway purposes; and,

WHEREAS, Wasco County and the Highway Commission have heretofore entered into an agreement under date of May 25, 1951, relating to the use and jurisdiction of the said eliminated portions or units; and,

WHEREAS, pursuant to said agreement, it was agreed that when the construction of said relocated section of the Shaniko-Fossil Highway was completed and opened to public travel that the jurisdiction and control of the said eliminated portions or units would vest in Wasco County; and,

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation; and,

WHEREAS, the Highway Commission, by and through its authorized officers and agents, has formally notified Wasco County by letter dated August 11, 1952, that the construction of the said section has been completed and opened to public travel and that as of that date, the jurisdiction and control of the said eliminated portions or units of the right of way of the said highway as formerly located, became vested in Wasco County.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows.

1. That the section of the Shaniko-Fossil Secondary Highway No. 291 known as the East Unit, Antelope-Clarno Section, located in Wasco County, the westerly terminus of which is at Highway Engineer's Station 0+00 of the reconstructed line, and the easterly terminus of which is at Highway Engineer's Station 443+46 of the reconstructed line, was completed on July 31, 1952, and the said County was formally notified of the completion thereof by letter dated August 11, 1952. Pursuant to the aforementioned agreement by and between the Commission and said County which was entered into on May 25, 1951, and

(cont.)

EXHIBIT "H-2" (cont.)

as stated in the said letter, the said County became vested, upon the date of said letter, with the jurisdiction and control of the portions or units herein defined and described as Units "A" and "B", and pursuant thereto the same were eliminated and removed as a part of the route of the Shaniko-Fossil Highway.

2. That the portions or units of the old right of way which, by reason of the relocation of said highway, are no longer within the boundaries of the new right of way, which, for the purpose of this resolution, are identified as Units "A" and "B", and are shown colored in red on the map attached hereto, marked "Exhibit A," and by this reference made a part hereof, and which are more particularly described as follows:

Unit "A"

Beginning opposite State Highway Engineer's Station 8+60 of the relocated Shaniko-Fossil Highway in the southeast quarter of the northeast quarter of Section 6, Township 8 South, Range 18 East, W. M.; thence easterly via the former route of the Shaniko-Fossil Highway to State Highway Engineer's Station 162+00 in the southwest quarter of the southwest quarter of Section 34, Township 7 South, Range 18 East, W. M.

Unit "B"

Beginning at State Highway Engineer's Station 186+60 of the relocated Shaniko-Fossil Highway in the northeast quarter of the southwest quarter of Section 34, Township 7 South, Range 18 East, W. M.; thence easterly via the former route of the Shaniko-Fossil Highway to State Highway Engineer's Station 433+20 in the northeast quarter of the southwest quarter of Section 32, Township 7 South, Range 19 East W. M.

shall from the date of the aforementioned letter and thereafter be maintained by the said County as county roads for the benefit and service of persons living thereon and communities served thereby. The Commission hereby formally confirms the disposition heretofore made in the said letter of the said Units "A" and "B", and the Commission hereby formally declares that the said units have been abandoned pursuant to said agreement and said letter to the said County and that all right, title, and interest which the State had in said right of way vested in the said County as of the date of said letter.

3. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway, and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way and for other highway purposes and uses. For such uses and purposes, therefore, the Com-

(cont.)

EXHIBIT "H-2" (cont.)

mission does hereby declare and order that possession of and title to all the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State.

4. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

5. This resolution shall be entered in the minutes and records of the Commission on this 20th day of October , 1952, and the Secretary hereby is directed to mail to the County Court of Wasco County a duly certified copy thereof.

20843

EXHIBIT "H-3"

Minutes of October 20 and 21, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the Section of the Columbia River Highway known as the Cascade Locks-Herman Creek Section in Hood River County, the westerly terminus of which is at Highway Engineer's Station 145 of the reconstructed line and the easterly terminus of which is at Highway Engineer's Station 296 of the reconstructed line; and,

WHEREAS, by reason of the relocation of said section of said highway, certain portions or units of the right of way of the said highway, as formerly located, have been eliminated from the boundaries of the new location, which eliminated portions or units are no longer needed for highway purposes; and,

WHEREAS, Hood River County, the City of Cascade Locks and the Highway Commission have heretofore entered into a three-party agreement under date of February 16, 1951, relating to the use and jurisdiction of the said eliminated portions or units; and,

WHEREAS, pursuant to said agreement, it was agreed that when the construction of said relocated section of the Columbia River Highway was completed and opened to public travel that the jurisdiction and control of one of the said eliminated portions or units would vest in Hood River County and that the jurisdiction and control of the other of the said eliminated portions or units would vest in the City of Cascade Locks; and,

WHEREAS, it is the purpose of the Highway Commission to take official action and to impress upon the Commission's records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation; and,

WHEREAS, the Highway Commission, by and through its authorized officials and agents, has formally notified both Hood River County and the City of Cascade Locks by letters dated August 13, 1952 that the construction of the said section has been completed and opened to public travel and that as of that date the jurisdiction and control of the said eliminated portions or units of the right of way of the said highway as formerly located became vested in either Hood River County or the City of Cascade Locks in the manner hereinafter set forth;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the section of the Columbia River Highway, State Highway No. 2, known as the Cascade Locks-Herman Creek Section, located in Hood River County, the westerly terminus of which is at Highway Engineer's Station

(cont.)

EXHIBIT "H-3" (cont.)

145 of the reconstructed line, and the easterly terminus of which is at Highway Engineer's Station 296 of the reconstructed line, was completed on July 29, 1952, and the said County and the City of Cascade Locks were formally notified of the completion thereof by letters dated August 13, 1952. Pursuant to the aforementioned three-party agreement by and between the Commission, the County and the said City, which was entered into on February 16, 1951, and as stated in the said letter, the said County became vested, upon the date of the said letter, with the jurisdiction and control of the portion or unit, herein defined and described as Unit "B", and the said City became vested, upon the date of the said letter, with the jurisdiction and control of the portion or unit, herein defined and described as Unit "A", and pursuant thereto, the said portions or units were eliminated or removed as a part of the route of the Columbia River Highway.

2. That the portion or unit of the old right of way, which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, which for the purpose of this resolution is identified as Unit "B" and is shown colored in red on the map attached hereto and marked Exhibit "A" and by this reference made a part hereof, and which is more particularly described as follows:

Unit "B" Beginning at the intersection of the old route of the Columbia River Highway No. 2 with the city limits of Cascade Locks on the line between the Northeast and Northwest quarters of the Northwest quarter of Section 7, Township 2 North, Range 3 East, W. M., and running thence southeasterly to its intersection with the new route of the Columbia River Highway No. 2 opposite State Highway Engineer's Station 256+00 of the old route in the Northwest quarter of the Southeast quarter of Section 5, Township 2 North, Range 8 East, W. M.

shall from the date of the aforementioned letter and thereafter be maintained by the said County as a county road for the benefit and service of persons living thereon and communities served thereby. The Commission hereby formally confirms the disposition heretofore made in the said letter of the said Unit "B", and the Commission hereby formally declares that the said unit has been abandoned pursuant to said agreement and said letter to the said County and that all right, title and interest which the State had in said right of way vested in the said County as of the date of said letter.

3. That the portion or unit of the old right of way, which by reason of the relocation of said highway is no longer within the boundaires of the new right of way, which for the purpose of this resolution is identified as Unit "A" and is shown colored in blue on said Exhibit "A", and which is more particularly described as follows:

Unit "A" Beginning opposite State Highway Engineer's Station 146+50

of the present Columbia River Highway No. 2 in the Southwest quarter of the Northeast quarter of Section 12, Township 2 North, Range 7 East, W.M.; thence easterly via the former route of the Columbia River Highway No. 2 to State Highway Engineer's Station 185+75 at the east city limits of the City of Cascade Locks on the line between the Northeast and Northwest quarters of the Northwest quarter of Section 7, Township 2 North, Range 8 East, W.M.

shall from the date of the aforementioned letter and thereafter be maintained by the said City as a city street. The Commission hereby formally confirms the disposition heretofore made in the said letter of the said Unit "A", and the Commission hereby formally declares that the said unit has been abandoned pursuant to the said agreement and said letter to the said City and that all right, title and interest, which the State had in said right of way, vested in the said City as of the date of said letter.

4. The area, as shown colored in green on said Exhibit "A", includes the right of way acquired for the location and construction of the said highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all of the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way and for other highway purposes and uses. For such purposes and uses, therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State.

5. The boundaries of all real properties acquired for rights of way and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

6. This resolution shall be entered in the minutes and records of the Commission on this 20th day of October, 1952, and the Secretary hereby is directed to mail a duly certified copy of said resolution to the County Court of Hood River County and a duly certified copy thereof to the City Recorder of Cascade Locks.

EXHIBIT "I"

Minutes of October 20 and 21, 1952

RESOLUTION

WHEREAS, the State Highway Commission entered into a three-party agreement dated August 3, 1951, with Washington County and the City of Forest Grove, a municipal corporation, with respect to the construction, reconstruction, location, and routing of the Tualatin Valley Highway, State Highway No. 29, upon and over certain city streets and county roads located within the corporate limits of the said city; and,

WHEREAS, in the said agreement it was agreed that when the project set forth therein was completed that the State Highway Commission would duly adopt a resolution designating, selecting, and changing the route of the Tualatin Valley Highway through the corporate limits of the said city, eliminating a certain county road or a portion thereof, hereinafter more fully described, and certain city streets or portions thereof, hereinafter more fully described, from the state highway system and as a part of the route of the Tualatin Valley Highway, and would select and designate certain other city streets or portions thereof, hereinafter more fully described, as a part of the new route of the Tualatin Valley Highway; and,

WHEREAS, under the provisions of Section 100-122, O. C. L. A., the Highway Commission is authorized and directed, whenever the route of a state highway passes through the corporate limits of a city, to select and designate thestreet or streets over which the said highway shall be routed, and to alter or change such routing when, in its opinion, the interests of the motoring public will be better served; and,

WHEREAS, it is the purpose of the State Highway Commission to take official action in order to comply with the terms of the aforesaid agreement as well as to exercise the authority and powers vested in it pursuant to Section 100-122, O. C. L. A., and to set forth these matters and to impress them upon the records of the Commission.

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. Pursuant to the authority vested in the Highway Commission by Section 100-122, O. C. L. A., the following named streets or portions thereof are hereby designated as a part of the state highway system and, in particular, as a part of the route of the Tualatin Valley Highway:

> Pacific Avenue, beginning at its intersection with Main Street and extending therefrom in a westerly direction to its intersection with "B" Street.

(cont.)

EXHIBIT "I" (cont.)

"B" Street, beginning at its intersection with Pacific Avenue and extending therefrom in a southerly direction to the south city limits of the said city.

There is attached hereto, marked "Exhibit A" and by this reference made a part hereof, a print on which there is shown, colored in orange, the abovesaid streets or portions thereof which are herein designated to be a part of the Tualatin Valley Highway; and there is also shown on said print, colored in blue, the streets or portions thereof which have heretofore been designated as a part of the Tualatin Valley Highway and which will continue to be a part of the route of the said highway.

2. Pursuant to the authority vested in the Highway Commission by Section 100-122, O. C. L. A., the following named city streets, or portions thereof, and the following named county road or a portion thereof, are hereby removed and deleted as a part of the state highway system and, in particular, as a part of the route of the Tualatin Valley Highway:

City Streets:

Main Street, beginning at its intersection with Pacific Avenue and extending therefrom in a southerly direction to its intersection with 16th Avenue.

16th Avenue, beginning at its intersection with Main Street and extanding therefrom in a westerly direction to "A" Street.

County Road:

16th Avenue, beginning at its juncture with "A" Street and extending therefrom to "B" Street.

There is shown on said Exhibit "A," colored in red, the streets or portions thereof which are herein removed and deleted as a part of the route of the Tualatin Valley Highway; and there is also shown, colored in green, on said Exhibit "A" the said county road or a portion thereof which is herein removed and deleted as a part of the route of the Tualatin Valley Highway.

3. This resolution shall be entered in the records and minutes of the Commission this 20th day of October, 1952, and the Secretary hereby is directed to mail to the County Court of Washington County and the City Recorder of the City of Forest Grove, each a duly certified copy thereof.

EXHIBIT "J-1"

Minutes of October 20 and 21, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the McKenzie Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintian the Springfield Section of the said McKenzie Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the relocation, construction, improvement and maintenance of the Springfield Section of the McKenzie Highway, the following described real property, located in Lane County, Oregon, to wit:

Owner: Albert Vik, et ux
R-18797

"Beginning at a point on the West line of 2nd Street in the Town of Springfield, 40 feet South of the Northeast corner of Lot 4, Block 2, of the original town site of Springfield, running thence South 103 feet, more or less, to a point 55 feet North of the Southeast corner of Lot 8, Block 2, thence West to the alley running North and South through said Block 2, thence North 103 feet, more or less, to a point due West of the place of beginning, and thence East to the place of beginning, being a part of Lots 4 and 8 and all of Lot 5, Block 2, of the Original Town site of Springfield, Lane County, State of Oregon."

(cont.)

EXHIBIT "J-1" (cont.)

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property with respect to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings, it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 20th day of October, 1952.

EXHIBIT "J-2"

Minutes of October 20 and 21, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the O'Neil Secondary Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Deschutes County Line-Prineville Section of the said O'Neil Secondary Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee simple title to said real property for right of way and other highway purposes; and

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for the relocation, construction, improvement and maintenance of the Deschutes County Line-Prineville Section of the O'Neil Secondary Highway, the following described real property, located in Crook County, Oregon, to wit:

R-18848
Owner: Earl Forest, et al

A parcel of land lying in the West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 26, Township 14 South, Range 15 East, W. M., Crook County, Oregon, the said parcel being that portion of said West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) included in a strip of land 30 feet in width on the Easterly side and variable on the Westerly side of the center line of the O'Neil Secondary Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 770+77.63,

(cont.)

said Station being approximately 1647 feet North and approximately 62 feet West of the Southwest corner of said Section 26; thence on a spiral curve right (the long chord of which bears South 12° 28' 45" East) 500 feet; thence South 9° 08' 45" East 182.63 feet; thence on a spiral curve left (the long chord of which bears South 13° 18' 45" East) 500 feet; thence on a 1145.92 foot radius curve left (the long chord of which bears South 31° 11' 22½" East) 381.75 feet; thence on a spiral curve left (the long chord of which bears South 49° 04' East) 500 feet to Station 791+51.75, said center line crossing the West and South lines of said West half (W½) of the Southwest quarter (SW¼) approximately at Stations 773+13 and 788+80, respectively. Except that portion of said strip of land lying within the Peoples Irrigation Company right of way.

The widths in feet of the strip of land above referred to on the Westerly side of said center line are as follows:

Station to Station		Width on Westerly Side of Center Line
770+77.63	786+51.75	50 feet
786+51.75	791+51.75	30 feet

The parcel of land to which this description applies contains 2.22 acres, of which 1.87 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 0.35 acre lies outside of the existing right of way.

R-18849
Owner: Lenore W. Althaus, et al

A parcel of land lying in the North half (N½) of the Northwest quarter (NW¼) of Section 35, Township 14 South, Range 15 East, W. M., Crook County, Oregon, the said parcel being that portion of said North half (N½) of the Northwest quarter (NW¼) included in a strip of land 30 feet in width, lying on the Northerly side of the center line of the O'Neil Secondary Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 786+51.75, said Station being approximately 168 feet North and approximately 363 feet East of the Northwest corner of said Section 35; thence on a spiral curve left (the long chord of which

(cont.)

EXHIBIT "J-2" (cont.)

bears South 49° 04' East) 500 feet; thence South 53° 14' East 627.62 feet; thence on a spiral curve right (the long chord of which bears South 52° 54' East) 200 feet; thence on a 5729.58 foot radius curve right (the long chord of which bears South 51° 32' 45" East) 137.50 feet; thence on a spiral curve right (the long chord of which bears South 50° 11' 30" East) 200 feet; thence South 49° 51' 30" East 1183.13 feet to Station 815+00; said center line crossing the North and South lines of said North half ($N\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) approximately at Stations 788+80 and 809+57 respectively. Except any portion of said strip of land lying within the Peoples Irrigation Company right of way.

The parcel of land to which this description applies contains 0.03 acre outside of the existing right of way.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury of damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said real property with respect to the compensation to be paid for the taking, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the aforesaid real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of the said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized and empowered to make such stipulation, agreement, or admission as in his judgment may be for the best interest of the State, the State Highway Commission, or the property owners.

EXHIBIT "J-2" (cont.)

6. That this resolution be, and it hereby is, entered in the minutes and records of the Commission this 20th day of October, 1952.

EXHIBIT "J-3"

Minutes of October 20 and 21, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Garden Valley Road-Second Crossing of the Umpqua River Unit of the Deady-Shady Section of the Pacific Highway; and

WHEREAS, the said Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled; and

WHEREAS, said Commission is authorized to take fee simple title

(cont.)

EXHIBIT "J-3" (cont.)

to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present anf voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for the proper relocation, construction, improvement and maintenance of the Garden Valley Road-Second Crossing of the Umpqua River Unit of the Pacific Highway as a throughway, the following described real property, to wit:

R-17857
Owner: Douglas Community Hospital, Inc.

A parcel of land lying in the Jeremiah Huntley Donation Land Claim No. 56, also in Section 13, Township 27 South, Range 6 West, W. M., Douglas County, Oregon, and being a portion of that property conveyed by that deed to Douglas Community Hospital, Inc., recorded in Book 162, Page 611, of Douglas County Records of Deeds, the said parcel being that portion of said property lying East of a line which is parallel to and 75 feet Westerly of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 2535+00, said Station being 2186.8 feet North and 365 feet East of the Southwest corner of said Donation Land Claim No. 56; said Station also being 1768.8 feet North and 361.2 feet East of the Monument at the intersection of Harvard and Umpqua Avenues; thence South 20° 06' East 2330.85 feet to Engineer's center line Station 2558+30.85; the Westerly line of said parcel crosses the North and East lines of the above described property approximately opposite Stations 2547+23 and 2548+48, respectively.

The parcel of land to which this description applies contains 0.06 acre.

R-17859
Owner: Eugene A. Springer

A parcel of land lying in Lot 21, Westmoreland Addition to the City of Roseburg and situated in Jeremiah Huntley Donation Land Claim No. 56, Township 27 South, Range 6 West, W. M., Douglas County, Oregon, the said

(cont.)

EXHIBIT "J-3" (cont.)

parcel being that portion of said Lot 21 lying West of a line which is parallel to and 75 feet Easterly of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 2535+00, said Station being 2186.8 feet North and 365 feet East of the Southwest corner of said Donation Land Claim No. 56; said Station also being 1768.8 feet North and 361.2 feet East of the Monument at the intersection of Harvard and Umpqua Avenues, Roseburg; thence South 20° 06' East, 2330.85 feet to Engineer's center line Station 2558+30.85; the Northwest corner of said Lot 21 being approximately opposite and 75 feet Easterly from center line Station 2550+26; the Easterly line of said parcel intersecting the South line of said Lot 21 approximately opposite center line Station 2550+93.

The parcel of land to which this description applies contains 0.02 acre.

2. That in addition to the acquisition of fee simple title to the above described real property it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Garden Valley Road-Second Crossing of the Umpqua River Unit of the Deady-Shady Section of the Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury of damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the State Highway Engineer a revised description,

EXHIBIT "J-3" (cont.)

is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 20th day of October, 1952.

Portland, Oregon
November 24, 1952

The State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

The Commission by unanimous vote approved the minutes of its meeting held on October 20 and 21, 1952.

The State Parks Superintendent reported on the following state park matters:

1. Request of the Pacific Telephone and Telegraph Company for permission to construct a communication pole line across Hat Rock State Park, Umatilla County: The Parks Superintendent exhibited a map showing the proposed location of the pole line and recommended approval of the request. The Commission approved the recommendation.

2. Consider wording for a plaque to be placed on the property that was donated by Menasha Woodenware Company, Menasha, Wisconsin, for state park purposes in Umpqua Lighthouse State Park: The Parks Superintendent recalled that it has been the practice of Highway Commissions in the past to place a plaque on land donated for state park purposes. He recommended that the practice be continued in this instance, and he suggested the following wording for the same:

> "Through a desire to be of service to the public, the Menasha Woodenware Company, of Menasha, Wisconsin, very generously gave to the people of Oregon 112 acres of land on which this plaque is placed as an addition to the Umpqua Lighthouse State Park."

The Commission unanimously approved the recommendation and the suggested wording.

3. Request of Mr. Alfred A. Loeb, Portland, to purchase maple burls in Van Duzer Corridor on the Salmon River Highway, to be used for thin veneer lumber: The Parks Superintendent recommended against the sale of

this material because it would encourage further cutting in other state parks. He also gave as his feeling that the cutting of the maple burls would be a violation of the purposes for which the properties were acquired. The Commission concurred in the viewpoint of the Parks Superintendent and accordingly denied Mr. Loeb's request.

4. Request of Mr. A. C. Howard, Gold Beach, for authority to construct and operate a roadway across Cape Sebastian State Park in Curry County, and to erect a spar pole near the edge of the property to facilitate the loading of logs on trucks: The Parks Superintendent exhibited a map showing the location of the proposed roadway and spar pole site, and advised that these are situate so they will result in the least amount of damage to the park and will create the least hazard possible for park use. He recommended approval of the request. The Commission approved the recommendation.

5. Request of the Sodaville Social Club, Sodaville, Oregon, for permission to use the upper floor of a building located in Sodaville State Park: The Parks Superintendent recommended approval of this request and that other groups be also authorized to use this room provided the groups are limited to 20 in number and provided further that such use of the building meets with the approval of the State Fire Marshall. The Commission approved the recommendation unanimously, subject to the conditions mentioned.

6. Offer of Mr. and Mrs. H. L. Corbett, Portland, to present to the State as a gift for park purposes sixty-three acres of land situate at the south edge of Blue Lake in Jefferson County: The Parks Superintendent advised that Mr. and Mrs. Corbett wish to establish a memorial to their son who was killed in World War II, and want to take this method of providing such a memorial. The Corbetts, he said, will construct a road providing access to the property, which will be left mostly in a primitive state, and the only thing the State will have to furnish will be the basic facilities for general public use. He recommended acceptance of the gift. The Commission approved the recommendation unanimously and ordered an appropriate letter to be directed to Mr. and Mrs. Corbett expressing appreciation for their generous contribution to the State Parks System.

7. Request of the Associated Ditch Companies of Joseph, Oregon, that the State rebuild a fish ladder in the Wallowa River to replace one damaged by State Highway forces: The Parks Superintendent advised that the fish ladder referred to is located about 800 feet south of the Highway bridge entering Wallowa Lake State Park, and that it was damaged by State Highway forces during the fall and winter of 1950 during operations to control the flow of the stream and to avoid damage to the highway and the park area that might result were the channel of the stream diverted. In the process, he said, a number of trees were removed from the stream bed, and it is alleged by the companies that the bed of the stream below the fish ladder was deepened, thereby seriously hampering the operation of the ladder. He said that he has no way of determining whether or not the allegations are fact, but because of the low cost of rebuilding the ladder, which is estimated at between $75 and $100, he recommended approval of the request. The Commission approved the recommendation unanimously.

8. Proposal of Douglas County Park Superintendent that the State Highway Commission establish a state park along the North Umpqua River about 23 miles

east of Roseburg: The Parks Superintendent advised that this proposed park is situate on a county road a long way from a state highway. He gave as his feeling that the project is local in character, and that it could be developed at local cost and expense. The Commission concurred in the viewpoint of the Parks Superintendent and expressed the feeling that Douglas County should assume the responsibility for this undertaking. (A delegation from Douglas County appeared before the Commission the following day concerning this project. As a result of discussion, the Commission agreed to give the matter further consideration. It was referred back to the State Parks Superintendent for study and full report. See ahead for additional paragraph.)

9. Request of St. Helens Pulp and Paper Company for authority to use an existing roadway across the eastern part of Short Sand Beach State Park, Tillamook County: The Parks Superintendent advised that the road already has been constructed, and, in his estimation, its use by the company will do no particular damage to the park property or facilities. He recommended approval of the request. The Commission approved the recommendation.

10. Requests of Oceanlake Chamber of Commerce and North Lincoln Kiwanis Club for reconsideration of their previous request for establishment of a state park in the northern part of the town of Oceanlake: The Commission discussed this matter briefly but deferred action until the following day when a delegation from Oceanlake was scheduled to be present. (As a result of the discussion of this matter with the delegation, the Commission agreed to give the matter further study.)

11. Suggestion of Bandon Chamber of Commerce that the Highway Commission acquire the Westmost Golf Course property at Bandon for state park purposes, consideration $35,000: The State Parks Superintendent advised that the golf course property is very nice, but the location heretofore investigated is more desirable and better fits the requirements for park purposes as outlined when the matter of establishing a state park at Bandon Beach previously was discussed by the Commission. It was the feeling of the Commission, as expressed by Chairman Chandler, that if the Commission has $35,000 to spend for a park at this place, it should be spent to acquire the area heretofore investigated and as originally planned. Accordingly, the Commission decided unanimously not to acquire the golf course property.

12. Consideration was given by the Commission to a request from the City of Condon relative to establishment of a state park and recreational areas in the vicinity of Condon and Fossil, concerning which a delegation was scheduled to appear on the following day. Particular attention was given to the matter of improving the Condon City Park, and in this connection, the Commission decided it has spent all of the funds it can justify for this particular area. (This matter was presented to the Commission by a delegation on the following day. No encouragement was given by the Commission, it being the thinking of the Commission that the development of this park is a city obligation inasmuch as it is located within the city limits. See additional paragraph ahead.)

The Right of Way Engineer presented for the Commission's consideration options secured for the acquisition of real property that is needed for various highway improvements and for other purposes. As a result of very careful consideration, the Commission approved the closing of the options at the prices mentioned therein. The attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission unanimously.

The Right of Way Engineer requested authority to negotiate options to acquire real property needed for the following purposes and for which, he said, no specific authority previously had been granted:

County and Section	Highway
CURRY Euchre Creek-Wedderburn (Gravel Pit and Stockpile Site)	Oregon Coast
DESCHUTES Bend-Lapine Section (R/W) North Unit	The Dalles-California
LANE Springfield-Jasper (Gravel Pit)	Springfield-Creswell
LANE Springfield-Walterville (Gravel Pit)	McKenzie
LINN Noble Slough-Foster (Gravel Pit)	Santiam
MALHEUR Juntura-Harper (Talus Pit and Stockpile Site)	Central Oregon

The Commission approved the request unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission unanimously confirmed sales of miscellaneous properties as reported by the Right of Way Engineer. (For a list of the properties sold, see copy of report prepared by Mr. C. W. Parker, Property Manager, dated November 24 and 25, 1952 on file in the Secretary's office under the heading "Miscellaneous Sales".)

The Commission approved an exchange of properties with School District No. 1, Multnomah County, so as to acquire necessary right of way across the grounds of the Capitol Hill School for the proposed West Portland-Harbor Drive Expressway. The attached resolution relative thereto, marked Exhibit "C", which resolution by this reference is made a part hereof with like effect as though extended

in full herein was adopted by the Commission by unanimous vote.

The Commission unanimously confirmed purchase for the sum of $35,000 of a portion of Block 325, City of Portland, from the owner, Caroline R. Reidel, which property is to be used in connection with the contemplated 18th Street-19th Street one-way traffic couplet for US 30 in this city. It was understood that the City of Portland will acquire the property and will share equally with the State in the purchase price, or $17,500, and that the State will share equally with the City in any salvage that might be had from properties that are not needed for the actual improvement.

The Commission discussed and unanimously approved transfer of the leasehold of the Coos Bay Timber Operators to Clarence A. and Jessie G. Gould concerning the following described State Highway property: westerly 51 feet of Lots 5, 6, 7, 8, and 9, Block 31, Coos Bay Plat "B", Addition to North Bend, Oregon. (Consent to Assignment of Lease was signed by the Commission later in the session.)

The Commission discussed and unanimously approved a lease agreement with the Mountain States Power Company whereby the company is granted the right to use State-owned property described as a portion of Block 61, Washburn's Subdivision of Springfield, for storage purposes for a period of four years at a consideration of $400 per year, subject to six months cancellation. (The lease was signed by the Commission later in the session.)

The Right of Way Engineer brought up for discussion the matter of paying Mr. O. W. Bauer, Hood River, $840 cash in lieu of constructing a rock wall along the right of way line of the new highway in Hood River as a replacement for an existing one. He explained that the removal of the old wall and construction of a new one was a right of way obligation and was estimated to cost about $1,800, so if the Commission approves cash settlement of the matter, it will result in a savings to the State of about $960. He recommended approval of the payment. The Commission approved the recommendation.

The Right of Way Engineer requested instructions regarding settlement with Albert and Bertha Vik for right of way needed for the South "A" Street Project in the city of Springfield. He advised that an option previously obtained from the Viks expired on October 30, 1952, and in attempting to get it extended, the Viks demanded 6 percent interest on the option amount from June 1 to December 31, 1952, and in addition thereto, that the State pay the 1952-1953 taxes. He quoted the Chief Counsel to the effect that the State cannot legally pay interest charges. He recommended in view thereof, condemnation of the property as previously authorized by the Commission on October 20, 1952, and an offer of $15,300 in connection therewith. The Commission approved the recommendation by unanimous vote.

Consideration was given by the Commission to requests from the Bonneville Power Administration for an easement to construct a power transmission pole line across the right of way of the Old Oregon Trail in the northeast quarter (NE$\frac{1}{4}$) of the northeast quarter (NE$\frac{1}{4}$) of Section 13, Township 4 north, Range 24 east, W. M., Morrow County, and to construct a roadway across State

Highway property in Sections 23, 24, and 25, Township 4 north, Range 23 east, W. M., Morrow County, to provide access to the Bonneville Administration's McNary-Maupin transmission pole line in Section 25, Township 4 north, Range 23 east, W. M. The Right of Way Engineer advised that the locations described are west of the town of Boardman and that the granting of the requests will in no way interfere with the use of the highway or highway property. He recommended approval of the requests. The Commission approved the recommendation unanimously. (An easement granting the privileges requested was signed by the Commission later in the session.)

The Right of Way Engineer brought up for discussion a settlement demanded by Mr. Lawrence Kozowski for right of way for the Lapine-Forest Boundary Section of The Dalles-California Highway. He presented an option secured from Mr. Kozowski calling for payment of $6,000 for the property. He advised that the price demanded is far in excess of the appraised value of the property, and he recommended that the Chief Counsel be authorized to condemn the property if it cannot be acquired at reasonable cost by negotiation. The Commission approved the recommendation and thereupon by unanimous vote adopted the attached resolution relative thereto, marked EXHIBIT "M-1 ", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A request was presented from the University of Oregon for loan of the services of the Highway Department's Property Manager, Mr. C. W. Parker, to assist the University in conducting auction sales of houses in connection with an expansion of the University campus. The Commission approved the request.

The Commission discussed and upon recommendation of the Right of Way Engineer unanimously approved a lease agreement with the Union Oil Company of California providing for use by the company of certain State-owned land in the City of Astoria for which the company is to pay as rental the sum of $27.50 per year.

At 10:00 a.m. bids as follows for highway construction were opened and read aloud by the Secretary pursuant to previously published notice, at the conclusion of which it was announced that the awards of contracts would be made at 4:30 p.m. in the same room:

OREGON COAST HIGHWAY IN DOUGLAS COUNTY
GRADING and PAVING CLEAR LAKE-FOREST BOUNDARY UNIT

Grimstad & Vanderveldt, Astoria	$183,297.00
Koppisch Construction Co., Astoria	183,552.50
Fred H. Slate Ore. Ltd. & E. C. Hall Co., Portland	190,397.50
E. L. Gates & Co. Inc., Salem	193,531.50
Durbin Bros., Eugene	201,129.50
C. R. O'Neil, Creswell	202,945.50
Berke Bros., Portland	207,000.00
John A. Logan, Portland	212,916.00
J. N. Conley, Portland	215,160.00
McNutt Brothers, Eugene	275,343.50

PACIFIC HIGHWAY IN DOUGLAS COUNTY
ELKTON-SUTHERLIN OVERCROSSING AND DEADY INTERCHANGE

R & M Construction Co., Central Point	$ 74,998.00
Tom Lillebo, Reedsport	77,930.00
Hannan Bros., Portland	84,160.00
Hamilton & Thoms, Eugene	88,130.00
Todd Building Co., Roseburg	91,700.00
Murray & Stanford, Bend	91,734.00
Glen Snook, Eugene	94,005.00
Schrader Construction Co., Portland	98,290.00

GRANT AND HARNEY COUNTIES
CANYON CREEK-POISON CREEK ROCK PRODUCTION PROJECT

Newport Construction Company, Portland	$ 55,689.00

JACKSON COUNTY
MEDFORD MAINTENANCE BUILDING ADDITION

Harold W. Salter, Rogue River	$ 10,284.50
R. E. Meade & Company, Grants Pass	11,564.00

JEFFERSON COUNTY
MADRAS ROCK PRODUCTION PROJECT

Rogers Construction Company, Portland	$ 41,600.00
Vernie Jarl, Gresham	44,705.00
F. O. Laws, Salem	46,500.00
E. H. Itschner, Molalla	46,500.00
Calkins Crushing Company, Ocean Lake	47,250.00
J. N. Conley, Portland	52,250.00
Peter Kiewit Sons Company, Longview, Washington	52,350.00
M. C. Lininger & Sons, Medford	62,000.00

McKENZIE HIGHWAY IN LANE COUNTY
GRADING AND PAVING SPRINGFIELD SECTION

Inter-City Sand & Gravel Company, Eugene	$251,647.00
Acme Construction Company, Eugene	263,050.80
Hamilton & Thoms, Eugene	275,229.20
Central Heating Company & F. L. Somers, Eugene	284,123.00

PACIFIC HIGHWAY WEST IN MULTNOMAH COUNTY
IRRIGATING SYSTEM and LAWN ON TILLAMOOK STREET-STEEL BRIDGE

Western Golf Course Supply Company, Portland	$ 30,316.80
Portland Construction Company, Portland	32,873.50
Hecata Landscape Company, Portland	34,871.00
Ernest Ferrante & Company, Portland	39,232.60
Sprague McDowell Company, Seattle, Washington	44,645.10

The Chief Counsel rendered a status report on the case of the State Highway Commission vs Wilbur F. Badley, et ux, concerning right of way needed for the proposed improvement of the Oregon Coast Highway across Mr. Badley's property at Otter Crest, Lincoln County. He exhibited a map showing the properties involved and recited the history of the events leading up to the present plan. He pointed out that according to the latest revised plan, Mr. Badley retains the overlook point between the old and the new highway locations on which is to be constructed a parking area for automobiles, and that he will be allowed only one point of access to this parking area from the new highway, although he is to be given two private accesses to the highway from his property on the east side of the highway. Also, according to the plan, the old roadway is to be left open for public use both north and south of the present overlook point with connections to the new highway at each end, otherwise, the probabilities are that the right of way will cost the State considerably more than the present appraised value. He also mentioned that the matter of price has been discussed with Mr. Badley who up to the present time has avoided giving a definite answer. The Chief Counsel also mentioned that the property is now under condemnation, although the State has been authorized by letter to enter upon the property. He also said that since complaint was filed in the case, a change has been made in the area to be obtained from Mr. Badley, so that the offer heretofore made by the former Chief Counsel, the late Mr. J. M. Devers, no longer is correct. He gave as his feeling that the pending case should be dismissed and a new complaint filed to fit present conditions. The Chief Counsel mentioned that the most recent appraisals of the property needed from Mr. Badley range from $12,050 to $13,150, and he advised that an offer has been made to Mr. Badley in the amount of the high appraisal. In the discussion of the matter the question arose whether or not the old highway should be kept open to a connection with the new highway both north and south of the overlook point. The feeling was expressed by the Engineer that the roadway north of the point should be closed. Chairman Chandler concurred therein. A decision in this matter was deferred by the Commission pending consultation with Mr. Badley's legal counsel, Mr. Dwight L. Schwab, Portland. The Chief Counsel was instructed to invite Mr. Schwab to be present at the afternoon session for a conference. (See ahead for additional paragraph covering conference with Mr. Schwab and the Commission's final action.)

The meeting recessed for luncheon at 12:00 Noon and reconvened at 2:00 p.m. with the same persons present and participating.

The following persons composed a delegation representing the U. S. Highway 26 Association which appeared before the Commission and urged certain improvements to highways included in U. S. Route No. 26: D. E. Scott, President, I. B. Hazeltine, Secretary, Philip Dale, Member, Earl Van Vorhis, Member, all of the City of John Day; A. R. Bowman and Joe D. Thomison, members, from Prineville; Oliver Earl, Madras; and Ed Way.

Mr. Scott explained the purpose of their appearance and, in support thereof, presented to the Commission signed copies of resolutions as follows: (1) Resolution from the Common Council of the City of John Day requesting the straightening and widening of U. S. Highway No. 395 between John Day and

Canyon City. (2) Resolution from the John Day Chamber of Commerce requesting improvement of U. S. Highway 395 from its connection with the John Day Highway, four miles west of the City of John Day northerly to a connection with the newly constructed highway at Beech Creek, twelve miles in length, and (3) Letter from the Oregon Committee, U. S. Highway 26 Association, requesting improvement of the John Day Highway between John Day and Mount Vernon; reconstruction of this highway between Mount Vernon and Flat Creek; improvement of the section between Cairo Junction and Vale, including a wye connection at Vale on Highway 26 and Highway 20, and a traffic separator; elimination of hairpin turns on US Highway 26 east of Mitchell; and major improvement of the Brogan Hill Section of U. S. Highway 26 by realigning to eliminate curves. Speaking on behalf of the resolutions in addition to Mr. Scott were Messrs. Dale and Van Vorhis. The resolutions were read aloud by the Secretary and were referred by the Commission to the Engineer for investigation and report.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements, or for other purposes, and to tender offers for the same in conformity with instructions given by the Commission in its resolution adopted on December 20, 1951:

Lapine-Forest Boundary Unit of the Lapine-Diamond Lake Junction of The Dalles-California Highway

			Recommended Offer
R 18023 -	Lawrence Harvey Kozowski Right of Way (Klamath) Parcel No. 1: 0.49 acre Parcel No. 2: 0.95 acre		*
R 18024 -	Margaret E. Clifford Right of Way (Klamath) 1.40 acres		*
R 18026 -	Jacob Wm. Schabener Right of Way (Klamath) Parcel No. 1: 23.69 acres Parcel No. 2: 0.48 acre		*
R 19368 -	Laverne Alexander Right of Way (Deschutes) 3.48 acres		*

Sylvan Section of the Sunset Highway

R 15882 -	Elmer R. Helmcke Right of Way (Multnomah) 436 sq. ft. of land at $0.25 per sq. ft. Cost of changing 20 feet of fencing	$109.00 41.00 $150.00	$150.00

City of Springfield Section of the McKenzie Highway

R 18797 - Albert Vik
Right of Way (Lane)
14,729 sq. ft.
(For offer authority, condemnation previously authorized) $15,300.00

Medford-County Farm and County Farm-Ashland Sections of the Pacific Highway

Property upon which Medford Irrigation District presently has easements for irrigation ditches within the highway right of way and property owned by others upon which to relocate irrigation ditches for the District

The Commission approved the request unanimously by adoption of the attached resolutions relative thereto, marked EXHIBIT "M-1" through EXHIBIT "M-2" inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission discussed and unanimously approved a written report from the Chief Counsel on the trial of the following cases:

(1) State vs George Brant, File L-1808, concerns right of way for the Salem By-pass Section of US 99E.

(2) State vs Clarence L. Stoddard, File No. L-1880, concerns right of way needed for the Hauser-North Bend Section of US 101, Coos County.

(3) State vs Darriell A. Gates, et al, File No. L-1882, concerns acquisition of right of way for the Hauser-North Bend Section of US 101, Coos County.

(4) State vs Rollin M. Falk, et ux, File No. 1895, concerns acquisition of right of way needed for the Forest Boundary-Hauser Unit of US 101.

(5) State vs Charlotte W. Kurth, et al, File No. L-1877, concerns acquisition of right of way for the Tigard-Tualatin River Unit of US 99W in Washington County.

(For details see copy of report in the General Files.)

The Commission also discussed and unanimously approved a written report from the Chief Counsel concerning settlement of the following cases:

(1) State vs Earl C. Law, et al, File No. L-1928, concerns acquisition of right of way for the Goshen-Creswell Section of the Pacific Highway, Lane County. Amount of settlement $12,500.

(2) State vs Edward F. Bolt, et al, File No. L-1872, concerns acquisition of land needed as right of way for the Hauser-North Bend Section of US 101, Coos County. Amount of settlement $2,000.

(For details see copy of report in General Files.)

November 24, 1952

The Commission discussed and unanimously confirmed an offer reported by the Chief Counsel for the purchase of land from Earl S. Butler, et ux, for use as right of way for improvement of the Reedsport-Luder Creek Section of the Umpqua Highway in Douglas County which offer was tendered to the owners prior to the institution of condemnation proceedings in conformity with authority granted by the Commission in its resolution adopted December 20, 1951. Amount of offer $1,900.

The Chief Counsel brought up for discussion the authority of the Commission to pay the judgment decided by the Court in the case of Karel Tomasek vs State Highway Commission, involving acquisition of property needed in connection with an improvement consisting of a bridge over the Santiam River and approaches thereto on the Steiwer Hill-Albany Section of the Pacific Highway East in Marion County, amounting to $13,500. He said there is nothing to prevent the Commission from paying the claim direct if it wishes to do so because the case was based on disputed facts which the plaintiff proved to the satisfaction of the court, and the findings of the court could be used as a basis for allowing the claim. He pointed out, however, that according to an opinion of the Attorney General, the State is a public corporation within the meaning of the statutes, so payment could be effected under the procedure provided by the Legislature for collection of judgments against public corporations. This statute, he said, in substance provides that the party in whose favor a judgment is given may present a certified transcript of the docket to the Secretary of State who is directed to draw an order on the State Treasurer for the amount of the judgment in favor of the party for whom the judgment was given. He recommended that the settlement of this judgment be effected under such procedure requiring submission of a transcript of the docket to the Secretary of State. The Commission approved the recommendation and so ordered.

The Chief Counsel brought up for discussion a proposed settlement of the case of the State Highway Commission vs William Meredith Luse for acquisition of 0.5 acre of land required as right of way for the Medford-County Farm Section of the Pacific Highway, control of access to the remaining land but reserving two commercial access points to the defendant. He recalled the original offer to Mr. Luse in the amount of $900, whereas Mr. Luse demanded $3,000 or $1,000 plus the cost of moving his buildings. Settlement was finally reached, he said, on the basis of paying Mr. Luse the sum of $1,000 for the property. He recommended approval of this settlement. The Commission approved the recommendation.

The Commission discussed and upon recommendation of the Chief Counsel unanimously approved the waiving and releasing of Catherine Pointer, widow of Lewis S. Pointer, her heirs and assigns, from all restrictions of access set out in a certain deed dated April 27, 1947 whereby the Pointers conveyed to the State certain property in Washington County needed as right of way for the Tualatin Valley Highway. In the discussion of the matter, it appeared that by inadvertence and mistake the deed contained certain restrictions as to access to the highway from the Pointer's remaining property, and the releasing of Mrs. Pointer now from those restrictions is simply to correct the error. (A form of "Release of Access Restrictions" was signed by the Commission later in the session.)

In this connection, the Commission also approved an "Indenture of Access" providing a temporary connection between the Pointer property and the Sunset Highway until such time as the State constructs a service road in conformity with the understanding reached when the Pointers deeded their property to the State. An "Indenture of Access" agreement covering the matter is to be presented to the Commission for execution at its regular meeting in January, 1953. (For details in this matter, see copy of Chief Counsel's written report to the Highway Commission, dated November 20, 1952 in General Files.)

The Engineer reported completion of surveys for the permanent locations for the following highway sections:

(1) Wilson River Highway between North Plains and Washburn in Washington County following the railroad grade heretofore abandoned by the United Railway Company.

(2) Deschutes County Line-Prineville Section of the O'Neil State Secondary Highway in Crook County.

(3) Portland-Salem Expressway from a point one mile south of the crossing of the Willamette River at Wilsonville to a connection with US 99E near Salem.

(4) Springfield Section of the McKenzie Highway utilizing a routing along South "A" Street in Springfield.

He exhibited maps showing the proposed location of each of these sections and explained details. He asked the Commission to approve the surveys as reported. In the discussion of this matter, the Engineer pointed out that the Commission previously had adopted a location for the Wilson River Highway Section following an alignment south of the old railroad grade which was then not available, so in the event the Commission adopts the present recommended location, it will be necessary for the Commission to formally rescind the previous action. He recommended that that be done. As a result of a full discussion concerning each of the highway sections, the Commission approved the surveys as reported and also rescinded the previous action with respect to the Wilson River Highway survey. The attached resolutions relative thereto, marked EXHIBITS "L-1", "L-2", and "L-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein, were thereupon adopted by the Commission by unanimous vote.

The Commission discussed the proposed agreement with the City of Springfield covering the South "A" Street Project in that city. The Engineer presented a copy of the agreement and pointed out that it had already been executed by the Mayor and the City Recorder. In the discussion of this matter, the question arose whether or not the City has contributed toward this project and has fulfilled all of its obligations as originally agreed to; also, whether or not the low bid received this date for the construction of the project is within the amount authorized by the Commission for the work. The Engineer advised that the City has paid the sum of $26,000 cash and has performed other things

pursuant to the original arrangement; also that the low bid received today by the Commission is less in amount than was originally anticipated so the project cost will be within the amount of the project authorization for this job. With this understanding, the Commission unanimously approved the agreement as prepared. (The agreement was signed by the Commission later in the session.)

The Chief Counsel brought to the attention of the Commission an option obtained by the City of Springfield from the Southern Pacific Company for the purchase of approximately 3.16 acres of land which is needed as right of way for the proposed highway improvement on South "A" Street in the City of Springfield. He pointed out that the option calls for a payment of $20,450 for the property whereas the property has been appraised by a Highway Department appraiser at $20,500 and by a professional appraiser from Eugene at $19,000. The option, he said, expired on November 15 but the railroad company has granted a 90-day extension of time within which to close the deal. The Chief Counsel mentioned certain provisions of the option including one whereby the State is required to secure and deliver to the railroad company releases, or surrenders of interest, held in the property by other persons under license, lease, or agreement with the company. These releases, he said, will be negotiated as far as is possible and if they cannot be settled satisfactorily in that manner, then he will resort to condemnation. He gave as his opinion that the provisions of the option including the purchase price are acceptable, and he recommended approval of the same by the Commission. The Commission approved the recommendation unanimously.

The Chief Counsel requested authority to commence action against Wendell M. DeLorme to recover the sum of $448.18 which represents the cost of repairing damage to the Steel Bridge ramps in Portland as a result of an automobile accident. The Commission approved the request.

Consideration was given by the Commission to a written report from the Chief Counsel on the acquisition of right of way for a state park access road across property owned by a Mr. Keith Phillips in Marion County. The Chief Counsel advised that 3.257 acres of land are involved and that the roadway is to provide access to the North Santiam Highway; further that the Commission authorized condemnation of the property at its meeting on November 8, 1951 and the making of an offer in the amount of $567.50 in connection therewith. He further stated that Mr. Phillips demands at least $1,750 for the property, but recently through negotiation with his attorney, Mr. Joseph M. Devers, Jr., he has agreed to accept the sum of $1,000. He recommended payment of such sum in order to consummate the matter and to avoid the cost of litigation. The Commission approved the recommendation.

The Chief Counsel brought up for discussion the condemnation case against I. R. Lawrence, et ux, concerning acquisition of right of way for the Divide-Anlauf Unit of the Pacific Highway in Douglas County. It appears that the new highway severs the Lawrence property, leaving his sawmill on one side of the highway and the logs to serve the sawmill on the other side; also that when the relocated highway is completed, the Lawrences will have access from one side of the highway to the other by means of a grade separation structure, but during the period when the highway is under

construction, they have no way to deliver the logs to the mill, and they allege that for that reason they have been forced to close down their mill operations, and they are going to try to recover damages. The Chief Counsel advised that a solution of the problem has been arranged with the State's contractor to move the logs across the highway by means of a crane and to dump them in the Lawrences' log pond, which arrangement is satisfactory to the Lawrences but will cost the State about $1,000 for the contractor's services. He recommended approval of the arrangement in order to avoid possible payment of damages. The Commission approved the recommendation unanimously.

The Chief Counsel requested authority to commence a specific performance suit against Tom Loe and Alice Loe for conveyance to the State for the sum of $525, 7½ acres of land which the State needs as a gravel pit in Malheur County. The Commission granted the request by unanimous vote.

The Chief Counsel also requested authority to commence a specific performance suit against Susie M. Robinson (now Susie M. Ayers) and Harry E. Ayers to enforce conveyance to the State of 1.2 acres of land for the sum of $200, said land being required as right of way for the Lapine-Forest Boundary Unit of the Lapine-Diamond Lake Junction Section of The Dalles-California Highway. The Commission approved the request.

Mr. Dwight L. Schwab, attorney for Mr. and Mrs. Wilbur F. Badley in the case of the State Highway Commission vs. Wilbur F. Badley, et ux, concerning acquisition of right of way for a proposed revision of the Oregon Coast Highway at Otter Crest, Lincoln County, was present, upon invitation of the Commission, regarding this case. Mr. Schwab stated that he knows very little about the case because it is being handled by his associate, Mr. Ralph Cake, who at the present time is out of the State. He did, however, recite events leading up to Mr. Badley's present demand of $30,000 for his property, mentioning therein that Mr. Badley was offered at one time by the Highway Commission's former Chief Counsel, Mr. J. M. Devers, $50,000 as settlement in full. Mr. Badley's present demand, he said, includes $24,000 for 32 one-half acre building lots at $750 each, $2,500 for five acres of land at $500 per acre, and $1,400 for additional land at $350 per acre, plus an allowance for about 239 MFBM timber growing on the property, and an additional amount for damage to Mr. Badley's barn. This price, he added, does not include anything as damages resulting from the highway being located within four feet of Mr. Badley's house and for loss of business; neither does it include anything for loss incurred by reason of Mr. Badley having had no control over his property for six years. He mentioned that Mr. Badley wants two accesses on the east side of the new highway left in a fluid condition until such time as he determines how to develop his property. He also mentioned a number of other things that are subject to discussion and agreement. In reply to an inquiry from Commissioner McIver as to how much Mr. Badley wants as settlement in full, Mr. Schwab stated that Mr. Badley will settle for the sum of $30,000 cash, and he suggested that if a satisfactory settlement cannot be reached soon at that figure, the pending case be allowed to rest on the docket until Mr. Cake returns.

The matter was discussed at considerable length during which Chairman Chandler advised that the previous offer made by Mr. Devers in the amount of

$50,000 was never authorized by the Highway Commission; moreover, Mr. Devers had no authority to make such an offer or to bind the Commission with it. He further stated that the Highway Commission has a Right of Way Department which carries on all dealings in connection with acquisitions of real property for right of way and for other purposes. In the negotiations, he said, an attempt is made to arrive at a fair figure to be paid for the property involved, and such figure is recommended to the Commission which accepts the recommendation if it is within reason. The Commission, he said, is not in position today to make a definite offer of settlement, but will discuss the matter among themselves, and will take action later. Mr. Schwab again stated that if agreement cannot be reached now as to the price to be paid Mr. Badley, that the entire matter be held up until Mr. Cake returns. He added that such action will not hold up construction of the highway across Mr. Badley's property, but that it can be carried on without interruption. He urged that the pending case be not dismissed until the matter has been discussed further with Mr. Cake, and if it is necessary to do something now, that the matter be taken care of by an amended complaint. The Commission's Chief Counsel recommended against such procedure and gave as his considered opinion that the present case should be dismissed and an entirely new case filed as soon as that can be done. This concluded the discussion. Following Mr. Schwab's departure, discussion of the matter was resumed, and the Chief Counsel again recommended dismissal of the pending case and the filing of an entirely new complaint. The Commission approved the recommendation unanimously on the motion of Commissioner Reynolds, duly seconded by Commissioner McIver.

The Engineer reported the results of investigations to safeguard traffic on US 101 at its intersection with the roadway leading to a community known as "Surf Pine" near Gearhart, Clatsop County, which matter was discussed with a delegation at a previous meeting. He advised that, owing to the hidden nature of the access road, as well as the narrowness of the road, illumination of the intersection is required to properly protect the public. He recommended installation of one mercury vapor luminaire unit at an estimated cost of $350, and, in addition thereto, that standard directional signs pointing to the community of "Surf Pine" be erected for public guidance, the cost involved to be financed as a 1953 minor betterment project. The Commission approved the recommendation.

The Commission discussed a report from the Engineer on a petition submitted by Mr. Robert Baker, Albany, requesting that the access road which extends along US 99E north of Albany be prolonged northerly about 2,100 feet to a connection with an existing county road. In his report, the Engineer advised that, when rights of way were required for the new highway north of Albany, access rights were also purchased and no provision was made where the State would ever be obligated to construct service roads or other facilities. The State, he said, is under no obligation whatsoever to construct any additional service roads; moreover, the residents have access to the same road they had before the new highway was built. He recommended that the request be denied. The Commission approved the recommendation. (A delegation appeared before the Commission the following day regarding this matter and were advised of the Commission's action. See paragraph ahead.)

The Commission discussed, and upon recommendation of the Engineer, unanimously approved reclassification of the following highways from a Group II status to a Group I status, it appearing that these highway sections, based upon test runs conducted in conformity with the provisions of Chapter 405, Laws of 1951, will accommodate truck-trailer combinations 60 feet overall in length without creating a hazard to other highway traffic:

1. Hillsboro-Silverton Secondary Highway No. 140 from M. P. 39.58, junction with the Pacific Highway East at Woodburn, to M. P. 46.57, Mount Angel.

2. Alsea Highway No. 27, from M. P. 40.38, Alsea, to M. P. 59.11, junction with the Corvallis-Newport Highway near Philomath.

3. Corvallis-Newport Highway No. 33, from M. P. 51.00, junction with Alsea Highway No. 27 at Philomath, to M. P. 57.32, Junction with Pacific Highway West at Corvallis.

4. McKenzie-Bend Highway No. 17 from Tumalo (M. P. 14.68) to a junction with US 97 (M. P. 20.07) near Bend.

5. Tiller-Trail Secondary Highway No. 230 from Canyonville junction with US 99, to Tiller, M. P. 23.58.

The Engineer reported that a recent investigation of the Cottonwood Canyon Bridge over the John Day River on the Wasco-Heppner Secondary Highway reveals that temporary supports have been installed and it is now satisfactory to remove the 15-ton reduced load limit heretofore in effect on this structure and to restore legal weight loads, provided the bridge is operated on a one-way traffic pattern and as long as the supports are maintained under the steel trusses. He recommended appropriate action by the Commission in removing the existing 15-ton load limit and the posting of the bridge for one-way traffic with the understanding that should high water or other elements wash out the supports, the reduced load limit would be restored immediately. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that it no longer is necessary to maintain the reduced load limit, which has been in effect since November 8, 1951, on the North Santiam Secondary Highway between DeWitt's Road, approximately three miles west of Mill City, and a point $1\frac{1}{4}$ miles easterly therefrom in Marion County. He recommended that the restrictions be lifted and legal weight loads be restored. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Chief Engineer reported to the Commission that on November 3, 1952, State Highway Commission weighmasters stopped and weighed on the Powers Secondary Highway, State Highway No. 242, a combination of vehicles, consisting of a truck-tractor equipped with rear tandem axles, PUC Permit No. 3-34531, and a pole trailer with tandem axles, PUC Permit No. 3-34532, loaded with logs, the gross weight of which was 95,400 pounds, being 35,400 pounds in excess of the permissible weight of 60,000 pounds allowed, pursuant to the provisions of Section 11, Chapter 405, Oregon Laws 1951. The rear tandem axles of the truck-tractor had a gross weight of 38,600 pounds, and the tandem axles of the pole trailer had a gross weight of 49,600 pounds. The combination of vehicles was being operated without any permit from the State Highway Department. The Combination of vehicles is registered in the name of Leland W. Post, and the driver was Lyle McCulloch, Jr. The Chief Engineer further reported that since the total weight of the rear tandem axles of the truck-tractor and the tandem axles of the pole trailer exceeded 66,000 pounds, even had the combination of vehicles been operating pursuant to permit issued by the Highway Department, all weight in excess of 32,000 pounds on each of the tandem axles would have been in violation of the law, thereby amounting to an excess weight 6,600 pounds on the rear tandem axles of the truck-tractor, and an excess weight of 17,600 pounds on the tandem axles of the pole trailer. The Chief Engineer advised that engineering studies have clearly shown that any tandem axle weight in excess of 34,000 pounds on the type of road involved in this violation does serious damage to the highway roadbed. After considering all of the facts involved, the Highway Commission determined that the instant violation constituted an extraordinary use of the highway in carrying a load so greatly in excess of the weight authorized by law, that such excess weight is destroying the highway, and that it is necessary to discontinue such use in order to preserve the highway, and the Commission directed its Secretary to advise the Public Utilities Commissioner that the Commission recommends the immediate revocation of the authority issued by the Public Utilities Commissioner to Leland W. Post for the transportation of logs, poles or piling over state highways, which recommendation is made pursuant to the provisions of Section 13, Chapter 467, Oregon Laws 1947, as amended by Chapter 31, Oregon Laws 1951.

The Engineer reported the results of receiving bids in Salem on November 12, 1952 for the purchase of used equipment and scrap materials located at Salem. He recommended acceptance of the high offer in each instance, except that all offers for items No. 8 and No. 16, being a Ford dump truck, Department No. 41-342 and Chevrolet dump truck, Department No. 41-208, be rejected as being too low. The Commission approved the recommendation unanimously. (For details see the tabulation of the bids filed in the office of the Secretary under File No. 461, "Miscellaneous Proposals".)

A report was rendered by the Engineer on a request from the City of Brookings, Curry County, that the State deed to the City all rights of way now owned on either side of the Oregon Coast Highway between Pacific Avenue on the south and a point about 1,500 feet northerly therefrom, in excess of a standard 100-foot width right of way, measured 50 feet on each side of the center line of the new highway. He recommended approval of the City's request on the condition that the City will designate and construct at its own cost and expense frontage

roads at least 30 feet wide on both sides of the highway, will extend the existing drainage pipes under the highway, and will further agree to limit access to the highway to either end of the frontage roads. The Commission approved the recommendation and ordered the matter covered by a written agreement with the City. The Commission also ordered that the City be not allowed to do any work in connection with their project until the agreement has been signed.

The Commission discussed a report from the State Highway Engineer on the status of Forest Highway programs covering the fiscal years 1952 and 1953. The report indicates that all but seven of the projects contemplated in these programs have been placed under contract, and that the reason that these seven projects have not been contracted is because of the failure of the Congress to appropriate funds to finance them. The Commission took no action on the report.

The following members of the State Highway Commission of the State of Washington and its staff were present to discuss with the members of the Oregon State Highway Commission matters pertaining to construction of a new interstate bridge across the Columbia River between Portland, Oregon, and Vancouver, Washington: George B. Simpson, Acting Chairman; L. B. Wallace, Commissioner; R. A. Moisio, Commissioner; H. C. Higgins, Secretary; Wm. A. Bugge, Director of Highways; and J. A. Cobley, Commission Attorney.

Mr. Simpson was spokesman for the Washington group. He briefly outlined present plans to construct a second bridge about 80 feet downstream from the existing one which, he said, is now working against maximum capacity, but will serve adequately one-way traffic northbound, for a long time, southbound traffic to be served by the new structure. He also mentioned that the proposed bridge is estimated to cost about $10,000,000 and that it is impossible to use Washington gas tax money to finance it, so it is their feeling that both structures should be made toll bridges, the monies derived from toll charges to be used to pay off the indebtedness of construction. In this connection, he added that, while the Washington Commission has authority to place a toll on the new structure, it does not have such authority with respect to the old one, but necessary legislation will be obtained. Mr. Simpson also mentioned that it is the feeling of their Engineers that the tolls will pay off the indebtedness in ten or eleven years; also, that the Governor of the State of Washington is in favor of their plan. He gave as his understanding that the Oregon Highway Commission also has no authority to place tolls on the old bridge and he suggested, in view thereof, that both Commissions join in a recommendation to the legislatures of both states that each be granted such authority.

Chairman Chandler advised that the Oregon State Highway Commission has discussed this project and has concluded that it would be unwise from the Oregon standpoint to divert regular highway funds from its adopted program to finance the proposed bridge, notwithstanding the fact that it may be needed to take care of traffic; however, the Oregon Commission is inclined to join in the undertaking if bonds can be sold through the Washington toll bridge authority to provide the necessary funds with which to finance the new structure. On that condition, and with the understanding that both bridges are to be toll bridges, he

said, Oregon will cooperate and will authorize the Engineering Department to assist in preparation of designs, etc.

Mr. Bugge outlined the procedure that has been devised for handling the financing, design, construction, and maintenance of the new structure which, briefly, is that Oregon will prepare designs and supervise construction, and Washington will sell revenue bonds and handle the financing. Maintenance of both structures will be handled in the same manner that the existing structure is being maintained by both departments.

As a result of the discussion, motion was made by Commissioner McIver that the Oregon Highway Commission join with the Washington Highway Commission in a joint resolution with respect to this mutual project. The motion was seconded by Commissioner Reynolds and carried unanimously.

The matter was then referred to the legal counsel of both Commissions to prepare a form of joint resolution in conformity with the action taken. The resolution, as follows, was prepared and reported back later in the session when it was discussed, adopted, and signed by both Commissions unanimously, with the understanding that right of way expense must be included in and provided for, in the financing of the project and that the entire matter shall be covered in detail by written agreement between both states.

JOINT RESOLUTION BY THE WASHINGTON STATE HIGHWAY COMMISSION

and

THE OREGON STATE HIGHWAY COMMISSION

WHEREAS, the States of Washington and Oregon, acting through their legally constituted authorities, the Washington State Highway Commission and the Oregon State Highway Commission, have jointly met and considered a mutual problem pertaining to roads and bridges between their respective states, and

WHEREAS, after considerable study and research the respective highway commissions of each state have mutually agreed upon the need for the construction, maintenance and operation of a second interstate bridge, including approaches thereto in both states, across the Columbia River between Portland in Multnomah County, Oregon and Vancouver in Clark County, Washington, adjacent to the existing interstate bridge, to adequately handle the present and ever-increasing traffic between said states, and

WHEREAS, the construction of said proposed new bridge, including approaches thereto in both states, should be financed by the sale of bonds with the principal and interest thereon to be paid from toll charges to be imposed on the existing bridge and the proposed new bridge, when built, with the result that both bridges would be toll-free in a comparatively short period of time,

NOW THEREFORE, BE IT RESOLVED by the Washington State Highway

Commission and the Oregon State Highway Commission, acting as individual bodies and collectively, that said commissions do hereby petition their respective legislatures of the States of Washington and Oregon, as may be next assembled in said states, for legislative authority to be granted to the appropriate state agency or commission, if such agency or commission does not otherwise have authority, to erect and maintain as an integral part of U. S. Highway No. 99 a new highway bridge, including approaches thereto in both states, across the Columbia River adjacent to the present existing interstate bridge.

BE IT FURTHER RESOLVED that these respective highway commissions petition for legislative authority to be granted to the appropriate state agency or commission, if such agency or commission does not otherwise have authority, to impose and collect tolls for all uses of both the existing interstate bridge and the proposed new bridge between said states, for the purpose of creating revenue to pay the cost of construction of said new bridge, including approaches thereto in both states, payment of interest on bonds, and the cost of maintaining and operating both said bridges while said bridges are operated as toll bridges.

BE IT FURTHER RESOLVED that the said commissions do respectfully petition the respective legislatures of said states to provide for legal authority to be granted to the appropriate agency or commission of such states, if such agency or commission does not otherwise have authority, to enter into agreements for the construction of said new bridge, for the maintenance and operation of both said bridges, to provide for the necessary funds therefor, and the imposing and collecting of tolls as may be necessary to accomplish said purposes.

BE IT FURTHER RESOLVED that both said bridges shall be operated as toll-free bridges when said bonds have been retired and all interest thereon paid.

Adopted at a joint meeting of the Washington State Highway Commission and the Oregon State Highway Commission at Portland, Oregon, this 24th day of November, 1952.

WASHINGTON STATE HIGHWAY COMM.

/s/ R. H. Baldock
Chief Engineer

A letter was presented from the County Court of Clackamas County regarding the closure of a county road known as the Boeckman Road in connection with construction of the Portland-Salem Expressway about one mile north of Wilsonville. In his written report on this matter, dated November 18, 1952, the Engineer recited the history of this road closure, particularly pointing out that it was originally planned to construct an overhead crossing at this point, but later it was determined that the cost of the overcrossing structure is not presently justified, and in lieu thereof, frontage roads were constructed along the expressway to take care of local traffic; also an agreement was reached with the County Court in writing with respect to the closing of the county road, and the contract for the construction of the highway project included provision for the frontage roads which are now being built at a cost of approximately $10,000. The County Court, he said, will appear before the Commission on the following day to request the reopening of the case and the construction of the overhead structure as originally planned, for the benefit of local people who strenuously object to adherence to the current plan. He recommended adherence to the present plan which provides for the construction of frontage roads rather than the overhead structure. In confirmation of the Commission's previous action of the matter, the Commission approved the recommendation unanimously. (The Clackamas County Court and a number of local citizens affected by this improvement were present on the following day, and strongly urged construction of the overhead structure. As a result of discussion which brought out a number of features that heretofore were unknown by the Engineer and the members of the Commission, the Commission referred the matter back to the Engineer for further study and a review of the entire situation, it being the feeling of the Commission that if the Commission erred in its previous decision, the mistake should be rectified. (See ahead for additional paragraph.)

The Engineer reported the results of the receiving of bids in Salem on November 17, 1952 for the purchase of the ferry boat, "Charles Enegren", and for the purchase of the auxiliary boat, "Susan G", both of which have been in opera-

tion at a place known as "Enegren Crossing" on the Coos River, Coos County, until recently when ferry operations were replaced by a bridge structure. He advised that only one bid was received for the purchase of the "Charles Enegren", being that of Harbor Tug and Barge Company, Coos Bay, at $656 and that two bids were received for the purchase of the "Susan G", being those of Keith R. Elliott, Coos Bay, at $150 and of Joseph F. Rozinski, Coos Bay, at $102. He recommended acceptance of the offer of Keith R. Elliott for the purchase of the "Susan G" and that the bid of the Harbor Tug and Barge Company for the purchase of the "Charles Enegren" be rejected and authority be granted to negotiate the private sale of this boat. The Commission approved the recommendation unanimously, and so ordered.

The Engineer asked the Commission to confirm oral authority previously given him to advertise for bids to be received at the November meeting of the Commission for five rock production projects as follows: (1) Canyon Creek-Poison Creek Section of the John Day-Burns Highway, $53,000; (2) Juntura-Harper Section of the Central Oregon Highway, $27,200; (3) Jordan Valley Rock Production project on the I. O. N. and Jordan Valley Secondary Highways, $55,440; (4) Endicott Creek-Mystic Creek Section of the Coos Bay-Roseburg Highway, $36,700; and (5) Madras Rock Production Project on the Warm Springs Highway, The Dalles-California Highway, the Madras-Prineville and Culver Secondary Highways, $70,000. The Engineer explained that these projects are to be financed with 1953 funds, provision for which has been made in the construction budget for that year, and that it is quite necessary to get these jobs underway early in order to have material available at the earliest possible time for seasonal maintenance work. The Commission approved the request unanimously.

A petition was presented from residents of Pine Valley, Baker County, requesting the graveling and oiling of the Pine Creek Secondary Highway for a distance of 3.8 miles easterly from the Town of Halfway. The Engineer advised that investigation of this highway section reveals that, as is the case of most gravel surfaced roads, it is impossible to maintain a roadway in a smooth and dustless condition during the dry season, although it can be maintained in a satisfactory condition when there is sufficient moisture present to permit blading. He further advised that to improve the road as requested, will require placement of additional stabilizing rock. He estimated the cost of performing such work, including a light type oil surface, at $60,000 for the entire section. He pointed out that the road carries very little traffic east of the Town of Halfway, but the volume is considerable at its intersection with the highway in Halfway. He also pointed out that from the State-wide standpoint, the priority of this project is low, and he advised he could not recommend an allocation of State Highway funds to improve the road in the immediate future because it would mean diversion of funds from other projects that have higher priority status. The Commission denied the petition.

The Engineer reported that the towns of Clatskanie, Dayton, and Hammond have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds that accrued to them during the last half of 1951, and that the cities and towns of Aurora, Creswell, Echo, Gervais, Imbler, Ione,

Island City, Long Creek, Malin, Monument, Pilot Rock, Rogue River, Siletz, Wheeler, Yamhill, and Yoncalla have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds that accrued to them during the first half of 1952; also, that the plans for the improvements proposed to be financed with such funds have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolutions relative thereto marked EXHIBITS "G-1" and "G-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer reported that in the construction of the T. H. Banfield Expressway east of the city limits of Portland it is necessary to rebuild portions of the Halsey Street and 102d Avenue overcrossings of the Union Pacific Railroad in connection with which it is necessary to remove and reinstall a 10-inch water main owned by the Hazelwood Water District. This district, he said, is in no position financially to assume the expense involved which is estimated to cost $4,500, and he recommended that this work be done as a part of the highway construction project at the sole expense of the State. He recalled that it has been the custom of the Highway Department in the past to take care of such items. The Commission approved the recommendation.

Consideration was given by the Commission to a request from the County Court of Coos County for permission to construct a new county road connection with US 101 on the north side of Singlehouse Slough. The Court explained that a bridge on the existing road is badly in need of replacement, and, if the Commission will approve the change requested, the County will be saved the expense of a new structure. The Engineer advised that plans for the new highway at this point provide for the new connection requested by the County Court since it will afford a much better connection than the existing one. He recommended approval of the request. The Commission approved the recommendation.

The Commission approved a report from the Engineer advising satisfaction of conditions governing the awards of the following contracts and also advising that contract and bond forms have been prepared and forwarded to the respective contractors puruant to the Commission's instructions:

(1) Construction of Bullards Ferry Bridge over the Coquille River in Coos County. Bids received September 23, 1952, conditions satisfied October 20, 1952. Carl M. Halvorson, Inc. successful bidder.

(2) Grading and paving on the Willamette River-Marion County Line Unit, Barbur Boulevard-White School Section of the West Portland-Hubbard Highway, Clackamas County. Bids received September 23, 1952, conditions satisfied October 31, 1952. Roy L. Houck & Son successful bidder.

The Engineer requested authority for increases in project authorizations for a number of State Highway projects. He presented a list of the projects, as follows, and he gave reasons why the cost of each project overran the amount originally authorized for them:

(1) $46,500 increase on Contract No. 3474, Judkins Point-Goshen Section of the Pacific Highway.

(2) $57,000 increase on Contract No. 3456, East Unit, La Grande-Ladd Canyon Grading and Topping Project.

(3) $3,000 increase on Contract No. 3755, Replacement of Expansion Joint Plates at the Oregon Slough Bridge between Portland and Vancouver.

(4) $33,000 increase for Contract No. 3355, Brookings-California State Line Section of US 101, Grading and Paving Project.

The Commission unanimously approved the increases as requested.

A request was presented from residents of the Cedar Mill district, west of Portland, for installation of a traffic control signal at the intersection of Murray Road and the Sunset Highway in this locality, as a protection for vehicular and pedestrian traffic that are obliged to cross through this intersection. The Engineer advised that many complaints have been received with reference to the hazardous condition at this point which is an important one in an area which is rapidly developing as a residential district. The conditions obtaining at the intersection, he said, have been carefully studied and it has been determined that protective measures should be taken, and that a solution of the problem would be construction of a turnout for cars making left turn movements in the intersection, and the lighting of the intersection. He estimated the cost to construct such turnout and to install two luminaire units at about $4,000. He recommended approval of the expenditure in 1953 as a minor betterment project. The Commission approved the recommendation.

A resolution was presented from the Common Council of the City of St. Helens requesting installation of a traffic signal at the intersection of US 30 and Columbia Boulevard in St. Helens where it is alleged that existing conditions constitute a serious hazard for both vehicular and pedestrian traffic. The Engineer advised that this matter has been the subject of investigation by the Traffic Engineer on several occasions in the past, but the signalization requested was denied because the conditions prevailing did not meet the requirements; however, a recent investigation reveals changed conditions and there now is warrant for installation of a fixed-time traffic signal which is estimated to cost about $3,500. He recommended approval of the installation on the condition that the city will pay 50 percent of the installation cost, will maintain the signal after it is installed, and will pay the cost of operating it. The Commission approved the recommendation unanimously and ordered the matter covered by written agreement.

The Commission discussed and upon recommendation of the Engineer denied a suggestion offered by Mr. W. E. Thomas, Medford, that traffic control lights be installed at the intersection of East 8th Street and Riverside Avenue (US 99) in Medford. It appears from the Engineer's report on the subject that neither the traffic volume nor the pedestrian volume meet the minimum

warrant for signal installation; moreover, the accident record for the intersection is only one-fifth of that given for signal warrant.

The Engineer reported the need for a traffic signal installation at the intersection of the Dallas-Coast Highway (ORE 22) and the Salmon River Highway (ORE 18) near Wallace Bridge crossing of the Yamhill River. He explained that the Dallas-Coast Highway approaches the Salmon River Highway on a long steep grade at this point, and whereas traffic from the Dallas-Coast Highway is supposed to stop before entering the other highway, many vehicles do not respect the sign and as a result accidents frequently occur, some 22 accidents having taken place during the past five years. In order to correct the condition, he recommended installation of a flashing beacon over the intersection and two luminaire units to give more visibility to the stop sign, all of which is estimated to cost about $670. The Commission approved the recommendation.

The Commission discussed and upon recommendation of the Engineer denied a request from the City of Milton-Freewater for installation of a "stop and go" light and a pedestrian "wait-walk" light at the corner of Main Street and Elizabeth Street in that city, it appearing to the Commission from facts presented by the Engineer that the signals are not warranted at this time.

The Commission also denied a request from the City of Brownsville for installation of a "blinker" light on ORE 228 (Halsey-Sweet Home Secondary Highway) at its intersection with Main Street in the City of Brownsville, it appearing from the Engineer's report on the subject that the installation is not warranted under present conditions. In this connection, the Engineer advised that the highway at this point is posted for maximum 25-mile per hour speed and that in order to help correct the situation complained of, he has ordered the reduced speed sign moved to a point where it will be more visible.

A petition was presented from residents and property owners of the City of Seaside requesting installation of some type of traffic control at the intersection of US Highway No. 101 and Twelfth Avenue in Seaside, as an accident prevention measure. The Engineer advised that investigation of this intersection reveals that a signal installation is not warranted at this time. This intersection, he said, is now posted for 25-mile per hour maximum speed, and the only practical solution of the city's problem is better law enforcement of the speed restriction and caution on the part of pedestrians. He recommended that the request be denied. The Commission approved the recommendation.

The Engineer requested authority to join with the Southern Pacific Railroad Company in the installation of traffic signals at the railroad grade crossing on the Beaverton-Aurora Secondary Highway just west of a place known as Progress. He said that during the last six years, three persons have been injured at this crossing and one has been killed, also that the crossing is high on the priority list for signalization. The estimated cost of the installation, he said, has been determined by the Southern Pacific Company at about $7,220, one-half of which the company has stated it will pay if the State contributes the balance; moreover, the company will maintain the signals at its own cost and expense. The Commission unanimously approved the installation on the condition that the Railroad

Company will pay one-half the cost involved and will maintain the signals. The matter is to be covered by a written agreement between the Railroad Company and the State.

The Commission discussed a request from the Yamhill Chamber of Commerce for installation of a four-way stop light on the Tualatin Valley Highway at the intersection of Main and Maple Streets in the City of Yamhill. The Engineer advised that the point of discussion is the intersection of the Tualatin Valley Highway and the Yamhill-Newberg Secondary Highway, and that it is currently protected by a flashing beacon. The volume of vehicular traffic that enters this intersection, he said, is below the nationally accepted warrant for signalization; moreover, the accident record is favorable. He recommended that the request be denied and that the existing flashing beacon be maintained in service as it now exists. The Commission approved the recommendation.

Consideration was given by the Commission to the following requests for extensions of time within which to complete highway contracts:

(1) H. G. Wirtz, Contract No. 3653,for construction of a Highway Maintenance Building at Port Orford in Curry County, requested an extension of time of 49 days, from July 31, 1952 to and including September 18, 1952, within which to complete this job. He stated he was delayed because of range boiler changes, and so was unable to complete the job within the specified time limit. The Engineer advised that the contractor had considerable difficulty in obtaining some of the plumbing required in the building and also in getting delivery of the roofing material. When the contractor could get the material, he added, the job was pushed as well as could be expected. He, therefore, recommended the extension of time as requested be granted without penalty. The Commission approved the recommendation.

(2) Western Paving and Construction Company, Contract No. 3733, for paving city streets in Delake, Newport, and Toledo on the Oregon Coast Highway in Lincoln County, requested an extension of time of 9 days, from September 30, 1952 to October 9, 1952, within which to complete this job. The contractor gave as reasons for his failure to complete the job within the specified time limit rainy weather which delayed finishing work at Delake, longer time required to move and set up plant at Newport than expected, and delay by railroad company in raising tracks and installing drain on Toledo job. The Engineer advised that the work was delayed by failure of the Railroad Company to raise its tracks to the new pavement grade, thus delaying the paving until this work was done. In view of the reasons stated, he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

(3) Leslie Harris, Contract No. 3795 for grading and oil mat surfacing on the East Connection, Boardman Junction Section of the Columbia River Highway in Morrow County, requested an extension of time of 30 days,from September 30, 1952 to October 30, 1952, within which to complete

this work. He alleged that the contract was awarded over Labor Day weekend and was also held up until right of way was secured. The Engineer advised that since delay in acquisition of right of way on this unit shortened the working time to 31 days, it was not sufficient time for the actual prosecution of the work. The delay, he said, was not the fault of the contractor and the State was not inconvenienced by the overrun. He added that the project was actually completed on October 22, 1952, in view of which he recommended that the extension of time be granted to that date without penalty. The Commission approved the recommendation.

(4) N. A. Toole Construction Company, Contract No. 3642, for Rock Production on the Unity Junction-Mill Gulch Section of the Baker-Unity Highway in Baker County, requested an extension of time of 122 days, from July 31, 1952 to November 30, 1952, within which to complete the job. The contractor gave the following reasons for his failure to complete the job within the specified time limit; "Because no one else was available for the crushing at the time, it was necessary for us to crush materials for the Evans Corner Job, near Ontario, for the principal contractor before moving on projects we had already contracted. Also we had difficulty on two state highway jobs in screening the 1/4" - No. 10 item because our materials were damp." The Engineer advised that this contractor subcontracted the crushing of materials for the Evans Corner contract near Ontario and was requested to complete this work in time so that oiling might be done this season; also that he was required to re-screen some materials crushed on two other contracts because these materials were unsatisfactory due to extreme moisture which did not permit proper gradation. He gave as his opinion that Mr. Toole has undertaken slightly more work than he was able to handle within the specified time limit but added that Mr. Toole has been working continuously and is a very good rock producer, and in view thereof, he recommended the extension of time as requested be granted without penalty. The Commission approved the recommendation.

(5) Electric Corporation, Contract No. 3689, for installation of traffic signals in Woodburn on the Pacific Highway East, Marion County, requested an extension of time of 91 days, from August 31, 1952 to November 30, 1952, within which to complete this job. The contractor alleged that even though the signals have been in operation since September 19, he has been unable to complete the job 100 percent due to uncertain delivery of one box extension, but shipment has been promised in October and it will be installed immediately upon arrival. The Engineer advised that the reasons given by the contractor for overrunning the specified time limit are correct, and in view thereof, he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

(6) Electric Corporation, Contract No. 3650, for installation of traffic signals on the Pacific Highway in Corvallis, Benton County, requested an extension of time of 91 days, from August 31, 1952 to and including November 30, 1952, within which to complete this work. The contractor gave as

his reason for failure to complete the job within the specified time limit uncertain delivery of box extensions and three spare keys for controller. He further stated that the traffic signals have been in operation since September 12th, and as soon as shipment of these items is received, which is promised for sometime in October, they will be installed immediately. The Engineer confirmed the reasons given by the contractor, and in view thereof, he recommended that the extension of time be granted without penalty. The Commission approved the recommendation.

(7) The United Contracting Company, Contract No. 3711, for grading and paving The Dalles Section of the Columbia River Highway in Wasco County, requested an extension of time of 30 days, from October 31, 1952 to November 30, 1952, within which to complete this contract. The contractor alleged that the overrun in time limit was caused by interference by the City in installing water mains on some of the streets to be paved and the City's failure to remove an old railroad track. The Engineer advised that the reasons given by the contractor for the delay in the work on this contract are correct. He recommended, in view of the circumstances, that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

(8) United Builders, Inc., Contract No. 3692, for construction of a Maintenance Building on the Wilson River Highway in Tillamook County, requested an extension of time of 57 days, from August 31, 1952 to and including October 27, 1952, within which to complete this contract. They stated that due to extra work which was required, they were unable to complete the work within the specified time limit. The Engineer advised that the building was completed by the specified completion date with the exception of minor adjustments and the addition of some drainage facilities which were not included in the original contract. He also said that the State took possession of the building and has been using it since the contract completion date. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

(9) Warren Northwest Inc., Contract No. 3699, for paving city streets in Silverton (McLaine Street and West Main Street), Marion County, requested an additional extension of time of 30 days, from September 15, 1952 to October 15, 1952, within which to complete this job. They attributed their failure to complete the job within the previously extended time limit to the decision of the City of Silverton at a late date not to raise the manholes within the paving operations as was originally planned. The Engineer advised that the plans for this project provided that the City of Silverton would raise the manholes to conform with the new paving. However after the project was underway, the City determined that it could not do this work, and it was handled by the contractor as a force account item. Because of this additional work, he said, an overrun of time resulted, but no inconvenience was caused either the City orthe State. He recommended that the extension of time

as requested be granted without penalty. The Commission approved the recommendation.

(10) John A. Logan, Contract No. 3629, for grading and rock surfacing the Catching Slough-Enegren Ferry Section of the Coos River Secondary Highway in Coos County, requested an extension of time of 90 days, from October 31, 1952 to January 31, 1953, within which to complete the work. He gave as his reason for overrunning the specified time limit the late delivery of corrugated metal pipe for spillways. The Engineer advised that all work specified within the contract was completed by the specified completion date. The contractor, however, was ordered to place metal drain troughs to be used as spillways, but was handicapped in performing the work by slow delivery of necessary materials. The overrun of time, he said, will cause no inconvenience to the traveling public nor increased cost to the State, in view of which he recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

(11) O. C. Yocom and J. C. Compton, Contract No. 3706, for paving city streets in Carlton, Yamhill, and Lafayette in Yamhill County, requested an additional extension of time of 15 days, from September 30, 1952 to October 15, 1952, within which to complete the work on this job. The contractor gave the following reason for his failure to complete the work within the previously extended time limit: "Paving work being done on the Lafayette-McMinnville Section simultaneously with this project, and it seemed more important to complete roadway on that section before doing approaches on this project." The Engineer advised that the paving work on this project was completed prior to September 30, but the additional time requested was needed for completion of the shoulders, raising of manholes and miscellaneous cleanup. The State, he said, has incurred no additional expense for engineering supervision, neither has the traveling public been inconvenienced by the delay. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

(12) General Construction Company, Contract No. 3511, for widening of the Columbia Slough Bridge on the Pacific Highway East in Multnomah County, requested an additional extension of time of 17 days, from September 30, 1952 to October 17, 1952, inclusive, within which to complete this job. They attributed their failure to complete the work within the previously extended time limit to lack of good painters. The Engineer advised that the contract completion date was originally set for May 31, 1952, that the time had been extended to September 30, 1952, and that all work on the contract was completed by October 17, 1952. He pointed out that the project was delayed by structural steel shortages, but the bridge was opened to unrestricted traffic use before the expiration of the previous time extension. In view of these circumstances, he recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring threin. The Commission approved the recommendation.

(13) General Construction Company, Contract No. 3532, for hydraulic embankment on the Hood River-Mosier Section of the Columbia River Highway in Hood River and Wasco Counties, requested an extension of time of 230 days, from May 31, 1952 to January 15, 1953, within which to complete this contract. They gave the following reason for their failure to complete the contract within the specified time limit: "Due to extra fill being placed and delay in rock toe dike being completed which changed our program on filling, which in turn caused us to have our dredge out in extreme rough water this summer which caused a very big delay in our yardage pumped." The Engineer advised that because of the failure of another contractor to construct the rock toe for this project on time, the General Construction Company was obligated to operate its dredge during extreme rough water during the summer months. He added that the project was actually completed on November 14, 1952, and in view thereof, he recommended that the extension of time be granted to that date without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

(14) J. N. Conley, Contract No. 3558, for grading and structures on the Big Creek Section of the Columbia River Highway in Clatsop County, requested an extension of time of 94 days, from June 30, 1952 to October 2, 1952, within which to complete this job. He gave as his reason for overrunning the specified time limit adverse weather conditions in the spring months. The Engineer advised that extremely heavy precipitation in the early spring saturated the materials to such an extent that the contractor was unable to efficiently operate his equipment, and, although he attempted to complete this work within the specified time, he was unable to do so because of the extreme moisture content of the materials. He recommended, in view thereof, that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

(15) Rogers Construction Company, Contract No. 3627, for paving the Stout Creek-Mill City Section of the North Santiam Highway in Marion County, requested an extension of time of 92 days, from September 30, 1952 to December 31, 1952, within which to complete this job. They alleged they overran their time limit because the grading work, expected to be completed by May 31, 1952, was not actually finished until August 15, 1952, and the bridge, anticipated to be completed by August 31, 1952, is expected to be finished in January or February, 1953. The Engineer advised that specifications for this project stated that the grading would be completed by another contractor by May 31, 1952, but this work was not completed until August 15, resulting in considerable delay to the paving contractor. He also stated that the job actually was completed on November 1, 1952, in view of which he recommended that an extension of time to November 1, 1952 be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

(16) Loyd Calkins Company, Contract No. 3541, for grading, surfacing and construction of a bridge on the Bridge Creek Section of the Ochoco Highway in Wheeler County, requested an additional extension of time of 151 days, from January 15, 1952 to June 14, 1952, within which to complete this project. They attributed their failure to complete the job within the previously extended time limit to the following: "(1) Subcontractor did not get his work done, and (2) it was too late in the fall for subcontractor to get material and get work done before cold weather set in." The Engineer advised that the contractor was forced into unanticipated winter weather because of difficulty in securing steel for the bridge structure, and, due to the extremely cold winter, he could not satisfactorily handle the concrete work on the bridge which circumstances resulted in delaying the grading at the bridge ends. In view of the findings, he recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

(17) Bechtel Brothers, Contract No. 3540, for construction of the Wallowa Lake State Park Camping Area in Wallowa County, requested an additional extension of time of 42 days, from June 30, 1952 to August 11, 1952, within which to complete this project. They alleged they were unable to complete this job within the specified time due to the inability of the plumbing contractor to get materials necessary to complete the job as required. The Engineer advised that the specified completion date was November 30, 1951 but was previously extended by the Commission to June 30, 1952. He pointed out that all work was completed on this project within the time granted by the previous extension with the exception of minor adjustments in the plumbing installations, and that all facilities had unrestricted public use during this time. He recommended in view thereof that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

(18) Lindstrom Brothers, Inc., Contract No. 3587, for construction of a bridge over the East Fork of Hood River on a county road at Dee in Hood River County, requested an extension of time of 91 days, from August 31, 1952 to and including November 30, 1952, within which to complete this project. They alleged their failure to complete the job within the specified time limit was due to high water resulting from melting snow in the higher regions upstream, and because the foreman on the job left their employ and they had difficulty in finding another man to replace him. The Engineer advised that the contractor had secured more work than its organization could accommodate, that they were late in starting the job, and that the work progressed slowly because of lack of men and equipment. In view of these circumstances, he recommended that the extension of time as requested be granted subject to the condition that the contractor reimburse the State for all engineering costs incurred on this job subsequent to August 31, 1952, the specified completion date. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

(19) Tom Lillebo, Contract No. 3462, for construction of the Coos River Bridge on the Coos River Secondary Highway in Coos County, requested an additional extension of time of 94 days, from October 29, 1952 to and including February 1, 1953, within which to complete this job. He alleged that his failure to complete the job within the specified time limit was due to delays in receiving steel trusses and electrical equipment which were ordered the day of the contract award. The Engineer advised that the contract completion date was July 31, 1952, and that the time was previously extended to and including October 29, 1952 for reasons stated by the contractor. He also pointed out that the project is now complete with the exception of some of the electrical equipment which has not yet been delivered by the manufacturer, and that the bridge was opened to traffic on November 10, 1952. In view of these conditions, he recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

(20) Tom Lillebo, Contract No. 3592, for construction of the "Johnson" bridge over the Trask River on a county road in Tillamook County, requested an extension of time of 84 days, from July 31, 1952 to and including October 23, 1952, within which to complete this job. He alleged he failed to complete this work within the specified time because he had to wait for lower water to strip and finish the piers. He pointed out, however, that traffic had unrestricted use of the bridge three weeks before the time limit expired. The Engineer advised that the structure was opened to traffic on July 4, 1952, which is before the expiration date specified for completion of the project, and the work done during the period for which the time extension is requested consisted of surface finishing of the piers and the removal of a small amount of cribbing around the piers which work had to be postponed until low water period in the fall. Since no inconvenience or additional cost has been caused the State, he recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

(21) Tom Lillebo, Contract No. 3591, for construction of the Kilchis River Bridge and others on the Bay City-Tillamook Section of the Oregon Coast Highway in Tillamook County, requested an extension of time of 71 days, from October 31, 1952 to and including January 10, 1953, within which to complete this project. He alleged that he failed to complete the job within the specified time because of right of way difficulties which delayed about 60 days the starting of the job until mid-winter, the most inefficient working season. He also stated that much difficulty was experienced in getting permission from private land owners to cross private property to reach the job sites. The Engineer advised that the award of contract was delayed from the opening of bids on October 12, 1951 until December 7, 1951 because of right-of-way difficulties, which delay caused the loss of good working weather in the fall of 1951. He also said that further delay was experienced because it became necessary to splice some of the foundation piling which was not contemplated in the original design. He recommended in view of the circumstances, that the extension of time as

requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

(22) Tom Lillebo, Contract No. 3397, for grading, surfacing, and bridge construction on the Bybee Bridge Section of the Table Rock County Road in Jackson County, requested an additional extension of time of 138 days from June 30, 1952 to November 15, 1952, within which to complete this job. He attributed his failure to complete the job within the specified time limit to his inability to obtain equipment to do the black topping work as was required. The Engineer advised that the contract completion date was September 30, 1951, and there have been two previous extensions granted without penalty. He pointed out that these extensions were granted because of delay in receiving structural steel for the project; however, on the present extension, which is for the purpose of completing the surfacing of the approach embankments, the delay was due entirely to the contractor's failure to obtain oiling equipment and properly prosecute the work. In view of these circumstances, he recommended that the extension of time as requested be granted subject to the condition that the contractor reimburse the State for all engineering costs incurred in connection with the job since expiration of the previously extended time limit. A letter was presented from the Bureau of Public Roads concurr ng therein. The Commission approved the recommendation.

(23) Larson Brothers, Contract No. 3479, for painting the McCullough Bridge over Coos Bay on the Oregon Coast Highway at North Bend in Coos County, requested an additional extension of time of 60 days, from September 30, 1952 to and including November 29, 1952, within which to complete this work. They gave the following reasons for their failure to complete the job within the previously extended time limit: (1) Adverse weather conditions of rain, fog, and wind; (2) Labor trouble in 1951; (3) Removing plates on Towers, sandblasting and painting the same; and (4) Due to rust reappearing in the old paint, the entire bridge had to be spot blasted when operations were resumed in 1952, although both spot blasting and spot painting of the entire bridge had been done in 1951. The Engineer advised that the date specified for completion of this work was October 31, 1951 and that two previous extensions of time had been granted, the first being from October 31, 1951 to July 31, 1952, granted without penalty, and the second, from July 31, 1952 to September 30, 1952, granted subject to the contractor reimbursing the State for engineering costs incurred during the period of that time extension. He recommended that this third extension of time be granted as requested on the condition that the State be reimbursed by the contractor for engineering costs incurred during this extension period. The Commission approved the recommendation.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contracts Nos. 3324, 3471, 3511, 3540, 3541, 3558, 3560, 3592, 3606, 3608, 3613, 3627, 3638, 3649, 3653, 3674, 3678, 3682, 3684, 3686, 3692, 3699, 3700, 3703, 3704, 3706, 3720, 3721, 3722, 3733, 3735, 3736, 3739, 3743, 3753, 3761, 3783, and 3795 for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof and said projects are now ready for acceptance. After due consideration, the Commission, by unanimous vote, accepted said contracts by adoption of the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission had under discussion the adoption of a working budget for the calendar year 1953. The Engineer presented a proposed budget containing the estimated expenditures for various items of work and including the budgets that were approved by the Commission at the previous meeting for the Parks Department and for the Travel Department. It was given very careful study by the Commission, and was unanimously approved upon motion of Commissioner Reynolds, duly seconded by Commissioner McIver, with the following changes:

(1) The amount covering the activities of the Travel Department is to be increased to $274,711.04 pursuant to action taken by the Commission at its meeting on October 20, 1952.

(2) The following items totalling $1,426,000 shown under the Maintenance Account are to be transferred to the Major Betterment and Operations Accounts where it was considered they properly belong, and the Maintenance Account is to be revised accordingly:

Maintenance		Transfer to Major Betterment	Transfer to Operation-General Adm. - Maintenance Engr. Div.
Special	$ 500,000		
General Maintenance Primary	7,700,000	$500,000	
General Maintenance Secondary	2,650,000	100,000	
County Road Signs	30,000		
Contingencies	120,000		
Maintenance Station and Scale Upkeep			$116,000
Radio Communication System			40,000
Truck Load Inspection			350,000
District Maintenance Superintendents (Administration Maintenance Engineering Division)			320,000
Totals	$11,000,000	$600,000	$826,000

(For details of the budget as approved with changes, see copy of budget filed in the Secretary's Office under the heading "Highway Department's Budgets 1953".)

A letter was presented from the Lake County Chamber of Commerce requesting the surfacing of an additional area that they are constructing for the parking of vehicles at their ski grounds located on the Warner Secondary Highway. The Engineer advised that investigation discloses that the additional parking area is 60 feet by 125 feet in dimension. He estimated the cost to surface the area with 3 inches of crushed rock at about $250, and he recommended approval of the expenditure. The Commission approved the recommendation.

The Commission discussed a street assessment filed by the City of Bend for improvement of Lafayette Avenue in that City, totalling $1,267.45. The Engineer advised that the improvement consists of grading, surfacing, and oiling a 30-foot street on which face a number of lots belonging to the State Highway Department, being a portion of the present division headquarters site. He pointed out that Chapter 147, Oregon Laws 1951 provides a procedure for the city to collect assessments against property owned by the State or any political subdivision, and he recommended that the city follow such procedure which requires that the claim be filed with the Secretary of State for presentation to the Legislature. The Commission approved the recommendation.

The Commission discussed a communication from Mr. L. P. Hopkins, Superintendent of the Southern Pacific Company, Portland, requesting improvement of the Crescent Lake Secondary Highway from its junction with the Willamette Highway to the town of Crescent Lake, 2.2 miles in length. The Engineer advised that the oiling of this road has been requested on several occasions in the past, but each time has been denied by the Commission. He estimated the cost to provide a satisfactory oil treatment at about $35,000, and he recommended approval of the expenditure during the summer of 1953, using state funds only. The Commission deferred a decision in the matter until its next meeting.

The Commission approved an expenditure of $15,000 in 1953 for elimination of a hazardous condition that exists at the entrance of Lower Fourmile County Road into US 101, 7.7 miles south of Bandon, Curry County, as requested by School District No. 10, Langlois, Oregon, and as recommended by the Engineer.

The Commission discussed a letter from Mr. John A. Laing, Chairman of the Travel Advisory Committee, advising that at a recent meeting of the Advisory Committee the Committee reviewed the scope of the advertising consultant service that appears necessary to properly carry on the functions of the Travel Department, and after careful consideration of the entire problem, the Committee decided that the interests of the Highway Department and of the State of Oregon would best be served by re-employment of the firm, MacWilkins, Cole & Weber, for another year. Accordingly, the Committee recommended re-employment of that firm for the one-year term beginning with the termination of the company's present contract. The Commission approved the recommendation unanimously, and so ordered.

The Commission discussed a letter from Mr. P. K. Hammond, City Attorney for the City of Oswego, requesting in behalf of the city the donation of a sodium vapor light which the city wishes to place at the intersection of State Highway No. 43 and Stafford Road, within the city limits. The Engineer recommended that the request be denied because from a traffic control standpoint the amber aspect of the sodium vapor unit causes considerable conflict and confusion with traffic control signals which make use of the amber light as a warning indication. He suggested that the city should be informed of the experience of the State Highway Department in that respect, and that suggestion be offered to the city that they consider installation of a modern type mercury vapor unit. The Commission approved the recommendation.

The Commission discussed a building encroachment on the Cape Arago Secondary Highway near the town of Empire, Coos County, said building being owned by Mr. and Mrs. George Rupp, Coos Bay. The Engineer advised that the building is a frame residence structure which encroaches on the highway right of way a maximum of 1.3 feet, and that the Rupps have requested that this encroachment be legalized either by their purchasing the small area or by occupying it by permit. He gave as his feeling that it would be unwise to sell the area because it would restrict the existing 80-foot right of way to that extent, but he recommended that the Rupps be given a revocable permit to occupy the area until such time as it is needed for highway purposes. The Commission approved the recommendation.

The Engineer submitted a tabulation showing State Highway employees who are eligible for semi-annual salary step increases under Civil Service rules and regulations. He explained details and recommended approval of the increases as indicated therein contingent on a satisfactory merit rate as of January 1, 1953. The Commission approved the recommendation unanimously.

The Engineer reported complaints from the Chamber of Commerce, Sweet Home, relative to the high accident rate on portions of US 20 between Albany and Cascadia. He recommended that action, as follows, be taken by the Commission to correct the situation:

(1) Establish a 30-mile per hour zone on US 20 from east city limits of Sweet Home (M. P. 28.09) to M. P. 28.42.

(2) Establish a 35-mile per hour zone on US 20 from M. P. 29.85 to M. P. 30.68 (the Oregon Electric Railroad underpass).

(3) That parking on highway shoulders be prohibited on both sides of US 20 between M. P. 29.40 and M. P. 29.55.

(4) That the existing truck lane which extends east from Wiley Creek Bridge to the top of the hill be extended to Oregon State Highway Department truck scales. Truck lane from M. P. 29.95 to M. P. 30.03 will cost $1,500.

The Commission approved the recommendation unanimously by adoption of the

attached resolutions relative thereto, marked EXHIBITS "I-1" and "I-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

A letter was presented from Mr. and Mrs. Frank Ede, Newberg, Oregon, calling attention to a hazardous traffic condition that exists on US 99W at its intersection with Villa Road, east of Newberg. The Engineer advised that this matter has been investigated by the Traffic Engineering Department, and from the information gathered, it has been determined that the parking of vehicles on the shoulders on the north side of the highway between M. P. 23.69 and M. P. 23.72 should be prohibited, and he so recommended. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed and approved disposition of three units of right of way on the McKenzie-Bend Highway, and one unit of right of way on the Redmond-Bend Highway which units no longer are of value from the State Highway standpoint because of the reconstruction of the Tumalo-Bend Section of the McKenzie-Bend Highway on revised alignment. The attached resolution relative thereto, marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission unanimously.

The Commission discussed, and by unanimous vote authorized out-of-state travel expense for the following employees:

1. Mr. R. H. Baldock to attend the 32d Annual Meeting of the Highway Research Board in Washington, D. C. from January 12 to 16, 1953. Estimated cost to the State nil because expense will be paid by Highway Research Board.

2. Mr. Mark H. Astrup, Landscape Engineer, to attend the 32d Annual Meeting of the Highway Research Board in Washington, D. C. from January 13 through 16, 1953. Estimated cost $360.

3. Mr. W. W. Stiffler, Assistant State Highway Engineer, to attend the Pacific Logging Congress in San Francisco, California, on November 10 to 12, 1952. Estimated cost $105.

4. Mr. F. B. Crandall to attend meetings of the Highway Research Board, Directors of Institute of Traffic Engineers, and meeting of committee on uniform traffic control devices in Washington, D. C. during January 11 to 17, 1953. Estimated cost $380.

Consideration was given by the Commission to damage claims as follows:

1. Claim of Grace Sweeney for damage to her car by a Highway Department paving crew on the Mt. Hood Highway. Amount of claim $23.50.

2. Claim of H. M. Brown, Portland, for damage to his car by welding

sparks during operation of a Highway Department crew on the Interstate Bridge. Amount of claim $49.52.

3. Claim of Carl Mabry, Hillsboro, for damage to his car and clothing resulting from Highway Department paving operations. Amount of claim $108.40.

4. Claim of Wayne E. Allen, Bend, for asphalt damage to his car by a Highway Department paving crew. Amount of claim $16.00.

5. Claim of William E. Blackaby, Ontario, Oregon, for damage to his automobile by asphalt spray while parked in front of the Moore Hotel, Ontario, during re-oiling operation by State crew. Amount of claim $27.00.

6. Claim of the Ohio Casualty Insurance Company for reimbursement paid to its policy holder, Robert J. Bennett, for damage to his Oldsmobile by reason of State Highway oiling operation in Lakeview on August 26. Amount of claim $30.00.

The Engineer advised that all of these claims have been investigated and have been found to be legitimate claims against the State Highway Department. He further stated that heretofore claims of this nature have been paid by the company that furnished the State insurance, but that no longer is the case, so if paid at all, they will have to be paid with State Highway funds. He recommended approval of the payment of each claim. The Commission approved the recommendation, however, instructed the Engineer to take steps as may be necessary to avoid and eliminate such claims in the future.

The Engineer requested authority to advertise for bids to be received at the January 21, 1953 meeting of the Commission for the furnishing of ferry service at the Wilsonville Crossing of the Willamette River on the Beaverton-Aurora Secondary Highway, beginning April 1, 1953, when the present contract for this operation expires, and terminating when the bridge now under construction at this place is completed and opened to traffic on the new route of the West Portland-Hubbard Highway. He gave as his feeling that the new bridge will be in use about January 1, 1954. The Commission approved the request unanimously.

The Engineer requested authority to post a short section of the Willamette Highway between Pleasant Hill and Dexter, particularly between M. P. 8.73 and M. P. 8.93, so as to prevent the parking of vehicles on the shoulders of the highway between these points. He recalled that when right of way for improvement of this highway was acquired all access rights also were purchased; however, since completion of construction, two squatters have located on private property north of this property and one has located on property south of the highway, and it has been the practice of these squatters to park their motor vehicles on highway shoulders which constitutes a definite hazard to other traffic, particularly during inclement weather. He recommended adoption of an order by the Commission prohibiting such use of the highway shoulders. The Commission approved the recommendation unanimously by adoption of the

attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission unanimously approved the Secretary's report on papers signed by him in behalf of the Commission during the period October 16, 1952 and November 19, 1952.

The Commission considered the following matters of unfinished business appearing on the Secretary's Summary dated October 21, 1952:

1. Proposed re-routing of US 99W through McMinnville: The Engineer recalled his report on this subject rendered at the previous meeting of the Commission when he estimated the cost of right of way needed to provide a one-way street couplet, using Adams Street for southbound traffic and Baker Street for northbound traffic, at $175,000. He estimated the present day cost of the right of way, including a short section at the northerly end that would serve not only as right of way for the one-way street couplet but also for the alternate by-pass route, at $110,000. He asked the Commission to authorize the securing of options for such right of way which, he said, should be obtained as soon as possible, particularly in the north part of the city, before the area is developed. The Right of Way Engineer advised that he met with some of the local people as instructed by the Commission at the previous meeting and ascertained just what they had in mind relative to the right of way situation. He confirmed the Engineer's statement to the effect that it is most important to acquire the right of way at the north end of the proposed couplet because of the developments in that area. He further stated that the Engineering Department has been asked to prepare descriptions for the right of way and that these will be turned over to the local people to negotiate options when they are completed. The Commission questioned the estimated cost of the right of way, Chairman Chandler particularly mentioning that he gathered from talking to the local people at the previous meeting that right of way could be obtained for considerably less than $110,000. The Commission deferred a decision in the matter until its next meeting. Commissioner Reynolds confirmed the Chairman's statement and added that the arrangement, as he understood it, was to the effect that the Chief Counsel and the Right of Way Engineer would consult with the McMinnville group with regard to their plan which provided that the State would furnish property descriptions to the local group which would carry on the negotiations. The Engineer was instructed to furnish the Right of Way Department with descriptions of the property and the Right of Way Engineer was instructed to give them to the local group to negotiate the options. The Engineer was also instructed to provide the Commission with a map showing the property needed and the appraised value of each tract. This item is to be retained on the list of unfinished business.

2. Proposed use of the triangular area located at the junction of the Merrill-Malin and Klamath Falls-Lakeview Highways, four miles east of Klamath Falls. The Engineer advised that he inspected this area personally and found that the conditions are not particularly dangerous, although they could be improved. He recommended cutting off the point of the island

at the northerly end so as to prevent the parking of vehicles at that particular location, and the renting of the balance of the area to the owners of the adjacent businesses for use as a parking lot for their customers. The Commission approved the recommendation and referred the matter to the Property Control Manager, Mr. C. W. Parker, to handle the details. The item is to be removed from the list of unfinished business.

3. Request of the City of Coos Bay for lease rights on excess right of way acquired on the waterfront in Coos Bay in connection with improvement of the Oregon Coast Highway: The Right of Way Engineer advised that the City has been informed of the price that the Commission wants for this property, but no reply as yet has been received. He was instructed to continue negotiations with the City on the basis of the City paying for the property at the rate that it cost the State, which is 42 cents per square foot. The item is to be retained on the list of unfinished business.

4. Request of Fossil Community Club for the widening of narrow places on the Butte Creek-Summit Section of the John Day Highway: The Engineer advised that the local people are opposed to the widening of narrow sections, and what they really want is a major improvement. He suggested that the item be deleted from the list of unfinished business and considered entirely new business should it again arise. The Commission approved the suggestion.

5. Problems presented by verdicts in condemnation actions as reported by the Chief Counsel: The Chief Counsel explained details with respect to the problems encountered, and suggested as an aid in solving them, the establishment of a Public Relations Section in the Right of Way Department. The Commission approved the suggestion unanimously. This item is to be deleted from the list.

6. Request of residents of the City of Tillamook for sidewalk construction along the Wilson River Highway just east of the city limits: The Engineer advised that his report on this subject is not yet ready to present. The item is to be retained on the list of unfinished business.

7. Request of the City of Brookings for establishment of a uniform width right of way along US 101 in the northern part of the City to accommodate business development: The Engineer's report on this subject was rendered earlier in the session. The item is to be deleted from the list of unfinished business.

8. Request for a roadway access to the Oregon Coast Highway from the community of Lakeside, Coos County: The Engineer advised that his report on this subject is not yet ready to present. The item is to be retained on the list of unfinished business.

9. Proposed truck route through the City of La Grande: The Engineer advised that there is no apparent need for any further action by the Commission in the immediate future. He recommended that the item be deleted from

the list of unfinished business. The Commission approved the recommendation.

10. Request for the safeguarding of traffic at the intersection of "Surf Pine" road with the Oregon Coast Highway about two miles north of Gearhart: The Engineer's report on this subject was rendered earlier in the session. The item was ordered deleted from the list.

11. Special report from the Engineer on the granting of extensions of time within which to complete contracts for highway construction: The Engineer advised that his report on this subject is not yet ready to be presented. The item is to be retained on the list of unfinished business.

The Commission had under discussion the setting of a date for its next regular meeting and for the next following meeting. As a result of discussion, the Commission confirmed Tuesday, January 6, 1953 as an adjourned meeting for the purpose of receiving bids for the purchase of the remaining $10,000,000 of Oregon Highway Bonds authorized by the 1951 Legislative Assembly. The Commission also confirmed Wednesday and Thursday, January 21 and 22, 1953, heretofore set as the date for its next regular meeting in January. Thursday and Friday, February 26 and 27, 1953, was set as a tentative date for the regular meeting in February. The Secretary was instructed to make the usual arrangements to hold these meetings in the Green Room of the Imperial Hotel. (It was later ascertained that the Green Room in the Imperial Hotel would not be available to the Commission on January 21 and 22, 1953, in view of which, the Secretary was instructed to arrange to hold this particular meeting in the Crystal Room of the Benson Hotel. The meeting on January 6, 1953 is to be held in the Imperial Hotel as scheduled.)

The Chief Counsel reported a request from the Oregon Roadside Council that he prepare a bill to be submitted to the 1953 Legislature, covering the control of outdoor advertising along state highways. It was the expressed feeling of the Commission that it cared not to have anything to do with sponsoring such a bill. The Chief Counsel was instructed accordingly.

The Engineer brought to the Commission's attention, for approval, a resurvey for a proposed connection between Swift Boulevard and Denver Avenue in North Portland involving right of way across property owned by the Kernan Livestock Company. Action on this matter was deferred by the Commission until its next meeting to give the members of the Commission an opportunity to inspect the premises personally.

The Commission discussed with the Engineer the bids received at the morning session for highway construction, and at 4:30 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project, as follows, the Commission's action in each instance being by unanimous vote:

"Grading and paving the Clear Lake-Forest Boundary Unit, Winchester Bay-Forest Boundary Section of the Oregon Coast Highway south of Winchester Bay, in Douglas County. Ten bids were received for this work, the low one being that of Grimstad & Vanderveldt, Astoria, at $183,297.00. The contract has been awarded to the low bidders at their bid price.

"Construction of the Elkton-Sutherlin Highway Overcrossing and Deady Interchange on the Pacific Highway near Sutherlin, in Douglas County: R. & M. Construction Company, Central Point, was the low bidder for this work in the amount of $74,998.00. There were seven higher bids. The Commission has awarded the contract to R. & M. Construction Company, the low bidder, at its bid price.

"Canyon Creek-Poison Creek Rock Production Project on the John Day-Burns Highway south of John Day, in Grant and Harney Counties: Only one bid was received for this work, being that of Newport Construction Company, Portland, at $55,689.00. The Commission has awarded the contract to the Newport Construction Company at its bid price.

"Construction of a masonry block addition to the highway maintenance building in Medford, Jackson County: The Commission received only two bids for this job, the low one being that of Harold W. Salter, Rogue River, in the amount of $10,284.50. The contract has been awarded to the low bidder at his bid price.

"Madras Rock Production Project on four state highways near Madras, Jefferson County: Of the eight bids received for this project, Rogers Construction Company, Portland, submitted the low bid at $41,600.00. The Commission has awarded the contract to the low bidder at its bid price.

"Grading and paving the Springfield Section of the McKenzie Highway in Springfield, Lane County: Inter-City Sand and Gravel Company, Eugene, submitted the low bid for this work at $251,647.00. The Commission received six higher bids for this project. The bid of Inter-City Sand and Gravel Company in the sum of $251,647.00 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Juntura-Harper Rock Production Project on the Central Oregon Highway easterly from Juntura, Malheur County: Only two bids were received for this project, the low one being that of N. A. Toole, Ontario, at $28,097.50. The Commission has awarded the contract to the low bidder at his bid price.

"Construction of automatic traffic control signals, and installation of mercury vapor street lights and illuminated signs at the Twelfth Street connection to the Pacific Highway East in Marion County: The Commission received three bids on this project, the low one being that of Trowbridge and Flynn Electric Company, Medford, at $5,990.00. The contract has been awarded to the low bidder at its bid price.

"Grading and paving the Arata County Road Interchange Section on the T. H. Banfield Expressway between Fairview and Troutdale, Multnomah County: Seven bids were submitted for this job, the low one being that of Rogers Construction Company, Portland, at $61,435.00. The low bidder has been awarded the contract at its bid price.

"Construction of a timber and steel beam trestle, known as Cereghino Haul

Road Bridge, over the Union Pacific tracks west of Fairview, Multnomah County: The Commission received seven bids for this job, the low one being that of Stockton & Son, Gresham, at $12,060.00. The contract has been awarded to the low bidder at their bid price.

"Construction of six acres of lawn and an irrigating system on the Tillamook Street-Steel Bridge Unit, Harbor Drive Section of the Pacific Highway West in East Portland, Multnomah County: Western Golf Course Supply Company, Portland, submitted the low bid at $30,316.80. Four higher bids were received. The Commission has awarded the contract to the low bidder, Western Golf Course Supply Company, at its bid price."

The Right of Way Engineer brought up for discussion the following miscellaneous items:

1. Payment of $1,024 to the U. S. Bureau of Land Management for fourteen trees that were cut on O & C land in connection with construction of the Low Pass Section of the Siuslaw Highway, Lane County: He explained that in constructing this highway section, fourteen more trees were cut than was originally anticipated and the Bureau of Land Management has billed the State for them in accordance with its standard policy. He recommended payment of the claim. The Commission approved the recommendation.

2. Agreement with the Union Pacific Railroad Company for lease of a gravel storage site adjacent to the Upper Columbia River Highway at Wyeth, Hood River County: The Right of Way Engineer explained that this property previously was leased to the State's contractor, Warren Northwest, Inc., Portland, which has no further use for it and is releasing its interest. The State, he said, has use for the property because a large quantity of road building material has been stockpiled thereon. He recommended approval of the lease agreement which, he said, provides for consideration of $60 per year to be paid by the State. The Commission approved the recommendation. (An agreement covering the matter was signed by the Commission later in the session.)

3. Agreement with the Union Pacific Railroad Company covering maintenance of a water pipe line across railroad property adjacent to the Upper Columbia River Highway at Rowena, Wasco County: The Right of Way Engineer explained that this pipe line originally served property that the State acquired from Harvey P. Moore as right of way for improvement of the highway. Mr. Moore, he said, has no further use for the pipe line because the State acquired his entire holdings, so his permit from the Railroad Company is being cancelled; also that the pipe line is required by the State in order to serve excess right of way at this location and to assist in disposing of such excess property at some future date. He recommended approval of the agreement with the Railroad Company for continuing maintenance of the pipe line across the Company's land. The Commission approved the recommendation unanimously. (An agreement covering the matter was signed by the Commission later in the session.)

4. Approve extra payment for construction of a well for Molly Pebbler adjacent to the Ladd Canyon Section of the Old Oregon Trail, Union County, as a right of way consideration: The Right of Way Engineer explained that the highway was constructed across Mrs. Pebbler's land and as part consideration for the right of way the State agreed to dig a new well to replace one that was destroyed. The first attempt to replace the well resulted in an expenditure of $4,625 with no water; however, a second well proved to be satisfactory, although it cost an additional sum of $5,124.76. He recommended approval of the extra expenditure. The Commission approved the recommendation.

5. Release of frontage road rights heretofore required from certain property owners of Jackson County in connection with acquisition of land needed as right of way for improvement of the Medford-Ashland Section of the Pacific Highway in said county: The Right of Way Engineer recalled that the Commission at its meeting on September 22, 1952 authorized the removal of the usual future frontage road clause from all right of way acquisitions along this section of highway. He presented for the Commission's consideration a form of release covering the situation, and recommended approval of the same in conformity with the Commission's previous action. The Commission unanimously approved the recommendation. (A form of "Release of Frontage Road Rights" was signed by the Commission later in the session.)

The Engineer reported that for a number of reasons, the principal ones being the enlarged construction program and the necessity to prepare for replacement of key engineering personnel who will soon be retired, it has been necessary to make some changes in the engineering organization. He asked the Commission to approve the changes, effective as of January 1, 1953, as follows:

1. Forrest Cooper, presently Right of Way Engineer, to be assigned to the position of First Assistant Construction Engineer with the view of assuming all of the duties of the present Construction Engineer, Mr. H. G. Smith, upon his retirement.

2. Advancement of R. L. Porter from his present assignment as Assistant Right of Way Engineer to Chief Right of Way Engineer to fill the vacancy created by the transfer of Mr. Cooper.

3. Transfer of E. F. Chidsey, Division Engineer at La Grande, to the Right of Way Department as Assistant Right of Way Engineer to fill the vacancy created by the advancement of Mr. Porter.

4. Assignment of A. F. Parsons as Division Engineer at La Grande to succeed Mr. Chidsey.

The Commission by unanimous vote approved the changes as reported.

The Commission had under discussion the adoption of a $10,000,000 construction program for the monies that it is expected will become available

by the sale of bonds shortly after the first of the year. The Commission unanimously approved the following program for such funds, thus confirming approval given the Engineer over the telephone on November 12, 1952:

PROJECTS PROPOSED FOR APPROVAL TO COMPLETE BOND PROGRAM

October 17, 1952

County	Highway, Section and Description	Allotment Amount
Benton	Pacific West. North Corvallis Section, Grading Paving and Structures	$ 600,000
Clackamas	West Portland-Hubbard. Barbur Blvd.-White School Section, Barbur Blvd.-Boones Ferry Road Unit, Grading, Paving and Structures (Of this $1,250,000, $400,000 is available from bond funds previously allotted to Boones Ferry Road-Marion County Line Unit)	1,250,000 /1
Columbia	Columbia River. Clatskanie-Delena Section (Substituted for Clatskanie Section), 6.84 miles Grading and Structures (Provision for paving in amount of $350,000 is proposed for inclusion in 1956 Primary F. A. Program)	900,000
Curry	Oregon Coast. Rocky Point-Gold Beach Section Brush Creek-Frankport Unit, Grading, Structures and Paving	2,200,000
Deschutes	Dalles-California. Bend-Lapine Section, North Unit, Grading and Paving	800,000
Deschutes and Klamath	Dalles-California. Lapine-Diamond Lake Jct. Section, Lapine-Forest Bdry. Unit, Grading and Paving	600,000 /2
Douglas	Pacific. Deady-Shady Section, North Unit, Grading and Structures	925,000
Douglas	Oregon Coast. Elbow Lake-Gardiner Section, South Unit, Grading and Paving	600,000
Gilliam	Columbia River. Arlington-Heppner Junction Section, Grading, Paving, and timber bridge (Two structures, costing $128,000, needed to complete the section are proposed to be provided for in the 1954 Interstate F. A. Program)	1,150,000

County	Highway, Section and Description	Allotment Amount
Hood River	Columbia River. Hood River-Mosier Section Reconstruction of Approach to Interstate Bridge at Hood River, Structure, Grading and Paving	$ 46,000 /3
Jackson	Pacific. Rock Point-Blackwell Hill Section Reconstruction of Rock Point Bridge	50,000 /3
Marion	Pacific East. Salem By-pass. Boone Road Grade Separation, Pringle Road Grade Separation, Battle Creek Grade Separation, Relief Opening Structure, Box Culverts, Guard Rail, Landscaping, and Miscellaneous	260,000 /3
Multnomah	Pacific East. Union Avenue-Swift Road Connection. Grading, Paving and Structures	275,000 /3
Wasco	Columbia River. Mosier-The Dalles Section Rowena-Chenoweth Cr. Unit, Grading, Paving and Structure	775,000 /4
	Total	$10,431,000

/1 It was originally planned to construct the Barbur Blvd.-White School Section with $5,000,000 of bond money. Later the set-up was changed to $4,550,000 of bond money and $450,000 of 1954 federal aid money to permit use of $450,000 of bond money on the Lafayette-N. Yamhill River Project. The cost is now estimated at $5,830,000, proposed to be financed $4,550,000 from bond funds and $580,000 from 1954 primary federal aid and $700,000 from 1953 primary federal aid. Of the $4,550,000 of bond money, $1,250,000 is required for the unit between Barbur Blvd. and the Boones Ferry Road. Programming of funds for this unit is now in order.

/2 Of the $1,400,000 of bond funds tentatively scheduled for the Lapine-Diamond Lake Junction Section, $800,000 has been officially allotted and placed under contract, leaving $600,000 to be programmed at this time.

/3 The four projects bearing this reference mark were previously programmed, but at the August meeting of the Commission were withdrawn to release funds for immediate contracting of the steel girder spans of the Boone Bridge over the Willamette River.

/4 The original estimate for the Mosier-The Dalles Section was $3,945,000; $2,275,000 of bond funds and $1,670,000 of federal aid funds. The present estimate is $4,499,200 and it is proposed to finance it with $2,275,000 of bond funds and $2,224,000 of federal aid funds. Of the $2,275,000 of bond funds, $1,500,000 has been officially programmed. The amount left for programming is therefore $775,000.

November 24, 1952

The Commission also considered a proposed five-year construction program utilizing monies derived from the sale of bonds and Federal Aid Funds. As a result of discussion, the Commission unanimously selected for such program the following list of projects submitted by the Engineer bearing the date of October 10, 1952, it being understood that the program may be revised later if the Commission considers that advisable:

FIVE YEAR PROGRAM - BOND FUNDS AND FEDERAL AID

October 10, 1952

Highway and Section	Bond Funds		Federal Aid Funds				
	Years 1951 1952 1953	Years 1954 1955	Year 1952 (FY) (1953)	Year 1953 (FY) (1954)	Year 1954 (FY) (1955)	Year 1955 (FY) (1956)	Years 1956-57 (FY) (1957-58)

The meeting adjourned at 5:00 p.m. to reconvene at 9:00 a.m. on the following morning in the same room.

November 24, 1952

Portland, Oregon
November 25, 1952

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Asst. State Highway Engineer
W. W. Stiffler, 2d Asst. State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

The following announcement was made by Chairman Chandler: "Ladies and Gentlemen: This will be the last meeting of the Commission for the year 1952, and we want to say we have made the greatest stride this year that has ever been made. We want to thank the contractors for the fine cooperation shown in helping us bring the system up to the standard of today. The next meeting is scheduled for January 21 and 22, 1953 and will be held in the Benson Hotel. If we have a successful bid on the bonds we are offering earlier in January, we hope to have the largest letting of any single meeting we have ever had. It will be in the neighborhood of $10,000,000 in projects in every nook and corner of the State of Oregon. We are looking for a fine year next year. If the Legislature permits us to sell additional bonds, we hope to have a good program coming up next year. We hope to see you next year, and we hope you have made profits on your contracts. On behalf of the personnel of the Highway Department, we wish you a Merry Christmas and a Happy New Year."

Bids as follows for highway construction were opened and read aloud by the Secretary who then announced that the awards of contracts would be made at 3:00 p.m.:

The Commission had under discussion the sale of $10,000,000 of Oregon State Highway Bonds being the third and last series of a total of $40,000,000 of Highway Bonds authorized by Chapter 491, Oregon Laws 1951. It was the feeling of the Commission that the bonds should be soldas soon as is possible in order to expedite the contracting of the projects included in the construction program to be financed with bond monies. After a full discussion of the matter, Commissioner Reynolds moved, and Commissioner McIver seconded the adoption of the following resolution relative thereto, which motion, upon being put to vote by Chairman Chandler, received the unanimous vote of the Commission and was by the Chairman declared carried, to wit:

RESOLUTION

BE IT RESOLVED BY THE STATE HIGHWAY COMMISSION OF THE STATE OF OREGON that, of the bonds authorized by Article XI, Section 7, of

the Constitution of the State of Oregon, and further authorized by Chapter 491, Oregon Laws 1951, Ten Million Dollars ($10,000,000) par value of such bonds be issued and sold in order to carry out the purposes of the said article of the Constitution with respect to the construction of permanent roads, and the purposes of the said law; and

BE IT FURTHER RESOLVED that the principal of and the interest upon all of the bonds issued pursuant to the provisions of this resolution be paid upon the due dates thereof at the fiscal agency of the State of Oregon in the City and State of New York, and that the bonds be known and designated as OREGON STATE HIGHWAY BONDS, SERIES 1953 A, and be numbered consecutively from one (1) to 10 thousand (10,000) inclusive; and

BE IT FURTHER RESOLVED that the said bonds be dated March 1, 1953, be issued in denominations of $1,000 each, to mature serially in principal installments of one-twentieth (1/20th) of the amount of the issue each successive year hereafter, beginning with the date of March 1, 1954, and ending with the date of March 1, 1973; provided, however, that all bonds maturing after March 1, 1963 shall be subject to call and redemption on March 1, 1963 and on any interest-paying date thereafter. Said bonds shall bear interest payable semi-annually on the first days of March and September in each year; and

BE IT FURTHER RESOLVED that the State Highway Commission furnish to the original purchaser or purchasers of such bonds, without cost to them, the written opinion of Messrs. Winfree, McCulloch, Shuler & Sayre, Attorneys at Law, of Portland, Oregon, certifying to the validity and legality of the said bonds; and

BE IT FURTHER RESOLVED, that bids for said bonds shall be received on January 6, 1953, at the hour of 10 o'clock A. M., Standard Oregon Time, at a meeting of the commission to be held in the Green Room of the Imperial Hotel in Portland, Oregon. The Secretary of the Commission is directed to cause a notice of sale of the said bonds to be published in one issue of the Daily Bond Buyer, a financial newspaper printed and published in the City and State of New York, and in one issue of The Daily Journal of Commerce, a daily newspaper of general circulation printed and published in the City of Portland, Multnomah County, Oregon, at least ten (10) days prior to the date of the proposed sale of said bonds; and

BE IT FURTHER RESOLVED that the said notice of sale specify that the bonds offered for sale shall bear interest at a coupon rate or rates, in multiples of 1/4 of 1% but not exceeding three per cent (3%) per annum, and shall be sold at an effective interest rate, computed on a simple interest basis, of not to exceed two and one-fourth percent (2 1/4%) per annum payable semi-annually; that each bidder submitting a bid for the bonds shall include therewith as a good faith deposit a certified check in the sum of $175,000 drawn upon a bank having a capital and surplus of not less that $10,000,000.00; and that the State Highway Commission reserved the right to reject any or all bids for the said bonds; and

BE IT FURTHER RESOLVED that the said bonds be executed with the facsimile signatures of the Governor and of the Secretary of State and with the autograph signature of the State Treasurer, and that the interest coupons annexed thereto be executed with the facsimile signatures of all of said officers; and

BE IT FURTHER RESOLVED that the State Treasurer be, and he hereby is, authorized to register said bonds upon the records in his office and to deliver said bonds to the purchaser thereof after the date of sale, execution, and sealing thereof, upon the payment of the purchase price thereof; and

BE IT FURTHER RESOLVED that the State Highway Commission obtain bids for the printing of the said bonds and that it award the job of printing them to the lowest responsible bidder therefor, subject to the provisions of Section 98-301, O. C. L. A.

The Commission unanimously approved the following form of notice of sale of the bonds and instructed the Secretary to publish such notice pursuant to instructions contained in the foregoing resolution:

NOTICE OF BOND SALE

$10,000,000.00

STATE OF OREGON

OREGON STATE HIGHWAY BONDS

SERIES 1953A

SEALED BIDS will be received by the STATE HIGHWAY COMMISSION of the State of Oregon until the hour of 10:00 o'clock A. M., Standard Oregon Time, on January 6, 1953, at the Green Room of the Imperial Hotel at Broadway and Stark Streets, in the City of Portland, Oregon, and will be immediately opened and considered for TEN MILLION DOLLARS ($10,000,000) par value of OREGON STATE HIGHWAY BONDS, SERIES 1953 A.

The said bonds will be negotiable general-obligation bonds of the State of Oregon, and will be sold at not less than $98 for each $100 par value thereof and the accrued interest thereon, to the bidder offering the lowest effective rate of interest upon the bonds, not exceeding 2 1/4% per annum, payable semiannually computed upon a simple interest basis.

The bonds will bear interest payable semiannually on March 1 and September 1 of each year, at such rate or rates, in multiples of 1/4 of 1% but not exceeding three percent (3%) per annum on par value, as shall be designated in the accepted bid for the bonds. Both the principal of and the interest upon the

bonds will be paid at the fiscal agency of the State of Oregon in the City and State of New York (The National City Bank of New York). The bonds will be dated March 1, 1953, will be in coupon form, and will be in denominations of $1,000 each.

The bonds will mature in serial installments of one-twentieth of the amount of the issue on March 1 of each of the years 1954 to 1973, inclusive. All bonds which mature after March 1, 1963, will be subject to call and redemption at par value on March 1, 1963, and on any interest-paying date thereafter.

All bids must be unconditional and be accompanied by a certified check drawn upon a solvent bank, having a capital and surplus of $10,000,000.00 or more, in favor of the State Highway Commission of the State of Oregon, for $175,000. The proceeds of said check will not draw interest but will be forfeited to the State of Oregon as liquidated damages in case the bidder to whom the bonds are awarded should withdraw his bid or fail to complete his purchase in accordance with the terms thereof. The bonds will be delivered complete, on or shortly after March 1, 1953, without cost to the successful bidder, at the fiscal agency of the State of Oregon in the City and State of New York, or at such bank in Chicago, Illinois or Portland, Oregon, having a capital and surplus of $10,000,000.00 or more, as the successful bidder shall name.

Each bidder is requested to include in his bid a statement of the total interest cost and effective interest rate, based upon aggregate interest cost, that the State of Oregon will pay upon the issue, if his bid is accepted, provided that none of the callable bonds of the issue are redeemed prior to the final maturity dates thereof.

The successful bidder will be furnished without cost, with the unqualified legal opinion of Winfree, McCulloch, Shuler & Sayre, of Portland, Oregon, approving the validity of the bonds.

The State Highway Commission reserves the right to reject any or all bids for the bonds.

Offers for the bonds should be addressed to the State Highway Commission, and should be designated "Bid for Oregon State Highway Bonds, Series 1953 A". Mailed bids must be received by the undersigned in Salem, Oregon, by January 5, 1953.

Dated at Salem, Oregon, the 1st day of December, 1952.

STATE HIGHWAY COMMISSION OF THE
STATE OF OREGON,

By H. B. GLAISYER
Secretary

Published

November 25, 1952

The matter of printing the bonds was also discussed by the Commission. The Secretary was instructed to secure quotations for such printing in conformity with recommendations from the Office of the State Treasurer, the bonds to be of gold color and lithographed on Crane's unwatermarked No. 29 bond paper or on a paper of equal quality. The bids received for the printing are to be presented to the Commission at its meeting on January 6, 1953 when a selection of the printing firm will be made.

The Commission considered a proposed bill to be submitted to the 1953 legislature authorizing the sale of additional bonds for highway construction. The Chief Counsel advised that the limit of Highway Bonds that can be issued under the state constitution is $72,000,000 and that inasmuch as the sale of $40,000,000 has already been authorized, there remains a total of $32,000,000 which may be authorized by the 1953 Legislature. He explained details of the proposed bill which, he said, bears the approval of Mr. Fred Paulus, Deputy State Treasurer, and Mr. John Shuler, Bond Attorney, Portland. He emphasized the following features: The bill provides for the issuance of $32,000,000 par value bonds so as to avoid any question as to the constitutionality of the legislation. There has been inserted in the title of the bill and in Section 3 thereof, authority for the investment of monies obtained from the sale of bonds. Section 4 of the bill provides an effective interest rate for the entire issue of 2½ percent per annum whereas the 1951 Act was on the basis of 2¼ percent per annum. Provision has been made in Section 5 for the bonds to be executed with the facsimile signature of two of the three designated officers of the State and with the manual signature of the other officer. Section 8 provides that the bonds must be sold for not less than 98 percent of the par value thereof, but the bidder may allocate to different maturities of the bond issue, prices not less than $95 for each $100 value for any maturity, provided that the average offering price for all of the maturities shall not be less than 98 percent. Chairman Chandler inquired if any limit has been placed on the amount of bonds that can be sold in any one year, and was informed by the Chief Counsel that no such limitation is contained in the proposed act. As a result of the discussion, the Commission unanimously approved the bill as prepared and instructed the Chief Counsel to present it to the Legislative Highway Interim Committee to present to the next legislative assembly.

The Parks Superintendent reported that Mr. Geo. M. Henderson, Assistant Vice President of the First National Bank of Portland, had requested that the State designate the old maintenance building and surrounding property at Government Camp as a state park to be maintained by the State for public park and recreational uses. He recalled that the property had been advertised for sale on two different occasions and that the Commission accepted the offer of the Government Camp Community Club to pay $2,850 for it, and that the Club had been given until January 1, 1953 to complete the payment. He doubted that the Club would be able to raise the necessary funds, and he recommended against the proposal of Mr. Henderson because of the adverse precedent that would be established. The Commission approved the recommendation and instructed the Park Superintendent to inform Mr. Henderson that it is not within the province of the Commission to do what he requests.

A delegation representing the Douglas County Parks Department, the Portland Chamber of Commerce Recreational and Natural Resources Committee, and the U. S. Bureau of Land Management appeared before the Commission to urge the

establishment of a state park on the North Umpqua River. The following people were present: John Amacher, Chairman of the Douglas County Parks Department, Roseburg; James Stoop, Secretary of the Douglas County Parks Department, Drain; Charles Collins, Supervisor, Douglas County Parks Department, Roseburg; Charles Stanton, Editor of the News Review, Roseburg; Arthur Kirkham, G. E. Cannon, Dave Charlton, and Thornton Munger representing the Portland Chamber of Commerce Recreational and Natural Resources Committee, all of Portland; and Mark Pike, U. S. Bureau of Land Management, Portland.

Mr. John Amacher acted as spokesman and introduced the other members of the delegation. He urged the establishment and immediate development of a state park along the North Umpqua in the vicinity of Susan Creek and Circle "H" Lodge, which location, he said, is approximately twenty-three miles east of the City of Roseburg. He pointed out the need for the camp ground due to greatly increased population in Southern Oregon and the fact that there is no major park or camp ground in this vicinity. He warned that if facilities are not quickly provided, the site will be spoiled through misuse. It was his feeling that development of the park would not cost a great amount of money and that maintenance of it could be easily handled from Roseburg. He suggested, as minimum requirements, that a plan for the unit should be formulated and about two acres of parking area be provided as well as the construction of about one-half mile of access road. Also required would be about twenty-five picnic units, about twenty camping sites, water and sanitary facilities.

Mr. Stanton stated that Douglas County has a Parks Department and maintains sixteen county parks, but their finances are limited, and they cannot undertake development of this park. He pointed out that many people use the area in the vicinity of the proposed park for fishing and camping and that the Bureau of Land Management for the U. S. Government has 700 acres in the vicinity of Susan Creek which it will turn over to the state for development as a park without cost. Mr. Kirkham stated that this matter had been brought to the attention of the Portland Chamber of Commerce Committee about ten years ago by the late Mr. Merle Chessman, who then was a member of the State Highway Commission. He recalled a comment by Zane Gray, the noted western writer, that this stretch of the Umpqua River is one of the finest white water areas in the world and is worthy of national attention. Mr. Cannon commented that the proposed site is one of the very few camp sites on the North Umpqua River due to the steep banks in most locations, and that the U. S. Forest Service maintains only two small camps, one at Steamboat and the other at Eagle Creek, both of which are inadequate. Mr. Stoop stated that in his opinion the proposed area could be developed very economically and that it merits the attention of experienced engineers and landscape artists which the Douglas County Park Department does not have. Chairman Chandler remarked that he is familiar with the location which is a very beautiful one, but in considering the project, the Commission must bear in mind its established policy not to provide parks situate so far from a state highway as this one is. He added that the project merits further consideration and that the State Parks Superintendent would be asked to make a careful study of the matter and to render a full report

concerning it. The Parks Superintendent was thereupon instructed to make such study and report. This concluded the conference.

A delegation from Kernville, Siletz and Toledo appeared before the Commission to urge further improvements to the Siletz Secondary Highway northerly from the town of Siletz to the end of the existing oiled surface, south and east of Kernville. The following people were present: John Kosydar, President, Improvement of Siletz River Highway Association, Siletz; M. G. Hammerness, Toledo; Mr. and Mrs. Charles Parker and Mr. and Mrs. Ernest Parker, Kernville; Mr. and Mrs. Ed Parker, Siletz; Mrs. Alva Strome, Kernville, all members of the Improvement of Siletz River Highway Association; Mr. Ronlad Smith, Mrs. Paul Gibson, Mrs. Leonard Whitlow and Mrs. Bill Crawford, all of Siletz. Mr. M. G. Hammerness acted as spokesman. He urged improvement of the highway because of its extensive use by logging, farming, fishing and other traffic. He recalled that the Highway Interim Committee had previously given a high priority to improvement of this road, and he gave as his opinion that satisfactory improvement could be made by using much of the existing road bed with realigning only on some of the worst spots. He also gave as his understanding that the road would be constructed within 4 or 5 years, but, he said, it still is in an uncompleted status. Chairman Chandler advised that the improvement requested is estimated to cost $1,000,000 which amount the Commission does not have. He inquired, if money is available next year to finance a portion of the work, which section the group wishes built first--the north end or the south end. Mr. Hammerness replied that this matter had been considered by the delegation and that while they want the entire 18-mile section constructed, they will be satisfied with improvement of a four or five-mile section annually until it is done, and will leave it up to the Commission to decide the order of priority. The Commission took the matter under advisement.

A delegation from Seaside representing the Chamber of Commerce and the City Council appeared before the Commission with a plan to relieve traffic congestion on US 101 within the city. Present were: Lester U. Raw, Mayor; Dean J. Ruth, Councilman; Mrs. Dean J. Ruth; Mrs. Avery Combs; Mrs. Les Herman; R. R. Shawcross, City Engineer; Floyd Cavanaugh, Postmaster; Avery Combs, City Attorney; Alex Smith, President of the Kiwanis Club and Member of the Planning Commission; John A. Schultz, City Garbage Service; and Arvin Sabey. Mayor Raw thanked the Commission for help heretofore furnished the city in construction of some of its bridges. He advised that the city has levied taxes for street improvements to the maximum of its ability and has spent upwards of $80,000 for the improvement of its city streets using its own funds, but is not in a position to finance further improvements that are needed to relieve traffic congestion on the Oregon Coast Highway. Mr. Combs stated that tourist traffic as well as logging and other freight traffic all must now use Holliday Drive, route of the Oregon Coast Highway. He suggested, in order to relieve the congestion on this street, that Roosevelt Drive and its extension to Avenue "N" be designated a truck route, by-passing the Spokane, Portland & Seattle depot grounds. He added that the people of Seaside are united in this solution of their problem. He estimated the cost to prepare Roosevelt Drive as a truck route at about $75,000, assuming that it would not be necessary to move the depot. During the ensuing discussion, the question arose whether or not the

Highway Commission has authority to designate a truck route and to build it. The Chief Counsel advised that the Commission has authority to enter into an agreement with the city covering the matter, but if the street is designated as a truck route, it would have to remain as a city street and federal money could not be used to finance its improvement. The Engineer pointed out that most of the right of way required would have to be secured from the Spokane, Portland & Seattle Railroad. Chairman Chandler concluded the interview by advising that the Commission will have an engineering investigation made and will make its decision when the report has been filed and studied. The Engineer was thereupon instructed to make such investigation and to report his findings.

A delegation from Clackamas County including County Judge Wallace R. Telford and a number of people who reside along Roberts Road No. 80 (Boeckman Road) which intersects the West Portland-Hubbard Highway near Wilsonville, appeared before the Commission in opposition to the closing of this road. The group consisted of the following in addition to Judge Telford: Harvey W. Keller, Attorney, Portland; Roland Kollermeier and E. C. Ridder, farmers, Sherwood; Anna Boeckman, Elmer Boeckman, Ed Boeckman, Emma Boeckman, Mr. and Mrs. Ernest Boeckman, Mrs. Sanderson, Mrs. Forken, Mr. and Mrs. Vernon Boeckman, and Richard Boeckman, all of Sherwood; and Louise Walsh, Portland. Judge Telford, who acted as spokesman, pointed out that the original plan for the highway improvement included provision for Boeckman Road to cross the highway at grade as a temporary proposition until such time as conditions justified a traffic separation structure. Subsequently, he said, information was received by the Court that the Highway Department desired to close Boeckman Road entirely and to substitute therefor a frontage road to serve local traffic, which arrangement was approved by the Court and an agreement covering the matter was signed. Judge Telford stated further that the County Court was not aware when the agreement was signed that negotiations for right of way for the West Portland-Hubbard Highway had been made on the basis that the Boeckman Road would remain open, and the Court would not have signed the agreement had it been in possession of such information. He advised that the County Court wants the overpass constructed in accordance with the original plan. Mr. Keller spoke in behalf of families who reside along Boeckman Road, pointing out that 20 families who live on the west side of the highway and 10 who live on the east side have used Boeckman Road for many years to move their produce to market and as a means of cooperation in working their respective farms. The closure of the road, he said, will greatly hinder their operations. He emphasized that negotiations for acquisition of right of way were made on the basis that there would be a connection between Boeckman Road and the highway. Mr. Kollermeier, Mr. E. W. Boeckman, Mr. E. C. Ridder, Mr. Richard Boeckman and Mr. Elmer Boeckman all stated that they conduct farming operations on both sides of the Highway and that they sold right of way to the state with the understanding that a crossing of the highway would be provided, and with that understanding none of them had asked for damages. Affidavits signed by eleven residents along Boeckman Road were submitted in support of the oral statements. Chairman Chandler, in conclusion, stated that the Commission has no desire or intent to cause any injury or damage to the people or to break faith with them, and that the entire matter will be given further study following

which the Commission's decision will be reported to the County Court. Following departure of the group, discussion of the matter was resumed. The Engineer advised that the cost to provide a grade separation structure at the point is estimated at about $70,000, and that provision for it was included in the original plan for this highway project but was deleted later when it was decided to serve the local people with a frontage road. The feeling of the Commission was expressed by Chairman Chandler who stated that the delegation brought out certain things that were previously unknown to the Commission, and that if a mistake was made, it should be rectified. The Engineer was thereupon instructed to make a complete review of the project and report back to the Commission.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m. in the same room with the same persons present and participating.

A delegation from Albany appeared before the Commission and requested an extension of an existing access road along US Highway 99E northerly from the present terminus at Truax Creek, just north of Albany, to the next intersecting county road. The following people formed the group: Claude Buerge, contractor; Rev. Paul E. Yoder, Minister; Lester Kropf; and John S. Kennel, all of Albany. Mr. Kropf who acted as spokesman, stated that they have built a new church adjacent to the highway at this location which cannot be reached conveniently without crossing the highway, and that several minor accidents have occurred that could have been avoided had a frontage road been available. He urged the construction of such road as a safety measure. Chairman Chandler inquired if they knew that access to the main highway was controlled along this section at the time the church was erected, and Mr. Kropf replied in the affirmative. Chairman Chandler then explained that access is controlled on such sections as a protection to the traveling public and if the Commission allows access whenever it is requested, the purpose of controlled access would be defeated. He gave as his understanding that there now is access to the church from the rear, using a county road connection. He expressed regrets that the Commission cannot approve their request because of its definite policy with respect to such matters along access-controlled highways.

The following persons representing the Ocean Lake Chamber of Commerce appeared before the Commission to urge establishment of a state park in the town of Ocean Lake: Messrs. R. C. McBride, Merle B. Gwynn and Herbert Gordon. Mr. Gwynn, who headed the group, inquired as to the status of their previous request for establishment of such park. Mr. McBride reviewed their previous application and advised that the City is anxious to secure a state park in Ocean Lake for the accommodation of tourists. He gave as their feeling that the locations investigated by the State Parks Superintendent, being some distance from the town, are not as satisfactory as the one requested by the City, and he urged the Commission to take over the location within the City as the City does not have funds to develop it properly. Mr. Gordon exhibited a map showing the property and explained that it adjoins the highway, is sheltered from the winds, and has a convenient stairway to the beach. He advised that a sewer system, light and water facilities are available and that the 18 acres in the area can be purchased for somewhat under $10,000.

Chairman Chandler stated that he is familiar with the proposed location and appreciates that it is a good spot for a park; however, he said, for many years the Commission has adhered to a policy that parks within a city or a town should be the responsibility of the municipality. In the discussion that followed, Mr. Gwynn remarked that if it would help any, the City could take the park area out of the city limits. Chairman Chandler concluded the conference by stating that the Commission can promise nothing at the present time but will give the matter further consideration.

A delegation from Woodburn and North Marion County appeared before the Commission concerning the location of and access to the proposed Portland-Salem Expressway near Woodburn. The following people comprised the group: Winton J. Hunt, member of the Woodburn Chamber of Commerce; Lyman E. Seely, bank manager, Woodburn; John N. Hooper, farmer, Woodburn; Norman Reiling, farmer, Hubbard; P. A. Loar, physician; and J. Carey Moore, bank manager, both of Silverton. Mr. Hunt, who acted as spokesman, introduced the members of the delegation and pointed out that they are very much interested in the route of the Expressway from the Willamette River near Wilsonville to Hayesville, north of Salem. He inquired as to why the route selected was chosen and if it is true that access is to be granted only at Hayesville and Wilsonville. He was informed by Chairman Chandler that the route was adopted because it was determined from exhaustive engineering studies, to be the shortest, straightest, and cheapest route of all those considered, and the best route for an expressway. Mr. Hunt inquired as to the difference in cost of the several routes investigated and was informed that such information is not immediately available but will be given to him gladly by the Engineer upon request at the Salem office of the Commission. Mr. Hunt then brought into the discussion the matter of access points. He gave as his understanding that access to the expressway south of Wilsonville is limited to two points, one just south of the Willamette River crossing at Wilsonville, the other in North Salem, about 28 miles apart. He remarked that the access points are too far apart and asked the Commission to consider another connection near Woodburn. Others speaking in behalf of a connection with the new highway near Woodburn were Mr. Seely, who declared that the economic growth of the Woodburn area needs the connection and will not improve without it; and Dr. Loar, who stated that the people of Silverton are very much concerned because, if such connection is not provided, it means that the people of Silverton and Mt. Angel will have to go to either Salem or Wilsonville to get on the new highway. Chairman Chandler advised that the new highway has been declared an expressway in order to speed up travel and to relieve congestion on existing roads, and, if frequent access points are permitted,the safe and rapid flow of traffic will be destroyed, and the purpose for which freeways are designed will be defeated. Highways, he added, are built primarily to accommodate all people who use them and pay for them, and their benefit to local communities must be a secondary consideration; also, that, if in the future a connection near Woodburn is considered necessary,then it will be provided; but, presently, that is all of the encouragement that the Commission can offer.

The Commission discussed with the Engineer the bids received during the morning session for highway construction and at 3:00 p.m. Commissioner

Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's action in each case being by unanimous vote:

"Paving and rock production project on the Catching Slough-Enegren Ferry Section of the Coos River Secondary Highway in Coos County. Porter W. Yett, Portland, submitted the only bid received for this project at $104,784. The contract has been awarded to Porter W. Yett at his bid price.

"Rock production project on the Endicott Creek-Mystic Creek Section of the Coos Bay-Roseburg Highway in Coos and Douglas Counties. No bids were received for this project. The job will be readvertised.

"Construction of park facilities in Humbug Mountain State Park in Curry County. Wold Brothers, Bullards, Oregon, submitted the low bid for this job at $27,579.40. Three higher bids were submitted. The Commission has awarded the contract to the low bidder, Wold Brothers, at their bid price.

"Construction of four reinforced concrete viaducts on the Anlauf-Elkhead Road Unit of the Pacific Highway in Douglas County. Eight bids were received for this project, the low one being submitted by R. E. Meade and Company, Grants Pass, at $88,413.50. The contract has been awarded to the low bidder, R. E. Meade and Company, at their bid price.

"Construction of three reinforced concrete structures on the Divide-Rice Hill Section of the Pacific Highway in Douglas County. R. E. Meade and Company, Grants Pass, submitted the low bid out of a total of six bids received for this project, at $76,666. The Commission has awarded the contract to the low bidder, R. E. Meade and Company.

"Jordan Valley rock production on the I. O. N. and Jordan Valley highways in Malheur County. Three bids were submitted for this project, the low one being that of C. E. Leseberg, Nyssa, at $50,008. The contract has been awarded to C. E. Leseberg, low bidder, at his bid price.

"Construction of the Water Street-Commercial Street Unit on the Center Street Bridge Section of the Salem-Dallas Highway in Salem, Marion County. Only two bids were received on this project, the low one being that of Warren Northwest, Inc., Portland, at $16,468.80. The contract has been awarded to the low bidder, Warren Northwest, Inc., at their bid price.

"Construction of the White School Junction grade separation viaduct over the West Portland-Hubbard Highway, Marion County. Birkemeier and Saremal, Portland, submitted the low bid for this work at $28,510. Seven higher bids were received. The contract has been awarded to Birkemeier and Saremal, low bidders, at their bid price.

"Grading and paving the White School Junction Unit of the Barbur Bouelvard-White School Section of the West Portland-Hubbard Highway in Marion County. Roy L. Houck and Son, Salem, submitted the low bid for this project out of a total of four received, at $60,272. The Commission has awarded the contract to the low bidder, Roy L. Houck and Son, at their bid price.

"Construction of two concrete box culverts on the Lena-Nye Section of the Heppner Highway in Umatilla County. Frank P. Sargent, Hermiston, submitted the low bid for this job at $14,934. Six higher bids were received. The contract has been awarded to the low bidder, Frank P. Sargent, at his bid price."

A delegation from Condon headed by E. R. Fatland appeared before the Commission to request the establishment of a state park and recreational area in Condon. Other members of the delegation were Mr. James O. Burns, Mayor-elect of Condon, and Bruce Mercer, the City Engineer. Mr. Fatland introduced the members of the group and thanked the Commission for work performed on the Cottonwood Canyon Section of the Wasco-Heppner Secondary Highway. Mr. Mercer explained that state construction of park facilities in Condon would be a great help to the City which is in need of engineering and financial help on its park project. Mr. Burns stated that the City has spent more than $20,000 on development of a site, but in order to complete it, there is still needed a retaining wall, improved entrance to the parking area, gravel for the parking area, top soil, landscaping restrooms, fireplaces, benches, and picnic facilities. Mr. Fatland explained that the City wishes to dedicate the park as a memorial to the war dead and urged that the Commission consider the project even though it be within the city limits of Condon. Chairman Chandler explained the Commission's policy with respect to establishment of state parks within cities and advised that because of that policy no encouragement can be given to the people of Condon in this instance.

A delegation from Tillamook County appeared before the Commission inquiring as to the status of plans for completion of the Wilson River Highway from Glenwood easterly to a junction with the Sunset Highway. Present were: County Judge O. E. Effenberger; L. E. Francis, businessman; and Art Waud, Manager of Highway 101 Association, all from the City of Tillamook. Judge Effenberger expressed appreciation for highway work performed in Tillamook County in the past few years and inquired if the Commission has plans to complete construction of the Wilson River Highway easterly from Glenwood. Mr. Francis added a few remarks in support of Judge Effenberger's inquiry. Chairman Chandler advised that the Commission has adopted the survey for this route which is known as the Washburn-North Plains Section of the Wilson River Highway, following for a good share of the distance the right of way of the old Gales Creek and Wilson River logging railroad which has been abandoned. Acquisition of right of way, he stated, will start in the near future, and construction of the section is in the Commission's program, although the contracting of the work is contingent upon the Legislature authorizing the issuance of additional bonds for highway construction. If such bonds are authorized, he added, there is a possibility that the work may get started in 1954.

A delegation representing the "Save the Gorge" Committee of the Portland Women's Forum appeared before the Commission and urged acquisition of additional areas in the Columbia Gorge to preserve its scenic value. The following people comprised the group: Mrs. Gertrude Jensen, Chairman of the "Save the Gorge" Committee; Lloyd Olson, Supervisor of Mt. Hood National Forest; Mark Pike, Bureau of Land Managemenr; all members of the Governor's

Committee of the Columbia Gorge Authority; Alfred Loeb, member of the Portland Chamber of Commerce, Committee on Natural Resources; Klondike Kate; Mrs. Dorothy Harlan, Co-Chairman of "Save the Gorge" Committee; Mrs. Hugh Peterson, President of the Portland Women's Forum; and Mrs. Gertrude Dunn, Corresponding Secretary of the "Save the Gorge" Committee. Mrs. Jensen acted as spokesman for the group and expressed thanks for cooperation heretofore given by the Commission in preserving scenic values in the Gorge. She exhibited a map showing the National Forest Areas between Troutdale and Bridal Veil, and advised that the U. S. Forest Service has cooperated greatly in exchanging acreages of Federal land for privately owned areas, but in two critical areas exchanges cannot be made because of logging contracts. One of these areas, she explained, is a tract of approximately 105 acres at Sheppards Dell, owned by the Sheppard family. This area adjoins an existing state park. The other area is at Tanner Creek near the Bonneville hatchery, owned by the Tyrell family, which will be logged soon unless something is done to prevent the operation. She asked the Highway Commission to acquire these tracts as additions to the State Park system. Mr. Mark Pike of the Bureau of Land Management explained that their office has tried to prevent logging by exchanging properties with land owners, but they are restricted considerably in their activities by laws and departmental regulations, and it is due to such laws and regulations that they are unable to exchange land for the Sheppard's property. Mr. Lloyd Olson explained that a similar condition exists in regard to the area at Tanner Creek. Mrs. Jensen stated that Mr. Olson, who is supervisor of the Mt. Hood National Forest, had offered to trade to the State a piece of timber in the Mt. Hood National Forest if the State would acquire the Tanner Creek property. It was her thought that the State could do this without ultimate cost by selling the Mt. Hood property for at least as much as would be required to purchase the Tanner Creek land. She pointed out that the Tanner Creek area is highly desirable as a state park because on this property fossils of an ancient rare leaf have been found, and if action is not taken soon it will be logged. She urged an immediate investigation. Chairman Chandler stated that the Commission would have to give the matter further thought, and will get an opinion from the Chief Counsel as to how far the Commission can legally go in the matter of trading property as suggested; moreover, the Commission, will have the State Park Superintendent obtain prices from the several land owners. The Park Superintendent was thereupon instructed to investigate the matter and report his findings.

The Chief Counsel brought up the matter of providing an easement to Al Peirce and Hilda Peirce for the purpose of constructing a roadway across Simpson Park at North Bend. He presented a form of agreement covering the matter and recommended its approval. The Commission approved the recommendation. (The agreement was signed by the Commission later in the session.)

The Chief Counsel also presented for the Commission's consideration the matter of renewing the contract with the National Hospital Association whereby the Association provides medical and hospital benefits for state highway employees. Mr. J. W. DeSouza, Assistant Counsel, explained details. He pointed out particularly that, under the new contract, the rates for the employees have been raised from $4 to $4.50 per month and that the benefits have been somewhat reduced; however he recommended that the Commission approve the contract. The Commission accepted the recommendation.

The Engineer brought up for consideration the matter of adding mileage to the Federal Aid Secondary County Road System. He explained briefly that twelve counties in the state have effected improvements on Federal Aid secondary county roads to the extent that it is necessary to add additional mileage to the Federal Aid Secondary County Road System of those counties in order to permit programming of existing Federal Aid Secondary Funds to be allocated to county roads on the Federal Aid System. He presented a list of the roads and maps showing the location of same in twelve counties as follows, and recommended that they be approved by the Commission as additions to the Federal Aid Secondary System, subject to approval by the Bureau of Public Roads:

CLATSOP COUNTY: Youngs River Loop from junction with the Oregon Coast Highway (FA 2) at Miles Crossing southerly and easterly to a junction with the Nehalem Highway (FAS 601) at Olney, a distance of approximately 11.7 miles.

CROOK COUNTY and DESCHUTES COUNTY: County road extending from a junction with the Powell Butte Highway (FAS 404 and 542) southerly to a junction with FAS 398 at Alfalfa, a distance of approximately 8 miles, 4 miles being in each county.

DESCHUTES COUNTY: The Burgess County Road from The Dalles-California Highway (FA 4) north of Lapine westerly to the Deschutes National Forest boundary, a distance of approximately 4 miles.

GRANT COUNTY: A newly located road extending from Ritter along the north side of the Middle Fork of the John Day River to a junction with the Pendleton-John Day Highway (FA 30), a distance of approximately 7 miles.

HOOD RIVER COUNTY: A route beginning at an intersection with the Barrett County Road east of the community of Rockford and running northerly to a junction with the Columbia River Highway (FA 1), a distance of approximately 2.5 miles.

JACKSON COUNTY: The Thompson Creek Road from its junction with the Medford-Provolt Highway (FAS 268) at Applegate southerly to the Josephine County line, a distance of approximately 7.2 miles.

The Lower Applegate Road from its junction with the Medford-Provolt Highway (FAS 268) at Ruch southerly for a distance of approximately 9.6 miles to a county road junction.

POLK COUNTY: The Burns Corner-Suver County Road from the Kings Valley State Highway (FAS 190) southerly and easterly to an intersection with the Pacific Highway West (FA 9) near the community of Suver, a distance of 12.6 miles.

UMATILLA COUNTY: Four roads located in the area north of Pendleton totalling approximately 46 miles. They are:

1. Fulton Road - 3 miles in length extending from the Cold Springs Highway (FAS 461) east to Fulton.

2. The Despain Gulch Road - 21 miles in length extending from the Old Oregon Trail (FAS 462) in Stanfield east to the Cold Springs Highway (FAS 461)

3. The South Cold Springs Road - 12 miles extending from the Cold Springs State Highway (FAS 461) southeasterly along the South Fork of the Cold Springs Canyon to FAS 461.

4. The Dutch Hall Road - 10 miles extending from the Athena-Holdman State Highway (FAS 466) northerly to the Van Cycle County Road.

UNION COUNTY: Alicel-Cove County Road. Extend the present FAS Route 479 easterly and southerly to Cove, an addition of approximately 8 miles.

WASCO COUNTY: The Friend Market Road from The Dalles-California Highway (FH 4) westerly to Friend, a distance of approximately 6 miles.

WASHINGTON COUNTY and MULTNOMAH COUNTY: The Barnes Road from Sunset Highway (FA 27) easterly to FAS 635 in Portland, a distance of approximately 4.5 miles, 2 miles being in Washington County and 2.5 miles in Multnomah County.

The Commission unanimously approved the Engineer's recommendation and authorized him to conduct a survey of each as may be required.

Chairman Chandler asked the Engineer to submit an up to date report on the status of the clean-up of down timber and "danger" trees along highway rights of way. He commended the Engineer for getting the centerline striping on state highways completed before the advent of the wet season.

As the winter season is close at hand, he instructed the Engineer to keep a close watch on the condition of the state highways with a view to imposing reduced load limits where necessary to prevent damage to the roads. He requested that a letter of notification be sent to all members of the hauling industry advising them that it may be necessary at some future date to impose reduced load limits in order to protect the highways.

Chairman Chandler also asked the Engineer to prepare maps and statements showing the amount of contract work performed on U. S. Highways 30, 99, and 101, the amount of bond money expended with mileage constructed with such funds and the work contemplated if additional bond money is made available by the 1953 legislature, the information to be given for each highway separately.

The Commission signed agreements, etc., as follows:

"Consent to Assignment of Lease" from Coos Bay Timber Operators to Clarence A. and Jessie G. Gould.

Lease Agreement with Mountain States Power Company covering use by the company of a portion of Block 61, Washburn's Subdivision of Springfield which the company plans to use as a storage yard.

Agreement with St. Helens Pulp & Paper Company re use of a road on east side of Oregon Coast Highway in Short Sand Beach State Park. (Authorized September 22, 1952)

Agreement with R. A. Zimpel, re use of a logging road across Camas Mountain State Park, in Douglas County. (Authorized September 22, 1952)

Agreement with City of Forest Grove re proposed flashing beacon installation at the intersection of Pacific Avenue and "B" Street. (Authorized August 18, 1952)

Agreement with Oregon State College to determine the effect of fish ladder baffles on the hydraulic characteristics of box culverts and to determine the effect of inlet modifications on the hydraulic characteristics of round culvert pipes. (Authorized August 18, 1952)

Bargain and Sale Deed with George B. Hager and Amelia L. Hager for a parcel of land on the Salem By-pass Section of the Pacific Highway East in Marion County. (Authorized October 20, 1952)

Bargain and Sale Deed with Gordon W. Beck and Nellie R. Beck for property on the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County. (Authorized April 21, 1952)

Easement covering the pipe line crossing of the northeast portion of Short Sand Beach State Park by E. V. Shults and W. A. Markham. (Authorized October 20, 1952)

"Release of Access Restrictions" granting unrestricted access to the Tualatin Valley Highway to Catherine Pointer.

Agreement with O. W. R. & N and Union Pacific Railroad Company re pipe line crossing near Rowena on the Columbia River Highway in Wasco County.

Lease Agreement with O. W. R. & N and Union Pacific Railroad re gravel storage site at Wyeth on the Columbia River Highway in Hood River County.

Agreement with the City of Springfield covering the South "A" Street project in City of Springfield.

Easement Agreement with Al Peirce and Hilda Peirce re road crossing of Simpson State Park and also across right of way of Oregon Coast Highway in Coos County.

Transmission Line Easement and Access Road Easement with Bonneville Power Administration to construct a power transmission pole line across State Highway property adjacent to US 30 between Heppner Junction and Boardman.

November 25, 1952

Release of Frontage Road Rights to property owners on the Medford-Ashland Section of the Pacific Highway in Jackson County.

The meeting adjourned at 4:00 p.m. to reconvene at 9:00 a.m. on Tuesday, January 6, 1953, pursuant to action previously taken at this meeting.

Chairman

State Highway Engineer

Commissioner

Secretary

Commissioner

November 25, 1952

EXHIBITS "A" through "M"

Minutes of

November 24 and 25, 1952

EXHIBIT "A"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

UNIT #5 - T. H. BANFIELD EXPRESSWAY

18859 - Union Pacific Railroad Company (Cooper)
Right of Way
Deed

2.4 acres at $1000. per acre.	$2,400.00
5.43 acres at $1500. per acre.	8,145.00
Amount to be paid owner - chrg to Right of Way	$10,545.00

Access controlled - no access allowed

EXHIBIT "A" (cont.)

UNIT #5 - T. H. BANFIELD EXPRESSWAY (cont.)

19650 - Eckleman, Charles E. and Clara Marie (Smith)
Right of Way
Option expires May 5, 1953

0.254 acre.	Lump Sum.	$314.70	
Amount to be paid owner - chrg to Right of way			$314.70

Access controlled - no access allowed

WEST PORTLAND-HARBOR DRIVE EXPRESSWAY

19623 - Haugen, Dwight E. and June J. (Smith)
Right of Way
Option expires April 28, 1953

18,200 sq. ft. at $0.17+ per sq. ft.		$3,264.00	
Amount to be paid owner - chrg to Right of Way			$3,264.00

Takes all -

19390 - Bradley, Frank W. and Mary W. (Smith)
Right of Way
Option expires March 8, 1953

Lot 13.	Lump Sum. (10,000 sq. ft.)	$ 750.00	
Lot 14.	Lump Sum.	1,000.00	
Allowance - for moving. Est.		5,195.00	
Amount to be paid owner - chrg to Right of Way			$6,945.00

(cont.)

EXHIBIT "B"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's records or minutes, and

WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission, and

WHEREAS, for the purpose of supplementing such informal records and action, it is the purpose of the Commission at this time to ratify all options so taken.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction, or other improvement of the following-named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved:

County and Section	Highway
CURRY	
Euchre Creek-Wedderburn (Gravel Pit and Stockpile Site)	Oregon Coast
DESCHUTES	
Bend-Lapine Section (R/W) North Unit	The Dalles-California
LANE	
Springfield-Jasper (Gravel Pit)	Springfield-Creswell
LANE	
Springfield-Walterville (Gravel Pit)	McKenzie

(cont.)

EXHIBIT "B" (cont.)

LINN		
	Noble Slough-Foster (Gravel Pit)	Santiam
MALHEUR		
	Juntura-Harper (Talus Pit and Stockpile Site)	Central Oregon

2. It is further resolted that the informal action of the Commission and authorization for said acquisitions hereby is ratified.

3. That this resolution be entered in the minutes and records of the Commission as of November 24, 1952, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed on said attached page.

EXHIBIT "C"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission (hereinafter called "State"), owns or is acquiring all the following described real property situated in Multnomah County, State of Oregon (hereinafter collectively referred to as "State property"):

A parcel of land lying in Block 33 of Capitol Hill Addition, situated in Section 21, Township 1 South, Range 1 East, Willamette Meridian, Multnomah County, Oregon, the said parcel being described as follows:

All of Lots One (1), Two (2), Three (3) and Four (4) of Block 33 of the Capitol Hill Addition and all of that portion of Lots Five (5), Six (6) and Seven (7) of said Block 33 described as follows: Beginning at the northeast corner of Lot Five (5) of said Block 33; thence South 100 feet along the east line of said Lot Five (5), to the southeast corner of said Lot Five (5); thence West along the south line of Lots Five (5), Six (6) and Seven (7) a distance of 137.5 feet; thence North easterly to the point of beginning.

The parcel of land to which this description applies contains 26,875 square feet.

and

WHEREAS, School District No. 1, Multnomah County, Oregon, (hereinafter called "District"), owns all the following described real property situated in Multnomah County, State of Oregon (hereinafter collectively referred to as "District property"):

A parcel of land lying in Block 33 of Capitol Hill Addition, situated in Section 21, Township 1 South, Range 1 East, W. M., Multnomah County, Oregon. The said parcel being described as follows:

All of that portion of Lots 11, 12, 13 and 14 of Block 33 of Capitol Hill Addition described as follows: beginning at the southwest corner of said Block 33, thence north along the west line of said Block 33, 100 feet to the northwest corner of Lot 11; thence east along the north line of said Lots 11, 12, 13 and 14, 162.5 feet; thence southwesterly to a point on the south line of said Block 33 which point is 25 feet east of the southwest corner of said Block 33; thence west 25 feet along said south line to the point of beginning.

(cont.)

EXHIBIT "C" (cont.)

and

WHEREAS, State desires to acquire District property above described for purposes of a new West Portland-Harbor Drive Expressway, and District desires to acquire State property above described for playground purposes in connection with its Capitol Hill School, and State and District desire to exchange said properties upon the following considerations:

(a) State will convey the above described State property to District but will retain the improvements thereon and the income from said improvements until the same are removed from said property, and will remove the same prior to October 1, 1954, and in addition, in order to reduce highway noises, will plant trees or shrubs along the southerly right of way line of said West Portland-Harbor Drive Expressway between the east boundary of S. W. 19th Avenue and what is now the south boundary of S. W. Hume Court, and

(b) District will convey the above described District property to State with the improvements thereon and in addition, on behalf of itself, its successors and assigns, will surrender all existing, future or potential easements of access and rights of ingress, egress and regress to, from and between said West Portland-Harbor Drive Expressway and all property which District has in Block 33 of said Capitol Hill Addition,

now, therefore,

BE IT RESOLVED and the State Highway Commission hereby finds that the property described above as District property is of equal useful value for the public use of the State as the property described above as State property, and that the property and considerations which State will receive from District as above set forth are equal in value to the property and considerations which State will give to District as above set forth.

BE IT FURTHER RESOLVED that the State Highway Commission does hereby approve and authorize the aforesaid exchange of properties upon the considerations aforesaid.

BE IT FURTHER RESOLVED that, upon receiving a certified copy of a Resolution adopted by the Board of Directors of School District No. 1, Multnomah County, Oregon, approving and authorizing the aforesaid exchange of properties upon the conditions aforesaid, this Commission shall do and perform all acts and things and execute all documents as may reasonably be necessary to carry out said exchange of properties.

BE IT FURTHER RESOLVED that this Resolution be entered in full in the Minutes of this Commission and that a certified copy thereof be forwarded to the School District.

EXHIBIT "D"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, on the 19th day of February, 1952, at a meeting of the Oregon State Highway Commission, the Commission adopted a resolution reducing the maximum load limit allowed by law on the following-described state highway bridge:

WASCO-HEPPNER SECONDARY HIGHWAY No. 300

M. P. 18.76	Bridge No. 4623 over the John Day River between Gilliam and Sherman Counties.	15 tons

and,

WHEREAS, subsequent to the passage of said resolution, conditions have changed so that it no longer is necessary or desirable, and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limit set out in said resolution.

NOW, THEREFORE, BE IT RESOLVED that the action of the State Highway Commission reducing the load limit on said bridge be and the same hereby is rescinded and cancelled as of 8:00 a.m., October 29, 1952, and that the maximum load limit permissible on said bridge structure thereafter shall be the maximum load limit prescribed by law; and,

IT IS FURTHER ORDERED that certified copies of this resolution be furnished to the County Clerks of Gilliam and Sherman Counties and to the Superintendent of the Department of State Police.

Dated this 24th day of November, 1952.

EXHIBIT "E"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, on the 8th day of November, 1951, the Commission passed and adopted a resolution ordering a reduced load limit on the North Santiam Secondary Highway No. 162; on the North side of the North Santiam River beginning at the intersection of DeWitt's Road approximately 3 miles west of Mill City and extending easterly therefrom 1¼ miles; and,

WHEREAS, subsequent to the adoption of said resolution, conditions have changed so that it no longer is necessary or desirable and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limit set out in said resolution.

NOW THEREFORE, BE IT AND IT HEREBY IS RESOLVED that the action of the State Highway Commission reducing the maximum permissible load limit as set forth in said resolution of November 8, 1951, to-wit:

Name of Highway and No.	County	Section	Cancelled
North Santiam Secondary Highway 162	Marion	On the North side of the North Santiam River beginning at the intersection of DeWitt's Road approximately 3 miles west of Mill City and extending easterly therefrom 1¼ miles	Nov. 13, 1952 8:00 a.m.

be and the same hereby is rescinded and cancelled, and the maximum load limit permissible subsequent to November 13, 1952 shall be the maximum load limit prescribed by law.

IT IS HEREBY ORDERED that a certified copy of this resolution be furnished to the County Clerk of Marion County and a like copy to the Superintendent of the Department of State Police.

Dated this 24th day of November, 1952.

EXHIBIT "F"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, the Willamette Highway is one of the major state primary highways and is likewise a Federal highway, which highway throughout its entire length carries a large volume of traffic; and,

WHEREAS, it appears that in the vicinity of Rattlesnake Creek, approximately 3.75 miles east of the hamlet of Pleasant Hill on said highway in Lane County, particularly between M. P. 8.73 and M. P. 8.93, vehicles are parked on both sides of the highway for extended periods of time; and,

WHEREAS, the parking of said vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission, a hazard is created not only to through traffic but to the owners and drivers of said parked vehicles; and,

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders on either side of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations by members of its staff, that the parking of vehicles along either shoulder of the Willamette Highway between M. P. 8.73 at Rattlesnake Creek and M. P. 8.93, a distance of 0.20 mile easterly from Rattlesnake Creek, creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That, in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and

(cont.)

EXHIBIT "F" (cont.)

the action of the Commission as herein declared and on which signs shall be printed in plain letters the words, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 24th day of November, 1952.

EXHIBIT "G-1"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six-month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Clatskanie	$2,828.57
Dayton	2,257.21
Hammond	1,638.75

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 24th day of November, 1952.

November 24, 1952

20969

EXHIBIT "G-2"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six-month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Aurora	$ 655.03	Malin	$1,602.38
Creswell	1,791.86	Monument	617.13
Echo	1,236.98	Pilot Rock	2,292.60
Gervais	1,236.98	Rogue River	1,596.97
Imbler	403.30	Siletz	1,542.84
Ione	709.16	Wheeler	787.66
Island City	373.53	Yamhill	1,458.93
Long Creek	779.54	Yoncalla	1,694.41

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 24th day of November, 1952.

November 24, 1952

EXHIBIT "H"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

Contract No. 3324 with Coos Bay Dredging Company, Inc., for grading and paving on the Coos Bay (Fir Avenue-Ingersoll Avenue) Section of the Oregon Coast Highway in Coos County, completed August 12, 1952.

Contract No. 3471 with Durbin Brothers for grading and bituminous macadam surfacing on the Big Creek (Agate Beach-Newport) Section of the Oregon Coast Highway in Lincoln County, completed August 1, 1952.

Contract No. 3511 with General Construction Company for Columbia Slough Bridge widening on the Pacific Highway East in Multnomah County, completed October 17, 1952.

Contract No. 3540 with Bechtel Brothers for constructing Wallowa Lake camping area on the Joseph-Wallowa Lake Highway in Wallowa County, completed August 11, 1952.

Contract No. 3541 with Loyd Calkins Company for grading, surfacing and structures on the Bridge Creek Section of the Ochoco Highway in Wheeler County, completed June 14, 1952.

Contract No. 3558 with J. N. Conley for grading and structures on the Big Creek Section of the Columbia River Highway in Clatsop County, completed October 2, 1952.

Contract No. 3560 with Newport Construction Company for grading, paving, and structure on the Salisbury-Baker Section of the Baker-Unity Highway in Baker County, completed August 23, 1952.

Contract No. 3592 with Tom Lillebo for constructing the Johnson Bridge over the Trask River on Tillamook County Road, completed October 23, 1952.

Contract No. 3606 with R. A. Heintz Construction Company, for grading and paving on the Gilchrist-Willamette Junction Unit of the Lapine-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County, completed November 6, 1952.

Contract No. 3608 with Brunell Brothers for Coos River ferry service at Enegren in Coos County, terminated at 10:00 a.m., November 23, 1952.

Contract No. 3795 with Leslie Harris for grading and oil mat surfacing on the East Connection, Boardman Junction Section of the Columbia River Highway in Morrow County, completed October 22, 1952.

THEREFORE BE IT RESOLVED that the work covered by said state highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "I-1"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

NAME OF HIGHWAY: Santiam

HIGHWAY NUMBER: State 16 ROUTE NUMBER US 20

Location of Termini			Established Speed
M. P. 28.09 (East city limits of Sweet Home)	to	M. P. 28.42 (0.33 mile east of Sweet Home)	30 miles per hour
M. P. 29.85 (0.06 mile west of traffic scales)	to	M. P. 30.68 (Oregon Electric RR Underpass	35 miles per hour

(cont.)

EXHIBIT "I-1" (cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

AND BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Commission as of the 24th day of November, 1952.

EXHIBIT "I-2"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, the Santiam Highway is one of the major state primary highways and is likewise a Federal highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that at a location a short distance east of the town of Sweet Home on said highway in Linn County, particularly between M. P. 29.40 and M. P. 29.55, vehicles are parked on both sides of the highway for extended periods of time; and

WHEREAS, the parking of said vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission, a hazard is created not only to through traffic but to the owners and drivers of said parked vehicles; and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders on each side of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation reports and recommendation by members of its staff, that the parking of vehicles along either shoulder of the Santiam Highway between M. P. 29.40, approximately 0.69 mile east of the east city limits of the City of Sweet Home, and M. P. 29.55, a distance of approximately 0.84 mile from the east limits of the City of Sweet Home, creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That, in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on either side of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared and on which signs shall be printed in plain letters the words, "NO PARKING ON HIGHWAY SHOULDERS".

EXHIBIT "I-2" (cont.)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 24th day of November, 1952.

EXHIBIT "J"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, the Pacific Highway West (US 99W) is one of the major state primary highways and is likewise a Federal highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that at the intersection of Villa Road with the Pacific Highway West, a short distance north of the City of Newberg in Yamhill County, particularly between M. P. 23.69 and M. P. 23.72, vehicles are parked on the northerly or westerly side of said highway whose owners and drivers patronize a restaurant and a market at said location, and said vehicles are parked for extended periods of time; and

WHEREAS, the parking of said vehicles on the northerly or westerly shoulder of said highway tends to restrict sight distance and to impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission, a hazard is created not only to through traffic but to the owners and drivers of said parked vehicles; and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulder on the northerly or westerly side of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. That the Commission does hereby find and declare, based upon investigation, reports and recommendations by members of its staff, that the parking of vehicles along the northerly or westerly shoulder of the Pacific Highway West (US 99W) between M. P. 23.69 (Engineer's Station 824+18), approximately 0.32 mile north and east of the east city limits of Newberg, and M. P. 23.72 (Engineer's Station 825+77), a point just south of Villa Road intersection, creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That, in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the northerly or westerly side of the right of way of said highway within said termini should be prohibited.

(cont.)

EXHIBIT "J" (cont.)

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared and on which signs shall be printed in plain letters the words, "NO PARKING ON HIGHWAY SHOULDER".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police for his information.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 24th day of November, 1952.

EXHIBIT "K"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the McKenzie-Bend Highway, State Highway No. 17, known as the Tumalo-Bend Section in Deschutes County, the northerly terminus of which is at Highway Engineer's Station 0+00 of the reconstructed line, and the southerly terminus of which is at Highway Engineer's Station 269+31.21 of the reconstructed line; and

WHEREAS, by reason of the relocation of the said section of said highway, certain portions or units of the right of way of the McKenzie-Bend Highway and the Redmond-Bend Highway, as formerly located, have been eliminated from the boundaries of the new location, some of which eliminated portions or units are no longer needed for highway purposes and some of which are to be designated and become a part of the Cline Falls Secondary Highway; and

WHEREAS, Deschutes County and the Highway Commission have entered into an agreement under date of April 13, 1951, relating to the use and jurisdiction of the abandoned portions or units; and

WHEREAS, the contract for the construction of this relocated section of the McKenzie-Bend Highway was completed on July 24, 1952, and highway traffic is now routed over said section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the portions or units of the right of way of the said highways affected by reason of said relocation;

NOW, THEREFORE, BE IT, AND IT HEREBY IS, RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

(1) That the section of the McKenzie-Bend Highway, State Highway No. 17, known as the Tumalo-Bend Section located in Deschutes County, the northerly terminus of which is at Highway Engineer's Station 0+00 of the reconstructed line and the southerly terminus of which is at Highway Engineer's Station 269+31.21, is now completed; therefore, the portions or units of the old route, herein defined and described as Units "A", "B", and "C", shall no longer be a part of the route of the McKenzie-Bend Highway but shall be eliminated and removed therefrom, and the portion or unit of the old route of the Redmond-Bend Highway, herein defined and described as Unit "D", shall no longer be a part of the route of the Redmond-Bend Highway but shall be eliminated and removed therefrom.

(cont.)

EXHIBIT "K" (cont.)

(2) That the portions or units of the old right of way of the Mckenzie-Bend Highway and the Redmond-Bend Highway which, by reason of the relocation of the said McKenzie-Bend Highway, are no longer within the boundaries of the new right of way, which for the purpose of this resolution are identified as Units "C" and "D" and are shown colored in red on the map attached hereto, marked "Exhibit A" and by this reference made a part hereof, and more particularly described as follows,

Unit "C"

Beginning at State Highway Engineer's Station 69+00 of the relocated McKenzie-Bend Highway in the Northwest quarter ($NW\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 31, Township 16 South, Range 12 East, W. M.; thence Southerly via the former route of the McKenzie-Bend Highway to State Highway Engineer's Station 778+00 of The Dalles-California Highway in the Southeast quarter ($SE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 20, Township 17 South, Range 12 East, W. M.

Unit "D"

Beginning at State Highway Engineer's Station 171+10 of the relocated McKenzie-Bend Highway in the southeast quarter ($SE\frac{1}{4}$) of the northwest quarter ($NW\frac{1}{4}$) of Section 8, Township 17 South, Range 12 East, W. M.; thence southerly to its intersection with the old route of the McKenzie-Bend Highway at State Highway Engineer's Station 153+52.4 of the old route of the Redmond-Bend Highway in the Northwest quarter ($NW\frac{1}{4}$) of the southwest quarter ($SW\frac{1}{4}$) of Section 8, Township 17 South, Range 12 East, W. M.

shall hereafter be maintained by the County as county roads for the benefit and service of persons living thereon and communities served thereby, and the Commission hereby surrenders all jurisdiction and control thereover to the County Court of Deschutes County. *

(3) That the portions or units of the old right of way which, by reason of the relocation of the said McKenzie-Bend Highway, are no longer within the boundaries of the new right of way, which for the purpose of this resolution are identified as Units "A" and "B" and are shown colored in yellow on said Exhibit "A" and are more particularly described as follows,

Unit "A"

Beginning at State Highway Engineer's Station 52+42 of the relocated McKenzie-Bend Highway in the Northwest quarter ($NW\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 31, Township

EXHIBIT "K" (cont.)

16 South, Range 12 East, W. M.; thence Easterly via the former route of the McKenzie-Bend Highway to the West line of Cook Avenue in Tumalo in the Northwest quarter (NW¼) of the Northeast quarter (NE¼) of Section 31, Township 16 South, Range 12 East, W. M.

Unit "B"

Beginning at State Highway Engineer's Station 0+00 of the former route of the McKenzie-Bend Highway at the terminus of the Cline Falls Secondary Highway in the Northwest quarter (NW¼) of the Northeast quarter (NE¼) of Section 31, Township 16 South, Range 12 East, W. M.; thence southerly via the former route of the McKenzie-Bend Highway to State Highway Engineer's Station 69+00 of the relocated line of said highway in the Northwest quarter (NW¼) of the Southeast quarter (SE¼) of Section 31, Township 16 South, Range 12 East, W. M.

hereby are designated and selected by the Commission as a part of the new route of the Cline Falls Secondary Highway, State Highway No. 373. *

(4) The boundaries of all real properties acquired for rights of way and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

(5) This resolution shall be entered in the minutes and records of the Commission on this 24th day of November, 1952, and the Secretary hereby is directed to mail to the County Court of Deschutes County a duly certified copy thereof.

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 261, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

20983

EXHIBIT "L-1"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Deschutes County Line-Prineville Section of the O'Neil State Secondary Highway in Crook County, and also authorized and directed the Engineer to make a complete and final survey of the route and location of the Springfield Section of the McKenzie Highway in Lane County, and in connection therewith to prepare maps showing the route and location of each of said highway sections and to file said reports and records with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed the said surveys and has submitted the same for the approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said surveys, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the survey of the Deschutes County Line-Prineville Section of the O'Neil State Secondary Highway, beginning at a point approximately 8.44 miles west of the city of Prineville (Engineer's Station 476+42.51) and extending in an easterly direction therefrom to an intersection with the Ochoco Highway approximately $\frac{1}{4}$ mile west of Prineville (Engineer's Station 922+33.04) together with the map which for identification purposes bears map file Nos. 7B-12-3 and 7B-12-6 and the date of November, 1952, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That the survey of the Springfield Section of the McKenzie Highway, beginning at a point near the east end of the Willamette River Bridge at Springfield (Engineer's Station 19+19.19) and extending in an easterly direction to the east city limits of the city of Springfield (Engineer's Station 131+05) together with the map, which for identification purposes bears map No. 5B-36-8 and the date of March, 1950, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in Salem, Oregon.

3. That when said sections of said highways are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

(cont.)

EXHIBIT "L-1"(cont.)

4. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of necessary rights of way pursuant to the normal and approved method.

5. That this resolution be entered in the minutes and records of the Commission as of the 24th day of November, 1952.

20985

EXHIBIT "L-2"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Washburn-North Plains Section of the Wilson River Highway in Washington County, Oregon, and in connection therewith to prepare a map showing the route and location of said section and to file said report and record with the Commission for consideration; and,

WHEREAS, the Engineer on the 23rd day of January, 1951, completed the said survey and submitted the same for the approval or disapproval of the Commission; and,

WHEREAS, after due consideration of the said survey, field notes, map and other engineering data, the Commission on the 23rd day of January, 1951, adopted said survey and which for identification purposes, bears Engineer's Map File Nos. 7B-4-16, 7B-4-17 and 7B-4-18; and,

WHEREAS, the Engineer has brought to the attention of the Commission that the said Washburn-North Plains Section of the Wilson River Highway as originally adopted and approved should be relocated and re-aligned to the end that a more economical thoroughfare may be possible; and,

WHEREAS, it now appears to the Commission that a location for the said Washburn-North Plains Section of the said Wilson River Highway, utilizing the abandoned grade of the United Railways Company, will provide a more economical route for this highway and will serve the needs of the motoring public equally as well as the route originally adopted, and,

WHEREAS the Engineer has prepared and submitted to the Commission a map and survey together with field notes and other engineering data showing such route of the said Washburn-North Plains Section of the Wilson River Highway, said map for identification purposes bearing Engineer's Map File Nos. 7B-16-11 and 7B-16-12 and dated November, 1952; and,

WHEREAS, after due consideration of the said new survey, field notes, maps and other engineering data, it is the judgment of this Commission that the original survey of the Washburn-North Plains Section of the Wilson River Highway should be amended so as to conform to the proposed relocation and re-alignment as suggested by the Engineer in order to more adequately serve the motoring public, and that the said new survey should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

EXHIBIT "L-2" (cont.)

1. That the original survey of the Washburn-North Plains Section of the Wilsonville River Highway as formerly adopted by a resolution of this Commission dated January 23, 1951, which is shown, for identification purposes, on the Engineer's Maps File Nos. 7B-4-16, 7B-4-17, and 7B-4-18 be and the same hereby is amended and modified, and that a new survey to be known as the Washburn-North Plains Section of the Wilson River Highway which, for identification purposes, is shown on Engineer's Maps File Nos. 7B-17-11 and 7B-16-12, dated November, 1952, be and the same hereby is approved and adopted as the amended and final survey of said section of said highway, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said Wilson River Highway is permanently constructed, the same shall be done in accordance with the said amended survey unless otherwise directed or ordered by the Commission.

3. That this approval and adoption of the Washburn-North Plains Section of the Wilson River Highway survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of the said Wilson River Highway along and over said survey. Said approval and adoption shall be deemed and constituted instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of right of way pursuant to the normal and approved method.

4. That the survey of the Washburn-North Plains Section of the Wilson River Highway has been made within the meaning and purpose of Chapter 226, Oregon Laws 1947, commonly known as the "Throughway Law" and has been made within the scope and purpose of the resolution approved and adopted by the Highway Commission on November 3, 1948. Therefore, the construction of said state highway shall be completed pursuant to the provision of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission this 24th day of November, 1952.

EXHIBIT "L-3"

Minutes of November 25 and 25, 1952

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and permanent location of the Hayesville Junction-Wilsonville Junction Section of the Portland to Salem Expressway and in connection therewith to prepare maps showing the route and location of said section of said highway and to file said reports and records with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for the approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said survey, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the survey of the Hayesville Junction-Wilsonville Junction Section of the Portland to Salem Expressway, beginning at an intersection with the West Portland-Hubbard Highway, approximately 0.45 mile south of the south end of the Willamette River Bridge near Wilsonville (Engineer's Station 612+75.33) and extending southerly along Survey Line L 4, which line lies approximately 1 3/4 miles west of Hubbard, one mile west of Woodburn and Gervais, 0.6 mile west of Brooks, and immediately west of the Chemawa Indian School buildings, thence southerly and easterly to a connection with the existing Pacific Highway East and the north end of the Salem By-pass approximately 0.90 mile north of the north city limits of the city of Salem (Engineer's Station Pacific Highway East 83+52.74), together with the Engineer's map, which for identification bears Drawing No. 7B-15-18 dated November 1952, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in Salem, Oregon.

2. That when said section of said highway is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of this said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real property needed for and in connection with the construction, reconstruction or improvement of the said highway along and over said survey.

(cont.)

EXHIBIT "L-3" (cont.)

Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That the survey of the section of the said Portland to Salem Expressway has been made within the meaning and purpose of Chapter 226, Oregon Laws 1947, commonly known as the "Throughway Law" and likewise has been made within the scope and purpose of the resolution approved and adopted by the Highway Commission on November 3, 1948. Therefore, the construction of said state highway shall be accomplished pursuant to the provisions of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission this 24th day of November, 1952.

20989

EXHIBIT "M-1"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, The Dalles-California Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Lapine-Forest Boundary Unit of the Lapine-Diamond Lake Junction Section of The Dalles-California Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be improved, widened and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from said highway should be controlled; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

(cont.)

EXHIBIT "M-1" (cont.)

1. The Commission does hereby find and declare that there is needed and required for right of way for the proper widening, improvement and maintenance of the Lapine-Forest Boundary Unit of the Lapine-Diamond Lake Junction Section of The Dalles-California Highway, the following described real property, to wit:

R-18023
Owner: Lawrence H. Kozowski

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 24, Township 23 South, Range 9 East, W.M., Klamath County, Oregon, and being a portion of that property conveyed by those deeds to Lawrence Harvey Kozowski and Bessie Dixon Kozowski, recorded in Book 248, Page 664, and in Book 249, Page 432, of Klamath County Records of Deeds; the said parcel being that portion of said property included in a strip of land 100 feet in width, lying on the easterly side of the center line of The Dalles-California Highway as said highway has been located, which center line is described as follows:

Beginning at Engineer's center line Station 1105+00, said Station being 474 feet south and 238 feet west of the northeast corner of said Section 24; thence South 30° 48' West 1,000 feet to Station 1115+00, said center line crossing the westerly extensions of the north and south lines of said property approximately at Stations 1105+82 and 1114+80, respectively.

The parcel of land to which this description applies contains 1.44 acres.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there by acquired or extinguished all existing, future or potential rights of access between the right of way of the Lapine-Forest Boundary Unit of the Lapine-Diamond Lake Junction Section of The Dalles-California Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of the said remaining land, their heirs and assigns for service of the said remaining land, the following:

(a) A right of access to The Dalles-California Highway of a width of 25 feet on the easterly side of the said The Dalles-California Highway opposite Highway Engineer's center line Station 1106+00 for ordinary travel for private residential use only and shall not be used in connection with any commercial activity.

(b) A right of access to The Dalles-California Highway of a width of 25 feet on the easterly side of the said The Dalles-California Highway

(cont.)

opposite Highway Engineer's center line Station 1113+50 for ordinary travel for private residential use only and shall not be used in connection with any commercial activity.

The above mentioned accesses from said remaining real property shall not be used by the owners, their heirs or assigns, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said accesses for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it is found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the State Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the approved offer, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or

EXHIBIT "M-1" (cont.)

admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owner.

7. That this resolution be entered in full in the minutes and records of the Commission this 24th day of November, 1952.

20993

EXHIBIT "M-2"

Minutes of November 24 and 25, 1952

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and,

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon , by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, the Sunset Highway is a highway under the jurisdiction and control of the State; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Sylvan Section of the Sunset Highway; and,

WHEREAS, the said Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from the said highway should be controlled; and,

WHEREAS, said Commission is authorized to take fee simple title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

EXHIBIT "M-2" (cont.)

1. The Commission does hereby find and declare that there is needed and required for right of way for the proper widening, improvement and maintenance of the Sylvan Section of the Sunset Highway as a throughway, the following described real property, to wit:

R-15882
Owner: Elmer R. Helmcke

A parcel of land lying in the Southwest quarter (SW$\frac{1}{4}$) of Section 6, Township 1 South, Range 1 East, W. M., Multnomah County, Oregon, and being a portion of the following described property: That tract of land known as Tax Lot 120 which was conveyed by that certain deed to Elmer R. Helmcke and Faun E. Helmcke, recorded in Book 1087, Page 203, of Multnomah County Record of Deeds, the said parcel being described as follows:

Commencing at the southwest corner of said Section 6, thence North 0° 15' West along the section line 1225.62 feet; thence North 89° 45' East 508.20 feet; thence North 0° 15' West, 229.47 feet; thence North 79° 14' East, 6.50 feet; thence South 11° 57' East along the Easterly line of Tract No. 1 of said property 200 feet to the true point of beginning of the land herein to be described; thence continuing South 11° 57' East along the easterly line of said Tract No. 1, 22.45 feet to the northerly side of County Road No. 1138; thence westerly tracing the northerly side of said County Road on a 2905 foot radius curve to the left (the long chord of which bears South 71° 35' 14" West) 16.40 feet to the Southwest corner of said Tract No. 1; thence North 11° 57' West 17.65 feet along the westerly line of said Tract No. 1; thence North 55° 50' 12" East, 17.56 feet to the point of beginning.

The parcel of land to which this description applies contains 0.01 acre.

2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Sylvan Section of the Sunset Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of the said remaining land, the following:

A right of access to the Sunset Highway of a width of 25 feet on the northerly side of the said Sunset Highway, opposite Highway Engineer's center line Station 169+52, for ordinary travel for private residential use only, and shall not be used in connection with any commercial activity; said access from said remaining property shall not be used by the

(cont.)

owners, their heirs and assigns, or anyone holding under them, for any use not herein stated, and the State Highway Commission shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the State Highway Engineer a revised description, is hereby authorized to use such revised description is connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the approved offer which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admisstion as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission this 24th day of November, 1952.

TABLE OF CONTENTS

Page	Date 1953	Subject
20996	Jan.6	Assistant Parks Supt. reports on following matters:
		Curry County. Cape San Sebastian State Park. Installation of historical sign approved.
		Douglas County. Oregon Coast Hwy. Eel Lake. Proposed development by Oregon Society for Crippled Children and Adults, Inc., approved conditionally.
20997		Douglas County. Umpqua Lighthouse State Park. Mr. Boies' offer to purchase down timber accepted.
		Coos County. Bandon. Proposed state park. Negotiation for property authorized.
		Coos County. Maria C. Jackson State Park. Extension of Melton permit to haul logs across park approved.
		Van Duzer Corridor. Salmon River Hwy. Request of Coastal Lumber Company to purchase down and dead timber approved.
20998		Marion County. Silver Falls State Park. Bids to be received for restaurant concession.
		Umatilla County. Hat Rock State Park. Proposed agreement with US Engineers. Action deferred.
		Real property. Acquisition approved. See EXHIBIT "A".
		Tillamook County. Oregon Coast Hwy. Bay City-Tillamook Section. Change of access points approved.
20999		Klamath County. The Dalles-California Hwy. Chemult-Diamond Lake Jct. Exchange of land with St. Helens Pulp & Paper Company approved.
		Jefferson County. Cove State Park. Request from Mr. Meuret to purchase property in park denied.
		Condemnation. Authority granted to condemn various parcels. See EXHIBITS "H-1" thru "H-17".
21003		Trial cases in court. Report made on the following:
		Douglas County. Elkton-Sutherlin Secdy. Hwy. Yellow Creek-Calapooya Creek Section. C. J. Eldon contract 2997.
21004		Union County. Old Oregon Trail. Ladd Canyon-North Powder Section. H. P. Glenn condemnation proceedings.
		Coos County. Coos Bay-Roseburg Hwy. Myrtle Point Section. Mabel C. Laird re acquisition of land.
21005		Yamhill County. Pacific Hwy. West. North Yamhill River-St. Joseph Underpass. Carl G. Gustafson r/w acquisition.
		Marion County. Pacific Hwy. East. Salem By-pass Section. Carrol M. Robinson re acquisition of land.
		Settlement of the following cases:
		Hood River County. Columbia River Hwy. Cascade Locks-Herman Creek Section. Lyle E. Hammond re r/w approved.
		Douglas County. Pacific Hwy. Anlauf-Rice Hill Section. Stella H. Booth re r/w approved.
21006		Marion County. Pacific Hwy. East. Salem By-pass Section. M. T. Harman re r/w approved.
		Marion County. Pacific Hwy. East. Salem By-pass Section. Joseph B. Bartosz re r/w approved.

Page	Date 1953	Subject
21006	Jan.6	Tillamook County. Netarts Secdy. Hwy. Tillamook River Bridge. Henry Sause re damages to bridge approved.
		Jackson County. Pacific Hwy. Medford-County Farm Section. E. H. Lamport re r/w approved.
		West Portland-Hubbard Hwy. Barbur Blvd.-Marion County Line Section. Leo Schumm re r/w approved.
		West Portland-Hubbard Hwy. Barbur Blvd.-Marion County Line Section. Paul M. McFarland re r/w approved.
21007		Douglas County. Umpqua Hwy. Reedsport-Luder Creek Section. Offer to Earl S. Butler for r/w confirmed.
		Bonds. Bids for hwy. bonds opened and read.
21010		Deschutes County. Redmond. Authority granted to start proceedings against Sam D. Rawson.
21011		Jackson County. Pacific Hwy. Medford-County Farm Section. Settlement with John Stewart re r/w approved.
		Proposed legislation. Introduction to legislature through the Hwy. Interim Committee with reservations.
		Umatilla County. Meecham. Vacation of streets in Etna adjacent to maintenance site approved.
		Fred A. Miller, Assistant Chief Counsel. Resignation accepted.
		Leonard I. Lindas, Legal Department. Increase in salary approved.
		Owen E. McAdams. Increase in salary approved.
		Clackamas County. West Portland-Hubbard Hwy. Boeckman Road Overpass. Construction approved.
21012		US Hwy. 26 Association. Five requests presented for improvements. Engineer's report approved.
21013		Grant County. Pendleton-John Day Hwy. John Day-Beech Creek Section. Request for reconstruction denied.
		Grant County. Pendleton-John Day Hwy. John Day-Canyon City Section. Request for improvement deferred.
		Lincoln County. Oregon Coast Hwy. Gleneden Beach. Proposed by-pass route approved.
		Bond Fund Balances. Engineer's request for authority re investment of surplus bond funds approved.
21014		Crook County. McKenzie Hwy. Powell Butte. Flashing beacon and prohibition of parking approved. See EXHIBIT "B".

21357	Mar.20	Resolution re appointment of Floyd Query Acting Secretary.

Portland, Oregon
January 6, 1953

Pursuant to adjournment of its meeting held on November 24 and 25, 1952, the State Highway Commission met at 9:00 a.m., Standard Oregon Time, in the Green Room of the Imperial Hotel, Portland, Oregon. Among others, the following persons were present:

Chas. H. Reynolds, Commissioner, Acting Chairman
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. W. Stiffler, 2d Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. Porter, Right of Way Engineer
L. V. Koons, Assistant State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Mr. Ben R. Chandler, Chairman of the Commission, was excused from attending the meeting.

Commissioner Reynolds, Acting Chairman, called the meeting to order and presided in the absence of the duly elected chairman. Routine matters as follows were disposed of:

The Assistant Parks Superintendent reported on the following park matters:

1. Wording for an historical sign to be placed in Cape San Sebastian State Park in Curry County: He advised that there has been considerable demand for an historical sign to be placed in this park containing information concerning historical features and the reason for the name. He recommended installation of such a sign with the following wording which, he said, has been approved by the Memorials Committee of the Oregon Historical Society:

CAPE SAN SEBASTIAN

SPANISH NAVIGATORS WERE THE FIRST TO EXPLORE THE NORTH AMERICAN PACIFIC COAST, BEGINNING FIFTY YEARS AFTER COLUMBUS DISCOVERED THE WESTERN CONTINENTS. SEBASTIAN VIZCIANO SAW THIS CAPE IN 1603 AND NAMED IT AFTER THE PATRON SAINT OF THE DAY OF HIS DISCOVERY. OTHER NAVIGATORS, SPANISH, BRITISH, AND AMERICAN FOLLOWED A CENTURY AND A HALF LATER.

The Commission approved the recommendation.

2. Proposed development at Eel Lake on the Oregon Coast Highway in Douglas and Coos Counties, by the Oregon Society for Crippled Children and

Adults, Inc.: He reported that Mr. Howard Feast, Executive Director for the Society, had advised him recently concerning a plan of development worked out by the Society which may cost as much as $100,000. The plan, he stated, utilizes the north portion of the level area between the new highway and the lake, and a portion of the rolling ground to the north, as well as the shoreline opposite this particular area. He recalled that the Commission previously had considered development of a state park in this area, but it was his opinion that a park area could, if necessary, be developed to the south of that which the Society desires to use, and that adequate room is available for both projects. He gave as his feeling that the project is a commendable one and suggested that no action be taken by the Commission that would interfere with their project. He added that the property is now owned by the State Game Commission. The Commission approved the suggestion with the understanding that the State Highway Department's obligation shall be limited to construction of a roadway about 500 feet long from the highway to the lake, and development of a small car parking area on the shore of the lake as a right of way consideration.

3. Offer of Mr. D. E. Boies of North Bend to purchase down timber in the Umpqua Lighthouse State Park: The Assistant Parks Superintendent advised that the park budget for 1953,as approved by the Commission, contains an item for developing picnic facilities and improving the area at Lake Marie in this park, and that in examining the area a number of hemlock and spruce logs were found that should be removed. Mr. Boies, he stated, has offered to pay $8 per MFBM for the logs which are estimated to contain about 40 MFBM, and the price has been approved by the State Forestry Department. He recommended acceptance of Mr. Boies offer. The Commission adopted the recommendation.

4. Establishment of a state park at Bandon: The Assistant Parks Superintendent recalled that previous negotiations disclosed that property owners concerned are asking exorbitant prices for their land and that the Commission had ordered negotiations discontinued until the land could be purchased at reasonable cost. Since that time, he stated, there has come to his office a letter from Mrs. Ethel M. Kranick of Bandon in which she states that a Miss Gallier, one of the principal owners, has indicated that she wishes to discuss again with a representative of the Commission the price of her land needed for this park development; also, a letter has been received from the County Court of Coos County requesting further consideration of the matter by the Commission. It was his thought, inasmuch as the property owners appear to be willing to consider a lower figure, that the negotiations should be resumed, and he so recommended. The Commission approved the recommendation and instructed the Right of Way Engineer accordingly.

5. Request of Dan J. Melton for a two-year extension of his permit to truck-haul logs across Maria C. Jackson State Park in Coos County: He advised that the original permit was for a two-year period, ending October 26, 1952, and that Mr. Melton is now requesting an extension of this agreement for another two-year period. He recommended approval of the request because it will make possible the removal of timber in the area back of the park without damaging the park. The recommendation was adopted by the Commission.

6. Request of Coastal Lumber Company, Grand Ronde, to purchase down

and dead timber in Van Duzer Corridor on the Salmon River Highway: The Assistant Parks Superintendent advised that there is a small amount of timber on the south and west side of the Salmon River Highway in the Southeast quarter (SE$\frac{1}{4}$) of the Northeast quarter (NE$\frac{1}{4}$) of Section 7, Township 6 South, Range 8 West, a short distance east of the community of Boyer, amounting to approximately 49.6 MFBM. which the Coastal Lumber Company wishes to purchase and for which they have offered to pay $10 per thousand or a total of $496. He said that clean-up of this area is highly desirable in order to relieve the summertime fire hazard, and that the price is comparable to prices received previously for similar timber in this district. He recommended acceptance of the company's offer. The Commission approved the recommendation.

7. Operation of restaurant concession at Silver Falls State Park: The Assistant Parks Superintendent advised that the concession agreement with Roland F. and Evelyn A. Nohlgren will expire within a short time, and inasmuch as they are not interested in extending it, it appears desirable to obtain a new operator. Accordingly, he requested authority to advertise the concession for sale at an early date. The Commission approved the request.

8. Proposed agreement with the U. S. Army Corps of Engineers covering the use of an area at Hat Rock State Park in Umatilla County: The Assistant Parks Superintendent reported that in development of Hat Rock Park it is planned to lease an area from the United States Government through the Corps of Engineers. An agreement prepared by the Corps of Engineers, he said, contains certain objectional features that the Chief Counsel is now endeavoring to correct in order to relieve the members of the Commission from personal responsibilities. The Chief Counsel advised that he has suggested two changes in the agreement which will eliminate personal liability on the part of the members of the Commission and will provide protection under the law. The Commission deferred action on the matter pending presentation of an acceptable form of agreement. A further report was ordered for the next meeting.

The Right of Way Engineer presented for the Commission's consideration options secured for acquisition of real property needed for various state highway improvements and for other purposes. As a result of careful consideration, the Commission approved closing the options at the prices mentioned therein. The attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission.

The Commission considered a request presented by the Right of Way Engineer for a change of access point from the John and Marie Komonith property to the Bay City-Tillamook Section of the Oregon Coast Highway in Tillamook County, File No. 17911; also, a change in access point from the Frank L. and Ufa Johnson property on the Cascade Locks section of the Columbia River Highway in Hood River County. File No. 15281. The Right of Way Engineer advised that these changes are required in order to facilitate construction,

and he recommended that they be approved. The Commission adopted the recommendation. (Two indentures of access covering these changes were signed by the Commission later in the day.)

The Right of Way Engineer presented the matter of quitclaiming a parcel of property on the Chemult-Diamond Lake Junction of The Dalles-California Highway in Klamath County to the St. Helens Pulp and Paper Company in exchange for their deeding to the State a new area to be used for a cinder pit. He explained that in digging cinders from the pit previously secured from the St. Helens Pulp and Paper Company, the operations inadvertently extended beyond the limits of the property acquired, and that the present transaction is simply to correct the error, without consideration. He recommended approval of the transaction. The Commission approved the exchange as recommended. (A quitclaim deed conveying the state's land to the company was signed by the Commission later in the session.)

The Commission discussed a letter from Mr. F. L. Meuret, Madras, regarding his purchase of 27.1 acres of land situate in Cove State Park, for the sum of $270. The Right of Way Engineer recalled that this particular piece of land previously had been advertised for sale and that Mr. Meuret, in submitting his bid,did not include the required minimum amount, so the Commission refused to sell the land to him. He recommended that Mr. Meuret's present request to purchase the property be again denied. The Commission approved the recommendation.

The Chief Counsel requested authority to aquire by condemnation, if necessary, the following properties that are needed as right of way or for other purposes in connection with highway improvements, and to tender offers for the same in conformity with instructions given him in the resolution adopted by the Commission at its meeting December 20, 1951:

Heppner Junction-Boardman Section of the Columbia River Highway

	Recommended Offer
R 19811 - John Marti Right of Way (Gilliam) 2.78 acres	*

State Street South Unit of Salem By-Pass Section of the Pacific Highway East

R 19753 - James M. Baker Quarry Site (Marion) 21.105 acres	*

Brushes Creek-Rinehart Creek Section of the Oregon Coast Highway

The Commission approved the request unanimously by adoption of the attached resolutions relative thereto, marked EXHIBITS "H-1" through "H-17" inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Chief Counsel presented a written report on cases tried in court or in which judgment decrees have been entered since the last meeting of the Commission as follows:

1. C. J. Eldon, et al , vs. Ben R. Chandler, et al. This case, he reported, involves a dispute with Mr. Eldon as to the yard-mile haul of roadbed

topping on State Highway Contract No. 2997 for regrading, surfacing, and oiling of the Yellow Creek-Calapooya Creek Section of the Elkton-Sutherlin Secondary Highway in Douglas County. An amended complaint was filed and service made on August 4, 1952, in which the plaintiff sought to recover the sum of $19,236.56 with interest at the rate of 6 percent per annum from September 30, 1949. The State admitted owing the plaintiff $16,949.98. The contractor, he explained, had elected to use the county road lying on the northerly side of the Umpqua River to haul the material, whereas the southerly side had been designated by the Engineer as the haul route, this route being 0.59 mile shorter. In making his final ruling from the bench, the Judge ruled that he would amend the final contract estimate by adding the sum of $1,730.63, reflecting the additional contract price and yard-mile haul by the northerly route. The court denied Mr. Eldon's claim for $500 for use of the right ofway between the northerly river bank and the county road and further denied the plaintiff's claim for interest upon $1,730.63. The Chief Counsel stated that the Court has not yet made its finding of fact and conclusions of law in a decree entered in this case; also, that in anticipation that such findings may warrant an appeal, a transcript of the testimony has been ordered for the purpose of reviewing the entire matter and taking an appeal if it appears that the Judge's findings and conclusions can be overruled. The trial of this case, he said, was handled by Mr. Lindas and Mr. Wyckoff for the State. Mr. John H. Kelly acted as attorney for the plaintiff. The Commission approved the report. (For further details see a copy of the Chief Counsel's letter of December 30, 1952 in the General Files.)

2. State vs. H. P. Glenn, et al. This complaint concerns acquisition of 16.63 acres of cinders for use in construction and maintenance of the Ladd Canyon-North Powder Section of the Old Oregon Trail in Union County. Prior to commencement of this condemnation proceeding, an assignment of a lease had been secured from Mr. E. G. Bickmore, Assistant Division Engineer, of La Grande by which lease Mr. Bickmore had the right to remove cinders upon payment of the sum of 2 cents per yard. When the State was unable to acquire the interest of the fee owners, the condemnation proceeding was started, after first offering to purchase the fee owners' interest for the sum of $6,000. This case was tried by Mr. Lindas and Mr. Wycoff with the assistance of Mr. Cochran, a local attorney. The jury returned a verdict in the amount of $6,000 which he felt was a very good verdict as the case had many dangerous potentials which could have resulted in a much higher verdict being awarded. Mr. David Silven, Baker, acted as attorney for the defendants. The Commission approved the report.

3. State vs. Mabel C. Laird, et al. This case concerned acquisition of 1.26 acres of land on the Myrtle Point Section of the Coos Bay-Roseburg Highway in Coos County. The State's final offer in this matter was $750 whereas Mrs. Laird sought to recover the sum of $12,500 as value of the property plus $1,500 as attorney's fees. The jury, after deliberating for approximately 20 minutes, returned a verdict in the amount of $750, and since the defendant did not recover more than the offer, she is not allowed

attorney's fees and must pay the State's costs for which a bill has been filed in the amount of $157.90. This case, he added, was tried by Mr. Lindas and Mr. Wyckoff with the assistance of Mr. William Walsh, a local attorney. Mr. Ben Anderson was attorney for the defendant. The report was approved by the Commission.

4. State vs. Carl G. Gustafson. This case involved acquisition of two acres of land on the North Yamhill River-St. Joseph Underpass Section of the Pacific Highway West in Yamhill County. The State, he reported, had made an offer for purchase of this property for the sum of $2,500; however, the owner was legally incapable of accepting the offer as he had been adjudged insane and is confined in the State Hospital. The jury returned a verdict in the amount of $2,500 and in addition thereto allowed to the defendants attorney's fees in the amount of $250 plus costs. As the defendant was insane, there was no alternative but to resort to legal proceedings to secure a good title for the State. The Commission approved the report.

5. State vs. Carrol M. Robinson. This case involved the acquisition of 0.24 acre of land for right of way on the Salem By-pass Section of the Pacific Highway East in Marion County and complete restriction of access from the owner's remaining land to the new highway. Prior to filing the complaint, he stated, the defendant had been offered $750 for the property, whereas he had demanded $2,500. The trial of this case commenced November 20, 1952, and lasted 2½ days. The jury returned a unanimous verdict in the amount of $1,500, and in addition, required the State to pay defendant's cost in the sum of $50, attorney's fees in the amount of $375 and interest on the verdict from the date of filing the complaint. Although the jury's verdict, percentage wise, is considerably in excess of the offer made by the State, the increase in dollars is not substantial enough to warrant the cost of an appeal, and he recommended that an appeal not be taken. This case, he added, was tried by Mr. Peterson and Mr. McKinney. The Commission approved the report.

The Chief Counsel reported settlement of the following cases:

1. State vs. Lyle E. Hammond, et al. The case involved acquisition of 6.675 acres of land necessary for the Cascade Locks-Herman Creek Section of the Columbia River Highway, including complete restriction of access to the relocated highway. The State had offered $3,600 for the property and the owners had demanded $14,526. After several appraisals had been made, the property owners agreed to accept the sum of $4,250, and a settlement was effected on that basis. The Commission approved the settlement.

2. State vs. Stella H. Booth, et al. This case involved the acquisition of 70.45 acres of land needed for right of way on the Anlauf-Elk Creek Unit of the Anlauf-Rice Hill Section of the Pacific Highway in Douglas County. The State had offered to purchase the property for $30,000, whereas the defendants had demanded $60,000. After appraisals had been made and further negotiations undertaken, the owners agreed to accept the sum of $33,000. He felt that this settlement is advantageous to the State considering the potential damages that could be shown in a trial, and he recommended that the settlement be accepted. The Commission approved the recommendation.

3. The State vs. M. T. Harman, et al. This case involves the acquisition of 5.313 acres of land required for right of way on the Salem By-pass Section of the Pacific Highway East in Marion County. The State had previously offered $5,000 for the property, whereas the owner demanded $17,500, later reduced to $12,000 including attorney's fees. Before the trial, the defendants had agreed to settle for the sum of $6,000 for the property plus $350 attorney's fees. He recommended that the settlement be approved inasmuch as recent sales of comparable land in the area had been made at a price in keeping with the proposed settlement. The Commission approved the recommendation.

4. State vs. Joseph B. Bartosz. This case involved acquisition of 2.94 acres of land for right of way on the Salem By-pass Section of the Pacific Highway East in Marion County plus an additional parcel of excess property containing 2.15 acres that is being "land-locked" by reason of the taking of the right of way and access control. The State offered $800 for this property; but, subsequent to filing the complaint, further investigation and appraisals had disclosed that the property should be valued between $1,400 and $1,728. The property owner demanded $5,635 for the property plus $1,000 attorney's fees. The defendant later offered to settle for a total consideration of $1,500 including attorney's fees. The Commission approved the settlement.

5. State vs. Henry Sause. This case was to recover the sum of $1,929.79 for damages to the bridge over the Tillamook River on the Netarts Secondary Highway in Tillamook County caused by four separate collisions of a tug and barge operated by the defendant. Prior to commencement of court action, the defendant offered to settle for the sum of $1,450 which he felt was an advantageous settlement, and a check has been received from the defendant's insurance company. The Commission approved the settlement.

6. State vs. E. H. Lamport, et ux. This case involved the acquisition of 0.20 acre of land for right of way on the Medford-County Farm Section of the Pacific Highway in Jackson County, and for an easement for relocation of an irrigation ditch. An offer had been made to the owner in the sum of $1,000, whereas he demanded $4,000. Appraisals indicated that the property had a value between $893 and $1020. Prior to the trial date, the defendants offered to settle for $1,250. As the increase in cost is very slight, he felt that it was a good settlement. The Commission approved the settlement.

7. State vs. Leo Schumm, et al. Acquisition of 0.20 acre of land for right of way on the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway. The State originally offered $1,000 for the property; however, later appraisals showed a value between $1,400 and $2,900. The owners demanded $4,625; however, just before the trial the defendants agreed to accept the sum of $2,800. The Commission approved the settlement.

8. State vs. Paul M. McFarland, et ux. Acquisition of 0.12 acre of

land required as right of way for the Barbur Boulevard-Marion County line section of the West Portland-Hubbard Highway. On the basis of appraisals, the State had offered $2,500 for the property, whereas the owner demanded $5,503. Upon filing the complaint, the owner agreed to settle for $2,500. The Commission approved the settlement.

The Commission discussed and unanimously confirmed an offer of $2,230 to Earl S. Butler, et ux, reported by the Chief Counsel, for acquisition of real property needed as right of way for the Reedsport-Luder Creek Section of the Umpqua Highway in Douglas County, which offer was tendered to the owner prior to commencement of condemnation proceedings in conformity with authority granted by the Commission in its resolution adopted December 20, 1951.

At 10:00 a.m., Standard Oregon Time, the Acting Chairman, Charles H. Reynolds, announced that the meeting was for the principal purpose of receiving and opening bids for the purchase of a block of $10,000,000 of Oregon State Highway Bonds. He then inquired if there were any bids for the bonds that had not been presented at the Commission's table. There being none, bids as follows for the purchase of the bonds offered for sale were then opened and read aloud by the Secretary pursuant to previously published notice, at the conclusion of which the Acting Chairman stated that the bids would be studied by the Commission and that the Commission's decision with respect to the bids would be publicly announced at 11:15 a.m.:

The Chief Counsel requested authority to commence proceedings necessary to prevent Mr. Sam D. Rawson from interfering with the State's removal of cinders from a state-controlled pit on Round Butte, near Redmond, in connection with construction of the Terrebonne Section of The Dalles-California Highway. He recalled that Mr. Rawson had a mining claim on the property and had commenced suit against the State in August, 1951, to prevent the State from using cinders from this source and that dismissal of the case had been obtained. Then in September, 1951, Mr. Rawson commenced an action against the State's contractor, Mr. F. L. Somers, to enjoin him from removing the cinders, which case is now waiting decision of the Circuit Court. As Mr. Rawson's mining claims were filed on Government property, the State requested the Government

to commence action against Mr. Rawson to determine the validity of his claims. Judge Solomon ruled that Mr. Rawson's mineral claim is invalid and has enjoined him from using, occupying the land, or removing cinders from it. It was the Chief Counsel's thought that the decision in this case should afford a basis for dismissal of Mr. Rawson's case against the contractor, F. L. Somers, whose case the State is defending. He requested that the Commission allow him to take action as may be necessary against Mr. Rawson to prevent him from interfering with the contractor's operations. The Commission approved the request.

The Commission approved a request of the Chief Counsel for authority to commence a specific performance suit against John Steward and Roberta Stewart in connection with an option signed by the Stewarts for right of way for the Medford-County Farm Section of the Pacific Highway in Jackson County. The Chief Counsel explained that the suit is based on the matter of access only and the question of money is not involved.

The Commission considered carefully items of proposed legislation as explained by the Chief Counsel. On the basis of the explanation of the various bills, the Commission approved their introduction to the legislature through the Legislative Highway Interim Committee with the reservation that any changes deemed essential by the Commission will be made known to the Chief Counsel before January 14, 1953.

The Commission considered, and upon the recommendation of the Chief Counsel, approved a petition for the vacation of certain streets in the townsite of Etna adjacent to the Highway Department maintenance site in Meecham, Umatilla County. It was explained by the Chief Counsel that the request for vacation was instigated by the State in order to improve facilities at the maintenance headquarters' site. (A form of "Consent to Vacation" was signed by the Commission later in the session.)

The Commission considered and accepted the resignation of Mr. Fred A. Miller as Assistant Chief Counsel, effective December 31, 1952.

The Chief Counsel requested that the salary of Mr. Leonard I. Lindas be increased to $600 per month. He explained that Mr. Lindas has assumed charge of the Trial Section in the Legal Department and has performed very creditably. He also requested that no action be taken at this time on the appointment of an Assistant Counsel. The Commission approved both requests.

The Chief Counsel also requested that the salary of Owen E. McAdams be increased from $350 per month to $375 per month. The request was approved by the Commission.

The Engineer presented a report regarding an overpass at Boeckman Road on the West Portland-Hubbard Highway in Clackamas County. He recalled that at the previous meeting of the Commission a delegation appeared seeking construction of an overpass at this location on the basis that property had been purchased from them with the understanding that an overpass would be built. He also recalled that an agreement had been entered into with the Clackamas County Court

but it still is quite hazardous and improvement should be considered in an early program.

The Commission approved the report.

The Commission also discussed a report from the Engineer on the request of Philip A. Dale, President of the John Day Chamber of Commerce for reconstruction of the John Day-Beech Creek Section of the Pendleton-John Day Highway in Grant County. The Engineer advised that inasmuch as $800,000 has been allocated to the John Day Highway between Dayville and John Day, it did not appear that funds would be available for further improvement in that vicinity for several years. An investigation, he stated, will be made as to the width of oiled surfacing, and some minor betterment work might be in order upon the completion of the investigation. The Commission approved the report.

A report from the Engineer on the request of Mayor E. Van Voorhis of John Day for improvement of US 395 between John Day and Canyon City in Grant County was considered by the Commission. The Engineer stated that the request was for the straightening, widening, drainage, and curb-to-curb oiling, and he suggested inasmuch as there are no funds available to finance the work at this time, that consideration be given to the project at some future time when state funds are available. The Commission approved the recommendation.

The Commission considered objections offered by business men of the Town of Gleneden Beach to the proposed relocation of the Oregon Coast Highway that will by-pass this community. The Engineer advised that the proposed change was surveyed in 1936 and was then adopted by the Highway Commission and is still considered the best route for the highway. It is planned, he said, to maintain the present highway as a frontage road for use by people who want to stop at Gleneden Beach. He estimated the cost to construct the by-pass at $126,000, plus $12,000 for right of way as compared with an estimated cost of $263,150 to improve the existing highway. He recommended that the proposed by-pass route be reaffirmed and that when reconstruction of the highway takes place that it be on the 1936 location. The Commission approved the recommendation unanimously.

The Engineer presented a report on estimates of bond fund balances that are expected to be available during the coming months, amounts that can be safely loaned, and periods over which the loans can safely be extended. He pointed out that the $12,000,000 of bond funds now on loan to the Federal Government will be paid off on February 15, 1953. The bond sale conducted today, he said, will yield an additional $10,000,000 as of about March 1. He gave as his opinion that consideration should be given by the Commission to the negotiating of a new series of loans or investments to put these funds to use until they are needed for highway purposes. He explained that interest on the loans made during 1952 and expiring on February 15, 1953, will total $267,000, and he gave as his thought, assuming that the proposed new loans can be negotiated at two percent interest, that they should yield about $220,000. He presented a chart showing estimates of the bond fund balances expected to be available during the coming months and indicating amounts that can be safely loaned over certain periods. He requested authority from the Commission to arrange with the State Treasurer for investment of surplus bond funds in U. S. Treasury Certificates of Indebtedness or other forms of Federal ob-

providing for the elimination of the overpass. The County Court, however, had asked that the agreement be voided on the basis that it was not aware that at the time right of way was acquired in the vicinity of Boeckman Road, an overpass had been planned and the adjacent property owners so informed. He stated that a complete recheck of all right of way proceedings has been made disclosing that in the original right of way negotiations, an overpass was definitely planned and the property owners did sell right of way on that basis. In view of these facts, he recommended return to the original plan and construction of an overpass at Boeckman Road, the estimated cost of which, he said, is approximately $70,000. He explained that funds for the overpass could be secured from an underrun of approximately $133,000 in the construction allotment on this highway section. The Commission approved the recommendation.

The Commission considered a report by the Engineer concerning five requests presented at a previous meeting by members of the US Highway 26 Association, as follows:

1. Reconstruction of the John Day-Mt. Vernon Section of US 26. He advised that this reconstruction project is scheduled for 1953 and that the survey is nearly completed.

2. Reconstruction of US 26 between Mt. Vernon and Flat Creek. He advised that reconstruction of the East Unit of the Dayville-Mt. Vernon Section is scheduled for 1953.

3. Request for construction of a "wye" connection between US 26 and US 20 at Vale, with installation of a traffic separator. The Engineer stated that the highway between Cairo Junction and Vale is being resurveyed and that a considerable portion of it is scheduled for reconstruction in 1954. The plans contemplate a new bridge over the Malheur River and the use of Washington Street in Vale, which is one block north of the main street; also, a study will be made of the new connection between US 20 and US 26, and an attempt will be made to place direction signs which will be fully informative.

4. Elimination of the hairpin turn 6 miles east of Mitchell on US Highway 26. He pointed out that there are two hairpin turns, one 3.5 miles east of Mitchell and one about 6.5 miles east of Mitchell. To remove these two turns, he said, will require about 4.2 miles of reconstruction at an estimated cost of $500,000. He gave as his feeling, in view of the large sum of money spent between Mitchell and Marks Creek, and the small amount of traffic that this road carries, that the Ochoco Highway does not justify any further expense for several years although a field study could be made to see if additional guard fence and larger signs would help the situation.

5. Elimination of the curves on Brogan Hill on US 26. To correct this condition, he stated, will require a line change of about 3,000 feet on a 6 percent grade which is estimated at cost ab ut $85,000. He recalled that a slight improvement had been made on this hill about 20 years ago,

ligations in such amounts and on such terms as will best serve the Commission's purpose. The Commission approved the request unanimously.

The Commission considered a report presented by the Engineer concerning a traffic situation on US Highway 126 at Powell Butte in Crook County, particularly with reference to circumstances surrounding a fatality that occurred at this place on October 17. The Engineer reported that this location had been the subject of several previous investigations and that much of the inherent difficulty at the location lies in the random parking of vehicles along the highway which is particularly true during harvest season as this locality is the center of much activity on the part of people working in the fields. He recommended in order to correct the situation, installation of a flashing beacon and the prohibition of all parking on the main highway at the intersection. The Commission approved the Engineer's recommendations and thereupon adopted the attached resolution relative thereto, marked EXHIBIT "B" , which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that, in connection with an overall speed zone investigation of US 99W (Pacific Highway West), a condition has been found existing on this highway south of Amity, Yamhill County, that should be corrected. He pointed out that the pavement at this point is twenty feet wide and that the section contains a concrete bridge over Ash Swale with impaired horizontal clearance. Roadside culture, he said, consists of residences and business establishments and presently the indicated speed along this section is 25 miles per hour. He further advised that the accident rate during 1951 was 9.06 accidents per million vehicle-miles as compared with an average accident rate on all suburban primary state highways for the same period of 11.02; also, that speed checks show that 91 percent of all vehicles observed were exceeding the indicated speed of 25 miles per hour. He added that the State Speed Control Board is now considering the matter of speed zoning that section of the highway within the corporate limits of the town of Amity. He recommended establishment of a 30-mile per hour speed zone outside of the city on that portion of US 99W which extends from the south limits of the city to the south end of the Ash Swale Bridge. He also recommended establishment of a 40-mile per hour speed zone from the south end of the Ash Swale Bridge to a point 0.26 mile south of the south city limits of Amity, the designation of such speed zones to be contingent upon the State Speed Control Board establishing a 30-mile per hour speed zone within the southerly limits of Amity. The recommendation was unanimously approved by the Commission.

In this connection the Engineer also presented the matter of establishing a reduced speed zone on US 99W adjacent to the community of Rickreall. At the present time, he stated, the indicated speed through Rickreall on US 99W is 25 miles per hour. He pointed out that the accident rate during the year 1951 was 3.70 per million vehicle-miles as compared with the average primary state highway accident rate for rural areas of 11.02. Speed checks revealed that 93 percent of all vehicles exceeded the present indicated speed of 25 miles per hour. He recommended establishment of a 40-mile per hour speed zone on US 99W between a point 0.12 mile north of the Rickreall Elemen-

tary School and a point 0.07 mile south of its intersection with the Salem-Dallas Highway. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "C" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A petition was presented from 240 residents and property owners of the Upper Rogue River District, Jackson County, requesting correction of a number of hazardous conditions which, it is alleged, exist on the Crater Lake Highway between Shady Cove and Trail. The Engineer advised that this matter has been investigated by the Division Engineer and the Traffic Engineering Department who recommend the following:

1. Removal of a cut bank 30 feet long at the intersection of a county road at M. P. 21.23 to provide a sight-distance of 310 feet. Estimated cost $300.

2. Construction of a four-foot shoulder on the river side of the highway between Stations 1238 and 1245 at M. P. 22.40. Estimated cost $1,500.

3. Installation of a flashing beacon at the intersection of the Tiller-Trail and Crater Lake Highways implemented with large "NARROW BRIDGE" and "SLOW" signs, to eliminate a hazardous condition that exists at this point. Estimated cost $500.

4. Widening of shoulders on the river side of the highway for a distance of 1,620 feet, from Station 1184+26 to Station 1190+32 and from Station 1217+19 to Station 1227+30. Estimated cost $3,500.

He mentioned that the grand total cost of such improvements amounts to $5,800, and he recommended approval of the expenditure as a minor betterment item for 1953 performance. The Commission approved the recommendation unanimously.

Mr. V. C. Stockton, a member of the co-partnership of Stockton and Son, consisting of V. C. Stockton and C. E. Stockton, Route 1, Box 627, Gresham, Oregon, appeared before the Commission with reference to contract awarded to the co-partnership on November 24, 1952, for construction of the Cereghino Haul Road Bridge project adjacent to the T. H. Banfield Expressway about one and one-half miles west of Fairview in Multnomah County, for which project the co-partnership bid the amount of $12,060.00. Mr. Stockton stated that in submitting the bid for this project the item of insurance was overlooked, and subsequent investigation had revealed that the required insurance would cost the co-partnership at least $2,000.00, although, as yet, a definite figure has not been secured from the co-partnership's insurance company. Mr. Stockton further stated that the matter is still open, and that if the co-partnership is unable to secure the required insurance at a satisfactory premium cost then it would not accept the award of the contract and would forfeit to the State the amount of the proposal bond accompanying the bid, which bond amounts to the sum of $603.00, providing the standing of the co-partnership with the State Highway Commission is not impaired by so doing. The Engineer stated that the Highway Commission

must know just what Stockton and Son intend to do about the matter and he asked Mr. Stockton to make a definite decision at this time. Mr. Stockton replied that, under the circumstances, Stockton and Son will definitely not accept the contract award and will forfeit the amount of the bond accompanying the proposal. He then returned to the Commission four copies of the form of contract and performance bond which previously had been sent to Stockton and Son for execution. Thereupon the State Highway Commission adopted the following Resolution:

"WHEREAS, the State Highway Commission heretofore, on November 24, 1952, after statutory advertising, received and publicly opened bids for the construction of the Cereghino Haul Road Bridge, located adjacent to the T. H. Banfield Expressway, about one and one-half miles west of Fairview in Multnomah County; and

WHEREAS, Stockton and Son, a co-partnership consisting of V. C. Stockton and C. E. Stockton, Route 1, Box 627, Gresham, Oregon, was the low bidder on the said project, the amount of the bid submitted being in the sum of $12,060.00; and

WHEREAS, the proposal submitted was accompanied by proposal bond No. 92-099841, written by Maryland Casualty Company of Baltimore, guaranteeing that Stockton and Son, if awarded the contract for the project, would enter into a contract for the completion of said work and provide a bond for the faithful performance thereof in accordance with the requirements of the proposal; and

WHEREAS, standard forms of contract and performance bond were thereafter forwarded to Stockton and Son, Gresham, Oregon, to-wit: On December 4, 1952; and

WHEREAS, the said form of contract and performance bond were not executed and returned within 10 days from the receipt thereof, not including Sundays, and V. C. Stockton, a member of and representing the co-partnership of Stockton and Son, now has publicly repudiated before this commission the acceptance of the award of the said contract, which award was publicly announced on November 24, 1952, and Stockton and Son were duly notified thereof in writing;

NOW, THEREFORE, BE IT RESOLVED That this Commission now find and determine that the said Stockton and Son, a co-partnership consisting of V. C. Stockton and C. E. Stockton, are in default and have abandoned the said contract; and,

BE IT FURTHER RESOLVED That the guarantee accompanying the proposal for the project is hereby declared forfeited and the same shall become and be the property of the State Highway Commission; and,

BE IT FURTHER RESOLVED That the Chief Counsel for the Commission be, and he hereby is instructed, authorized and empowered to take such action as may be necessary to collect from the co-partnership, or from

Maryland Casualty Company of Baltimore, the sum of five per cent (5%) of the amount of $12,060.00 bid for the construction of the project, to-wit: the sum of $603.00; and,

BE IT FURTHER RESOLVED That this Resolution be entered in the Minutes of this meeting and that the Secretary of this Commission send duly certified copies thereof to Stockton and Son, Route 1, Box 627, Gresham, Oregon, and to Walter J. Pearson & Co., General Agents for Maryland Casualty Company of Baltimore, 222 Pittock Block, Portland, Oregon."

Following adoption of the said Resolution the matter was further discussed by the Commission and as a result thereof, the Commission voted unanimously to award the contract to Teller Construction Company, Portland, the second low bidder, at its bid price of $15,920.00 which bid was submitted along with other bids at the meeting of the Commission held on November 24, 1952.

The Commission had under consideration a resolution from the Common Council of the City of Corvallis requesting approval of the Federal Aid Urban Highway System in the Corvallis urban area, and that such system be submitted to the Federal Bureau of Public Roads for its approval. The Engineer explained that the current program for Federal Aid urban funds contains an allocation for the North Corvallis Section of US Highway No. 99W, but before construction can proceed, it is necessary that the Corvallis urban system be approved by the Bureau of Public Roads. He exhibited a map showing the proposed system and recommended approval of the same. As a result of discussion, the Commission unanimously adopted the program as recommended and authorized the Engineer to submit the same to the Bureau of Public Roads for its approval.

The Engineer requested authority to construct three short passing lanes on the Necanicum Highway to allow log trucks to travel along the extreme right-hand side of the highway thus permitting faster traffic to pass in safety. He estimated the cost involved at $5,000, and advised that if the Commission approves the project, the work will be done as a minor betterment project in 1953. The Commission approved the request.

The Commission discussed a request from the Ophir Women's Club that reconsideration be given to their previous request to provide public facilities on US 101, about one mile south of Ophir. The Engineer recommended that the request be denied for the same reasons that it was denied previously--that the area is strategically located for development, but the highway through this section is to be reconstructed, and any proposed development should wait final highway relocation plans. The Commission approved the recommendation.

A request was presented from Mr. V. F. Wigren, Mayor of the City of Cascade Locks, for certain improvements at the intersection of the Old Columbia River Highway and the new Columbia River Highway in the eastern part of the City of Cascade Locks in order to eliminate certain traffic hazards that now exist at this location. The Engineer exhibited a map showing the existing situation. He advised that the matter has been investigated by the Traffic Engineering Division, and that the findings indicate that something should be done to alleviate the condi-

tions referred to. He recommended construction of a left-turn refuge and installation of two luminaire units, which he estimated would cost about $1,500, on the condition that the City of Cascade Locks will adopt necessary ordinances prohibiting parking on the south side of the highway for a distance of 325 feet westerly from the center of Forest Road on the north side of the highway westerly from the center line of Forest Road, a distance of 325 feet, and on both north and south sides of the highway for a distance of 200 feet east of Forest Road intersection. The Commission approved the recommendation unanimously and so ordered.

The Engineer reported that when the highway office building in Salem was erected bronze was not obtainable because of war time restrictions, and the name of the building "State Highway Building" incised into the face of the marble on the front of the structure is difficult to see. He recommended an expenditure of about $750 to install bronze lettering over the incised lettering so the name of the building will be easily discernible. The Commission approved the recommendation.

The Engineer requested authority to increase the project authorisation in connection with each of the following State Highway Contracts:

1. Contract No. 3481 for construction of the Siletz-Logsden Section of the Siletz-Logsden County Road. Increase required $18,500.

2. Contract No. 3748 for construction of the Lafayette-North Yamhill River Section of US 99W. Increase required $40,800.

He explained details. The Commission approved both increases unanimously.

The Commission discussed briefly, but deferred action until its next meeting, a petition from members of the congregation of the Community Church in Westport requesting installation of a traffic signal on the Lower Columbia River Highway at its intersection with the main street in their town, as a protection to pedestrians who are obliged to cross the highway at this point.

A petition was presented from residents and members of the Colton Parent-Teachers' Association requesting installation of a manually operated traffic light at the intersection of the Woodburn-Sandy State Secondary Highway with Wall Street in Colton for the safety of school children and other pedestrians who are obliged to cross the highway at this point. The Engineer advised that this matter has been investigated and from the findings, he cannot recommend installation of the traffic signal; however, in his estimation, the establishment of a school boy patrol probably will take care of the situation. He also said that he has suggested such solution of the difficulty to Captain Walter Lansing, Director of the Traffic Safety Division of the Secretary of State'e Office. The Commission unanimously approved the report.

The Commission had under consideration the offers and bids of The First National Bank of Chicago and Associates; The First National Bank of Portland, Oregon, Harris Trust and Savings Bank and Associates; Bankers

Trust Company and Associates; Kuhn, Loeb & Company and Associates; Smith, Barney & Company, C. J. Devine & Company, Inc. and Associates; Halsey, Stuart & Company, Inc. and Associates submitted at 10:00 a.m. this day for the purchase of $10,000,000 of Oregon State Highway Bonds. It was the considered opinion of the members present that the offer submitted by The First National Bank of Chicago and Associates was the lowest and the best offer received, and that the interest of the State of Oregon would be best served by acceptance of said offer. Accordingly, a motion was made by Commissioner McIver that the offer of The First National Bank of Chicago and Associates be accepted for the entire amount of $10,000,000 face value of Oregon State Highway Bonds now offered for sale and that the bonds be sold to The First National Bank of Chicago and Associates for the amount of its said offer. The motion was duly seconded by Commissioner Reynolds, Acting Chairman, and having received the majority vote of the members of the Commission, was by the Acting Chairman declared carried. At 11:15 a.m. the Commission's decision was publicly announced by Acting Chairman Reynolds.

The Commission then considered offers as follows for the lithographing of the bonds:

List of Bidders

1. Columbian Bank Note Company, Chicago
2. Irwin Hodson Company, Portland
3. Security Bank Note Company, Chicago
4. American Bank Note Company, Chicago

Bidder	Printing Cost	Extra Numbering Coupon Backs	Extra Additional Interest Rates (Each)	Extra Multiple Signature Facilities 1¢	Extra Impressing State Seal	Extra Shipping Charges to N.Y.	Comparable Totals
1.	2,240.00	125.00	25.00	100.00	84.00	51.00	2,525.00
2.	2,750.00	------	50.00	100.00	70.00	50.00	3,070.00
3.	2,490.00	------	0.00	100.00	75.00	0.00	2,665.00
4.	2,600.00	------	0.00	100.00	50.00	38.15	2,738.15

Total for Columbian Bank Note Company does not include extra for numbering coupon backs ($125.00)

All totals include extra amount for two additional interest rates

As a result of careful study, the Commission determined that the offer of the Columbian Bank Note Company, Chicago, was the best offer received. Accordingly, the contract for the lithographing of the bonds was awarded to the Columbian Bank Note Company at its bid price upon motion by Commissioner McIver which

was duly seconded by Acting Chairman Reynolds.

The Commission unanimously confirmed telephonic authority heretofore given the Engineer to install a "STOP AND GO" traffic signal on "Noon" Bridge over the Marys River on the Corvallis-Newport Highway, just west of the town of Philomath. Estimated cost $2,000.

The Engineer reported that the survey for the location of the Little Sheep Creek Secondary Highway between the town of Joseph and the end of the oiled pavement approximately five miles easterly of the town, in Wallowa County, has been completed. He exhibited a map showing the proposed location and explained details. He recommended adoption of the survey by the Commission. As a result of discussion, the Commission approved and adopted the said survey as recommended. The attached resolution relative thereto, marked EXHIBIT "D" , which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission by unanimous vote.

The meeting recessed for luncheon at 12:00 Noon and reconvened at 1:30 p.m. with the same persons present and participating.

The Engineer requested authority to install two large illuminated signs and seven mercury vapor luminaire units at the junction of the old and new locations of US 30, a short distance east of the City of La Grande. He estimated the cost of the installation at upwards of $3,500, and advised that the installation is definitely needed in order to safeguard traffic at this point. He exhibited a map showing existing conditions. As a result of discussion, the Commission approved the request unanimously, and authorized the Engineer to proceed with the installation in accordance with the proposed plan.

The Engineer requested authority to purchase approximately 200 tons of steel foundation piling costing about $27,000, some of which is to be stocked in Portland, some in Salem, and some in Roseburg. He explained that a large number of highway bridges require steel foundation piling which is in great demand and is very hard to get. The slow delivery of this material, he said, has seriously delayed the starting and completion of many highway projects, and his idea in stocking the material is to expedite the starting of jobs requiring such material, by loaning a sufficient amount to the contractor who would be required to replenish the stock in an equal amount later, thus providing a revolving supply of the piling. The starting and completion of many structures which are now scheduled for construction, he added, will be greatly expedited by this procedure. As a result of discussion, the Commission unanimously approved an expenditure of $27,000 for this purpose.

The Commission had under discussion the following requests for extensions of time within which to complete highway contracts:

1. Rogers Construction Company, Contract No. 3731, for surfacing the York Ranch-Hay Creek Section of the Wasco-Heppner State Secondary Highway, Gilliam County, requested an extension of time of 45 days, from

October 31 to December 15, 1952, within which to complete this job. They alleged that the overrun in time limit was due to their not being allowed by the State to start operations on the Mill City-Stout Creek project, Contract No. 3627, as soon as anticipated which tied up their equipment on this job from May 31 to August 15, 1952. The Engineer advised that the reason given by the contractor for overrunning the time limit is correct, that he was unable to start work on the Mill City-Stout Creek project as soon as he wanted to because of delays of the grading contractor. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

2. Barney B. Helser, Contract No. 3782, for rock production on the Maupin Cow Canyon-Shaniko Section of The Dalles-California and Sherman Highways in Wasco County, requested an extension of time of 62 days, from November 30, 1952 to January 31, 1953, within which to complete this job. He alleged that his failure to complete the project within the specified time limit was due to delays occasioned by the performance of extra State work required on his last three contracts. The Engineer advised that this contractor had several State Highway rock production projects underway during the summer season, several of which required extra quantities of material, and he was hindered in starting the project under discussion by reason thereof. He further stated that the material to be furnished in the current contract is for use during 1953 so the State has not been inconvenienced by the delay in completing this project nor has the State suffered any losses by reason thereof. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

3. H & R Construction Company, Contract No. 3631, for construction of the Second Street Overcrossing of the Union Pacific Railroad on the Columbia River Highway in the City of Hood River, requested an additional extension of time of 76 days, from September 30, to December 15, 1952, within which to complete this job. They attributed their failure to complete the project within the specified time limit to labor difficulties. The Engineer advised that this project was previously extended from August 31 to September 30, 1952 without penalty; also, that the structure was complete except for cleaning up the site prior to September 30. The clean-up work, he said, is being accomplished at the same time and with the same crew that is completing the work on the adjacent highway overcrossing. He pointed out that this structure cannot be opened to traffic until the new Columbia River Highway to which it connects has been completed. He recommended that the additonal extension of time as requested by the contractor be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

4. H & R Construction Company, Contract No. 3659, for construction of the Second Street (Highway) Overcrossing on the Columbia River Highway in the City of Hood River, requested an extension of time of 76 days from September 30 to December 15, 1952, within which to complete this job. They attributed their failure to complete the project within the specified time limit

to labor difficulties. The Engineer advised that this structure was completed, except for cleaning up the site and performance of a small amount of surface finish work, within the specified time limit. This structure, he said, cannot be used until the surfacing on the new Columbia River Highway at this point is completed. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

5. Vernie Jarl, Contract No. 3672, for grading and paving the Union Avenue Service Roads on the Pacific Highway East in Portland, Multnomah County, requested an extension of time of 67 days, from September 15 to November 30, 1952, within which to complete this job. He attributed his failure to complete the project within the specified time limit to delays of a subcontractor on paving work. The Engineer advised that the grading operations on this job were handicapped because of wet materials which precluded the spreading of base rock until such time as the fill was sufficiently dried out and compacted. He also stated that the contractor was required to furnish an increased amount of base rock for the section. The project, he said, was satisfactorily completed on November 21, 1952, and he recommended that the extension of time be granted without penalty to that date. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

6. Loree Building Service, Contract No. 3780, for construction of a State Highway Maintenance Shed in Pendleton, requested an extension of time of 182 days, from November 30, 1952 to May 31, 1953, within which to complete this job. They attributed their failure to complete the project within the specified time limit to delay in securing a shipment of steel sash which prevented completion of the painting involved until the spring of 1953. They pointed out, however, that the building may be occupied as all other work will be completed and the prime coat of paint will be applied to all wood trimming and the doors. The Engineer advised that the contract is complete except for painting the steel shaft and the doors. He also said that the contractor was delayed in completing the contract because of slow delivery of the sashes. He further stated that he directed the contractor to postpone the painting work until the spring of 1953 when weather conditions are favorable, and that the building is now occupied and in use by highway maintenance forces. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

7. Loree Building Service, Contract No. 3773, for construction of a Highway Maintenance Building in the city of Baker, requested an extension of time of 182 days, from November 30, 1952 to May 31, 1953, within which to complete this job. They attributed their failure to complete the project within the specified time limit to five weeks delay in receiving a shipment of steel sash which made it impossible to finish painting work until next spring. The Engineer advised that this structure is complete with the

exception of painting the steel sashes and the doors, delivery of the sashes being delayed until it became impractical to do the painting work this fall. He also said that he directed the contractor to postpone the painting work until suitable weather obtained next spring. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

8. West Coast Steel Works, Contract No. 3755, for furnishing and installing expansion plates on the Oregon Slough Bridge on U. S. 99 in North Portland, requested an extension of time of 31 days, from November 30, 1952 to January 1, 1953, within which to complete this job. They stated that all work contemplated in the original contract was completed prior to the expiration of the specified time limit and the additional time is required to complete some approved orders for extra work. The Engineer advised that the reason given by the contractor for overrunning the specified time limit is correct. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

9. Carl M. Halvorson, Inc., Contract No. 3632, for construction of the Hood River overcrossing on the Columbia River Highway in Hood River County, requested an extension of time of 87 days, from November 30, 1952 to February 25, 1953, within which to complete this job. They gave the following reasons for failure to complete the project within the specified time limit: (1) Revision of the plans, necessitating additional false work, enlargement of footings at bents 4 and 7, and installation of 4 additional piles at bent 7; (2) Adverse subsurface conditions which required longer piling than was anticipated and difficulties in securing such piling; (3) Subsurface conditions which necessitated installation of 42 cubic yards of seal concrete; and, (4) Unanticipated lowering of footings west of the Union Pacific Railroad tracks. The Engineer advised that because of unforeseen foundation conditions it was necessary to change the elevation of footing on some bents and to use considerably longer piling which required splicing; also, that the drawings were revised at the request of the Bureau of Public Roads to include struts between the columns at two of the substructure bents, which changes and additions required additional work and time. He recommended in view thereof that the extension of time as requested be granted to the contractor without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

10. General Construction Company, Contract No. 3445, for construction of viaduct approaches to the Marion Street Bridge on the Salem-Dallas Highway in the City of Salem, requested an extension of time of 365 days, from August 31, 1952 to August 31, 1953, within which to complete this job. The following reasons were given by the contractor for overrunning the specified time limit: "The steel which was erected by another company and which was to be completed as per specifications on August 31, 1951 was completed August 1, 1952, approximately one year behind schedule. Inasmuch as we have a 'Stop Order' on painting due to the weather, we ask that we be granted this extension in order that we may paint in good weather." The Engineer advised that the reason given by the contractor for overrunning the specified time limit is correct. The structure is now

complete, he said, with the exception of the approach ramp which crosses through the site of the present Center Street Bridge approach, and the painting of the structural steel, which the contractor has been ordered to postpone until next year when weather conditions are favorable. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

11. Schrader Construction Company, Contract No. 3717, for construction of the Chenoweth Park Overcrossing on the Pacific Highway in Douglas County, requested an extension of time of 62 days, from November 30, 1952 to February 1, 1953, within which to complete this job. They alleged that their failure to complete the project within the specified time limit was due to the grading operations of another contractor which did not permit work to start on the structure until July 29, 1952, some two months after the contract was awarded. The Engineer advised that the site of this structure is over a deep cut through which the relocated U. S. 99 Highway is routed. No work could be done on the structure, he said, until the grading contractor had completed the excavation through this cut, which was not accomplished until July 29, 1952, some two months after the contract was awarded. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

12. Funderburk Construction Company, Contract No. 3623, for grading and oil mat surfacing on the Lone Rock Bridge-Rock Creek Section of the North Umpqua County Road in Douglas County, requested an extension of time of 270 days, from September 30, 1952 to June 30, 1953, within which to complete this job. They attributed their failure to complete the project within the specified time limit to slide conditions and slow delivery of a new power shovel which they ordered for the work. The Engineer advised that the contractor was considerably delayed by large slides and was also delayed because of the failure of the California-Oregon Power Company to remove its transmission pole line from the construction area in time for the contractor to carry on his operations without obstruction. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

13. E. L. Kennard, Contract No. 3691, for grading and surfacing the Cape Lookout Park Access Road in Tillamook County, requested an extension of time of 240 days, from September 30, 1952 to May 31, 1953, within which to complete this job. He gave the following reasons for failure to complete the project within the specified time limit: adverse soil conditions and material that was difficult to handle. The Engineer advised that the contractor was unable to operate this job in a normal manner because of extremely swampy conditions. He recalled that the Commission previously increased the project authorization for this job to cover the placement of sand stabilization materials which were required in order that the roadway might be

completed. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

14. Arthur Simonsen and George Borgen, Contract No. 3664, for rock production on the Baker-Huntington Section of the Old Oregon Trail requested an additional extension of time of 181 days, from December 31, 1952 to June 30, 1953, within which to complete this job. They attributed their failure to complete the project within the specified time limit to refusal of two subcontractors to perform work allotted to them in accordance with agreement, which carried the job into bad weather. The Engineer advised that at the time this job was awarded to Simonsen and Borgen, they assured the Commission that they had arranged to obtain suitable crushing equipment, however, the arrangements did not materialize for reasons unknown to him. Subsequently a new arrangement was made with another contractor to do the crushing work. The Engineer also pointed out that when this contract was awarded, it was on the basis that the rock would be used for summer maintenance work in 1953. The State, he said, will not be inconvenienced by the delay and engineering costs will not be increased, as the material will be produced and ready for use by June 30, 1953. He recommended that the additional extension of time as requested be granted without penalty, but on the basis that the contractor's prequalification be revised and that he be not permitted to submit a bid for any work in the future for which he does not have adequate equipment on hand at the time the bids are opened. The Commission approved the recommendation and so ordered.

15. Grimstad & Vanderveldt and Heavy Hauling Company, Contract No. 3566 for clearing, grading, bridge construction, and surfacing on the Cannon Beach-Arcadia Section of the old Oregon Coast Highway in Clatsop County, requested an extension of time of 45 days, from October 1, 1952 to November 14, 1952, within which to complete this job. They attributed their failure to complete the project within the specified time limit to slow delivery of culvert pipe, dry fall weather during which burning permits could not be obtained, late spring, and slides which increased the yardage to be handled. The Engineer advised that the reasons given by the contractor for overrunning the specified time limit are substantially correct. He further stated that the project was actually completed on November 8, 1952. He recommended that an extension of time be granted up to and including November 8, 1952. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

16. R. A. Heintz Construction Company, Contract No. 3534, for grading and paving the Bridgeton Road-Gertz Road & Columbia Slough-Columbia Boulevard Sections of the Pacific Highway East in North Portland, Multnomah County, requested an additional extension of time of 61 days, from September 30 to November 30, 1952, within which to complete this job. They gave the following reasons for failure to complete the project within the previously extended time limit: delay caused by the State in jacking up the Slough Bridge to a new grade line which prevented paving and installation of traffic separators thereon; orders from the Engineer to remove islands at Bridgeton Road and install additional traffic separators beyond the limits of the contract quantities; delays in completing concrete divider

at the north end of the project until the Union Avenue service road connections to the underpass were in operation, the service roads being under construction by another contractor. The Engineer advised that the contractor was unable to pave or install traffic separators at the Oregon Slough Bridge due to delay by Oregon State forces in jacking the bridge to its new grade. He confirmed the contractors' statement as to the cause of the additional delays. He pointed out that the contract was actually completed on November 28, 1952, and he recommended that the extension of time be granted up to and including that date, without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

17. Todd Building Company, Contract No. 3728, for construction of the Oakland Junction Grade Separation structure on the Pacific Highway in Douglas County, requested an extension of time of 30 days from November 30, 1952 to December 30, 1952, within which to complete this job. They stated that they expect the job to be completed by the specified completion date (November 30, 1952) and that the overrun of time limit is simply to cover finishing work which will require additional time because of the rainy and cold weather that is now being experienced. The Engineer advised that the structure was completed on the specified date of completion, November 30, 1952, with the exception of removal of equipment and surplus form lumber. He further stated that no engineering costs have been incurred on the job since November 30, and he recommended in view thereof that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

18. Lindstrom Brothers, Contract No. 3587, for bridge construction on a county road at Dee, Hood River County, Oregon, requested an additional extension of time of 23 days, from December 1 to December 23, 1952, within which to complete this job. They advised that the structure is completed and open to traffic and all that remains to be done is cleaning up work which has taken them longer than they anticipated. The Engineer advised that this contract was previously extended by the Commission from August 31 to November 30, 1952, subject to the provision that the contractor would reimburse the State for all engineering expense incurred on the job during the period of that extension. He recommended that the additional extension of time now requested be granted subject to the same condition, that the contractor reimburse the State for all engineering costs incurred on the job subsequent to August 31, 1952, the original specified completion date. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

19. Zephyr Electric, Contract No. 3781, for installation of traffic signals in the City of LaGrande, requested an extension of time of 120 days, from December 31, 1952 to April 30, 1953, within which to complete this job. They attributed their failure to complete

the project within the specified time limit to difficulties in obtaining some of the necessary materials that enter into the installation, and because of adverse weather conditions. The Engineer advised that the contractor was delayed in receiving essential materials to be incorporated in this signal contract. The material is now being delivered, he said, and the installation will be complete so that the signals can be operated by January 31, 1953. The extension of time to April 30, he said, is simply to allow painting work to be done during suitable weather. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

20. Porter W. Yett, Contract No. 3637, for paving the Summit-Buxton Section of the Nehalem Secondary Highway, Washington County, requested that an extension of time of 45 days, from September 30 to November 16, 1952, within which to complete this job. He attributed his failure to complete the project within the specified time limit to exceptionally unfavorable early spring and summer construction weather. The Engineer advised that the contractor operated this project in conjunction with another contract, No. 3620, for improvement of the Quartz Creek-North Plains Section and utilized the same quarry for both jobs, and that he experienced considerable delay because of the unsuitability of two other quarries which he opened up and attempted to use. The contractor's operations, he said, were entirely satisfactory and the engineering expense remained commensurate to the work accomplished. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

21. Delano Aerial Surveys, Contract No. 3759, for aerial photography and topographic mapping of the Euchre Creek-Brookings Section of the Oregon Coast Highway, Curry County, requested an extension of time of 60 days from December 31, 1952 to February 28, 1953, within which to complete this job. They alleged that the overrun of time limit was occasioned by the large amount of detail required in plotting and drafting, including some redrafts. The Engineer advised that this is the first contract of this type ever to be awarded by the State Highway Commission and that it is now believed insufficient time was allotted in which to take care of the large amount of detail that is required. The State, he said, has suffered no apparent excess engineering expense, neither has the delay caused the State any inconvenience. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

22. Coos Bay Dredging Company, Contract No. 3464, for grading and paving the Cedar Point-Coquille Section of the Oregon Coast Highway, Coos County, requested an extension of

time of 381 days, from October 31, 1951 to November 16, 1952, within which to complete this job. They stated that all work in connection with the job is completed with the exception of paving work which is being done by the subcontractor, Mr. Porter W. Yett. The Engineer advised that all grading and paving on the main roadbed was completed within the specified completion date, however, there were some sidewalks, curbs, and miscellaneous details that have to be carried over into the 1952 season. The subcontractor on the paving job, he said, was engaged on another contract between Bunker Hill and Delmar, and because of the emergency in completing that contract, he was requested by the State to defer the paving of the Cedar Point-Coquille project until the other one was finished. This contract, he said, was actually completed on October 22, 1952 without inconvenience to the public or additional expense to the State. He recommended that an extension of time to October 22, 1952 be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

23. Pacific Sand & Gravel Company, Contract No. 3612, for grading and paving the LaGrande-North Powder Section of the Old Oregon Trail, Union County, requested an extension of time of 19 days, from October 31 to November 10, 1952, within which to complete this job. They alleged that they overran the specified time limit because of extra work that they were required to perform. The Engineer advised that because of an extremely large slide, the contractor was forced to move considerably more material than was originally anticipated and that the surfacing and paving work through the slide area could not be accomplished until the slide materials had been disposed of. The overrun of time, he said, was not the fault of the contractor. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

24. E. C. Hall Company and J. C. Compton Company, Contract No. 3618, for paving the Judkins Point-Goshen Section of the Pacific Highway, Lane County, requested an extension of time of 46 days, from October 15, 1952 to December 1, 1952, within which to complete this job. They attributed their failure to complete the project within the specified time limit to performance of eight price agreements amounting to a total of $53,881.40. Some of the supplies and some of the work involved in these work orders, they said could not be provided or carried on until the principal contract had been completed, so it was necessary to postpone them, which was done with the result that the contract overran the specified time. The Engineer advised that the project was substantially complete and open to traffic on October 21, 1952, in fact, it could have been opened up for travel on the specified completion date but for the installation by State forces of signs and traffic lights to control heavy traffic. Work accomplished after October 21, he said, constituted primarily of curb construction and minor installations,

covered under work orders and price agreements not originally contemplated in the contract. The overrun of time, he said, caused no inconvenience to the traveling public and no additional expense to the State. He pointed out that the job was actually completed on November 26, 1952, and he recommended that an extension of time to that date be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contracts Nos. 3443, 3464, 3479, 3532, 3534, 3566, 3575, 3576, 3578, 3612, 3614, 3618, 3629, 3637, 3645, 3672, 3694, 3710, 3711, 3723, 3728, 3731, 3748, 3768, and 3802 for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof and said projects are now ready for acceptance. After due consideration, the Commission, by unanimous vote, accepted said contracts by adoption of the attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed and unanimously approved an agreement with General Construction Company, Portland, for construction of a temporary pile trestle bridge across the Tualatin River necessitated by the collapse of the main structure by reason of a truck accident. (The agreement was signed later in the session.)

The Commission discussed a letter from the City of Prineville inquiring whether or not it would be possible for the city to use the State Highway Department's scales, located on the Ochoco Highway one-half mile east of the city limits, in connection with the weighing of loads as provided for in a city ordinance that was approved by the people of Prineville at the general election on November 4, 1952. The Engineer recommended against the use of the scales by the City or the assignment of a State weighmaster to operate the scales, because of the expense involved. The Commission concurred in the viewpoint of the Engineer, and instructed the Secretary to inform the City that the operation of the scales as desired is not a function of the State Highway Department inasmuch as the operation would be more than is required by law.

The Commission discussed and denied a request from Mr. Lee Drake, Umatilla County Representative of the Old Oregon Trail Association, for permission to erect and maintain a sign on the Emigrant Hill Section of US30, commemorating the Old Oregon Trail and publicizing certain resources of Umatilla County, it appearing to the Commission that such a sign would be contrary to the law. The Commission expressed themselves in sympathy with Mr. Drake's

idea, but could not approve it on account of the illegal feature and because it has been the practice and policy of the Commission in the past to refuse similar requests.

A letter was presented from Mr. Nathan Ball of the Ball Lumber Company, Hauser, requesting access to the Oregon Coast Highway at a place called Pi-Way Cafe. The Engineer exhibited a map showing the location of the cafe and pointed out that it is located on the old highway which is a short distance west of the new highway that is now under construction by the Bureau of Public Roads. The owner of the cafe, he said, wishes to turn the building around so it will face the new highway and have access to the new highway at this point. He recommended that the request be denied because the cafe is still served by the old road that joins the new highway about 1,700 feet to the south and is available to prospective patrons. The Commission approved the recommendation.

The Engineer reported that it no longer is necessary to maintain the 11 ton maximum load limit on Payette Bridge at M. P. 412.11 on the Old Oregon Trail, in view of the fact that the new bridge at this location has been completed. He recommended appropriate action by the Commission restoring legal weight loads on the structure, effective 8:00 A. M., Thursday, December 11, 1952. The Commission approved the recommendation and by unanimous vote adopted the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that it no longer is necessary to continue the 15 ton load limit which has been in effect for sometime on the Owyhee River Bridge at Nyssa, at M. P. 8.95, on the Nyss-Adrian Secondary Highway No. 450. He recalled that this bridge was damaged by flood waters early in 1952, but has now been reconstructed and will carry legal weight loads. He recommended appropriate action by the Commission to that end effective Monday, December 22, 1952. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported a request from the Crown Zellerbach Corporation, Portland, to purchase for the sum of $4,500, two fabricated steel girders which were used in the construction of the Sunset Highway to carry the Consolidated Lumber Company's railroad over the highway. The girders, he said, belong to the State Highway Department, but are of no further use because the logging railroad has been abandoned. He recommended sale of the girders to the corporation at the price mentioned. The Commission approved the recommendation.

A letter was presented from the County Court of Columbia County requesting the return to the county of one steel truss bridge, known as the Banzer Bridge, which has been dismantled and stocked on US Highway No. 202 between Mist and Birkenfeld. The Court advised that the county can use this bridge advantageously in the replacement of another county bridge which is in bad condition. The Engineer advised that a new bridge has replaced this old

steel structure, so it no longer is of any value for State Highway purposes. He pointed out that the old structure belonged to the county before this highway was placed on the State's system, so in accordance with the Commission's established policy, it would be in order to return the structure to the County for such use as the County may have for it, and he so recommended. The Commission approved the recommendation.

The Commission confirmed telephonic authority heretofore given authorizing out-of-state travel expenses for the following employees:

(1) Mr. Gene Huntley, Personnel Director, to accompany Mr. James M. Clinton, Director of the Civil Service Commission, to Olympia, Washington, early in December to interview state officials of the Washington State Highway Commission concerning engineering salaries. Estimated cost $28.00

(2) Mr. Carl W. Jordan, Director of Travel Information Division, to attend the annual meeting of the Board of Directors of Pacific Northwest Travel Association in Butte, Montana, during January 11 and 12, 1953. Estimated cost $98.00

A letter was presented from the City Council of the City of Newberg, by its City Recorder, pointing out the necessity for a sign bearing the words "STOP, RIGHT TURN PERMITTED WITHOUT STOPPING" on Highway 219 at the intersection of College and Fourth Streets in the City of Newberg. The Engineer advised that this matter was investigated by the Traffic Engineering Department whose findings indicate that the maintenance of signs as requested would be a definite aid in eliminating traffic hazard at this intersection provided the City will pass necessary ordinances to prohibit the parking of vehicles on the north side of Fourth Street east of the east property line of College Street so that people desiring to make a right hand turn at this point can do so without interruption. He recommended approval of the City's request on such condition. The Commission approved the recommendation.

The Engineer reported the need for a reduced speed zone on the Alsea Highway within the city of Waldport and extending easterly thereof a little over a mile. The roadside culture throughout this section, he said, is predominately residential in character, and the condition of the highway is such that it invites fast driving which occasionally results in serious accidents. He recommended establishment of a 50 m. p. h. speed zone on this highway between the east city limits of Waldport, (M. P. 1.09) and Eckman Slough (M. P. 2.45) contingent upon the State Speed Control Board establishing a 40 m. p. h. speed zone on this highway between the east city limits of Waldport and Indian Slough, (M. P. 0.56). The Commission approved the recommendation.

The Engineer also reported on a request from the Waldport Chamber of Commerce for establishment of a reduced speed zone on the Oregon Coast Highway south of Waldport, and for improvement of the highway shoulders in that area. He said that this matter was investigated by the Traffic Engineering Department, and it has been determined from the findings that a 45 m. p. h. speed limit is in order between the south city limits of Waldport and Patterson

Park, provided a like rate of speed is designated by the State Speed Control Board for this highway between the south city limits and Maple Street within the city. He recommended approval of such maximum speed designation subject to the condition mentioned. He also recommended that the request for improvement of the highway shoulders be denied. The Commission approved both recommendations unanimously.

A petition was presented by numerous residents of Salem and vicinity requesting the designation of a 40 m. p. h. maximum speed zone on State Highway No. 222 (South Lancaster Drive) between Macleay Road junction and a place known as Cottage Farm. The Engineer recommended that the request be denied because the roadside culture along the northerly portion of this section consists only of a number of small farms and in the southerly part there is no roadside culture whatsoever except the Cottage Farm itself. A review of the accident record for this section, he said, reveals that during 1951 the rate was 3.67 accidents per million vehicular miles which is considerably below the average accident rate for all rural secondary highways. The Commission approved the recommendation.

A petition was presented from residents and tax payers of Tillamook County requesting that the 25 m. p. h. speed zone now in effect on US 101 just north of the Tillamook city limits be extended to the north side of the Dougherty Slough Bridge, in the interests of public safety. The Engineer advised that this matter has been investigated by the Traffic Engineering Department and from the information gathered, it has been determined that a maximum speed of 25 m. p. h. is too slow for this particular section of highway, although there should be some restrictions. He recommended establishment of a 40 m. p. h. speed zone on this highway between the present terminus of the heretofore designated 25 m. p. h. zone, at M. P. 76. 22, and Dougherty Slough Bridge, at M. P. 75. 94. The Commission approved the recommendation by adoption of the attached resolution, relative thereto, marked EXHIBIT "G-1," which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a request from citizens of Yachats, Lincoln County, urging that provision be made for protecting school children and other pedestrians along US 101 in Yachats. The Engineer advised that this matter has been investigated by the Traffic Engineering Division which recommends as a solution the removal of a dirt bank on the east side of the highway to improve sight distance, and establishment of reduced speed zones along US 101 as follows:

(1) 35 m. p. h. from a point . 3 mile north of Third Street (M. P. 177. 28) to Third Street (M. P. 177. 58)

(2) 25 m. p. h. from Third Street to a point 0. 15 mile south of First Street (M. P. 177. 89)

(3) 35 m. p. h. speed zone from a point 0. 15 mile south of First Street to a point 0. 19 mile south of Yachats River(M. P. 178. 19)

He stated his concurrence in the recommendation. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "G-4" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed and, upon recommendation of the Engineer, denied a request from citizens of Valley Junction for establishment of a 35 m. p. h. speed zone on the Salmon River Highway east of the community of Valley Junction. In his report on this subject, the Engineer advised that the conditions obtaining along this section do not meet the minimum warrant for reduced speeds.

The Engineer reported that in connection with the proposed construction of the new Columbia River Highway opposite Shell Rock Mountain, it is necessary to conduct soundings in the Columbia River opposite this place which necessitates the leasing of a launch. The U. S. Army Engineers, he said, have a satisfactory launch, called "Launch Bonneville" which it will lease to the State for the period of time required, estimated at about four days, at the rate of $231.88 for each eight hour shift, or a total estimated cost of $927.52. He requested authority to lease this launch at the price mentioned. The Commission approved the request unanimously. (An agreement with the U. S. Army Engineers covering the matter was signed later in the session.)

The Engineer brought up for discussion the removal of an abandoned overcrossing of the Southern Pacific Company's tracks at Comstock on the Pacific Highway between Divide and Anlauf. He explained that in the construction of the new highway between these points, the existing overcrossing was rendered useless, and under the Commission's agreement with the Southern Pacific Company when the overcrossing was built in 1919 the State is obligated to remove this structure when it is no longer needed for highway purposes. In conformity with that agreement, he requested authority to advertise for bids for the removal of this structure, which he estimated would cost about $20,000. The Commission approved the request.

The Commission discussed a letter from the Hon. F. V. Garrabrant, Mayor of the City of Hood River, calling attention to a dangerous condition which, he alleges, exists at the west end of the Mosier Tunnel on the Old Columbia River Highway, caused by rocks falling from the cliffs above and endangering highway traffic. The Engineer advised that this matter has been investigated, and it is believed that conditions are no worse than they have been for a number of years. He further stated that a crew is now working on the cliffs combing the slopes of all loose rocks so as to keep conditions as safe as is possible. He pointed out that the new highway which is now under construction at this point will not be opened to travel until the summer of 1953. He recommended that nothing further be done than is being done at this time. The Commission approved the report, however, instructed the Engineer to take every precaution as seems necessary to safeguard traffic on the old road and to expedite construction of the new road as much as is possible.

The Engineer brought up for discussion a request from the City of Stayton for relief from payment of the balance of its proportionate share of

the cost to widen five city street connections on the route of the North Santiam Highway in the City, amounting to $359.38. The Engineer recited the history of this project pointing out that the widening work was done at the request of the City so as to make it possible for truck and trailer combinations sixty feet overall in length to travel this highway route without endangering other traffic. The estimated cost of the work, he said, was $2,000 and an agreement was made with the City whereby the City and State were each to pay 50% of the cost involved. Upon completion of the job, it was found that the work cost $2,718.77, bringing the proportionate share of each to $1,359.38. As the city had advanced only $1,000 towards its share of the expense, it was billed by the Accounting Division for the balance but the City throught its attorney, Mr. J. M. Devers, Jr., objects to paying it. The Engineer gave as his feeling that this is a just claim against the City and that the City should pay it, and he so recommended. The Commission approved the recommendation.

The Commission carefully considered and, upon recommendation of the Engineer, unanimously approved two agreements with the U. S. Army Engineers covering the following subjects:

(1) Relocation, rearrangement, and alteration of facilities for the development of a power and navigation project, known as The Dalles Dam, on the Columbia River Highway in Wasco and Sherman Counties.

(2) Relocation of Oregon State Highway No. 58 (Willamette Highway) around Dexter Dam Project in Lane County

The Engineer recommended approval of both agreements as being in the best interests of the State of Oregon and State Highway Department. As a result of discussion, the Commission approved the recommendation. (Both agreements were signed by the Commission later in the session.)

Commissioner Reynolds brought up for discussion the following subjects:

(1) Construction of guard rail on the Ladd Canyon Section of US 30: He expressed a desire for the early construction of this guard fence and instructed the Engineer to advertise the project for bids at the earliest possible time.

(2) Status of acquisition of additional land near the mouth of Ladd Canyon and the development of the same for a roadside picnic area: Commissioner Reynolds inquired as to what has been done towards acquiring the land and developing it. He expressed the feeling that this area should be acquired and developed as rapidly as is possible. The Engineer was instructed to look into the matter.

(3) Development of a wayside area on US 30 between Ladd Canyon and Rattlesnake Springs: Commissioner Reynolds pointed out that this section of highway presently contains no roadside area. He gave as his feeling that one or more should be developed for public convenience. The Engineer was instructed to investigate the matter.

(4) Living quarters at Meacham on the Old Oregon Trail, Umatilla County: Commissioner Reynolds inquired whether or not provision has been made in the budget for such quarters. He was informed by the Engineer that an item of $25,000 has been included in the 1953 budget for this purpose.

(5) Request of the County Court of Wallowa County that the State assume jurisdiction over a county road extending from the Wallowa Lake Lodge to the falls in the west fork of the Wallowa River: Commissioner Reynolds presented the County's request. He mentioned that the road is about 1½ miles in length and serves a number of summer homes as well as permanent residents of employees of the Pacific Power and Light Company. He gave as his understanding that a boy scout camp is conducted on the premises of the power company and that the power company will allow the free use of this property for recreational purposes if the State will build and maintain a good road leading to it. The Engineer was instructed to investigate the matter from the standpoint of the area being suitable as an addition to the park, and to determine how much it will cost to construct and maintain the roadway.

The Engineer brought up for discussion the claim of Mrs. Mildred Hanks for damage caused her automobile by a Highway Department paving crew, while it was parked on Greenwood Avenue near Adams Avenue in La Grande on September 11, 1952. He advised that investigation discloses that the paving crew has no knowledge or recollection of any damage to Mrs. Hanks car, and for that reason she was informed that the State would assume the cost of removing the asphalt from it up to a maximum of $10.00, whereas she had demanded payment of $30.00, which is the amount she alleges she lost when she traded her car for a new one. He recommended that Mrs. Hanks' demands be denied and that payment to her be limited to the amount of $10.00. The Commission approved the recommendation.

The Commission signed agreements, etc, as follows:

Agreement with the Corbett Water District covering the furnishing of water to Dabney State Park. (Authorized October 20, 1952)

Indenture of Access re change of access points to Kominoth property on Bay City-Tillamook Section of US 101.

Indenture of Access re change of access points to Johnson Property on Cascade Locks Intersection of US 30.

Forest Boundary-Mill Creek Section, Warm Springs Hwy.
Hayesville-Turner Road Section, Salem By-Pass, Pacific Hwy.

Agreement with U. S. Army Engineer Engineers providing for relocation rearrangement or alteration of facilities (lump sum) on US 30 between The Dalles and Rufus, necessitated by construction of "The Dalles Dam". ($1,170,250)

Agreement with U. S. Army Engineers providing for relocation, rearrangement or alteration of facilities on ORE 58 (Willamette Highway) necessitated by construction of "Dexter Reregulating Dam".

The meeting adjourned at 3:00 p. m.

State Highway Engineer

Acting Chairman

Secretary

Commissioner

January 6, 1953

EXHIBITS "A" through "H"

Minutes of

January 6, 1953

EXHIBIT "A"

Minutes of January 6, 1953

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

UNIT #1 - T. H. BANFIELD EXPRESSWAY

19591 - Haralampus, George A. and Angeline G. (Smith)
Right of Way A. & Angelina P. Haralampus (Lessees)
Option expires May 24, 1953 Peerless Trailer & Truck Service

18,145 sq. ft. at $1.65+ per sq. ft. $30,100.00

Amount to be paid owner - chrg to Right of Way $30,100.00

Takes all -

Subject to conditions of lease by Peerless Truck & Trailer Service Inc., Lease expires September 29, 1957.

UNIT #4 - T. H. BANFIELD EXPRESSWAY

19492 - Hagler, S. P. and Lura P. (Johnson)
Right of Way
Option expires April 29, 1953

1,563 sq. ft. Lump Sum. $250.00

(cont.)
